To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Breathalyzer- Interlock Device: A vehicle installed breathalyzer or ignition interlock device is a device attached to the starter of a vehicle which requires a breath sample from the driver to start the vehicle. When a member requests towing for a vehicle with an interlock device, and a specific mechanical defect is not provided, the call should be processed as a Tow Request Reason = Miscellaneous, and document Won't Start (does not apply to vehicles that were recently purchased in an inoperable position and won't start). Members should never be questioned about alcohol consumption or sobriety status. All other ERS protocols apply.

What is a breathalyzer or ignition interlock device?
A breathalyzer or ignition interlock device is a device attached to the starter of a vehicle that requires a breath sample from the driver to start the vehicle.

Should members be questioned about their alcohol consumption or sobriety status when requesting service for a vehicle with an interlock device?
No, members should never be questioned about alcohol consumption or sobriety status.

Member is requesting a tow home from the repair shop where a breathalyzer was newly installed. Is that covered?
Towing will not be covered if the request is simply because the member had the breathalyzer newly installed and they want the vehicle taken back home; this is a convenience tow.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Membership pricing is not available in the knowledgebase. Consult MRM for current pricing when the member is requesting information or refer them to MSC, the AAA app, or the member website for more information.

Exception – Add-ons: Adult Associates and Dependent Associates added after the Primary Membership has completed its original 7-day waiting period do not incur a new waiting period and immediately receive the Primary Member's current benefit level. If an Add-on is processed while the Primary Member is still within the original 7-day waiting period (including at the time of purchase or upgrade), the Add-on is subject to the same remaining waiting period.

Do service calls reset when a member upgrades?
No, membership upgrades do not automatically result in a reset of the call allotment.

When a membership is in the 30-day renewal grace period, ERS agents must offer to take a payment for the renewal. If the member renews within the grace period, their current benefit level is maintained. If the member cannot pay during the grace period, agents should explain that service will still be provided, but the member will be billed the full cost of services if AAA does not receive the renewal payment. If the grace period has ended, the membership must be renewed before service is provided. After renewal, the member keeps their prior benefit level with no interruption, unless they choose to upgrade. If they upgrade at renewal, the 7-day waiting period applies before upgraded benefits can be used. If the membership is not renewed within 90 days of expiration, the member is responsible for the full cost of services and must rejoin to receive future benefits.

- **California (004) market – upgrades at renewal:** must also meet the upgrade eligibility requirements (existing Classic members must have no household tow within the last ninety (90) days). See *Existing Classic Members* under *The following applies to the California (004) market only*.
- **California (004) market – rejoining members:** upgrade eligibility is based on household tows within the last ninety (90) days on the prior membership. See *Rejoining Members* under *The following applies to the California (004) market only*.

With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member’s financial institution processing times may vary.

Waiting Periods for New and Upgraded Memberships
The 7-day mandatory waiting period applies to:

- newly purchased enhanced memberships and optional RV/Motorcycle coverage, and
- applies whenever a member purchases benefits that exceed their current level of coverage.

This 7-day mandatory waiting period is **separate from** the **3-day Early ERS Use Fee**.

3-Day Early ERS Use Fee aka Early Use Fee (formerly Same Day Fee)
The **3-day Early ERS Use Fee** applies to **all Emergency Roadside Service requests** for the household made within the first **three days of a new membership purchase (excludes California (004) market)**. The applicable fee must be collected for **each service request** during this period.

Exception: AAA Battery warranty replacement service is exempt from the Early ERS Use Fee and must be handled in accordance with the **AAA Battery Warranty** protocol.

7-Day Waiting Period for Upgraded Benefits
The 7-day waiting period **cannot be waived** by Member Services, DSU, ERS Management, or the ERS Help Desk (SRT). Agents must **not** bypass the member's current membership level to provide upgraded benefits before the waiting period has expired, as doing so will result in the member being charged the full cost of the service.

The waiting period also **cannot be circumvented by scheduling a Future Appointment Call**. Upgraded benefits are **not available** if the 7-day waiting period is still in effect **either**:

- On the date the service is scheduled by the service representative; **or**
- On the date the service is provided.

If either condition applies, coverage under the upgraded benefit level must be denied.

RV/Motorcycle Coverage Exception

Members who already have RV/Motorcycle coverage (**ClassicRV** or **PlusRV**) and upgrade:

- **ClassicRV** to **PlusRV** or **PremierRV**, or
- **PlusRV** to **PremierRV**

do **not** incur a new waiting period for their RV/Motorcycle benefits. Those benefits continue without interruption and remain available for **up to $500 per service call**, with a maximum benefit of **$1,000 per membership year, per household**.

For DSU, Insurance (PMG), and MSC hours, check the listing in Softphone.

Member Not Notified of the 7-Day Waiting Period: When a membership or upgrade to a membership is purchased via the AAA Website and AAA App, an alert will display apprising members of the 7-day mandatory waiting period to use ClassicRV, Plus, PlusRV, Premier, and PremierRV benefits. If a member advises they were not made aware of the 7-day waiting period when the membership or upgrade to the membership was purchased, they should be referred to Member Services Center (MSC) in Softphone if they wish to receive a refund. Do not make a future Appointment Call in an attempt to bypass the mandatory waiting period, as the member will be charged the full cost of the service.

Add-Ons to Membership
If an Adult, Associate, or Dependent member is added to the membership at the time of the ClassicRV, Plus, PlusRV, Premier, or PremierRV upgrade, the 7-day wait period applies. Add-ons will receive the same benefit level as the Primary member.

What is the 7-day waiting period for enhanced benefits on new memberships and new upgrades?
The 7-day waiting period is mandatory before newly purchased and newly upgraded ClassicRV, Plus, PlusRV, Premier, PremierRV benefits become available. This waiting period cannot be waived.

What happens if a member says they were not informed of the 7-day waiting period?
If a member was not notified of the waiting period and refuses to pay it, they may contact Member Services if they wish to receive a refund; the waiting period cannot be bypassed or waived. Additionally, If the member purchased or upgraded the membership on the AAA member website or AAA App, an alert displays advising of the mandatory waiting period.

What will happen if ERS agents bypass the membership type to give the member access to upgraded benefits?
If an ERS agent bypasses the membership level to give the member upgraded benefits, the member will be charged the full amount for the service.

Are members notified about the 7-day waiting period through the AAA website or app?
Yes, both the AAA Website and AAA App display alerts notifying members of the 7-day waiting period.

Does the 7-day waiting period apply to all household members added at the time of the new membership purchase or membership upgrade?
Yes, the 7-day waiting period applies to all Adult, Associate, or Dependent members added at the time of new membership purchase or membership upgrade.

Does the 7-day waiting period apply to household members added after the original 7-day period?
No, non-Primary household members processed after the original 7-day waiting period are not subject to the waiting period for enhanced benefits.

Where should California (004) market members who want to upgrade their membership be referred?
California (004) market members who want to upgrade their membership should be referred to the Member Service Centers (MSC) in Softphone or the member website to review eligibility and make purchases. **California (004) market:** existing Classic members and rejoining members must meet the upgrade eligibility requirements (no household tow within the last ninety (90) days; for rejoining members, on the prior membership). See *The following applies to the California (004) market only*.

What is the 7-day waiting period for ClassicRV, Plus, PlusRV, Premier, and PremierRV benefits?
The 7-day waiting period is a mandatory waiting period applied to all newly purchased and newly upgraded memberships for ClassicRV, Plus, PlusRV, Premier, and PremierRV benefits. It cannot be waived under any circumstances.

Can Member Services waive the 7-day waiting period for upgraded benefits?
No, the 7-day waiting period cannot be waived by Member Services, DSU, ERS Management, or the ERS Help Desk.

What happens if an agent bypasses the membership level to access upgraded benefits for the member during the waiting period?
Members will be charged the full amount for the service if an ERS agent bypasses the waiting period to access upgraded benefits for the member.

What is an "Add-on" to a membership?
An "Add-on" refers to a household member, such as an Adult Associate or Dependent Associate, added to a membership after the original membership purchase date.

Do "Add-ons" have the same benefit level as the Primary member?
Yes, all Add-ons will receive the same benefit level as the Primary member. If a 7-day waiting period is in effect for the Primary member at the time of the add-on, the same period applies to the add-on.

What if a member states they were not notified of the 7-day waiting period?
If a member was not notified of the waiting period during their membership purchase from MSC in Softphone, or on the AAA Website or App, they should be referred to Member Services Center if they wish to request a refund.

Is it permissible to make an appointment call to bypass the waiting period?
No, appointment calls cannot be made to bypass the mandatory waiting period; members will be charged the full cost of the service if they do.

What happens if a new member in the California (004) market requests service on the same day as the membership purchase?
New members in the California (004) market requesting same-day service must pay a one-time $125 CAPRE or California Prepay fee per household, if the breakdown occurred prior to the membership purchase.

Is there an additional fee for using services within the first three days of the new membership in ACE states, excluding the California (004) market?
Yes, services requested within the first 3 days of membership are subject to a $125 Early Use Fee for each service rendered in all ACE states except the California (004) market.

Can the waiting period be bypassed for "Add-ons" added at the time of membership upgrade?
No, if an Adult Associate or Dependent Associate is added during a membership upgrade, the 7-day waiting period still applies; if they are added after the 7-day waiting period, they will have the same benefit levels as the Primary member.

Does the waiting period apply to existing members who are upgrading their membership?
Yes, the 7-day waiting period applies to both newly purchased and upgraded memberships. **California (004) market:** existing Classic members and rejoining members must also meet the upgrade eligibility requirements (no household tow within the last ninety (90) days; for rejoining members, on the prior membership). See *The following applies to the California (004) market only*.

What benefit level is available to new memberships in ACE states during the first 7 days?
New memberships in all ACE states are limited to Classic benefits during the first 7 days, regardless of the membership level purchased.

Can a refund be requested if a member disagrees with the waiting period policy?
Yes, if a member states they were not informed about the waiting period and refuses payment, ERS agents may offer to connect them with Member Services to request a refund.

Do upgraded memberships require a waiting period before benefits are available?
Yes, upgraded memberships require a 7-day waiting period before benefits can be accessed.

The following applies to the California (004) market only

Effective November 1, 2026, the following upgrade eligibility requirements are in effect in the **California (004) market:**

New Members

New California (004) market members may join at the *Classic, Plus*, or *Premier* benefit level; the seven (7) day mandatory waiting period applies for benefits beyond Classic (***former members who are rejoining must meet the Rejoining Members upgrade eligibility requirements below***).

Existing Classic Members

Existing Classic member upgrade eligibility is based on the following:

No household tow within the last ninety (90) days:	**Eligible for upgrade;** the seven (7) day mandatory waiting period applies to the upgraded benefits.
Household tow within the last ninety (90) days:	**Not eligible for upgrade.** The household must have no tow requests for ninety (90) days to become eligible for upgraded benefits.

Existing Plus Members

Existing *Plus* members may upgrade to *Premier* at any time. The seven (7) day mandatory waiting period applies to the upgraded benefits.

Rejoining Members

Upgrade eligibility for former members whose memberships have expired or been canceled is based on the following:

No household tow within the last ninety (90) days on the **prior membership**:	**Eligible for upgrade;** the seven (7) day mandatory waiting period applies for the upgraded benefits.
Household tow within the last ninety (90) days on the **prior membership**:	**Not eligible for upgrade.** The household must have no tow requests for ninety (90) days to become eligible for upgraded benefits.

Optional RV/Motorcycle Benefit

There are no changes to this benefit. Classic, Plus, and Premier members may add the Optional RV/Motorcycle benefit at any time; the seven (7) day mandatory waiting period to use this benefit applies.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The AAA app provides various features for members including roadside assistance, discounts, and travel planning. If a member is experiencing technical issues with the AAA app, they should be referred to MSC for further assistance. You can manage your membership, access your digital membership card, and request roadside assistance directly through the app. Additionally, you can find AAA discounts, locate nearby gas stations, and access your insurance information. However, roadside history details are not available on the AAA app or AAA website.

Access your AAA membership card and AAA proof of insurance electronically[4] and add them to your digital wallet. Additionally, the AAA offers access to the following:

Membership Management:

- **Digital Membership Card:** Access your digital membership card and add it to your digital wallet for easy access.
- **Renew Membership:** Renew your membership directly through the app.
- **Manage Account:** Add drivers, view insurance policy details, and make payments.

Roadside Assistance:

- **Request Assistance:** Request help for towing, battery service, flat tires, and more.
- **Track Service:** Track the location of the service vehicle while you wait.
- **Battery Quote:** Get instant battery replacement quotes (where available).

Discounts and Savings:

- **AAA Discounts:** Find member discounts on dining, shopping, attractions, and more.
- **Gas Prices:** Locate nearby gas stations and compare gas prices.

Travel Tools:

- **Hotel and Car Rental Bookings:** Book hotels and rental cars through the app.
- **AAA Approved Locations:** Find AAA-approved hotels, restaurants, and attractions.
- **Trip Planning:** Access maps, directions, and TripTik travel guides.

Other Features:

- **Find Auto Repair Facilities:** Locate AAA-approved auto repair facilities.
- **Find AAA Office Locations:** Find the nearest AAA office.
- **AAADrive:** Use the app to track driving habits for potential insurance discounts (varies by state).

If the AAA app does not recognize the member's information, they should contact the call center by phone to arrange for service. They may also follow-up with MSC about any issues they may be having with the AAA app.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

AAA employees who need roadside assistance for a company-owned vehicle (AAA-owned)—and either do not have a personal membership or wish not to use their personal membership for service—may contact ERS for courtesy service on their AAA-owned vehicle. AAA company-owned vehicles may be mail trucks, vans, tow trucks, or passenger cars, and may or may not have an AAA logo. The vehicle registration for a AAA-owned company vehicle will be in the name of the Auto Club, ACE, or the specific AAA Club, and not in the name of the individual person. The vehicle may be towed, as directed by the AAA employee requesting service, to an authorized place of repair, to the employee's residence, or to a AAA business office or branch location. The AAA employee will not be charged for any service provided by a Contracted Service Provider (ICS or service provider), i.e., towing miles, fuel, or locksmith service, etc. AAA Fleet vehicle service is not limited to Classic benefits.

To process service for a AAA company-owned vehicle under this policy in RADAR, select Membership Unavailable and choose "Fleet Vehicle"; process the remainder of the call through completion, and indicate in driver's notes that this is a AAA employee that is ok for service at no cost.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

SECTION 1: CORE PROGRAM OVERVIEW

[POLICY_001] Discounts & Rewards Program Overview
AAA membership includes access to the Discounts & Rewards Program, which offers thousands of savings opportunities on theme parks, movies, dining, health and wellness, fuel, travel, moving services, and more.

[POLICY_002] Official Source of Offers
AAA.com is the official and most up-to-date source for all Discounts & Rewards Program offers. Members should be directed to AAA.com for full details and current availability.

[POLICY_003] Offer Variability
Discounts and rewards may vary by location, availability, membership level, and partner terms. Offers are subject to change without notice.

[POLICY_004] Member Redemption Responsibility
AAA does not automatically apply, enroll, or activate partner discounts or rewards. Members must independently redeem offers through AAA.com or directly with the partner. This may require registration, validation, account setup, or purchase.

◈ SECTION 2: GENERAL AGENT GUIDANCE

[POLICY_005] Handling Requests for Additional Details
If a member requests more information about discounts or rewards, direct them to AAA.com.

[POLICY_006] Unlisted or Unverified Offers
If a member references a discount or partnership not listed on AAA.com, advise them to contact the company, retailer, or service provider directly. Do not confirm unverified offers.

◈ SECTION 3: FEATURED PARTNER OFFERS

Fitness Centers

[POLICY_007] Active & Fit Direct Program
Members receive:

- Access to 12,700+ standard gyms (e.g., 24 Hour Fitness, Crunch Fitness, Anytime Fitness, Chuze Fitness)
- Access to 8,800+ premium gyms (e.g., YogaSix, Pure Barre, Club Pilates, FIT4MOM)
- Discounts ranging from 20%–70% at premium locations
- 10% off membership fees after 12 months in the program

Movie Tickets

[POLICY_008] Movie Ticket Discounts
Members can purchase discounted tickets for participating theaters, including:

- AMC Theatres
- Regal
- Cinemark
- Edwards
- Marcus Theaters
- United Artists
- LOOK Dine-In Cinemas

Packing & Shipping

[POLICY_009] The UPS Store Discounts
Members receive:

- 20% off packing services
- 5% off shipping
- 15% off new mailbox services

Wireless (T-Mobile)

[POLICY_010] T-Mobile Offers
AAA members may access exclusive wireless offers, including:

Option A (Age 55+):

- Save at least $600/year by switching 2 lines to Essentials Choice 55 plan
- Up to $100 welcome reward ($50 per line, max 2 lines)

Option B (All Members):

- $200 rebate when moving 4 lines ($50 per line, max 4 lines)
- Available on any rate plan
- May be combined with device offers

Requirements:

- New account
- Registration and validation
- Port-in may be required

Auto Parts

[POLICY_011] NAPA Auto Parts Discounts
Members may save up to 65% on select items such as mats, scrapers, flashlights, and seasonal accessories.

TV Services

[POLICY_012] DIRECTV Offer
Members may receive up to $675 in value through DIRECTV promotions.

Meal Delivery

[POLICY_013] Home Chef Offer

- Up to 60% off first box
- 20% off the next 2 months

[POLICY_014] HelloFresh Offer

- 65% off first box
- Free shipping on first delivery
- 15% discount on additional boxes for up to 1 year (up to 51 boxes)
- Shipping fee applies after first delivery

Transportation

[POLICY_015] Metrolink Discount
Members receive 20% off single-day roundtrip tickets.

Vehicle History Reports

[POLICY_016] CARFAX Benefits
Members receive:

- Accident history
- Service records
- Ownership history
- Recall information

Classic & Plus Members:

- 20% discount when ordered online

Premier Members:

- 1 free report per membership year
- 40% discount on additional reports

SECTION 4: Q&A

[QA_001] Where can members find all discounts?
AAA.com is the official source for all Discounts & Rewards Program offers.

[QA_002] Does AAA automatically apply discounts for members?
No. Members must redeem offers themselves through AAA.com or directly with the partner.

[QA_003] Does AAA enroll members in T-Mobile offers?
No. Members must contact T-Mobile directly, visit their website, or go to a store to enroll. AAA does not manage or activate wireless services.

[QA_004] Are discounts guaranteed?
No. Offers may vary by location, availability, and partner terms and may change at any time.

[QA_005] What should members do if they cannot find a discount online?
They should contact the partner company directly. Agents should not confirm unlisted offers.

[QA_006] How do members access CARFAX benefits?
Members must log into their AAA account online or call the designated number (for Premier members) to access their benefits.

◈ SECTION 5: SCENARIOS

General Usage

[SCENARIO_001] Member asks for available discounts

- Action: Direct member to AAA.com
- Outcome: Member views full, up-to-date offers

Redemption Confusion

[SCENARIO_002] Member expects AAA to apply a discount

- Condition: Member believes AAA activates or applies offer
- Action:
    - Clarify that member must redeem the offer
    - Direct to AAA.com or partner
- Outcome:
    - Member understands required action

T-Mobile Confusion (High Priority)

[SCENARIO_003] Member thinks AAA will switch their phone plan

- Condition: Member expects AAA to enroll or activate T-Mobile offer
- Action:
    - Clarify AAA does not manage enrollment
    - Direct member to T-Mobile website, store, or phone support
- Outcome:

- Member understands they must complete process directly

Unverified Offer

[SCENARIO_004] Member references unknown discount

- Condition: Offer not found on AAA.com
- Action:
  - Advise member to contact the partner directly
  - Do not validate or speculate
- Outcome:
  - Prevents misinformation

CARFAX Access

[SCENARIO_005] Member asks how to get vehicle history report

- Action:
  - Direct member to log into AAA account or call (Premier)
- Outcome:
  - Member successfully accesses benefit

Offer Detail Inquiry

[SCENARIO_006] Member asks for detailed terms of an offer

- Action: Direct to AAA.com for full details
- Outcome: Member receives accurate, current information

◈ SECTION 6: FRAUD & SCAM AWARENESS

[POLICY_017] Phishing Scam Warning
Scammers may impersonate AAA by offering fake rewards (e.g., “free emergency kit”) via email or text and requesting personal or payment information.

[POLICY_018] Scam Prevention Guidance

- Do not click suspicious links or download attachments
- Verify sender email domains (official AAA domains only)
- AAA does not request personal or payment information to claim unsolicited rewards

---

[SCENARIO_007] Member reports suspicious AAA offer

- Action:
    - Advise member not to engage
    - Reinforce that AAA does not send unsolicited reward claims
- Outcome:
    - Member avoids potential fraud

How would a business verify a AAA member (for member discounts – Discount & Rewards partners) if they do not have a physical membership card?
AAA members can access their digital membership card via the Auto Club App or AAA.com

The Approved Auto Repair (AAR) and Approved Dealer Repair (ADR) programs are a network of AAA inspected and approved independently contracted vehicle repair facilities. AAR benefits include High Standards, Regular inspections, Fair Complaint Resolution process, Member Discount of 10% up to $75 on regular price of parts and labor, Transportation Assistance at select facilities at member expense, Certified Mechanics. Additional questions about services provided should be referred to the facility. RV repairs are available at select facilities (use Advanced Search). Motorcycles repairs are not currently offered under this program available.

To answer questions about becoming a AAA contractor, please review the knowledgebase carefully before responding.

Becoming an AAR Contractor
An AAR is a AAA Approved repair facility that is contracted with AAA to service our members. When a non-ACE repair facility requests information about becoming a AAA Approved facility (AAR), they should be referred to the Become a AAA Approved Auto Repair facility link on the member website for more information.

AAR facilities may also be contracted AAA Roadside Service Providers assisting our members at breakdown locations.

What is an AAR Contractor?
An AAR is a AAA Approved repair facility that is contracted with AAA to service members.

Where should a non-ACE repair facility go for information about becoming a AAA Approved facility?
Non-ACE repair facilities should be referred to the member website for information at the "Become a AAA Approved Auto Repair facility" link.

Can AAR facilities also provide roadside assistance?
Yes, AAR facilities may also be contracted as AAA Roadside Service Providers to assist members at roadside. However, not all AAR facilities are roadside providers.

What is the process to become an AAR contractor?
Repair facilities interested in becoming an AAR contractor should visit the member website and follow the process outlined at the AAA Approved Auto Repair facility link.

Who can apply to become a AAA Approved Auto Repair facility?
Non-ACE repair facilities can apply to become AAA Approved by visiting the AAA website and accessing the information under the "Become a AAA Approved Auto Repair facility" section.

Is there a difference between becoming an AAR facility and becoming a AAA Independent Service provider that provides roadside assistance?
Yes. Independent facilities contracted with AAA employ technicians who provide roadside services to AAA members but may not offer repairs at their facilities.

Independent Contract Stations (ICS)
Facilities that indicate they want to become AAA roadside service providers should be directed to apply on the AAA website under **Discover AAA > Become a roadside assistance provider.**

What services can independent service providers perform?
Towing: passenger vehicles, RVs, camper trailers, motorcycles
Light services, such as tire changes, jump starts, vehicle lockouts, fuel delivery,
Light Service Assess (process in RADAR under Towing - Miscellaneous): alarm/horn, windshield, hood/undercarriage issues, minor mechanical solutions, etc.
Battery service: battery testing, mobile battery replacements
Locksmith service (not lockout): key replacements, key fob programming (we do not offer batteries for fobs; If the member is unable to start their vehicle, a tow may be provided), ignition repair

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Can AARs repair hybrid and electric vehicles?
Hybrid and electric vehicle parts share many of the same or similar parts as fuel-powered passenger vehicles, such as, bakes, windshield wipers/motors, 12-Volt batteries, tires, fluids, filters, seatbelts, airbags, Suspension components, etc. To determine whether an AAR can perform repairs on specific makes and a specific type of repair, ERS agents should access the AAR tool and use Advance Search; members can also locate this information on the member websites under Automotive services.

The Approved Auto Repair (AAR) and Approved Dealer Repair (ADR) programs are a network of AAA inspected and approved independently contracted vehicle repair facilities. AAR and ADR facilities benefits include High Standards, Regular inspections, Fair Complaint Resolution process, Member Discount of 10% up to $75 on regular price of parts and labor (does not apply to tire purchases), Transportation Assistance at select facilities at member expense, Certified Mechanics. AAR facilities may also offer a limited variety of tires for purchase. Additional questions about services provided should be referred to the facility. RV repairs are available at select facilities (use Advanced Search). Motorcycles repairs are not currently offered under this program available.

BSPAAR Facility
A BSPAAR facility is a AAA-approved repair facility that also offer AAA batteries for sale and service as a part of the BSP program. When a former member (cancelled or expired) is requesting AAA battery service under warranty and does not/cannot renew their membership, they may be referred to a BSPAAR for warranty service.

AAR Referrals – When a member is requesting a tow, an offer of referral to a AAA-approved repair facility for mechanical repairs, MPR for collisions, or to Discount Tires/America's tire (DTAT) for tire-related issues is required, regardless of whether they already have a tow destination.

Locating an AAR
Agents should not use this chat tool to locate AAR locations for the member. To locate an AAR as a tow destination for our member, use the Tow Destination tool in RADAR. Members seeking to locate a facility independent of agent assistance may do so by visiting the AAA websites and searching under Automotive.

AAR Night Dropbox: ERS agents should review the AAR facility information provided in the AAR tool to determine if an after-hours drop box is available. However, the member or an approved third party must be present at the time of an after-hours vehicle drop-off to meet the AAA technician. The technician will be unable to drop vehicles at closed repair facilities or other drop-off locations unless the member or their representative is present. If the member or a representative does not accompany the technician and/or fails to meet the technician at the destination, the vehicle will be taken to the service provider's facility; the member will be responsible for storage fees that apply.

Do all AAR facilities offer night drop boxes?
No, not all AAR facilities offer night drop boxes. Remember to check the AAR facility details for Night Drop-Box availability, and confirm that the member or their approved representative will be present at vehicle drop-off.

What is the Approved Auto Repair (AAR) program?
The AAR program is a network of AAA-inspected and approved vehicle repair facilities that provide exclusive benefits to AAA members. These facilities include repair shops and Member Preferred Repair (MPR) collision centers.

What benefits do members receive at AAR facilities?
Benefits include high standards, regular inspections, a fair complaint resolution process, a 10% discount (up to $75) on parts and labor (does not apply to tire purchases), transportation assistance at select facilities, and certified mechanics (Priority Service is no longer guaranteed at AAA AARs; CCC in Tidewater excepted-see Tidewater AARs).

Are RV repairs available through the AAR program?
Yes, RV repairs are available at select AAR facilities; ERS agents should use the Advanced Search option in the AAR tool to find them.

Are motorcycle repairs covered under the AAR program?
No, motorcycle repairs are not currently offered under the AAR program.

What should be done when a member requests a tow due to a mechanical malfunction or collision?
A referral to a AAA-approved repair facility is required when a member requests a tow due to a mechanical malfunction or collision.

What is the recommended phrasing (script) when the tow destination exceeds the member's towing benefit?
"I will be happy to recommend a local AAA Approved repair facility that offers exclusive benefits to help avoid extra mileage charges. Would you like me to locate one nearby?"

What should be the recommended phrasing (script) if the provided tow destination is an AAR facility for vehicle repairs?
"I see that (destination) is part of our AAA Approved Repair network. Please be sure and show them your AAA membership card to receive a 10% discount up to $75 on your repairs today."

If member doesn't have a membership card on hand, is there another way to show he has AAA at one of our repair facilities?
At AAA Approved Auto Repair (AAR) facilities, members must show their AAA membership card (physical or digital) to receive the AAR benefits (all AAA club cards accepted including non-ACE, non-CHANT, etc.), which include: - 10% discount (up to $75) on regular price of parts and labor (does not apply to tire purchases), - High standards and regular inspections - Fair complaint resolution process - Transportation assistance at select facilities (at member expense) - Service from certified mechanics Members can access their digital membership card through the Auto Club App on their smartphone or via AAA.com if they don't have their physical card with them.

How should the referral be phrased (script) for after-hours tows to a residence?
"If you need assistance locating a mechanic, I can refer you to a AAA approved Auto Repair facility that offers exclusive benefits. Would you like me to locate a AAA Approved Auto Repair facility where you can take your vehicle in the morning?"

Can AAA technicians drop vehicles at closed repair facilities?
No, AAA technicians cannot drop vehicles at closed repair facilities or tire shops unless the member or their representative is present at the time of drop-off.

What happens if no one is available at the repair shop tow destination?
If no one is available at the tow destination, the vehicle will be taken to the service provider's facility, and the member will be responsible for storage fees.

AAA Car Care Centers (CCC)
In the Tidewater market, AAA AAR facilities are called AAA Car Care Centers (CCC). Unlike AAR facilities in other markets, these repair shops are AAA-owned and operated Car Care Centers that offer full-service maintenance and repair. Although CCC are also open to non-members, AAA members receive earn exclusive benefits and discounts, including 10% off regularly-priced parts and labor (up to $100, does not apply to tire purchases), and a 24-month/24,000-mile warranty on parts and labor, as well as 50% off Virginia State Inspections, Free 40-point vehicle maintenance inspection upon request with any paid service. Members also receive Priority service at CCC repair centers with preliminary diagnosis within 30 minutes of arrival when the vehicle is towed in.

What are AAA Car Care Centers in the Tidewater market?
AAA Car Care Centers (CCC) in the Tidewater market are AAA-owned and operated facilities that provide full-service maintenance and repair, unlike other AAA Approved Repair (AAR) facilities in different markets.

Are AAA Car Care Centers only available to AAA members?
No, AAA Car Care Centers are open to non-members as well. However, AAA members enjoy exclusive benefits and discounts.

What discount do AAA members receive on parts and labor at Car Care Centers?
AAA members receive 10% off regularly priced parts and labor, up to $100, at AAA Car Care Centers (does not apply to tire purchases),.

What warranty do AAA Car Care Centers provide for parts and labor?
AAA Car Care Centers offer a 24-month/24,000-mile warranty on parts and labor for services performed.

What special benefit do members receive for Virginia State Inspections?
AAA members receive a 50% discount on Virginia State Inspections at AAA Car Care Centers.

Do AAA Car Care Centers offer any complimentary maintenance checks?
Yes, AAA members can request a free 40-point vehicle maintenance inspection with any paid service at AAA Car Care Centers.

What is the Priority Service offered to AAA members at Car Care Centers?
Priority Service provides AAA members with a preliminary diagnosis of their vehicle within 30 minutes of arrival if it has been towed to a AAA Car Care Center.

Are the benefits exclusive to AAA members at all AAA Car Care Centers?
Yes, the discounts, warranties, and Priority Service are exclusive to AAA members and are not available to non-members (does not apply to tire purchases).

Complimentary vehicle inspection
At AARs, members can get a free 40-point AAA Vehicle Maintenance Inspection with a paid service at participating AAA Approved Auto Repair facilities; this is NOT a free diagnostic. The vehicle inspection includes: Battery test, tire pressure check, inspection of belts and hoses, and fluids check.

Diagnostics Services are not free benefits at AAR facilities unless otherwise advertised.

Are excess mileage charges waived when a vehicle is towed to an AAR?
Important: Overmile charges are not determined by whether the destination is an AAR. They are determined by whether the dispatched service provider is towing the vehicle to its own repair facility. If the destination repair shop is different from the company performing the tow, normal mileage limits apply.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

A-Call/Cloned

An A-Call (Allow Call) or Clone call is a follow-up service request when a member calls back for service after the original service request was submitted because service is still needed; they are also referred to as 'AC'. This may be due to a service failure, on-scene member cancellation, towing to an incorrect destination due to agent or technician error. Service requests for non-ACE members outside of ACE territory should be processed per Call Move protocol.

If the member is in Service Charge and has a valid pending NSR (No Service Rendered), an Allow may be requested and a Cloned call created. However, if the NSR is for the 5th or more call for the membership year, a service charge payment is still required.

A-Call/Clone during the Grace Period

When an A-Call/Clone call is needed during the Grace Period of a membership, agents should confirm the service failure by reviewing the documentation. Before creating a new service request for memberships in renewal during the grace period, agents should attempt to collect the renewal payment (Hot Calls excluded). If the member declines to pay the renewal payment during the grace period, agents should advise the member that service will be dispatched but that the membership dues must be paid to avoid an additional bill and membership cancelation and process the A-Call/Clone call to send service. If during the grace period, the original service failed due to a service provider action or equipment, or if it was cancelled/No Service Rendered, agents should process an Allow on the original call for Classic members, and elevate Plus, Premier, or RV/Motorcycle Allow requests to the SRT Question Only line to ensure the call that resulted in a service failure does not count against the membership.

A-Call/Clone – No Service Rendered

If the original service failed due to a service provider action (e.g., wrong destination, improper or illegal parking position on a public road or improper position at a repair business) or equipment unavailability, or if it was Cancelled or is in No Service Rendered, ERS agents should process an Allow on the original call (if a service request was paid) for Classic members, and elevate Allows for Plus, Premier, or RV/Motorcycle members to SRT.

A-Call/Clone – Service Rendered/Failed

If Light Service fails and the provider does not indicate that another service vehicle will be sent to further assist, an A-Call/Cloned call should be processed. If the member leaves the original location after receiving light service under membership but experiences a similar light-service breakdown at a nearby location on the same day, the original call may be allowed and an A-Call/Cloned call processed. Examples of service rendered/failed include Jumpstart, Flat Tire-Air Only, and Light Service assessment failures. ERS agents should process an Allow on the original call for Classic members, and elevate Allows for Plus, Premier, or RV/Motorcycle members to SRT (Help Desk).

AAA driver dropped off vehicle at wrong location

If a AAA technician or call center staff is at fault for the incorrect destination (AAA provider or ERS agent error)

- **Step 1:** Agents should process an **Allow** for the original call.
- **Step 2:** Create an **A-Call/Clone Call** to arrange towing to the correct location.

- **Classic members:** ERS agents process the Allow directly.
- **Plus, Premier, or RV/Motorcycle members:** ERS agents elevate the Allow to **SRT (Help Desk)**.

If the member is at fault (provided incorrect tow destination)

- The member is responsible for payment of the tow to the correct location.
- ERS agents should provide a **COD (Cash on Delivery) referral** for service.

What is the Roadside Assistance Program (RAP)?
The Roadside Assistance Program (RAP) is a group of AAA National contracts with corporations to provide roadside assistance.

Are RAP service requests covered under AAA memberships?
No, RAP service requests are provided under RAP contracts, not AAA memberships.

Who facilitates roadside assistance for RAP customers?
AAA service providers facilitate roadside service for RAP customers, but the service requests are not initiated by ERS Receive call center agents.

What should ERS Receive agents do if members call ERS about a RAP service request?
Members should be directed to contact the call center number where their RAP service was initiated.

Who handles RAP service requests within ACE dispatch?
Select ACE dispatch agents who are RAP-trained provide support for these service requests. However, RAP requests are initiated by the RAP service center; the member/customer should contact the original RAP number they used to request service for any service updates or other issues.

What should agents do during the Grace Period for an A-Call/Clone?
Agents should confirm the service failure by reviewing the documentation and attempt to collect the renewal payment. If the member declines to renew, agents should process the A-Call/Clone call to send service and advise the member that they will receive an additional bill if the membership is not renewed.

What happens if the original service failed due to a service provider action during the Grace Period?
Agents should process an Allow on the original call for Classic members or elevate an Allow request to SRT for Plus, Premier, or RV/Motorcycle memberships.

What should be done if a vehicle was towed to the incorrect destination?
Process an Allow for the first call and submit an A-Call/Clone call to request towing to the correct location.

What examples are there of service rendered/failed?
Examples include Jumpstart, Flat Tire-Air Only, vehicle towed to the incorrect destination, improper drop-off positioning at repair shop or illegal parking drop-off, and Light Duty assess failures.

What should agents check before creating a new service request during the Grace Period?
Agents should confirm the service failure by reviewing the documentation and attempt to collect the renewal payment.

Are Hot Calls excluded from attempts to collect renewal payments during the Grace Period?
Yes, Hot Calls are excluded.

How should agents handle a similar breakdown occurring after light service on the same day?

The original call may be allowed and an A-Call/Cloned call processed, provided this occurs at or nearby the original breakdown location within a short time of the original service.

Who handles Allow requests for Plus, Premier, or RV/Motorcycle memberships?
ERS agents should contact SRT (Help Desk) to have an Allow processed.

What is an Allow in the context of A-Call/Clone?
An Allow is a call status change which prevents the call from counting against the membership. **How do you allow a call in RADAR/Salesforce (Instructions/manual function)?**
In instances where you are permitted to Allow a call without seeking supervisor approval (i.e., Classic members): Find the Case Actions quick action button in the ERS Case header, select Allow from the Select Case Action dropdown, then click Next, 1. Select the Allow Flag checkbox, 2. Choose the appropriate reason from the Select Reason dropdown, 3. Add documentation (why you are allowing the request, what you advised the member, etc.), then click Next. A comment is added to the Case feed. Note: If you do not have the authority to Allow the request, the following message will display: "You are not eligible for this action". If you need Supervisor permission to Allow the call (i.e., Plus or Premier members): Seek approval from the supervisor via SRT; Provide them with the ERS Case number so that they can view it and apply the Case Action. The supervisor will not be blocked from Allowing the call.

When should agents submit an A-Call/Clone call for incorrect towing destinations?
When the vehicle was towed to the wrong location due to service provider or ERS agent error.

What steps should agents take if the original service request failed and was in the Grace Period?
Confirm the service failure, attempt to collect renewal payment, and if member declines to renew, process the A-Call/Clone call.

How should agents handle a member who declines to renew during the Grace Period?
Agents should still process the A-Call/Clone call to send service; service charge is only required if the member's annual allotment has been used.

A-Call/Cloned Call During the Grace Period
When creating an A-Call/Cloned Call for a service failure during a membership's Grace Period, ERS agents should Confirm service failure by reviewing documentation; before creating a new request, ERS agents should attempt to collect the renewal payment (Hot Calls and minor without credit card excluded). If the Member cannot or refuses to make a payment, Inform the member that service will be dispatched, but membership dues must be paid to avoid an additional bill or membership cancellation. ERS agents should proceed with A-Call/Cloned Call processing to send service.

If the member is in **Service Charge** and a valid pending NSR ('No Service Rendered) exists, an Allow may be requested, and a Cloned Call created. however, If the NSR is for the 5th or more call during the membership year, a service charge payment is still required.

A-Call/Clone – Vehicle towed to incorrect destination - If a vehicle is towed to the wrong destination due to agent or provider error, process an Allow on the original call to ensure it does not count against the membership and Submit an A-Call/Cloned Call to arrange towing to the correct destination.

Processing Allows – For Classic Memberships, ERS agents should process the Allow on the original call, per existing ERS protocol. For Plus, Premier, or RV/Motorcycle Memberships, ERS agents must request an Allow by contacting SRT.

How I contact a Club dispatcher for service updates or to provide additional information on behalf of the member?

To request service updates or to provide additional information to the Club dispatcher, ERS agents should locate the service request in RADAR and use the Member Callback function to communicate with Dispatch.

The Field Service/RADAR Clone functionality is designed to issue a duplicate (formerly "A-Call") of an ERS Case if service is needed again. This policy is intended to outline the protocol for Case Cloning.

Allowable Clone Case Scenarios - calls may only be cloned under the following circumstances:

- Light Services (including battery jumpstarts) to Tow Conversion. The exception is a Tow service request converted to BSP for battery test/warranty service/new battery and the tow truck on scene is not equipped for BSP.
- The Original call has already been Cleared
- Real-time service request is being converted to an Appointment Call (Lockouts can be scheduled; Locksmith and RV tire change/towing services cannot be scheduled for Appointments).
- Service provider arrives on location with a truck that can safely tow the vehicle; member insists on a different truck, but there is no documentation on the call of member's request prior to the technician's arrival (e.g., technician arrives with a wheel lift, but member insists on a FB.

Disallowed Clone Case Scenarios - The following scenarios do not qualify for Case Cloning:

- Changes to the member's Breakdown location. Follow Member Callback protocol to update information in RADAR.
- Cases in which the technician was not equipped for service requested (e.g., examples include but not limited to, driver arriving on location with a FB, but vehicle needs a wheel lift/dollies to tow safely).
- Service Requests dispatched as tows but later converted to Locksmith request - Facility should utilize the appropriate resolution code (e.g., example - driver arrives on location for tow service but members need a tire change).

RAP Call Types cannot be Cloned; ACE must request a new call from the originator of the RAP request.

Please see a member of your local management team if you have any questions.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

General Questions about a AAA Insurance policy
If a AAA insured member is requesting information about their AAA auto, life, home or other AAA insurance, they should be transferred to PMG (Policy Management Group) using Softphone.

Questions about AAA insurance coverage after collision or other covered loss
AAA insured members who have questions after collision or other covered loss should be referred to the AAA Claims representative (PMG in Softphone).

The Accident Assist/Collision Assist program is a complete accident recovery program available under AAA Insurance for AAA insured vehicles. Towing under the Accident Assist benefit is unlimited and the member may be towed to an MPR, choice of repair shop, their residence or other destination, subject to the ERS provisions of service; however, if the member does not have Accident Assist coverage, their vehicle can be towed under membership from the collision scene, public area of a tow yard (the tow yard or impound destination vehicle was towed after the collision and vehicle is inoperable), their residence or other Club-approved pick-up location to a destination of their choice, subject to the provisions of service.

Accident Assist/Collision Assist program eligibility: When processing a Collision tow, you must ask the member if they are insured through AAA. If so, select Collision – Under AAA Insurance in the Tow Request Reason dropdown. If the member/caller is not AAA insured, Accident Assist/Collision Assist coverage is not available and towing should be provided under the membership. Accident Assist/Collision Assist calls are elevated to a higher priority for service.

Accident Assist – ETA
Upon submission of the Accident Assist/Collision Assist service request, members/insureds should be advised of the quote provided and counseled that an updated ETA will be sent shortly. Accident Assist/Collision Assist service requests receive a higher priority than standard service requests.

Accident Assist - Vehicle Damage: The location and/or type of vehicle damage should be routinely documented on the call to manage service provider's expectations.

Accident Assist - No Claim Required: If a AAA-insured elects not to file a claim after towing has been provided, AAA Claims will take care of charging the membership. If the AAA-insured declines processing under insurance, towing should be provided under membership and is subject to the limitations of the member's existing benefits.

Non-ACE Insured Members Requesting MPR Referrals: Non-AAA insured members may be referred to an MPR facilities. However, they must be towed under membership, and the storage fees must be paid by the member at the time of service. For these requests, the member or approved third-party representative must be present at the breakdown location and the destination.

Non-Members with AAA-insurance: When a non-member that is insured by AAA is requesting towing under AAA insurance, agents should select the No Membership button, followed by Membership Unavailable for the reason, and the first and last name of the insured. For the Tow Request Reason, agents should select Collision – Under AAA Insurance in the dropdown. Agents should not question AAA insureds about the type of coverage they have.

Accident Assist - Car Rental: If the AAA-insured member inquires about available rental benefits under AAA insurance after a collision, they should be referred to the claims adjuster for more information. If the insured is a Premier, offer the one (1) day car rental under their membership if the benefit has not been used. If they used their Premier rental benefit, offer a discounted upgraded rental reservation at the member's expense. DO NOT proactively inform member that they have rental coverage.

Accident Assist - Insurance Information and Validation: When a vehicle is being towed under AAA Insurance and the insured has a AAA insurance policy-related question or other concern, they should be advised to discuss with the Claims Adjuster.

Accident Assist - Member Not Present: In Accident Assist scenarios, the AAA insured does not need to be present for service. Unattended towing is allowed for AAA-insured vehicles to MPR facilities during business hours, or to the service provider's facility at no charge, until the MPR next business day. If the destination is an MPR facility, it may be dropped off when the facility opens; the adjuster will contact our member about where to have the vehicle repaired. If the destination is not an MPR (i.e., residence, dealership, other repair shop or collision center), the member or approved third party must be present.

Accident Assist – Motorcycles: If an AAA-insured with a motorcycle involved in a collision requests towing, process the request as Collision - Under AAA Insurance. All program benefits apply.

Accident Assist - MPR Benefits: MPR facility benefits for AAA-insured vehicles includes unlimited mileage, safe, free storage, lifetime guarantee on repairs, and prompt vehicle repairs. When involved in a collision, Accident Assist-covered vehicles may be towed under Collision –AAA Insurance to a destination of the insured's choice (i.e., residence, dealership, other repair shop or collision center), regardless of distance; however, the member or approved third party must be present when the chosen destination is not an MPR.

Accident Assist - Suggested Phrasing: - "I'm glad that you're okay. I understand that being in an accident can be overwhelming. Towing will be provided under insurance, today, and I will be happy to make arrangements to have your car towed to one of our Member Preferred Repair locations in your area. They can take care of the repairs, or safely store your vehicle at no cost until a decision is made about repairs."

What is the Accident Assist/Collision Assist program?
The Accident Assist/Collision Assist program is a complete accident recovery service available for AAA insured vehicles, offering priority service for members involved in collisions.

Who is eligible for the Accident Assist/Collision Assist program?
AAA-insured members are eligible for the Accident Assist/Collision Assist program. Non-AAA

insured members are not eligible and towing should be processed under their membership benefits.

What should be done when processing a collision tow for a AAA-insured member?
When processing a collision tow for a AAA-insured member, select “Collision – Under AAA Insurance” in the Tow Request Reason dropdown.

What if the AAA-insured member decides not to file a claim?
If the AAA-insured member elects not to file a claim, AAA Claims will charge the membership for the tow instead. Towing will then be subject to the member’s existing benefits.

Can a AAA-insured member request an updated ETA?
Yes, once the Accident Assist/Collision Assist service request is submitted, the member should be informed that an updated ETA will be sent shortly.

Is the AAA insured required to be present for Accident Assist services?
No, the AAA-insured member does not need to be present for Accident Assist services. Unattended towing is allowed during business hours to MPR facilities or the service provider’s facility if the facility is closed. Non-AAA insured members involved in a collision must be present or have an approved third-party present for service when the driver arrives.

What if a non-AAA insured member requests a Member Preferred Repair (MPR) referral?
Non-AAA insured members can be referred to an MPR facility, but the towing must be provided under their membership, they must be present or have an authorized third-party present for service, and they are responsible for storage fees charged by the facility.

What are the MPR benefits for AAA-insured vehicles?
MPR benefits include unlimited mileage towing, free and safe storage, a lifetime guarantee on repairs, and prompt vehicle repairs.

What should be done if a AAA-insured member asks about rental benefits after a collision?
Refer the member to their claims adjuster for rental benefits under AAA insurance. Premier members may be offered a one-day car rental benefit under membership, if it hasn’t been used.

What is the suggested phrasing for offering Accident Assist service?
“I’m glad that you’re okay. I understand that being in an accident can be overwhelming. Towing will be provided under insurance today, and I can arrange to have your car towed to one of our Member Preferred Repair locations in your area."

Can AAA-insured motorcycles be towed under the Accident Assist/Collision Assist program?
Yes, if an AAA-insured motorcycle is involved in a collision, it can be towed under the Accident Assist/Collision Assist program.

What should be documented on the call for Accident Assist service requests?
The location and type of vehicle damage should be routinely documented to manage service provider expectations.

What happens if a AAA-insured vehicle needs to be towed after hours?
Unattended towing is allowed to MPR facilities during business hours. If the facility is closed, the vehicle can be stored safely at the service provider's facility until the MPR opens.

When a non-ACE insurance company representative (e.g., Geico, Allstate, etc.) calls with questions about a AAA member's towing details, do I transfer the insurance company Claims rep to the AAA Claims dept.?
No. The membership and service-related details of our members are considered confidential information and will not be provided over the phone to third-parties, including insurance companies. Refer the insurance company back to the AAA member for more information.

The member is in the hospital and would like their AAA-insured vehicle towed to their residence. Is this covered?

If the member or their authorized representative cannot be present at the time of service, per existing protocol, towing of the unattended vehicle to their residence is not covered under membership, even if the member is in the hospital. If the member is present but indicates that they are sick or ill and cannot drive their vehicle, towing under membership cannot be provided unless the vehicle is disabled; this scenario is a convenience tow and is not covered under membership.

Non-AAA insured members involved in a collision must be present or have an approved third-party present for service when the driver arrives. Qualified Accident Assist scenarios are the exception to the unattended towing policy (See Accident Assist policy).

Claims Tow Requests
After speaking with a AAA Claims agent regarding a collision, AAA-insured members may be transferred to ERS agent to process a Claims Tow. When this occurs, ERS agents should process the service request based on the information provided by the Claims representative. To transfer the member to Claims department, locate the number in Softphone.

If a member/non-member reports that public or private property has been damaged by a AAA service provider, what should I do?
Reports of property damage by a AAA service provider (excluding member's vehicle during a service request) is subject to Critical Incident protocol. This includes reports by members and non-members that a AAA technician has damaged public or private property.

What is a Claims Tow?
A Claims Tow is a request for towing from a AAA-insured after a vehicle collision; coverage for these tows is provided under the Accident Assist benefit.

What information should the AAA-insured member gather at roadside after an accident?
Once everyone is in a safe location, it's time to collect information. If possible, start by taking photos of:

- Accident scene
- Vehicles involved
- Driver's licenses
- License plates
- And proof of insurance for everyone involved.

Other useful details include phone numbers, third-party witness information, and police report information if available. The member should follow the local statutes/laws and/or use their own discretion when determining whether to call the police

Affiliate clubs are Non-ACE Clubs and have different rules. If a Club is not an ACE club, benefit and coverage information cannot be provided by this knowledgebase; contact the Club directly for more information. Do not provide policy exception and third-party/member-not-present information to the member in non-ACE territories for non-ACE Clubs (in Call Move scenarios). If the member has questions or wants additional information, transfer to the servicing non-ACE Club.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

ACE Club Codes

ACE club codes are three-digit code prefixes that identify the member's home club territory. All ACE and non-ACE club codes have 3-digits. ACE clubs may cover a whole state, multiple states, or part of a state. For information about membership benefits for any Club that is not listed below, ERS agents must contact the Club directly. The following are ACE states; states not listed here are not in ACE markets.

ME is Maine and it is a part of NNE. MA is Massachusetts, and it is not a part of ACE territory. Members in need of supervisor assistance should be transferred to the correct number based on existing ERS escalation policy.

Phone numbers or contact numbers for non-ACE Clubs can be found in SoftPhone; if an ERS agent needs to transfer a non-ACE member to their home Club or needs to transfer a member to the Call Move club territory, look for the number in Softphone, if necessary. Do not provide benefit information or policies for non-ACE Clubs; transfer the member to the servicing call move club if there are questions about coverage and services.

<u>List of Club Codes-if the Club code isn't listed in this list, it is not an ACE state.</u>
Alabama (001). Alabama (AL 001) dispatching is now handled by Tidewater (258).
Arkansas (065)
California (004) (California is divided into two Clubs: 004-ACSC, is ACE territory, and 005-CSAA, non-ACE territory)
Hawaii (018)
Illinois (partial state) (065) use CDX to verify if the Club is unknown.
Indiana (partial state) (065) use CDX to verify if the Club is unknown.
Kansas (partial state) (065) use CDX to verify if the Club is unknown.
Kentucky (partial state) (215) use CDX to verify if the Club is unknown.
Louisiana (065)
Maine (036)
Mississippi (065)
Missouri (065)
New Hampshire (except Salem) (036)
New Mexico (601)
New York (partial state only) (215) use CDX to verify if the Club is unknown.
Ohio (partial state) (215) use CDX to verify if the Club is unknown.
Pennsylvania (partial state) (215) use CDX to verify if the Club is unknown.
Texas (252)
Tidewater (258)

Vermont (036)
Virginia (partial state) (258) use CDX to verify if the Club is unknown.
West Virginia (partial state) (215); use CDX to verify if the Club is unknown. All other states are not a part of ACE and benefits cannot be provided by this tool.

In states that are only partially in ACE territory, all membership benefits are available in the ACE territory. For non-ACE club codes and other Club Codes not listed here, check the Club Code drop-down in the RADAR Member Search panel.
For international Club Codes, see International Memberships. International Club members are limited to Classic benefits in all ACE markets

ACE Club Territories, some are partial states

ACE territory includes the following Clubs: CHANT, ACMO, Tidewater (TW), Northern New England (NNE) and East Central (EC). when a question is posed that includes "EC", it is limited to "East Central".

CHANT territory includes New Mexico (NM-601), Hawaii (HI-018), California (CA-004, partial), and Texas (TX 252)

ACMO (065) territory includes Arkansas (AR), parts of Illinois (IL), Indiana (IN), Kansas (KS), Louisiana (LA), Missouri (MO), Mississippi (MS); check CDX or perform a Member Search in RADAR.

Tidewater territory (258) includes Virginia (VA), and Alabama (AL 001). Alabama (AL 001) dispatching is now handled by Tidewater (258).

Northern New England (NNE) 036 Territory includes Maine (ME), New Hampshire (NH), and Vermont (VT).

East Central (EC) is Club 215 territory includes parts of New York state, parts of Ohio (OH), parts of Pennsylvania (PA), Kentucky (KY) and parts of West Virginia (WV); use CDX to verify if the Club is unknown.

This is a list of Clubs not serviced by ACE but whose valid breakdown locations are serviced by their local AAA Club under a valid AAA membership (see international memberships, when applicable). To narrow search, be more specific about the state, etc. If a non-ACE Call breakdown location cannot be mapped in RADAR/FSL, assist the member by providing them with the contact information for the affiliate Club.
Auto Club Group – ACG includes: Colorado (006), Florida (014), Georgia (), Illinois – Partial State (020, *Adams, Boone, Brown, Bureau, Carroll, Cass, Champaign, Christian, Clark, Clay, Coles, Cook, Crawford, Cumberland, De Witt, DeKalb, Douglas, DuPage, Edgar, Effingham, Fayette, Ford, Fulton, Grundy, Hancock, Henderson, Henry, Iroquois, Jasper, Jo Daviess, Kane, Kankakee, Kendall, Knox, La Salle, Lake, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Marshall, Mason, McDonough, McHenry, McLean, Menard, Mercer, Montgomery, Morgan, Moultrie, Ogle, Peoria, Piatt, Pike, Putnam, Richland, Rock Island, Sangamon, Schuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Vermillion, Warren, Whiteside, Will, Winnebago and Woodford*), Indiana (partial state - 023), Iowa, Michigan (047), Minnesota (049), Nebraska (069), North Carolina (111), North Dakota (113), South Carolina, Tennessee, Wisconsin (270), and Puerto Rico. Mountain West Group (005) - Northern CA only CSAA is a non-ACE territory), AK, AZ,

MT, NV, UT & WY; check CDX or perform a Member Search in RADAR. AAA South Jersey (071) - Camden, Cumberland, Gloucester and Salem counties.

AAA Club Alliance (212) serves Members in DE, MD, OK, SD, DC, and parts of VA, PA, NJ, CT, OH, WV, KY, IN and KS;

AAA Northeast (240) serves parts of CT, MA (Massachusetts), NH (partial), NJ, NY (partial), and RI;

AAA Minneapolis (057) serves Hennepin County, and the cities of Columbia Heights, Fridley, & Spring Lake Park,

AAA Hudson Valley (080): serves Albany, Rensselaer, Greene and Columbia Counties, parts of NY and these areas of Saratoga County, NY: the Villages of Waterford and Stillwater and the City of Mechanicville.

AAA Western & Central New York (084) service area includes: Buffalo, Rochester, and Syracuse metro areas and the following counties: Allegany, Cattaraugus, Cayuga, Chautauqua, Cortland, Erie, Genesee, Jefferson, Lewis, Livingston, Madison, Monroe, Niagara, Oneida, Onondaga, Ontario, Oswego, Schuyler, Seneca, Steuben, St. Lawrence, Tompkins, Wayne, Wyoming, and Yates.

AAA Northway (104) - Serving Broome, Chemung, Chenango (Town of Greene), Clinton, Delaware (Town of Deposit), Essex, Franklin, Fulton, Hamilton, Montgomery, Saratoga [except Stillwater, Waterford and Mechanicville], Schenectady, Tioga, Warren and Washington counties. AAA Shelby County Club (160) Shelby County, Ohio (partial) AAA Oregon/Idaho (177) - Serving Members in Oregon and Southern Idaho. AAA Northampton County (188) serves Northampton County: the greater Easton area, Bangor, Bethlehem Twp, Bushkill Twp, Mt. Bethel, the greater Nazareth area, Pen Argyl, Plainfield Twp, Portland, Roseto, Stockertown, Tatamy, Washington Twp, Wind Gap and North-Eastern Bucks County.

AAA Schuylkill County serves Lansford and Summit Hill in Carbon County & all of Schuylkill County *Excluding Delano Township, East Union Township, Kline Township, McAdoo Borough, North Union Township, and Union Township.

AAA Central Penn (195) - Serves members in Adams, Cumberland, Dauphin, Huntingdon, Juniata, Lancaster, Lebanon, Mifflin, and Perry counties. Club CSAA is AAA Northern CA, AK, AZ, MT, NV, UT & WY (not ACE territory). You may also check CDX or perform a Member Search in RADAR.

ERS Communication Guidance – Member-Friendly Phrasing and Service Recovery

1. Purpose

Help roadside assistance representatives communicate ERS policies, procedures, membership benefits, service limitations, charges, and next steps in a clear, approachable, professional, and empathetic manner.

The goal is to help representatives translate accurate ERS policy guidance into natural, confident conversations that support member understanding, positive service experiences, and appropriate first-contact resolution.

Prioritize suggested member-facing language near the beginning of the response whenever the situation involves explaining a policy, delivering an unfavorable answer, addressing a member concern, or determining how to respond to a member.

Ask ACE should recognize when a representative may benefit from help communicating an answer, even when the representative does not explicitly ask, "How do I say this to the member?"

Communication guidance should support resolution and de-escalation when appropriate. It must never discourage, delay, or override a member's request for a supervisor or any escalation required by ERS or Club procedures.

2. Core Communication Guidance

When answering questions that involve explaining a policy, communicating a limitation, addressing a concern, or responding to a member, provide suggested member-facing language in addition to the applicable policy guidance whenever it adds practical value.

Do not wait for the representative to specifically request a script when the situation clearly calls for one.

Suggested language should:

- Sound natural and conversational, as if spoken by a knowledgeable, helpful roadside assistance representative.
- Be approachable, gentle, respectful, empathetic, and professional without sounding overly formal, scripted, robotic, or repetitive.
- Acknowledge the member's concern, frustration, disappointment, or confusion when appropriate.
- Explain the situation in plain language, avoiding unnecessary internal terminology, acronyms, or policy jargon.
- Clearly communicate what can be done, what cannot be done, and what options or next steps are available.
- Help the member understand the reason for the decision rather than simply reciting a policy.
- Remain fully consistent with applicable ERS policy, procedures, eligibility requirements, membership benefits, and service limitations.

- Offer an alternative approach or additional follow-up suggestion when the member is not receptive to the initial explanation, provided the alternative is supported by policy.
- Reflect the representative's actual authority and the actions that have been completed or can be completed.

Communication can be gentle; policy must remain exact. Do not soften, change, omit, or reinterpret a policy requirement simply to make an answer more agreeable.

3. Recognizing Member Concerns and Opportunities to De-escalate

Do not rely exclusively on specific keywords to determine whether a member may be upset or whether suggested phrasing would be helpful.

Recognize both direct and indirect expressions of dissatisfaction, frustration, anger, disappointment, confusion, urgency, or resistance.

Examples include:

- "I'm unhappy with this."
- "This is ridiculous."
- "I've been waiting forever."
- "Nobody is helping me."
- "I want my money back."
- "Get me a supervisor."
- "I've already explained this."
- "I want to cancel."
- "This isn't what I was promised."
- "Why am I being charged?"
- "I've been a member for years."
- "This is not the service I expected."

When these or similar statements appear:

1. Recognize the member's concern and consider providing suggested language.
2. Acknowledge the concern without being defensive, argumentative, dismissive, or assigning blame.
3. Help the representative explain the applicable policy or situation in clear, respectful language.
4. Identify available options and realistic next steps.
5. Encourage appropriate first-contact resolution when possible and within the representative's authority.
6. Follow all required complaint, supervisor, SRT, and Club escalation procedures.

Important escalation distinction:

- If the member requests a supervisor, do not assume the request should be avoided.
- The representative may ask a brief clarifying question or offer assistance when appropriate, but must not use that conversation to discourage or delay an escalation.

- If the member continues to request a supervisor, follow the applicable Club escalation process.
- If policy requires an immediate transfer or escalation, follow that requirement.
- Never promise that a supervisor, department, or other team will take a particular action unless that outcome is confirmed and supported by the applicable procedure.

The objective is to help resolve concerns appropriately, not to prevent legitimate escalation.

4. Using Phrasing Examples

Use the communication examples in this document and other relevant knowledgebase policy sources as references for tone, structure, and conversational style.

Adapt the wording to the specific situation rather than reproducing examples mechanically.

When using an example:

- Confirm that the scenario matches the member's actual circumstances.
- Confirm that the policy and procedure associated with the example apply.
- Use the applicable policy source to determine what the representative may offer, explain, document, or escalate.
- Do not treat a communication example as independent authority for a policy decision.
- Do not carry over a specific fee, timeframe, eligibility rule, or workflow from an example unless it is confirmed by the applicable authoritative source.
- Do not state that an action has been completed unless the representative has actually completed it.

If a communication example conflicts with an authoritative ERS policy or procedure, follow the authoritative source and do not repeat the conflicting language.

5. Recommended Ask ACE Response Style

When a question involves a member conversation, organize the response in the following order whenever practical:

Suggested Member-Facing Language

Provide a natural, ready-to-use way for the representative to explain the situation to the member. Place this near the beginning of the response.

Policy Guidance

Explain what the representative needs to know, including applicable eligibility requirements, limitations, fees, benefits, and policy distinctions.

Agent Actions and Next Steps

Identify required actions, documentation, available alternatives, and applicable escalation procedures. Include CMS complaint processing, SRT escalation, or supervisor procedures when supported by the knowledgebase.

Additional Approach (when useful)

If the member is not receptive to the initial explanation, provide an alternative way to communicate the same policy accurately or suggest an appropriate next step.

Do not force a script into every response. Simple factual questions, system navigation questions, or internal process questions may not require member-facing language. However, when the situation clearly involves explaining an unfavorable outcome, handling a concern, or responding to dissatisfaction, make a reasonable effort to provide suggested wording.

The knowledgebase should consistently attempt to provide helpful suggested phrasing for questions involving Club protocols, policies, membership benefits, service options, and roadside assistance when member communication is relevant.

6. Accuracy, Authority, and Promise Prevention

Suggested language must never create an expectation that the representative or AAA has not confirmed it can meet.

Do not promise or imply:

- A guaranteed service provider arrival time.
- A guaranteed tow, service option, or provider availability.
- A fee waiver, refund, reimbursement, membership exception, or benefit extension that has not been approved or confirmed.
- A guaranteed supervisor or department response unless the applicable process establishes that timeframe.
- That a complaint will be resolved in the member's favor.
- That a provider, supervisor, or another department has been contacted when that action has not occurred.
- That a particular outcome will be achieved simply because the representative submits a request or complaint.

Avoid unsupported statements such as:

- "I'm going to make it right."
- "I'll get this taken care of for you."
- "I guarantee we'll resolve this."
- "I'll make sure a driver gets there as soon as possible."
- "Your fee will be refunded."
- "A supervisor will approve this."

Use language that communicates ownership without guaranteeing an outcome:

- "I'll review the available options with you."
- "I can document your concern and follow the applicable review process."
- "Let me explain what options are available under your membership."
- "I'll help you with the next step."
- "I can submit this for review, although the final decision will be determined through the applicable process."

Only use statements about completed actions after those actions have actually been completed.

---

7. Member Communication Examples and Scenarios

The following examples are intended to help representatives communicate difficult situations with empathy and clarity. Confirm the applicable ERS policy and workflow before using any specific operational instruction, fee, timeframe, or escalation path.

A. Service Delays and Provider Concerns

Member is upset about a service delay

Suggested wording:

"I apologize for the delay. I understand how frustrating it is to wait for assistance. The provider's current status is [insert verified status]. I'll review the available information and let you know what options or updates are available."

If the provider has actually been contacted and has confirmed an update:

"I've contacted the provider and requested an update on the estimated arrival time. We appreciate your patience, and I'll share any confirmed information available."

Agent reminder: Do not state that the provider has been contacted or that an arrival update has been requested unless those actions have actually occurred. Do not guarantee an arrival time.

Member has a service issue or concern that the representative was able to resolve

Suggested wording:

"Thank you for giving me the opportunity to address this with you today. I'm glad we were able to work through the concern, and I appreciate your patience and understanding. We truly value your AAA membership. Is there anything else I can assist you with before we end the call?"

Member reports an unpleasant experience with a service provider or technician

Suggested wording:

"I'm very sorry about your service experience and that the driver's conduct made you uncomfortable. This is not the experience we want for our members. I appreciate you bringing this to our attention. I'll document the details you've shared and follow the applicable process for elevating your concerns to Contract Relations."

If the concern has actually been elevated:

"I've documented the details you shared and elevated your concerns to Contract Relations for review. We appreciate you bringing this to our attention."

Agent reminder: Do not promise a particular provider action or outcome. Follow the applicable complaint and Contract Relations procedures.

Member calls back to report vehicle damage

Step 1 – Offer provider contact information

Suggested wording:

"I'm sorry to hear about the damage to your vehicle. I can provide the service provider's contact information so you can reach out to them directly. Would you like their phone number?"

If the member agrees to contact the provider:

- Provide the applicable contact information.
- Document the conversation on the service request.
- Follow the applicable complaint procedure to determine whether any additional action is required.

Do not automatically characterize the complaint as resolved solely because the member agrees to contact the provider unless the applicable procedure supports that disposition.

Step 2 – Member declines direct contact with the provider

Suggested wording:

"I understand. I'll document your concern and follow the applicable process to have it reviewed. Let me gather the details so I can make sure the concern is properly recorded."

The original example identifies these agent actions:

- Retrieve the original service request.
- Document the nature of the complaint and all relevant details.
- Create a CMS Damage Complaint in RADAR.
- Elevate for Supervisor Review.
- The original example specifies a 3–5 business day follow-up timeframe.

Agent reminder: Confirm the current CMS workflow and follow-up timeframe in the authoritative procedure before communicating them to the member.

Step 3 – Member wants to submit photos of the damage

Suggested wording:

"If you'd like to provide photos of the damage as part of your complaint, I can connect you with the team that handles that process."

The original example directs the representative to warm-transfer the member to SRT for call handling. Confirm and follow the current procedure.

Step 4 – Member requests immediate escalation

Warm-transfer the member to SRT per the applicable Club policy.

The original procedure specifies: Do not create a CMS case when warm-transferring a call. Confirm the current procedure and follow it.

B. Fees, Charges, and Membership Benefits

Member has used the annual allotment and wants to avoid the service charge

Suggested wording:

"I completely understand your concern, and we truly value your membership. Once the available service calls for the membership year have been used, the applicable service charge is required before dispatching service. If you'd like, I can also review whether a nearby service provider may be available for a cash-price option."

Agent reminder: Verify the current service charge amount, allotment status, and applicable requirements before quoting them. The original example references a $100 service charge; do not assume that amount applies to every situation.

Member is upset about ERS fees or mileage charges

Suggested wording:

"I understand your concern about the [mileage charges/fees], and I'm sorry for any frustration this may cause. Your membership includes [insert applicable membership benefit]. The additional charges for this request are [explain the applicable charges]. I can walk you through how those charges apply."

Clearly explain the applicable benefit, charge, and payment requirement. Do not imply that a charge is optional or negotiable unless the policy supports that.

Member is unhappy about CAPRE, Same Day/Early Use Fee, or Service Charge

Suggested wording:

"I hear your concern, and I understand why you'd want clarification. After reviewing the membership and the circumstances of this request, the applicable fee appears to apply. I'd be happy to explain how the fee is calculated and review any available options with you."

Agent reminder: Confirm the applicable fee and policy before stating that it applies. Do not promise a waiver or adjustment unless authorized.

Former member wants the EUF or other fees waived

Suggested approach:

Acknowledge the former member's concern, review the applicable membership and fee policy, and explain whether any review, adjustment, or referral process is available.

Suggested wording:

"I understand why you're asking about the fee, and I'd be happy to review the circumstances with you. Let me check the applicable policy and explain whether any options are available."

Agent reminder: The original document did not include a complete approved script or operational procedure for this scenario. Do not assume a former member qualifies for a waiver or exception.

Member is concerned about an ERS warning or notification letter

Suggested wording:

"I understand your concerns, and I appreciate you taking the time to reach out. This letter is intended to keep you informed about your ERS usage and help you understand your membership's service benefits and requirements."

Do not imply that the letter has no consequences or guarantees uninterrupted service unless the applicable policy supports that explanation.

Member requests a service or benefit that is not covered by their current membership

Suggested wording:

"I understand this is disappointing. Based on your current membership level and the service requested, this service is not covered under your membership. I can review the covered alternatives with you and help with a repair-facility or paid-service referral, if available."

Member disputes a mandatory waiting period after purchasing or upgrading membership benefits

Suggested wording:

"I understand why this is confusing after your payment was processed. The payment completes the upgrade, but the upgraded benefits have a mandatory waiting period before they can be used. During that period, service is limited to the benefits currently active on the account. I can explain how the waiting period applies and, if you'd like to discuss the upgrade purchase or a refund, connect you with Member Services."

Agent reminder: The original example references a seven-day waiting period and states that it cannot be waived. Verify the current waiting-period policy and applicable exceptions before communicating those details.

C. Repeat Complaints, Escalations, and Difficult Conversations

Member calls back due to a vehicle breakdown at the same or nearby location

Suggested wording:

"I can see that you recently received service. I'm sorry you're experiencing another issue so soon. Let me review the original request and the applicable policy to determine whether the original request can be allowed or whether a new service request is needed."

If the applicable procedure authorizes allowing the original request or setting up a new request, explain the action and next steps accurately.

Agent reminder: Do not promise that the original request will be allowed or that a technician will be dispatched until eligibility and the appropriate process have been confirmed.

Member repeatedly complains about provider service and does not allow the representative to end the call

Step 1 – Acknowledge and empathize

"I understand your frustration, and I want to make sure I fully understand what happened. Your concerns are important, and I appreciate you taking the time to explain them."

Step 2 – Confirm documentation

If the complaint has been documented:

"I've documented the details you've shared regarding your experience and followed the applicable process to elevate your complaint for review."

Do not say that a complaint has been documented or elevated until those actions have actually occurred.

Step 3 – Set expectations for follow-up

If the applicable procedure establishes a follow-up timeframe:

"The review process provides for follow-up within [verified timeframe]."

The original example references 3–5 business days. Verify the current timeframe before communicating it.

Step 4 – Redirect and attempt to conclude the call

"Thank you for taking the time to explain what happened. I want to make sure the details you've shared are included. Is there anything additional you'd like me to add to the complaint? If not, I've explained the next step in the review process."

Step 5 – If the member requests immediate escalation

Warm-transfer the member to SRT or the Local Supervisor Line, as directed by the applicable Club procedure.

The original example specifies not to create a CMS case when warm-transferring. Confirm and follow the current procedure.

Important reminders:

- Never hang up, disconnect, or release a member call as a way to end a difficult conversation.
- If a member becomes verbally abusive through profanity, yelling, or insults, attempt to de-escalate using the applicable procedure.
- If unsuccessful, follow the required warm-transfer or supervisor escalation procedure.
- Document relevant complaint and interaction details on the service request as required.
- Do not claim a supervisor has reviewed a complaint unless that review has actually occurred.

Member requests a supervisor without fully explaining the issue

Suggested wording:

"I understand you'd like to speak with a supervisor. If you're comfortable sharing a little more about what's happening, I can see whether there's something I can help with right away. If you'd still prefer a supervisor, I'll follow the appropriate process to connect you."

Agent reminder: This is an invitation to understand the concern, not a reason to delay or deny the member's request. If the member continues to request a supervisor, follow the applicable escalation procedure.

Member requests a supervisor for a billing concern that may involve membership billing or an ERS service charge

Suggested wording:

"I understand you'd like help with the billing concern. Membership billing and membership-account issues are handled by the Member Services Center, so I can connect you with that team. If your concern

is specifically about an ERS service charge or roadside bill, I'll follow the applicable ERS billing-dispute process."

Agent reminder: Confirm which type of billing issue applies and follow the appropriate referral or escalation procedure.

Member has an existing complaint and has not received follow-up

Suggested wording:

"I'm sorry you haven't received an update regarding your complaint. I understand how frustrating it is to wait for a response. Let me review the available case information and determine the appropriate next step."

If the applicable procedure requires a new case or follow-up request, complete that action and explain the verified process.

The original example states:

- If a member requests a case update, create a new case.
- If a member requires a paper form, create a new case under Reimbursement.

Agent reminder: Confirm the current case-handling process before creating a new case or promising follow-up. Do not promise that a representative will contact the member as soon as possible unless the process supports that expectation.

Member requests a status update on a special membership concession after repeated service complaints

Examples include a complimentary membership upgrade or another special concession.

Suggested wording:

"I understand you've been waiting for an update and that the prior service issues have been frustrating. Let me connect you with the appropriate team for further assistance with the status of that request."

The original example directs the representative to connect the member with Member Relations. Confirm the correct team and transfer procedure.

Member has negative feedback about the automated system

Suggested wording:

"I understand your frustration, and I'm sorry for the inconvenience you experienced with our automated system. I'm here now and happy to assist you."

If the member is frustrated because the automated system could not understand their location:

"Let me get your location and the details needed so I can review your service request and help determine the next step."

Original process example:

- CMS Case Type: Complaint.
- CMS Complaint Category: System Issue – an issue the member experienced with AAA technology while requesting or waiting for service.
- Search for the original service request.
- Document the nature of the complaint and relevant details.
- Elevate for supervisor review in CMS.
- The original example specifies a 3–5 business day follow-up timeframe.

If the member requests immediate escalation, warm-transfer the member per the applicable Club policy. The original example specifies not to create a CMS case when warm-transferring.

Agent reminder: Verify the current CMS category, workflow, and follow-up timeframe.

Member is angry about service received from an ICS member and continues using profanity after being asked to stop

Step 1 – Attempt to de-escalate and provide a warning

"I understand you're frustrated, and I truly want to help you. However, I am unable to continue this call if the language continues. I'm asking that you refrain from using that language so I can assist you."

If another warning is appropriate under the applicable procedure:

"I understand you're frustrated, and I truly want to help you. However, I am unable to continue this call if the language continues. I'm asking you one more time to please refrain from using that language so I can assist you."

Step 2 – If the member continues

Follow the required procedure for a warm transfer to the Local Supervisor Line.

Suggested wording:

"I'm going to connect you with a supervisor who may be able to further assist you. Please hold for just a moment."

Important reminders from the original procedure:

- Do not hang up, disconnect, or release the call.
- Do not create a CMS case for abusive-member scenarios if the applicable procedure prohibits it.
- Document the verbal abuse details on the service request.

- Contact a member of the local home-site management team for further processing, as directed by the applicable procedure.
- Follow the current Club protocol for warm transfers and documentation.

Member is disappointed that no drivers are available late at night for a long-distance tow

Suggested wording:

"I completely understand your frustration, and I sincerely apologize for the inconvenience. I know this isn't the experience you expected from AAA, especially at this hour."

"Unfortunately, at this time, we haven't found an available service provider in our network who can accommodate a tow of that distance. Availability can be limited based on the provider options in your area and the time of the request."

"We can continue reviewing available options, consider a nearer eligible destination, or discuss a paid alternative if one is available."

Agent reminder: Do not guarantee that a provider will become available or that a particular tow can be completed immediately.

D. Eligibility, Service Limitations, and Alternative Options

Member requests a service that is not covered under their benefits

Suggested wording:

"I apologize for any misunderstanding. Your membership includes [insert applicable benefit]. While we are unable to cover [insert the requested service or item], I can review what is available under your membership or discuss a paid-service referral, if one is available."

Member requests towing to a normally excluded destination and claims an exception may apply

Suggested wording:

"I understand why you'd like the vehicle taken to that location. Towing to a storage facility is not covered unless the applicable requirements for repairs at that location are met. If repairs will be performed there, we can review the verification requirements. Otherwise, I can help identify an eligible repair destination or discuss a paid towing option."

Agent reminder: The original example identifies an exception when immediate repairs will be performed at the storage facility. Verify the exact destination and repair requirements before communicating an eligibility decision.

Member has pets or animals in the vehicle being towed and needs safe transportation (except ADA scenarios)

Suggested wording:

"I'm sorry you're dealing with a breakdown while transporting your pets. We want to make sure everyone is safe. The tow provider may not be able to transport pets, so you may need to arrange safe transportation for them before the vehicle is towed."

Agent reminder: Follow applicable ADA requirements and current towing procedures. Do not apply this example to ADA-related situations without consulting the relevant policy.

Disabled vehicle has more passengers than the tow truck can safely accommodate

Suggested wording:

"I'm sorry you're stranded. The tow vehicle has passenger-capacity limitations, so additional passengers may need to arrange separate transportation. I can document the number of people involved and review the available options with you."

The original example references a normal capacity of up to two passengers. Verify the applicable vehicle and provider requirements before quoting a passenger limit. Do not guarantee that a larger crew-cab vehicle will be available.

Member requests repositioning a vehicle within the same property or between the street and driveway

Suggested wording:

"I understand you'd like the vehicle moved into the driveway. This type of repositioning is considered a convenience tow and is not covered under the applicable membership benefit. I can help you look for a nearby service provider who may be able to assist at your expense."

Agent reminder: Confirm that the request meets the policy definition of repositioning or a convenience tow.

Member requests service for another person's vehicle but cannot be present with identification at the breakdown location

Suggested wording:

"AAA service follows the member, and the member must be present with the vehicle and show the required identification. The fact that the vehicle belongs to your sister does not by itself prevent service. However, because you cannot be at the breakdown location, we cannot provide the tow under your membership. I can explain the available paid-service options."

Agent reminder: Verify the applicable member-presence and identification requirements before communicating the decision.

One household member has exhausted their benefits and asks to use another member's entitlement when that member is not present

Suggested wording:

"I understand why you're asking, but membership service calls cannot be transferred from one person to another. The dependent must be present with the vehicle for their benefits to be used. Since the dependent isn't there, we cannot use their service entitlement for this request. I can explain the available paid-service options."

Agent reminder: Confirm the applicable membership and dependent eligibility rules.

Member requests a long-distance tow when no provider is available at the requested time or location

Suggested wording:

"I'm sorry we haven't found a provider available for that [250]-mile tow at this hour. Coverage does not guarantee that a provider can complete a specific long-distance tow immediately. We can continue checking available options, review a nearer eligible destination, or discuss a paid alternative if one is available."

Agent reminder: Replace the example mileage with the actual request. Explain coverage and provider availability as separate issues. Do not imply that a covered benefit guarantees immediate provider availability.

E. Payments, Batteries, and Other Service Situations

Payment is required, but the member's payment method is locked inside the vehicle

Suggested wording:

"I'm sorry your payment card is locked in the vehicle. Let me first verify the membership status and review the applicable payment requirements. If the membership is outside the grace period, it may need to be renewed before covered service can be provided. I can also review whether a COD referral is available."

Agent reminder: Verify the membership status, grace-period requirements, and available payment options before advising the member.

Member requests AAA battery warranty service, but the original purchase date or proof of purchase cannot be located

Suggested wording:

"I'm sorry we couldn't locate the battery purchase record right away. I'll check the current and any prior or associated memberships. If the purchase date still cannot be found, the technician may be able to inspect the battery's heat stamp when they arrive to help determine warranty eligibility."

Agent reminder: Confirm the applicable battery warranty verification process. Do not guarantee warranty eligibility based solely on a heat-stamp inspection.

Member reports a battery problem shortly after the applicable warranty period may have expired

Suggested wording:

"I'm sorry you're having battery trouble. First, I need to verify the exact original purchase date. If the battery is confirmed to be beyond its applicable warranty period, it may no longer qualify for free replacement under the warranty. Depending on the purchase date and applicable terms, a discounted replacement may still be available. Otherwise, I can review jumpstart, towing, or new-battery options with you."

Agent reminder: Verify the actual warranty dates and any applicable discounted replacement terms before communicating eligibility.

Member reports repeated failure of a recently purchased AAA battery and requests reimbursement instead of warranty replacement

Suggested wording:

"I'm sorry the battery has continued to fail after only a month. The next step is to have a battery-service technician test the battery and charging system. If the AAA battery meets the warranty-replacement criteria, it can be replaced under the warranty. If you choose to purchase a third-party battery after the battery test fails, you may be able to submit a reimbursement form with supporting documentation for consideration, subject to the applicable reimbursement requirements."

Agent reminder: Verify the battery warranty and reimbursement policy before advising the member that a reimbursement submission is available or eligible.

Law enforcement or another public agency requests member, vehicle, provider, or service-request information for a live service request

Suggested wording:

"Officer, I can provide the service provider's name and the current estimated arrival time for this roadside request, as permitted by our procedures. I'm not able to release additional member or vehicle information without the required authorization."

Agent reminder: Follow applicable privacy, authorization, and law-enforcement information-release procedures. Do not disclose information beyond what is authorized.

A roadside service provider (ICS) contacts ERS about a missing, delayed, or disputed provider payment

Suggested wording:

"For assistance with a missing or delayed payment, please contact your Contract Station Relations representative, who can review the payment details with you."

Agent reminder: Follow the current provider-payment support process and direct the provider to the appropriate contact.

---

8. General Empathy and Acknowledgment Phrases

Use these phrases when they fit the conversation. Adapt them naturally rather than repeating the same wording in every interaction.

- "I hear you, and I understand why you are upset about this."
- "Take your time; I'm listening, and I want to understand what happened."
- "I want to make sure I have this exactly right, because you shouldn't have to explain it again. Let me read back what I understand."
- "Thank you for bringing this to my attention. I'm here to help."
- "I can tell this is really frustrating. Let's work through the available options together."
- "I understand why you would have questions about this."
- "I appreciate your patience while I review the information."
- "I can see why this situation would be disappointing."
- "Let me make sure I explain the next steps clearly."

9. Service Recovery – When Club Standards May Not Have Been Met

When a member reports that their experience did not meet expectations, acknowledge the concern and show ownership of the interaction without promising an outcome that has not been authorized.

Recommended phrases:

- "I sincerely apologize for the trouble this has caused you today."
- "I'm sorry that happened. I understand how frustrating that must be."
- "I am very sorry you've had to deal with this."
- "Thank you for bringing this to our attention. I'll make sure your concern is documented through the appropriate process."
- "I'm going to do everything within my role and authority to help you understand the available options."
- "Let me review what happened and explain what I can do to assist."
- "I understand this has taken more time than you expected, and I appreciate you explaining the situation."

Use caution with statements such as:

- "You're right, and I want to fix this for you."
- "I'll get it taken care of."
- "That shouldn't have happened, and I'm going to make it right."
- "How can I make this better for you?"

- "I'm going to make sure we resolve this as fast as possible."

These statements can imply authority, a guaranteed resolution, or a specific outcome. Use them only when the representative can genuinely fulfill the commitment. Otherwise, use language that communicates empathy and ownership without making a promise.

---

10. Final Guidance for Ask ACE

When a representative asks a question that involves a member interaction, think beyond simply providing the policy answer.

Consider:

1. **What does the representative need to know?** Identify the applicable ERS policy, procedure, eligibility requirement, or service limitation.
2. **What does the member need to understand?** Translate the policy into clear, approachable plain language.
3. **How should the representative communicate it?** Provide suggested member-facing wording near the beginning of the response when appropriate.
4. **What can the representative do next?** Identify available options, required actions, documentation, and escalation procedures.
5. **What should the representative avoid promising?** Do not imply an exception, refund, reimbursement, provider availability, supervisor decision, or guaranteed resolution unless confirmed and authorized.

Recognize member dissatisfaction through both direct statements and contextual clues. Do not require a representative to use specific keywords or explicitly request a script before providing communication assistance.

The ultimate objective is to help representatives know the policy, find the right words, and guide members through difficult situations with accuracy, empathy, confidence, and professionalism.

Policy and procedure remain the source of truth. Communication examples support how the representative explains the answer; they do not establish, change, or override ERS policy.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

A severe condition alert is an alert from call center management indicating that weather or other conditions exist in a particular area that may have an impact on our ability to service our members.

Towing is not covered simply because the member is afraid to drive in severe weather, such as, ice on the road, flooded roads, and snowy conditions.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Service Verification (proof of service), also called proof of service form: Household ERS usage details (service verification- proof of service) may only be requested by and provided to the Primary and Adult Associate on the membership via a signed Service Verification form; ERS agents may email the member via the ERS Knowledgebase service verification/reimbursement forms page.

Where can an ERS agent obtain ERS reimbursement or service verification forms for the member's records? ERS forms are available on the ERS Knowledgebase and may be emailed by ERS agents from the Reimbursement or Service verification page on the ERS Knowledgebase.

The written request from the Primary Member must include full name, membership number, vehicle description including the license number, date of service, location of vehicle, why the proof of service/service verification is needed (e.g., dispute of an illegal parking citation, validate towing warranty purposes, court appearance, late for work or school, etc.). Upon receipt, the request will be processed, and the information provided to the member within 5 business days. In the event the request is related to an existing safety issue or a missing person, the person requesting the service verification should be instructed to contact law enforcement. The service verification information will be provided to law enforcement upon request, per existing ERS protocol.

Member requests for status on Service Verification requests should be directed to ERS Services at 714-885-1986.

Who can request household ERS usage details (service verification)?
Only the Primary and Adult Associate members on the membership can request and receive household ERS usage details.

What is required from the Primary member to request service verification?
The Primary or Adult Associate member must submit a signed request that includes their full name, membership number, vehicle description, license number, date of service, location of the vehicle, and the reason for needing the proof of service/service verification.

How long does it take to process a service verification request?
Upon receipt of the request, it will be processed, and the information provided within 5 business days.

What should be done if the service verification request is related to a safety issue or a missing person?
The person should be instructed to contact law enforcement, and the service verification information will be provided to law enforcement upon request.

Where should a member inquire about the status of their Service Verification request?
Members should contact ERS Services at 714-885-1986 for status updates on their Service Verification requests.

How can a member get a copy of the payment they made for an outstanding ERS bill, service charge, early use fee, or CAPRE or California Prepay **payment?**
For payments processed in MRM, we can offer receipts via email to our members (excludes receipts for AAA battery and other roadside purchases). On the Process Membership Payment screen in MRM Portal, verify the email address on file and place a check mark in the Email Receipt box before submitting

the payment. Receipts cannot be requested in MRM once the payment has already been processed. If the member requests a receipt of a payment made in MRM after the payment has been processed, open a CMS case for member relations follow-up.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

Member is requesting towing records from previous days, weeks, or years. What do I do?
For historical service records from 2015, the member would need to submit a Service Verification request. Here are the requirements: 1). Only the Primary or Adult Associate member can request service verification 2). They must submit a signed Service Verification form (ERS agents may send via email from the ERS Knowledgebase Service Verification/Reimbursement page) 3). The request must include: - Full name - Membership number - Vehicle description including license number - Date of service - Location of vehicle - Reason for needing the verification. The request will be processed within 5 business days once received. The member can check the status of their request by contacting ERS Services at 714-885-1986.

The member is requesting a verification of AAA insurance where can member access it?
Advise the member to contact MSC during business hours for verification of insurance. The AAA insured member may also check the AAA App or log into the member website to check for access there.

Service verification vs. Insurance Verification. Service verification relate to roadside service only and can be requested via the Service verification form. Insurance verification is AAA insurance verification of coverage that is not available from ERS. Advise the member to contact MSC during business hours for verification of insurance. The AAA insured member may also check the AAA App or log into the member website to check for access there.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Spin-offs (future memberships): Spin-off memberships are system-generated memberships created when a dependent/associate has an upcoming qualified birthday event. Spin-offs will become valid on the next birthday of the dependent/associate if payment for the membership is received. Spinoff memberships will appear as Classic, when a payment is received but still in transit (PIT). If the membership is unpaid (not in PIT status), the Spin-Off member is required to pay for the membership prior to receiving service. Eligibility for Plus, Premier, and RV/Motorcycle benefits on Spin-off memberships should be confirmed in MRM Portal.

When does a spin-off membership become valid?
A spin-off membership becomes valid on the next birthday of the dependent or associate, provided payment for the membership is received.

What happens if the spin-off membership is unpaid?
If the spin-off membership is unpaid it is not valid, and the spin-off member must pay for the membership before receiving any services.

How do spin-off memberships appear when payment is in transit?
Spin-off memberships will appear as Classic when payment is received but still in transit (PIT).

How can eligibility for enhanced benefits on spin-off memberships be confirmed?
Eligibility for Plus, Premier, and RV/Motorcycle benefits on spin-off memberships should be confirmed in the MRM Portal.

Member needs a tow but RADAR says "role expired"; main membership is active, but I cannot pull it up in RADAR. Why?
Once a dependent reaches the maximum age limit they no longer qualify as a dependent associate on a membership. For most ACE clubs, the system will automatically spin-off or spin-up any dependent that has reached the maximum age limit at the expiration of the membership term. Clubs with Automated Spin-Offs will spin the dependent up to the adult associate role if it is available at the time of Spin-Off. If dependent twins (same age dependents) on a membership reach the maximum age limit, one twin would be spun-off to their own primary membership and the other twin will be made the adult associate under the same membership number, if that role is available.

Does the CAPRE or Early ERS Use fee apply to spinoff memberships or those canceled and reinstated during the grace period?
No, the CAPRE **and Early ERS Use** fees do not apply to spinoff memberships or memberships that are canceled and then reinstated during the grace period.

Once a dependent reaches the maximum age limit they no longer qualify as a dependent associate on a membership. For most ACE clubs, the system will automatically spin-off or spin-up any dependent that has reached the maximum age limit at the expiration of the membership term, indicating Role Expired in MRM (Spin-off Memberships). A dependent associate is automatically promoted to the role of an adult associate if the dependent is at the

maximum dependent age and there is no adult associate on our membership; no new membership number will be established. If an Adult Associate already exists, the dependent for whom the role has expired will be transferred (Spin-off) to a new membership, with a future effective date; their current membership with be valid until the new membership year begins; once the new membership begins, payment must be received or the Spin-off membership will be cancelled.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Service Charge aka Excessive Usage Fee (SVC Charge): When the member has used all entitlements, calls, allotments under their membership, and/or the renewal dues have not been paid, a Service Charge payment is required prior to dispatching service, unless otherwise excluded by established ERS policy (over the entitlement fee). The Service Charge is $100 for all ACE territories and must be paid upfront (limit exceptions). When the fee is paid, members should be advised that service will be limited to Classic benefits, regardless of membership level, which means that RV/Motorcycle service requests are limited to light services; no tire change or towing of RV/Motorcycle vehicles is allowed when service charge is paid. The Service Charge fee cannot be paid to the service provider.

What is the benefit limitation when a Service Charge is paid? Service will be limited to Classic benefits, regardless of the member's current membership level. When the fee is paid, RV/Motorcycle service requests are limited to light services; no tire change or towing of RV/Motorcycle vehicles is allowed when service charge is paid

If the member is in Service Charge and has a valid pending NSR (No Service Rendered), an override may be requested. However, if the NSR is for the 5th or more call for he membership year, a service charge payment is still required.

Once a Premier or Plus member has used all of their service calls for the membership year (annual call allotment), what is available to them?
When a Plus or Premier member has used all of their service calls for the year (annual call allotment), they are limited to Classic benefits only upon payment of the service charge.

Can membership charge a card that is on file for ERS service?
No, ERS agents cannot process fees due at the time of the service request on the card on file.

If the service charge is paid and service is not received, the fee will automatically void and be refunded to the member. If a new request is initiated, an additional service charge payment must be processed prior to sending service. What happens if a member pays the Service Charge but doesn't receive service? If service is not received, the Service Charge fee will be automatically voided and refunded to the member.

When members make 5th call payment online is there a receipt of payment?
The member will receive confirmation of their online payment; also, the member's credit card and/or bank statement will reflect the payment.

How long do refunds for ERS payments take after the service is canceled (e.g., service charge, etc.)?
When a service is cancelled, refunds for ERS payments are promptly processed by AAA; however, the member's financial institution processing times may vary. Refunds are not the same as reimbursements; reimbursement consideration for covered services require AAA reimbursement form completion and supporting documentation; the member should be counseled to submit the reimbursement request within 60 days of the service and to expect a response to their reimbursement request with 10-14 business days after AAA receives the documentation.

If you do not have a Verifone device to process payments, contact the Payments queue in Softphone that has been established to facilitate ERS payment processing. This queue may be accessed through the SoftPhone speed dial using “payments” as a search term.

Service charge payment is required prior to dispatching service to the member, except in limited scenarios. Effective July 18, 2024, service charge billing is exclusive to Hot Call and Unaccompanied Minor w/Out Credit Card scenarios when the member indicates they are unable to pay the required Service Charge fee at the time of service will be billed at a rate of $125 (billing will include any overmileage charges). Billing is not available in any other scenario. Consistent with existing Club policy service will be limited to Classic benefits in Service Charge scenarios. RADAR scripting will be updated to reflect this change.

If the member indicates they only have a check available to pay the Service Charge, warm-transfer the member to MSC to make the payment and counsel the member to call back when the payment is made.

What if the member does not have a credit card to pay the service charge, early use fee, or CAPRE (or California Prepay**)?**
If the member does not have a check in their name or a credit card to make the payment, ERS agents should refer the member to COD for service (Hot Call protocol applies).

What is a Service Charge in relation to membership entitlements?
A Service Charge is required when a member has used all their entitlements or calls under their membership, or if their renewal dues have not been paid, before service can be dispatched.

Can the Service Charge be paid directly to the service provider?
No, the Service Charge cannot be paid to the service provider.

What are the exceptions to the Service Charge policy?
Exceptions include Hot Calls, Unaccompanied Minors without a credit card, and Accident Assist/Claims Tow situations.

What should be done if a new service request is initiated after a refund?
A new Service Charge payment must be processed before dispatching service for the new request.

What is a Hot Call?
A Hot Call is a situation where a safety concern has been expressed or established, qualifying the member for specific service charge exceptions.

Can a member in Accident Assist/Claims Tow situations bypass the Service Charge?
Yes, Accident Assist/**Claims Tow** situations are one of the exceptions to the Service Charge policy.

How can a member get a copy of the payment they made for an outstanding ERS bill, service charge, early use fee, or CAPRE payment?
For payments processed in MRM, we can offer receipts via email to our members (excludes receipts for AAA battery and other roadside purchases). On the Process Membership Payment screen in MRM Portal, verify the email address on file and place a check mark in the Email Receipt box before submitting the payment. Receipts cannot be requested in MRM once the payment has already been processed. If the member requests a receipt of a payment made in MRM after the payment has been processed, open a CMS case for member relations follow-up.

Will the Early ERS Use (Same Day), CAPRE, and Service Charge fees be refunded if the member requests battery replacement but the AAA battery needed is not in stock for a BSP installation and no other service to the vehicle is rendered?
Yes, the Early ERS Use (Same Day), CAPRE, and Service Charge fees will be refunded if the member requests battery replacement but the AAA battery is not in stock for a BSP installation and no other service to the vehicle.

If a member pays a service charge, CAPRE, or Early ERS Use fee for BSP service for their currently installed AAA battery, and the AAA battery installed in their vehicle is tested and replaced under warranty by BSP, the fees will be refunded**, as the AAA battery tested bad and was replaced under warranty by the BSP technician.**

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?
If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move)
Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move) should be offered COD or be referred to the servicing club. If a service charge payment is collected prior to establishing the non-ACE breakdown location, the member should be advised that the service charge will void.

If member is in 30-day grace period and they have paid a service charge for a previous service, can they request another service during the grace period without making the renewal payment? Yes, but they must pay a service charge each time they receive service if their annual call allotment has be exhausted, and will be limited to Classic benefits in this scenario, regardless of their previous benefit/membership level (Hot Calls and minor without credit card excluded). If they make the renewal payment, the service charge will be credited against the renewal fee.

Why would a Plus or Premier member only get 7 or Classic level of towing?
When a Plus or Premier member has exhausted their annual call allotment and must pay a service charge, or if they are within the mandatory 7-day waiting period after purchasing or upgrading their membership, they will be limited to the Classic towing benefit in their market.

What is a Cash Call?
A Cash Call occurs when a member or non-member pays the service provider directly for services rendered. This includes Commercial or Cash-on-Delivery (COD) referrals, where the member or non-member contacts the provider directly, as well as situations in which services exceed the member's

covered benefits—such as additional fuel, mileage, or locksmith charges not covered under the membership.
The optional RV/Motorcycle benefit adds an additional four (4) calls for qualified RVs and motorcycles; this applies to CA memberships only. RV/Motorcycle towing requests are limited to no more than $500 for tire and towing services per disablement, and $1000 per household, per membership year. The optional RV/Motorcycle benefit does not add any additional calls to the membership in any state except Southern California (004).

What if the member indicates that their CAPRE, Early ERS Use, or Service Charge should have auto-voided but did not?
If the member advises—or the ERS agent determines—that the ERS fee did not auto-void when service was not rendered, the ERS agent should create a CMS case to request processing of the fee adjustment. The member should be advised to expect follow-up within 10 business days.

The member called back for service, the AAA driver couldn't get the tire off, so a tow is needed but now the member is in service charge. Do I process a payment?
No, this is a valid continuation of service scenario, due to a service failure (light service did not resolve the issue). Do not collect a service charge/additional payment; process an Allow on the original call.

An Affiliate Club member (non-ACE member) is in service charge (they are out of calls), and they are in ACE territory. Should I process a service charge payment?
No, when an Affiliate Club member (non-ACE member) is in service charge (they are out of calls), and they are in ACE territory, a COD referral should be provided (Hot Calls excluded), subject to existing ERS protocol.

When submitting an Out-of-Territory (Call Move) request for an ACE member how should agents handle Service Charge and other payments in this scenario?
Agents should always process the payments during the impairment window as normal.

RV/Motorcycle towing, flat tire, and extrication services will not be provided when the membership is in service charge (air only will be provided). Members in service charge who are requesting RV/Motorcycle services are not eligible to receive RV/Motorcycle towing and tire change services upon payment of the service charge; they are only eligible for Classic light service benefits.

How will a member be refunded for electronic credit/debit ERS payments when no service is received?
An attempt to refund the member in the method the payment was made will be attempted. If the refund is not successful, a paper check may be mailed to the address on file.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

RV/Motorcycle Roadside Assistance Knowledgebase Source for Ask ACE

1. Routing and Interpretation Rules

- Users should specify the market when requesting information about RV/Motorcycle services.
- Ask ACE should determine the member's market or state before answering RV/Motorcycle questions because coverage varies by territory, state, membership level, equipment type, and service type.
- For partial-state markets, Ask ACE should instruct users to check CDX before applying the market rule.
- When responding to policy questions, Ask ACE should preserve distinctions between RVs, motorcycles, mopeds/scooters, trailers, watercraft, ATVs/UTVs, snowmobiles, utility/cargo trailers, horse/livestock trailers, car haulers/dollies, commercial trailers, mobile homes, and farm equipment.
- This content is intended as a detailed policy source, not a summary.

2. Territory Definitions

- CHANT territory includes New Mexico (NM), Hawaii (HI), California (CA) partial state only—check CDX, and Texas (TX).
- ACMO territory includes Arkansas (AR), Illinois (IL) partial state only—check CDX, Indiana (IN), Kansas (KS) partial state only—check CDX, Louisiana (LA) partial state only—check CDX, Missouri (MO), and Mississippi (MS).
- Tidewater territory includes Virginia (VA) and Alabama (AL).
- Northern New England (NNE) territory includes Maine (ME), New Hampshire (NH), and Vermont (VT).
- East Central (EC) territory includes Kentucky (KY), New York (NY) partial state only—check CDX, Ohio (OH), Pennsylvania (PA), and West Virginia (WV).

3. Core Benefit Rules Across ACE Markets

- In all ACE states, excluding Hawaii, the RV/Motorcycle benefit covers up to $500 for tire and towing/extrication-related services per disablement, with a $1,000 maximum per household, per membership year.
- The number of miles the covered RV/Motorcycle vehicle or trailer can be towed is subject to the per-mile rate of the provider.
- Once the $1,000 annual household limit has been reached, RV/Motorcycle benefits are limited to light services, such as jumpstart and lockout, for any remaining calls until membership renewal.

- The Premier 200-mile towing benefit cannot be used for RV/Motorcycle towing, including trailers.
- RV/Motorcycle service may use allowable annual service calls unless the market specifically adds separate RV/Motorcycle calls.
- California is the only listed market where the optional RV/Motorcycle benefit adds four additional service requests for covered RV/Motorcycle vehicles.
- Other listed markets do not add calls unless otherwise stated.

4. Waiting Period, Upgrades, and Service Charge Rules

- A 7-day waiting period applies from the time of purchase for RV/Motorcycle benefits to take effect, where applicable.
- The 7-day waiting period cannot be waived unless the member already has RV/Motorcycle coverage and is simply upgrading to PlusRV or PremierRV.
- Members who already have RV/Motorcycle coverage, such as ClassicRV or PlusRV, and are upgrading from ClassicRV to PlusRV or PremierRV, or from PlusRV to PremierRV, do not incur a new waiting period for RV/Motorcycle benefits.
- The standard 7-day waiting period for upgraded or enhanced membership benefits cannot be circumvented by scheduling a Future Appointment Call.
- Upgraded benefits are not available if the 7-day waiting period is still in effect either on the date the service is scheduled by the service representative or on the date service is provided.
- Classic, Plus, and Premier members do not need RV/Motorcycle coverage to receive a jumpstart under membership.
- RV/Motorcycle towing, flat tire, and extrication services will not be provided when the membership is in service charge.
- The unused portion of the RV/Motorcycle benefit, up to $500 per call and up to $1,000 per household per membership year, cannot be used when the membership is in service charge.
- If the service charge is paid, service is limited to light services.

5. Light Services

- Light services on motorcycles, RVs, and trailers are available immediately upon membership purchase.
- Immediate availability of light services does not override service-charge rules. If the membership is in service charge, service remains limited to light services only after the applicable service charge is paid.
- Light services include battery jumpstarts, assessment of door or hood issues, alarm or horn issues, broken windshield, undercarriage issues, flat tire air only, fuel delivery, lockout for vehicles, and locksmith services.

- If the member does not have RV/Motorcycle benefits, they may still request light services such as fuel delivery, jumpstart, locksmith, and lockout under Classic, Plus, or Premier benefits.
- In Hawaii, RVs, trailers, and motorcycles are eligible for light services only; Hawaii does not offer RV/Motorcycle towing, extrication/winching, or tire change services.
- Do not require RV/Motorcycle coverage for fuel delivery on a motorhome if light service is otherwise available under Classic, Plus, or Premier benefits.

6. Vehicle and Equipment Definitions

- Motorhomes, often called RVs, are drivable vehicles with engines and living quarters. They are covered under RV/Motorcycle benefits, subject to provisions of service.
- Mobile homes, also called manufactured homes or trailer homes, are residences usually located in trailer parks that can be relocated. Mobile homes are not covered in any ACE state under membership under any circumstances.
- ERS agents should verify that the member is referring to a motorhome or RV before processing the service request.
- Recreational vehicles may include motorhomes, camper vans, dual-wheel campers, cab-over campers, recreational trailers, camping trailers, boat trailers, ATV trailers, horse trailers where applicable, utility/cargo trailers where applicable, watercraft trailers, travel trailers, toy hauler trailers that are not car haulers, and fifth-wheel trailers, subject to market rules.
- Watercraft such as boats, water skis, snowmobiles, and wave runners must be on a covered trailer to qualify for service under RV/Motorcycle benefits in applicable markets.
- ATVs, UTVs, dune buggies, and other off-road vehicles must be on a covered trailer to qualify for service under RV/Motorcycle benefits in applicable markets.
- Car hauler trailers and dollies are not covered under membership in any ACE state.
- Commercial trailers and farm equipment are excluded from coverage in all markets.

7. Motorcycle, Moped, Scooter, and E-Bike Rules

- Motorcycles include two-wheel and three-wheel motorcycles, including slingshots, mopeds sometimes referred to as scooters, Vespas, and motor-driven cycles that otherwise qualify under membership.
- Motorcycles covered under PlusRV and PremierRV must be licensed for highway use where the applicable market requires it.
- Registration, insurance, and highway-use requirements control over informal vehicle labels such as scooter, moped, or e-bike.
- Motorcycles, motorized bikes, scooters, e-bikes, and e-scooters that do not require registration, plates, and insurance are considered off-road and are not covered under membership unless loaded on a trailer that is eligible under the membership.

- Mopeds that state law requires to be licensed, registered, and insured for street or highway use are covered under membership. For towing services, RV/Motorcycle coverage is required.
- ERS agents should clarify what type of scooter the member is requesting service for.
- E-bikes and e-scooters that are not registered and insured for street/highway operation are not eligible for services under membership.

8. Market-Specific RV/Motorcycle Coverage

8.1 California

- In California, RV/Motorcycle coverage is available as an optional add-on to Classic, Plus, or Premier memberships for an additional annual fee, subject to qualifying terms.
- The optional California RV/Motorcycle benefit adds four additional service requests for covered RV/Motorcycle vehicles.
- If a California member has used all regular Classic, Plus, or Premier calls, they may still tow an RV or motorcycle if they have available calls remaining under the optional RV/Motorcycle benefit. Otherwise, they are only eligible for Classic benefit if the service charge is paid in advance.
- Covered RVs include motor homes, camper vans, cab-over campers, camping trailers, fifth-wheel trailers, recreational trailers, and empty horse trailers.
- Boat trailers, personal watercraft trailers, snowmobile trailers, and ATV trailers must be either empty or transporting recreational vehicles or equipment.
- Utility trailers must be carrying recreational equipment for non-commercial use.
- Commercial trailers are excluded.
- Service does not include transportation of horses.
- The RV/Motorcycle benefit includes up to $500 of tire and towing/extrication-related services per disablement, up to $1,000 maximum per household.
- Dual-wheel tire changes are covered for recreational vehicles when the member has RV/Motorcycle membership.
- California is the exception where tire changes on inside rear tires of non-RV dual-rear-wheel vehicles may be covered.

8.2 Texas and New Mexico

- Effective December 4, 2025, RV/Motorcycle roadside assistance in Texas and New Mexico will no longer be included with Plus or Premier memberships.
- Members in Texas and New Mexico may add optional RV/Motorcycle coverage to monthly and annual memberships for an additional fee.
- Existing Texas and New Mexico AAA PlusRV and AAA PremierRV members who wish to continue RV/Motorcycle coverage for the upcoming year must add the optional RV/Motorcycle coverage at renewal and pay the fee.

- If the optional RV/Motorcycle fee is not paid at renewal, RV/Motorcycle coverage will not be included for the new benefit year.
- The mandatory 7-day waiting period does not apply to existing AAA PlusRV and AAA PremierRV memberships renewing or continuing coverage.
- Beginning December 4, 2025, all new Texas and New Mexico members who want RV and Motorcycle Roadside Assistance must purchase optional AAA PlusRV or AAA PremierRV coverage.
- Texas and New Mexico members may use any allowable service calls for RV/motorcycle tows, extrication and winching, and RV tire changes, up to $500 per service call and $1,000 annual maximum per household.
- Covered vehicles include motorcycles licensed for highway use, motor homes, camper vans, cab-over campers, camping trailers, recreational trailers, fifth-wheel trailers, boat trailers, personal watercraft trailers, ATV trailers, and utility/cargo trailers carrying recreational vehicles or equipment.
- Boat trailers, personal watercraft trailers, snowmobile trailers, and ATV trailers must be either empty or carrying their designated recreational equipment.
- Commercial trailers and horse/livestock trailers are excluded.

8.3 Hawaii

- Hawaii does not offer RV/Motorcycle memberships.
- Hawaii provides light services only for RVs, trailers, and motorcycles, including jumpstarts, fuel, air only, lockout, and locksmith services; Hawaii excludes towing, extrication/winching, and tire change services.
- Snowmobile trailers are not covered under RV/Motorcycle benefits in Hawaii because no RV/Motorcycle benefits are available in Hawaii.

8.4 Alabama

- In Alabama, optional PlusRV and PremierRV benefits are available for an additional annual fee and do not add additional calls to the membership.
- Covered vehicles include motorhomes, camper vans, cab-over campers, camping trailers, fifth-wheel trailers, and utility trailers carrying recreational vehicles or equipment.
- ATV trailers, boat trailers, personal watercraft trailers, and snowmobile trailers must be carrying their designated recreational equipment or must be empty to be eligible for service.
- Motorcycles covered under PlusRV and PremierRV in Alabama must be licensed for highway use.
- Commercial trailers and horse trailers are excluded in Alabama.
- The RV/Motorcycle benefit includes up to $500 of tire and towing/extrication-related services per disablement, up to $1,000 maximum per household.

8.5 ACMO

- ACMO includes Arkansas (AR), Illinois (IL) partial state only—check CDX, Indiana (IN), Kansas (KS) partial state only—check CDX, Louisiana (LA) partial state only—check CDX, Missouri (MO), and Mississippi (MS).
- In ACMO, optional PlusRV and PremierRV coverage is available for an additional annual fee and does not add additional calls to the membership.
- Covered RVs and eligible equipment in ACMO include motorhomes, pickup trucks with campers, travel trailers including fifth-wheel travel trailers, camping trailers, motorcycles, and equipment such as all-terrain vehicles, snowmobiles, and boats only when transported on a covered trailer and configured according to ACMO RV/Motorcycle coverage rules.
- Coverage is not provided for horse/livestock trailers, car haulers/dollies, utility trailers, boat trailers in the water, or other trailers not containing living accommodations or not carrying a boat, motorcycle, all-terrain vehicle, or snowmobile. Boat trailers must be empty or carrying designated recreational equipment; boat trailers in water are not covered.
- In ACMO, ATV/UTV, watercraft, and snowmobiles cannot be serviced directly by the technician; only towing is provided for this equipment when it is on a covered trailer with RV/Motorcycle coverage.
- Towing, extrication/winching, and tire change services are otherwise excluded for RVs and motorcycles for Classic, AAA Plus, and AAA Premier members without RV/Motorcycle coverage.
- Any allowable service calls per membership year may be used for RV/motorcycle tows, extrication and winching, and RV tire changes in ACMO.
- The RV/Motorcycle benefit includes up to $500 per service call or disablement for tire and towing/extrication-related services, up to $1,000 maximum per household per membership year.

8.6 Northern New England

- NNE includes Maine (ME), New Hampshire (NH), and Vermont (VT).
- RV/Motorcycle coverage is an optional benefit available for an additional fee with Plus and Premier coverage.
- NNE RV/Motorcycle coverage does not add additional annual calls to the membership.
- Service for eligible RV/Motorcycle vehicles may be requested as part of the annual call allotment when the optional RV/Motorcycle coverage fee is paid.
- Covered vehicles include motorhomes, pickup trucks with campers, motorcycles licensed for highway use, and travel trailers.
- Travel trailers are defined as trailers for camping with sleeping accommodations.
- Coverage includes towing, tire changes, and extrication services for motorhomes, pickup trucks with campers, and travel trailers.

- The following trailers are not covered in NNE: ATV trailers, boat trailers, snowmobile trailers, horse trailers, utility/cargo trailers, watercraft trailers, and similar trailers.
- Any allowable service calls per membership year may be used for RV/motorcycle tows, extrication and winching, and RV tire changes in NNE.
- RV/Motorcycle coverage is limited to up to $500 per service call, up to a $1,000 annual maximum per household.

8.7 East Central

- East Central includes Kentucky (KY), New York (NY) partial state only—check CDX, Ohio (OH), Pennsylvania (PA), and West Virginia (WV).
- In East Central, optional PlusRV and PremierRV benefits are available for an additional annual fee per household and do not add additional calls to the membership.
- Eligible vehicles include motorcycles licensed for highway use, dual-wheel motor homes, motor homes, camper vans, cab-over campers, camping trailers, recreational trailers, fifth-wheel trailers, boat trailers, personal watercraft trailers, ATV trailers, and utility/cargo trailers carrying recreational vehicles or equipment.
- Boat trailers, personal watercraft trailers, and ATV trailers must be either empty or carrying their designated recreational vehicles or equipment.
- Snowmobile trailers are covered in East Central where RV/Motorcycle coverage is available.
- Empty horse trailers are covered in East Central, but transportation of horses is not included.
- Commercial trailers and loaded horse/livestock trailers are excluded.
- Any allowable service calls per membership year may be used for RV/motorcycle tows, extrication and winching, and RV tire changes in East Central states.
- RV/Motorcycle coverage is limited to up to $500 per service call or disablement, up to a $1,000 annual maximum per household.

8.8 Tidewater

- Tidewater includes Virginia (VA).
- In Tidewater, optional RV/Motorcycle coverage is available for a fee on Plus and Premier memberships and does not add additional calls to the membership year.
- Covered vehicles include motorcycles, motorhomes, dual-wheel campers, travel trailers, pickup trucks with campers, fifth-wheel campers, and recreational trailers.
- Utility trailers are covered when empty or carrying recreational equipment.
- ATV trailers, boat trailers, personal watercraft trailers, and snowmobile trailers must be empty or carrying their designated recreational equipment to be eligible for service.
- Commercial trailers and horse/livestock trailers are excluded.

- Any allowable service calls per membership year may be used for RV/motorcycle tows, extrication and winching, and RV tire changes with Plus and Premier coverage in the Tidewater market.
- RV/Motorcycle coverage is limited to up to $500 per service call or disablement, up to a $1,000 annual maximum per household.

9. Trailer and Equipment Eligibility Rules

- If a market-specific section provides a more restrictive trailer or equipment rule, the market-specific rule controls.
- A travel trailer or other trailer may be covered for towing if the trailer itself is the disabled vehicle, RV/Motorcycle coverage is available, and the vehicle meets all other conditions for service.
- A trailer tow is not covered if the request is solely to move an operable trailer for convenience.
- Service may be provided when the vehicle that was towing the trailer became disabled and can no longer tow it, or when the trailer itself became disabled while being towed and can no longer be safely towed by the member's vehicle.
- If the trailer is operable, parked, and the member's towing vehicle did not become disabled while towing it, the request is considered a convenience tow and is not covered.
- If the vehicle or truck towing the trailer has a covered breakdown, towing of the trailer may be covered under RV/Motorcycle benefits, if available, under a separate service request. Both services will be charged to the membership.
- Highway safety exception: Safety concerns preempt standard RV/Motorcycle coverage rules when a member is stranded on a highway while towing an RV and the towing vehicle is disabled. In this situation, the RV may be towed to a safe location even if the member does not have RV/Motorcycle coverage, to prevent the RV from being stranded on the highway. This exception applies only to relocating the RV to a safe location and does not provide requested-destination towing, repair-facility towing, or full RV/Motorcycle benefit coverage.
- If an RV is disabled while pulling an eligible trailer, including fifth-wheel trailers, a tow will be provided for the disabled vehicle and the trailer on an allowable service call, subject to applicable dollar limits.
- Boat trailers are covered in California when empty or carrying recreational equipment such as jet skis or boats.
- Boat trailers are covered in East Central when out of the water and empty or carrying recreational equipment such as jet skis or boats.
- Boat trailers are covered in Tidewater when carrying recreational equipment or empty.
- In ACMO, boat trailers must either be empty or carrying their designated recreational equipment, and boat trailers in the water are not covered.
- Utility/cargo trailers are covered in California when carrying recreational equipment.

- Utility/cargo trailers are covered in Tidewater when empty or carrying recreational equipment.
- Snowmobile trailers are treated the same as watercraft trailers in applicable markets. They must be empty or carrying their designated recreational equipment, and they are not covered in Hawaii or NNE.
- Snowmobiles and other watercraft must be on a covered trailer to qualify for service under RV/Motorcycle benefits in applicable markets.
- California and East Central cover empty horse trailers under RV/Motorcycle benefits. Service does not include transportation of horses.

10. Service-Type Rules and Exclusions

- Appointment calls are not available for locksmith, RV tire change, and towing services.
- Motorhome lockouts (light service) may be serviced when the member is locked out of the passenger compartment, subject to provisions of service and benefit limitations.
- Tire changes on the inside rear tires of non-RV dual-rear-wheel vehicles are not covered under membership except in California.
- Dual-wheel tire changes are covered for recreational vehicles when the member has an RV/Motorcycle membership, in all states where RV/Motorcycle tire change service is available.
- Except when the highway safety exception applies, a COD referral should be offered to members without RV/Motorcycle coverage when they need towing, flat tire, or extrication services for vehicles that would be covered under a valid RV/Motorcycle membership; members are not eligible for reimbursement for those COD services.
- AAA technicians do not provide assistance to hook up trailers or similar requests when the member is having difficulty operating their equipment.
- For an RV with slide-outs stuck open, towing may be provided; the service technician will assess the best equipment needed to safely tow the vehicle. Service is subject to RV/Motorcycle benefit limitations and provisions of service.
- The member is responsible for charges associated with reinstalling a drive shaft when required to safely tow an RV, unless covered within the available household benefit.
- Reinstallation of a drive shaft is not guaranteed. Tow operators are trained to remove the drive shaft prior to towing, but the industry standard is to have the drive shaft reinstalled by a certified automotive technician.
- If the technician is certified for drive shaft reinstallation and can complete it at the destination, the member is responsible for all charges in excess of the household benefit of $500 per disablement and $1,000 per membership year.
- Safe and proper drive shaft removal is a specialty skill required for damage-free towing of these vehicles.

11. Affiliate, Canada, and Reimbursement Rules

- Reimbursement forms should only be sent to ACE members.
- ACE reimbursement forms should never be sent to non-ACE members, regardless of whether services were provided in ACE or non-ACE states.
- If a non-ACE member seeks reimbursement for charges incurred in ACE club territories, they must contact their home club for more information.
- Affiliate Club members are eligible for up to $500 per disablement, with a $1,000 annual household maximum, subject to CDX confirmation of valid RV/Motorcycle coverage and applicable coverage details.
- Affiliate members who are non-ACE members may be eligible for service benefits, but reimbursement must be handled by their home club.
- AAA Canada members with verified RV/Motorcycle memberships are eligible for up to $500 per disablement and up to $1,000 maximum per household per membership year.
- AAA Canada RV/Motorcycle coverage must be verified with the home Club through CDX. If unable to verify, elevate the call to SRT.
- Do not bypass membership level.
- AAA Canada Club members must contact their home club for reimbursement of fees that exceed $500.
- ACE reimbursement forms should never be provided to affiliate or international Club members.

12. MRM Lookup Guidance

- To determine the dollar amount remaining for RV coverage in MRM, review the RV Amount ($) (H) Member Event Count on the ERS tab.
- Subtract the amount used by the household from $1,000 to provide the remaining RV/Motorcycle benefit amount.

Flatbed and stakebed vehicles are not covered for any services under membership.

Tandem Towing with an RV

Whenever a service provider can tow two vehicles, one in tandem, then one service order will be issued. (For example, an F150 and a ball-hitch travel trailer.); however, a service provider may also determine, while on scene, that two tow trucks are required, in which case, the service provider will then request a separate service request from Club dispatch, which will NOT count against a member's call usage in this scenario.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The phone number for the Member Service Center, also known as MSC and Member Services, can be located in Softphone. Members from all states may be cold transferred to MSC. A warm transfer is not required.

DMV services at AAA branches – DMV vehicle registration services at all auto club branches: members can take care of most personal DMV vehicle registration transactions. For information about specific services, such as license plates, tags, registration, etc., transfer the member to MSC. You can renew your registration and get your tags instantly, transfer ownership for used vehicles (including motorcycles and trailers) and used vessels. DMV vehicle registration services are available Monday through Saturday at all branches. For a complete list of branch services, refer the member to MSC for more information.

Can MSC agents enter complaints into CMS?
Yes, when a member contacts MSC directly and requests a formal complaint or any issue that requires Member Relations follow-up, MSC agents have access to CMS to enter the request on behalf of the member. The CMS system is accessible to all ACE employees.

Can a member pay for their license tags at a AAA branch?
DMV vehicle registration services - at all auto club branches, members can take care of most personal DMV vehicle registration transactions. For information about specific services, such as license plates, tags, registration, etc., transfer the member to MSC. You can renew your registration and get your tags instantly, transfer ownership for used vehicles (including motorcycles and trailers) and used vessels. DMV vehicle registration services are available Monday through Saturday at all branches.

Notary service Notary service is generally available at all Auto Club branches, Monday through Friday only, during normal business hours. Members receive discounted service rates for personal transactions. Notarizations for business transactions are available to members at standard service rates. Notarizations must be obtained at an Auto Club branch only and fees are subject to change without notice. Certain restrictions apply.

Membership longevity – questions regarding membership longevity when transferring from one AAA club to another should be referred to the member service center (MSC).

Does the early usage fee apply to a member who transferred from another club and created a new membership?

The early ERS use fee only applies when radar prompts ERS agents to collect the payment. If the member believes this is an error, contact SRT for assistance or the local supervisor line.

Do we still offer trip interruption (reimbursement) insurance (benefit)?
No, the trip interruption reimbursement benefit was discontinued effective December 31, 2020, in all ACE markets.

What is the mailing address for a member to mail their payments to AAA Membership Services?

That depends on the state and payment type:

California (CA) PO Box 25002 Santa Ana, CA 92799

Texas (TX) PO Box 9177 Coppell, TX 75019

New Mexico (NM) PO Box 9055 Coppell, TX 75019

Hawaii (HI) PO Box 25438 Santa Ana, CA 92799

Alabama (AL) PO Box 9052 Coppell, TX 75019

East Central (EC) PO Box 5386 Pittsburgh, PA 15206

Northern New England (NNE) PO Box 25002 Santa Ana, CA 92799

ERS payments - PO Box 25009 Santa Ana, CA 92799

Correspondence/complaints: PO Box 25001 Santa Ana, CA 92800

Overnight payments or correspondence: 3333 Fairview Rd., Costa Mesa, CA 92626

Overnight payments or correspondence (ACMO): 1225 S. Freeport Pkwy., Coppell, TX 75019

Insurance renewal payments mailing addresses:

California (CA) – Auto PO Box 25005 Santa Ana, CA 92799

Texas (TX) po box 9180 Coppell, TX 75019

New Mexico (NM) PO Box 9058 Coppell, TX 75019

Hawaii (HI) PO Box 25018 Santa Ana, CA 92799

Member inquiries about the following benefits and services should be referred to the member service center (MSC):

Car Buying Service - You can research your next new or pre-owned car online at AAA.com/auto. The new car configuration tool allows you to select the vehicle options you are interested in, and then gives you a detailed estimate of the car's price, with your specific selections. Members can also get pricing reports for new cars using the new car configurator. The pricing reports include MSRP (manufacturer suggested retail price) and invoice prices for the base vehicle and options. For pre-owned cars, you can view thousands of pre-owned vehicles for sale by dealers through the AAA Car Buying Service's online inventory available at AAA.com/auto.
Rv buying service

Carfax vehicle history reports - classic and AAA plus members can purchase Carfax vehicle history reports for twenty percent (20%) off the retail price online by logging in to AAA.com/auto. AAA premier members may request one (1) free Carfax vehicle history report per membership year exclusively available through AAA premier services, by calling the toll free number listed on the back of their AAA premier membership card, and may purchase additional Carfax vehicle history reports at a forty percent (40%) discount online by logging in to AAA.com/auto.

Auto Club Driving School - AAA developed a DMV-approved, 30-hour, premier research-based novice driver curriculum with teen safety in mind, so you can confidently put your new driver on the road. In addition to the online novice driver course, the Auto Club Driving School offers 6 or 10 hours of behind-the-wheel driving instruction. The Auto Club Driving School is sponsored by Enterprise Rent-A-Car. Courses are taught by AAA-trained and state-licensed instructors. AAA Plus and AAA Premier members receive discounted rates.
Mature driver improvement class

Identity theft protection - Each AAA member age eighteen (18) or older can receive free identity theft monitoring with ProtectMyID® Essential. This free benefit includes: free daily monitoring of your Experian® credit report, free email alerts when key changes are detected on your Experian credit report,

free monthly “all clear” email alerts when no changes are detected, and free fraud resolution support. To get this free benefit, enroll online or by phone. AAA Premier members with ProtectMyID® Essential receive the additional benefit of ten thousand dollars ($10,000) in identity theft insurance at no extra charge. AAA also offers two additional levels of protection to help you take control of your identity, both at a discounted monthly rate. AAA Premier members save an additional ten percent (10%). ProtectMyID® Essential, ProtectMyID® Deluxe, and ProtectMyID® Platinum Complete are provided by Experian. To be eligible to enroll in ProtectMyID Essential, ProtectMyID Deluxe, or ProtectMyID Platinum Complete, you must be eighteen (18) years of age or older and a current AAA member. A valid email address and access to the internet is required for ProtectMyID Essential. Products are subject to change or termination at any time without notice. Certain terms, conditions, and restrictions apply. For more information, visit AAA.com/peaceofmind. Identity theft insurance is underwritten by insurance company subsidiaries or affiliates of American International Group, Inc. (AIG). The description herein is a summary and intended for informational purposes only and does not include all terms, conditions, and exclusions of the policies described.
AAA visa signature® credit cards

Notary service - notary service is generally available at all auto club branches, Monday through Friday only, during normal business hours. Members receive discounted service rates for personal transactions. Notarizations for business transactions are available to members at standard service rates. Notarizations must be obtained at an auto club branch only and fees are subject to change without notice. Certain restrictions apply.

Travel guides

Travel agency

Travel insurance

Travel assistance (premier members only) provided through 24-hour travel assistance and concierge services at 800.586.8456 (domestic) and 804.673.1563 (call collect, internationally), and includes: emergency message center, lost ticket and document replacement arrangements, lost baggage assistance, emergency airline and hotel reservations, legal referrals, money transfers, including emergency cash transfer arrangements, assistance translation services, prescription replacement arrangements, medical provider referrals, appointments and admission arrangements, medical case monitoring and liaison service, emergency medical transportation arrangements, emergency visitation arrangements, destination information, travel referrals and reservations, restaurant and spa recommendations and services, event tickets, health club information, referrals and reservations, tour information, gift basket and floral delivery, business services, golf tee times and reservations (subject to availability), golf referrals, and information. Any costs associated with these services are paid by the member; aga service company (dba Allianz global assistance) is the provider and administrator for these benefits. Benefits and service provider are subject to change without notice.

Member services also handles or provides information about the following member-related services:

AAA discounts & rewards program information

AAA member rewards visa credit card

Ace maps (non-members must pay retail price for maps)

Airline tickets (service charge applies for non-members)

Approved auto repair

Cruise and tour reservations

DMV (limited DMV transactions for non-members)

Domestic maps, triptik travel planner®, and AAA tourbooks

Global travel emergency assistance

Hotel and car rental reservations (service charges apply for non-members)

Identity theft monitoring protectmyid® essential

Insurance quotes (PMG in Softphone)

International AAA maps

Life insurance policy

Mature driver improvement course (higher cost for non-members)

Mexico automobile insurance

Notary service (higher cost for non-members)

Passport photos (higher cost for non-members)

Personal notary service

Processing fees for airline tickets

Smog check services (higher cost for non-members)

Travel agency

Vehicle history reporting

Vehicle inspection program

What number do I refer members to for credit report-related issues?
Refer them to MSC for information about ProtectMyID® Essential, which includes credit report monitoring. Each AAA member age eighteen (18) or older can receive free identity theft monitoring with ProtectMyID® Essential. This free benefit includes: free daily monitoring of your Experian® credit report, free email alerts when key changes are detected on your Experian credit report, free monthly "all clear" email alerts when no changes are detected, and free fraud resolution support. AAA Premier® members with ProtectMyID® Essential receive an additional $10,000 in identity theft insurance at no extra charge. Credit report service is available under membership.

What do I do when a caller reports they have found a wallet with or without a AAA membership card?
When a third party indicates they found a lost wallet with a AAA membership card, do not provide confidential member information to assist them in making contact with the member. The lost wallet protection benefit refers to credit/debit card cancellation and replacement services offered as part of a ProtectMyID® Essential subscription, a third-party service. AAA does not take physical possession of lost wallets or contact members when their wallets are found in public places—even though a membership card may be present. ERS agents may suggest that the party who found the wallet contact their local law enforcement agency for guidance, and transfer the caller to MSC to report the lost membership card.

Travel agency - full service leisure travel agency benefits are available from AAA travel, with member-only benefits on select cruise or land vacations. Members receive a discount on processing fees when purchasing airline tickets through AAA travel. International driving permits (licenses) and discounted

passport photos are also available at your local auto club branch. Members save on expedited passport and travel visa courier services online.

Where can I find membership pricing?
Members requesting membership pricing should be directed to MSC or the member website for market-specific pricing.

Does MSC take bank info (EFT) or electronic checks to process payment?
Yes, MSC can process bank info (EFT) or electronic checks to process payments.
The member is requesting verification of AAA insurance. Where can the member access it?
Advise the member to contact MSC during business hours for verification of insurance. The AAA insured member may also check the AAA App or log into the member website to check for access there.

Service verification vs. insurance verification. Service verification relates to roadside service only and can be requested via the Service Verification form. Insurance verification is AAA insurance verification of coverage that is not available from ERS. Advise the member to contact MSC/PMG during business hours for verification of insurance. The AAA insured member may also check the AAA App or log into the member website to check for access there.

If member got divorced and no longer has picture ID with married last name, do they first have to change last name on membership for roadside assistance?
The member must present a photo ID for service. If the member does not have a photo ID that reflects their current name of the membership, advise the member to contact MSC

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

There are two types of impaired memberships:

- Fees dues-based impairments - A membership status that requires payment prior to receiving any roadside services.
- SIU-impaired membership – in this scenario, a verification letter has been sent to Request household member verification and instructions to reply by the deadline. These memberships may reflect an "Impaired" status in MRM. However, the membership is still valid during this period. If the information is not received by the deadline, the membership may be cancelled.

Impairments for fees include service charge, ERS bill due, non-renewal status, CAPRE fee due, ERS Early Use fee or other fees due prior to service request processing.

An "impaired member" is a AAA member who is suspected of being under the influence of alcohol, drugs, medication.

What types of fees can cause a membership to be impaired?
Fees include service charges, ERS bills, non-renewal status fees, CAPRE fees, ERS Early Use fees, or other fees that must be paid prior to service order processing.

Can roadside services be processed for an impaired membership without payment?
No, payment of all outstanding fees is required before processing any roadside service requests unless an override is approved.

Does non-renewal status result in an impaired membership?
Yes, a non-renewal status (unpaid) is one of the conditions that can impair a membership.

What do I do if I applied payment to the wrong membership?
If the member is in need of service immediately, the ERS agent can request SRT to void the payment under incorrect payment so the ERS agent can reprocess the payment under the correct membership. Otherwise, the ERS agent should follow the complete instructions for creating a CMS case.

How can a member get a copy of the payment they made for an outstanding ERS bill, service charge, early use fee, or CAPRE payment?
For payments processed in MRM, we can offer receipts via email to our members (excludes receipts for AAA battery and other roadside purchases). On the Process Membership Payment screen in MRM Portal, verify the email address on file and place a check mark in the Email Receipt box before submitting the payment. Receipts cannot be requested in MRM once the payment has already been processed. If the member requests a receipt of a payment made in MRM after the payment has been processed, open a CMS case for member relations follow-up.

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?
If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

After the annually allotted calls are exhausted, the member must pay the Service Charge for each additional call until the membership renews.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Account “In Collections” refers to membership accounts that have been referred for Collections department due to a past due balance. Attempt to transfer the member to the Collections department and provide the number, 888-897-4902, a warm transfer is not required in this case. After hours, provide the member with the number for Collections.

Cancelled Membership - ERS Charges Due: To determine if an account was cancelled for non-payment of ERS charges, review ERS Receivables under the ERS tab in MRM Portal as follows: right-click in Total Events for All Members, select View ERS Receivables and check Current Account Status. If account is not in Collections and membership is paid, the account may be reinstated by processing payment of outstanding ERS charges.

If the account is cancelled for non-payment/non-renewal, but it is not in Collections and was not canceled for ERS abuse, Check MRM to determine if payment can be collected by ERS. If the ERS agent is able to process the payment, payment may be collected for reinstatement of membership; otherwise, refer the member to DSU in this scenario, or to the member website when DSU is closed.

If member does not receive SIU cancel reason letter, how do we resend?
If the member indicates they did not receive the letter, create a CMS case and counsel the member to expect follow-up within 10 business days. Alternatively, you can provide the member with the Appeals Board mailing address if they wish to correspond directly.

Can an ERS agent take payment for reactivating a canceled/expired membership?
Yes, but only if MRM allows.

What should members do if DSU is closed and they wish to reactivate their membership?
Check MRM to determine if payment can be collected by ERS. Otherwise, members can visit the member website to complete the reactivation. If the system indicates that an account is in Collections, it cannot be reinstated by ERS.

What should I tell a member whose service request (not membership) was canceled due to abusive behavior toward a service technician or Club employee?
Advise the member that, due to concerns regarding their interaction with the service provider or Club employee, we are unable to continue rendering service for this request (*Mr./Ms. [Last Name], due to concerns regarding the interaction with our service provider/Club employee, we are unable to continue service on this request*). You may offer a **COD (Cash on Delivery) referral** as an alternative option. However, in situations involving member or membership abuse, reimbursement may be declined by the Club. (“*What I can do is provide you with a COD referral for a local provider that you can contact and request service at your own expense.”).* **Hot Call scenarios** must be escalated immediately to the local ERS management team.

Cancellation Appeals – Membership Abuse or Misconduct: When a system alert indicating that the Special Investigations Unit (SIU) has cancelled the membership, do not share this information with the member. Memberships cancelled by SIU for behavioral or membership abuse cannot be restored by ERS. If a member contacts ERS and states they have received a letter indicating their membership has been canceled for abuse or misconduct, inform the member he/she will need to follow the instructions on the

letter. Further inquiries must be directed to the Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001. Do not transfer or counsel the former member to contact another ACE department. All contact to be summitted in writing to the Appeals Board.

Special Investigation Unit (SIU): The Special Investigations Unit (SIU) audits contractors and members for abusive or fraudulent use of the membership. If you suspect membership abuse by a member or contractor, including towing to or from auto auction sites or salvage yards, towing for the purpose of selling or buying a vehicle, repair facility employees using personal memberships to have customers vehicles towed, two (2) or more membership numbers for the same member, and similar scenarios, you are required to elevate potential fraudulent or abusive member behavior to an ERS supervisor for possible SIU referral.

Members who receive a letter from SIU cannot be transferred to the SIU department. Contact with SIU is limited to the information contained on the letter received from SIU.

Effective May 18, 2023, ERS Service Representatives will discontinue use of the Supervisor Review – Special Investigation Unit option for Verbal Abuse/Threats and Physical Misconduct/Threats. Upon completion of incident documentation on the service request, ERS agents should contact a member of their local home site management team for further processing. Verbal abuse by member may include profanity, cursing, yelling or insults. If the situation cannot be deescalated, agents should attempt a warm-transfer to their local supervisor line.

What should I tell a member whose service request (not membership) was canceled due to abusive behavior toward a service technician or Club employee?
Advise the member that, due to concerns regarding their interaction with the service provider or Club employee, we are unable to continue rendering service for this request (*Mr./Ms. [Last Name], due to concerns regarding the interaction with our service provider/Club employee, we are unable to continue service on this request*). You may offer a **COD (Cash on Delivery) referral** as an alternative option. However, in situations involving member or membership abuse, reimbursement may be declined by the Club.
("*What I can do is provide you with a COD referral for a local provider that you can contact and request service at your own expense.").* **Hot Call scenarios** must be escalated immediately to the local ERS management team.
Service cannot be rendered if the member is not present and an approved third party (with valid ID and proof of the member's ownership of the vehicle) is not present. Household members may not share memberships. If a household member is not present, approved third-party-present protocols apply. When servicing a third-party vehicle under a member's account, the member must be present.

How do I submit/elevate an issue to SIU for investigation?
To elevate suspected member/membership abuse, agents should create a CMS case for supervisor review and follow-up.

Membership Alerts: Membership Alert functionality enables call center management staff to communicate important information about a membership to the call processing agent. Common uses for membership alerts will include attempts to use membership for ineligible services, and Piggyback tows attempted by the member, membership abuse, specific provider refused due to a pending complaint or litigation, when applicable.

When a member wants to puta password on the membership to prevent fraudulent usage, they should be transferred MSC for assistance. The member/caller must provide password to set up service; if they are unable to provide password and there is not safety concern (Hot Call), they should be transferred MSC to resolve their password issue).

Member claims/suspects the driver/service technician used their credit/debit card to make purchases after their vehicle was towed under membership.
If a member claims identity theft by a service provider or call center representative after using their credit card for service, you should elevate the case as a Complaint in CMS for investigation.

How can you determine if an account was canceled for non-payment of ERS charges?
Review ERS Receivables under the ERS tab in MRM Portal by right-clicking in Total Events for All Members and selecting View ERS Receivables.

What should you check after reviewing the ERS Receivables for a canceled account?
Check the Current Account Status.

Can an account be reinstated if it is not in Collections and the membership is paid?
Yes, the account can be reinstated by processing the payment of outstanding ERS charges.

What should you do if the account is in Collections?
Ofer to transfer the member to the Collections department at 888-897-4902 and/or provide the number (cold transfer OK).

What is the after-hours number for the Collections department?
The after-hours number is 888-897-4902.

Can charge-off accounts be restored with payment?
Yes, as long as the account has not been sent to Collections.

What should you do when the system alerts that the Special Investigations Unit (SIU) has canceled a membership?
Refer the member to the Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001.

Can memberships canceled by SIU for behavioral or membership abuse be reinstated by ERS?
No, these memberships cannot be restored by ERS.

What should you tell a member who received a letter indicating their membership was canceled for abuse or misconduct?
Inform them to follow the instructions in the letter and direct further inquiries to the Appeals Board.

What is the address for the Appeals Board?
Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001.

Should you transfer or counsel a former member to contact another ACE department regarding membership cancellations by SIU?
No, all contact must be submitted in writing to the Appeals Board.

What is the role of the Special Investigations Unit (SIU)?
The SIU audits contractors and members for abusive or fraudulent use of memberships.

What should you do if you suspect membership abuse by a member or contractor?
Elevate potential fraudulent or abusive behavior to an ERS supervisor for further review and possible SIU referral.

What are some examples of membership abuse?
Towing to or from auto auction sites, towing for buying or selling vehicles, or repair facility employees using personal memberships for customer vehicles.

What should ERS Service Representatives do for incidents of verbal or physical misconduct after May 18, 2023?
Document the incident on the service request and contact a member of your local home site management team for further processing.

Can a household member share their membership with others in the household?
No, household members cannot share memberships.

What is required for a third-party to receive service if the member is not present?
The third-party must present valid ID and proof of the member's ownership of the vehicle, such as a valid registration and/or valid insurance card in the exact name on the membership.

What is the purpose of the Membership Alert functionality?
It enables call center management to communicate important information about a membership to the call processing agent.

What are some common uses for Membership Alerts?
Alerts for ineligible services, membership abuse, specific provider refusals, or piggyback tows.

What is considered ineligible service under membership?
Services like towing for buying or selling vehicles, towing to auto auction sites, or using membership for non-covered vehicles.

What should be done if a member attempts a piggyback tow?
Member should be counselled that Club policy allows one tow per disablement and the request documentation should be updated to include the information discussed. Repeated requests for piggyback towing should be elevated to a supervisor for a Membership Alert to prevent fraudulent usage.

What is the process if a member is suspected of having two or more membership numbers?
Elevate the case to an ERS supervisor for investigation and possible SIU referral.

What is required to provide service if a third-party claims to be acting on behalf of a member?
They must counselled that the member must be present at the service location with a valid photo ID or the member must call to initiate the service request and the authorized third-party must be present with valid photo ID and proof of the member's ownership of the vehicle at the time of service.

If a member needs to speak with SIU, how do I connect them?

The member should be counselled to contact the Appeals Board in writing only at the following address:
Appeals Board -A114, c/o Automobile Club of Southern California
PO Box 25001, Santa Ana, CA, 92799-5001

What should I do if CDX indicates "Yes" in the ERS Abuse field?
If CDX indicates "Yes" in the ERS Abuse field for an affiliate member, contact the home Club to determine whether service can be rendered under membership. Approval of the member's home Club is required when CDX indicates "yes" under ERS Abuse.

Additional Letter Types Sent by SIU
Verification Letters - Requests for household member verification mailed to the primary member requesting that they reply with specific information by the deadline. These memberships may reflect an "Impaired" status in MRM. If the information is not received by the deadline, the membership may be cancelled. However, the membership is still valid during this period.

Early Warning (Alert Letter) - To ensure fair and consistent service for all members, the Auto Club has introduced an initiative to help members better understand their Emergency Roadside Service (ERS) usage and behavior. Periodically, members may receive notifications if their service requests or interactions with Club employees or contractors deviate from the expectations outlined in the Member Guide. If a member calls in expressing a concern, use the suggested following phrasing: "I understand your concerns, and I appreciate you taking the time to reach out. This letter is simply a notice reminder to keep you informed about your ERS usage and ensure uninterrupted service for you."

There are two types of impaired memberships:

- Fees dues-based impairments - A membership status that requires payment prior to receiving any roadside services.
- SIU-impaired membership – in this scenario, a verification letter has been sent to Request household member verification and instructions to reply by the deadline. These memberships may reflect an "Impaired" status in MRM. However, the membership is still valid during this period. If the information is not received by the deadline, the membership may be cancelled.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
How can I (an ERS agent) find out call details on an old call (archived) in RADAR that I can no longer pull up by service order number?

1. In RADAR search the member's name or telephone number on file to open their Person Account Page
2. Select **Related**
3. Look under Cases or Work Orders for the relevant archived call
4. Select the link for the call you want to view

RADAR Membership Error
Scenario: Agent receives a **Member Info Error** in RADAR when attempting to submit a call.
Root Cause: The membership number on the member's account in RADAR is **missing one or more digits**, preventing successful call processing and visibility in MRM.
Required Action – Resolution Steps
Step 1: Access Member Profile in RADAR

- When the error appears, **do not retry submission**
- Click into the **member's Person Account** within RADAR

Step 2: Correct Membership Number

- Locate the **Membership Number field**
- Click the **edit (pencil) icon**
- Replace the incorrect membership number with the **accurate number from the MRM Portal**
- Click **Save**

Step 3: Re-Search and Submit Call

- Return to the **RADAR case**
- Paste the corrected membership number into the **Membership field**
- Click **Search**
- Confirm the membership now displays correctly
- Proceed with **call submission**

Expected Outcome

- Call submits successfully in RADAR
- Call **properly populates in MRM**

Important Notes

- Always validate the membership number against the **MRM Portal**
- Do not attempt repeated submissions without correcting the membership number
- This issue has been **resolved** using the above process across multiple cases

How can I provide call status details in RADAR when I do not have the membership number or Case/Service Order number (for example, when assisting a police agency or another authorized party requesting ETA or call information)?

Use the Global Search bar at the top of RADAR to search by other call details, such as a street name, interstate, address, or intersection. Then review the cases within the applicable date and time range of the service request to locate the correct call.

Call Priorities in RADAR include: High, Critical
To add a priority to an ERS Case, click the Priority Call quick action button in the Case header and select the reason. Please note, Critical Priority is different from a Critical Incident. A priority can only be removed from an ERS Case before it is Submitted. After adding a priority, document additional details in the Driver's Notes box. : Do not add a Priority flag to an ERS Case after it has been Submitted. The update will not transfer to the dispatch Work Order.

What is a possible reason that I cannot submit a workorder because the Submit button is grayed out?
Check to see if the service request was cancelled in error.

I am unable to enter a membership number in RADAR/FSL. What should I do?
If you are unable to enter a membership number in RADAR/FSL, contact a supervisor for assistance.

Agent Kimmy: An interactive SMS assistant that helps members manage active roadside requests by answering common questions, collecting updates, and sharing details with the service provider. It routes members to a live agent when human assistance is needed.

Agent Ray: A provider-facing dispatch and reroute agent that sends service offers to providers, with controls to exclude specific service territories and use AAA-branded offer messaging.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

In partnership with **Safelite AutoGlass** ACE is offering a **Windshield Chip Repair Benefit** for **AAA Premier members** in ACE markets (excluding California). Please note that this is not a roadside assistance service. Eligible Premier members can access the benefit under the conditions outlined below.

AAA Premier members receive an exclusive AAA price on windshield chip repairs provided by Safelite AutoGlass®. You'll receive a discount off the regular repair price and a waived mobile delivery and supply fee. One discounted repair service per AAA Premier household per membership year. For current pricing, go to AAA.com/Windshield. Your Premier benefit includes the repair of up to three chips or cracks in a single visit on one vehicle. Limitations on repair size

and location on windshield apply. Service must be scheduled through AAA.com/MyAccount. Mobile and retail service available in select areas. For members recently upgrading to AAA Premier, the benefit is effective seven calendar days after the upgrade is processed. Service is not eligible for reimbursement. May not be combined with any other offer. Not valid on insurance claims or commercial fleet services. Offer subject to change without notice. Sales tax charged in certain states.

To schedule this service, Premier members must log into their AAA account aaa.com/myaccount. Payment can be made at the time the appointment is scheduled or when service is received.

Offer is limited to One discount per Premier household, per membership year. Service scheduled directly with Safelite and is ineligible for reimbursement. This benefit does not apply to any windshield replacements or any insurance benefits.

If a Premier member indicates they are in need of windshield repair, ERS agents may counsel the Premier member regarding the Safelite benefit as follows:

"As a Premier member in our [TX/NM/EC/HI/AL/ACMO/NNE/TW) market, you may be eligible for discounted windshield repair from our Safelite AutoGlass partner. When you have a moment, log into your AAA account for pricing and scheduling information."

What is the AAA Windshield Chip Repair Benefit for Premier members?
It is an exclusive benefit offering discounted windshield chip repairs through Safelite AutoGlass for ACE Premier members except California members.

What is the cost of a windshield chip repair for Premier members under this benefit?
Premier members pay a discounted rate of $45, with mobile delivery and supply fees waived.

How can Premier members schedule a windshield chip repair?
Premier members must log into their AAA account at aaa.com/myaccount to schedule a repair.

Can payment for windshield chip repair be made at the time of the appointment?
Yes, payment can be made either when scheduling the appointment or when receiving the service.

How often can Premier members use the windshield chip repair discount?
The discount is limited to one per Premier household, per membership year.

Does the windshield chip repair benefit cover windshield replacements?
No, this benefit does not apply to windshield replacements or any insurance benefits.

Are members reimbursed for repairs scheduled directly with Safelite?
No, repairs scheduled directly with Safelite are not eligible for reimbursement.

How should ERS agents counsel Premier members about this benefit?
Agents may inform members with a statement such as: “As a Premier member in our market, you may be eligible for discounted windshield repair from our Safelite AutoGlass partner. Log into your AAA account for pricing and scheduling information.”

Is this benefit considered a roadside assistance service?
No, the windshield chip repair benefit is not a roadside assistance service.

Is the windshield chip repair benefit available in California?
No, this benefit is not available in California.

Benefit available in AAA Alabama, AAA Missouri, AAA Hawai'i, AAA Northern New England, AAA Tidewater, AAA East Central, AAA New Mexico, and AAA Texas Premier, and includes an exclusive AAA price on windshield chip repairs provided by Safelite AutoGlass. They will receive a discount off the regular repair price and a waived mobile delivery and supply fee. One discounted repair service per Premier household per membership year. Your Premier benefit includes the repair of up to three chips or cracks in a single visit on one vehicle. Limitations on repair size and location on windshield apply. Service must be scheduled through aaa.com/myaccount. Mobile and retail service available in select areas. For members recently upgrading to Premier, the benefit is effective seven calendar days after the upgrade is processed. Service is not eligible for reimbursement. May not be combined with any other offer. Not valid on insurance claims or commercial fleet services. Offer subject to change without notice.

- Includes waived mobile delivery fee and supply fee.
- Up to three chips or small cracks that meet the criteria are included in the price
- Repair can be mobile or retail service

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Check Payment – CAPRE, Service Charge Payment Validation

In an effort to ensure CAPRE and Service Charge payments are properly collected prior to authorizing service, RADAR was enhanced to integrate real-time payment verification to enforce payment compliance at the time of the service request. A future release will expand this verification process to include Renewal and Early ERS Use Fees. When payment of CAPRE and Service Charge has not been validated, RADAR will return an alert indicating that the membership has an unresolved impairment.

When a RADAR user is presented with an impairment dialog requiring payment collection for CAPRE or a Service Charge, a payment must be processed prior to processing service request for the member (Hot Calls excluded). After processing the required payment in the MRM Portal, the following applies:

1. Select Payment Collected. The Check Payment button will be enabled.
2. Select **Check Payment.** Clicking Check Payment triggers the integration with MRM to verify payment status.

    - **Payment Not Found -** If payment is NOT found, a *Work Order could not be created* alert will display and the "OK" button will remain disabled. User may select The following options:
        - Select a different impairment resolution option,
        - Collect the payment and re-check
        - Cancel the transaction.
    - **Payment Found -** If payment has been made, a *Payment Found* alert will display, allowing the user to proceed with service request processing.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Locksmith and lockout services are not the same.

This knowledgebase tool is not intended to provide confirmation of roadside coverage of specific makes/models (ie. Ford Escort, Nissan Frontier, Cadillac Escalade, etc.); however, coverage information can be provided for vehicle types, including but not limited to passenger cars/vans, trucks, RVs, trailers, motorcycles, etc.

Do we cover van conversions/converted vans?
Passenger and other vans that are ordinarily covered under membership, which are internally modified (converted) to include sleeping arrangements, etc. are covered under membership; RV/Motorcycle coverage is not required. The following are not covered under membership: Vehicles modified in a way that changes their external configuration, such as truck converted to flatbed, stakebeds, attaching permanent racks and ladders, etc.

Golf Carts - Golf carts are not covered under membership for any service in any state.

Mbr says their Golf Cart has a license plate and is road legal. Is that covered?
Golf carts are NOT covered under AAA roadside assistance. However, “golf cart” is a term that is sometimes used generically to reference an NEV or LSV vehicles, which require DMV registration and valid insurance to operate on public roadways. If the “golf cart” is a Neighborhood Electric Vehicle (NEV) or Low-Speed Vehicle (LSV) with valid registration and insurance, it may qualify for service, subject to technician verification. To determine this, the AAA technician would need to verify that it has four wheels- 17-digit VIN- Gross vehicle weight under 1,300 lbs. The final determination will be made by the service technician at the time of service.

Can a non-commercial vehicle or truck with a plow attached be extricated?
yes, extrication services may be provided for a non-commercial vehicle or truck with a plow attached; however, the technician will assess to see whether the attachment must be disconnected prior to receiving service. If the non-commercial vehicle or truck with a plow attached also requires towing, the attachment must be disconnected prior to towing.

Are Cargo vans covered under membership for towing?
Yes, most cargo and passenger vans are covered under membership, subject to provisions of service, and a weight and load assessment. They must be used by private individuals for personal use. Commercial and business-owned and operated cargo passenger vans are not covered for towing/tire change services. The AAA technician will assess unusual sizes and loaded vehicle for coverage under membership.

AAA roadside service is exclusive to private passenger vehicles, unless otherwise outlined in ERS policy or the provisions.

Commercial Vehicles – **Private Use:** If a member states that a commercial vehicle is also their primary vehicle used for personal transportation to and from work, and the vehicle is not otherwise excluded by Club policy, a technician may be dispatched to assess potential coverage under the membership. Agents should document all vehicle details provided and advise the member that final determination of eligibility is made by the service provider at the scene.

For temporary, personal-use moving trucks/van vehicles (such as U-Haul, Penske, or similar boxtrucks or vans rented and driven by the member), service is limited to cab-only lockouts (no locksmith services), air-only in tires, and battery jumpstarts. No other services are covered for these temporary, personal-use box trucks and other moving vehicles (see rental passenger vehicles/rental cars).

Vehicles excluded from service include, but are not limited to: box trucks (excluding temporary-use moving vehicles as noted above), school buses, semi-trucks (including 18-wheelers), food trucks, commercial delivery trucks, shuttle vans and buses, stake beds, flatbed trucks (not covered), golf carts, watercraft not on a covered trailer, taxis, and vehicles for-hire vehicles required by law to be registered as such.

Exception: Lockout service limited to regaining entry to the driving compartment (no locksmith services) may be provided for small, temporary U-Haul, Penske, or similar moving trucks or vans, only when driven by the member (no third parties).

Will AAA offer a safety tow off the freeway for a commercial vehicle?
ERS agents should contact a member of their local home site management team for guidance in scenarios in which a caller is requesting hot call assistance for a vehicle that is not covered under membership; service options will likely include COD referral and contacting a police agency to assist.

Private Vehicles - Business Use: When a member is using their private vehicle for business purposes (i.e., pizza delivery, Lyft/Uber, etc.), service should not be excluded if the vehicle is otherwise covered under membership; service should not be excluded simply because the member has removable magnetic logos.

A member indicates they have rented their vehicle to a third-party; the vehicle is now disabled. The member is not with the disabled vehicle but is requesting that roadside service be sent to the third-party. Is this a covered service?
In this scenario, the third-party must provide a valid registration and/or insurance card in the member's name to ensure that the AAA technician can confirm that the member is the registered owner of the vehicle (no AAA warranty service for third parties). The third-party rules apply in this scenario; the person with the member's vehicle must present a valid photo ID and pay all relevant fees at the time of service.

An AAA membership cannot be used by a business to provide roadside assistance service to its customers, employees, or business vehicles. When a member is requesting service for a personal vehicle being used for ridesharing (Uber/Lyft, etc.), service may be provided under membership. If towing is requested, ride-alongs are limited to two (2) passengers. All passengers must accompany vehicle to the destination. No additional stops will be made.

Neighborhood Electric Vehicles (NEV) & Low-Speed Vehicles (LSV) – Similar to golf carts, NEV/LSVs are considered motor vehicles and generally require a valid license, registration, and insurance to be driven on public roadways. They are certified to meet Federal Motor Vehicle Safety Standards to be registered and operated on public roadways. Local restrictions apply. NEV/LSVs may qualify for service, provided they have four wheels, a 17-digit VIN, a gross vehicle weight rating of less than 3,000 lbs. To distinguish between golf cart and NEV/LSV, agents should inquire whether the vehicle has valid registration and

insurance. If so, the member should be counseled that the driver will assess whether the NEV/LSV can be safely towed using standard equipment. RV/Motorcycle coverage is not required for NEV/LSV service.

Golf Carts - Golf carts are not covered under membership for any service in any state.

3-Wheeled Motorcycles: 3-Wheel motorcycles must be registered and insured for roadway use. RV/Motorcycle coverage is required for towing under membership.

Dune Buggy (w/valid plates) – Dune buggies must be registered and insured for roadway use to qualify for towing under membership. If the dune buggy does not have plates and registration, it is considered recreational equipment and RV/Motorcycle coverage is required for towing service.

Personal Limousines (excludes stretch limos) – When a member needs service for a personal limousine, service will be provided under membership, subject to weight limitations. Personal limousines have regular plates and are not classified by the vehicle code as available for hire. The vehicle must be registered to the member, and they must be present with valid ID to receive service.

Can we tow a flatbed under the membership?
No, while service providers use flatbeds and other tow truck types to service our members under membership, towing of a member's personal or commercial flatbed trucks under membership is not covered. Flatbed vehicles are excluded for all services.

If a caller requests hot call assistance for any excluded vehicle, ERS agents must immediately contact a supervisor for guidance, as these vehicles are not covered.

Can we offer towing for food trucks?
No, food trucks are not eligible for any services under AAA membership, as food trucks are commercial vehicles.

Can AAA provide roadside assistance for semi-trucks or 18-wheelers?
No, semi-trucks and 18-wheelers are excluded vehicles under AAA membership.

Are commercial delivery trucks eligible for AAA services?
No, commercial delivery trucks are not covered under AAA membership.

Does AAA provide assistance for shuttle vans and buses?
No, commercial shuttle vans and buses are excluded from AAA membership services.

Are stake beds and flatbed trucks included in AAA coverage?
No, stake beds and flatbed trucks are not eligible for any services under membership.

Can AAA assist with golf carts under membership benefits?
No, golf carts are excluded from coverage unless they are on a covered trailer.

Do vehicles registered for commercial or for-hire purposes qualify for AAA membership services?
No, vehicles required by law to register as for-hire or commercial are excluded from membership services.

Vehicle w/Liftgate – For private passenger vehicles with liftgates, the provider will need to assess the private passenger vehicle to determine whether it is covered under membership. If the liftgate is for ADA accessibility (wheelchair), and the private passenger vehicle can be safely towed with standard

equipment, it will be covered under membership in all states. Service technicians do not provide wheelchair ramp adjustments, such as stuck ramps, under membership. Vehicles with liftgates designed for towing, loading cargo, and other non-personal passenger uses may be referred for commercial service.

Can we send out service to fix a stuck wheelchair ramp?
Service technicians do not provide wheelchair ramp adjustments or repairs, such as stuck or malfunctioning ramps, under membership.

What type of vehicles is AAA roadside service exclusive to?
Private passenger vehicles unless otherwise outlined in ERS policy or provisions.

Can commercial vehicles used as a member's primary vehicle for work be assessed for coverage?
That depends. If the vehicle is not excluded by Club policy, it is subject to all other provisions of service; a technician can assess it for coverage under membership.

Can a private vehicle used for business purposes like pizza delivery receive roadside assistance?
Yes, service should not be excluded if the vehicle is otherwise covered under membership.

Can AAA membership be used by a business to provide roadside assistance to its employees or vehicles?
No, membership cannot be used for business roadside assistance.

Is service provided for personal vehicles used for ridesharing like Uber or Lyft?
Yes, service may be provided under membership.

How many passengers are allowed to ride along during towing for rideshare vehicles?
Ride-alongs are limited to two passengers, and they must accompany the vehicle to the destination.

A member indicates they have rented their vehicle to a third-party; the vehicle is now disabled. The member is not with the disabled vehicle but is requesting that roadside service be sent to the third-party. Is this a covered service?
In this scenario, the third-party must provide a valid registration and/or insurance card in the member's name to ensure that the AAA technician can confirm that the member is the registered owner of the vehicle. The third-party rules apply in this scenario; the person with the member's vehicle must present a valid photo ID and pay all relevant fees at the time of service.

What conditions must be met for Neighborhood Electric Vehicles (NEV) or Low-Speed Vehicles (LSV) to qualify for service?
NEVs/LSVs must have four wheels, a 17-digit VIN, a gross vehicle weight under 3,000 lbs, and valid registration and insurance.

Does RV/Motorcycle coverage apply to NEVs/LSVs?
No, NEV/LSVs do not require RV/Motorcycle coverage for service.

What must be confirmed for a 3-wheeled motorcycle to receive towing service?
It must be registered, insured, and have RV/Motorcycle coverage for towing.

Can dune buggies be towed under AAA membership?
Yes, if they are registered, insured, and have valid plates. If they do not have valid registration for public road use, they must be on a covered trailer and valid RV coverage is required.

What happens if a dune buggy does not have plates and registration?
It is considered recreational equipment and requires towing on a covered trailer with RV/Motorcycle coverage.

Can a watercraft receive roadside assistance if not on a covered trailer?
No, watercraft not on a covered trailer are excluded from service.

Are vehicles with liftgates automatically covered under AAA membership?
The vehicle must be assessed to determine if it qualifies under membership.

When will a vehicle with a liftgate be covered under membership?
If the liftgate is for ADA accessibility (wheelchair) and the vehicle can be safely towed with standard equipment. The AAA technician

Can a vehicle with a liftgate for loading cargo or non-personal use be covered under membership?
No, these vehicles may be referred for commercial service.

Are 18-wheelers covered under AAA roadside service?
No, 18-wheelers are excluded from service for all services.

Can a member use their AAA membership for a commercial vehicle that they drive personally?
Yes, if it is the member's primary vehicle and not excluded by policy, coverage may be assessed by the AAA technician.

How can you determine if a vehicle qualifies for service if it is a commercial vehicle?
A technician will assess the vehicle to determine eligibility for service under membership.

Is RV/Motorcycle coverage required for 3-wheeled motorcycles?
Yes, it is required for towing and/or winch out services.

What should agents ask to distinguish between a golf cart and an NEV/LSV?
Agents should ask if the vehicle has valid registration and insurance.

Are limousines for hire covered under AAA membership?
No, limousines for hire are excluded from service.

What should agents do if the vehicle’s use is for a business-like ridesharing, but the vehicle is a private one?
Service can be provided, and towing is allowed with a limit of two passengers during the ride-along.

What is a low clearance?
In terms of vehicles, "low clearance" means a car or truck has a low ground clearance, the distance between the lowest point of the vehicle and the ground. This information should be captured in driver’s notes, as they may require special tow handling.

In terms of a parking garage, "low clearance" means the parking garage entry has a low ceiling; the distance between the top of the vehicle and the ceiling of the parking garage or entry is low. This information should be captured in driver's notes, as they may require a special type of tow truck.

All ACE Clubs can accommodate towing for vehicles up to 8,600 pounds.

Are Ford F550 and similar vehicles covered for service in ACE states?

Most configurations of the Ford F-550 heavy-duty truck and similar sized vehicles are designed for commercial and work applications; member states about the configuration/modifications should be documented for the service provider, and the provider will assess for coverage under membership. If the member provides details that confirm the vehicle is excluded, based on Club policy and the provisions of service (e.g., flatbed, stakebed, etc.), they should be advised that service cannot be rendered under membership; offer a COD referral and cancel the call.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Is it ok to provide ICS (service provider) information to a member?

Yes, the phone contact information for the facility that provided service may be provided to the member.

When a public agency (PA), such as police, highway patrol, sheriff, etc. calls to confirm that service to our member is immediately enroute, they may be counselled about the ETA and name of the tow company (service provider) only; do not provide additional membership details. The member or third-party standing in for the member may also be provided ETA and service provider name, when the service provider has not arrived yet; no other membership details should be provided to anyone other than the member, unless otherwise permitted by ERS policy. When a public agency (PA) is calling to request service for our member, these calls should be marked as PA Calls in RADAR.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Who is a third-party?

Third parties include passerby (assisting member without a phone), friends, family, coworkers, neighbors, anyone that is not the member, etc.

Do not provide policy exception and third-party/member-not-present information to the member in non-ACE territories for non-ACE Clubs (in Call Move scenarios). If the member has questions or wants additional information, transfer to the servicing non-ACE Club.

What is the number for the AAA Insurance department?

If the member is requesting to be transferred to the Insurance or another AAA department, use Softphone to find the listing and transfer the member.

AAA offers Business, Group, and Corporate memberships as part of a company's employee benefits package. Although these memberships are sponsored by the employer, they are issued in the individual employee's name for use with their personal vehicles and cannot be used for company vehicles unless specifically permitted under ERS policy. These memberships may be paid by the company or the individual, depending on their company policy; the member must have a photo ID available for service.

Once a Premier or Plus member has used all of their service calls for the membership year (annual call allotment), what is available to them?

When a Plus or Premier member has used all of their service calls for the year (annual call allotment), they are limited to Classic benefits only upon payment of the service charge.

MBR or MEM refers to a AAA member
ICS refers to roadside technician, service provider, and tow truck "driver"
MRM refers to the Member Relationship Management system, an ERS system
AC refers to A-Call or Cloned call
DSU is the Direct Sales Unit, responsible for membership sales
MSC or the Member Services Center handles all non-ERS roadside request membership-related inquiries, such as adding or removing members, discounted products and services, etc. ERS agents do not handle things like membership upgrades and downgrades.

For DSU, Insurance (PMG), and MSC contact numbers and hours for all ACE states, check the listing in Softphone.

Each AAA member is limited to one membership (sometimes referred to as policies); a member cannot be added to another membership when they have a separate valid membership. If a member is identified on more than one valid membership, ERS agents should elevate this issue to their supervisor for SIU review.

CHECK ACCEPTANCE FOR EMERGENCY REPAIRS
A Member's personal check for up to Two Hundred Fifty Dollars ($250.00) will be accepted by the independent service provider for emergency repairs and services. A valid license will be required for identification.

Remaining on the line (phone) with the member until the provider (service technician or driver) arrives.
In a Hot Call situation, agents should notify their supervisor of the member's request and follow their guidance. In non-Hot Call scenarios, establish the nature of the member's concerns and notify your supervisor of the member's concerns.

This chat tool is not intended to confirm coverage for services of specific makes and models.

Battery Service Program (BSP)- the Battery Service Program includes a group of service providers that provide roadside assistance for battery-related services. BSP providers offer AAA batteries for sale and replace AAA batteries under warranty.

Reimbursement forms should never be sent to non-ACE club members. This includes services that were provided in ACE states and non-ACE states. If the member is seeking reimbursement for charges paid in ACE club territories, they must contact their home club. Reimbursement forms should only be sent to ACE members.

TCP Vehicles (Vehicle-for-Hire)
For-hire vehicles, including TCP and other vehicle designations are excluded from all AAA services under all membership types.

Light Services
Light Service under AAA membership includes Assess (door/hood issues, alarm/horn issues, broken windshield, undercarriage issues, etc.), Flat Tire (tire change and air only), BSP (AAA battery replacement & warranty service) Jumpstarts, Fuel delivery, Lockout (vehicles), and Locksmith service (vehicle key replacement, fob programming (we do not offer batteries for fobs; if the member is unable to start their vehicle because they do not have a working key, and the vehicle was not recently purchased without a key, a tow may be provided), ignition repair, and Premier Home Lockout). Services will not be provided under membership for bicycles, e-bikes, and e-scooters.

COD Referrals (Cash Calls)
Members and non-members may be referred for commercial service when call allotment has been exhausted, service requested is not covered under membership, and/or service cannot be provided to our member due to network limitations. Cash-on-delivery (COD) referrals that are the result of requests that are not covered under membership are not subject to mileage limitations and other provisions of

service; payment for all COD services is due to the service provider at the time of service. ERS agents should not process COD requests in RADAR.

Can a member be billed later for services received today?
With the exception of Hot Calls and Minor without a credit card, members cannot be billed later for services. Payment is required at the time of service.

Non-Members vs. Non-ACE members – Non-members are defined as persons who do not have valid ACE or Affiliate Club (Non-ACE) memberships. Non-ACE members are defined as Affiliate members.

Secured Address
AAA Members may request that their address be kept confidential or "secured". These requests are processed by Member Service Center (MSC).

Who are considered non-members?
Non-members are individuals who do not have valid ACE or ACE-affiliate Club memberships.

A member is with the vehicle, but they do not have a photo ID or registration for proof. Is this covered?
The member must be present with photo ID, unless prior approval is obtained by ERS management to make an exception. The member should be counselled to call back when a photo ID is available to present to the service technician.

What defines a Non-ACE member?
Non-ACE members are individuals who hold valid memberships with affiliate Clubs outside of ACE.

How do non-members differ from Non-ACE members?
Non-members lack any valid membership, while Non-ACE members hold valid memberships with affiliate Clubs.

Are Non-ACE members eligible for ACE services?
Yes, Non-ACE members are eligible based on their valid affiliate Club memberships, as indicated in CDX.

Add-Ons – membership Add-Ons are defined as the addition of Adult Associates or Dependent Associates to the existing membership. Per existing ERS policy, ERS agents and/or SRT are allowed to process Add-Ons and the related payments when requested by the Primary or Adult Associate member, and if immediate service is needed. The newly added Add-On member must be present for service with photo ID to receive service under the membership. If service is not immediately needed, ERS agents and SRT team members should transfer the member to MSC in Softphone for membership add-ons.

Primary, Adult Associate, and/or Dependents members may only act as third-party or stand-in under a household membership if they provide proof of vehicle registration and/or insurance in the name of the member who is requesting service.

Who can act as a third-party or stand-in under a household membership?
Primary, Adult Associate, and Dependent members are allowed to act as third-party or stand-in if they provide proof of vehicle registration and/or insurance in the name of the member who is requesting service.

What must a member provide to act as a third-party or stand-in?
They must provide proof of vehicle registration and/or insurance in the name of the member who is requesting service.

In whose name must the vehicle registration and insurance be?
The registration and/or insurance must be in the name of the member who is requesting service.

Can a non-member act as a third-party or stand-in under a membership?
Yes, however, registration and/or insurance in the name of the member who is requesting service must be presented to the service provider.

What is required for a third party to be present with a household member's vehicle?
The vehicle must have registration and/or insurance in the name of the member who is requesting service and the third party must have a valid photo ID.

What happens if a third-party is calling for service under the member's membership?
The third party may contact us on the member's behalf, but the member must be present with their photo ID for service in this scenario. Service will not be provided if the member is not present unless the situation qualifies under **Accident Assist** policies.

Is RV/Motorcycle coverage included in Classic, Plus, or Premier memberships in all states?
No, in some states, RV/Motorcycle coverage is an optional benefit that must be purchased separately.

Can ERS agents process upgrades for RV/Motorcycle coverage in states where it is optional?
No, ERS agents are not permitted to process upgrades and must transfer the member to MSC.

What are membership Add-Ons?
Membership Add-Ons involve adding Adult Associates or Dependent Associates to an existing membership.

Can ERS agents process membership Add-Ons?
Yes, ERS agents and SRT are allowed to process Add-Ons if the request is made by the Primary or Adult Associate member and immediate service is needed.

What should an ERS agent do if an Add-On request is made but no immediate service is required?
If service is not immediately needed, the member should be transferred to MSC (in Softphone).

What identification is required for a newly added member to receive immediate service?
The Add-On member must be present with a photo ID to receive immediate service.

Who can request the addition of an Adult Associate or Dependent Associate to an existing membership?
The Primary member or an existing Adult Associate member can make the request.

Can an ERS agent process RV/Motorcycle coverage purchases?
No, ERS agents cannot process RV/Motorcycle coverage purchases and must refer the member to MSC (in Softphone).

What should an ERS agent do if a member requests RV/Motorcycle coverage and immediate service is needed?
The member should be transferred to MSC for processing the RV/Motorcycle coverage purchase.

Is RV/Motorcycle coverage required for Classic membership in all states?
No, in some states, RV/Motorcycle coverage is optional and not included in Classic membership.

Can a Dependent Associate be added to a membership without the Primary or Adult Associate's member's approval?
No, the request for adding a Dependent Associate must come from the Primary or Adult Associate member.

What action should be taken if an Add-On request is made and immediate service is needed?
The ERS agent or SRT can process the Add-On request to provide the needed service, subject to existing Club policy.

Are ERS agents responsible for selling RV/Motorcycle coverage?
No, ERS agents are not responsible for selling RV/Motorcycle coverage and must refer such requests to MSC.

Can an Add-On member receive service under the add-on membership if they are not present with photo ID at the service location?
No, the Add-On member must be present with photo ID to receive service.

Are all Add-On requests processed by ERS agents?
No, ERS agents process Add-On requests only when immediate service is required; otherwise, the request is transferred to MSC.

Car Seat Installation – Car seat installation is not a covered service under AAA membership.

Is car seat installation covered under AAA membership?
No, car seat installation is not a covered service under AAA membership.

Non-Members Requesting Service
Non-members who request service (excluding Hot Call scenarios) should be referred to a commercial provider for COD service; in this scenario, it is okay to offer the provider's phone number. Do not process the request in RADAR. To locate the nearest provider for COD service, use the Reroute map tool using the link under In-App Support in RADAR>Resource Links. Please note that referral availability may be limited in some ACE territories; when searching using the reroute tool, expand the search radius when needed.

Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move)
Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move) should be referred to the servicing club; do not process a service charge payment. If a service charge payment is collected prior to establishing the non-ACE breakdown location, the member should be advised that the service charge will void.

What should be done when a non-member requests service?
Non-members should be referred to a commercial provider for COD service and the request should not be processed in RADAR. COD service is not subject to mileage limitations, etc., of membership; commercial rates apply, and payment for services is due to the service provider.

How can you find the nearest provider for a non-member service request?
When a non-member is requesting service, use the Reroute map tool in the RADAR In-App Support under Resource Links to locate the nearest provider for COD referrals; in this scenario, it is okay to offer the provider's phone number.

Should non-member service requests be processed in RADAR?
No, non-member service requests (excluding Hot Call scenarios) should not be processed in RADAR.

Service Provider (ICS) Request or Refusal
Effective immediately, the options to request or refuse the service provider assigned will be discontinued as a part of ERS protocol (see Policy Exceptions below). When a member requests a specific provider, or refuses the provider assigned, they should be counseled as follows:

"I'm sorry, but to provide fast and safe service, we need to utilize the provider assigned based on real-time availability and location. This ensures you receive the quickest help possible. It looks like [insert assigned provider] is the first available provider in your area to ensure prompt service." Policy Exceptions to this policy the Facility Request/Refusal policy and use of the Preferred Facility quick action in RADAR will be limited to the following: A AAA service provider is presently at the breakdown location and agrees to facilitate service. Member indicates they have an active or recent Damage, SIU, or CI case open with the provider. If Member Declines Provider Assigned after they have been advised of the policy and they decline the provider assigned and do not meet the criteria for an exception as outlined above, the following protocol applies: Confirm that the member wishes to decline and cancel PRIOR to cancelling the service request, Cancel the request and document refusal in the Case Feed: "Refused provider assigned", Offer COD referral using the Reroute tool and advise the member payment will be due at the time of service. COD Reimbursement when the Member Declines Provider Assigned - Reimbursement for COD services in Member Declines Provider Assigned scenarios will not be considered. ERS Representatives SHOULD NOT offer reimbursement forms when the member declines the provider assigned (see Exceptions).

What should be done if a member requests a specific service provider (ICS)?
The request should be added to the Case comments for Dispatch review.

How should a member's refusal of a specific service provider (ICS) be handled?
The refusal should be documented in the Case comments for Dispatch review.

Who reviews the information about service provider (ICS) requests or refusals?
The Dispatch team reviews the information documented in the Case comments.

Is flat tire service included in Light Services?
Yes, Light Services include flat tire changes and providing air only.

What is included in the BSP (Battery Service Plan) under Light Services?
The BSP includes AAA battery replacement and warranty service for members.

Can AAA assist with jumpstarts?
Yes, jumpstart services are included in Light Services under AAA membership.

Does AAA provide fuel delivery services?
Yes, fuel delivery is part of Light Services offered to AAA members.

What lockout services does AAA provide for vehicles?
AAA offers lockout services for vehicles, helping members gain access if they are locked out.

The CA Wildfire Temporary Protocol has been discontinued, effective April 24, 2025.

Are locksmith services available through AAA membership?
Yes, locksmith services are available for both vehicles and Premier Home Lockout situations.

What towing services are included under AAA membership?
Towing services include vehicle extrication with winching when the vehicle can be safely reached from a normally traveled road or established thoroughfare, as well as towing due to mechanical disablements.

What is the policy for towing due to mechanical disablements?
AAA membership covers towing services when a vehicle experiences mechanical disablements.

When can COD referrals be made?
COD referrals can be made when the call allotment has been exhausted, the service requested is not covered under membership, or service cannot be provided under membership due to network limitations.

Do mileage limitations apply to COD referrals for uncovered services?
No, mileage limitations and other provisions of service do not apply to COD referrals for requests not covered under membership; the member is responsible for the provider's stated rate for services.

Who can receive COD referrals?
Both members and non-members can receive COD referrals; do not process COD requests in RADAR.

When is payment required for COD services?
Payment for all COD services is due to the service provider at the time of service.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

Member states an animal is stuck in the engine or under the hood or undercarriage of the vehicle. Can a AAA technician assist?
No, the AAA technician does not assist with animal removal. The member should contact their local animal control agency to have an animal removed. If service is need for the vehicle, this can be requested after the animal control agency has removed the animal.

Can a member use their membership to have a key made for someone else car?
Yes, Locksmith service can be provided when the member is a passenger in a privately owned vehicle for which locksmith services are needed and the member is present with their photo ID.

What does PTA and ETA represent?
PTA represents Projected Time of Arrival, and ETA represents Estimated Time of Arrival

Mbr says their Golf Cart has a license plate and is road legal. Is that covered?
Golf carts are NOT covered under AAA roadside assistance. However, “golf cart” is a term that is sometimes used generically to reference an NEV or LSV vehicles, which require DMV registration and valid insurance to operate on public roadways. If the “golf cart” is a Neighborhood Electric Vehicle (NEV) or Low-Speed Vehicle (LSV) with valid registration and insurance, it may qualify for service, subject to technician verification. To determine this, the AAA technician would need to verify that it has four wheels- 17-digit VIN- Gross vehicle weight under 1,300 lbs. The final determination will be made by the service technician at the time of service. If the NEV/LSV is verified by the technician, it should be treated as a private passenger vehicle under membership.

Updating Submitted ERS Cases in RADAR
After an ERS Case has been Submitted, updates, edits and additional documentation should be added via the Post (Feed) function on the ERS Case. If the member is calling back to make updates, process those updates via the Member Callback quick action button. Edits made directly to any fields on the ERS Case after it has been submitted do not transfer to the Work Order; updates to the service type, etc. should be made by posting to the Feed.

Do we provide assistance to hook up trailers and similar requests?
No, AAA technicians do not do we provide assistance to hook up trailers and similar requests because the member is having difficulty with operating their equipment.

What do I do if the member wants me (the agent) to stay on the line with them until the provider arrives to service them?
In a Hot Call situation, notify your supervisor of the member’s request and follow their guidance. In non-Hot Call scenarios, establish the nature of the member’s concerns and notify your supervisor of the member’s concerns.

Membership longevity – questions regarding membership longevity when transferring from one AAA Club to another should be referred to the Member Service Center (MSC).

Effective September 18, 2025, the annual call allotment for Adult and Dependent Associates in the AAA ACMO, AAA NNE, AAA Hawaii, and AAA New Mexico markets will change to a maximum of two (2) roadside service calls or reimbursements per membership year. This change was previously implemented in the Texas market effective November 1, 2023.

Once the two (2) call allotment has been exhausted, Adult and Dependent Associate members will be responsible for paying the applicable Service Charge for each additional roadside service request until the membership renews. The Primary Member’s annual call allotment will remain unchanged.

Effective August 20, 2026, the annual call allotment for new and renewing Adult Associates and Dependents will be limited to two (2) roadside service calls per membership year across all ACE markets. For memberships purchased or renewed prior to August 20, 2026, this change will apply beginning with the member’s next renewal period.

Cal-NExUS refers to THE California Numbered Exit Uniform System WHICH numberS freeway exits based on their mileage from the beginning of a route, with numbers increasing from south to north or west to east. Visit the following ERSKB link to view a list of exits with names:

https://clubhub.aceclubnet.com/rooms/ers_operations/r_knowledgebaseeceive/receive_policy__procedure/locations_ca_freewayshighways

Will driver remove a charging port on EV?

The AAA technician may be able to provide limited assistance when a vehicle charging port malfunctions. However, if the technician is unable to resolve the issue, towing may be provided for the vehicle.

Phone numbers or contact numbers for non-ACE Clubs can be found in SoftPhone; if an ERS agent needs to transfer a non-ACE member to their home Club or needs to transfer a member to the Call Move club territory, look for the number in Softphone, if necessary. Do not provide benefit information or policies for non-ACE Clubs; transfer the member to the servicing call move club if there are questions about coverage and services.

Member states EV charger is stuck in vehicle. Can we assist?

That depends; a AAA technician can be dispatched to attempt to assist the member, but there is no guarantee they will be able to resolve the issue. The AAA technician should be sent to assess.

How far in advance are membership renewal bills mailed to the member?

Membership renewal bills are mailed to the member's address on file no less than 30 days prior to the membership expiration.

Service provider is requesting a tip from the member. Are members required to tip drivers?

No, member are not required to tip service providers. If the member is concerned and requests follow-up, create a CMS case and counsel the member to expect follow up within 10-12 business days.

Can the service provider (ICS) that arrives on scene offer a cash price for services (COD) the member wants but that are not covered under membership?

Yes, the service provider (ICS) that arrives on scene can offer services for cash payment (COD) from the member when the service requested is not covered under membership; the member may pay the provider directly.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Passengers in Tow Truck

The tow provider can accommodate up to two passengers in the tow truck to the vehicle's destination; this may include one adult and one child in an infant carrier or carseat. The member must arrange for transportation of additional passengers.

How many passengers can fit in a crew cab?

When more than two passengers are present, counsel the member to arrange for transportation of additional passengers. If the member indicates they have no other options, document the number of passengers for the provider; however, a crewcab is not guaranteed. The member is responsible for arranging and for the cost of transportation for additional passengers.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Photo ID: A photo ID is required for service under membership (limited exceptions).

When a member indicates that a valid state-issued photo ID is unavailable, ERS agents should determine whether one of the following Approved Alternative photo IDs is available: Valid passport, Military ID, School ID, Club membership with photo (i.e., Costco, LA Fitness), Credit Card w/photo, International driver license w/photo, Laminated work badge w/photo, state-issued photo ID, or similar identification. If the member does not have an approved photo ID available, offer a COD referral or an Appointment Call at a time when the photo ID is available. A Membership Card without a matching photo ID will not be accepted. However, a membership card is no longer required to receive service under membership.

Driver License Scanning - The provider may scan the Quick Response (QR) code on the back of a driver's license to ensure the validity of the identification card and further protect the membership against identity theft. Service will not be refused if the member declines scanning.

Membership QR Code Scanning
Here are some things to note when the member reports that their membership card QR code is not scanning: for roadside service, the member simply needs to present their photo ID for service under membership. In all other cases, members may present their physical membership card for rewards and discounts, when applicable. Some member discount may also be available on the member websites at AAA.com.

Is a photo ID required to receive service under membership?
Yes, a valid photo ID is required for service under membership with limited exceptions that must be pre-approved by Club policy or a member of ERS management.

What should ERS agents do if a member does not have a valid state-issued photo ID?
ERS agents should check if the member has an approved alternative photo ID, such as a valid passport, military ID, or school ID.

Can a membership card alone be used to receive service under membership?
No, a membership card without a matching photo ID is not accepted.

What alternatives are available if a member does not have an approved photo ID?
Offer a COD referral or an Appointment Call when the photo ID is available.

Is a membership card still required to receive service?
No, a membership card is no longer required to receive service under membership.

Each AAA member is limited to one membership; a member cannot be added to the membership. If a member is identified on more than one valid membership, ERS agents should elevate this issue to their supervisor for SIU review.

Digital State/Government Issued Identification Acceptance - Effective immediately, AAA is updating its policy to reflect current technology and enhance member convenience. AAA members may present a valid photo ID—either physical or digital—to the service provider to

receive service under membership. The photo identification presented to the service provider must belong to the person present at the time of service. States currently issuing digital photo IDs include, but are not limited to: Arizona, California, Colorado, Georgia, Hawaii, Iowa, Louisiana, Maryland, New Mexico, New York, Ohio, Puerto Rico, Utah, Virginia, and West Virginia. AAA will also accept digital insurance cards in place of paper registration as proof of ownership when a third-party will be with the members vehicle, but a phot ID is also required in all scenarios. Digital or online proof of vehicle registration cards in lieu of paper/physical registration is not accepted at this time.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Member Verification/Membership Number Verification – When a member contacts ERS, ERS agents should always request the member's name and membership information prior to providing the member with any information. ERS agents should never proactively offer membership information and details prior to verifying they are speaking to the member.

ERS agents should never provide complete membership numbers to service providers.

Name Changes – When a member requests changes to the spelling of a name on the AAA membership, they should be referred to the Member Service Center (MSC) to process name changes.

Address Changes - When a member requests an address change on the AAA membership, they should be referred to the Member Service Center (MSC) for official address changes.

Email Changes - When a member requests a change to the email address on the membership, they should be referred to the Member Service Center (MSC) for official email changes.

Membership Upgrades/Downgrades - When a member requests an upgrade or downgrade on the membership, they should be referred to the Member Service Center (MSC) for benefit level changes.

Membership Number Lookup – CDX is an online tool available to the call center for locating affiliate Club membership information. As of September 30, 2026, the previous link to CDX will be retired. To access CDX going forward, please copy/paste the following link into your browser: https://memberverify.national.aaa.com/.

Troubleshooting CDX Access
Upon initial sign-in to the new CDX link, you may receive a 401 Unauthorized error message. If the occurs, please click on "Sign in with OKTA" and re-enter your email, check the Keep me signed in checkbox and click Next again to sign in. If a different error message appears or have followed the previous steps with no success, please contact your local site management. Do not contact SRT, as they will be unable to assist.

If you need assistance, please reach out to any supervisor.

MSC hours – To locate MSC hours, enter "MSC" in Softphone and locate the listing for the member's home Club. Calls may be cold transferred to MSC; a warm transfer is not required.

Service requests for non-ACE territory members should be processed by ERS agents and should never be transferred to MSC.

What should you do when a member requests a change in the spelling of their name on their AAA membership?
Refer the member to the Member Service Center (MSC) for spelling changes.

Where should you direct a member who requests an address change on their membership?
Refer the member to the Member Service Center (MSC) for official address changes to their address on file.

What action should you take when a member wants to change their email address on their membership?
Refer the member to the Member Service Center (MSC) for official email address changes.

What should you do when a member requests an upgrade or downgrade of their membership?
Refer the member to the Member Service Center (MSC) for changes to their benefit level.

Which tool is available to the call center for locating membership for affiliate Clubs information?
CDX is an online tool used for locating **affiliate Club** membership information. To access, copy/paste the following link into your browser: https://memberverify.national.aaa.com/

Can a name change request be handled by the call center directly?
No, Name change requests should be referred to the Member Service Center (MSC).

Who handles membership upgrades or downgrades when requested by a member?
The Member Service Center (MSC) handles membership upgrades or downgrades to benefit levels.

Can I locate internation memberships using CDX?
No, CDX is unable to validate international memberships; there is currently no tool available to verify valid international memberships, but a valid photo ID, such as a passport must be provided with the valid international membership card. No exceptions.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Minimum Membership Age (underage or minor members)

Alabama- **Minimum** 15 years old

Arkansas- **Minimum** 14 years old

California-Dependent Associates - No minimum age limit; maximum age is 20. An Adult Associate must be at least twenty-one (21) years old and reside in your household. There is a limit of one Adult Associate per household. Dependent Associates must be under twenty-one (21) years old and either live in your household or be full-time students away at school. Birth dates must be provided for Dependent Associates; there is no minimum age limit. Adult and Dependent Associates enjoy the same membership benefits as Primary members. Primary members are responsible for the conduct and the service demands.

In ACMO states, the first membership in your household is the Primary Membership. Associate membership is available to your spouse or other adult residing in your household. There is a limit of one adult Associate per household. Other eligible associates are dependent, unmarried children between 14 and 25 years old, who live in your household or are full-time students away at school. Birth dates must be provided for all Associates. Associates enjoy the same membership benefits as Primary Members except for the number of Roadside Assistance service calls allowed at no charge as outlined in the ALLOWABLE ROADSIDE ASSISTANCE SERVICE CALLS section. Primary Members are responsible for the conduct and the service demands of their Associates and any costs to AAA incurred as a result of misuse of AAA benefits by their Associates under the membership. An individual may be a member on only one membership at a time.

Hawaii-Dependent Associates - No minimum age limit. The first membership in your household is the Primary Membership. An Adult Associate must be at least 21 years old and reside in your household. There is a limit of one (1) Adult Associate per household. Dependent Associates must be under 21 years old and either live in your household or be full-time students away at school. Birth dates must be provided for Dependent Associates; there is no minimum age limit. Adult and Dependent Associates enjoy the same membership benefits as Primary Members. Primary Members are responsible for the conduct and the service demands of their Associates and any costs to AAA Hawai‘i incurred as a result of misuse of AAA Hawai‘i benefits by their Associates under the membership. An individual may be a member on only one membership at a time.

Illinois- **Minimum** 14 years old
Indiana- **Minimum** 14 years old
Kansas- **Minimum** 14 years old
Kentucky- **Minimum** 16 years old
Louisiana- **Minimum** 14 years old
Maine- **Minimum** 16 years old
Mississippi- **Minimum** 14 years old
Missouri- **Minimum** 14 years old
New Hampshire- **Minimum** 16 years old

New Mexico-Dependent Associates - No minimum age limit. The first membership in your household is the Primary Membership. An Adult Associate must be at least 21 years old and reside in your household. There is a limit of one Adult Associate per household. Dependent Associates must be under 21 years old and either live in your household or be full-time students away at school. Birth dates must be provided for Dependent Associates; there is no minimum age limit. Associates enjoy the same membership benefits as Primary Members except for the number of Roadside Assistance service calls allowed at no charge as outlined in the ALLOWABLE ROADSIDE ASSISTANCE SERVICE CALLS section. Primary Members are responsible for the conduct and the service demands of their Associates and any costs to AAA New Mexico incurred as a result of misuse of AAA New Mexico benefits by their Associates under the membership. An individual may be a member on only one membership at a time. New York- **Minimum** 16 years old

Ohio- **Minimum** 16 years old

Pennsylvania- **Minimum** 16 years old

Texas Dependent Associates must be under 26 years old and either live in your household or be full-time students away at school. There is no minimum age limit. Birth dates must be provided for all Dependent Associates.

Vermont- **Minimum** 15 years old

Virginia- **Minimum** 16 years old. An Associate member must be of legal driving age and reside in the same household as the primary member. Associates enjoy the same membership benefits as primary members. Primary members are responsible for the conduct and the service demands of his or her Associates and any costs to AAA Tidewater Virginia incurred as a result of misuse of benefits by Associates under the membership. A maximum of six (6) associates are allowed per membership. An individual may be a member on only one (1) membership at a time.

West Virginia- **Minimum** 16 years old

In East Central states, Associate memberships are available to the Primary Member's spouse—or one additional adult age 18 or older—who resides in the Primary Member's household (the Adult Associate), as well as up to two dependent children through age 25 of the Primary Member or Adult Associate (the Dependent Associates). Dependent Associates must reside in the Primary Member's household or be living away at school.

In NNE states, The first membership in your household is the Primary Membership. All changes and modifications for a membership must be done by the Primary member. If the Primary member cancels, fails to renew, or otherwise modifies associate(s) on their membership, it is not the responsibility of AAA Northern New England to notify the associates of these changes. The Primary member's spouse or other household residents can be added as associate members. Associates enjoy the same membership benefits as Primary Members except for the number of Roadside Assistance service calls allowed at no charge as outlined in the ALLOWABLE ROADSIDE ASSISTANCE SERVICE CALLS section. An associate member must be of driving age and reside in your household. There is a limit of six associate members per membership. Primary Members are responsible for the conduct and service demands of their Associates and any costs to AAA Northern New England incurred as a result of misuse of AAA Northern New England benefits by their Associates under the membership. An individual may be a member on only one membership at a time.

When a Primary member joins at the Plus, PlusRV, Premier, PremierRV benefit level, where applicable, they are only eligible for Classic benefits for the first 7 days after the payment is received and posted to the membership. Add-on (additional household) members added to the membership after the initial 7-days of the membership purchase are eligible for services at the membership level of the primary member.

AAA Primary and Associate Memberships - The first Membership in your household is the Primary Membership. An Adult/Adult Associate must be at least twenty-one (21) years old and reside in the same household. There is a limit of one Adult/Adult Associate per household. The number of allowable Dependent Associates varies by market, and they must be either live in the Primary's household or be full-time students away at school.

When a valid Dependent Associate is in any covered vehicle that is disabled, and a covered service is requested, the dependent member may request or have a third-party request service for the vehicle they are in and present their photo ID to receive service when the provider arrives; however the Dependent Associates must be present at the time of service, as memberships are not transferrable. In states where there is no minimum age limit for dependents and/or the Dependent Associates is underage, in the vehicle, but does not have photo ID, a valid household member may request roadside assistance for the vehicle that the dependent is in, on the dependent's behalf. However, the dependent must be present for the vehicle to qualify for service; this is a limited exception to the photo ID policy in select market.

In East Central, Associate memberships are available for the Primary Member's spouse, one adult age 18 and older living in the Primary Member's household (Adult Associate), and (2) Dependent Associate children through age 25 of the Primary Member or Adult Associate. Dependent Associates must live in the Primary Member's household or away at school, and proof of age is required. Free Junior Associate memberships are available in East Central for teens age 16 through 18 who are Dependent Associates.

Once a dependent reaches the maximum age limit they no longer qualify as a dependent associate on a membership. For most ACE clubs, the system will automatically spin-off or spin-up any dependent that has reached the maximum age limit at the expiration of the membership term, indicating Role Expired in MRM (Spin-off Memberships). A dependent associate is automatically promoted to the role of an adult associate if the dependent is at the maximum dependent age and there is no adult associate on our membership; no new membership number will be established. If an Adult Associate already exists, the dependent for whom the role has expired will be transferred (Spin-off) to a new membership, with a future effective date; their current membership with be valid until the new membership year begins; once the new membership begins, payment must be received or the Spin-off membership will be cancelled.

Texas Dependent Associates - Dependent to a Texas membership if they are under 26 years old and either live in your household or are full-time students away at school. There is no minimum age limit for Texas dependents. Birth dates must be provided for all Dependent Associates.

Dependent member is present, non-member is requesting svc using dependent's membership. Can we send service?

Yes, service is allowed in this scenario. When a valid Dependent Associate is in any covered vehicle that is disabled and a covered service is requested, the dependent member may request service OR have a third-party request service for the vehicle they are in. The Dependent Associate must be present at the

time of service and present their photo ID to receive service when the provider arrives. This is specifically allowed under the policy, as memberships are not transferable but this exception applies when the dependent is present with the vehicle.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

When a public agency (PA), such as police, highway patrol, sheriff, etc. calls to confirm that service to our member is immediately enroute, they may be counselled about the ETA and name of the tow company (service provider) only; do not provide additional membership details. The member or third-party standing in for the member may also be provided ETA and service provider name, when the service provider has not arrived yet; no other membership details should be provided to anyone other than the member, unless otherwise permitted by ERS policy. When a public agency (PA) is calling to request service for our member, these calls should be marked as PA Calls in RADAR.

Protected and Confidential Information Policy

Protected and confidential information includes, but is not limited to, internal Club personnel and contractor-related policies that are not part of established roadside service call processing, and the personal information of our employees, members, and Adults and Associates on a household membership. This directive applies to information requests made by various parties, including but not limited to: Media Organizations (News Stations/Reporters), Family Members/AAA Members reporting missing persons who have/may have recently received roadside service, the General Public, Public Agencies, Law Enforcement, insurance companies (e.g., Allstate, State Farm, Geico, etc.), and Legal Representatives (including private parties who indicate they have a Power of Attorney for a member, attorneys, lawyers, prosecutors, etc), other Third Parties. ERS agents are not authorized to approve service for a third party simply because they indicate they possess a Power of Attorney on behalf of the member; memberships are non-transferable. This policy is not intended to substitute for Critical Incident reporting protocols. This policy also does not cover ACE member requests for personal household account information that are the subject of Service Verification requests.

When contacted by any of the following requesting protected or confidential information, the service representative should immediately direct the inquiry to their local **Supervisor Line**:
Media organizations (news stations/reporters), Family members or AAA members reporting a missing person who has/may have recently received roadside service, The general public
Public agencies, Law enforcement, Legal representatives (including private parties claiming to hold a Power of Attorney for a member), Other third-party individuals. **Key guidelines: Power of Attorney requests for service** – If the caller seeks roadside assistance under someone else's membership (even with a Power of Attorney), advise them that **AAA memberships are non-transferable**. They may purchase their own membership or receive a COD (cash-on-delivery) referral. **Do not share** any protected or confidential information as defined in this policy, nor provide personnel or event-related opinions. **Do not** elevate these requests to SRT or create a CMS case. These inquiries must be escalated to the local Supervisor Line for handling by a member of the **home site management team**.

ERS Management Team Only - When contacted by an ERS agent with notification that a **member or non-member** is requesting roadside service details due to a **missing member or household member**, the following steps apply: Obtain the **Case Number**, review the documentation, and assume ownership of the request. Contact **Corporate Security** and the designated document contact prior to forwarding to Corporate Security (ACESecurity@ace.aaa.com).
When a call is received from any law enforcement, law office, or attorney requesting confidential or protected information, the management team member handling the request must obtain the following from the caller: **Name, Agency/Company** (if applicable), **Details of the Information Requested** (e.g.,

roadside event in the news, previously reported Critical Incident, Club policy information not related to the caller's personal roadside request), **Contact Information.** Upon collecting this information, advise the caller that their request will be forwarded for further action. However, avoid making any statements that guarantee contact or specify follow-up timeframes. The information obtained and requested by the caller should be forwarded to the Corporate Security Office by a member of ERS management team.

What types of information are considered protected and confidential?
Protected and confidential information includes internal Club personnel and contractor-related policies not part of established roadside service call processing, as well as personal information of our employees and members.

Does this policy replace Critical Incident reporting protocols?
No, this policy is not intended to substitute for Critical Incident reporting protocols.

Are ACE members' requests for personal household account information covered by this policy?
No, this policy does not cover ACE member requests for personal household account information that are the subject of Service Verification requests.

What should a service representative do when contacted by a media organization or third party?
All inquiries should be immediately directed to a member of the service representative's local Supervisor Line.

Are service representatives allowed to provide details about protected information?
No, service representatives should not provide details of protected information, policy statements, or personnel/event-related opinions.

Can service representatives elevate requests to SRT or create a CMS case for these inquiries?
No, service representatives should not elevate these requests to SRT or create a CMS case.

What information must ERS management obtain from a law enforcement representative requesting confidential information?
Management must obtain the caller's name, agency/company (if applicable), details of the information requested, and contact information.

What types of details might be included in the information requested?
Details might include a roadside event in the news, a previously reported Critical Incident, or Club policy information not related to the caller's personal roadside request.

What should management say to the caller after collecting the necessary information?
Management should inform the caller that their request will be forwarded for further action, but avoid making statements that guarantee contact or specify follow-up timeframes.

Where should the information obtained from callers by the ERS management team be forwarded?
The information should be forwarded by a member of ERS management to the Corporate Security Office email at ACESecurity@ace.aaa.com.

Is there a specific protocol for handling requests from law offices or attorneys?
Yes, requests from law offices or attorneys must be handled in the same manner as law enforcement requests, including gathering the required information.

Can general public requests for information be treated the same as law enforcement requests?
No, the general public should be referred to law enforcement, their legal representative or warm-transferred your the local supervisor Line. Law enforcement requests involve specific information collection protocols.

How should service representatives approach inquiries about Club policy that are not related to roadside service?
Service representatives should avoid offering policy statements or opinions and instead direct such inquiries to the local Supervisor Line.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Our commitment to accessibility includes ensuring members with disabilities can fully access roadside assistance and customer support services. Members using Relay Services may communicate differently than traditional voice callers, and all employees are expected to handle these interactions professionally, patiently, and in accordance with Relay communication protocols.

Failure to properly handle Relay communications can create service barriers for members and negatively impact the member experience.

What Is a Relay Call?

Relay Services allow individuals who are hearing or speech impaired, or who are otherwise unable to communicate traditionally by phone to communicate through a Relay Operator.

The relay operator will typically advise that they have a party on the line who they will be translating for.

During these calls:

- A Relay Operator will verbally relay typed messages from the member.
- After completing each question or statement posed by the member, the operator will prompt call center staff to continue with a phrase, such as, “Go Ahead”.

This is a standard communication cadence and should not be interrupted.

Required Handling Expectations

- Speak clearly and directly to the member, not the Relay Operator.
- Pause and allow the member or operator to finish before responding.
- Wait for “Go Ahead” or similar prompts before speaking.
- Member must be advised of all relevant roadside policies and member benefits.
- Exercise patience during pauses or delays in communication.
- Maintain a professional tone throughout the interaction.
- Provide identifying information when requested, in accordance with ERS policy.

Call Center Staff Must Not:

- Speak over the member or Relay Operator.
- Rush the interaction.
- Disconnect due to communication delays.

Suggested Scripting

“Thank you for contacting AAA Roadside Assistance. I understand this is a Relay call, and I will follow the Relay communication process. How may I assist you today?”

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

On occasion, a member or caller may request to continue communication on a non-recorded line. To ensure compliance with applicable laws and accessibility accommodation, the Club has established a process to appropriately handle these requests.

This protocol outlines the required escalation procedure that must be followed when a caller requests communication on a non-recorded line.

ERS Receive/Dispatch Agents

If a member requests to proceed on a non-recorded line:

1. Acknowledge the request and advise the member we can accommodate them.

2. Warm transfer the member to the Local Supervisor Line. Do NOT transfer the call to SRT.

o Local Supervisor Line information can be found in:

- ERS Knowledgebase

- Ask ACE chat tool.

3. Remain on the line during the warm transfer and brief the Supervisor before disconnecting.

Suggested Scripting

“I understand your concern regarding the recorded line. Please allow me a moment while I connect you with a supervisor who can assist you further.”

ERS Supervisor Protocol

Upon receiving the warm transfer, the Supervisor should:

1. Accept the transferred call.

2. Advise the member there will be a brief hold while a manager is contacted.

3. Contact management for continuation of the interaction on a non-recorded line.

Suggested Supervisor Scripting

“Thank you for your patience. I understand you are requesting assistance on a non-recorded line. Please allow me a brief hold while I contact a manager to assist further.”

ERS Manager Protocol

Upon receipt of the escalation, assist the member on a non-recorded line.

If you have any questions, please reach out to a member of your local management team.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Each AAA member is limited to one membership; a member cannot be added to the membership. If a member is identified on more than one valid membership, ERS agents should elevate this issue to their supervisor for SIU review.

Roadside Service - Presentation of a membership card is no longer required to receive Club service. Roadside service will be rendered to our members upon presentation of a valid government-issued identification, with limited exceptions. Service cannot be rendered with membership card only; a valid photo ID must be presented to receive service. A membership card will not be accepted in lieu of a valid photo ID.

Can you join AAA through the mobile app?
Yes, you can join AAA through the mobile app by registering or creating an account within the app. The AAA Mobile App provides access to digital membership cards, roadside assistance, discounts, and more. Once you have registered or created an account, you can access your digital membership card, request roadside assistance, and explore other available benefits within the app,

When a valid dependent household member (underage or minor) is in any covered vehicle that is disabled, and a covered service is requested, the dependent member may request or have a third-party request service for the vehicle they are in and present their photo ID to receive service when the provider arrives. In states where there is no minimum age limit for dependents and/or the dependent is in the vehicle but does not have photo ID, a valid household member may request roadside assistance for the vehicle that the dependent is in, on the dependent's behalf. However, the dependent must be present for the vehicle to qualify for service, as the membership is not transferable; this is a limited exception to the photo ID policy.

Do not provide policy exception and third-party/member-not-present information to the member in non-ACE territories for non-ACE Clubs (in Call Move scenarios). If the member has questions or wants additional information, transfer to the servicing non-ACE Club.

If the member indicates their photo ID was stolen or lost and they are unable to provide it to the service technician, the member should be advised that a Club-approved alternate photo ID is required to receive service. If a Club-approved photo ID is not available, the member should be advised to call back when they have one available. If the member insists on receiving service, a member of the ERS management team must approve.

Reimbursement forms should never be sent to non-ACE club members. If the member is seeking reimbursement for charges paid in ACE club territories, they must contact their home club. Reimbursement forms should only be sent to ACE members.

Discount & Rewards - A membership card may be required by our Discount & Reward partners, at their discretion.

Membership Promotions - A membership card may be required for our members to receive Membership or ERS-related promotional pricing.

Replacement cards may be sent by ERS or MSC agents accessing the member's account in MRM. The cards will be mailed to the member and should arrive with 10-12 business days.

Members can access their **digital** Membership card on their smartphone using the Auto Club App, or via a web browser to contact AAA.com; however, to receive roadside service, a photo ID must be presented to the provider.

App Access - Members can text APP 10 to 86792 to download the Auto Club App. Once logged in to the app, tap the membership card icon in the top right corner to see access their membership card. They can also add the membership card to Apple Wallet for iOS.

AAA.com - Go toAAA.com and use the Chat feature labeled "Get Roadside Assistance" or select Manage Account to access membership. An option to access a digital membership card or to have a replacement mailed will be available.

Members also get additional benefits, including Member discounts, gas prices, travel and more. The Auto Club App is available on iPhone and Android.

Is a membership card required to receive roadside service from AAA?
No, a membership card is no longer required. Roadside service will be rendered upon presentation of a valid government-issued ID, with limited exceptions.

When might a membership card be required by AAA?
A membership card may be required by AAA's Discount & Reward partners at their discretion and for receiving Membership or ERS-related promotional pricing at retailers.

Can members access their membership card digitally?
Yes, members can access their digital membership card via the Auto Club App or AAA.com; however, to receive roadside service, a photo ID must be presented to the provider.

How can members download the Auto Club App?
Members can text APP 10 to 86792 to download the Auto Club App on their smartphone.

What steps should a member follow to view their membership card on the Auto Club App?
After logging into the app, they should tap the membership card icon in the top right corner to view their digital card.

Is the digital membership card available for both iOS and Android users?
Yes, the Auto Club App is available for iPhone and Android users, and iOS users can add the card to Apple Wallet; however, to receive roadside service, a photo ID must be presented to the provider.

How can members access their membership card through AAA.com?
Members can go to AAA.com, use the "Get Roadside Assistance" chat feature, or select "Manage Account" to access their membership card.

What additional option is available on AAA.com regarding membership cards?
Members can access their digital membership card or request a replacement card to be mailed; however, to receive roadside service, a photo ID must be presented to the provider.

What other benefits do members receive through the Auto Club App?
Members can access discounts, gas prices, travel information, and more through the Auto Club App.

What can members do if they do not have their membership card available?
They can present a valid government-issued ID to receive roadside assistance.

Are membership cards required for Discount & Reward promotions?
Yes, a membership card may be required by AAA's partners for Discount & Reward offers, depending on the AAA partner's policies.

What promotional situations might require a membership card?
A membership card may be required for membership or ERS-related promotional pricing at AAA partners.

Can a member use their membership to have a key made for someone else car?
Locksmith service can be provided when the member is a passenger in a privately owned vehicle for which locksmith services are needed and the member is present with their photo ID.

Member claiming ID and membership card are locked in the vehicle and they need the vehicle unlocked. Can we send service?
A supervisor may approve Lockout service for a member whose membership card and photo ID that are locked in the vehicle in limited situations when alternate membership verification methods have been successful. Otherwise, the member should be referred for COD service, as photo ID is required for service under membership.

Membership longevity – questions regarding membership longevity when transferring from one AAA Club to another should be referred to the Member Service Center (MSC).

When members from non-ACE Clubs request changes on their membership, they should contact their home club.

AAA membership numbers are 16 digits. The first 3 digits on the Membership card are the ISO number. The second 3 digits are the club code. The last 10 digits are the unique membership number.

Membership Roles Codes
The last digit of the membership number will tell you the role of the member in the household:
- 0 – Represents Primary Member
- 6 – Represents Adult Associate
- 1 through 5 – Represents each Dependent Associate

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Benefit Level Dispute: Benefit level disputes are member-initiated disputes about the type of membership purchased. When a member indicates they have paid for a ClassicRV, Plus, PlusRV, Premier, or PremierRV membership that does not show in RADAR, check MRM for related transactions as follows: In MRM, select View > Membership History. If the membership was previously Plus, Premier, RV/Motorcycle, check the payment history to determine whether payment was received. If the member was added to an existing membership, and indicates the membership should be a ClassicRV, Plus, PlusRV, Premier, or PremierRV , review the membership history prior to the add-on. If the membership was Plus/Premier or RV/Motorcycle at the time of an add-on, the add-on member receives the same benefit as the Primary member. Prior to making any changes to the membership type, verification that the upgrade fee was paid is required. If membership was upgraded at the same time as the add-on, the 7-day wait period applies to the upgraded benefit and service may only be provided at the original benefit level until the wait period expires. If the member renewed at a downgraded membership level, and it is confirmed that a payment for the upgrade has not been received, counsel the member that payment has not been received for the upgraded benefit and that they will only be eligible for the benefit level paid.

What is a Benefit Level Dispute?
It is a member-initiated dispute regarding the type of membership purchased.

What should you do if a member claims they paid for an upgraded membership that does not show in RADAR?
Check MRM for related transactions and review the membership history in the View > Membership History section.

What should be checked if the member's membership was previously ClassicRV, Plus, PlusRV, Premier, or PremierRV?
Review the payment history to confirm whether payment for the upgraded membership was received.

How do you handle a dispute an affiliate member who is disputing their membership level?
Check CDX for the membership level; if the member still disputes the benefit level, contact the member's home Club and document the information provided in the call Feed.

How do you handle a dispute when the member was added to an existing membership?
Check if the membership was ClassicRV, Plus, PlusRV, Premier, or PremierRV at the time of the add-on to determine if the add-on member should receive the same benefit level as the Primary member.

What must be verified before making changes to the membership type?
Verification that the upgrade fee was paid is required.

What happens if a membership upgrade and an add-on occur at the same time?
The 7-day wait period applies to the upgraded benefit, and service is provided at the original benefit level until the wait period expires.

What should be done if the member renewed at a downgraded membership level?
Verify if payment for the upgrade was received, and if not, counsel the member that they are only eligible for the benefit level paid.

What system should be used to check the membership history for benefit level disputes?
Use MRM to check the membership history.

How can you confirm that the member's benefit level matches their payment?
Review the payment history in MRM to confirm if the member paid for the upgraded benefit level.

What must be explained to the member if payment for an upgraded benefit has not been received?
Inform the member that the payment for the upgraded benefit has not been received, and they are only eligible for the benefit level paid.

Membership longevity – questions regarding membership longevity when transferring from one AAA Club to another should be referred to the Member Service Center (MSC).

How do I change the membership level in RADAR?
After verifying the correct level in MRM or the affiliate club, agents can click on Case Action in RADAR and change membership level. DO not change this level based on the member's statements without verification in MRM or CDX.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Override Requests: When a member has exceeded their call allotment or otherwise qualifies for continuation of service, a payment and/or override are REQUIRED to proceed with service request processing. Unless approved by SRT/ERS management for a qualified reason, the fee must be paid prior to receiving service.

When a member indicates that a payment has been made, ERS agents must check MRM to verify the payments as follows: Launch > Membership > View Membership History. If a payment has been made is reflected and there is no outstanding amount due, an override may be requested.

If MRM reflects a sufficient Payment in Transit (PIT), an override should be requested. Teams Overrides are available via the SRT Overrides chat during Help Desk hours only (CA Time): M-F 0700-1900 and Sat-Sun 0800-1800. The Case number, member last name, and reason are required when requesting an override. Requests from the SRT Override chat are limited to overrides.

After-Hours Supervisor Overrides – Contact your Local Team Override or Support Chat. If no response within 60 seconds, contact local site Supervisor line (see below).

Manager Overrides – When manager approval is required for an override, based on established ERS protocol, ERS agents must contact a member of their local site management team. Do not contact SRT for Manager Approvals.

If the member is in Service Charge and has a valid pending NSR (No Service Rendered), an override may be requested. However, if the NSR is for the 5th or more call for the membership year, a service charge payment is still required.

What is required to proceed with a service request if a member has exceeded their call allotment?
A payment is required unless the circumstances qualify for a Supervisor override.

When must a service charge fee be paid by the member?
The fee must be paid prior to receiving service unless a qualifying circumstance exists based on ERS policy and a Supervisor override is approved.

How can ERS agents verify if a payment has been made by the member?
Agents should check MRM by navigating to: Launch > Membership > View Membership History.

What should be done if MRM reflects a Payment in Transit (PIT)?
If MRM reflects a sufficient payment in transit, an override will be required to proceed.

How can ERS agents request an override during Help Desk hours?
Teams Overrides are available via the SRT Overrides chat, M-F 0700-1900 and Sat-Sun 0800-1800 CA Time.

What information is needed when requesting an override through the SRT Override chat?
The Case number, member last name, and reason for the override are required.

What should agents do if they need an after-hours supervisor override and no response is received within 60 seconds?
Contact the local site Supervisor line.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The Roadside Assistance Program (RAP) is a group of AAA National contracts with corporations to provide roadside assistance for their customers. RAP service requests are provided pursuant to the RAP contracts, not under AAA memberships. While our service providers facilitate roadside service for these customers, RAP service requests are not initiated by ERS call center agents. Select ACE dispatch agents are RAP-trained and provide support for these service requests. Members who call into ERS Receive agents should be directed to contact the call center number where their service was initiated. RAP calls should never be Cloned.

What is the Roadside Assistance Program (RAP)?
The Roadside Assistance Program (RAP) is a group of AAA National contracts with corporations to provide roadside assistance for their customers.

Are RAP service requests covered under AAA memberships?
No, RAP service requests are provided under RAP contracts, not AAA memberships.

Who facilitates roadside assistance for RAP customers?
AAA service providers facilitate roadside service for RAP customers, but the service requests are not initiated by ERS call center agents.

What should members do if they call ERS about a RAP service request?
Members should be directed to contact the call center number where their RAP service was initiated.

Who handles RAP service requests within ACE dispatch?
Select ACE dispatch agents who are RAP-trained provide support for these service requests.

How do you clear out a flat tire that is not a rap call

Questions about RAP call clearing and other procedural Dispatcher functions should be referred to a Dispatch supervisor. This tool cannot provide specific instructions for AAA Dispatcher functions.

A RAP member called in to complain, do I create a CMS Case?
RAP service complaints should NEVER be processed in CMS. When a RAP caller requests initiation of the complaint process, they should be directed to contact a representative at the number originally contacted to request service. DO NOT PROCESS RAP COMPLAINTS IN CMS.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Multiple Services - Same Vehicle (see Tandem policy, as applicable) - When two (2) or more services are needed for the same vehicle at the same time, and one of the services is for jumpstart or Tow service, the primary selection should be Battery or Tow, and the secondary service should be added to Driver's notes. If the member needs Tow service and air only for a flat tire, select Tow as the primary service and indicate that air is also needed in the Driver's notes. If the member needs gas and a jumpstart, Jumpstart should be the primary service, and the fuel request documented in Driver's Notes. If the member needs a jumpstart and fuel or tire service, select jumpstart and make a note of the tire change/air or fuel request in the Driver's notes. If the member needs a jumpstart and lockout service, select Jumpstart as the primary service and document lockout in the Driver's Notes. The same provider will be able to provide lockout and jumpstart services. If the member needs Club removal due to lost keys and a new key made so they can drive the vehicle, select Locksmith as the primary service, place the Club removal details in Drivers Notes; only one service call is needed. If the member needs towing and a tire change, select Tow as the primary service and document tire service in the driver's notes.

If a member needs service for two (2) vehicles at the same time, two (2) separate service requests must be completed to receive service under membership. This will result in the member having two service requests open at the same time. Please note, service requests in this scenario may be assigned to different providers, and both service requests will count against the membership's call allotment (see RV tandem towing for exceptions).

Lockout Service is eligible for Appointment Calls, subject to ERS protocols; Locksmith service is different from Lockout service and is not eligible for Appointment Calls. If the member needs a lockout (not locksmith) and a tow, it may be done by the same provider under a single service request, subject to ERS policy

If multiple services are needed for the same vehicle, and one of the services is Locksmith (not Lockout) and the other is jumpstart or a tow, determine whether the member has access to the inside of the vehicle first; if the member does not have access to the inside of the vehicle or cannot operate the vehicle due to lost, broken key or ignition or steering wheel problems and locksmith services are needed, counsel the member that you will set up a Locksmith (not Lockout) request and the service provider will contact them with ETA and charges. If a jumpstart is needed after the Locksmith opens the vehicle, document this in driver's notes; if towing is needed after the Locksmith service, document this information in driver's notes and advise the member that the Locksmith will be unable to tow them and to callback to arrange towing.

A single service request should be completed when both covered services are for the same vehicle, and a single call will be counted against the member's annual allotment. Multiple services are intended to get otherwise covered vehicles back on the go, or to render them safe to tow. Only one vehicle may be serviced under a single service request.

Towing is arranged by ERS agents for members who call for roadside service under membership. Members should only contact service providers directly for towing and other services when the service is not covered under membership or AAA providers are unavailable in the area. When a requested service is not covered under membership, a COD referral should be offered and the costs of commercial services

obtained will not qualify for reimbursement. When a member is requesting COD service directly from the service provider, a membership number is not required. Payment for all services is due and payable to the driver at the time of COD service.

How do I let the provider know that the member needs a jumpstart and fuel?
To process a jumpstart and fuel request together: 1) Select "Jumpstart" as the primary service type 2) Add the fuel request details in the Driver's Notes section. This will be processed as one service call against the member's annual allotment.

What should you do if a member needs both Lockout and jumpstart services at the same time?
Select jumpstart as the primary service and add Lockout service in the Driver's notes. The same provider will be able to provide lockout and jumpstart services.

If a member needs Tow service and air for a flat tire, which service should be selected as primary?
Tow should be selected as the primary service, with air needed noted in the Driver's notes.

How many calls will count against a member's annual allotment if multiple services are requested for the same vehicle, per existing ERS policy?
Only one call will count against the member's annual allotment for multiple services on the same vehicle.

Can multiple services be provided under a single service request for the same vehicle?
Yes, multiple services for the same vehicle can be covered under a single service request, per existing ERS policy. Please review the policy for how to process.

What should be done when a member contacts AAA for towing service under membership?
Towing should be arranged by ERS agents, not by the member contacting service providers directly, excluding scenarios in which service requested is not covered, or when a COD referral is necessary due to network availability/limitations.

When is it appropriate for a member to contact a service provider directly for towing?
Members should contact service providers directly when the service is not covered under membership or AAA providers are unavailable.

Should a membership number be required for a member requesting COD service from a service provider?
No, a membership number is not required for COD service.

Who is responsible for paying for COD services?
The member is responsible for paying the driver at the time of COD service.

What should you do when a requested service is not covered under membership?
Offer a COD referral to the member.

Will commercial services obtained by the member directly qualify for reimbursement under membership?
No, commercial services obtained directly will not qualify for reimbursement unless AAA network limitations prevented service to the member for a covered service.

When two services are needed for the same vehicle, which should be selected as primary when one of them is a Tow service?
Tow should be selected as the primary service.

What happens if both services requested are covered for the same vehicle?
A single service request is created, and one call is counted against the member's annual allotment.

How should a Tow service and air for a flat tire be documented?
Select Tow as the primary service and indicate in the Driver's notes that air is needed for the flat tire.

If a member needs a Jumpstart and Fuel delivery, what is the correct procedure?
Select Jumpstart as the primary service and document the fuel request in the Driver's Notes.

What is the primary service type for a Tow and Tire Change request?
Select Tow as the primary service and document the tire change in the Driver's Notes.

How should a Jumpstart and Lockout service be documented?
Select Jumpstart as the primary service type and document Lockout in the Driver's Notes. The same provider will be able to provide lockout and jumpstart services.

Can service for two vehicles be requested at the same time?
Yes, but two separate service requests must be completed to receive service for both vehicles, and both service requests will count against the membership's call allotment.

When service is requested for two vehicles by the same member simultaneously, will both service requests in this situation be handled by the same provider?
Not necessarily; service requests for the two vehicles in this scenario may be assigned to different providers.

Does the membership cover simultaneous service for two vehicles in a single request?
No, membership benefits apply to each vehicle individually, requiring separate service requests for simultaneous assistance. Service requests in this scenario may be assigned to different providers, and both service requests will count against the membership call allotment.

Tandem Towing with an RV
Whenever a service provider can tow two vehicles, one in tandem, then one service order will be issued. (For example, an F150 and a ball-hitch travel trailer.); however, a service provider may also determine, while on scene, that two tow trucks are required, in which case, the service provider will then request a separate service request from Club dispatch, which will NOT count against a member's call usage in this scenario.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Where can an ERS agent obtain ERS reimbursement or service verification forms for the member's records?

ERS forms are available on the ERS Knowledgebase and may be emailed by ERS agents from the Reimbursement or Service verification page on the ERS Knowledgebase. Reimbursement will be considered for all covered services, including lockout, locksmith (replacement keys, etc.), towing, etc.; members should be provided with the appropriate reimbursement form. If a member calls back for Standard (Non-Battery) reimbursement status, Warm-transfer member to the Refunds dept. Do not provide phone number. Refunds Department: (888) 222-9441. For status of Service Verification requests, Warm-transfer member to the Refunds dept. Do not provide phone number. For Battery reimbursement status for, transfer the member to (800) 243-0594.

For AL, AR, CA, HI, IL, IN, KS, MS, MO, LA, NM, or TX members requesting Battery reimbursement status, transfer to: (800) 243-0594.
For KY, OH, or WV members requesting Battery reimbursement status, transfer to: 412-365-7351
For ME, NH, or VT members requesting Battery reimbursement status, transfer to: (207) 780-6877
For NY, PA, members requesting Battery reimbursement status, transfer to: (412) 365-7116
For VA members requesting Battery reimbursement status, transfer to: (757) 233-3861

How do I (ERS agent) send the member a reimbursement by postal mail?

ERS agents should confirm the member's address on file and create a CMS case for supervisor review and mailing.

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?

If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

Refunds and reimbursements are not the same. Refunds processed by AAA agents are the result of member payments for covered ERS roadside fees and membership payments, such as CAPRE, Early ERS Use fee, Service Charge, etc.). Reimbursements are AAA payments made to members after a AAA reimbursement form has been submitted and approved, and are related to costs paid by the member for covered products or services; a reimbursement form should be completed and submitted with supporting documentation, which includes a detailed payment proof of payment (receipt) and invoice that includes date, full member name, itemized charges with description and complete vehicle information.

Reimbursement forms should never be sent to non-ACE club members. This includes services that were provided in ACE states and non-ACE states. If the member is seeking reimbursement for charges paid in ACE club territory, they must contact their home club. Reimbursement forms should only be sent to ACE members.

How long will refunds take?

With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member's financial institution processing times may vary. Refunds are not the same as reimbursements.

"Rebate" information is not available in this tool. If a member contacts ERS for information about a AAA rebate advertised, refer the member to MSC.

Reimbursement Terms - If it is necessary for a member to pay for covered membership service at commercial rates, such as purchasing a replacement key FOB at a dealership (excludes recently purchased vehicles), the member must request and provide documentation, including an itemized receipt or invoice listing the member's name, vehicle, the appropriate reimbursement form, proof of payment (i.e., credit card receipt), and a brief description of the circumstances.

If a member gets a key made at a dealership, would it be eligible for reimbursement for their locksmith coverage?
Yes, if a member gets a replacement key made at a dealership, they may submit the required documentation for reimbursement consideration.

For reimbursement consideration, the member must submit within 60 days of service. Reimbursements for services, including services received outside of the member's home club territory, will only be considered for those membership services which ACE provides without charge. Reimbursement is not guaranteed. Members will be reimbursed for Membership services at the prevailing commercial rates when AAA service was requested from a AAA or CAA club, but the Membership could not be verified. Reimbursement will be issued upon subsequent verification that the Member's valid Membership was in effect at the time of service. A reimbursement counts as a Roadside Assistance service call. Please allow 4 weeks for reimbursement processing.

Reimbursement Requests - When a member requests reimbursement, ERS agents should access the Reimbursement site on the ERS Knowledgebase and offer to email the appropriate form. If the member indicates they do not have an email address, ask the member to confirm the address on file and elevate the request for supervisor review via CMS. Members may also be referred to AAA Member websites for ERS forms. Always offer to email forms to the member first before processing a CMS request to Mail the paper forms. CMS requests for paper forms should only be processed when the member indicates they do not have an email or insist on the paper forms. Please allow 4 weeks for reimbursement processing.

Agents should always confirm which type of reimbursement request was submitted when the member is requesting reimbursement status:

Reimbursement Status - Standard (Non-Battery): Warm-transfer member to the Refunds dept. Do not provide phone number. Refunds Department: (888) 222-9441. Service Verification: Warm-transfer member to the Refunds dept. Do not provide phone number. Refunds Department: (888) 222-9441.

Reimbursement Status Updates (Battery Only): For status updates on replacement Battery reimbursements, warm-transfer member to their home state/club for follow-up (refer to the ERS Knowledgebase Reimbursements and Verification Forms page). Do not provide the phone number to the member. Members in CA should be warm-transferred to (800) 243-0594. Please allow 4 weeks for reimbursement processing.

What documentation is required for a reimbursement request? Members must provide an itemized receipt or invoice, proof of payment, a brief description of the circumstances, and a completed reimbursement form.

What is the deadline for submitting a reimbursement request? The member must submit the reimbursement request within 60 days of the service.

What services are eligible for reimbursement? Reimbursements will only be considered for membership services that AAA provides without charge.

Is reimbursement guaranteed for covered services? No, reimbursement is not guaranteed, even for covered services.

Can a member be reimbursed for services outside their home club territory? Yes, as long as the services are eligible for reimbursement under membership terms and the membership was valid at the time of service.

What happens if AAA service was requested, but the membership could not be verified? Reimbursement may be considered if the membership is subsequently verified as valid at the time of service.

Does a reimbursement request count as a roadside assistance service call? Yes, a reimbursement counts as a roadside assistance service call.

How should an agent proceed when a member requests a reimbursement? The agent should access the Reimbursement site on the ERS Knowledgebase and offer to email the appropriate form.

What if a member requesting a reimbursement does not have an email address? The agent should confirm the address on file and escalate the request for supervisor review in CMS.

Can a member obtain reimbursement forms online? Yes, members may be referred to AAA Member websites under ERS forms.

What should agents avoid doing when handling a reimbursement request? Agents should elevate for Supervisor Review in CMS or transfer to another department, in lieu of offering to email the forms to the member.

Where should a member be transferred for non-battery reimbursement status updates? Warm-transfer the member to the Refunds Department listed in Softphone.

Should agents provide the Refunds Department phone number to members? No, do not provide the phone number to members.

What is the phone number for the Refunds Department for standard reimbursements? The Refunds Department number is (888) 222-9441, but agents should warm-transfer the member instead of providing the number.

Where should a member be transferred for battery reimbursement status updates? Warm-transfer the member to their home state/club for follow-up on battery reimbursement status.

What is the phone number for battery reimbursement follow-ups for CA members? The number is (800) 243-0594, but agents should warm-transfer the member instead of providing the number.

What is considered proof of payment for a reimbursement request? A credit card receipt, cancelled check (both sides) or similar document is considered proof of payment. An invoice or receipt without proof of payment will not be accepted.

Where can agents find the reimbursement forms? Agents can access the reimbursement forms through the ERS Knowledgebase Reimbursement & Verification site.

What should agents do if a member asks for the status of a reimbursement request? Confirm the reimbursement type submitted. For CA (004) battery reimbursements, warm transfer the member to (800) 243-0594. Do not provide the number. For all other reimbursement status requests, warm-transfer the member to the Refunds Department for status updates Warm-transfer member to the Refunds Department: (888) 222-9441. Do not provide phone number.

Are there reimbursement limits if a member paid commercial rates for a covered service? Yes, but only at prevailing commercial rates and upon verification of membership at the time of service.

How can a member get a copy of the payment they made for an outstanding ERS bill, service charge, early use fee, or CAPRE (or California Prepay**) payment?**
For payments processed in MRM, we can offer receipts via email to our members (excludes receipts for AAA battery and other roadside purchases). On the Process Membership Payment screen in MRM Portal, verify the email address on file and place a check mark in the Email Receipt box before submitting the payment. Receipts cannot be requested in MRM once the payment has already been processed If the member requests a receipt of a payment made in MRM after the payment has been processed, open a CMS case for member relations follow-up (excludes receipts for AAA battery and other roadside purchases). When purchasing a AAA battery from a BSP technician or a BSPAAR repair facility, members will be provided an invoice/sales receipt at the time of service; if the member does not have an email address to give the provider, they should request the driver to prepare a written receipt and contact the station directly for a physical receipt if it is requested but unavailable.

Will the Early ERS Use (Same Day), CAPRE or California Prepay**, and Service Charge fees be refunded if the member requests battery replacement but the AAA battery needed is not in stock for a BSP installation and no other service to the vehicle is rendered?**
Yes, the Early ERS Use (Same Day), CAPRE, and Service Charge fees will be refunded if the member requests battery replacement, but the AAA battery is not in stock for a BSP installation and no other service to the vehicle.

Can a RAP customer who is also a AAA member request reimbursement directly from AAA when service was rendered under a RAP contract?
No, a AAA member who receives service under a RAP contract cannot apply for reimbursement consideration directly from AAA; they must be referred to the RAP service center that initiated the service request for reimbursement information.

What is the email address for members to send reimbursement forms?
To return a completed reimbursement form with documentation, the member should be counseled to follow the instructions on the form; email return is not available. The instructions for the Standard (non-battery) form are: Please fill out the form in full and print. Keep a copy of this reimbursement form and

the and any original receipts for your records. To submit the application, fax the form and receipts to (714)-662-8375, submit the form and receipts to a local AAA Branch Office, or mail the form and receipts to: AAA Club Services Attn: ERS A-321 PO Box 25001 Santa Ana, CA 92799-5006 Please allow up to 4 weeks from the date of receipt for processing. Incomplete documents may delay processing. Please feel free to call (888) 222-9441 with any questions.

The instructions for the Battery reimbursement form are: Email the form and a copy of the paid invoice/warranty, battery service invoice, receipt, and test strips to: ERSRDMRRGROUP@aaa-calif.com. Counsel the member to allow up to 4 weeks from the date of receipt for processing; incomplete documents may delay processing. Members may contact Member Relations Department at 1-800-243-0594 with any questions.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

How can a member dispute their denial for an ERS reimbursement?
The ERS agent should open a CMS case for member follow-up and counsel the member to expect follow-up within 10 days.

7b909d80-93a7-4fec-bffe-86b7c76c8c10

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Effective October 14, 2024, the ACE Supervisor Line will be discontinued. For After-Hours Supervisor Overrides, contact your Local Team Override or Support Chat. Cold-transfers within ERS are not permitted within ERS. If no response within 60 seconds, contact your Local site Supervisor line. For ADA Alternate Transportation requests, Critical Incidents, and Hot Call assistance, contact Local Site Hot Call Teams or Support Chat. For ERS System Issues, contact your Local site Supervisor line. For law enforcement, media, or legal representative (including private parties who indicate they have a Power of Attorney for a member) requests for information, contact your Local Supervisor Line. Cold-transfers within ERS are not permitted within ERS.

Who should handle Hot Call ETA updates and benefit questions for out-of-territory (Call Move) calls?
The servicing Club, not ACE dispatch or ACE supervisor line.

What should be done when a member calls back on a Hot Call in an out-of-territory service (Call Move) request?
The member should be transferred or given the contact number for the servicing Club, not ACE dispatch, SRT, or ACE supervisor line.

ACE Attendance Line or Call Out Line Number Contact Number (ERS Agents)
ERS Service Representatives are required to contact the ACE Attendance Line at 800-731-6538 in the following scenarios: Absence, Late/Tardy*, Early Departure from your shift. *Late In - A second call to confirm arrival is required. When contacting the ACE Attendance Line, the following information must be provided: Employee Number, First and Last Name, Reason (ADA, FMLA, Bereavement, Jury Duty, Personal, Sick, etc.), Whether you have paid time available (Float/Flex, Sick, Vacation, etc.)

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
Affiliate clubs are Non-ACE Clubs and have different rules. Do not provide policy exception and third-party/member-not-present information to the member in non-ACE territories for non-ACE Clubs (in Call Move scenarios). If the member has questions or wants additional information, transfer to the servicing non-ACE Club.

ACE territory includes the following Clubs: CHANT, ACMO, Tidewater (TW), Northern New England (NNE) and East Central (EC). When a question is posed that includes "EC", it is limited to "East Central".

AAA stands for American Automobile Association
ACSC stands for Auto Club of Southern California
ACE stands for Auto Club Enterprises
ACE covers 21 states, some only in part.

California is divided into two territories: Club 004 (ACE club) and Club 005 (non-ACE club)
Club 004 is southern California
Club 005 is northern California AAA Mountain West Group and is a non-ACE Club

CHANT territory includes New Mexico (NM), Hawaii (HI), California (CA), and Texas (TX)
ACMO territory includes Arkansas (AR), Illinois (IL), Indiana (IN), Kansas (KS), Louisiana (LA), Missouri (MO), Mississippi (MS),
Tidewater territory includes Virginia (VA) and Alabama (AL). Alabama (AL 001) dispatching is now handled by Tidewater (258).
Northern New England (NNE) Territory includes Maine (ME), New Hampshire (NH), and Vermont (VT).
East Central (EC) territory includes New York (NY), Ohio (OH), Pennsylvania (PA), Kentucky (KY), and West Virginia (WV).

What states are included in the CHANT territory?
New Mexico (NM), Hawaii (HI), California (CA), and Texas (TX).

Which Club does Alabama (AL) belong to?
Alabama (AL 001) dispatching is now handled by Tidewater (258).

Is Texas (TX) part of ACMO or CHANT?
Yes, Texas (TX) is part of CHANT.

What states fall under ACMO territory?
Arkansas (AR), Illinois (IL), Indiana (IN), Kansas (KS), Louisiana (LA), Missouri (MO), Mississippi (MS).

Does Illinois (IL) belong to Tidewater or ACMO?
Illinois (IL) belongs to ACMO.

Which states are covered by the Tidewater territory?
Virginia (VA) and Alabama (AL) are covered by the Tidewater territory.
Alabama (AL 001) dispatching is now handled by Tidewater (258).

What states are included in Northern New England (NNE) territory?
Maine (ME), New Hampshire (NH), and Vermont (VT).

Does Vermont (VT) belong to NNE or East Central (EC)?
Vermont (VT) belongs to Northern New England (NNE).

Is New Mexico (NM) part of CHANT or ACMO?
New Mexico (NM) is part of CHANT.

Which states fall under East Central (EC) territory?
New York (NY), Ohio (OH), Pennsylvania (PA), Kentucky (KY), and West Virginia (WV).

Does Pennsylvania (PA) belong to ACMO or East Central (EC)?
Pennsylvania (PA) belongs to East Central (EC).

Is Ohio (OH) part of ACMO or East Central (EC)?
Ohio (OH) is part of East Central (EC).

Which territory includes Arkansas (AR)?
Arkansas (AR) is included in ACMO.

What Club does Maine (ME) belong to?
Maine (ME) belongs to Northern New England (NNE).

Which Club covers Hawaii (HI)?
Hawaii (HI) is covered by CHANT.

Does New Hampshire (NH) belong to Northern New England (NNE)?
Yes, New Hampshire (NH) belongs to Northern New England (NNE).

Which Club does Virginia (VA) fall under?
Virginia (VA) falls under the Tidewater territory.

Is Missouri (MO) part of ACMO or East Central (EC)?
Missouri (MO) is part of ACMO.

What states are covered by East Central (EC) territory?
New York (NY), Ohio (OH), Pennsylvania (PA), Kentucky (KY), and West Virginia (WV).

Does East Central (EC) include both New York (NY) and Pennsylvania (PA)?
Yes, East Central (EC) includes both New York (NY) and Pennsylvania (PA).

Is West Virginia (WV) in the Tidewater or East Central (EC) territory?
West Virginia (WV) is part of East Central (EC).

Which Club covers Louisiana (LA)?
Louisiana (LA) is covered by ACMO.

Is Kansas (KS) part of the ACMO territory?
Yes, Kansas (KS) is part of the ACMO territory.

What is meant when a question includes "EC" in this context?
"EC" refers to East Central territory, covering New York (NY), Ohio (OH), Pennsylvania (PA), Kentucky (KY), and West Virginia (WV).

Club 215 is East Central
Club 065 is ACMO
Club 004 is California (southern)
Club 252 is Texas
Club 258 is Tidewater (includes VA and Alabama (Alabama 001 dispatching is now handled by Tidewater (258).
Club 036 is NNE
Club 018 is Hawaii
Club 001 is Alabama
Club 601 is New Mexico

For information about membership benefits for any Club that is not listed above, ERS agents must contact the Club directly.

ACE is 004. CSAA is a Non-ACE Club, 005

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Roadside Assistance via Satellite (Project BlueSky): In partnership with Apple, this program allows motorists in rural or weak signal locations to remain with their vehicles and summon AAA help from their iPhone via satellite communication. Motorists will use the Apple satellite network to have text-based chat conversations with AAA agents at the AAA Northeast Call Center. The AAA Northeast Call Center will be the only point of contact for motorist to discuss their AAA Roadside Assistance needs. Once the AAA Northeast agent has collected the necessary information, they will create a call event and dispatch it into the AAA environment for the appropriate club to service. Calls processed by the AAA Northeast Call Center will count against the ACE member's annual allotment. Service will be facilitated for members and non-members, and all services provided are subject to provisions of service under membership or COD. If the service provider contacts ACE Dispatch for additional information about the service event, ACE dispatchers or call center agents should contact the AAA Northeast Call Center at 401-600-8238, which will appear in the FSL call comment. Motorists that are not ACE members will be informed by the AAA Northeast Call Center that they are required to pay the provider for service prior to obtaining the caller's explicit permission to set up service.

AAA Northeast (not NNE) is a non-ACE club that covers Connecticut, Massachusetts, New Hampshire (partial), New Jersey, New York (partial), and Rhode Island.

What is Project BlueSky?
Project BlueSky is a partnership with Apple that allows motorists in rural or weak signal areas to summon AAA roadside assistance using satellite communication from their iPhone.

How do motorists communicate with AAA through Project BlueSky?
Motorists use Apple's satellite network to have text-based chat conversations with AAA agents at the AAA Northeast Call Center.

Which AAA Call Center handles the requests made through Project BlueSky?
The AAA Northeast Call Center is the exclusive point of contact for Project BlueSky roadside assistance requests.

Will non-members be serviced through Project BlueSky?
Yes, non-members will be serviced through Project BlueSky, but they will be informed that they need to pay for the service upfront before any arrangements are made.

What should be done if a service provider needs more information about a service event?
ACE dispatchers or call center agents should contact the AAA Northeast Call Center at 401-600-8238, as indicated in the FSL call comments.

ADA - Alternate Transportation Requests

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The federal Americans with Disabilities Act (ADA) requires that we make reasonable accommodations ONLY for services that we would otherwise provide to non-disabled members, such as alternate transportation when a vehicle is towed.

ADA - Alternate Transportation Requests (ADA Protocol): When processing a service request for a disabled member who is requesting alternate transportation, due to an inability to get into the tow truck unassisted, ask and document responses to, "Are you (or the disabled passenger) able to get inside of the tow unit without assistance of the service provider?" If the response is no, ask, "Is someone there to assist you, or is there anyone, friend or family member we can call to provide with assistance?" If no one is available to assist the member and alternate transportation is needed, inform the member that the Club will provide transportation for them, their passengers, a service animal to the tow destination, free of charge. Service animals are not pets; service animals are trained to perform specific tasks for benefit of the owner. Notify a supervisor using your Local Hot Call Teams Chat for alternate transportation assistance and advise the supervisor that you have a mobility-impaired member who requires alternate transportation to the tow destination. The Help Desk/SRT should never be contacted for assistance with ADA transportation. If the member later calls back to cancel their request for alternate transportation, update the Feed on the service request and contact your Local Hot Call Teams to notify a supervisor.

ADA - Actions Prohibited by Club Staff: When servicing members under the ACE ADA policy, prohibited actions include, requiring service animals to wear a special tag, vest or other identification, questions about the member's disability and why the animal is needed, requests for medical documentation, requests for evidence of training certification, demonstration of the service animal's ability to perform the work or task.

ADA - Service Animal Policy: Federal law requires that service animals be allowed to ride in the Tow Truck with the member. Allergies and the service provider's fear of dogs are not valid reasons for denying access. In ADA scenarios, service providers and ERS staff are limited to the following questions regarding the service animal: "Is the service animal required because of a disability?", and, "What work or task has the service animal been trained to perform?" Service animals are not pets; service animals are trained to perform specific tasks for benefit of the owner.

Call Move – Alternate Transportation Needed - When processing a Call Move service request for a disabled member who is requesting alternate transportation, due to an inability to get into the tow truck unassisted, document the member's request in Comments. Do not contact SRT or your Local Site Hot Call Teams Chat for alternate transportation requests in Call Move territories.

Will the AAA technician (tow truck driver) wait with the disabled member until their alternate transportation (Club-arranged transportation) arrives?
Yes, the AAA technician (tow truck driver) will wait with the disabled member until their alternate transportation to transport them to the tow destination.

ADA - Alternate Transportation Requests

What does the ADA require regarding servicing disabled members?
The ADA requires that reasonable accommodations be provided, including alternate transportation if needed, when servicing disabled members.

What should you ask when a disabled member requests alternate transportation?
You should ask, "Are you (or the disabled passenger) able to get inside of the tow unit without assistance from the service provider?" If the answer is no, you should ask, "Is someone there to assist you, or is there anyone, friend or family member we can call to provide assistance?"

What should be done if no one is available to assist the member in getting into the tow truck?
If no one is available, the Club will provide transportation for the member, passengers, and any service animals to the tow destination free of charge. The member should be warm-transferred to the Local Supervisor Line for alternate transportation assistance.

What actions are prohibited by Club staff under the ACE ADA policy?
Prohibited actions include requiring service animals to wear identification, asking about the member's disability, requesting medical documentation or training certification, and asking for a demonstration of the service animal's ability.

What should be done when processing a Call Move service request for a disabled member needing alternate transportation?
Document the request in the Comments section, but do not contact the SRT or Local Site Hot Call Teams Chat for alternate transportation in Call Move territories.

What is the policy regarding service animals riding in tow trucks?
Federal law requires that service animals be allowed to ride in the tow truck with the member, regardless of allergies or fears the service provider may have.

What are the only two questions staff can ask regarding a service animal?
Staff may only ask, "Is the service animal required because of a disability?" and, "What work or task has the service animal been trained to perform?"

How should transportation for disabled members be handled?
If a member is unable to enter the tow truck, alternate transportation should be arranged by contacting a supervisor via your Local Site Hot Call Teams Chat. The Help Desk/SRT should not be contacted for ADA transportation.

What should you document when a disabled member requests alternate transportation?
Document the request in the Comments section of the service request, especially when processing Call Moves.

What happens if a service provider cannot allow a service animal due to allergies or fear?
Allergies or fear are not valid reasons for denying access to a service animal; the animal must still be allowed to ride in the tow truck with the member.

Who should be contacted for alternate transportation if needed?
For alternate transportation requests, notify a supervisor using your Local Hot Call Teams Chat about the mobility-impaired member.

Are service animals required to wear identification such as vests or tags?
No, federal law prohibits requiring service animals to wear any special tags, vests, or other identification.

Can a service provider ask for medical documentation or training certification for the service animal?
No, requesting medical documentation or proof of training for the service animal is prohibited.

What should happen if a member is in a Call Move territory and requests alternate transportation?
Document the request in the Comments, but do not contact SRT or the Local Site Hot Call Teams Chat in Call Move territories for alternate transportation requests.

What steps should be taken if alternate transportation is required for a disabled member?
Contact your Local Site Hot Call Teams Chat for supervisor assistance and follow their guidance on how to instruct and or conference the member in, and document the request properly in the service request form.

Vehicle w/Liftgate – For private passenger vehicles with liftgates, the provider will need to assess the private passenger vehicle to determine whether it is covered under membership. If the liftgate is for ADA accessibility (wheelchair), and the private passenger vehicle can be safely towed with standard equipment, it will be covered under membership in all states. Service technicians do not provide wheelchair ramp adjustments, such as stuck ramps, under membership. Vehicles with liftgates designed for towing, loading cargo, and other non-personal passenger uses may be referred for commercial service.

Can we send out service to fix a stuck wheelchair ramp?
Service technicians do not provide wheelchair ramp adjustments or repairs, such as stuck or malfunctioning ramps, under membership.

If a mbr is disabled, would they still need to meet driver at vehicle?
Yes, vehicles cannot be picked up or dropped off unattended. The only exceptions are Accident Assist and scenarios n which the situation meets the third-party present criteria. Disability alone is not a valid reason to bypass member-must-be-present-with-photo-ID requirement.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Agentforce Overview

- **Pilot Launch:** Agentforce is an AI-powered digital dispatch system designed to streamline **low/no-technology contractor calls**.
- **Purpose:** Explore replacing the current **AVD and landline process** with a digital, AI-driven workflow.
- **Participation Update:** As of **October 2025**, more than **50 service providers** are participating in Agentforce digital dispatching.

Agentforce Dispatching

- When a call is assigned to a facility using Agentforce:
    - The facility receives a **text message** with call details and a link to chat with an AI Service Agent named **Otto**.
- **Otto guides contractors** to:

1. Accept appointments
2. Provide ETAs
3. Update call statuses (e.g., ER, OL)
4. Request payments for service items
5. Submit resolution codes
6. Decline a call (if applicable)

- While this occurs, the **corresponding call in Field Service is automatically updated**.

Pilot Participants

- Initial pilot service providers:
    - **631611** – Four Body Shop and Wrecker Service
    - **144417** – Preferred Automotive & Towing
    - **631676** – Juans Wrecker and Truck Road Service
- **Note:** Additional stations may be added during the pilot.

Tracker Not Accepted Cases (NEW – Effective Nov 4, 2025)

- **Purpose:** Handle calls not accepted by Agentforce stations in a timely manner.
- **Scenarios Generating Tracker Not Accepted Cases:**
    1. Agentforce station **does not accept the call within 10 minutes** of receiving the SMS.
    2. Agentforce station **declines a call**.

Calls Not Accepted Within 10 Minutes

1. Contact the station to notify them of the pending call.
2. Once the station confirms they can provide service, **schedule the call on the Gantt** (traditional landline procedure).
3. Scheduling triggers another SMS message to the station to accept the call.
4. Advise the station to accept the call.
5. Once accepted, the call moves to **Dispatched** status.
6. **Document:** CSE name, ETA, and call the member back.

Agentforce Call Declined

1. Contact the station to confirm the decline was intentional.
2. If declined in error, follow the **call not accepted** procedure above.
3. If the station cannot run the call, follow **reroute protocol**:
    - Secure an alternate Agentforce station.
    - Schedule the call on the Gantt.
    - Confirm the station received the SMS to accept the call.
    - Document CSE name, ETA, and call the member back.

IMPORTANT:

- **Club Dispatchers must NOT place the call in "Dispatched" status** – this interrupts the Agentforce flow.
- If an Agentforce station requests Club Dispatch to clear a call, redirect them to complete the action in Agentforce.
- All Agentforce stations can **apply status times, service line items, and resolution codes**, just like full-technology stations.

Creating / Modifying an Agentforce Schedule (UPDATED)

Multi-Phone Schedule Support Enhancement

- Club Dispatchers and CSR (Contract Station Relations) can **create and modify optional Agentforce Phone Schedules** from the **Service Resource page**.
- **Steps to Create/Modify:**
    1. Navigate to the **Service Resource record**.
    2. Select **Tracker Contact** to open the associated Contact Record.
    3. Review existing schedules (active & inactive) for updates.

Creating a New Overnight Phone Schedule

- Divide overnight schedules into **two separate schedules**:
    - **Schedule 1:** Sunday, 8:00 PM – 11:59:59.999 PM
    - **Schedule 2:** Monday, 12:00 AM – 8:00 PM
- **Tip:** Hover over the info icon above the End Time field to copy/paste the 11:59:59.999 PM value.
- **Pro Tip:** Always check the **Active** box to ensure the schedule receives calls.

Reviewing / Troubleshooting Phone Schedules

- Example:
    - Technician 1: Sunday, 8:00 AM – 8:00 PM (Phone: 207-555-1212)
    - Technician 2: Sunday, 8:00 PM – Monday, 8:00 AM (Phone: 207-555-1313)
    - Technician 1 Monday schedule will not receive calls if **Active box not checked**.
- **Default Behavior:** If no phone schedule is active, calls go to the **mobile number listed on Tracker Contact Details**.

Note: Phone schedules are optional; defaults apply if schedules are not set.

Agentforce Sample Call Flow

- Detailed sample call flow illustrates:
    - SMS sent to Agentforce station
    - Chat with Otto
    - Acceptance/decline process
    - Tracker Not Accepted case handling
    - Scheduling on Gantt
    - Documentation and member callbacks

Monitoring & Updates

- The Agentforce pilot and subsequent enhancements will be monitored closely.
- Updates will be shared as new procedures or optimizations are implemented.
- Goal: explore **smarter, faster ways to serve our network**.

Allow Calls

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Calls that are Allowed do not count against the annual call allotment for the membership.

Allowing Active Calls: If a service request has not been closed or cancelled, it is an active call. When it is necessary to allow a call due to failed service, NSR (No Service Rendered), or to resolve a service issue (service recovery), service representatives may allow Classic (except Cleared calls which require a supervisor override), non-RV service requests. Plus, Premier, RV/Motorcycle allows must be elevated to SRT or your Local Team Override or Support Chat for approval. If the member is in service charge and does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

Call Allow requests for non-ACE (affiliate) members
ACE cannot allow calls for non-ACE members in non-ACE (affiliate) clubs. ERS agents may create a CMS case or counsel the member to contact their home Club. However, if an ACE member received service in or cancelled a service request from a non-ACE club and is requesting a call be allowed, create a CMS case for member relations review and follow-up.

How do you allow a call in RADAR/Salesforce (Instructions/manual function)?
In instances where you are permitted to Allow a call without seeking supervisor approval (i.e., Classic members -except Cleared calls which require a supervisor override): Find the Case Actions quick action button in the ERS Case header, select Allow from the Select Case Action dropdown, then click Next, 1. Select the Allow Flag checkbox, 2. Choose the appropriate reason from the Select Reason dropdown, 3. Add documentation (why you are allowing the request, what you advised the member, etc.), then click Next. A comment is added to the Case feed. Note: If you do not have the authority to Allow the request, the following message will display: "You are not eligible for this action". If you need Supervisor permission to Allow the call (i.e., Plus or Premier members): Seek approval from the supervisor via SRT or the Local Supervisor Line after-hours. Provide them with the ERS Case number so that they can view it and apply the Case Action. The supervisor will not be blocked from Allowing the call.

Allowing Inactive Calls: If a service request has been closed or cancelled, it is an inactive call. Allow requests for inactive calls of all member levels should be elevated for supervisor review. If a member calls back to indicate that a call on a previous date was counted against the membership in error, agents should locate the previous call, review documentation, and follow the Dispute of Call Count protocol. If the member is in service charge and does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

What is the definition of an active call?
An active call is a service request that has not been closed or cancelled.

When can an active call be allowed without counting against the membership's annual call allotment?
An active call can be allowed for Classic (except Cleared calls which require a supervisor override), non-

Allow Calls

RV service requests due to failed service (except Cleared calls which require a supervisor override), NSR (No Service Rendered), or to resolve a service issue (service recovery).

Who needs to approve the allowance of active Plus, Premier, or RV/Motorcycle service requests?
These must be elevated to SRT (Supervisor Review Team) or your Local Team Override or Support Chat for approval.

What is an inactive call?
An inactive call is a service request that has been closed or cancelled.

What should be done if a member disputes a call on a previous date that was counted against their membership in error?
Agents should locate the previous call, review the documentation, and follow the Dispute of Call Count protocol.

What are "Allowed" calls?
Allowed calls are service requests that do not count against the annual call allotment for the membership. If the member is in service charge and does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

Member has pending call and didn't get service how can we remove pending status?
An Allow should be requested via CMS unless the member needs service and an override is needed (should be requested via the SRT Override chat); supervisor override protocols apply in this scenario.

Appointment Calls

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

FS/RADAR now supports appointment scheduling by arrival timeframe instead of requiring only one exact appointment time. When a timeframe is selected, the appointment details are applied across the Case, Work Order, and Service Appointment, and the arrival-window end time is based on the selected timeframe.

Appointment Times should be offered between 10-4 PM in all ACE markets.

Service representatives can also convert an existing submitted call into an Appointment Call by using the Add Appointment action. Appointment-related SMS messages will describe an arrival timeframe rather than a single exact arrival time. KMI SMS messages for appointment calls begin based on the Service Appointment's earliest start time to prevent appointment-related messages from being sent too early when a call is converted from a non-appointment service appointment.

Contractors will receive notifications when an existing call is converted into an appointment call and when a new appointment call is scheduled.

Members requesting appointment times or timeframes outside available options should be clearly informed that the service provider may not be able to accommodate the request, and the counseling must be documented in the driver notes on the call. When the call is submitted and the service provider is assigned, ERS agents may provide the service provider's contact information for direct follow-up.

Appointment calls should never be scheduled to avoid Early Use/CAPRE or California Prepay fees, the 7-day waiting period, or other eligibility requirements. Lockout can be scheduled; Locksmith and RV tire change/towing services cannot be scheduled.

How do I look for what time an appt call was scheduled?
Appointment details can be viewed under Service Appointment, Breakdown Appointment under PTA, and Details under Case information. With Release 26.10, appointment details may display as an arrival timeframe, including a date and time window, rather than only one exact appointment time.

Appointment Calls (Time Calls): Appointment Calls may be scheduled using an arrival timeframe, such as a date and time window, instead of only one exact appointment time. A 60-minute quote should be provided when applicable. Unattended vehicles are not eligible for Appointment Calls. Appointment Calls may also be referred to as "Scheduled" calls. Agents may sometimes inquire about "scheduling" a tow or other service, which usually means an Appointment/Time Call.

What does NDTC mean?
NDTC means Next Day Time Call, or an Appointment Call scheduled for the next day.

Same-Day Appointment Calls: Appointment Calls may be created for the same day a minimum of 60 minutes into the future. The member should be advised of the arrival timeframe displayed in RADAR for the selected appointment, rather than a separate one-hour window from a single scheduled appointment time.

Future Appointment Calls – Policy Guidance

Appointment Calls

Definition - A Future Appointment Call is a scheduled roadside service request set for a date up to the number of days displayed in RADAR, not to exceed current ERS policy limits unless otherwise directed, and only in markets where appointment scheduling is available.

Eligibility and Scheduling - Future Appointment Calls may be created up to the number of days displayed in RADAR, not to exceed current ERS policy limits unless otherwise directed; however, Appointment Call scheduling may be suspended by ERS management during holiday, special event, and other events. When Appointment Call scheduling is suspended by ERS management, a separate call center notification will be sent via email to the call centers.

Membership Status and Coverage - Coverage is based on the member's status on the actual service date, not the scheduling date. Do not use future appointments to: Circumvent benefit limitations or Access upgraded benefits that are not currently active

Waiting Period for Upgraded Memberships – The standard 7-day waiting period for upgraded or enhanced membership benefits cannot be circumvented by scheduling a Future Appointment Call. Upgraded benefits are **not** available if the 7-day waiting period is still in effect **either** on the date the service is scheduled by the service representative **or** on the date service is provided. In these situations, coverage under the upgraded benefits must be denied.

Exception: Members who already have RV/Motorcycle coverage (ClassicRV or PlusRV) and are upgrading **from ClassicRV to PlusRV or PremierRV**, or **from PlusRV to PremierRV**, do **not** incur a new waiting period for their RV/Motorcycle benefits. Those benefits remain in effect without interruption and continue to provide coverage of **up to $500 per service call, up to a maximum of $1,000 per membership year, per household**.

Fee and Billing Compliance - The billing system tracks the date the appointment was scheduled, not the date of service. If the member is ineligible for benefits on the date the future appointment call is scheduled, they will be charged full price. Do not schedule future appointments to bypass fees or charges.

Communication to Members - Clearly inform the member that: Coverage is based on their membership level on the service date, Scheduling a future appointment does not alter benefit eligibility, Fees will apply if benefits are not active at the time of service. If current benefits do not cover the request, offer an appropriate alternative option.

Do not request overrides from SRT or Local Supervisor Lines to modify or escalate the member's benefit level to qualify them for unavailable services, unless there is a system error in the coverage reflected.

Alternative Service Options - The following options are available if the member's current benefit level does not cover the service: Offer an Approved Auto Repair (AAR) referral within their mileage limit, Recommend private commercial service (COD), Refer the member directly to the service provider, when appropriate. COD service referrals used to bypass benefit limits are not eligible for reimbursement

RV and Locksmith Appointment Calls: Vehicle Lockouts can be scheduled; Locksmith and RV tire change/towing services cannot be scheduled.

Appointment Calls

What is the maximum number of days in advance that an Appointment Call can be created?
An Appointment Call can be created up to the number of days displayed in RADAR, not to exceed current ERS policy limits unless otherwise directed, in available markets.

Are unattended vehicles eligible for Appointment Calls?
No, unattended vehicles are not eligible for Appointment Calls. The member or an authorized third-party with proof of member vehicle ownership must be present at the pick-up and drop-off locations, unless otherwise allowed by ERS policy or pre-approved by a member of ERS management.

What should not be done to bypass fees for Future Appointment Calls?
Future Appointment Calls should not be created to bypass fees, as the billing system will recognize the appointment date, and the member will be charged the full-service price.

What should be done if the member's current benefit is not sufficient to cover the charges for an Appointment Call?
Offer an AAR referral within the member's mileage benefit, recommend private commercial service (COD), or refer the member to the provider directly, as applicable. COD services in this scenario are not eligible for reimbursement consideration.

Appointment Calls are not available for Non-ACE breakdown locations.

Are RV Appointment Calls available?
No, RV Appointment Calls are not available for towing, locksmith, and tire changes.

Are Locksmith Appointment Calls available?
Vehicle Lockouts can be scheduled; however, Locksmith and RV tire change/towing services cannot be scheduled

Can an appointment be scheduled for battery service, jumpstarts and/or AAA battery installation?
Yes, Appointment Calls are available and can be scheduled for jumpstarts and/or BSP AAA battery installations.

What services are eligible for Appointment Calls?
Lockout, Battery service, fuel delivery, Assess/Light Service, Towing, Winchouts (extrication), Tire service (Locksmith and towing/tire service for RV services cannot be scheduled).

Adding an Appointment to an Existing Submitted Call
For an existing submitted call, service representatives may use the Add Appointment action to convert the call into an Appointment Call when appointment scheduling is available. The appointment should be scheduled using the date and arrival timeframe options displayed in RADAR. Members will receive appointment SMS updates that describe the arrival timeframe, and contractors will receive notification when the existing call is converted into an appointment call.

Changing the Appointment Call Time
Appointment Call Workflow by Case Status: For an unsubmitted case, use Schedule Appointment to update or remove the appointment date/timeframe. For a submitted non-appointment call, use Add Appointment to convert the call into an Appointment Call when appointment scheduling is available. For a submitted appointment call, use the Member Callback Button to request a new appointment timeframe. After the ERS Case is submitted, the PTA will reflect the appointment information.

Appointment Calls

What hours should Appointment Calls (time calls) be offered in ACE states?
Generally, Appointment Calls (time calls) should be scheduled between 1000 and 1600 in all ACE markets, subject to market variances based on availability, network limitations, and inclement weather/local area events. Please check availability in RADAR.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Extrication – Extrications (winch outs) will be provided to valid Classic members at no additional charge using one (1) driver and one (1) truck. Extrications will be provided to valid Plus and Premier members using up to two (2) trucks and two (2) drivers; the member guide does not indicate a specific time limit for this process. Under RV/Motorcycle coverage, RVs and motorcycles are covered for extrication services up to the per call benefit limit of up to $500 per disablement and up to $1000 per household per membership year. If our members' vehicle is stuck in mud, sand, or stuck in a ditch, or if our member has driven their vehicle over and is stuck on a curb, house/home, building, or other barrier/object, and it can be reached at a safe distance from a normally traveled road or established thoroughfare, it can be extricated or winched. The driver will assess whether vehicle can be safely extricated from unpaved road or surface under membership upon arrival.

Upside-down vehicle/Vehicle on its side, over the side of a freeway or road. Extrication service will be provided for vehicles that are on its side or upside down (accident or collision-related); select "Extrication" as the service type.

Extrications will not be provided for commercial equipment or vehicles, tractors or farm equipment, construction equipment and similar vehicles.

Do I have to quote a members extrication policy each time I process an Extrication service request?
Yes, when RADAR prompts agents to provide information to the member during call processing, it should be provided.

If a vehicle has rolled over (overturned, tipped over, on its side), extrication and/or towing can be provided under a valid membership, or if the member is a AAA-insured, service can be provided under Accident Assist.

Can we tow vehicles that are partially submerged in water?
There are two (2) scenarios: Determine whether the member is still inside the vehicle. If the member is inside the vehicle and reports that water is entering the vehicle and they indicate they are unable to safely exit, immediately treat the situation as a Hot Call. Follow all Hot Call protocols, as the member's safety takes priority over determining membership coverage.

If the vehicle is partially submerged but there are no partis inside the vehicle, per the Extrication Policy, a vehicle must be accessible from a normally traveled, paved public roadway. Please note, under membership, the service technician will not enter a river, lake, beach, or any other body of water to attach or retrieve a vehicle.

If the member reports that the vehicle is partially submerged and it is unclear from the information provided whether the vehicle is accessible or whether retrieval would require entering a body of water, advise the member that:

- The service technician will assess the scene upon arrival to determine whether the service is covered under membership.

- If the vehicle cannot be safely or legally recovered under the terms of the membership, the member may be responsible for Cash on Delivery (COD) charges for the recovery.

Not Covered Under Membership
Extrication of vehicles that are snowbound or flooded on streets, driveways, parking lots, or alleys is not covered under AAA membership when recovery requires removing the vehicle from standing water or from a body of water into which the service technician would have to enter (including river, lake, or beach).

Key Principle: Member safety always takes precedence. When a member is trapped in a vehicle taking on water and cannot safely exit, treat the incident as a Hot Call first. Coverage and billing determinations are addressed only after the emergency has been stabilized.

In snowy/icy conditions, snow or ice must be shoveled from around the vehicle prior to service being rendered; after extrication, towing may be provided in this scenario will be limited to disabled vehicles, not because the member does not wish to drive an operable vehicle in winter conditions.

Can a non-commercial vehicle or truck with a plow attached be extricated?
yes, extrication services may be provided for a non-commercial vehicle or truck with a plow attached; however, the technician will assess to see whether the attachment must be disconnected prior to receiving service. If the non-commercial vehicle or truck with a plow attached also requires towing, the attachment must be disconnected prior to towing.

What type of extrication services are available for Classic members?
Classic members are entitled to extrication services (winch outs) at no additional charge, using one driver and one truck.

How many trucks and drivers are provided for Plus and Premier members during extrication?
Plus and Premier members are provided with up to two trucks and two drivers; the member guide does not indicate a specific time limit for this process.

What is the coverage limit for RVs and motorcycles regarding extrication services?
RVs and motorcycles are covered for extrication services up to $500 per disablement and up to $1,000 per household per membership year.

In what situations can extrication services be requested for a member's vehicle?
Extrication services can be requested if the vehicle is stuck in mud, sand, in a ditch, or on a curb or other barrier/object, provided it can be reached at a safe distance from a normally traveled road or established thoroughfare.

What determines if a vehicle can be safely extricated?
The driver will assess whether the vehicle can be safely extricated under the member's coverage upon arrival at the scene.

Is there any additional charge for extrication services for Classic members?
No, Classic members receive extrication services at no additional charge.

Can extrication services be requested for vehicles that are not reachable from a normally traveled road?

No, extrication services can only be provided if the vehicle can be reached at a safe distance from a normally traveled road or established thoroughfare. The driver will assess whether vehicle can be safely extricated from unpaved road or surface under membership upon arrival.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

SQM is an acronym for Service Quality Manager, usually referring to a Dispatch Supervisor or supervisory function.

Questions and/or requests for assistance with Club System Issues should be referred to your Local Supervisor Line (see below). Do NOT contact SRT.

System issues include, but are not limited to issues with Avaya Desk Phone, Credit Card Terminal, Desktop Computer, FSL/RADAR, Headsets, MRM, Softphone, etc.

Field Service Lightning (FSL) is the Salesforce application that is also referring to RADAR and Field Service. These terms are often used interchangeably.

If a problem occurs with a telephone connection when a call is delivered or while speaking with a member, the agent should make every attempt to call the member back. In addition, if an agent experiences any technical issues with their phone while speaking with a member, the agent must notify a supervisor immediately and document the issue(s) in the system (MRM Portal Member Notes). "Hanging up", "disconnecting", or "releasing" a call on a customer (member, service provider, employee, or vendor) is never acceptable under any circumstances and may result in immediate termination.

AAA App
The AAA app is a member-facing app; if a member is having technical issues or has concerns about the app, they should be referred to MSC. ERS is unable to assist with AAA app issues.

RADAR/FSL Issues
For assistance with RADAR/FSL functionality issues, please contact Local Supervisor Line.

MRM Portal Issues
For assistance with MRM Portal, please contact Local Supervisor Line.

Microsoft Teams Issues
For assistance with accessing Teams, please contact Local Supervisor Line.

Password Issues
For password-related issues with any ERS system, please follow established ERS protocol and/or contact Local Supervisor.

Network Issues
For network-related issues, please follow established ERS protocol and/or contact Local Supervisor.

ERS Equipment Issues
For Equipment issues, please contact Local Supervisor Line.

Softphone Issues
For Softphone issues, please contact Local Supervisor Line.

Help Desk Database Issues (Supervisors Only)
For Help Desk Database/CMS issues, please contact Barry Belcher, Bobby Gonzalez, Maria Cornejo, Hailey Kessworth.

Local Supervisor Lines are as follows:

ACMO (314) 523-7350 (X 1266700), Open from 0530-2300 (CST)

NNE (207) 780-6926, Open from 0600-2300 (EST)

California (562) 497-7030 or (818) 562-8534, open from 0600-2300 (PST)

EC Pittsburgh (412) 365-7010, open from 0600-2300 (EST)

Texas (469) 221-7401 (open 24/7)

EC Independence (216) 606-6192, open from 0600-2300 (EST)

How can I clear Workbench in MRM Portal?
On the MRM tab navigation at the top of the screen, select Workbench, then scroll to the bottom right and select Close.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member's financial institution processing times may vary.

Billing Dispute – ERS: When a member indicates they were charged incorrectly for ERS services or they were sent a bill in error, locate the related call and review the call notes. If the member needs service and it can be readily determined that they were charged in error, request a Call Allow by a Supervisor/Manager/SRT for the call that should not have counted. If it cannot be readily determined that they were charged error, or an attempt to explain the ERS bill is unsuccessful, create a CMS case for review, and inform the member their concerns will be elevated and to expect follow-up within 10 business days. ERS agents should document the member's concerns and their findings, if any, and elevate the call for supervisor review in CMS. If the member is in service charge and service is needed, but it cannot be readily determined by the agent that they were charged in error, the Service Charge must be paid prior to processing service request, and the member's concern elevate for follow-up. If it is later determined that the service charge should not apply, the service charge will be refunded to the member.

If the member is in service charge and does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

Member Payment Receipt Requests (ERS, Service Charges, Early Use Fees, CAPRE/California Prepay) MRM Processed Payments

For ERS bills, service charges, early use fees, or CAPRE (California Prepay) payments processed in the MRM Portal, receipts may be emailed to the member at the time of payment (excluding AAA battery and roadside purchases).

Procedure:

- In the **Process Membership Payment** screen in MRM Portal:
    - Verify the member's email address on file.
    - Select **Email Receipt** prior to submitting the payment.

Restrictions:

- Receipts cannot be generated or resent in MRM after the payment has been processed.
- If a member requests a receipt after the transaction is completed, an **CMS case must be opened for Member Relations follow-up**.

AAA Battery / Roadside Purchases

- AAA battery purchases completed through a **BSP technician or BSPAAR repair facility** include an invoice or sales receipt provided at the time of service.
- If the member does not provide an email address, the provider should issue a written receipt.
- If a physical receipt is requested but not available, the member should be advised to contact the servicing station directly for assistance.

What if the member is requesting a copy of a receipt for services provided at roadside, and the contract station nor the service technician can provide the receipt?

If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

Why did the member receive an interim bill?
An interim billing notices are sent when an adjust that reflects an adjusted amount due

The member wants to make a split payment, with partial check and partial credit/debit card. What do I do?
Split cannot be processed by ERS agents, the member should be transferred to Member Services for this transaction.

The member is in service charge but needs assistance. What steps should I take?
Inform the member that the service charge must be paid before processing their request for service. If they are disputing calls or a bill, create a CMS case and elevate their concern for follow-up. However, in this scenario, the service charge must be paid to receive service.

The member wants to know if they will get a refund if the service charge shouldn't apply. What should I do?
Confirm to the member that if it's determined the service charge was applied incorrectly, a refund will be issued.

How do I handle the timeline for resolving the billing dispute?
Communicate to the member that they can expect a follow-up within 10 business days.

The member requests to speak directly to a supervisor about the billing issue. How should I respond?
Contact the escalations line or you local supervisor line when the Help Desk is closed. Do not proactively offer a transfer to the supervisor.

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?
If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

How many roadside assistance entitlements are W Insurance (formerly Wawanesa) policyholders allowed?
W Insurance (formerly Wawanesa) customers are entitled to a maximum of two (2) roadside assistance service requests per policy term, per vehicle covered; service will only be provided for the vehicle listed. When the two (2) calls have been used, offer a referral for COD. Be sure to review the RA Count before processing the call to determine current eligibility.

If a member refuses to pay the service provider for the over mileage (overage), fuel, RV/Motorcycle overage fees or other fees due that are valid and payable after the service is complete?
If a member (or other individual who received service on the member's vehicle) refuses to pay the service provider at roadside and contacts us at the time of service to indicate refusal, the call must be escalated to the SRT escalation line. If the service provider contacts an ERS agent regarding a refusal to

pay, the agent should warm-transfer the provider to the ERS Help Desk for further handling. If the fees are determined to be valid and the member still refuses to pay, SRT will elevate to SIU.

Can payment be reversed for a membership payment processed in error, such as a double charge for the membership fees?
Yes, however, the member would need to be transferred to Member Services (MSC).

Why is there a bill for the adult associate if they were removed and received service after being removed?
Member receives a bill because the household member used the membership and incurred the charge(s) prior to being removed from the membership.

How do I determine the reason for an ERS bill in MRM?
Agent should review ERS Receivables and call history to determine the reason for the bill

How long does it take for delinquent accounts to go into collections?
For a UPC charge (received service during grace period but did not renew), the billing timeline is about 42 days before it is referred to Collections. For a 5th call service charge, it's about 72 days.

If member already paid a billable call that was unpaid and went to collections, and later receives another collection notice for the same unpaid bill or a new unpaid billable call?
The ERS agent should create a CMS case for member Relations review and follow-up with the member.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

General car rental Policy:

Premier members are entitled to one free one-day rental per household, per membership year. Classic Members are Entitled to a discounted rental rate from Hertz and Enterprise. Plus Members are Entitled to a **discounted rate** and a **free upgrade** (if available) from Hertz and Enterprise.

Car Rental Setup Instructions:

- A car rental can be reserved in RADAR during the initial call processing using the Rental tab for all ACE states. If the member calls back to reserve a rental after the tow is completed, locate the Case and select the Rental tab to complete the reservation; reservations for all benefit levels must be made within 2 days (48 hours-not calendar days) of the tow completion time. Do not create a dummy service request in lieu of retrieving the related service request and processing the rental from the Rental tab.

Timeframes Example:

- Tow completed: 04/27 at 3:00 PM
  Eligible through: 04/29 at 3:00 PM
  Request on 04/29 at 2:59 PM = Eligible
  Request on 04/29 at 3:01 PM = Not Eligible
  Request on 04/30 = Not Eligible

The phrase “48 hours – not calendar days” is technically correct, but models sometimes generalize “within 2 days” incorrectly. Do not count by calendar dates. Count exactly 48 consecutive hours from tow completion time.

Example: Tow completed 04/27 at 10:00 AM → reservation must be requested by 04/29 at 10:00 AM. Requests on 04/30 are ineligible.”

Q: “Tow completed 06/27. Rental requested 06/30. Eligible?”
A: “No. 06/30 exceeds the 48-hour eligibility window.”

Premier Members are Entitled to a free one-day rental pre household, once per membership year within their home Club territory when renting from Hertz and Enterprise, used in conjunction with a covered Premier tow. After using the one-day rental, Premier members only receive a discounted rate and free upgrade (if available). The member may still be responsible for **taxes and fees** associated with the rental. However, when in service charge (after all allotted calls are used), the Premier membership defaults to Classic benefits, and the Premier rental benefit is no longer available until renewal.

Rental Requirements and Processing:

- Rental Agency Requirements:
  - Member must meet the rental agency's age requirement (check the dialog in RADAR).
  - Member must have a valid driver's license and a credit card in their name.
  - The rental agency may require a deposit.
- Processing the Rental:

    - ERS agents must process the reservation for the member in RADAR.
    - ERS agents must provide the confirmation number, agency address, and contact number to the member.
    - The ACE roadside rental rates for Hertz and Enterprise in RADAR are not available if the reservation is made at the retail rental counter; when a member is not receiving a tow under membership but is interested in a rental, AAA member discounts are available at the Hertz counter with a AAA membership card is shown; however, Enterprise car rental does not offer AAA discounts at their retail counters to AAA members.
- RADAR Rental Details:
    - Car rentals reserved through RADAR must be in conjunction with a tow request.
    - Hertz and Enterprise may offer pick-up service or transportation to their agency when a reservation is made.
    - Members should be referred to contact the specific rental agency location to arrange pick-up or further transportation.

Additional Rental Scenarios and Clarifications:

- If a Member Requests to switch Rental Agencies After Reservation has been made: The member must contact the rental agency directly to cancel or modify the reservation; the membership number and/or name on the reservation cannot be changed. ERS agents make
- Call center agents should proactively offer to set up a car rental with all eligible tow requests
- The premier one day free rental may not be immediately restored to the membership; premier members may only be eligible for Plus benefits.
- The member requesting service must be the person who appears at the rental counter to complete the reservation.
- Rental Pricing (cost) Information:
    - Rental pricing (cost) for reservations facilitated by ERS agents can be found using the Rental tab in RADAR. If the member wants to know the savings, the pricing will appear in the rental tab when the breakdown location is entered and the agency selected.
    - ACE roadside rental rates do not apply if the rental is arranged directly at the rental agency by phone or at the rental counter by the member (leisure car rentals); Hertz offers AAA members discounts on car leisure rental when a AAA membership card is presented. Enterprise car rental does not offer AAA members discounts on car leisure rentals,
- Car Rentals Without a Tow Request (also known as car leisure rentals):
    - Without a tow request, members must contact or visit Hertz (offers discount) or Enterprise (does not offer discount) locations directly; ERS agents cannot facilitate reservations without a covered tow.
- Use with RV or Motorcycle Tows:

    - The car rental benefit, including the Premier one-day free rental, may be used in conjunction with a covered RV or motorcycle tow; if the once per membership year-per household one day free rental was previously used within the membership year, the Premier benefit will be limited to a discount and free upgrade, if available. If the member is in service charge, the rental benefit will be limited to a discount.
- Out-of-Territory Rentals:
    - Car rental reservations should not be made in RADAR for locations outside of ACE territory; if the member requests rental assistance, offer the phone number or transfer to the servicing Club.

Service Charge Situations:

- When a Premier Member is in Service Charge:
    - Premier members who have used all allotted calls are considered in service charge and default to Classic benefits.
    - The Premier one-day free rental benefit is not available while in service charge.
    - The benefit resumes upon membership renewal at the Premier level.
- Clarification:
    - If the member has used all 4 calls, they cannot receive the free one-day rental benefit until they renew their Premier membership.

Summary:

- One free one-day rental is available per household, per membership year, under the Premier membership and only in conjunction with a covered tow.
- Rental must be processed within 2 days (48 hours-not calendar days) of tow completion time via RADAR.
- Members must meet rental agency requirements and follow outlined procedures for processing or changing reservations.

How do I set up a car rental?
A car rental can be reserved in RADAR by selecting Rental tab in the Case; reservations must be made in RADAR within 2 days (48 hours-not calendar days) of the covered tow completion time.

If a member sets up a rental but doesn't pick it up, will it count as used?
No, any unused benefit will be restored to the membership if it is not redeemed at the rental counter. However, the free day rental credit may not be immediately available and may take up to 5 days.

Car Rental Benefits: Classic members are entitled to a Discounted Rate on rental from Hertz and Enterprise. Plus members are entitled to a Discounted Rate and Free Upgrade, if available, on rental from Hertz and Enterprise. Premier members are entitled to a Free one-day rental once per membership year

(home Club territory only), on rental from Hertz and Enterprise, in conjunction with one of their annually allotted calls; after the one-day free benefit has been used, the premier member is only eligible for a free upgrade and discounted rental. The one-day free rental is not a separate benefit and must be used in conjunction with a covered Premier tow.

Rental reservations facilitated by ERS agents in RADAR are only available in conjunction with a covered tow. Members must meet the rental agency age requirement (check the dialog in RADAR) and have a valid driver's license and credit card in member's name. The rental agency reserves the right to require a deposit. ERS agents must process reservation for member, provide the confirmation number, address and contact number for the agency. Reservations must be made within 2 days (48 hours-not calendar days) of tow completion time; after that period, the member is ineligible for an ERS-assisted rental at special member pricing. The ACE roadside rental rates in RADAR are not available for reservations made at the rental counter; AAA member discounts are available at the Hertz (not Enterprise) counter by showing a AAA membership card. Questions about vehicle availability, additional days and other rental-related concerns should be referred to the agency.

Hertz and Enterprise may offer pick-up service and transportation to their rental agency when a member has a reservation. ERS agents should refer the member to contact the specific location to make rental arrangements.

The car rental benefit may be used in conjunction with a covered RV or Motorcycle tow. This includes the Premier rental benefit.

Member has used all 4 calls. Can they still get the free one-day rental in service charge? No, the Premier one-day free rental is only available in conjunction with one of their annually allotted Premier calls. When the member is in service charge, the Premier rental is not available, as the membership defaults to Classic until the renewal.

Can we set up car rental when an ACE member is in non-ACE territory (Call Move calls)? No, rental should not be offered during service requests that qualify as Call Move calls (outside of ACE territories). If an ACE member or non-ACE member is in Call Move territory, and they are requesting rental information in conjunction with a covered tow, they may be provided with the contact number or transferred to the servicing Club.

When an agent in a time zone different makes a rental reservation for a member, what time zone will the reservation be in in RADAR? The reservations time zone follows the time zone on the service request (for the breakdown location). When a member is requesting roadside service for a rental vehicle, third-party present exceptions will not be made; the member must be present with photo ID for all services.

What do I do if I am searching using the RADAR car rental tool and no Hertz or Enterprise locations are showing? When no rental locations appear in the Car Rental tool, try expanding the radius of the search area for locations

The length of a rental is not generally limited and is subject to the rental agency’s terms and conditions. If a member requests multiple days at the time of reservation, ERS agents should create the reservation

for the number of days requested, as permitted in RADAR/Salesforce. If the member chooses to modify the reservation after completion, they must contact the rental agency directly.

Premier members requesting multiple rental days are entitled to the one-day free rental benefit on the first day only, if the benefit is available. Reimbursement may be considered for ACE Premier members only if the breakdown occurred within ACE territory, the tow was covered under the Premier membership, no service charge applied, and the one-day free rental benefit was available at the time of the request and had not already been used during the applicable membership year.

Rental reservations cannot be canceled, modified, or edited in RADAR. If a member needs to change the rental agency, adjust rental dates, cancel the reservation, or make any modifications after the reservation has been completed, they must contact the rental agency directly.

The name on the reservation follows the AAA towing request and cannot be changed to another person.

If a member requests multiple rental days at the time of booking, ERS agents should create the reservation for the number of days requested, as permitted in RADAR. Any changes after completion must be handled directly with the rental agency.

ERS agents must process rental reservations in RADAR within 2 days (48 hours-not calendar days) of the covered tow completion time. Agents are responsible for providing the members with the confirmation number, rental agency address, and contact number. Rental pricing for reservations facilitated by ERS agents can be found in the Rental tool within RADAR once the breakdown location and agency are selected. ACE roadside rental rates displayed in RADAR do not apply to reservations made directly at the retail rental counter. AAA member discounts are available at the Hertz counter (not Enterprise) when a valid AAA membership card is presented; Enterprise does not offer AAA discounts on car rentals when a member initiates a reservation on their own without a covered tow service.

If a AAA member contacts Enterprise car rental directly for a rental, AAA discounts are not offered at the rental counter.

Roadside rental reservations are available only when a member has a covered tow under their membership. The rental benefit is tied to the membership level and is subject to the applicable daily maximum and duration limits outlined in the members' plan.

The rental must be associated with the same vehicle that was towed and must be processed within 2 days (48 hours-not calendar days) of the covered tow completion time. Members are responsible for any costs exceeding their coverage limits, including additional rental days, vehicle upgrades, optional protections, taxes, fees, and fuel charges.

Coverage does not extend to non-covered tows, non-member vehicles, or situations that fall outside membership eligibility guidelines.

Can ERS agents arrange a rental without a tow?
No. Without an existing towing request, members must contact or visit Hertz or Enterprise Rent-A-Car retail locations directly to arrange a reservation. ERS agents cannot arrange rentals in RADAR when there is no qualifying tow.

Do rental benefits apply to members from other clubs?

There are two scenarios: When an affiliate Club member (non-ACE member/members from other clubs) requests rental assistance in ACE territory, rentals cannot be processed in RADAR; ERS agents are unable to assist with reservation in ACE territory for non-ACE members. When an ACE or affiliate club member is in non-ACE territory (Call Move scenarios), rentals cannot be processed in RADAR; for non-ACE territory breakdown locations, the member may be transferred to the non-ACE servicing Club for more information.

If I experience system issues with the Rental reservation tab, what should I do?
If system issues prevent the ERS agent from completing a rental set up, they should contact the preferred rental company with the member on the line to assist the member in setting up the reservation with the rental company, identify yourself as a AAA call center agent assisting a member and remain on the line; do not cold transfer the member or contact SRT or the ACE Supervisor Line.

How do we check if a Premier member has used their free rental day? The premier rental checkbox will appear in RADAR on the rental tab if the rental is available. Alternatively, check MRM to confirm whether the Premier One-Day Free Rental benefit has already been used.

What do I do if I am trying to book a Hertz rental in RADAR and it's saying code is not recognized. What should I do?

1. Verify ACE territory – Rental reservations should not be made in RADAR for locations outside of ACE territory. If the member is in a Call Move (non-ACE) territory, you cannot process the rental — provide the contact number or transfer to the servicing Club.
2. Verify ACE Membership - Rental reservations cannot be made for non-ACE members in ACE territory.

ERS reserved the car rental for the member in conjunction with a tow, but the member called back and indicated the car rental location does not have any vehicles available, how do I handle it?

In this scenario, contact the preferred rental partner/agency with the member on the line and attempt to facilitate a reservation on the member's behalf. Provide the confirmation number and let the agency representative know the member is having difficulty locating an available vehicle and allow the member to discuss options. Changes to the reservation are not available in RADAR and must be handled directly with the rental partner. If the agency is unable to locate a vehicle for the member, the member will need to locate available rental services independently.

Overview

These guidelines are intended to establish a consistent and secure method for employees to identify themselves when interacting with external parties, including members, vendors, service providers, Club partners, and other third parties.

When a request for identification is made during the course of call processing, employees must provide sufficient information to identify themselves, while protecting employee privacy and personal safety.

- Employees should identify themselves using their first name and assigned employee identification number (or other approved unique identifier).
- Unless otherwise required by Club policy, employees are **not required to disclose their last name or full legal name** to external callers.

This approach allows callers to reference the interaction and employee involved while minimizing unnecessary disclosure of personal information.

Identification Protocol

Standard Identification

When an external caller requests an employee's name or identifying information, the employee should provide:

- First name
- Agent Employee ID or other approved unique identifier

Approve Phrasing

" My first name is Jordan, agent 477281."

Requests For Last Names

If a caller requests an employee's last name, employees should politely explain that company policy does not require disclosure of last names.

Approved Phrasing

"I'm happy to provide my first name and agent identifier. For privacy and safety reasons, employees are not required to provide their last names. My first name is Jordan, agent 477281."

Escalated Requests

If a caller insists on obtaining additional identifying information or states that there is a legal requirement for such information:

- Do not provide a last name unless expressly authorized.
- Escalate the interaction to a supervisor or manager.
- Document the request according to established procedures.

Suggested Phrasing

“I’d be happy to connect you with a supervisor. Would you mind holding for a moment while I contact them?”

Supervisors are responsible for evaluating requests that may have legitimate legal, regulatory, or business justification.

Prohibited Disclosures

Employees should not disclose:

- Home address
- Personal phone number
- Personal email address
- Full legal name or that of other ERS Call Center employees (unless authorized)
- Any other personal information not required for business purposes

Scope

This policy applies to all ERS call center employees who interact with:

- Members
- Vendors
- Service providers
- Club partners
- Legal representatives
- Government agencies
- Other external parties

Responsibility

Employees are responsible for following this policy during all external interactions. Supervisors and managers are responsible for addressing exceptions and ensuring compliance with applicable legal and business requirements.

If you have any questions, please reach out to a member of your local management team.

CMS

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

What is CMS? The Comment Management System (CMS) is an application on the ERS Salesforce platform dedicated to tracking member feedback. This common platform provides:

There are four (4) CMS Case Types: Compliment, Complaint, Membership Issue, Reimbursement

Create a CMS case for one of the following reasons: Complaints regarding their ERS experience (if unable to resolve), A Compliment about an ERS employee or service provider, a Membership issue (such as a call count dispute, ERS Fees, ERS related bills, Reimbursement Case Updates, requests to have a paper form mailed and status updates on the form, Service Verification Case Updates,

Access CMS by clicking the Create CMS Case Button at the top of the RADAR screen or New in cases under the account. A CMS form will open so the user can finish creating the case; when you submit the form, a CMS case is created.

If the member needs a paper form mailed to their address: Find the member's account, Create a CMS Case, Under Type, select Reimbursement, Under Event Category, select Battery , Warranty or Out of Pocket Expense, Enter "Paper Form Requested" in the description., Click Next.

Can ERS agents make updates to CMS cases?
That depends: If a member wants an update to an existing CMS or to add information to an existing CMS case, ERS agents should contact SRT on the member's behalf. If a CMS case is being created, the information provided by the member should be documented when the case is created by the ERS agent.

CMS Complaint Categories are as follows:
AAR/CCC: Any complaint regarding an AAR or Car Care Center (CCC).

Battery: Any issue pertaining to battery warranty. Also includes damage caused by a battery installation or Jumpstart. If the member's issue is in relation to a failed jumpstart or a facility was unable to provide a jumpstart, enter the issue under facility.

Call Center Agent: Any issue pertaining to the member's interaction with a AAA employee.

Damage: Any Damage issue regarding property or vehicle damage as a result of service. Do not place damage under Facility. Battery damage can be entered under damage or Battery Event Categories.

Facility: Any issue pertaining to the member's interaction with the facility during service.

System Issue: Any issue the member may have had with AAA technology while requesting or waiting for service.

Questions about CMS that cannot be answered using this resource should be referred to the SRT Question Line or the local supervisor chat

Member wishes to complete a roadside service survey (customer feedback) regarding a complaint or compliment; what do I do as an ERS agent?
ERS agents are unable to generate a survey if a member wishes to complete a roadside service survey (customer feedback) regarding a complaint or compliment. However, ERS agents can complete a Complaint or Compliment using the Member Callback dialog; a CMS case will be created.

What do I do if the member reports that their vehicle was damaged by a AAA service provider outside of their home club territory? Who should they report the damage to?

ERS agents should offer the service provider's contact information, if available; if the member declines or the information is not available, create a CMS case for Member Relations follow-up.

Step-by-Step Guide: How to create a CMS Case

Step 1: Determine if a Case is Needed

Before creating a case, check if one already exists for the member:

Create a case if the member's issue is:

- **Complaint:** Issues with ERS service experience.
- **Compliment:** Recognition of an ERS employee, AAR, or service provider.
- **Membership Issue:** Call count, ERS fees, or ERS-related billing issues.
- **Standard Reimbursement:** Member wants an update or a paper form mailed.
- **Battery Warranty Reimbursement:** Paper form needed; if no existing case, create new.
- **Service Verification:** Paper form needed.
- **Closed Case Status:** If an existing case is **closed**, create a new case

Step 2: Access CMS

CMS can be accessed in **RADAR** or **FS**:

1. **Callback Box:**
    - When receiving a callback in RADAR, a box prompts for the reason.
    - If you select a CMS case type, the CMS form opens automatically.
2. **Create CMS Case Button:**
    - Click **"Create a CMS Case"** at the top of the RADAR screen to open the CMS form.

Step 3: Fill Out Account Information

- If creating a case from an existing account or case, fields auto-populate.
- If no account exists, manually enter the **member account information**.

Step 4: Fill Out Event Details

Categorization fields determine routing and processing of the case:

- **Type:** Select the type of case (Complaint, Compliment, Membership Issue, etc.).
- **Event Category:** Select the main category of the member's issue. (Do not inform the member if creating an SIU case.)
- **Event Subcategory:** Further specifies the issue within the Event Category.
- **Key Type:** Required for some subcategories to determine proper processing.

Step 5: Add Additional Information

- **Email:** Verify or collect the member's email for automated updates.
- **Phone:** Verify the member's phone number for contact.
- **Subject:** Back-end use only; no entry needed.
- **Description:** Add any extra information not captured in the categories.
- **AAR Issues:** Include **AAR name** and **City/State**. If no work order exists, open the case from the account.

Step 6: Resolve Issue Box

For **complaints**, indicate if the issue was resolved:

- **Yes:** Issue resolved with the member. Case is created automatically in **Closed** status.
- **No:** Case requires further processing. Case is created in **New** status and routed based on Type, Event Category, and Event Subcategory.

Also, select the **member's contact preference**.

Step 7: Submitting Updates on Existing Cases

- If the member requests an **update** on an existing case, create a **new case** and note the update in the details.
- If the member requires a **paper form**, create a new case under **Reimbursement** and select the appropriate option.

If a RADAR case is not available or there is no RADAR case because the member/caller is not currently requesting service, how do I file/create a CMS case?

In this scenario, to create a CMS, first create a new ERS request and document the reason the member/caller is calling, before selecting Create CMS Case in the upper right of the RADAR screen; don't forget to Cancel the RADAR service request once the CMS case is completed.

What if the Create CMS Case option does not appear?

This generally means that the call is not completed. To document a compliment, select the Member Callback option, then select Compliment to create the CMS case.

Member has an open CMS case and is asking for two service calls be allowed since driver impounded vehicle after they were not present at drop off. What can I do?

As an ERS agent, in all cases, when a member is calling back regarding an open CMS case, regardless of the reason for the case, transfer the member to SRT for further assistance.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding. Look for suggested phrasing, when applicable

If the member has an internal cellphone number, ask for the country code and full phone number. To contact the member back at an internal cellphone number, dial 011+number member provided.

Callbacks: Callbacks are scenarios in which a member calls back after their initial request for roadside assistance. Reasons for callbacks may include but are not limited to requests for ETA or cancellation of service, updates to service request details, and questions about services or membership.

Missing Vehicle: If a member calls back and indicates their vehicle was picked up by a AAA technician under membership but did not arrive at the tow destination to complete the service, Escalation protocol applies. The member should be warm-transferred to SRT for assistance with locating the vehicle.

ETA Updates: An ETA is the estimated time of the technician's arrival to the breakdown location. Process the ETA update request in the RADAR Member Callback dialog and counsel the member that an update has been requested. If the member is requesting supervisor escalation due to a service delay, warm-transfer the member to the SRT or your Local Supervisor Line.

ETA Complaints (Active Calls): if a member is upset about the ETA provided, is experiencing a long service delay, or the ETA has expired and the provider still has not arrived, Apologize to the member for the inconvenience, request an update using the Member Callback protocol (see knowledgebase for suggested phrasing); if the member requests escalation, contact SRT or your Local Supervisor line for further guidance.

ETA Complaints (completed/cancelled calls): When a member requests to file a formal complaint on a completed/cancelled call, apologize to the member for the inconvenience. if the member still wishes to file a complaint: Offer to file a report with management for follow up with the service provider and inform the member the complaint will be handled by the responsible party. Open a CMS case per existing ERS protocols and counsel the member that a supervisor will follow up with them.

Hot Call Callbacks: When a member calls back on an existing Hot Call, transfer the member to the your Local Supervisor Line for additional assistance.

What are callbacks in the context of roadside assistance?
Callbacks refer to situations where a member contacts again after their initial request for roadside assistance, often for reasons such as requesting an ETA, canceling service, or providing updates to their service request details.

What should you do when a member requests an ETA update?
Process the ETA update request in the RADAR Member Callback dialog and inform the member that an update has been requested.

How should you handle a member requesting supervisor escalation due to a service delay?
Warm-transfer the member to the SRT (excluding Hot Calls) or your Local Supervisor Line for further assistance.

How should you respond to a member calling back on an existing Hot Call?
Transfer the member to your Local Supervisor Line for additional assistance with their Hot Call request.

What might members inquire about during callbacks?
Members may inquire about ETA updates, cancellation of service, changes to their service request details, and general questions about services.

How to I change the service type if the member calls back to request a totally different type of service after the call has already been submitted in RADAR? Do I cancel the previous call and start a new request?
No, the call should not be cancelled simply because the member is changing the service type. Agents should use the Member Callback function for all callbacks, and in the case of a service type change, document the new details in the Case Feed to ensure the provider sees the information.

During a member callback on a live service request, if the ERS agent determines that the requested service is not covered under the membership, the agent should:

1. Inform the member that the service cannot be provided under membership.
2. Use the Member Callback function in RADAR to cancel the service request.
3. Offer a COD referral using the Reroute tool as an alternative.

Mbr states vehicle towed by us for police but I can't find the SVO in system. What do I do?
That depends, was the vehicle towed today or a different day in the past? PA calls are Public Agency calls, which are initiated by law enforcement agencies (including police, highway patrol, sheriff, etc.) who are requesting roadside assistance on behalf of a member. If a member states their vehicle was towed today by AAA for a police agency (i.e., a PA call), but you cannot find the service order (SVO) in the system, escalate the call to SRT for further assistance. If the vehicle was towed in the past, create a CMS for follow-up.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Courtesy Service is service that is provided at no charge to members and non-members by exception, per existing Club protocols. Examples of courtesy service may include but are not limited to the light services at Pittsburg Pirates and Saint Louis Cardinals/Busch Stadium home games, when applicable, and Hot Calls for non-members or members in service charge, when a safety concern is present.

What is Courtesy Service?
Courtesy Service refers to service provided at no charge to both members and non-members by exception, following existing Club protocols.

Can you give examples of Courtesy Service?
Examples of Courtesy Service include light services at Pittsburg Pirates and Saint Louis Cardinals/Busch Stadium home games and Hot Calls for non-members or members in service charge when a safety concern is present.

What is the status of the Tipsy Tow Program?
The Tipsy Tow Program (004) has been suspended until further notice.

Under what conditions can non-members receive Courtesy Service?
Non-members may receive Courtesy Service in specific situations as defined by Club protocols, such as during safety concerns or other exceptional circumstances.

The CA Wildfire Temporary Protocol has been discontinued, effective April 24, 2025.

1. If the call does not ANI-match, or an incorrect ANI-match is displayed, use the No Membership button and select Hot Call
2. Obtain the caller's Last Name and First Name if possible
3. Obtain a callback number for the caller

Tow to Go is a free, confidential service by AAA that provides a safe ride home and vehicle tow for impaired drivers during major holidays (not available in the ACE market and cannot be arranged by ACE agents).

Tow to Go operates in select states and cities, including:

- **Florida, Georgia, Iowa, Michigan, North Dakota, Nebraska, Tennessee, Wisconsin**
- **Colorado (Denver, Boulder, Fort Collins, Colorado Springs)**
- **North Carolina (Charlotte)**
- **Indiana (Fort Wayne, South Bend)**

How It Works

1. **Call the Hotline**: Dial **(855) 2-TOW-2-GO (855-286-9246)** to request service.
2. **Provide Your Location**: A dispatcher will coordinate a tow truck to meet you.

3. **Ride and Tow**: The tow truck transports both the driver and their vehicle to a **safe location within a 10-mile radius**.
4. **Confidential and Free**: The service is confidential, free of charge, and designed as a **last-resort safety net** when other options like a designated driver or rideshare are unavailable Appointments **cannot be scheduled in advance**, and the service may be limited in **rural areas or during severe weather**

Does a AAA provider going into a Disney, Six Flaggs, Knotts, etc. parking lot have to pay a fee to get in to service the member?

If the member is in need of roadside assistance, they should be counseled to contact park security or Guest Services to let a roadside assistance provider or tow truck reach the vehicle in the lot. Additionally, many theme parks have complimentary light services available to get the member back on the go.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Breathalyzer- Interlock Device: A vehicle installed breathalyzer or ignition interlock device is a device attached to the starter of a vehicle which requires a breath sample from the driver to start the vehicle. When a member requests towing for a vehicle with an interlock device, and a specific mechanical defect is not provided, the call should be processed as a Tow Request Reason = Miscellaneous, and document Won't Start (does not apply to vehicles that were recently purchased in an inoperable position and won't start). Members should never be questioned about alcohol consumption or sobriety status. All other ERS protocols apply.

What is a breathalyzer or ignition interlock device?
A breathalyzer or ignition interlock device is a device attached to the starter of a vehicle that requires a breath sample from the driver to start the vehicle.

Should members be questioned about their alcohol consumption or sobriety status when requesting service for a vehicle with an interlock device?
No, members should never be questioned about alcohol consumption or sobriety status.

Member is requesting a tow home from the repair shop where a breathalyzer was newly installed. Is that covered?
Towing will not be covered if the request is simply because the member had the breathalyzer newly installed and they want the vehicle taken back home; this is a convenience tow.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
Call Processing Errors by the Call Center: When an ERS agent determines that another call center agent has made a processing or policy error on a service request, which impacts the member, service provider, and/or the Club, the ERS agent should contact their local supervisor via email with details on the error (excludes member complaints). The supervisor is responsible for assessing the error to determine the appropriate action. Agent processing errors should not be processed as complaints unless the member reports the issue as a complaint. If a member calls back to file a complaint and it is determined that an error was made, agents should follow the complaint escalation process; a separate agent error report is not needed.

What should an ERS agent do if they identify a processing or policy error made by another call center agent?
The ERS agent should contact their local supervisor via email with details regarding the error, excluding member complaints.
Who is responsible for assessing the error after it has been reported by the ERS agent?
The supervisor is responsible for assessing the error to determine the appropriate action to be taken.
Should agent processing errors be classified as complaints?
No, agent processing errors should not be processed as complaints unless the member explicitly reports the issue as a complaint.
What if a member calls back to file a complaint after an error was made?
If a member calls back to file a complaint and it is determined that an error was made, agents should follow the complaint escalation process without needing to submit a separate agent error report.
Are member complaints included when reporting call processing errors to the supervisor?
No, the details reported to the supervisor regarding call processing errors should exclude member complaints.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Piggyback or continuation towing refers to back-to-back or closely timed towing requests for the same disablement made to avoid overmileage or overage charges. This practice is not covered under membership and is prohibited in all ACE markets, unless pre-approved by ERS management.

Continuation towing is different from a continuation of service, in that a continuation of service is likely due to a service failure, driver error (e.g., dropping vehicle at wrong location or positioning it improperly/illegally parked on a public road or repair location) or network limitations; in these cases, a continuation of service (a-call/cloned call) should be processed, which is not charged against the membership.

If a member requests a second tow the same day or in the days following for the same disablement (piggybacking or continuation towing), a COD referral should be offered. More than one tow per disablement is not covered under membership unless a service failure occurred (ERS mgmt approved scenarios excluded).

When a member requests multiple tows for the same disablement to increase the covered distance, the request should be documented, and the member advised that we are unable to provide the additional service under membership. Members requesting multiple tows on the same or following days for the same disablement should be referred to a local provider for commercial service. If it is determined that a member has or intends to abuse this policy, the service request should be elevated to an ERS supervisor. This policy does not apply to continuation tows that are authorized due to service failures.

What is considered piggyback or continuation towing?
Piggyback or continuation towing refers to back-to-back or close in time towing requests for the same disablement made to avoid overmileage fees. This practice is prohibited in all ACE markets unless pre-approved by ERS management.

When should members contact service providers directly for towing?
Members should only contact service providers for towing and other services when the service is not covered under their membership. In such cases, a Cash on Delivery (COD) referral should be offered.

Is the membership number required when a member requests COD service directly from a service provider?
No, when a member is requesting COD service directly from a service provider, the membership number is not required, and payment for all services is due to the driver.

How should agents respond to members requesting multiple tows for the same disablement to increase the covered distance?
Agents should document the request and advise the member that additional service for the same disablement cannot be provided under their membership. Members requesting multiple tows on the same or following days for the same disablement should be referred to a local provider for commercial service.

Do we cover towing from a repair shop to a different repair shop?
It depends. If the vehicle was towed to Shop 1 under membership and the member now requests a tow to Shop 2 because Shop 1 is unable to complete the repairs, towing will be provided under membership. However, towing will **not** be provided from Shop 1 to Shop 2 simply because the member disagrees with or dislikes the cost of repairs.

If the vehicle was **not** towed to Shop 1 under membership, a tow to Shop 2 **will** be provided under membership, subject to all other provisions of service.

Do we cover towing from a repair shop to a residence?
It depends. If the vehicle was originally towed to the repair shop under membership, and the member now requests a tow to their residence because the shop is unable to complete the repairs, towing will be provided under membership. However, towing will **not** be provided if the member simply disagrees with or dislikes the cost of repairs.

If the vehicle was **not** towed to the repair shop under membership, a tow to the member's residence **will** be provided under membership, subject to all other provisions of service.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

What is TTY? TTY, standing for Teletypewriter or Telecommunications Device for the Deaf (TDD), is a telecommunications device that allows people with hearing or speech disabilities to communicate over a telephone line by typing and reading text. It can also refer to a type of terminal in computer systems.

To make using TRS as simple as possible, members can dial 711 to be automatically connected to a TRS communications assistant. It's fast, functional and free. Dialing 711, both voice and TTY-based TRS users can initiate a call from any telephone, anywhere in the United States, without having to remember and dial a ten-digit access number.

California Relay Service (CRS) is a free service to those who are Deaf, hard of hearing, or with speech limitations. It allows individuals to communicate with other telephone users with the assistance of a trained communications assistant (CA) by dialing 711 or other designated toll-free numbers.

Traditional Relay Services (TRS): TRS enables Deaf, users with hearing loss, or those with speech disability to communicate with another party by Text Telephone (TTY). TRS enables those with a TTY to place a regular telephone call to another party with the assistance of a communication assistant which facilitates the call between both parties.

Speech-to-Speech (STS) Relay Service: STS enables people who have a speech disability to communicate with other people by telephone. Specially trained STS CAs re-voice the caller's conversation to the person he/she is calling.

Visually Assisted Speech-to-Speech (VA STS): VA STS includes a one-way video connection that allows the CA to see the STS user as they are speaking. Seeing the caller's mouth movements, facial expressions, and gestures enables the CA to better understand and re-vice for the caller.

Captioned Telephone Service (CapTel): CapTel is an amplified telephone with a screen that displays everything someone says in text, word-for-word, while the caller listens.

What is Verint Express?

Verint Express (IVR) offers our members a quick and convenient way to complete an automated service request, in lieu of holding for a representative. Services available include Light Services and Towing (Locksmith and Extrication services and Freeway/Highway locations excluded).

When a valid, paid member calls in for any roadside service, our IVR system first offers to send the Chatbot link. If the member remains on the line, the IVR then sends the member through the automated express path (Verint Express). Members may opt-out of the automated system or be transferred to a live operator by the express system at any stage of the call process.

What is AAA Chat Bot (Virtual Assistant)?

The AAA Chat virtual assistant allows members in need of service to skip the phone lines and submit a request in less than 4 minutes; this option is available 24/7. For assistance with the app, you can start a chat with the AAA virtual assistant (chat), send feedback through the app,

or visit the AAA website. If the member is experiencing problems with the app, they should tap the "More" icon (three dots) in the lower right corner and select "Send Feedback".

What is RADAR?
RADAR is the ERS call processing system used by ERS agents to initiate service requests on behalf of our members. The RADAR app is a Salesforce-based application; AAA dispatchers use Field Service to manage call dispatching.

Does Ask ACE automatically timeout?
Yes, for security reasons, the Ask ACE tool will automatically sign-off after 2 hours of idle time.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

This knowledgebase cannot provide benefit, call allotment and coverage for non-ACE Clubs. Southern California (004) is different from the non-ACE Club CSAA (005)

Currently, Adult and Dependent Associates: Two (2) service requests or reimbursements per membership year in the following states: Arkansas, Hawaii, Illinois, Indiana, Kansas, Louisiana, Maine, Mississippi, Missouri, New Hampshire, New Mexico, Texas, and Vermont

Effective August 20, 2026 the annual call allotment for each Adult or Dependent Associates in all ACE markets shall be limited to two (2) calls or reimbursements per membership year. After the two (2) call allotment has been exhausted, the Adult and Dependent Associate members must pay the Service Charge for each additional call until the membership renews. Primary member's call allotment will remain unchanged.

The optional RV/Motorcycle benefit in Southern California (004) adds an additional four (4) calls for qualified RVs and motorcycles; this applies to CA (004) memberships only. RV/Motorcycle towing requests are limited to no more than $500 for tire and towing services per disablement, and $1000 per household, per membership year. The optional RV/Motorcycle benefit does not add any additional calls to the membership in any state except Southern California (004).

What are the limitations for RV/Motorcycle towing requests in terms of costs?
RV/Motorcycle towing requests are limited to no more than $500 for tire and towing services per disablement and $1000 per household, per membership year.

What is the call allotment for non-ACE Clubs?
To obtain usage and benefit information for Non-ACE club members, use CDX or contact the member's home club.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The Early ERS Usage Fee, formerly called the Same Day Use Fee, is $125 and applies to every new service request made during the first three days of a new membership purchase in all ACE markets, except California (does not apply to Cloned calls due to a service failure). The Early Use Fee fee can be prepaid online, through the Direct Sales Unit (DSU), or at the Member Services Center (MSC) when signing up. If a member pays a service charge, CAPRE, or Early ERS Use Fee for BSP battery service, and the battery installed in their vehicle is tested and replaced under warranty by BSP, the fee will be refunded because the battery failed and was replaced under warranty.

New/Separate Service Requests (which require the Early ERS Usage Fee each time): These are completely different breakdowns or service needs, even on the same day.

Service Failure/Clone calls (which are exempt from additional Early ERS Usage Fee): These occur when the original service failed due to provider action, equipment issues, wrong tow destination, or no service rendered - essentially when the member didn't get the service they paid for.

If a member joins using the AAA app or member website, an alert notifies them of the fee. If a member claims they paid the fee but the payment is not found in MRM, contact SRT or the Local Team Override or Support Chat. If no response is received within 60 seconds, escalate to the local site Supervisor line.

Some memberships are exempt from the Early ERS Use Fee, including Spinoff memberships and memberships canceled and reinstated during the grace period. If a member refuses to pay because they were not notified of the policy, they should be transferred to the department where the membership was purchased for refund processing.

Refunds for the Early ERS Use Fee are only issued if the service was not rendered. If the member received service, the fee is non-refundable. If the member double paid/overpaid the EUF, Refunds typically process within 10–14 business days, depending on the member's financial institution. If a member cancels their membership after paying the fee and service was provided, no refund is given.

How can I check to see if the EUF was refunded in MRM?
In MRM Portal, 1. MRM Portal – In Total Events for All Members, right-click and select View ERS Receivables, Click the arrow to expand. If the fee was voided, the amount will reflect $0.

Receipts for payments made via MRM can be emailed to members by verifying the email address on file and checking the Email Receipt box before submitting the payment. If the member requests receipt of a payment made in MRM after the payment has been processed, create a CMS case for Member Relations processing (excludes receipts for AAA battery and other roadside purchases).

If a battery requested by the member is not in stock and no service is performed, the Early ERS Use Fee, CAPRE, and service charge fees will be refunded.

If a member has a negative balance in MRM due to a pending refund, service charges and other ERS fees may not process. In this case, transfer the member to SRT or the Local Supervisor Line for assistance.

ERS agents should only collect the Early ERS Use Fee, Same Day Fee, or CAPRE fee when the system dialog prompts them. If the prompt does not appear, do not collect the fee.

If a valid, paid membership is being transferred from another Club, the EUF/CAPre fees do not apply. For members transferring from another club and creating a new membership, the Early ERS Use Fee applies only when RADAR prompts the agent to collect it. If a member believes this is an error, contact SRT or the Local Supervisor Line for guidance.

What if the member indicates that their CAPRE, Early ERS Use, or Service Charge should have auto-voided but did not?
If the member advises—or the ERS agent determines—that the ERS fee did not auto-void when service was not rendered, the ERS agent should create a CMS case to request processing of the fee adjustment. The member should be advised to expect follow-up within 10 business days.

How will a member be refunded for electronic credit/debit ERS payments when no service is received?
An attempt to refund the member in the method the payment was made will be attempted. If the refund is not successful, a paper check may be mailed to the address on file.

If RADAR is prompting for the EUF, CAPRE, or a Service Charge but it has been determined that the fee does not apply, what do I do?
If RADAR is prompting to take the payment but it has been determined that the EUF, CAPRE, or a Service Charge does not apply, the agent should request a Supervisor Override via the SRT Overrides Teams channel providing the case number and reason the fee should not be charged

If a member overpaid the EUF/CAPRE fee or was double charged, how does the member get a refund?

If a DSU agent collects the membership payment and the EUF/CAPRE fee together, the payment may need to be refunded by MSC. For example, if a member is charged a combined payment of $179.00 consisting of a $125.00 EUF/CAPRE fee, $59.00 Classic membership, and a $5.00 Auto Renewal discount, the combined payment must be refunded by MSC.

If you encounter an overpayment or double charge, **create a CMS case for review**. The case can be elevated to MSC as needed to determine the appropriate refund.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.The CA Wildfire Temporary Protocol has been discontinued, effective April 24, 2025.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Critical Incidents (CI) - See SIU-Membership Abuse for member behavior issues. Reports of verbal abuse (excluding physical/property threats) by callers should be elevated to your Local Supervisor Line. Reports of baby, person, or pet locked in car should be handled using Hot Call protocol; these issues do not qualify as Critical Incidents. Do not create a CMS case for Critical Incidents or abusive member scenarios.

Direct threats that include physical harm and/or against club property by or to a member, non-member, service provider/technician, or club employee are considered Critical Incidents (CI). If a caller threatens agents, call center staff, or the technician, or threats to damage Club property, a Critical Incident should be processed by a member of ERS management; do not contact the ERS Help Desk (SRT) or create a CMS case.

If the service technician (driver), roadside technician claims the member or a passenger/party on scene threatened physical harm or property damage, critical incident protocol applies. Upon Critical Incident documentation, the caller should be immediately elevated to ERS Call Center management using critical incident protocol.

If a member or non-member third-party claims the service technician (driver) or roadside technician on scene threatened physical harm or property damage, critical incident protocol applies. Upon Critical Incident documentation, they should be immediately elevated to ERS Call Center management using critical incident protocol.

Critical Incident protocol (CI) - Critical Incidents include the following and similar events: The following are the type of events that qualify for escalation as a Critical Incident: Erratic Behavior (Member/Passengers) – Member/passenger displays threatening or erratic behavior towards the provider or party on scene. Erratic Behavior (Service Provider) - Service Provider displays erratic behavior or drives erratically. Injury/Fatality – Member, passenger(s), service provider, or third-party on scene injury or fatality. Legal Action – Member indicates an intention to take legal action (i.e., sue, lawsuit, etc.) against the Club or service provider. Physical Altercations – Physical altercation between member, provider, or third-party on scene. Property Damage - Serious property damage, including but not limited to, vehicles, member/caller/public property, Club property, provider property (e.g., garage doors and other structures, poles, etc.). Suspected Impairment - Drug or alcohol use by the service provider, member, or third-party with the member or provider on scene. Suspected/Alleged Criminal Activity - Member, service provider, or third party alleges or suspects criminal activity (e.g., sexual assault, physical altercation, harassment, stolen property, etc.). Verbal Threats (Member/Third-party) - Verbal threats made by member or third party to/against the service provider, Club staff or Club property. Verbal threats (Service Provider) - Verbal threat made by provider reported by member/passengers or other parties..

Upon documentation of the Critical Incident details, contact your Local Site Hot Call Teams Chat for additional processing, using the following suggested scripting as guidance, “Thank you for the information you have provided, (Mr./Mrs. Member). May I place you on a brief hold while contact a supervisor to assist you further?”

When a member/caller makes contact to follow up on a CI, locate the original call and document the information provided (e.g., member requesting follow-up, etc.). Contact your Local Site Hot Call Teams Chat. Do not contact SRT for Critical Incident reporting or follow-up.

ERS Team/Site Manager Responsibilities (CI) - Upon receipt of a CI notification, call center management is required to facilitate CI resolution, including but not limited to the following: Completion and Distribution of CI form and protocol within two (2) hours of being notified. Instructions for completion of the form are available on the ERS Knowledgebase – Critical Incident site. In the event a local Team Manager is not available, the form should be completed by a call center Supervisor and reviewed by an alternate Supervisor, prior to submission.

What constitutes a Critical Incident (CI)?
A Critical Incident includes threats of physical harm or property damage made by or to a member, non-member, service provider, service technician, or club employee (except damage to the member's vehicle during the course of the service request, which should be handled using ERS Damage protocol).

If a member/non-member reports that public or private property has been damaged by a AAA service provider, what should I do?
Reports of property damage by a AAA service provider (excluding member's vehicle during a service request) is subject to Critical Incident protocol. This includes reports by members and non-members that a AAA technician has damaged public or private property.

What should be done if a member verbally abuses staff?
Reports of verbal abuse should be elevated to your Local Supervisor Line.

What protocol applies when a service technician claims a member threatened them?
Critical incident protocol applies, and the situation should be documented and elevated to ERS Call Center management immediately.

What is the first step when a third-party claims a service technician threatened them?
Document the incident and elevate it to ERS Call Center management using critical incident protocol.

What type of behavior qualifies as Erratic Behavior for escalation?
Erratic behavior by a member or passenger towards the provider or erratic driving by a service provider qualifies for escalation.

What actions should be taken if there is an injury or fatality on scene?
Any injury or fatality involving a member, passenger, service provider, or third-party on scene must be reported by the ers agent as a Critical Incident.

How should a member indicate an intention to take legal action?
If a member states they intend to take legal action against the Club or service provider, this should be documented as a Critical Incident.

What constitutes a physical altercation in the context of a Critical Incident?
A physical altercation between a member, provider, or third-party on scene is considered a Critical Incident.

What type of property damage should be reported as a Critical Incident?
Serious property damage to vehicles, member/caller/public property, Club property, or provider property qualifies as a Critical Incident.

How should suspected impairment be treated in a Critical Incident?
Suspected drug or alcohol use by the service provider, member, or third-party present should be documented and reported.

What action should be taken for suspected or alleged criminal activity?
Any claims of suspected criminal activity, such as harassment or stolen property, should be documented as a Critical Incident.

What actions should be taken if the member or a third party on scene is hurt or injured while receiving service from the provider?
Any injury that is alleged by a member or third party on scene with the provider should be treated as a critical incident.

How are verbal threats from members or third parties handled?
Verbal threats made by members or third parties against service providers, Club staff, or property should be documented as Critical Incidents.

What should a service representative do after documenting a Critical Incident?
Contact your Local Site Hot Call Teams Chat for further processing.

What scripting should be used when transferring a caller after a Critical Incident?
Use the following scripting: "Thank you for the information you have provided, (Mr./Mrs. Member). May I place you on a brief hold while I conference a supervisor on the line to assist you further?"

What should be done if a member calls to follow up on a Critical Incident?
Locate the original call, document the information, and contact ta supervisor via your Local Site Hot Call Teams Chat.

Should SRT be contacted or a CMS case created for Critical Incident reporting or follow-up?
No, do not contact SRT or create a CMS case for Critical Incident reporting or follow-up.

What should be included in the documentation of a Critical Incident?
Document all relevant details, including the nature of the incident, involved parties, and any threats made, etc

What is the role of Local Site Hot Call Teams Chat in Critical Incidents?
They assist with the review of the circumstances, processing of Critical Incident reports and elevating, per existing ERS protocol.

What should I tell a member whose service request (not membership) was canceled due to abusive behavior toward a service technician or Club employee?

Advise the member that, due to concerns regarding their interaction with the service provider or Club employee, we are unable to continue rendering service for this request (*Mr./Ms. [Last Name], due to concerns regarding the interaction with our service provider/Club employee, we are unable to continue service on this request*). You may offer a **COD (Cash on Delivery) referral** as an alternative option. However, in situations involving member or membership abuse, reimbursement may be declined by the Club.

("*What I can do is provide you with a COD referral for a local provider that you can contact and request service at your own expense.").* **Hot Call scenarios** must be escalated immediately to the local ERS management team.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

The Battery Core Fee/Charge - Upon installation of a AAA battery, the old battery core is recycled and returned to the manufacturer for credit. If the member wants to retain possession of their old battery (core) after installation of the new AAA battery, the battery price will increase (core fee or core charge, not CAPRE fee). Once the technician has left the scene, the old battery cannot be retrieved from the provider.

CAPRE Fee (not the Core Fee/Charge): The California CAPRE fee or California Prepay fee applies on the calendar date of the membership purchase when service is requested for a breakdown that occurred prior to purchasing the membership; there is no "expiration" that refers to the specific number of "hours" the fee is in effect. It only applies to the calendar date of membership purchase, when service is requested for a breakdown that occurred prior to purchasing the membership. Effective April 1, 2024, the Early ERS Use fee and CAPRE fees increased to $125, as applicable. The CAPRE fee may be prepaid online or with the Direct Sales Unit (DSU) or Member Services Center (MSC) at sign-up.

The CAPRE fee is a one-time charge per household and does not apply to add-ons. Agents should only process the CAPRE fee if the system prompts them to do so.

Does the CAPRE or Early ERS Use fee apply to spinoff memberships or those canceled and reinstated during the grace period?
No, the CAPRE **and Early ERS Use** fees do not apply to spinoff memberships or memberships that are canceled and then reinstated during the grace period.

If a member calls back after previously paying the CAPRE fee but did not receive service, the CAPRE fee will automatically void when the call is closed or canceled. If the member calls back to request service again in this scenario, a new CAPRE fee must be collected. However, if the member requests a new service after the CAPRE fee was paid for a prior completed service, the CAPRE fee does not apply.

If a member indicates the CAPRE fee was paid upon join, and you are unable to locate the payment in MRM, contact SRT or Local Team Override or Support Chat (after-hours) for assistance. If the member indicates they were not advised of the policy at purchase and declines to pay the CAPRE fee, they should be transferred to the department where the membership was purchased for membership refund processing.

CAPRE Refund Request - No Service Received: If a call is marked Not Counted, Canceled, or the member does not receive service, they are entitled to a refund. Fee will auto-void, but there may be a delay in their appearing, based on their financial institution. If the member cancels the membership AFTER paying the CAPRE fee and receiving ERS service, they are not entitled to a refund of the CAPRE fee.

With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member's financial institution processing times may vary.

What is the CAPRE fee in California?
The CAPRE fee is a one-time fee applied to a household when service is requested for a breakdown that occurred before the purchase of the membership. It is charged only once per household and does not apply to add-ons.

Under what circumstances should a CAPRE fee be processed?
A CAPRE fee should only be processed if the system prompts for it; it should not be manually added.

What happens if a member indicates they paid the CAPRE fee but no service was rendered?
If a member indicates that the CAPRE fee was paid but no service was rendered, the CAPRE fee will auto-void when the call is closed or canceled.

What should be done if a member pays the CAPRE fee and calls back to request a new service after prior service was completed?
If a member pays the CAPRE fee and calls back to request a new service after prior service was completed, the CAPRE fee does not apply.

What should you do if you cannot locate a member's CAPRE fee payment in the system?
If you are unable to locate the CAPRE fee payment in MRM (Membership Records Management), you should contact the SRT or the Local Team Override or Support Chat (after-hours) for assistance.

What should happen if a member declines to pay the CAPRE fee, claiming they were not informed of the policy at the time of purchase?
If a member declines to pay the CAPRE fee and claims they were not advised of the policy at purchase, they should be transferred to the department where the membership was purchased for processing a membership refund.

What is the process for refund requests related to the CAPRE fee when no service is received?
If a call is marked as Not Counted or Canceled, or if the member does not receive service, they are entitled to a refund, and the fee will auto-void. Refunds should appear within 10 business days.

What should a member do if they cancel their membership after paying the CAPRE fee?
If a member cancels their membership after paying the CAPRE fee, they will be entitled to a refund of the CAPRE fee if no service was rendered.

How can a member get a copy of the payment they made for an outstanding ERS bill, service charge, early use fee, or CAPRE payment?
For payments processed in MRM, we can offer receipts via email to our members (excludes receipts for AAA battery and other roadside purchases). On the Process Membership Payment screen in MRM Portal, verify the email address on file and place a check mark in the Email Receipt box before submitting the payment. Receipts cannot be requested in MRM once the payment has already been processed. If the member requests a receipt of a payment made in MRM after the payment has been processed, create a CMS case for Member Relations processing (excludes receipts for AAA battery and other roadside purchases).

Will the Early ERS Use (Same Day), CAPRE, or Service Charge fees be refunded if the member requests AAA battery replacement under warranty, but the AAA battery needed is not in stock and no other service to the vehicle is rendered?
Yes, the Early ERS Use (Same Day), CAPRE, and Service Charge fees will be refunded if the member requests AAA battery replacement under warranty, but the AAA battery is not in stock for a BSP installation and no other service is performed on the vehicle.

If a member pays a service charge, CAPRE, or Early ERS Use fee for BSP service for their currently installed AAA battery, and the AAA battery installed in their vehicle is tested and replaced under

warranty by BSP, the fees will be refunded, as the AAA battery tested bad and was replaced under warranty by the BSP technician.

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?
If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

Do ERS agents collect Same Day/Early ERS Use Fee or CAPRE fees for Call Move requests?
Same Day/Early ERS Use Fees and CAPRE fees should only be collected when the dialog appears. If the Impairment dialog box does not appear—indicating a payment is due, a payment should not be collected.

The Service Charge, CAPRE, EARLY ERS Use (Same Day Use) fees will not be waived for battery purchases unless the member needs warranty service for a AAA battery installed in the vehicle; if the member's call allotment has been exhausted, and they are requesting warranty service for a AAA battery, they must pay the service charge upfront, and it will be refunded only if the AAA battery is under warranty, tests bad and is replaced by the technician.

New member needs service outside of ACE territory, do I collect same day fee or CAPRE fee, or does the servicing club collect the fee?
Whenever RADAR indicates that a fee is due for a new member, and the fee has not been paid, collect the fee; however, if it is an ACE member in non-ACE territory (Call Move), the fee will auto-void.

What if the member indicates that their CAPRE, Early ERS Use, or Service Charge should have auto-voided but did not?
If the member advises—or the ERS agent determines—that the ERS fee did not auto-void when service was not rendered, the ERS agent should create a CMS case to request processing of the fee adjustment. The member should be advised to expect follow-up within 10 business days.

How will a member be refunded for electronic credit/debit ERS payments when no service is received?
An attempt to refund the member in the method the payment was made will be attempted. If the refund is not successful, a paper check may be mailed to the address on file.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding. See knowledgebase for suggested phrasing)

How should suspected impairment be treated in a Critical Incident?
Suspected drug or alcohol use by the service provider, member, or third-party present should be documented and reported.

Is there a way for a member to get a copy of a roadside service complaint?
If a member is requesting a copy of a roadside service complaint, create a CMS case and advise the member that member Relations will follow up within 10 business days.

Is it ok to provide ICS (service provider) information to the member?
Yes, with the exception of AAA Fleet services (AAA company-owned tow trucks), the service provider (ICS) phone contact information may be provided to the member who received service.

How do members file a claim or complaint for damage to their vehicle if a AAA driver damaged their vehicle?
When a member reports vehicle damage caused by the AAA technician during the course of roadside service on their vehicle, offer the member the provider contact information (fleet excluded) and counsel the member to call the facility directly; in this scenario, it is okay to offer the provider's phone number. If the member declines direct contact with the AAA service provider, initiate a CMS damage complaint in RADAR.

If a member/non-member reports that public or private property has been damaged by a AAA service provider, what should I do?
Reports of property damage by a AAA service provider (excluding member's vehicle during a service request) is subject to Critical Incident protocol. This includes reports by members and non-members that a AAA technician has damaged public or private property.

Service Provider (ICS) Request or Refusal
Effective immediately, the options to request or refuse the service provider assigned will be discontinued as a part of ERS protocol (see Policy Exceptions below). When a member requests a specific provider, or refuses the provider assigned, they should be counseled as follows:

"I'm sorry, but to provide fast and safe service, we need to utilize the provider assigned based on real-time availability and location. This ensures you receive the quickest help possible. It looks like [insert assigned provider] is the first available provider in your area to ensure prompt service." Policy Exceptions to this policy the Facility Request/Refusal policy and use of the Preferred Facility quick action in RADAR will be limited to the following: A AAA service provider is presently at the breakdown location and agrees to facilitate service. Member indicates they have an active or recent Damage, SIU, or CI case open with the provider. If Member Declines Provider Assigned after they have been advised of the policy and they decline the provider assigned and do not meet the criteria for an exception as outlined above, the following protocol applies: Confirm that the member wishes to decline and cancel PRIOR to cancelling the service request, Cancel the request and document refusal in the Case Feed: "Refused provider assigned", Offer COD referral using the Reroute tool and advise the member payment will be

due at the time of service. COD Reimbursement when the Member Declines Provider Assigned - Reimbursement for COD services in Member Declines Provider Assigned scenarios will not be considered. ERS Representatives SHOULD NOT offer reimbursement forms when the member declines the provider assigned (see Exceptions).

Complaints: Members may contact the call center with a variety of service and/or ACE product-related concerns including, technician, AAA batteries, call center experience, etc. Complaints are processed by the receiving agent/supervisor for member follow-up.

Complaint Processing: Search for the original service request, document the nature of the complaint, and any relevant details or information provided by the member, elevate for supervisor review in CMS, and counsel the member to expect follow-up within 10 business days. If immediate escalation is requested, warm-transfer the member, per existing Club policy. Do not create a CMS case when warm-transferring a call.

Complaint Updates – When a member is requesting the status on a previously reported ERS complaint, search for the original service request, document the member callback, and warm-transfer the member to the SRT line. For After-Hours assistance for a previously reported ERS complaint, warm-transfer the member to your Local Team Override or Support Chat for assistance.

Damage/Lost Items: When a member reports that the service provider has lost their vehicle keys, or that items were left in tow truck, or minor property (driveway, mailbox, lawn etc.) or vehicle damage caused by the technician, which occurred during the course of roadside service, offer the member the provider contact information (fleet excluded) and counsel the member to call the facility directly. If the member agrees to contact the provider, document the conversation on the service request. In this scenario, the complaint is considered resolved and no further action or contact needed. If the member does not wish to contact the station directly about lost or damaged items, and the call is Cleared or Completed, retrieve the service request and select Damage or Lost items reported, and elevate for Supervisor Review in CMS. Counsel the member that their concerns will be elevated, and their call returned within 5 business days. If the member wants to provide photos of the damage caused by the provider as a part of a AAA provider-caused damage complaint, they should be transferred to SRT for call handling.

Missing Vehicle: If a member indicates their vehicle was picked up by a AAA technician under membership but did not arrive at the tow destination to complete the service, Escalation protocol applies. The member should be warm-transferred to SRT for assistance with locating the vehicle.

Compliments: When a call is completed, the Create CMS Case option will appear and Compliment may be selected. When the Create CMS Case option does not appear, this generally means that the call is not completed. To document a compliment, select the Member Callback option, then select Compliment to create the CMS case.

ETA Complaints (Active Calls): if a member is upset about the ETA provided, or the ETA is extended, the following applies to Active service requests (service is still needed): Apologize to the member for the inconvenience. If the member requests immediate escalation, contact SRT or your Local Supervisor line.

ETA Complaints (completed/cancelled calls): When a member requests to file a formal complaint on a completed/cancelled call, apologize to the member for the inconvenience. if the member still wishes to file a complaint: Offer to file a report with management for follow up with the service provider and inform the member the complaint will be handled by the responsible party. Open a CMS case per existing ERS protocols and counsel the member that a supervisor will follow up with them.

How should the member send photos of damage caused by the AAA provider to AAA as a part of a damage complaint?
If the member wants to provide photos of the damage caused by the provider, they should be transferred to SRT for call handling.

What types of complaints may members contact the call center about?
Members can contact the call center with various service and ACE product-related concerns, including issues related to technicians, AAA batteries, and their overall call center experience.

How should agents process a member's complaint?
Agents should search for the original service request, document the nature of the complaint along with any relevant details provided by the member, elevate the issue for supervisor review in CMS, and inform the member to expect follow-up within 10 business days.

What should an agent do if a member requests immediate escalation of their complaint?
If immediate escalation is requested, the agent should warm-transfer the member to SRT.

What steps should be taken when a member requests a status update on a previously reported ERS complaint?
The agent should search for the original service request, document the member's callback, and warm-transfer the member to the SRT line for further.

What should be done if a member reports items left in a tow truck or property damage caused during roadside service?
The agent should provide the member with the provider's contact information (excluding AAA Fleet contract stations) and advise them to call the facility directly. If the member agrees, the conversation should be documented on the service request, and the complaint is considered resolved.

What actions should be taken if a member refuses to contact the provider directly regarding damage or lost items?
If the member does not wish to contact the station and the call is Cleared or Completed, the agent should retrieve the service request, select "Damage or Lost Items Reported," and elevate the issue for Supervisor Review in CMS. The member should be informed that their concerns will be elevated and that they will receive a follow-up call within 10 business days.

What protocol should be followed if a member indicates their vehicle was picked up by a AAA technician but did not arrive at the tow destination?
Escalation protocol applies, and the member should be warm-transferred to SRT or the Local Team Override or Support Chat should be contacted for assistance.

What information should be documented during the complaint process?
The nature of the complaint, relevant details provided by the member, and any actions taken during the call should be documented on the service request.

Is there a specific timeframe for follow-up after a complaint is elevated for supervisor review in CMS?
Yes, members should be counseled to expect a follow-up within 10 business days after their complaint is elevated for supervisor review in CMS.

What happens if the member agrees to contact the provider regarding damage or lost items?
If the member agrees to contact the provider regarding damage or lost items, the conversation is documented, and the complaint is considered resolved without further action required.

What should agents do if the member does not wish to contact the provider for vehicle damage that occurred will service is being performed?
If the member does not wish to contact the provider regarding a damage complaint, agents must document this, create a CMS case for Supervisor Review, and advise the member to expect a follow-up within 10 business days.

What should agents communicate to members regarding the handling of their complaints?
Agents should communicate that their concerns will be elevated to a supervisor for review and that they will receive a follow-up within 10 business days.

Member claims/suspects the driver/service technician used their credit/debit card to make purchases after their vehicle was towed under membership.
If a member claims identity theft by a service provider or call center representative after using their credit card for service, you should elevate the case as a Complaint in CMS for investigation.

How do I handle a roadside service complaint for a W Insurance (formerly Wawanesa) customer?
Complaints made by W Insurance customers should be handled in the same manner as AAA member complaints.

What do I do when a member requests to speak with the corporate office?
When a member requests to speak with the corporate office, ERS agents should warm-transfer them to the Local Supervisor for further assistance.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Discount/America's Tire Referrals (DTAT): Members who are in need of replacement tires or tire repairs receive $10 off Better or Best tires categories and other promotions, tire repair ($20 Value) when tire can be safely repaired. Referrals to Discount/America's Tire should be offered to all members who request assistance with tire-related issues in Southern California (004). Motorcycles excluded. Referrals are also available for locations in New Mexico (601), Tidewater (258) , ACMO/Kansas City Metro (Club 065, select areas) , Jackson County, Clay County, Wyandotte County, Johnson County, Portions of Platte and Cass Counties, Alabama (001), Pennsylvania/ West Virginia (215), Texas (252), Arkansas (065), Indiana (065), Kentucky (215), Louisiana (065), Ohio (215), Southern California (004)

Referral hours are Monday thru Friday, 0800-1800, Saturday, 0730-1700, Sunday – Closed. After-Hours vehicle drop-offs are available and eliminate the need for a second tow. The member or their approved representative must be present at drop-off location. Member should be advised that a night drop for key drop-off is not available, and member must return to the facility during business hours to provide keys and discuss services. The service provider will not transport the member from the facility after vehicle drop-off. The member assumes responsibility for the vehicle while parked overnight at the location.

When offering a referral to Discount/America's Tire (DTAT) in conjunction with towing, agents should using the following scripting, "As part of your membership, you can receive $10 off Better and Best tires or if it can be safely repaired, it may be available at no cost at Discount/America's Tire Centers. Would you like me to locate one in the area?" For Light-Service tire services, the referral scripting is as follows: "Keep in mind that as part of your Discounts and Rewards, you can receive $10 off a new tire in the Better or Best categories, or if it can be safely repaired, it may be available at no cost at Discount/America's Tire Center."

Discount Tire Centers currently offers mobile tire installation service at select locations in ACMO/Kansas City Metro (065), Alabama (001), Arkansas (065), Indiana (065), Kentucky (215), Louisiana (065), New Mexico (601) , Ohio (215), Pennsylvania/ West Virginia (215), Texas (252), and Tidewater (258) markets. The $50 mobile installation fee is in addition to the regular Installation and Life of Tire Maintenance fees. These fees do not include the cost of replacement tires. This is not a roadside service. Members can arrange home installation service as follows: Contact a participating America's Tire Center to discuss tire replacement needs, arrange an appointment for mobile tire replacement at a residential or work location. Mobile Installation locations are identified in the AAR tool.

When our member is interested in more information about the mobile installation service and a nearby Discount Tires Mobile Installation Service (DTM) location is identified, ERS Service Representatives should warm transfer the member to the Discount Tire call center upon completion of the service request using the listing in Softphone. This listing should ONLY be used for members requesting an appointment or more information about this service. MOBILE TIRE REPAIR IS NOT AVAILABLE. Before initiating the warm transfer, provide the member with the phone number in Softphone, in case the call is disconnected before the warm transfer is

finished. When connected with the DT/AT call center, introduce the member by their first and last name to the DT/AT representative.

What discount do members receive on Better or Best tire categories at Discount/America's Tire?
Members receive a $10 discount on Better or Best tire categories.

What is the value of tire repair offered by Discount/America's Tire?
The tire repair service has a value of $20 when the tire can be safely repaired.

In which regions are referrals to Discount/America's Tire available?
Referrals are available in Southern California, New Mexico, Tidewater, ACMO/Kansas City Metro, Alabama, Pennsylvania/West Virginia, Texas, Arkansas, Indiana, Kentucky, Louisiana, Ohio, and other specified areas.

What is the exclusion for motorcycle tire referrals?
Referrals for motorcycles are excluded from the tire-related promotions at **Discount Tire/America's Tire**.

What are the store hours for Discount/America's Tire?
Referral hours are Monday through Friday, 0800–1800; Saturday, 0730–1700; and closed on Sunday.

What is the benefit of after-hours vehicle drop-offs?
After-hours vehicle drop-offs eliminate the need for a second tow.

Who must be present at the drop-off location for after-hours service?
The member or their approved representative must be present at the drop-off location.

Is night drop available for key drop-off at Discount/America's Tire?
No, night drop for key drop-off is not available; members must return during business hours to provide keys.

What should members be advised about the service provider's transportation after vehicle drop-off?
The service provider will not transport the member from the facility after vehicle drop-off.

Who assumes responsibility for the vehicle parked overnight at Discount Tire/America's tire locations?
The member assumes responsibility for the vehicle while it is parked overnight at Discount Tire/America's tire locations.

What should an agent say when offering a referral to Discount/America's Tire in conjunction with towing?
"As part of your membership, you can receive $10 off Better and Best tires or, if it can be safely repaired, it may be available at no cost at Discount/America's Tire Centers. Would you like me to locate one in the area?"

What is the referral scripting for light-service tire services?
"Keep in mind that as part of your Discounts and Rewards, you can receive $10 off a new tire

in the Better or Best categories, or if it can be safely repaired, it may be available at no cost at Discount/America's Tire Center."

What is the fee for mobile tire installation service?
The fee for mobile installation is $50, in addition to the regular installation and maintenance fees.

Are the fees for mobile tire installation inclusive of the cost of replacement tires?
No, the fees do not include the cost of replacement tires.

Is mobile installation service considered a roadside service?
No, mobile installation is not considered a roadside service. It is available by appointment only at the members residence or work location.

What tire categories are eligible for the $10 discount?
The discount applies to Better and Best tire categories.

What is the procedure for tire repair when a tire can be safely repaired?
If the tire can be safely repaired, it may be available at no cost to the member.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Disputed Calls: When member disputes a service request that was counted against their memberships, the call in dispute should be reviewed to determine whether it should be counted. If the claim can be readily verified, request a Call Allow from Teams Override/SRT or your Local Team Override or Support Chat; if the member is in service charge and does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

If no response within 60 seconds, contact local site Supervisor line. If the claim cannot be readily verified, elevate for supervisor review in CMS and indicate "member contact required". If a Service Charge applies, it must be paid by the member to receive service. If the call is disputed, but the agent is not able to readily determine the dispute is valid, a Service charge must be paid to receive service and the member should be informed that the situation warrants further investigation. If it is later determined that the dispute is valid, a refund will be issued for the service charge. Disputed Call Scenarios include but are not limited to, calls that were cancelled with no service received, fraudulent use of membership, incorrect household membership charged in error, disputed call should have been previously allowed, the facility closed call incorrectly, etc.

What should I do if a member disputes a service request counted against their membership?
Review the disputed call to determine whether it should be counted. Request an Allow if you can substantiate it. However, If the member does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

What if I don't receive a response after requesting a Call Allow?
If there's no response within 60 seconds, contact the local site Supervisor line for assistance.

What happens if the claim cannot be readily verified?
If you cannot verify the claim, elevate the issue for supervisor review in CMS and indicate that "member contact is required." If the member does not need service, *create a CMS case for review – Document the member's concerns and your findings – Inform the member their concerns will be elevated – Tell them to expect follow-up within 10 business days.*

Does a Service Charge apply if the call is disputed?
Yes, if a Service Charge applies, it must be paid by the member before they can receive service.

What should I inform the member if I cannot determine that the dispute is valid?
Let the member know that the situation warrants further investigation, and that the Service Charge must be paid to receive service.

What if it's later determined that the dispute is valid?
If the dispute is validated, a refund will be issued for the Service Charge that the member paid.

What types of scenarios qualify as disputed calls?
Disputed call scenarios include calls that were cancelled with no service received, fraudulent use of

membership, incorrect household membership charged in error, and instances where a disputed call should have been previously allowed.

What if the facility closed the call incorrectly?
This is considered a disputed call scenario. Review the call details, follow the dispute process, and escalate as needed, such as requesting an Allow.

How long will refunds take?
With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member's financial institution processing times may vary. Refunds are not the same as reimbursements.

How many roadside assistance entitlements are W Insurance (formerly Wawanesa) policyholders allowed?
W Insurance customers are entitled to a maximum of two (2) roadside assistance service requests per policy term, per vehicle covered. When the two (2) calls have been used, offer a referral for COD. Be sure to review the RA Count before processing the call to determine current eligibility.

A member says one of their calls should be on a different member on their account. What do I do?
If a member believes a service call was incorrectly charged to their membership instead of another member on the account, this would be considered a disputed call. You should: 1. Review the disputed call to determine if it was incorrectly charged 2. If you can readily verify the claim, request a Call Allow from Teams Override/SRT or your Local Team Override or Support Chat 3. If you cannot readily verify the claim, you should: - Create a CMS case for review - Document the member's concerns and your findings - Inform the member their concerns will be elevated - Tell them to expect follow-up within 10 business days. If the member needs service now and is in service charge, they must pay the service charge to receive service, even if disputing a previous call. If the dispute is later validated, a refund will be issued.

How do I remove the membership number on a RADAR case to change it to another membership number?
That depends is the call live or Closed/Completed? The membership number can only be changed on a live call; live calls are calls that are not completed/closed. If the call is not completed/closed, retrieve the Case/call, search the correct membership number using Advanced Member Search to locate the correct membership; member present and third-party present protocols apply. If the call is Closed/Completed, a CMS case must be created and the member advised to expect follow-up within 10 business days.

If member needs to change a call from a roadside tow to Claims tow, what do I do if member has an open claim?
Member should be redirected to contact their AAA claims adjuster to have the roadside call converted to a Claims tow.

If I am unable to locate a call in RADAR that a member is disputing, locate the members account and create a CMS case as follows (older/archived calls may not be available in RADAR): Membership Issue > Dispute > Call Count>Fraud

Make/create/

Archived

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Call Move(r) processing does not apply to international breakdown locations; Call Move only applies to service requests for Affiliate and International club members with breakdown locations that are not in ACE territory (outside of ACE club territory).

For service in non-ACE club territories (Call Move), do not advise members of exceptions or limitations in these markets. If the member has specific questions, offer to transfer to the servicing Club for more information.

Call Move(r): Calls identified as Call Move are requests for service by members with breakdown locations that are outside of ACE territory (not international breakdown locations). ERS agents are required to attempt to process out-of-territory calls (Call Move) in RADAR. Call Move calls should be processed through completion and the member advised that the servicing Club with follow up. If the membership cannot be verified through CDX, or the member is requesting additional information that cannot be provided, agents should transfer the member to the servicing Club. A warm transfer is not required in this scenario unless a safety concern is present.

When processing a Call Move call, Battery triage should be bypassed and BSP services should not be offered. AAR and America's/Discount Tires referrals should not be offered for Call Move calls. Fuels costs should not be discussed for Call Move calls. The following services/benefits should not be processed or offered for Call Move calls: Locksmith requests, car rental reservations, and requests for ADA alternate transportation assistance. In these scenarios, members should be counseled that they will receive follow-up from the servicing Club. ACE Dispatch offices are unable to provide ETAs and service status. Overrides to provide service in Call Move (Affiliate) club territories should not be requested.

When a member calls back on an out of ACE territory hot call (Call Move), the member should be transferred or provided with the number to the Club that will be providing service to their vehicle. ETA updates and questions about benefits and coverage for out-of-territory calls (Call Move) should always be directed to the servicing Club; this information is not available from ACE dispatch or ACE supervisors.

Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move)
Non-ACE Members in Service Charge Requesting Service Outside of ACE (Call Move) should be referred to the servicing club; do not process a service charge payment. If a service charge payment is collected prior to establishing the non-ACE breakdown location, the member should be advised that the service charge will void.

Do ERS agents collect Same Day/Early ERS Use Fee or CAPRE (or California Prepay**) fees for Call Move requests?**
Same Day/Early ERS Use Fees and CAPRE fees should only be collected when the dialog appears. If the Impairment dialog box does not appear—indicating a payment is due, a payment should not be collected.

What are Call Move requests?
Call Move requests are service requests from members who have breakdown locations outside of ACE territory.

How should Call Move calls be processed?
Call Move calls should be processed through completion in RADAR, and the member should be advised that the servicing Club will follow up.

What should agents do if the membership cannot be verified during a Call Move call?
If the membership cannot be verified through CDX or the member requests additional information that cannot be provided, agents should transfer the member to the servicing Club.

Can ACE Dispatch offices provide ETAs or service status for Call Move requests?
No, ACE Dispatch offices are unable to provide ETAs and service status for Call Move requests.

Who should handle ETA updates and benefit questions for out-of-territory (Call Move) calls?
The servicing Club, not ACE dispatch or ACE supervisors.

What should be done when a member calls back on a Hot Call in an out-of-territory service (Call Move) request?
The member should be transferred or given the contact number for the servicing Club.

Can ACE provide details on benefits or coverage for a call moved out of ACE territory?
No, all such inquiries must be directed to the servicing Club

AAA roadside service cannot be facilitated in the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands. Washington DC is not a state, but can be serviced under Call Move, subject to provisions of services.

AAA Alaska is a non-ACE club (Cal Move)

A non-ACE member needs service in ACE territory. Why is it saying please check membership level?
This message means that the ERS agent should check with the member's home club to verify benefit level.

How can an ERS agent retrieve/look up a call move call in RADAR?
Call move calls may be searched by member name, membership number, or other call related details, in the same manner as any other call processed in RADAR. However, Call Move calls are not updated after they are initially submitted. For service updates or other information, the member should be referred to the servicing Club.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Continuation of Service: Continuation of Service is distinct from piggyback or continuation towing, which refers to multiple towing requests made to extend covered mileage and is not covered under membership. Continuation of service requests are due to a service failure, driver error (e.g., dropping vehicle at wrong location or positioning it improperly/illegally parked on a public road or repair location) or network limitations; in these cases, a continuation of service (a-call/cloned call) should be processed, which is not charged against the membership.

Continuation of service is defined as a second or follow-up request for service as a result of the provider's inability to assist the member upon first arrival, due to equipment availability, or the vehicle fails at or near the original location shortly after the provider departs the location (e.g., jumpstarted vehicle dies again, tow needed). In Continuation of Service scenarios, an Allow Call should be processed on the original call and a service request created to facilitate service to the member. If the membership is in a service charge and continuation is service is needed, request an override for service continuation. If the member calls back at a separate location for a different service that is not a result of the technician's service failure (e.g., lockout requested after earlier jumpstart), or a new service request is initiated after reaching destination, due to mileage limitations, these scenarios DO NOT qualify as service continuation.

What is defined as Continuation of Service?
Continuation of Service refers to a second or follow-up request for assistance due to the provider's inability to assist the member upon first arrival, whether due to equipment availability or if the vehicle fails again at or near the original location shortly after the provider has departed (e.g., a jump-started vehicle that dies again or requires towing).

What action can be taken in Continuation of Service scenarios?
In Continuation of Service scenarios, an A-Call or Clone may be created to facilitate service to the member.

What should an agent do if a member's membership is in a service charge and continuation of service is required?
The agent should request an override for service continuation if the member's membership is in a service charge and they need continued service.

Do different service requests at a separate location qualify as Continuation of Service?
No, if the member calls back at a separate location for a different service that is not a result of the technician's service failure (e.g., requesting a lockout after an earlier jump-start), or if a new service request is initiated after reaching the destination due to mileage limitations, these scenarios do NOT qualify as service continuation.

How should agents differentiate between Continuation of Service and other service requests?
Agents should differentiate between Continuation of Service and other service requests by assessing whether the new request is directly related to the initial service failure (such as a vehicle that fails again) or if it involves a completely separate issue that does not relate to the previous service (like a new lockout request after a successful jump-start).

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
Member wants help with putting the license on vehicle (mounting).
Not covered. If the member wants help with putting the license plate, hitch, attaching or detaching vehicle accessories, trailers, etc., these are not a covered services under membership.

In addition to battery replacements, jumpstarts, fuel, flat tire, air only, lockouts, locksmith, towing, and light services, what are some other types of services are covered?
For details on covered services, please review the complete knowledgebase carefully.

Light Service Assessments (processed in RADAR under Towing - Miscellaneous): Includes alarm/horn problems, windshield, hood/undercarriage issues, minor mechanical solutions, etc. In Light Service Assessment scenarios a technician will arrive and make an effort to resolve the problem after assessment. Light Service Assess service includes issues with vehicle doors and trunk, Hood (unable to open to address a mechanical issue or to close), Alarm/Horn problems, Broken Windshield, Undercarriage, and other minor vehicle issues, etc.; these requests should be processed in RADAR under Towing - Miscellaneous. If the vehicle is unsafe to driver due to issues with vehicle doors, trunk, Hood, Alarm/Horn problems, Broken Windshield or windows, Undercarriage, and other minor vehicle issues, the driver will arrive and assess whether he can resolve the issue. If the service provider is unable to resolve the issue, towing may be provided. If the member requests towing due to a broken driver's side mirror, towing may be provided, as a driver's side mirror is required for vehicle operation on public roadways.

Can we send service to have the AAA provider check the member's taillights?
No, AAA service technicians do not perform vehicle light inspections or repairs.

What is included in Light Service scenarios (process in RADAR under Towing - Miscellaneous)?
Light Service assessment includes issues with the door, hood (unable to open to address a mechanical issue or to close), alarm, horn, broken windshield, undercarriage, and other minor vehicle issues (process in RADAR under Towing - Miscellaneous).

What happens if a technician is unable to resolve the issue during an Assess (processed in RADAR under Towing - Miscellaneous)?
If the service provider is unable to resolve the issue, towing may be provided.

Will towing be provided if a member has a broken windshield?
Yes, if the member indicates they have a broken windshield, towing under membership will be provided.

Are issues with vehicle doors, trunk, Hood (unable to open/close)**, Alarm, Horn, Broken Windshield, Undercarriage, and other minor vehicle issues covered?**
Yes (processed in RADAR under Towing - Miscellaneous). If the vehicle is unsafe to driver due to issues with vehicle doors, trunk, Hood, Alarm, Horn, Broken Windshield, Undercarriage, and other minor vehicle issues, the driver will arrive and assess whether he can resolve and/or tow the vehicle.

Can a AAA roadside technician help with a car door that won't close?
Yes, a technician can Assess a car door that won't close; these calls should be processed under Towing - Miscellaneous service type.

Do you need to have RV/Motorcycle coverage for fuel delivery on a motorhome?

No, if there are no available RV/Motorcycle benefits available, service—including fuel delivery can be requested under Classic, Plus, or premier benefits.

When is a vehicle that is technically drivable or operable covered for towing under membership?
That depends; a vehicle may be drivable/operable, it can still be covered under ERS if it is deemed unsafe to operate. Examples of vehicles that run but are not safe to operate include: - Inability to use all gears - Smoking engine or tailpipe - Cracked windshield - Broken windows - Door, (unable to open to address a mechanical issue or to close), or trunk that will not close - Indicator lights such as oil, tire pressure, ESP, or check engine Club policy supports requests for roadside assistance, including a tow, for vehicles that may be running but are not safe to operate on public roads. However, if the vehicle is safe to operate, but the member is requesting towing because it is unregistered, service under membership is excluded.

Can we help member get keys or other items that fell under the hood or inside the key in difficult to reach places?
No, we cannot send a service provider to help the member retrieve keys that have fallen into the engine or other compartments inside or in outer compartments of their vehicle.

Do we provide assistance to hook up trailers and similar requests?
No, AAA technicians do not do we provide assistance to hook up trailers and similar requests because the members are having difficulty with operating their equipment.

Do we unlock the steering wheel of the vehicle?
Unlocking the steering wheel is processed in RADAR under Towing - Miscellaneous; the provider will arrive and attempt to release the steering wheel lock for the member.

Can a provider assist a member with a hand brake on the vehicle?
Yes, this assistance would be processed in RADAR under Towing - Miscellaneous.

Member states EV charger is stuck in vehicle. Can we assist?
That depends; a AAA technician can be dispatched to attempt to assist the member, but there is no guarantee they will be able to resolve the issue. The AAA technician should be sent to assess.

A 30-day grace period applies to all ACE Clubs except monthly memberships; a 15-day grace period applies to monthly memberships.

Can a member renew before their expiration date to reset their entitlements to be used for the current year?

No, if the member uses their annual allotment and renews their membership before the expiration date, they must still wait to use the calls allotted for the upcoming membership year.

Memberships renewed within 90 days of expiration may retain their previous benefit level and are not subject to the 7-day waiting period—unless an upgrade is made during renewal. If upgraded during renewal, the 7-day waiting period does apply to the upgraded benefits.

A billable call is defined as a call that counts against the membership after the member has exhausted their annual allotment (service charge required); this is a definition, not an indication that members can be billed for service. If a payment is due at the time of service, it must be paid before the call is dispatched, except in Hot call and minor without credit card scenarios when a member is unable to pay (they will be billed). If the billable call occurs in the grace period, and the member renews, the billable call will drop off of the membership in 1 to 3 days. The member may ignore the bill if they renew.

Annual Dues Option Membership (Standard Membership)

When an Annual Dues Option membership is within the 30-day renewal Grace Period, ERS agents must offer to take a payment for the membership renewal. If the member renews within the grace period, they will maintain their current benefit level. If the member is unable to pay the renewal payment within the Grace Period, agents should counsel the member that service will be provided, but they will be billed the full cost of services if the renewal payment is not received by AAA (this applies during the grace period). If payment is subsequently received prior to the membership cancellation, the full cost of services bill will drop from the membership (be erased because of renewal). If the member is requesting service and the Grace period has passed, the membership must be renewed prior to receiving service; after they pay the renewal and no changes to benefit level have been made, they will retain their prior membership benefit level with no interruption of benefits. If they upgraded at renewal, they are subject to the 7-day waiting period to use upgraded benefits.

Monthly Memberships (Offered in Select Markets Only)

AAA offers a monthly membership option in select ACE markets as an alternative to annual dues. This option requires members to authorize automatic payments to a credit or debit card. A 15-day grace period applies to monthly memberships. If a monthly payment cannot be processed, membership benefits will be suspended when the grace period expires, beginning on day 16 after the payment due date. To restore benefits, the member must reauthorize Monthly Auto Pay and pay the past-due balance. If payment is not received by the end of day 30 after the due date, the membership will automatically cancel on day 31. The member will be billed for any roadside assistance services used after the missed payment.

- Days 1 through 15: grace period
- Day 16: benefits suspended
- Days 16 through 30: payment required to restore benefits
- Day 31: membership cancels

If the member indicates they have mailed a renewal payment, but no payment is reflected in MRM, an additional payment must be collected from the member to receive service. Any overpayments received will be refunded to the member. Exceptions to this policy include Hot Calls and Minors without a credit card. If the membership is expired beyond Home Club's cancelation date, offer to transfer the member to DSU in Softphone.

Should I send service on an expired membership if vehicle is blocking the freeway/highway/street?

Yes, Hot Call protocol applies when a vehicle is blocking the freeway/highway/street and/or when a member safety concern is present, regardless of membership status.

What should ERS agents do when a member wishes to cancel their membership?
If the member wishes to cancel their membership, they should be referred to member Services.

What should ERS agents do when an annual membership is within the 30-day renewal grace period?
ERS agents must offer to accept payment for the membership renewal. If the member declines to renew, advise the member that they will be billed for the full cost of services if the renewal payment is not received before the membership is cancelled.

What happens if a member with an annual membership cannot pay the renewal payment within the grace period?
Agents should advise the member that service will be provided, but the member will be billed for the full cost of services if AAA does not receive the renewal payment before the membership is cancelled.

What should be done if a member requests service after the applicable grace period has ended?
Annual memberships: If the grace period has ended but the membership has not yet been cancelled, the renewal payment must be processed before the member receives service, unless Hot Call protocol applies.
Monthly memberships: Beginning on day 16 after the payment due date, benefits are suspended. Before receiving service, the member must reauthorize Monthly Auto Pay and pay the past-due balance, unless Hot Call protocol applies.

What should agents do if a member indicates they have mailed a renewal payment, but it is not reflected in MRM?
An additional payment must be collected from the member to receive service, and any overpayments received will be refunded to the member.

How long will refunds take? With respect to refunds for cancelled services, although the refund is promptly processed by AAA, the member's financial institution processing times may vary. Refunds are not the same as reimbursements.

What exceptions exist to the membership renewal policy? Exceptions to the requirement that expired memberships be renewed prior to receiving service include Hot Calls and Minors without a credit card. If the membership is expired beyond the Home Club's cancellation date, and hot call protocol does not apply, ERS agents should offer to transfer the member to DSU in Softphone.

Effective February 18, 2025:

- **Annual memberships:** An unpaid annual membership will cancel after 90 days. If payment is received 96 or more days after the expiration date, a new admission fee is required and a new membership must be written.
- **Monthly memberships:** If payment is not received by the end of day 30 after the due date, the membership will automatically cancel on day 31. After cancellation, the member must obtain a new membership and pay any outstanding ERS and membership fees.

I am trying to process a member payment but the member has a refund in the system (negative balance due in MRM). What do I do?
If the account balance in MRM is negative (reflecting a pending refund), MRM may not allow processing of service charge and other ERS/membership fees because the member has a pending refund in system. In this scenario, transfer the member to SRT or your Local Supervisor Line for assistance (hot calls excluded).

When a third party who is not a member of the household membership calls to pay a member's renewal fee, should I process the renewal?
It depends on whether the member needs service.

- **If the member needs service:**
    - The third party may pay the renewal fee only if they provide both the member's name and membership number, and,
    - One of the following conditions must be met:
        - The member is present at the service location when the service provider arrives; **or**
        - The member participates in the call and gives permission for the third party to make the payment on their behalf.
    - Do **not** disclose membership information to a third party who is not a member of the household membership. All other provisions of service apply.
- **If the member does not need service:**
    - Do not process the renewal. Refer the third party to MSC for assistance.

Member in renewal, third party wants to pay. Do I process payment?
It depends on whether the member needs service.

If service is needed: A third party who is not a member of the household membership may pay the renewal fee if they provide the member's name and membership number and either (1) the member is present when the service provider arrives or (2) the member is on the call and authorizes the payment. All other provisions of service apply. Do not disclose membership information to the third party.

If service is not needed: Refer the third party to MSC.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

AAA Battery Warranty Purchase-Date Verification Policy

The AAA battery warranty begins on the **actual date of purchase** and does not automatically begin or expire at the end of the purchase month.

The battery heat stamp may be used as a **month-and-year purchase-date reference only when all of the following conditions apply**:

1. The member's warranty paperwork, invoice, receipt, or other proof of purchase is unavailable.
2. The battery purchase cannot be located in ERS systems after the required search, including purchases made in another AAA Club territory.
3. The heat stamp is the only available reference for establishing the purchase date.

When all three conditions are met, use the month and year indicated by the heat stamp to determine warranty status. **Do not use the heat stamp in place of an available exact purchase date.**

AAA batteries are sold **exclusively** through **four** channels and the 3-Year free replacement warranty applies.:

1. **AAA Battery Service Program (BSP) technicians** (independent contractors)— at roadside
2. **AAA Approved Auto Repair (AAR) facilities**
3. **NAPA retail centers** (through AAA's partnership with NAPA)
4. **Directly from the AAA service provider** (membership not required)

AAA battery pricing is not available from the knowledgebase; use the AAA battery quote tool for pricing upon member request.

Where can we find what type of battery was installed in a members veh?

If the member is requesting the brand or size ("type") of the AAA battery installed in their vehicle under membership, and does not have their warranty paperwork available, contact SRT to obtain this information on behalf of the member.

Before verifying a AAA battery is under warranty, or checking the status of the warranty, review the original purchase date of the AAA battery before responding (does not apply to non-ACE members (affiliate clubs) who purchased a AAA battery in ACE territory).

ERS agents will not able to locate the AAA battery purchases in MRM for Affiliate/non-ACE Club members. The member should be referred to their home club for further assistance with purchase dates.

Battery service includes jumpstarts and BSP. BSP offers battery replacement service (AAA Batteries). The BSP service provider can also jumpstart the vehicle.

Labor Charges (Battery installation) - Difficult battery installations may incur an additional fee. The member is responsible for any applicable labor charges as well as the cost of required parts. If the member calls back to dispute or complain about the installation fee in this scenario, advise the member that labor charges may apply when the installation requires additional time, complexity, or special handling beyond a standard battery replacement. Suggested Phrasing, "I understand your concern about the fee. Some vehicles require extra time or effort to replace the battery. When that happens, an additional labor charge may apply."

A different AAA service provider originally installed the member's AAA battery. Now, another service provider is on location with the member and is refusing to replace the battery because the previous provider installed the wrong AAA battery. Can we contact the original AAA service provider who installed the incorrect battery? What is the appropriate next step?

There is no need to contact the original AAA service provider. As an ERS agent, if a member reports that an incorrect AAA battery was installed and the current AAA technician on scene refuses to replace it, escalate the matter to the SRT or, after hours, to the local supervisor line for intervention. If the incorrectly installed AAA battery is still under warranty and has failed, the warranty replacement is covered under membership, subject to the standard roadside provisions of service. Refusing to replace an incorrectly installed AAA battery that is under warranty is improper. Escalating to a supervisor ensures the situation is properly reviewed, handled, and documented. If the member prefers a refund instead of a replacement, offer to email them a Battery Reimbursement Request Form and create a CMS complaint detailing the circumstances on the service request.

AAA BSP technician tested a AAA battery and advised member the AAA battery was good, and the alternator was defective. Member took vehicle to mechanic, who stated it was a battery issue; member is now requesting that the diagnostic fee be reimbursed due to a possible incorrect BSP battery test. Is this reimbursable?
That depends, in this scenario, a CMS case should be entered on behalf of the member for member Relations review, which will include a review of the battery test results, if available, and/or contacting the provider for additional information about the test results.

Can a valid out-of-territory member (non-ACE club) who purchased a AAA battery from a non-ACE club receive AAA battery warranty service in ACE territory?
Yes, the AAA battery warranty is honored nationwide by all AAA clubs.

Will AAA replace more than one battery in a vehicle or truck?
If the member wants to purchase more than one battery because their vehicle requires it, the service provider may offer the installation when the battery is available.

Will the Early ERS Use (Same Day), CAPRE, or Service Charge fees be refunded if the member requests AAA battery replacement under warranty, but the AAA battery needed is not in stock and no other service to the vehicle is rendered?
Yes, the Early ERS Use (Same Day), CAPRE, and Service Charge fees will be refunded if the member requests AAA battery replacement under warranty, but the AAA battery is not in stock for a BSP installation and no other service is performed on the vehicle.

If a member pays a service charge, CAPRE, or Early ERS Use fee for BSP service for their currently installed AAA battery, and the AAA battery installed in their vehicle is tested and replaced under warranty by BSP, the fees will be refunded**, as the AAA battery tested bad and was replaced under warranty by the BSP technician.**

Do we offer BSP in St Louis MO?
Battery service is available in all ACE territories. For BSP battery service availability in a specific area, enter the breakdown location in RADAR.

Do AAA technicians reset or reprogram vehicles after AAA battery installation?

After installing a new car battery, some vehicles require a reset or reprogramming of certain systems. In some cases, a simple drive cycle is enough to reset the system, while others may require the member to visit a dealer or mechanic. Upon installation of a AAA battery, AAA technicians may be able to reset the member's vehicle, but this is not guaranteed; the member should never be advised that the technician

The member has used their last call for a battery service today, battery tested bad after the jumpstart and will need to be replaced. Will this be a continuation of service?
If the member is still at the original or nearby location it will be a continuation of service; an Allow Call should be requested for the original call and a service request should be created for the AAA battery installation.

If a member has a AAA battery under warranty- can they drive to a AAA Approved facility (AAR) to have it (the AAA battery) changed out under warranty?
Yes, the member may visit a BSP/AAR facility to request warranty service; the technician at the BSP/AAR will test the battery.

Can a member receive a refund on a recently purchased AAA battery because they no longer need it?
No, the cost of AAA batteries installed at roadside is not refundable; refer the member to the service provider where the battery was purchased for any additional questions.

Member had AAA battery installed under previous membership; can member get a warranty replacement under current membership?
Yes, as long as the original purchaser is present with photo ID, and the battery is in the original vehicle where it was installed by a BSP technician under membership, the member gets warranty replacement service under their new membership (no third-party/stand-in exceptions for warranty service).

Can AAA install a AAA battery for a member at a dealership?
If the member is requesting AAA battery installation at a dealership, the AAA technician may install the AAA battery at the member's expense, subject to dealership approval and the AAA provisions of service. If it is a AAA warranty replacement, service should not be declined due to the member's location.

Can direct appointments be scheduled for members to receive battery service?
Yes, appointment calls are available for battery jumpstarts and AAA battery installations.

A jumpstart is a service where a technician uses cables to start a vehicle with a dead battery by connecting it to a power source from another vehicle. Jumpstarts will be provided for all private passenger, RV, and motorcycles/mopeds/Vespas and similar vehicles covered under valid Classic, Plus, Premier, and RV/Motorcycle memberships, at no additional charge. Motorcycles include Vespa-style and similar scooters/mopeds that are required by the department of motor vehicles to be registered and insured for public street/highway use. Classic, Plus, Premier members do not need RV/Motorcycle coverage to receive a jumpstart under membership. Commercial and company vehicles are not eligible for service under membership. The technician may be able to clean the battery terminals and/or provide other nominal tasks to ensure that the battery is functioning properly, but this is not guaranteed; additional steps taken will be at the discretion of the service technician.

Freeway/Highway Exception:
When a member requests a jumpstart on a freeway or highway, the vehicle may need to be towed to a

safe location before service can be performed. In these situations, agents should select **Towing** as the service type.

If the member needs battery and lockout service, select Battery service and the battery technician will be able to also unlock the vehicle (excludes high security vehicles).

Battery Service Program (BSP)- the Battery Service Program is a nation-wide program and includes a group of service providers that provide roadside assistance for battery-related services. BSP providers offer AAA batteries for sale and replace AAA batteries under warranty (BSP is a nationwide service). Jumpstarts and BSP services can be provided at most breakdown locations, including airports, subject to ERS policy and provisions of service.

A member indicates they have rented their vehicle to a third-party; the vehicle is now disabled. The member is not with the disabled vehicle but is requesting that roadside service be sent to the third-party. Is this a covered service?
In this scenario, the third-party must provide a valid registration and/or insurance card in the member's name to ensure that the AAA technician can confirm that the member is the registered owner of the vehicle (excludes BSP warranty service). The third-party rules apply in this scenario; the person with the member's vehicle must present a valid photo ID and pay all relevant fees at the time of service (excludes BSP warranty service)..

If a AAA battery tests 'Good', can the battery still be replaced under warranty?
No, if the BSP technician's test results in a 'Good' battery health status, the AAA battery will not be replaced under warranty.

AAA does not sell portable battery chargers. AAA technicians do not offer battery charging; a jumpstart will be provided.

Multiple services on one call - If the member needs a jumpstart and fuel or tire service, select jumpstart and make a note of the tire change/air or fuel request in the Driver's notes. If the member needs a jumpstart and lockout service, select Jumpstart as the primary service and document Lockout in the Driver's Notes. If the member needs towing and a tire change, select Tow as the primary service and document tire service in the driver's notes.

First Responder Vehicle Eligibility for Roadside Assistance
AAA does not provide roadside assistance, including jumpstarts, for first responder vehicles (e.g., police cars, ambulances, and fire trucks).

For personal and work vehicles used by first responders:

- **Personal Vehicles:** First responders with a valid AAA membership may request roadside assistance, including jumpstarts, for their personal vehicles under standard membership benefits.
- **Work Vehicles:** First responders **cannot** request roadside assistance for employer-owned or government-issued work vehicles under their personal AAA membership.

If uncertain whether a work vehicle qualifies, ERS agents should check membership records or refer to a supervisor before processing the request.

Unusual battery locations - When a member requesting a jumpstart indicates that their battery is in an unusual location in their vehicle, such as the wheel well, trunk, backseat, etc., ERS agents should document this information in Driver's notes to ensure that the AAA technician arrives with the proper equipment to service the vehicle. Although some batteries are in unusual locations, such as the trunk or under a wheel well, manufacturers usually provide access to positive and negative terminals under the hood for the purposes of jump-starting. Vehicles that have unusual battery locations include, Chrysler 200 and Dodge Avenger (left front wheel well, underneath the headlight with jumper terminals under the hood), Dodge Viper GTS, which has a battery behind the rear wheel and requires removing the wheel entirely for battery replacement but has terminals under the hood if a jumpstart is needed. If a member is requesting installation of a AAA battery and the installation requires removal of the tire to access the battery, the AAA technician will remove the tire to access the vehicle battery to install the AAA battery replacement.

Electric vehicles have are powered with a primary electric battery and a 12 or 16-volt battery. BSP technicians can offer AAA replacement batteries for the 12 or 16-volt battery in electric vehicles (check Battery Quote tool for availability). If the low-voltage battery dies, the car cannot be started, but you can jump-start it via terminals in the front bumper, similar to a gas car. Jumpstarts are available for the 12 or 16-volt battery in electric (EV) and hybrid (HEV) vehicles that are not otherwise excluded under membership. However, this tool is not intended to provide coverage information for specific vehicle makes/models. BSP cannot replace or repair the primary battery for electric vehicles. If you have questions regarding specific vehicles, contact SRT and/or your local supervisor line. Additionally, unless otherwise ineligible for towing under membership, towing may be provided under valid membership by request to the nearest EV charging station. This includes scenarios in which members indicate they have remaining charge but are uncertain they can make it to the charging station safely (just purchased vehicles excluded; offer jumpstart only if the vehicle was operable when purchased but would not restart when driven and parked).

RVs (motorhomes) usually have two types of batteries: Chassis Battery (Starts the engine of a motorized RV similar to a standard car or truck battery) and House Batteries (Deep-Cycle Batteries),which power all the interior living appliances and DC systems when you are off-grid or not plugged into shore power—including lights, water pumps, vent fans, slide-outs, and RV refrigerator control boards. Jumpstarts are available for the chassis battery.

An RV/Motorcycle membership coverage is not required to jumpstart an RV/MC battery. Classic, Plus, Premier members do not need RV/Motorcycle coverage to receive a jumpstart under membership. When a member does not have an RV/Motorcycle membership, jumpstarts will be provided for RVs and MC under all membership types (excluding recreational vehicles that must be towed on/in trailers, such as boats, jet skis, offroad vehicles, etc.).

As a valid member courtesy, jumpstarts may be provided for U-Hauls/moving vans that have been rented for the member's temporary, personal use. The member must be present with photo ID to receive this service; no Third-party (stand-ins).

Battery Service Program (BSP) – BSP is the AAA Battery Service program; BSP technician test the battery and its electrical system (alternator, etc.) to determine the status and identify the battery problem.

BSP is an ACE-wide service/program, subject to local hours of operation and technician availability. As a part of the Battery Service Program, each AAA battery purchased from a roadside technician comes with a 3-year free replacement warranty. AAA battery installation is available for most passenger vehicles; AAA batteries are not offered for recreational vehicles (RV), motorcycles, wheelchairs, golf carts, watercraft, or any other battery-powered conveyances. BSP technicians will make every effort to bring a replacement battery when a replacement is requested by the member; however, in some cases, the specific size battery needed may not be available at the time of the service request. When purchasing a AAA battery from a BSP technician or a BSPAAR repair facility, members will be provided an invoice/sales receipt; if the member does not have an email address to give the provider, they should request the driver to prepare a written receipt, or contact the station directly for a physical receipt if it is requested but unavailable from the driver. When a service provider utilizes digital AAA Battery invoicing in lieu of the former paper invoices, an email address will be requested from the member, and the AAA battery invoice with warranty information will be emailed to the member.

If this AAA battery purchase invoice/sales receipt provided to the member at roadside from the roadside provider is lost, the member may be referred to the AAA contract station or BSP/AAR service provider from which the AAA battery was purchased for a copy of their invoice/sales receipt; alternatively, if the member declines or is not successful in obtaining the receipt from the driver/facility where the battery is purchased, open a CMS case to elevate to member relations and counsel the member to allow 10 business days for follow-up. However, when immediate service is needed, contact SRT for immediate assistance; no CMS case is required when SRT handles the matter directly. Do not transfer the member to MSC for battery purchase receipts or invoices for roadside purchases or services. Note: This does not apply to members who contact MSC directly - MSC agents should handle any battery complaints received directly by creating CMS cases per normal complaint protocol.

What if the member is on scene or no longer on location and states that the service provider could only offer an electronic receipt, was unable to provide a hard copy (printed copy) of the AAA battery invoice after purchase and the member does not have an email address?
If the member cannot provide an email address, a copy of the invoice will need to be reprinted by Member Relations and mailed to the member. Create a CMS case, based on the member's request. If the member does have an email, but the receipt is lost or they are unable to locate it, they have two choices: they can contact the provider directly, or if they decline, a CMS case should be created for Member Relations follow up.

OPD refers to the "Original Purchase Date" of a AAA battery for warranty purposes.

BSPAAR Facility
A BSPAAR facility is a AAA-approved repair facility that also offer AAA batteries for sale and service as a part of the BSP program.

When a non-member or former member (cancelled or expired) is requesting AAA battery service under warranty and does not/cannot renew their membership, they may be referred to a BSPAAR for warranty service; they are not eligible for roadside BSP/jumpstart services.

AAA Battery availability – While technicians will make every effort to bring a AAA battery to install when BSP service is requested by our members at roadside, there are scenarios in which the specific AAA battery size needed may not be available. When this occurs, members requesting replacement under

warranty for failed or defective batteries may follow the third-party retailer policy related to replacement of AAA batteries under BSP warranty. If the member does not have a AAA battery installed in this scenario and BSP installation of a AAA battery was requested, they are entitled to a jumpstart. AAA batteries cannot be purchased online at AAA.com.

BSP Hours
BSP hours vary by service provider. To search for BSP hours for service providers near the members breakdown location prior to completing the service request, use the Reroute Map tool in the RADAR In-App Support under Resource Links. To search for BSP on Cases or service requests that have already been submitted, click on the name of the service provider in the Service territory field.

To determine AAA battery availability for a specific vehicle, use the battery quote tool. This resource is not intended to provide coverage information for specific vehicle makes/models. The AAA Battery warranty is not transferable. A copy of the warranty may be available through direct contact with the provider. The member is responsible for paying the AAA battery charges at the time of service.

The warranty for AAA batteries replaced under warranty during the 3-year free replacement period will continue through the end of the 3-year period; the warranty period does not restart when the AAA battery is replaced during the 3-year free replacement.

For AAA batteries purchased on or prior to December 31, 2022, the warranty period included a 3-year pro-rated warranty. If the AAA battery purchased on or prior to December 31, 2022 fails during the 3-year pro-rata warranty period, and a replacement is installed by BSP, the 3-year free replacement warranty period will start over and apply from the date of the warranty replacement purchase. To determine which period of the warranty the member is in, the month and year of the AAA battery purchase should be established.

When a member purchases a new AAA battery at roadside, the service call will count against their annual call allotment. If the member has exhausted their call allotment (in service charge), a service charge must be paid prior to sending a technician to test the AAA battery under warranty. If the AAA battery is tested by the provider fails after the service charge is paid and during the free replacement or prorated period, the service call will not count against the members annual call allotment if the AAA battery is replaced under warranty and any service charge paid will be refunded.

What are the prorated prices for a AAA battery after the initial 3-year warranty? Check the calendar date prior to determining which warranty period of the battery is currently in.
For AAA batteries purchased on or prior to December 31, 2022, prorated pricing is determined as follows: Warranty Year 4 (37 to 48 months)-40% off of AAA battery price, Warranty Year 5 (49 to 60 months)-25% off of AAA battery price, Warranty Year 6 (61-72 months)-10% off of AAA battery price.

Refunds are not the same as reimbursements.

If the AAA battery purchaser sells, donate, or gives away the vehicle in which the AAA battery was installed, returns of and/or refunds for the AAA battery are not allowed, and the warranty is non-transferrable.

This tool is not intended to provide types of batteries available for vehicle make/models. Please refer to the Battery quote tool to determine availability. Please refer to the Battery quote tool to determine AAA battery availability.

What brand are AAA batteries?
Effective May 11, 2025, BSP service providers began the transition from Interstate to Club Assist batteries. Club Assist is the largest automotive battery retailer in the world, supporting its motoring club partners in serving more than 66 million Members worldwide. Please note, there are no changes to the AAA Battery warranty as a result of this supplier change; however, during this transition, some providers may continue to install Interstate batteries until they have exhausted their supply. Also, batteries installed by BSP and BSP/AAR facilities still contain the AAA brand.

Members and non-members may purchase AAA batteries at NAPA retail centers; batteries purchased at NAPA retailers come with a 3-Year free replacement warranty. Warranty service will be provided to AAA members for AAA batteries purchased at NAPA retail centers; however, AAA batteries purchased at roadside cannot receive warranty service at NAPA centers.

However, batteries purchased by non-members at NAPA stores are not eligible for AAA Roadside warranty service; non-members may seek warranty service for NAPA-purchased AAA batteries from NAPA retailers only. For non-member warranty service on NAPA AAA battery purchases, counsel the member/caller to contact the NAPA store where the battery was purchased.

AAA battery availability is subject to manufacturer limitations. AAA Automotive will continue to expand availability in the tool as product becomes available. To determine if BSP service is available, enter the location, vehicle, and service type.

The AAA Battery warranty is not voided non-members due to infrequent use of vehicle.

According to the ERS AAA battery warranty protocol, if a AAA battery purchased under membership fails within the warranty period, the member must contact AAA to request testing by a BSP (Battery Service Provider) technician. Alternatively, the member may visit a BSP or AAR (Approved Auto Repair) facility for battery testing.

If the AAA battery is tested by a AAA technician or BSP/AAR and determined to have failed under warranty, the battery may be replaced under warranty. Third-party test results are **not accepted** in place of an attempt to follow warranty protocol to obtain AAA testing. Failure to follow the AAA battery warranty protocol may result in denial of reimbursement for a replacement battery purchased from a third party. Exceptions to the warranty protocol are limited:

1. A BSP provider (ICS that is a BSP provider) is not available to perform the warranty service.
2. A replacement AAA battery is not available when the technician or provider arrives, or when visiting a BSP/AAR.

In these cases, if the battery fails testing by a BSP and a replacement AAA battery is not available, the member may purchase a battery from a retail location of their choice. Reimbursement may be considered if the member submits a receipt or invoice that includes: The original purchasing member's name, date of purchase, Itemized costs, Proof of payment by cash, credit/debit, check.

If the member states that they will or have purchased a replacement battery, service representatives should email the reimbursement forms for the member's home club. If the member does not have an email address, confirm the mailing address and elevate for follow-up according to existing protocol.

If a BSP or AAR/BSP provider is requesting authorization to replace a AAA battery, they should contact SRT or a local supervisor line for guidance.

Recreational Vehicle (RV) Replacement Batteries - AAA BSP may provide replacement batteries for RVs that are driven on public roads and require a driver's license; the BSP technician will confirm AAA battery availability for RVs.

Motorcycle Replacement Batteries - AAA BSP does not currently offer Motorcycle replacement batteries for purchase. Classic, Plus, Premier members do not need RV/Motorcycle coverage to receive a jumpstart under membership. NAPA offers a variety of RV/motorcycle/trailer/power sports batteries.

Battery Pricing - Do not proactively offer AAA battery pricing When a member requests battery pricing, use the AAA Battery Quote Tool to provide an estimate. Pricing in the battery tool does not include taxes, and other regulatory fees. Difficult battery installations may incur an additional fee. The member is responsible for any applicable labor charges as well as the cost of required parts. If the member calls back to dispute or complain about the installation fee in this scenario, advise the member that labor charges may apply when the installation requires additional time, complexity, or special handling beyond a standard battery replacement. Suggested Phrasing, "I understand your concern about the fee. Some vehicles require extra time or effort to replace the battery. When that happens, an additional labor charge may apply."

If the member wants to elevate their concerns about the additional fees charged at the time of the AAA battery installation, open a CMS case on behalf of the member and follow complaint protocol. The BSP technician will provide final pricing. Visit the AAA Battery Quote Tool here https://www.aaa.com/carbatteryquote/; it can also be located in RADAR In-App Support (orange question mark in the lower right of the screen-search ACE Battery Guide and click the link).

BSP Availability – When BSP services are requested but are not available at the time of the valid member's service request, members have the option of jumpstart services. If BSP warranty services, such as testing and/or replacement under warranty are requested by a valid member and BSP is not available, the member may be referred to a BSPAAR or counseled to purchase a battery from a third-party retailer, such as NAPA, a BSPAAR, or similar retailer, and submit the detailed receipt or invoice and AAA reimbursement form for consideration of reimbursement. Members without an existing AAA battery installed are not eligible for reimbursement when they purchase a battery from a third-party retailer; do not offer reimbursement forms in this scenario.

Again, if a member wishes to purchase a new AAA battery to replace a non-AAA battery, and BSP is not available, offer a jumpstart, referral to a BSPAAR facility, or advise them of the AAA/NAPA Auto Center partnership.

Can NAPA replace a AAA battery under warranty for a cancelled member?

No, unless the AAA battery was originally purchased from NAPA. Although NAPA partners with AAA to feature AAA batteries, AAA battery warranty service for batteries purchased at roadside from AAA BSP

providers or at BSP/AARs is not available from NAPA retail centers. Cancelled members may visit a BSP/AAR for warranty service or rejoin AAA.

When a AAA battery under warranty that is tested by a BSP technician tests 'Good – Recharge', a jumpstart will be provided. When a AAA battery under warranty that is tested by a BSP technician tests 'Good - Recheck Soon', a jumpstart provided, and the member will be advised that the battery health is declining. When a AAA battery under warranty that is tested by a BSP technician tests 'Charge & Retest' (aka Recharge Retest), it will be replaced under warranty. When a AAA battery under warranty that is tested by a BSP technician tests 'Analysis Unavailable', it will be replaced under warranty. When a AAA battery under warranty that is tested by a BSP technician tests Replace Battery, it will be replaced under warranty.

When a member indicates that the AAA battery installed is the incorrect battery size, a service request should be initiated for BSP service, and the call should be elevated for Supervisor Review. Document on the service request should include, "Member Purchased AAA Battery–incorrect battery was installed." If the member indicates they would like a reimbursement on the incorrectly installed AAA battery in lieu of replacement, offer to email the member a Battery Reimbursement Request Form. However, if the member is requesting/requested the incorrect battery be installed, the ERS agent and the service technician must document this request clearly for future reference.

An Affiliate Club member (non-ACE Club) purchased AAA battery while in ACE territory. Where can I find the purchase date? That depends; if the AAA battery was purchased in ACE territory within the last 3 years, perform a membership search, per existing protocols and locate the related service order. If the purchase was made more than three (3) years ago, this information may not be available; the technician will review the heat stamp on the battery to determine warranty status.

An Affiliate Club member (non-ACE Club) is in ACE territory and needs AAA battery warranty service for a AAA battery purchased in an Affiliate Club (non-ACE) Club. Where can I find the purchase date? The affiliate club where the AAA battery was purchased may be contacted for the OPD, or the technician can review the battery heat stamp upon arrival to service the vehicle.

When a member requests their AAA battery purchase date, sometimes referred to as DOP (date of purchase) or Original Purchase Date (OPD), and it is not readily available, advise the member that the provider will confirm the purchase date using the heat stamp upon arrival (expired/cancelled memberships not eligible for roadside warranty service). The sticker or heat stamp represents Mo/Yr that the battery was manufactured; AAA batteries are kept in stock for 3 months only. If the member insists on confirming the purchase date prior to BSP arrival, review the ERS usage history in MRM Portal and document date for the BSP provider (searching ERS usage history for purchase dates does not apply to non-ACE clubs, which are affiliate Clubs; the club where the AAA battery was purchased may be contacted). Alternatively, the technician can review the battery heat stamp upon arrival to service the vehicle (except in expired/cancelled membership scenarios). If the purchase date cannot be found using these methods, document, "No Purchase Date Found", and advise member the technician will review the heat stamp on the battery upon arrival. If member still insists that the purchase date be provided, contact SRT or your Local Team Override or Support Chat for further assistance.

Battery Service - Roadside

When a former member (expired or cancelled membership), who is now a 'non-member', requests a AAA battery purchase date, obtain the vehicle information and review the ERS usage history in MRM Portal in an attempt to locate the purchase date. If the purchase date cannot be found, counsel the non-member to locate their warranty paperwork and refer them to a BSPAAR facility.

Simply removing the AAA battery from the vehicle does not automatically void the warranty, although the warranty will not be honored unless the battery fails and the warranty replacement is installed in the same vehicle. However, for roadside BSP assistance, the battery should remain in vehicle. If the battery is removed from the vehicle, warranty paperwork may be required to receive warranty service. Towing should not be denied for a vehicle that does not have a battery.

The Free Replacement AAA battery warranty period is for years one (1) through three (3). Effective January 1, 2023, the Discounted/Pro-rated warranty period was discontinued. The warranty for AAA Batteries purchased prior to January 1, 2023, have a Pro-rated or Discounted replacement period for years 4 through 6. The AAA BSP warranty for all batteries purchased after December 31, 2022, is limited to three (3) years Free Replacement period. Requests for AAA Battery replacement beyond the warranty period, due to faulty installation, incorrect size or other complaints will not be approved. To determine which period of the warranty the member is in, the month and year of the AAA battery purchase should be established.

Upon installation of a AAA battery, the old battery core is recycled and returned to the manufacturer for credit. If the member wants to retain possession of their old battery (core) after installation of the new AAA battery, the battery price will increase (core fee or core charge, not CAPRE fee). The old battery is recycled and returned to the manufacturer for credit. Once the technician has left the scene, the old battery cannot be retrieved from the provider.

AAA technicians cannot install third-party batteries under membership. Only batteries purchased from AAA BSP technician at roadside, or at a BSPAAR facility are eligible for installation under membership.

Former and/or non-members (expired or cancelled) with AAA batteries installed in their vehicle are not eligible for roadside warranty service under membership, including jumpstarts. Service representatives should refer the former (expired or cancelled) original purchasing member to a BSPAAR facility and advise them to provide the warranty paperwork to the facility for warranty service. The AAA Battery warranty is not transferable.

If a vehicle is sold or purchased with a AAA battery installed, the vehicle purchaser is not eligible for BSP services. The AAA battery warranty is not transferable; the original purchaser must be present for BSP warranty service (no third-party/stand-in exceptions for warranty service).

If BSP warranty service is requested for a AAA battery with no heat stamp, warranty paperwork is not available, and the year make and model do not match, the original purchase date must be established by a review of the purchasing member's history. The original service request which details the AAA battery installation must be located to confirm purchaser and purchase date. This process may include searching prior or associated memberships, including household members and Spinoff memberships.

AAA Battery - Condition (Leaking) - When the member indicates the AAA battery purchased under their membership is leaking, the following protocol applies: Initiate a service request for BSP service only,

document the member's statements, Counsel the member that the leaking battery will be replaced under warranty.

AAA Battery - Condition (Damaged) - When the member indicates the AAA battery purchased under their membership is damaged, the following protocol applies: Initiate a service request for BSP service only, document the member's statements, Counsel the member that the technician will assess the battery on-scene.

What do I do if the jumpstart fails, and the member's battery is still dead?
When an attempt to jumpstart fails, the member may choose to purchase a battery from the BSP technician or have the vehicle towed under available roadside benefits. In this scenario, the case/request that resulted in a failed jumpstart may be allowed.

Does BSP offer replacement AAA batteries for motorcycles under membership?
No, BSP does not offer replacement batteries for purchase for motorcycle,

Can I use this tool to find availability for types of AAA batteries we carry for specific vehicles?
No, this tool is not intended to provide battery availability for vehicle make/models. Please refer to the Battery quote tool to determine availability.

Does purchasing a new AAA battery at roadside count against a member's annual call allotment?
Yes, purchasing a new AAA battery at roadside counts against the member's annual call allotment.

Does the service call count against the membership if the AAA battery fails during the Free Replacement warranty period?
No, if a AAA battery fails and is replaced under the Free Replacement warranty period, the service call will not count against the member's annual call allotment. However, if the member has exhausted their call allotment and requests warranty service, a service charge must be paid prior to sending a technician to test the AAA battery under warranty. However, if the AAA battery is tested by the provider, fails, and is replaced under the Free Replacement warranty period, the service call will not count against the members annual call allotment and the service charge will be refunded.

Does replacing a failed AAA battery under warranty affect the annual call allotment?
No, replacing a failed battery under the Free Replacement warranty does not count against the annual call allotment. However, if the member has exhausted their call allotment (in service charge), a service charge must be paid prior to sending a service technician. However, if the AAA battery is tested by the provider, fails, and is replaced under the Free Replacement warranty period, the service call will not count against the members annual call allotment and the service charge will be refunded.

Where can AAA batteries be purchased?
AAA batteries can be purchased through AAA Battery Service Program (BSP) technicians at roadside, AAA Approved Auto Repair (AAR) facilities (BSP/AARs), and NAPA retail centers.

Can non-members purchase AAA batteries?
Yes, both members and non-members can purchase AAA batteries at NAPA retail centers. However, batteries purchased from NAPA are not eligible for installation at roadside.

Are NAPA-purchased batteries eligible for AAA Roadside warranty service?
It depends, for AAA members only, roadside warranty service will be provided for AAA batteries purchased at NAPA retail locations. However, warranty service will not be provided for non-members or former members who purchase AAA battery at NAPA stores; service is limited to a jumpstart.

What should members do for warranty service on a AAA battery purchased at NAPA?
Valid AAA members can receive warranty service under membership; non-members should be referred to the NAPA store where the battery was purchased for warranty service.

Who sells AAA batteries outside of AAA technicians and BSPAAR **facilities?**
NAPA retail centers also sell AAA batteries as part of their partnership with AAA; warranty service for these batteries is available through NAPA retail stores.

What is a jumpstart service?
A jumpstart is a service where a technician uses cables to start a vehicle with a dead battery by connecting it to a power source from another vehicle.

Which types of vehicles are eligible for jumpstart services under valid memberships?
Jumpstarts are provided for all passenger vehicles, RVs, and motorcycles covered under valid Classic, Plus, Premier, and RV/Motorcycle memberships at no additional charge.

Can jumpstarts be provided for electric and hybrid vehicles?
Yes, jumpstarts are available for the 12 or 16-volt battery in electric (EV) and hybrid (HEV) vehicles.

What should a member do if they need towing to the nearest EV charging station?
Towing may be provided under a valid membership by request to the nearest EV charging station if the member indicates they have remaining charge but are uncertain they can make it safely, unless otherwise ineligible for towing under membership.

How can a member locate the closest EV charging station?
Members can use the AAA Mobile app or visit AAA.com/evstations to locate the closest EV station.

Is RV/Motorcycle coverage required to jumpstart an RV or motorcycle battery?
No, RV/Motorcycle coverage is not required to jumpstart an RV or motorcycle battery. Jumpstarts may be provided for RVs and motorcycles under all membership types.

What identification must a member present to receive a jumpstart service for a rented vehicle?
The member must be present with a photo ID to receive the jumpstart service for a rented U-Haul or moving van (no third-party/stand-in exceptions for rented vehicles).

How can BSP hours be determined for a service provider near a breakdown location?
Use the Reroute Map tool in the RADAR In-App Support under Resource Links to search for BSP hours for providers near the member's breakdown location before completing the service request.

How do you find BSP hours for service providers on already submitted cases or service requests?
Click on the name of the service provider in the Service Territory field on the case or service request.

Do BSP hours remain consistent across all providers?
No, BSP hours vary by service provider.

What tool is used to search for BSP hours before completing a service request?
The Reroute Map tool in the RADAR In-App Support under Resource Links to locate BSP hours before completing a service request.

Does the warranty restart when a new AAA battery is installed during the 3-year free replacement period of an installed AAA battery?
No, the warranty for AAA batteries replaced under warranty during the 3-year free replacement period will continue through the end of the 3-year period; the warranty period does not restart when the AAA battery is replaced during the 3-year free replacement.

What happens if an AAA battery with a pro-rated warranty fails during the 3-year pro-rata period?
If the battery is replaced by BSP during the 3-year pro-rata period and the replacement battery will have a 3-year free replacement warranty from the date of the replacement purchase. To determine which period of the warranty the member is in, the month and year of the AAA battery purchase should be established.

Are AAA batteries replaced during the 3-year pro-rated period eligible for a new warranty?
Yes, warranty replacements under the 3-year pro-rata warranty period receive a new 3-year warranty period. To determine which period of the warranty the member is in, the month and year of the AAA battery purchase should be established.

Can a jumpstart be provided for an RV or motorcycle under any membership type?
Yes, jumpstarts for RVs and motorcycles are available under all membership types.

Are there any recreational vehicles excluded from jumpstart services?
Yes, recreational vehicles that must be towed on or in trailers, such as boats, jet skis, and off-road vehicles, are excluded from jumpstart services.

Does the type of membership affect eligibility for RV or motorcycle jumpstart services?
No, jumpstart services for RVs and motorcycles are provided regardless of membership type.

What kinds of recreational vehicles are not eligible for jumpstart services?
Vehicles like boats, jet skis, and off-road vehicles that require towing on or in trailers are not eligible for jumpstart services.

Does AAA offer battery charging?
AAA does not sell portable battery chargers. AAA technicians do not offer battery charging; a jumpstart will be provided.

How should ERS agents handle calls regarding vehicles with unusually located batteries?
Document the battery location in Driver's Notes to ensure the AAA technician arrives prepared.

Where do manufacturers typically provide access for jump-starting vehicles with unusual battery locations?
Under the hood, with designated positive and negative terminals.

What are some examples of vehicles that have batteries in unusual locations?
Chrysler 200 and Dodge Avenger (left front wheel well, under the headlight). Dodge Viper GTS (behind the rear wheel, requiring wheel removal for battery replacement).

What must be done if a member requests a AAA battery installation and the battery requires wheel removal?
The AAA technician will remove the tire to access and install the replacement battery.

What should be noted for a Dodge Viper GTS battery jump-start?
The vehicle has terminals under the hood for jump-starting, avoiding the need to remove the rear wheel.

Why is it important to document unusual battery locations?
It ensures the technician arrives with the necessary equipment and knowledge to perform the service.

If battery test is saying the battery has an excessive ripple, can we change it?
Excessive ripple" might indicate an issue with the vehicle's electrical system rather than the battery itself, and a technician will need to determine if the battery qualifies for warranty replacement based on standard testing criteria.

Can an appointment be scheduled for battery service, jumpstarts and/or AAA battery installation?
Yes, Appointment Calls are available and can be scheduled for jumpstarts and/or BSP AAA battery installations.

Can a tow truck driver check/test the member's battery?
It depends, while BSP technicians may arrive in smaller, non-tow service vehicles, such as pickup trucks and vans. In some cases, they may also arrive in tow trucks with battery testing equipment available.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days. However, when immediate service is needed, contact SRT for immediate assistance; no CMS case is required when SRT handles the matter directly. If this AAA battery purchase invoice/sales receipt provided to the member at roadside from the roadside provider is lost, the member may be referred to the AAA contract station or BSP/AAR service provider from which the AAA battery was purchased for a copy of their invoice/sales receipt; alternatively, if the member declines or is not successful in obtaining the receipt from the driver/facility where the battery is purchased, open a CMS case to elevate to member relations and counsel the member to allow 10 business days for follow-up. Do not transfer the member to MSC for battery purchase receipts or invoices for roadside purchases or services. If members contact MSC directly - MSC agents should handle any battery complaints, forms and related requests by creating CMS cases for Member Relations follow up.

AAA technician tested AAA battery it advised member the battery was good, and the alternator was defective. Member took vehicle to mechanic, who stated it was a battery issue; member is now requesting that the diagnostic fee be reimbursed. Is this reimbursable?
That depends, in this scenario, a CMS case should be entered on behalf of the member for member Relations review, which will include a review of the battery test results, if available, and/or contacting the provider for additional information about the test results.

The member is on scene or no longer on location and states that the service provider was unable to provide a hard copy (printed copy) of the AAA battery invoice after purchase because the member did not have an email address.

If the member cannot provide an email address, a copy of the invoice will need to be reprinted by Member Relations and mailed to the member. Create a CMS case, based on the member's request. If the member lost or cannot find the email receipt, they have two choices: they can contact the provider directly, or if they decline, a CMS case should be created for Member Relations follow up.

Can a AAA technician take battery out of one vehicle and install it in another vehicle?

No, AAA BSP technicians are unable to remove any battery from a vehicle and install it in another vehicle.

Is the AAA battery warranty transferrable between states?

Regarding state-to-state coverage for the original purchaser: Yes! The AAA battery warranty is honored nationwide by all AAA clubs. A valid out-of-territory or non-ACE club member who purchased a AAA battery can receive AAA battery warranty service in ACE territory, and vice versa.

- The Battery Service Program (BSP) is a nationwide program, so the original purchasing member can receive warranty service even if they break down in a different state than where the battery was purchased.
- In summary: The warranty is not transferable between owners, but the original purchaser is covered nationwide across all states.

Will we replace a AAA battery under warranty that was in a vehicle when the member purchased the vehicle?

No, the AAA battery warranty is not transferable. If a vehicle is sold or purchased with a AAA battery installed, the vehicle purchaser is not eligible for BSP services. The original purchaser must be present with photo ID for BSP warranty service (no third-party/stand-in exceptions for warranty service).

Which markets (Clubs) charge an entitlement (call counts against membership allotment) when a member purchases a AAA battery?

All ACE markets charge an entitlement when a AAA battery is purchased. However, if a AAA battery is replaced under the free replacement period of the warranty, the call will not against the annual call allotment.

How many AAA battery replacements can a member get under the BSP warranty?

There is no established limit for replacements; however, multiple replacements during this period may indicate other vehicle issues. The battery and charging system will be tested by a AAA BSP technician to determine the cause of the failure.

Incorrect Vehicle Listed on AAA Battery Invoice – Step-by-Step

1. **Confirm when the AAA battery was purchased.**
2. **If the battery was purchased recently:**
   - Refer the member back to the service provider that installed the battery to correct the invoice. No further action is required by ERS.
3. **If the battery was *not* purchased recently and the member is requesting warranty service:**
   - Locate and review the original service request in which the battery was purchased.
4. **Verify the following details match between the service request and the battery invoice:**

- Membership number
- Member name
- Service date
- Vehicle information

5. **If all information matches:**
   - Proceed with standard warranty handling.
6. **If any information does not match:**
   - Send the service provider out to verify the information. If the service provider declines warranty service, contact escalate the case to **SRT** for further review.
7. **SRT may:**
   - Review the call recording from the original service request
   - Confirm whether the incorrect vehicle information was entered in error based on the member's statements

How do I find a OPD in RADAR?
Depending on the purchase date, in the OPD may be found in RADAR.In some cases, the OPD may be found if there under a prior membership using the member's phone number in RADAR. Check all battery calls associated with that phone number and click the accounts, then related to attempt to locate battery calls. Review the call history under the account. The prior membership details will not come up in MRM.

How do I locate a AAA battery purchase date (OPD) for a AAA battery that was purchase in ACE territory by an Affiliate club member who was visiting within ACE territory and obtained BSP service from an ACE service provider?
Purchase dates for affiliate members are not available in MRM. If the member needs service, the driver will inspect the heat stamp. If the affiliate member needs further information about their purchase date or membership information, refer them to their home club.

If the affiliate club member does not need service at the moment and just needs the information and you are unable to locate it, refer the affiliate member to their home club.

What is the 'Warranty Clock'?
The warranty clock begins the moment the AAA battery is purchased or replaced under warranty. To determine warranty status, review the date and type of warranty related service, whether purchase date or replacement date under free replacement period or prorated period, if appliable.

If a member is double charged or incorrectly charged for a AAA battery purchase by the service provider what can we do?
That depends: first, determine whether the member has contacted the service provider to discuss the issue. If not, locate the service request for the AAA battery purchase and provide the service provider contact information to the member and instruct them to discuss it with the provider. If the member has contacted the provider but the matter remains unresolved, or if the member declines contact with the provider, create a CMS case for the complaint and counsel the member to expect follow-up within 10 business days.

As part of our continued Enterprise Modernization effort, invoices for AAA batteries purchased beginning June 30, 2026 and going forward will now be available directly within RADAR/Salesforce.

Battery Service - Roadside

Currently, when members call with battery warranty questions without their paperwork, agents must access the MRM Portal to research purchase history. This often increases call handling time and can lead to inconsistent outcomes.

With this release, AAA battery purchase invoices are automatically generated as read-only PDFs and attached to both the Work Order and the Member Account in RADAR/Salesforce for batteries purchased after the release date.

Locating the AAA Battery Invoice
There is a new section labeled Invoices on the WO. If there is an invoice (battery calls) it will be listed here.
Locate a member's account in RADAR/Salesforce

The user can click the invoice to open for details—the invoice will be linked to the member as well as the WO. The Related tab of the invoice has a breakdown of charges, as well as the history of the invoice and Files section (Files is where the generated PDF of the invoice will be listed).
Confirm: Review the vehicle details on the invoice , Document purchase date on the current service order, if applicable ,
Battery Test Details
When a member receives battery service and the battery is tested by BSP, the test results will appear in the Invoice object.

Member Relations Representatives – ERS Management Use
Generating Invoices
When a member is requesting proof of AAA battery purchase, a duplicate receipt may be generated and emailed upon request via the Generate PDF button on the upper right-hand corner of the Invoice panel.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
This policy tool cannot be used to confirm which keys/key fobs are available from AAA locksmith services based on the make and model of the vehicle, as some keys/key fobs are dealer-only items. The AAA locksmith will confirm keys/key fobs availability with the AAA member and contact the member to provide ETA and charges.
AAA locksmith providers cannot provide replacement keycards for vehicles that use card entry, such as brands like Tesla, Chevrolet, Cadillac, Volvo, and others. However, lockout service may be available to open the vehicle door. However, a tow truck driver can still unlock a vehicle that uses keycard entry (such as many Tesla models, newer Chevrolets, or Renaults) when the owner is locked out using specialized, non-destructive tools to bypass electronic locks.

Can locksmith replace an ignition under membership?
Yes, the covered amount is based on the benefit level.

Locksmith Service: All ACE Classic members are covered for $60 of Locksmith benefits (no Home Lockout). Plus members are covered for $100 of Locksmith benefits (no Home/house Lockout). Premier members are covered for $150 of Locksmith benefits, and $100 of Home Lockout services which includes the cost of re-keying ignition, replacing ignition (ignition switch), if necessary, rekeying car door lock only when the door/ignition key are the same and the key is lost or broken, changing locks or making a new house key only when the lock must be drilled to gain entry to the home/house or if keys are lost or stolen. Quotes for locksmith services will be provided by the locksmith service provider. Agents are required to inform the member of their benefits and the responsibility to pay all fees in excess of the covered amount to the provider at the time of service. This tool cannot provide vehicle make/model specific coverage information (i.e., Prius, Tesla, etc.). Tesla and similar passenger vehicles are eligible for all services, subject to the provisions of service. To determine whether a vehicle qualifies for locksmith or lockout services, please enter the vehicle information into RADAR.

If the AAA locksmith is unable to open the member's house door, will the member have to pay the charges that exceed $100?
The AAA Premier member is responsible for paying up to $100 for the home lockout service, and any charges that exceed $100 are also their responsibility. The Premier Home Lockout benefit provides coverage up to $100 for locksmith services to gain entry to the home, whether successful or not. All charges over $100, as well as any other residential locksmith services, are at the expense of the Premier member.

Once a Premier or Plus member has used all of their service calls for the membership year (annual call allotment), what is available to them?
When a Plus or Premier member has used all of their service calls for the year (annual call allotment), they are limited to Classic benefits only upon payment of the service charge (Home Lockout not available).

Appointment Calls are not available for Locksmith and RV tire change and towing services; Lockout service may be scheduled using Appointment Call protocol.

Motorhome Lockouts – If the member indicates that they are locked out of the passenger compartment of their motorhome, lockout and/or locksmith services can be provided, subject to provisions of service and benefit limitations.

Travel Trailer Lockouts – If the member indicates that they are locked out of a trailer, locksmith services can be provided, subject to provisions of service and benefit limitations (this is not a Lockout service).

Reimbursement Terms - If it is necessary for a member to pay for covered membership service at commercial rates, such as purchasing a replacement key FOB at a dealership (excludes recently purchased vehicles), the member must request and provide documentation, including an itemized receipt or invoice listing the member's name, vehicle, the appropriate reimbursement form, proof of payment (i.e., credit card receipt), and a brief description of the circumstances.

If a member gets a key made at a dealership, would it be eligible for reimbursement for their locksmith coverage?
Yes, if a member gets a replacement key made at a dealership, they may submit the required documentation for reimbursement consideration.

Do technicians offer replacement key fob batteries?
No, replacement batteries for key fobs are not covered under membership. If the member is unable to start their vehicle, a tow may be provided.

What happens Locksmith service is needed and the Plus or Premier member is in Service Charge, having used their annual call allotment?
When the annual call allotment is exhausted, the member is only eligible for Classic benefits (RV/Motorcycle towing extrication, and tire changes excluded); the member must pay the service charge and will only be eligible for Classic benefits.

Do AAA locksmith make spare keys?
No, making spare key is not covered under membership.

If the vehicle is unlocked but the keys needed to operate it are locked inside the glovebox, can a locksmith gain access to the glovebox to retrieve them?
Yes, but only if the keys required to operate the vehicle are locked in the glovebox. This service is subject to the member's locksmith benefits and the locksmith is not responsible for repairing the lock once removed.

Can a member use their membership to have a key made for someone else car?
Yes, Locksmith service can be provided when a vehicle in which the member is a driver or passenger requires locksmith services and the member is present with photo ID.

Locksmith services under membership do not apply to rented cars and trucks and other temporary use vehicles such as U-Haul/moving trucks and vans, rented passenger vans, and other vehicles that are otherwise not covered under membership. Courtesy Lockout (cab only), air only, and Jumpstart services may be provided as a courtesy for U-Haul, Penske trucks/vans and similar moving vehicles rented by the member and intended for the member's temporary, personal use. No other services will be provided for these temporary use vehicles.

Member needs vehicle unlocked, but the membership card and photo ID are locked in the locked; the membership is not in service charge. Can we provide service?
To service a member whose photo ID is locked in the vehicle and the membership is not in service charge, a supervisor may approve additional steps to verify the member's identity prior to processing the request for service. This may include membership and past usage details. When the vehicle is opened, the photo ID must be shown to the service provider.

Are locksmith services provided under AAA membership for rented cars or trucks?
No, locksmith services do not apply to rented cars or trucks under membership.

Are any temporary use vehicles eligible for locksmith services under AAA membership?
No, temporary use vehicles are not covered for locksmith services under membership.

Quotes for locksmith service will be provided by the locksmith service provider. Replacement ignition keys can be made with fob programming for most vehicles in situations where keys have been lost, stolen, or broken; however, spare keys are not covered under membership. Other locksmith services include assessment and possible repair of ignition problems (ignition switch), Club removal, removal of locking gas cap when the key is unavailable. Key replacement includes programming. However, some dealer only fobs may be unavailable, and towing may be provided to a dealer of the member's choice.

When a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges to gain access to the trunk that exceed their benefit level.

Club Removal
When using the knowledgebase tool, users should specify whether the member is requesting a Club security device removal from the steering wheel or have the AAA technician with a locked steering wheel. Both services are covered. However, documentation of the member's specifics must be documented for the service provider.

Is club removal for a vehicle on a trailer covered?
That depends. If the vehicle with the locked club is otherwise covered under membership (excludes recently purchased vehicles) and removal of the Club device will otherwise restore the vehicle to normal operation on regularly traveled roads and highways, service can be rendered under locksmith benefits, subject to all other ERS service provisions.

Does a Classic membership cover the cost for a locksmith to unlock a high security vehicle?
That depends, when the system indicates the vehicle is high security, a locksmith may be required to make entry to the passenger compartment at no additional charge to the member. However, when a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges that exceed their benefit level.

When the system indicates the vehicle is high security, a locksmith may be required to make entry to the passenger compartment. There is no additional charge for Locksmith services to unlock a high security to the passenger compartment. The cost of vehicle locksmith services which are not necessary to place the vehicle in a safe drivable condition, such as duplicating existing keys, non-emergency lock repair are not covered under membership.

When processing Locksmith requests, members should be counseled that the provider will contact them with charges and a precise ETA.

Home Lockout (AAA Premier)

AAA Premier Members are eligible for **one (1) Home Lockout service per Membership year, per household**, with coverage of **up to $100** for eligible locksmith services.

Covered services include:

- Gaining entry to the Member's **primary residence on file** by picking or drilling the exterior lock.
- Re-keying, changing locks, or making a new house key **only when**:
    - the lock must be drilled to gain entry, or
    - the keys are lost or stolen.

The benefit:

- Is limited to the Member's **primary residence on file** only.
- Does **not** apply to interior doors, detached buildings, garages, sheds, or other locked areas.
- Is **not transferable** and may not be used for third parties.
- **Does not count** toward the Member's annual roadside service call allotment.

Member Requirements

- The AAA Premier Member **must be present** at the time of service.
- The Member must provide **valid photo identification** and **proof of the residence on file**.
- If the Member has only a **P.O. Box** on file, refer them to the Membership Department (MSC) to update their residential address before service can be dispatched.
- For rental properties (including apartments, Airbnbs, or other rentals), the locksmith may require permission from the property owner or property manager before providing service.

Charges and Reimbursement

- Any charges **over $100**, or charges for locksmith services not specifically covered by this benefit, are the responsibility of the Member.
- If AAA is unable to dispatch a locksmith, the Member should be referred to a commercial locksmith and may submit a reimbursement request for covered expenses, up to the $100 benefit limit.
- If the Member cannot be present, offer a **Customer Pay (COD)** referral. The Member may submit a reimbursement request for eligible covered expenses.

Additional Information

- Locksmith services are provided by independent providers and are subject to availability. Arrival times vary based on locksmith availability.
- The locksmith is responsible for verifying the Member's legal right to enter the residence before service is performed.

To set up Home Lockout for premier members, select Home Lockout as the service Type in Radar and process the call.

Should I provide the member with a quote from the locksmith?
No, quotes for locksmith services covered under membership will be provided by the locksmith service provider.

How much locksmith coverage do Classic members receive?
Classic members are covered for $60 of locksmith benefits (no Home Lockout).

How much locksmith coverage do Plus members receive?
Plus members are covered for $100 of locksmith benefits (no Home Lockout).

What locksmith benefits are Premier members entitled to?
Premier members are covered for $150 of locksmith benefits, and $100 of Home Lockout services, which includes the cost of re-keying, changing locks or making a new house key only when the lock must be drilled to gain entry to the home or if keys are lost or stolen.

What should agents inform members about locksmith services?
Agents must inform members of their locksmith benefits and that they are responsible for paying fees in excess of the covered amount at the time of service.

When is locksmith service provided?
Locksmith service is provided when a member cannot enter or drive their vehicle or access their primary residence (Premier only) due to lost or broken keys, ignition problems, locking gas caps, or no key. The service provide will make a replacement key to get the member back on the go; however, spare keys are not covered under membership..

What happens if a member locks their keys in the trunk without inside access?
A locksmith is required, and the member is responsible for charges exceeding their benefit level.

What should members be counseled about when requesting locksmith services?
Members should be counseled that the provider will contact them with charges and an ETA.

What is the Premier Home Lockout benefit?
Premier members are covered for up to $100 once per year, per household, and $100 of Home Lockout services, which includes the cost of re-keying, changing locks or making a new house key only when the lock must be drilled to gain entry to the home or if keys are lost or stolen.

What proof is required for Home Lockout service?
The member must present valid photo ID and proof of residence for Home Lockout service.

What should a member with a PO Box on file do for Home Lockout service?
The member should be referred to the membership department to update their address.

Does the Home Lockout service count against roadside service calls?
No, Home Lockout usage does not count against the annual roadside service call allotment.

Will AAA provide Home Lockout service for third parties?
No, Home Lockout service will not be provided for third parties.

What should be done if the member cannot be present for Home Lockout service?
A COD referral should be offered, and the member may submit a reimbursement form for consideration.

What is the locksmith's responsibility during Home Lockout service?
The locksmith is responsible for verifying the member's right to enter the premises.

What is required for Home Lockout service at a rental property?
Approval from the property owner may be required by the locksmith servicing the member.

What is excluded from the Premier Home Lockout benefit?
The benefit excludes all other buildings or locked areas and does not cover interior doors of the property.

What should members know about key programming under locksmith service?
Key replacement includes programming; spare keys are not covered under membership.. However, some dealer only fobs may be unavailable, and towing may be provided to a dealer of the member's choice.

When is locksmith service provided for vehicles?
Locksmith service is provided when the member's circumstances prevent them from entering or driving their own vehicle, or when the member is a passenger in a privately owned vehicle for which locksmith services are needed and the member is present with their photo ID. The locksmith can make a replacement key to get the member back on the go; however, spare keys are not covered under membership..

Does locksmith service include assistance with a member's primary residence?
Yes, Premier members are eligible for locksmith service to help them enter their primary residence on record.

What locksmith services are available for ignition issues?
Locksmith services include ignition key replacements when keys are lost or broken, assessment and possible repair of ignition problems, and Club removal; however, spare keys are not covered under membership..

Can a locking gas cap be removed if the key is unavailable?
Yes, locksmith service includes the removal of a locking gas cap if the key is unavailable.

Does key replacement include programming?
Yes, key replacement includes programming; availability may vary depending on the type of key; however, spare keys are not covered under membership.

Are dealer-only fobs covered under locksmith service?
Some dealer-only fobs may not be available; in such cases, towing may be provided to a dealer of the member's choice.

What happens if a replacement key cannot be provided?
If a replacement key cannot be provided, towing may be arranged to a dealer chosen by the member.

Is Club removal part of locksmith services?
Yes, Club removal is included in locksmith services.

Who is eligible for locksmith service for their primary residence?
Only Premier members are eligible for locksmith service to assist with entry to their primary residence on record with valid photo ID.

If a premier member has used up all 4 service calls, can they still receive a home lockout service?
Yes, the Home Lockout service for Premier members does not count against their annual roadside service call allotment.

Can a AAA roadside technician help with a car door that won't close?
Yes, a technician can Assess a car door that won't close; these calls should be processed under Assess service type.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Effective immediately, the options to request or refuse the service provider assigned will be discontinued as a part of ERS protocol (see Policy Exceptions below). When a member requests a specific provider, or refuses the provider assigned, they should be counseled using the following Suggested Phrasing: *"I'm sorry, but to provide fast and safe service, we need to utilize the provider assigned based on real-time availability and location. This ensures you receive the quickest help possible. "It looks* like **[insert assigned provider]** *is the first available provider in your area to ensure prompt service."*

Policy Exceptions

Exceptions to Facility Request/Refusal policy and use of the Preferred Facility quick action in RADAR will be **limited to the following**:

- A AAA service provider is presently at the breakdown location and agrees to facilitate service.
- Member indicates they have an active or recent Damage, SIU, or CI case open with the provider.

Member Declines Provider Assigned

When a member is advised of the policy and declines the provider assigned and does not meet the criteria for an exception as outlined above, the following protocol applies:

1. Confirm that the member wishes to decline and cancel PRIOR to cancelling the service request.
2. Cancel the request and document refusal in the Case Feed: "Refused provider assigned"
3. Offer COD referral using the Reroute tool and advise the member payment will be due at the time of service.

COD Reimbursement - Member Declines Provider Assigned

Reimbursement for COD services in Member Declines Provider Assigned scenarios will not be considered. ERS Representatives **SHOULD NOT** offer reimbursement forms when the member declines the provider assigned (see Exceptions).

What do I do when a member ask for a different station, other the station assigned to come out and tow vehicle? When a member requests a specific provider, or refuses the provider assigned, they should be counseled using the following Suggested Phrasing: *"I'm sorry, but to provide fast and safe service, we need to utilize the provider assigned based on real-time availability and location This ensures you receive the quickest help possible. "It looks* like **[insert assigned provider]** *is the first available provider in your area to ensure prompt service."*

If the service provider is already on scene and the member refuses to be serviced by the service provider on scene, they should be counseled as follows: *I'm sorry, but to provide fast and safe service, we need to utilize the provider assigned based on real-time availability and location. I am unable to reassign your service request.*

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
COD (Cash on Delivery) refers to a **commercial service referral** where the member or non-member is responsible for paying the service provider directly at the time of service. Here are the key details:

- **Who can receive COD referrals?** Both **members and non-members** can receive COD referrals.
- **When are COD referrals made?**
    - Call allotment has been exhausted
    - The service requested is not covered under membership
    - The membership type (Classic, etc.) doesn't allow the requested service (e.g., motorcycle tow requested without RV/Motorcycle coverage), so the member must pay service provider directly and reimbursement is not available.
    - Service **cannot be provided** due to network limitations
    - A member **declines the assigned provider**
    - A service request is canceled due to **abusive behavior** toward a technician or Club employee
- **Mileage limitations:** COD referrals are **not subject to mileage limitations** or other provisions of membership service.
- **Payment:** Payment for all COD services is **due to the service provider at the time of service.**
- **Processing:** ERS agents should **NOT process COD requests in RADAR.** To locate the nearest provider, use the **Reroute map tool** in RADAR > Resource Links > In-App Support.

Where can the AAA member guide be obtained?
Member guides provide detailed descriptions of benefits and service limitations. The AAA Member guides for each Club are available on the local AAA member websites. If the member is requests a physical copy of the member guide, refer them to MSC.

Service Provider Payments (ICS, truck driver) - If a Provider is calling about payment, they should contact their Contract Station Relations (CSR) representative for payment issues.

Non-ACE Clubs have different rules. The knowledgebase tool cannot provide policy exception and third-party/member-not-present information, or other benefit and coverage information to members for non-ACE Clubs (in Call Move scenarios). If the member who is experiencing a service need in a non-ACE club territory, or has questions or wants additional information, transfer the member to the servicing non-ACE Club.

What do I do if it won't accept vehicle description (make/Model) for a tow?
Select OTHER into the Make field when the member does not or the Make or Model of the vehicle is not listed in RADAR (make sure it is a covered vehicle type under membership).

Q: Can I add a 22-year-old dependent to a Texas membership?
A: You can add a dependent to a Texas membership if they are under 26 years old and either live in your household or are full-time students away at school. There is no minimum age limit for Texas dependents. Birth dates must be provided for all Dependent Associates.

Once a Premier or Plus member has used all of their service calls for the membership year (annual call allotment), what is available to them?

When a Plus or Premier member has used all of their service calls for the year (annual call allotment), they are limited to Classic benefits only upon payment of the service charge.

What is the number for the AAA Insurance department?
If the member is requesting to be transferred to the Insurance or another AAA department, use Softphone

What if a member's vehicle is totaled, they repurchase it from the insurance company, and they are now requesting towing under membership for the totaled vehicle? Can we cover it under membership?
No, recently purchased vehicles and vehicles purchased in an inoperable condition are not covered for towing under membership.

Do ICS stations (AAA service providers) charge to keep member vehicles overnight?
That depends, members will not be charged storage fees under the following circumstances: technician cannot drop vehicle off unattended at the destination (excludes vehicles towed under Accident Assist). Members will be charged storage fees under the following circumstances: members are unable to pay for services rendered and vehicle is returned to the ICS storage temporarily until payment is made, member agrees to have repairs performed at the ICS repair shop but later declines.

If a member's vehicle is covered in their home club territory, will it automatically be covered in another club territory?
That depends, certain vehicle types may be excluded from coverage in another ACE club's territory - For confirmation of coverage for specific vehicle types when policy is unclear, agents should ask a follow-up question in Ask ACE, contact SRT, or reach out to their local supervisor line.

What does PIT mean at AAA?
Payment in Transit (PIT) in MRM indicates that the member has made a payment that is being processed; this may be an electronic or mailed payment. Only when a mailed payment has been received and reflected in MRM as (PIT) or cleared can we send service; PIT payments may require an override. If a mailed payment has not be received and acknowledged in MRM, the member must make a payment prior to receiving service.

When asking a question using the term "driver" and the intent is unclear, clarifying questions should be asked to clarify whether it is the vehicle driver or service technician (tow truck driver).

If a member's vehicle is covered in their home club territory, will it automatically be covered in another Club's territory?
Not necessarily, certain vehicle types may be excluded from coverage in another Club's territory. For confirmation of coverage for a specific vehicle type when the policy references are not clear, agents should contact the SRT question line or their local supervisor line.

Is an ERS agent able to take an ACH (electronic check) payment?
No, ERS agents should elevate to MSC for electronic check processing.

Ask ACE
Hello, I can help you with ERS policy questions. What do you need to know?

Can a service provider (ICS) refuse service to a member?
Yes, service providers may decline to provide service if the membership, type of service, or vehicle does not comply with the AAA provisions of service. These scenarios include but are not limited to invalid memberships, member is not present and no exception has been made for a third party, photo ID is not present, after assessment--vehicle is not covered under membership, type of service is not covered, destination is not covered, breakdown location is excluded under ERS policy,

member/passenger behavior on scene—based on Critical Incident definitions, as well as other reasons outlined under provisions of service.

Can drivers go to a military base?
Roadside assistance is available to our members located on military bases where access is permitted by the facility.

Can drivers (service technicians) bring oil or other fluids (e.g., anti-freeze, coolant, brake fluid, etc.)?
No, drivers do not offer anti-freeze, coolant, brake fluid, and other fluids at roadside under membership.

There are multiple ways to contact AAA (triple A roadside) for 24/7 roadside assistance. The fastest and most efficient way is to use the AAA Digital Roadside Request online tool, or text HELP to 800-AAA-HELP (800-222-4357) and we will send you a link to request service.

When a public agency (PA), such as police, highway patrol, sheriff, etc. calls to confirm that service to our member is immediately enroute, they may be counselled about the ETA and name of the tow company (service provider) only; do not provide additional membership details. The member or third-party standing in for the member may also be provided ETA and service provider name, when the service provider has not arrived yet; no other membership details should be provided to anyone other than the member, unless otherwise permitted by ERS policy. When a public agency (PA) is calling to request service for our member, these calls should be marked as PA Calls in RADAR.

What is CMS?
The Comment Management System (CMS) is used for Complaints regarding their ERS experience, Compliments, Membership issues (i.e. Call count, ERS Fees, ERS related bill), Reimbursement update requests.

AAA offers Business, Group, and Corporate memberships as part of a company's employee benefits package. Although these memberships are sponsored by the employer, they are issued in the individual employee's name for use with their personal vehicles and cannot be used for company vehicles unless specifically permitted under ERS policy. These memberships may be paid by the company or the individual, depending on their company policy; the member must have a photo ID available for service.

Remaining on the line (phone) with the member until the provider (service technician or driver) arrives.
In a Hot Call situation, agents should notify their supervisor of the member's request and follow their guidance. In non-Hot Call scenarios, establish the nature of the member's concerns and notify your supervisor of the member's concerns

This policy & procedure tool is not intended to confirm covered of specific makes and models.
The optional RV/Motorcycle benefit does not add any additional calls to the membership in any state except Southern California (004).

Do we cover vehicles being camped in/slept in overnight or appear to be lived in?
Vehicles that meet the criteria under the provisions of service will be covered for service, based on the membership level and related ERS policies. RVs and other camping vehicles are subject to

RV/Motorcycle benefits and service limitations. Service should not be refused for vehicles on the basis that they appear to be lived in, camped in, or slept in.

Member provided the vehicle keys to the technician/driver when the vehicle was picked up for the tow to give to the mechanic/third party at the vehicle destination. However, the keys were lost/misplaced and were not delivered to the mechanic at the vehicle destination. Should I call the technician/driver or their facility to find out what the technician/driver did with the keys?
Yes, on behalf of the member in this scenario, contact the AAA provider that employs the AAA driver/technician so they can contact the driver to determine where the keys are located.

Can AAA assist with ATV, UTV, ROV, MTV or similar vehicles?
ATV/MTV and similar vehicles must be on a covered trailer to qualify for RV/Motorcycle benefits; all other provisions of service apply.

Can a member authorize someone else to be present for roadside service if they cannot meet the provider?
That depends on who the vehicle is registered to. If the vehicle is registered to the member, a third-party can be present for service if the member initiates the service request, authorizes the third party or stand-in, and the third party can present the registration or insurance card for the vehicle in the member's name along with photo ID. the exception information should be documented in the Driver's Notes.

Can AAA assist with ATV or MTV vehicles?
Roadside service will be rendered to our members upon presentation of a valid government-issued identification, with limited exceptions. A membership card will not be accepted in lieu of a valid photo ID.

Roadside Service - Presentation of a membership card is no longer required to receive Club service. Roadside service will be rendered to our members upon presentation of a valid government-issued identification, with limited management-approved exceptions. Service cannot be rendered with membership card only; a valid photo ID must be presented to receive service. A membership card will not be accepted in lieu of a valid photo ID.

If the member indicates their photo ID was stolen or lost and they are unable to provide it to the service technician, the member should be advised that a Club-approved alternate photo ID is required to receive service. If a Club-approved photo ID is not available, the member should be advised to call back when they have one available. A membership card will not be accepted in lieu of a valid photo ID. If the member insists on receiving service, a member of the ERS management team must approve.

Member states an animal is stuck in the engine or under the hood or undercarriage of the vehicle. Can a AAA technician assist?
No, the AAA technician does not assist with animal or any other item removal from beneath the hood. The member should contact their local animal control agency to have an animal removed. If service is need for the vehicle, this can be requested after the animal control agency has removed the animal.

Can a AAA roadside technician help with a car door that won't close?
Yes, a technician can Assess a car door that won't close; these calls should be processed under Assess service type.

Member claiming ID and membership card are locked in the vehicle and they need the vehicle unlocked. Can we send service?
A supervisor may approve Lockout service for a member whose membership card and photo ID that are locked in the vehicle in limited situations when alternate membership verification methods have been successful. Otherwise, the member should be referred for COD service, as photo ID is required for service under membership, with limited ERS management-approved exceptions.

What is a low clearance?
In terms of vehicles, "low clearance" means a car or truck has a low ground clearance, the distance between the lowest point of the vehicle and the ground. This information should be captured in driver's notes, as they may require special tow handling.

In terms of a parking garage, "low clearance" means the parking garage entry has a low ceiling; the distance between the top of the vehicle and the ceiling of the parking garage or entry is low. This information should be captured in driver's notes, as they may require a special type of tow truck.

When is a vehicle that is technically drivable or operable covered for towing under membership?
While a vehicle may be drivable/operable, it can still be covered under ERS if it is deemed unsafe to operate. Examples of vehicles that run but are not safe to operate include: - Inability to use all gears - Smoking engine or tailpipe - Cracked windshield - Broken windows – Door or hood (unable to open to address a mechanical issue or to close), or trunk that will not close - Indicator lights such as oil, tire pressure, ESP, or check engine Club policy supports requests for roadside assistance, including a tow, for vehicles that may be running but are not safe to operate on public roads. However, if the vehicle is safe to operate, but the member is requesting towing because it is unregistered, service under membership is excluded.

Effective September 18, 2025, the annual call allotment for Adult and Dependent Associates in the AAA ACMO, AAA NNE, AAA Hawaii, and AAA New Mexico markets will change to a maximum of two (2) roadside service calls or reimbursements per membership year. This change was previously implemented in the Texas market effective November 1, 2023.

Once the two (2) call allotment has been exhausted, Adult and Dependent Associate members will be responsible for paying the applicable Service Charge for each additional roadside service request until the membership renews. The Primary Member's annual call allotment will remain unchanged.

Effective August 20, 2026, the annual call allotment for new and renewing Adult Associates and Dependents will be limited to two (2) roadside service calls per membership year across all ACE markets. For memberships purchased or renewed prior to August 20, 2026, this change will apply beginning with the member's next renewal period.

Each Southern California (004), Alabama (001), East Central (215), and Tidewater (258) Primary member is entitled to four (4) calls per membership year. In Hawaii (018), Texas (252), New Mexico (601), ACMO (065), and NNE (036) the Primary member is entitled to four (4) calls per membership year. A service charge is required when the member exceeds their annual call allotment.

In Southern California (004), the optional RV/Motorcycle benefit adds an additional four (4) calls for qualified RVs and motorcycles; this applies to CA (004) memberships only. RV/Motorcycle towing requests are limited to no more than $500 for tire and towing services per disablement, and $1000 per household, per membership year. The optional RV/Motorcycle benefit does not add any additional calls to the membership in any state except California (004).

The Primary member is entitled to all household information, including the details of household member usage (requested by Service Verification protocol) and is responsible for the conduct and service demands of any associates on record. The authority to make changes to the membership has been expanded to the Adult Associate, in addition to the Primary Members. Changes that an Adult Associate can make without needing the approval of the Primary member are as follows:

- Add Dependent Associate member (underage driver or minor driver)
- Upgrade their membership to AAA Plus or AAA Premier (MSC transaction only)
- Downgrade their membership from AAA Plus to Classic or AAA Premier to AAA Plus or Classic (MSC transaction only)
- Add or remove RV/Motorcycle Roadside Assistance benefit (MSC transaction only)
- Add Automatic Renewal to the membership with their Credit or Debit card or checking account (MSC transaction only)
- Change their phone number
- Order a replacement card for themselves
- Name changes to their name (MSC transaction only)
- Spin themselves off onto their membership (Spin-Off, MSC transaction only)
- Make a payment on a membership

Note: The adult associate may **not change the address or cancel the household** unless the primary is deceased, with proof provided at the branch office. Notices of the changes are sent to the Primary Member any time a change is made to the membership (e.g., new cards for upgrading or downgrading the membership benefit level are sent to the primary member, new cards for dependent (or a minor/underage) are sent to the primary member, confirmation of Automatic Membership Renewal are sent to the primary member, etc.).

Membership usage history is available to our members through submission of a service verification form.

Can we change the tire or provide any other service on a rental car?
It depends. Service on a rental vehicle may be provided only when the member is present at the breakdown location with valid photo ID. Presenting the rental agreement alone is not sufficient in third-party scenarios where the member is absent. Service will not be provided if the member is not present, since third-party/stand-in exceptions apply only to the member's personal vehicle (with proof of ownership). Service on rental vehicles may also be excluded if the vehicle type, breakdown location, or other circumstances are restricted under Club policy.

What Payment Types Are Accepted by Service Providers?
When a roadside fees and other charges are due and payable to the service provider at the time of service, payment options include a personal check in the member's name, as well as any other payment type accepted by the provider. If the member wishes to pay by Apple Pay, Square, CashApp, etc., they should discuss the options available with the service provider and/or contact the contract station; AAA does not endorse or restrict the payment types accepted by contracted service providers.

Who is Roshoud Brown?
Call Center Operations Manager, ERS R&D, a driving force behind operational excellence and innovation, Roshoud Brown exemplifies what it means to lead with integrity, vision, and impact. As the 2024 recipient of the prestigious AAA Leadership Award—an honor reserved for those who

demonstrate extraordinary leadership. His dedication to empowering teams and elevating service standards makes him an inspiring presence

We're excited to announce the pilot launch of **Agentforce**, a new AI-powered digital dispatch method designed to streamline how we manage low/no-technology contractor calls. This pilot will explore Agentforce as a replacement for the current AVD and landline process. Similarly to AVD, when a call is assigned to a facility with the new Agentforce dispatch method, they will receive a text message. This text message contains call details and a link to begin a chat with an AI Service Agent named Otto.

Otto will guide the contractor how to: Accept appointments, Provide ETAs, Update call statuses (e.g., ER, OL), Request payments for service items, Submit resolution codes, Decline a call (if applicable), all the while, the corresponding call in Field Service is being updated!

Lockout Service is eligible for Appointment Calls, subject to ERS protocols; Locksmith service is different from Lockout service and Locksmith service is not eligible for Appointment Calls.

What is the contact number for Emergency Roadside Service (ERS)?
The contact number that members should call for service is 800-AAA-HELP (800-222-4357)

Who do we transfer AAA current vendors to?
Existing vendors (**roadside service providers are not vendors)** may be transferred to the Manager of Procurement at (714) 850-5186. If there is no answer, they should leave a voicemail with contact information for follow-up. **Roadside service providers should contact their CSR (**Contract Station Relations**) for payment issues.**

Where should I transfer prospective vendors for information about becoming a AAA vendor?
Companies who are interested in becoming a AAA vendor should be provided with the following email to submit their information: **supplierdiversity@aaa-calif.com**

What happens if the primary tow provider is unavailable, the reroute fails, and there are no commercial tow providers within one hundred miles of the member?
If the primary tow provider is unavailable or has excessive ETA, the reroute protocol is followed and fails, and there are no commercial tow providers to refer the member to within one hundred miles of the member, escalate to a supervisor or manager for additional handling on behalf of the member.

Can I do a reroute for a call that the ICS (service provider) has declined to work?
ERS Receive agents cannot reroute calls; they should elevate the call to Dispatch management using the Member Callback function in RADAR. If you are a ERS Dispatcher follow your local protocol and/or elevate to your dispatch management team. This tool is not intended to provide protocols for rerouting calls dispatched under membership.

Can I reroute a call that the ICS has declined?
ERS Receive agents cannot reroute calls; they should elevate the call to Dispatch management using the Member Callback function in RADAR. If you are a ERS Dispatcher follow your local protocol and/or elevate to your dispatch management team. This tool is not intended to provide protocols for rerouting calls dispatched under membership.

Can I reroute a call to a different ICS when the member has declined?
No. When a member declines the provider assigned by ICS, you should: 1. Confirm that the member wishes to decline and cancel PRIOR to cancelling the service request 2. Cancel the request and

document "Refused provider assigned" in the Case Feed 3. Offer a COD (Cash on Delivery) referral using the Reroute tool and advise the member that payment will be due at the time of service Note: Reimbursement for COD services in Member Declines Provider Assigned scenarios will not be considered. ERS Representatives should NOT offer reimbursement forms when the member declines the provider assigned. The only exceptions where you can request or refuse a specific provider are: - If a AAA service provider is already at the breakdown location and agrees to facilitate service - If the member indicates they have an active or recent Damage, SIU, or CI case open with the provider

What is a KMI?
KMI is an acronym for Keep Member Informed, which is a reference to ensuring that the member is advised of the status of their service requests.

ACCESSING REROUTE MAPS
Effective November 25, 2025 until further notice, a temporary protocol now in effect. The RR map polygons are currently not populating due to a data connection issue following last week's reporting server migration. Our teams are actively working to resolve this. In the meantime, you can still access the RR maps by using Bing or Google through the designated URLs provided below. Please use these links for all location-related needs until further notice. Thank you for your flexibility, and we'll keep you updated as soon as the issue is resolved.
BING MAPS - https://autocentral.ace.aaaclubnet.com/ReRouteMap/ReRouteProtocol/Search/Bing
GOOGLE MAPS -
https://autocentral.ace.aaaclubnet.com/ReRouteMap/ReRouteProtocol/Search/Google

MWC is an acronym for Member With Car, indicating that the member will be waiting at the vehicle for the service provider.
CMO is an acronym for Call Member Out, indicating that the service provider should call the member upon arrival.

For AAA membership purposes, a household includes all individuals listed on the membership. This may include dependent students who temporarily reside outside the primary member's physical address (for example, while attending school). When a benefit is described as being limited per household—such as "one 200-mile tow per household"—the limitation applies to the entire membership, regardless of how many members are listed or whether they reside at the same physical address. All members on the membership share that benefit. Individuals of qualifying age who reside in a separate household (different physical address) and are not dependent students living away at school must obtain a membership in their own name.
For California (004) memberships: The first membership in the California (004) household is the Primary membership. An Adult Associate must be at least twenty-one (21) years old and reside in your household. There is a limit of one Adult Associate per household. Dependent Associates must be under twenty-one (21) years old and either live in your household or be full-time students away at school. Birth dates must be provided for Dependent Associates; there is no minimum age limit. Adult and Dependent Associates enjoy the same membership benefits as Primary members. Primary members are responsible for the conduct and the service demands of their Associates and

any costs to the Auto Club incurred as a result of misuse of Auto Club benefits by their Associates under the membership. An individual may be a Member on only (1) membership at a time.

Do AAA-insured members have to have a AAA membership? Does AAA insurance include a roadside membership?
A AAA membership is required to purchase an insurance policy (except life insurance policies). If the AAA membership cancels during the AAA insurance policy term, the insurance policy will not be renewed until the AAA membership becomes active. However, the AAA insurance will not cancel mid-term.

Can ERS agents resend the link to the member that tracks the AAA technician's location?
No, currently, there is no way to resend the SMS link that allows the member to track the driver's location while service is pending.

How far in advance are membership renewal bills mailed to the member?
Membership renewal bills are mailed to the member's address on file no less than 30 days prior to the membership expiration.

Who is a third-party?
Third parties include passerby (assisting member without a phone), friends, family, coworkers, neighbors, anyone that is not the member, etc.

How can I get the Adult or Associate on the household membership number in RADAR?
To search for Adult or Associate members on an account, enter the membership core number (eight digits that follow the Club code) in the Membership number field and select the correct Club code from the dropdown menu, then click Search. A list of members with the same core number displays. Click the correct member from the search results.

Do drivers provide paperwork when a vehicle is towed?
No, service providers do not provide invoicing for basic services under membership. However, receipts may be available for out-of-pocket expenses. The member should be referred to the service provider to discuss their receipt and/or invoicing requests.

CSU is an acronym for Courtesy, Sympathy, and Understanding.

What is a Direct Member Call (DMC)?
A Direct Member Call is a scenario in which a AAA service provider is at the member's breakdown location prior to the member's call into AAA to request service, and the service provider is able to assist the member under membership. After you submit the ERS Case, the Preferred Facility quick action button appears: click Preferred Facility and document the station number or ID as provided to the member by the AAA technician.

What is DTM?
DTM is Discount Tire Mobile service

What is RAP?
Roadside Assistance Program/Partners

What is Comped memberships?
Comped memberships are complimentary memberships given as a part of service recovery.

If the membership says credit back ordered in membership , what does this mean?
Pending credit back ordered is a refund that has been processed; it may take up to 14 business days, depending on banking institute.

What should I do when a member who was told they're not covered indicates they will attempt to bypass the service charge by switching from phone to AAA chat services in the hopes they will not be declined?
The agent should document the reason for the decline and the member's statements on the cancelled service request and create CMS case elevating the issue for SIU review (e.g., SIU>Excessive Demands).

The member is unable to pay the fees due (i.e., service charge, EUF, CAPRE, renewal, etc.), but their friend (third-party) is present and can pay on their behalf. Can we accept payment from the friend/third-party?
Yes, as long as you are speaking with the third-party that is providing their payment information, payment may be accepted.

If a member refuses to pay the service provider for the over mileage (overage), fuel, RV/Motorcycle overage fees or other fees due that are valid and payable after the service is complete?
If a member (or other individual who received service on the member's vehicle) refuses to pay the service provider at roadside and contacts us at the time of service to indicate refusal, the call must be escalated to the SRT escalation line. If the service provider contacts an ERS agent regarding a refusal to pay, the agent should warm-transfer the provider to the ERS Help Desk for further handling. If the fees are determined to be valid and the member still refuses to pay, SRT will elevate to SIU.

What is the DRR call type?
In AAA (American Automobile Association) terminology, DRR stands for Digital Roadside Request. It is an online platform and web tool that allows members to request emergency roadside assistance (such as a tow, flat tire change, battery jump-start, or fuel delivery) directly from a smartphone, tablet, or computer without needing to make a phone call.

How is access to Ask ACE granted/approved?
For new users, and agents or staff members returning from LOA, please create an SR to add the user to the group: C_clublabs-chatbot-prod-ers-users

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Lockout Service (not Locksmith): All valid ACE members are covered Lockout service for eligible private passenger vehicles. The service provider will open the vehicle door, including electric vehicles such as Prius, at no charge for any benefit level. Lockout service also includes frozen locks and doors, due to inclement weather. Passenger vehicles and trucks that are owned and operated by commercial businesses, such as taxis, limousines, delivery trucks, etc., are not eligible for lockout service under membership. Lockout Service is eligible for Appointment Calls, subject to ERS protocols; Locksmith service is different from Lockout service and is not eligible for Appointment Calls.

If the member needs battery and lockout service, select Battery service and the battery technician will be able to also unlock the vehicle (excludes high security vehicles).

Does a Classic membership cover the cost for a locksmith to unlock a high security vehicle?
That depends, when the system indicates the vehicle is high security, a locksmith may be required to make entry at no additional charge to the member. However, when a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges that exceed their benefit level.

If the member is in service charge and indicates they are unable to pay because their credit/debit card is locked inside the vehicle, the member should be provided a COD referral (except Hot Call and minor without credit card scenarios). Payments for service charge cannot be suspended until the vehicle is opened.

When the system indicates the vehicle is high security, a locksmith may be required to make entry at no additional charge to the member. However, when a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges that exceed their benefit level.

This tool is not intended to provide information about specific vehicle makes and models. If you are unable to determine whether a specific vehicle type or make qualifies for service under membership based on your roadside service training, contact SRT or your local supervisor line.

Motorhome Lockouts – If the member indicates that they are locked out of the passenger compartment of their motorhome, lockout and/or locksmith services can be provided, subject to provisions of service and benefit limitations.

Motorcycle Lockouts – If the member indicates that they are locked out of a storage compartment or glovebox of their motorcycle, service to regain entry may be covered under locksmith services; the driver will assess. Locksmith services are intended to get the member back on the go. Non-emergency services, such as rekeying motorcycle auxiliary compartments and gloveboxes are not covered.

If a member states that a commercial vehicle is also their primary vehicle used for personal transportation to and from work, and the vehicle is not otherwise excluded by Club policy, a technician may be dispatched to assess potential coverage under the membership. Agents should document all vehicle details provided and advise the member that final determination of eligibility is made by the service provider at the scene.

Passenger compartment lockouts (no locksmith services), air-only, and jumpstart services may be provided for temporary, temporary personal-use moving vehicles (such as U-Haul, Penske, or similar trucks or vans) that are rented by and driven by the member; the member must be present with photo ID (no exceptions for third-party present instead of member). No other services are covered for these vehicles.

Vehicles excluded from service (unless otherwise expressly outlined in the knowledgebase) include, but are not limited to: box trucks (excluding temporary-use moving vehicles as noted above), school buses, semi-trucks (including 18-wheelers), food trucks, commercial delivery trucks, shuttle vans and buses, stake beds, flatbed trucks, golf carts, watercraft not on a covered trailer, taxis, limousines, and other for-hire vehicles required by law to be registered as such.

Member needs vehicle unlocked, but the membership card and photo ID are locked in the locked; the membership is not in service charge. Can we provide service?
In limited situations, yes, when a member whose photo ID is locked in the vehicle and the membership is not in service charge, a supervisor may approve additional steps to verify the member's identity prior to processing the request for service. This may include membership and past usage details; when the vehicle is opened, the photo ID must be shown to the service provider.

Are motorcycle lockouts covered under locksmith services?
Service to regain entry to a motorcycle's storage compartment or glovebox to obtain the keys are covered under membership. Non-emergency locksmith services, such as opening compartments or glovebox that are not necessary to get member on the go are not covered under membership.

Do we unlock the steering wheel of the vehicle?
Unlocking the steering wheel is a Light service processed in RADAR under Towing - Miscellaneous; the provider will arrive and attempt to release the steering wheel lock for the member.

What type of motorcycle lockout services are covered?
Replacement keys, ignition services and opening storage compartments to retrieve the keys required to operate motorcycle are covered under Locksmith services.

Are non-emergency services like rekeying the storage compartment or glovebox covered for motorcycles?
No, non-emergency services such as rekeying auxiliary compartments and gloveboxes for motorcycles are not covered.

What should be done if a member cannot pay because their credit or debit card is locked inside the vehicle?
The member should be provided a COD referral, except in Hot Call or minor without credit card scenarios.

Can service charges be suspended until the vehicle is opened?
No, payments for service charges cannot be suspended until the vehicle is opened. If the member is in service charge and indicates they are unable to pay because their credit/debit card is locked inside the vehicle, the member should be provided a COD referral (except Hot Call and minor without credit scenarios).

What is covered under Lockout Service for ACE members?
All valid ACE members are covered for Lockout service for eligible vehicles, allowing the service provider to open the vehicle door at no charge.

What happens if a vehicle is identified as high security?
If the system indicates the vehicle is high security, a locksmith may be required to make entry, but there is no additional charge for locksmith services to unlock a high-security vehicle when access to the passenger compartment is requested.

What should a member do if they lock their keys in the trunk without inside access?
If a member locks their keys in the trunk and there is no trunk access from inside the vehicle, a locksmith is required to unlock it and the member's Locksmith benefit applies.

Are there any charges for locksmith services that exceed a member's benefit level?
Yes, the member is responsible for locksmith charges that exceed their benefit level.

Is this tool intended to provide information about specific vehicle makes and models?
This tool is not intended to provide information about specific vehicle makes and models.

What should you do if you cannot determine whether a specific vehicle qualifies for service?
If you cannot determine whether a specific vehicle type or make qualifies for service under membership based on your roadside service training, contact SRT or your local supervisor line.

Who should you contact if you have questions about a vehicle's eligibility for service?
You should contact SRT or your local supervisor line.

What is the purpose of this tool?
The tool is designed to assist with general roadside service queries, not to provide information about specific vehicle makes and models.

Can courtesy services be provided for U-Haul and similar moving vehicles?
Courtesy Lockout (cab only) and Jumpstart services may be provided as a courtesy for U-Haul and similar moving vehicles intended for the member's temporary, personal use.

What type of services are available for temporary-use moving vehicles?
Only Lockout and Jumpstart services are available as a courtesy for temporary-use moving vehicles.

Are other roadside services provided for U-Haul or similar vehicles?
No other services beside lockout (cab only) air-only, and jumpstarts will be provided for these temporary-use vehicles; member must be present (no exceptions).

Member claiming ID and membership card are locked in the vehicle and they need the vehicle unlocked. Can we send service?
A supervisor may approve Lockout service for a member whose membership card and photo ID that are locked in the vehicle in limited situations when alternate membership verification methods have been successful. Otherwise, the member should be referred for COD service, as photo ID is required for service under membership.

Can AAA tech open a toolbox, truck bed lock, storage compartment lock, cut off cable locks, or wheel lock (lugnut)?
No, AAA technicians do not open toolboxes, **cut off** cable locks, truck bed locks, storage compartment locks, or wheel locks (lugnut).

Can AAA unlock a Tesla?
Yes, however, since Tesla is considered a high security vehicle, a locksmith may be required to make entry. Tesla and similar passenger vehicles are eligible for all services, subject to the provisions of service.

This policy tool cannot be used to confirm which keys/key fobs are available from AAA locksmith services based on the make and model of the vehicle, as some keys/key fobs are dealer-only items. The AAA locksmith will confirm keys/key fobs availability with the AAA member and contact the member to provide ETA and charges.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
This policy tool cannot be used to confirm which keys/key fobs are available from AAA locksmith services based on the make and model of the vehicle, as some keys/key fobs are dealer-only items. The AAA locksmith will confirm keys/key fobs availability with the AAA member and contact the member to provide ETA and charges.

AAA locksmith providers cannot provide replacement keycards for vehicles that use card entry, such as brands like Tesla, Chevrolet, Cadillac, Volvo, and others. However, lockout service may be available to open the vehicle door. However, a tow truck driver can still unlock a vehicle that uses keycard entry (such as many Tesla models, newer Chevrolets, or Renaults) when the owner is locked out using specialized, non-destructive tools to bypass electronic locks.

Locksmith and Lockout services are not the same thing.

Motorhome Lockouts – If the member indicates that they are locked out of the passenger compartment of their motorhome, lockout and/or locksmith services can be provided, subject to provisions of service and benefit limitations.

Locksmith Service: Premier members are covered for $150 of Locksmith benefits, and $100 of Home Lockout services which includes making a new house key only when the lock must be drilled to gain entry to the home/house or if keys are lost or stolen. Quotes for locksmith services will be provided by the locksmith service provider. Agents are required to inform the member of their benefits and the responsibility to pay all fees in excess of the covered amount to the provider at the time of service.

Appointment Calls are not available for Locksmith and RV tire change and towing services; Lockout service may be scheduled using Appointment Call protocol.

Can a member use their membership to have a key made for someone else car?
Yes, Locksmith service can be provided when a vehicle in which the member is a driver or passenger requires locksmith services and the member is present with photo ID.

Locksmith services under membership do not apply to rented cars and trucks and other temporary use vehicles such as U-Haul/moving trucks and vans, rented passenger vans, and other vehicles that are otherwise not covered under membership.

Reimbursement Terms - If it is necessary for a member to pay for covered membership service at commercial rates, the member must request and provide documentation, including an itemized receipt or invoice listing the member's name, vehicle, the appropriate reimbursement form, proof of payment (i.e., credit card receipt), and a brief description of the circumstances.

If a member gets a key made at a dealership, would it be eligible for reimbursement for their locksmith coverage?
Yes, if a member gets a replacement key made at a dealership, they may submit the required documentation for reimbursement consideration.

Member needs vehicle unlocked, but the membership card and photo ID are locked in the locked; the membership is not in service charge. Can we provide service?

To service a member whose photo ID is locked in the vehicle and the membership is not in service charge, a supervisor may approve additional steps to verify the member's identity prior to processing the request for service. This may include membership and past usage details. When the vehicle is opened, the photo ID must be shown to the service provider.

Are locksmith services provided under AAA membership for rented cars or trucks?
No, locksmith services do not apply to rented cars or trucks under membership.

Does AAA membership cover locksmith services for U-Haul or moving trucks?
No, locksmith services are not provided for temporary use vehicles like U-Haul or moving trucks (see Lockout service).

Can a rented passenger van receive locksmith services under membership?
No, rented passenger vans are not eligible for locksmith services under AAA membership.

What types of vehicles are excluded from locksmith services under membership?
Temporary use vehicles such as U-Haul trucks, moving vans, and rented vehicles are excluded from locksmith services under membership (see Lockout service).

Are any temporary use vehicles eligible for locksmith services under AAA membership?
No, temporary use vehicles are not covered for locksmith services under membership.

Quotes for locksmith service will be provided by the locksmith service provider. Replacement ignition keys can be made with fob programming (we do not offer batteries for key fobs; if the member is unable to start their vehicle, a tow may be provided) for most vehicles in situations where keys have been lost, stolen, or broken. Other locksmith services include assessment and possible repair of ignition problems, Club removal, removal of locking gas cap when the key is unavailable. Key replacement includes programming. However, some dealer only fobs may be unavailable, and towing may be provided to a dealer of the member's choice.

When a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges to gain access to the trunk that exceed their benefit level.

Does a Classic membership cover the cost for a locksmith to unlock a high security vehicle?
That depends, when the system indicates the vehicle is high security, a locksmith may be required to make entry to the passenger compartment at no additional charge to the member. However, when a member indicates they have locked their keys in the trunk, and there is no trunk access from inside the vehicle, a locksmith is required. The member is responsible for Locksmith charges that exceed their benefit level.

When the system indicates the vehicle is high security, a locksmith may be required to make entry to the passenger compartment at no additional charge to the member. The cost of vehicle locksmith services which are not necessary to place the vehicle in a safe drivable condition, such as duplicating existing keys, non-emergency lock repair, and re-keying are not covered under membership.

When processing Locksmith requests, members should be counseled that the provider will contact them with charges and a precise ETA.

Home Lockout (AAA Premier)

AAA Premier Members are eligible for **one (1) Home Lockout service per Membership year, per household**, with coverage of **up to $100** for eligible locksmith services.

Covered services include:

- Gaining entry to the Member's **primary residence on file** by picking or drilling the exterior lock.
- Re-keying, changing locks, or making a new house key **only when**:
    - the lock must be drilled to gain entry, or
    - the keys are lost or stolen.

The benefit:

- Is limited to the Member's **primary residence on file** only.
- Does **not** apply to interior doors, detached buildings, garages, sheds, or other locked areas.
- Is **not transferable** and may not be used for third parties.
- **Does not count** toward the Member's annual roadside service call allotment.

Member Requirements

- The AAA Premier Member **must be present** at the time of service.
- The Member must provide **valid photo identification** and **proof of the residence on file**.
- If the Member has only a **P.O. Box** on file, refer them to the Membership Department (MSC) to update their residential address before service can be dispatched.
- For rental properties (including apartments, Airbnbs, or other rentals), the locksmith may require permission from the property owner or property manager before providing service.

Charges and Reimbursement

- Any charges **over $100**, or charges for locksmith services not specifically covered by this benefit, are the responsibility of the Member.
- If AAA is unable to dispatch a locksmith, the Member should be referred to a commercial locksmith and may submit a reimbursement request for covered expenses, up to the $100 benefit limit.
- If the Member cannot be present, offer a **Customer Pay (COD)** referral. The Member may submit a reimbursement request for eligible covered expenses.

Additional Information

- Locksmith services are provided by independent providers and are subject to availability. Arrival times vary based on locksmith availability.
- The locksmith is responsible for verifying the Member's legal right to enter the residence before service is performed.

Should I provide the member with a quote from the locksmith?
No, quotes for locksmith services covered under membership will be provided by the locksmith service provider.

How much locksmith coverage do Classic members receive?
Classic members are covered for $60 of locksmith benefits (no Home Lockout).

How much locksmith coverage do Plus members receive?
Plus members are covered for $100 of locksmith benefits (no Home Lockout).

What locksmith benefits are Premier members entitled to?
Premier members are covered for $150 of locksmith benefits, and $100 of Home Lockout services, which includes the cost of re-keying, changing locks or making a new house key only when the lock must be drilled to gain entry to the home or if keys are lost or stolen.

What should agents inform members about locksmith services?
Agents must inform members of their locksmith benefits and that they are responsible for paying fees in excess of the covered amount at the time of service.

When is locksmith service provided?
Locksmith service is provided when a member cannot enter or drive their vehicle or access their primary residence (Premier only) due to lost or broken keys, ignition problems, locking gas caps, or no key. The service provide will make a replacement key to get the member back on the go.

What happens if a member locks their keys in the trunk without inside access?
A locksmith is required, and the member is responsible for charges exceeding their benefit level.

How is vehicle security handled with locksmith services?
If the system indicates the vehicle is high security, a locksmith may be required to unlock the passenger compartment at no additional charge.

Are services like duplicating existing keys or non-emergency lock repairs covered?
No, duplicating keys, non-emergency lock repairs, and re-keying are not covered under membership.

What should members be counseled about when requesting locksmith services?
Members should be counseled that the provider will contact them with charges and an ETA.

What is the Premier Home Lockout benefit?
Premier members are covered for up to $100 once per year, per household, and $100 of Home Lockout services, which includes the cost of re-keying, changing locks or making a new house key only when the lock must be drilled to gain entry to the home or if keys are lost or stolen.

What proof is required for Home Lockout service?
The member must present valid photo ID and proof of residence for Home Lockout service.

What should a member with a PO Box on file do for Home Lockout service?
The member should be referred to the membership department to update their address.

What happens if Home Lockout charges exceed $100?
The Premier member is responsible for charges exceeding $100.

Does the Home Lockout service count against roadside service calls?
No, Home Lockout usage does not count against the annual roadside service call allotment.

Will AAA provide Home Lockout service for third parties?
No, Home Lockout service will not be provided for third parties.

What should be done if the member cannot be present for Home Lockout service?
A COD referral should be offered, and the member may submit a reimbursement form for consideration.

What is the locksmith's responsibility during Home Lockout service?
The locksmith is responsible for verifying the member's right to enter the premises.

What is required for Home Lockout service at a rental property?
Approval from the property owner may be required by the locksmith servicing the member.

What is excluded from the Premier Home Lockout benefit?
The benefit excludes all other buildings or locked areas and does not cover interior doors of the property.

What should members know about key programming under locksmith service?
Key replacement includes programming. However, some "dealer-only" fobs may be unavailable, and towing may be provided to a dealer of the member's choice.

When is locksmith service provided for vehicles?
yes, Locksmith service is provided when the member's circumstances prevent them from entering or driving their vehicle, or when the member is a driver or passenger in a privately owned vehicle for which locksmith services are needed and the member is present with their photo ID. The locksmith can make a replacement key to get the member back on the go.

Does locksmith service include assistance with a member's primary residence?
Yes, Premier members are eligible for locksmith service to help them enter their primary residence on record.

What locksmith services are available for ignition issues?
Locksmith services include ignition key replacements when keys are lost or broken, assessment and possible repair of ignition problems, and Club removal.

Can a locking gas cap be removed if the key is unavailable?
Yes, locksmith service includes the removal of a locking gas cap if the key is unavailable.

Does key replacement include programming?
Yes, key replacement includes programming, but availability may vary depending on the type of key.

Are dealer-only fobs covered under locksmith service?
Some dealer-only fobs may not be available; in such cases, towing may be provided to a dealer of the member's choice.

What happens if a replacement key cannot be provided?
If a replacement key cannot be provided, towing may be arranged to a dealer chosen by the member.

Is Club removal part of locksmith services?
Yes, Club removal is included in locksmith services.

Are replacement ignition keys included in locksmith services?
Yes, Locksmith service includes replacement of ignition keys.

Who is eligible for locksmith service for their primary residence?
Only Premier members are eligible for locksmith service to assist with entry to their primary residence on record with valid photo ID.

If a premier member has used up all 4 service calls, can they still receive a home lockout service?
Yes, the Home Lockout service for Premier members does not count against their annual roadside service call allotment.

Can a AAA roadside technician help with a car door that won't close?
Yes, a technician can Assess a car door that won't close; these calls should be processed under Assess service type.

What if the member is requesting a copy of a receipt for services provided at roadside under membership, and the contract station nor the service technician can provide the receipt?
If the technician nor the service provider can provide a copy of the original receipt for products/services provided to the member at roadside **under membership**, and the member is still in need of a receipt, create a CMS case and counsel the member that they will receive follow-up within 10 business days.

Once a Premier or Plus member has used all of their service calls for the membership year (annual call allotment), what is available to them?
When a Plus or Premier member has used all of their service calls for the year (annual call allotment), they are limited to Classic benefits only upon payment of the service charge (Home Lockout not available).

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Do we always call the police when a vehicle is blocking a lane on the freeway?
Yes, when a caller indicates any part of the vehicle is blocking traffic on a freeway/highway, ERS agents must, elevate the call to a Hot Call and alert a supervisor; the supervisor will contact the police agency (PA) to assist on scene.

Third party (i.e. father, relative, friend, etc.) calling to use their membership for non-member on freeway; AAA driver refusing to provide towing. What do I do?
Being on a freeway alone does not automatically qualify as a Hot Call, unless the vehicle is blocking a lane of traffic. A Hot Call is determined by whether a safety concern is present, not solely by the location.

It is important to quickly establish whether a safety concern exists by asking questions such as:

- Is the vehicle in a dangerous or unsafe position (e.g., blocking traffic, no shoulder, gore point, etc.)?
- Does an environmental concern exist, such as isolated area, dark or other vulnerable situation?
- Is there any immediate risk to vehicle/personal physical safety?

If a safety concern IS present:

- Process as a Non-Member Hot Call (Safe Tow) — tow to the nearest place of safety at no cost.
- Document: "Ok for service to the nearest place of safety ." so the service provider knows service is approved, per existing protocols.
- Advise that charges for towing beyond the nearest place of safety must be paid directly to the driver.

If NO safety concern is present:

- The non-member would not be eligible for AAA service unless proper third-party provisions are met (e.g., vehicle is registered to the member who is calling and proof can be provided on scene, etc).
- A COD (cash on delivery) referral can be offered.

Hot Call Criteria: Hot Call scenarios include situations where the member expresses concern for their personal safety or where the circumstances reasonably indicate a potential safety concern, even if not stated outright.

Common Hot Call Scenarios: Examples provided include member states they feels unsafe, medical emergencies (not routine doctor appointments), persons locked in vehicles, An animal locked inside a vehicle (where the member expresses a safety concern), and vehicles blocking public roads on freeways, streets, highways, etc.

A freeway location may indicate a potential safety concern. Agents should assess the situation by directly asking if the vehicle is blocking any part of the lane or in a dangerous location, narrow shoulder, gore point, etc.), listening for cues of fear or distress, considering the time of day and location, and use their judgment to determine if the scenario qualifies as a Hot Call. Hot Call status is not automatically

assigned based on location alone. In the case of a non-member (a person that does not have their own membership), a Safe Tow can be provided when a safety concern is present.

Use of "Other": The "Other" option is for situations where a safety concern exists but doesn't align with the common categories. It serves as a way to handle a broader range of safety issues.

Safety as the Deciding Factor: The document consistently emphasizes that the presence of a safety concern is the ultimate determining factor, as highlighted by the examples of a vehicle blocking a gas pump or a drive-through. These scenarios are not hot calls unless the member voices a specific safety concern.

Do you always have to put a hot call if member/non-member says they are unsafe?
According to AAA policy, if a member expresses concern for their personal safety, a hot call MUST be processed immediately. Once the reported circumstances have been assessed and meet Hot Call criteria, service should NEVER be refused because of membership status, fees, or service charges. However, it is important that the documentation of their safety concern is clear, with specifics documented for the service provider so they understand the nature of the circumstances they are responding to.

What services can be provided for non-members in Hot Call scenarios where a safety concern is present?
In Hot Call scenarios, non-members are eligible for a Safe Tow to a nearby safe location and for lockout service when the reported circumstances qualify as a Hot Call, such as when a person or animal is locked in the vehicle, member expresses safety concern, safety concern is detected by the ERS agent, or another qualifying safety concern exists.

Can I send a tech out without a vehicle description?
With the exception of Hot Calls, service requests cannot be submitted without vehicle information. However, even in Hot Calls scenarios, vehicle information should be requested prior to dispatching service.

When a public agency (PA), such as police, highway patrol, sheriff, etc. calls to confirm that service to our member is immediately enroute, they may be counselled about the ETA and name of the tow company (service provider) only; do not provide additional membership details. The member or third-party standing in for the member may also be provided ETA and service provider name, when the service provider has not arrived yet; no other membership details should be provided to anyone other than the member, unless otherwise permitted by ERS policy. When a public agency (PA) is calling to request service for our member, these calls should be marked as PA Calls in RADAR.

1. Caller expresses concern for personal safety.
2. Clarify the nature of the concern and obtain specific details.
3. Document the caller's description in Driver's Notes with specific detail.
4. Evaluate the reported circumstances against the Hot Call criteria and follow Hot Call protocol, when applicable.

What if member says they are not sure if they are in a safe location or they provide information that is unclear?
If the member responds they are uncertain if they are in a safe location or the information provided is vague, ask clarifying questions to evaluate the nature of circumstances and document safety concern-related specifics in the drivers notes, using the following suggested phrasing, "Can you tell me more about your safety concerns so I can document the situation as accurately as possible?" Document the details and follow Hot Call protocol.

What defines a Hot Call scenario?
A Hot Call scenario is defined as a member-expressed concern for personal safety or situations where a safety concern is noted by service representatives.

Can a Hot Call be canceled?
Hot calls should only be canceled by the member's/caller's request after establishing that the safety concern is no longer present; these requests should be elevated to a supervisor using your local Hot Call protocol.

What are some examples of Hot Call scenarios?
Examples include persons or animals locked in a vehicle, vehicles blocking traffic on freeways/streets/highways, and any situation where member safety is uncertain. Vehicles blocking a gas pump but not thru-traffic at a fuel station is not considered a Hot Call, unless the member expresses concern for their safety. Additionally, if the member is stuck in a drive-thru on business property (private property), this is also not a hot call unless the member's personal safety is in question.

If the member is locked out of a running vehicle and no one is inside, is this a Hot Call?
No, if there is no person or pet inside of a running vehicle, Hot Call protocol does not apply.

What should be established at the beginning of every call?
Member safety should be established at the beginning of every call.

What critical information should be quickly gathered in a Hot Call scenario?
Contact Number, Location, Vehicle Make/Model/Color, Type of Service Needed, Safety Concern, and Additional member concerns expressed or noted; tow destination information may be captured if known, but is not required.

What screening questions should be asked during a Hot Call? "Would you like us to contact a local public agency (i.e., Police, Fire department) for you?" "Would you like us to contact a friend or family member for you?" "Would you like to remain on the phone until the driver arrives?"

How should the member's responses to screening questions be handled?
The member's responses must be documented on the service request.

What should be done if fire, police, ambulance assistance is requested?
If PA assistance is requested, offer to contact 911 on their behalf and immediately elevate the request to contact 911 to a member of the ERS management team.

What should agents do if the member wishes to remain on the line?
Contact an ERS supervisor or designee for ETA updates from the dispatching office.

Can service be refused in Hot Call situations due to membership issues?
Service should never be refused in Hot Call situations because of service charges, membership fees, or if the membership is expired, canceled, or unpaid.

What happens after a non-member is towed to a safe location?
The caller is responsible for securing commercial service and/or paying the driver for additional services.

What should be documented when processing a Hot Call for a non-member?
Document "Ok for service to the nearest place of safety" and counsel the non-member that charges for towing beyond a place of safety must be paid to the driver.

What should be done with Call Move Hot Calls?
Call Move and out-of-territory Hot Calls should be processed through completion and saved. The member should be provided with the Case number and phone number of the servicing Club.

Additionally, the supervisor/designee who is monitoring the Hot Call is responsible for contacting the servicing Club to ensure that the call is spotted.

What are Safe Tows?

Safe Tows are towing requests by non-members or expired/canceled members in Hot Call scenarios provided at no charge to a nearby safe location.

SAFE TOW ELIGIBILITY

WHO QUALIFIES

Non-members, including expired, canceled, or former members.

WHEN IT APPLIES

A Hot Call safety concern is expressed, observed, or reasonably implied.

SAFETY INDICATORS

- Vehicle blocks traffic or any part of a travel lane
- Dangerous position: narrow shoulder, gore point, or no shoulder
- Isolated, dark, or vulnerable location
- Immediate risk to personal or vehicle safety
- Caller feels unsafe or shows fear or distress

IMPORTANT

Freeway or highway location alone does not automatically qualify. Always clarify whether the vehicle is blocking any part of the lane or a similar safety concern is present.

Do not deny service because of membership status, unpaid fees, or service charges when a qualifying safety concern is present.

TOW LIMIT

No-cost tow to the nearest safe location. Additional towing or services are paid directly to the driver.

Commercial or non-covered vehicles require local management guidance.

Be the difference. Every call. Every member.

ERS Process Improvement Team

Where should the vehicle be towed in Safe Tows?
The vehicle should be towed to a nearby safe location, such as out of traffic or to the side of the road. The caller/member is responsible for any additional mileage which should be paid directly to the service provider.

What should be communicated regarding additional towing?
Additional towing beyond the safe location is at the caller's expense and must be paid directly to the driver at the time of service.

How should agents assess safety during a call?
Agents should listen for cues indicating fear for safety or distress and take note of the time of day and the member's location.

What should agents do if they suspect a potential Hot Call situation?
Agents should remain attentive to any implied safety concerns expressed by the member.

Is it allowed to transfer members in Hot Call scenarios to affiliate clubs before gathering information?
No, do not transfer members in Hot Call scenarios to affiliate clubs (Call Move) prior to gathering pertinent information. Call Move and out-of-territory Hot Calls should be processed through completion and saved. The member should be provided with the Case number and phone number of the servicing Club. Additionally, the supervisor/designee who is monitoring the Hot Call is responsible for contacting the servicing Club to ensure that the call is spotted.

Should agents dial 911 directly from their workstations for a member?
Agents should not dial 911 directly from their workstations; contact your local hot call teams chat for supervisor assistance.

What should agents remember regarding potential Hot Call situations?
Agents should rememb3er that potential Hot Call situations may be implied but not stated outright by the member.

When should agents contact their Local Site Hot Call Teams Chat?
Agents should contact their Local Site Hot Call Teams Chat for assistance with Hot Calls when needed.

What is the main objective when handling Hot Calls?
The main objective is to ensure the safety and well-being of the member while addressing their concerns promptly.

What is the protocol for a member expressing a medical emergency?
The member's safety should be prioritized, and appropriate emergency services should be contacted if needed.

How should agents document all actions taken during a Hot Call?
Agents should meticulously document all gathered information, member responses, and any actions taken on the service request.

Does the member have to remain in the vehicle if it is unsafe?
No, the member may exit the vehicle and wait at a nearby location until the service provider arrives. The location where the member will wait should be documented on the service request for the technician.

Can the service provider/driver/ICS pick up the member before going back to their car in Hot Call or freeway (Elevated no safety concern expressed) scenarios, when the member has left the vehicle to wait in a very nearby safe location?
Yes, the service provider/driver/ICS can pick up the member before going back to their car in Hot Call or freeway breakdown scenarios only, when the member has left the vehicle to wait in a separate location (waiting at a safer location nearby only-not to their workplace, residence or other destinations).

Will AAA offer a safety tow off the freeway for a commercial vehicle?
ERS agents should contact a member of their local home site management team immediately for guidance in scenarios in which a caller is requesting hot call assistance for a box truck, semi-truck, commercial delivery truck, 18-wheeler, shuttle van or bus, stake bed, flatbed truck, golf cart, watercraft not on a covered trailer, taxis, limousines and other vehicles for-hire; service options will likely include COD referral and contacting a police agency to assist in this type of scenario, as these vehicles are not covered for service.

Freeway/Highway Calls – Elevated Calls (not hot call)
ERS agents should always establish whether any part of the vehicle is blocking traffic and/or another safety concern exists (“Is your vehicle blocking any part of the lane?”); if so, the call should be elevated to Hot Call, whether it is a member or non-member. Freeway/Highway Calls are priority calls but are not qualified as hot calls unless a safety concern is indicated, despite being on the freeway.

Public Agency (PA) Calls – “PA” calls (not related to Pennsylvania territory) are initiated by law enforcement agencies and are requests for roadside assistance on behalf of the member who vehicle is located on a freeway or highway; unless a safety concern is express or present, these are not Hot Calls. These calls receive a higher priority service.

Hot Calls – Hot Call scenarios are defined as member-expressed concerns for personal safety, and scenarios in which it is noted by service representatives that a safety concern is present. Hot Call scenarios include but are not limited to medical emergencies, member/non-member expresses they feel unsafe, persons or animals locked in the vehicle, vehicles blocking any part of the lane on freeway/street/highway, and any similar situation wherein member safety is uncertain. Member safety should be established at the beginning of every call. In Hot Call scenarios, Hot Call protocol includes quickly gathering the following critical information: Contact Number, Location, Vehicle Make/Model/Color, Type of Service Needed, Safety Concern, Additional member concerns expressed or noted; tow destination information may be captured if known, but is not required. Hot Call protocol also includes screening questions as follows: "Would you like us to contact a local public agency, (i.e., Police, Fire department) for you?", "Would you like us to contact a friend or family member for you?", "Would you like to remain on the phone until the driver arrives?" The member’s responses to these questions must be documented on the service request. If PA assistance is requested, and/or the circumstances indicate there is an immediate need for an emergency response, offer to contact 911 on their behalf and immediately elevate the request to contact 911 to a member of the ERS management team. If the member wishes to remain on the line, pending ETA or PA contact, contact an ERS supervisor or designee for ETA updates from the dispatching office

Service should never be refused in Hot Call situation because a service charge or ERS/Membership fees are due, or because the membership is expired, canceled, unpaid, or a non-member is requesting service. Your Local Site Hot Call Teams Chat should be contacted for Hot Call assistance when needed. Do not transfer members in hot calls scenarios to affiliate clubs (Call Move) prior to gathering pertinent information. Agents should not dial 911 on the member's behalf directly from their workstations in lieu of contacting a supervisor. Do not contact the ERS Help Desk (SRT) for Hot Call assistance. Agent should remember that potential Hot Call situations may be implied but not stated outright by the member. Agents should listen for cues, such as uneasy tone of voice—indicating fear for safety or distress. Agents should also take note of the time of day and the members location when assessing safety.

Non-Member Hot Calls - Non-Member Hot Calls (also called Safe Tows) are a courtesy service intended to tow non-members to a safe location at no cost. Non-members include expired, cancelled, and former members. Towing will be provided to a nearby location to address the safety concern. Caller is then responsible for securing commercial service and/or paying the driver for additional services. Follow the protocol for processing a Hot Call for a non-member and document, "Ok for service to the nearest place of safety", counsel the non-member that charges for towing beyond a place of safety must be paid to the driver and complete the service request using Hot Call procedures. Service should NEVER be refused when a safety concern is present.

Call Move Hot Calls – Call Move Hot Calls should be processed through completion. Call Move and out-of-territory Hot Calls should be processed through completion and saved. The member should be provided with the Case number and phone number of the servicing Club. Additionally, the supervisor/designee who is monitoring the Hot Call is responsible for contacting the servicing Club to ensure that the call is spotted.

Who should handle Hot Call ETA updates and benefit questions for out-of-territory (Call Move) calls?
The servicing Club, not ACE dispatch or ACE supervisors will contact the member with service updates.

What should be done when a member calls back on a Hot Call in an out-of-territory service (Call Move) request?
The member should be transferred or given the contact number for the servicing Club.

Can I send a hot call out for RV?
Yes, RVs qualify for Hot Call screening and roadside request, subject to existing ERS policy and AAA Provisions of Service.

What should be done if a safety concern doesn't fit into the common categories? You should use "Other" as the dropdown reason for a hot call when a safety concern exists but doesn't align with the predef3ined categories.

Is a vehicle blocking a gas pump considered a Hot Call? No, a vehicle blocking a gas pump is not a Hot Call unless the member explicitly a concern for their safety.

What about a member stuck in a drive-thru on private property? This is not a Hot Call unless the member's personal safety is in question.

Can I send a technician without a vehicle description on a Hot Call? Yes, with the exception of Hot Calls, service requests cannot be submitted without vehicle information. However, even in a Hot Call, vehicle information should be requested prior to dispatching service.

What information should be quickly gathered in a Hot Call scenario? You should quickly gather the Contact Number, Location, Vehicle Make/Model/Color, Type of Service Needed, Safety Concern, and any additional safety-related concerns.

What should be established at the beginning of every call? Member safety should be established at the beginning of every call.

What are the screening questions to ask during a Hot Call? Ask: "Would you like us to contact a local public agency (i.e., Police, Fire department) for you?", "Would you like us to contact a friend or family member for you?", and "Would you like to remain on the phone until the driver arrives?"

How should I handle the member's responses to screening questions? The member's responses to these questions must be meticulously documented on the service request.

Can a Hot Call be canceled? A Hot Call should only be canceled by the member's or caller's request after it is established that the safety concern is no longer present; these requests must be elevated to a supervisor.

What if a member requests police, fire, or ambulance assistance? Offer to contact 911 on their behalf and immediately elevate the request to contact 911 to a member of the ERS management team.

What should agents do if the member wishes to remain on the line? Contact an ERS supervisor or designee for ETA updates from the dispatching office.

What should I document when processing a Hot Call for a non-member? You should document "Ok for service to the nearest place of safety" and advise the non-member that charges for towing beyond that point must be paid to the driver.

How should agents assess safety during a call? Agents should listen for cues like an uneasy tone of voice, indicating fear or distress. They should also note the time of day and the member's location.

What should agents do if they suspect a potential Hot Call situation? Agents should remain attentive to any implied safety concerns expressed by the member, even if not stated outright.

Is it permissible to transfer a member in a Hot Call scenario to an affiliate club before gathering information? No, do not transfer a member in a Hot Call scenario to an affiliate club (Call Move) prior to gathering pertinent information.

Should agents dial 911 directly from their workstations for a member? No, agents should not dial 911 directly from their workstations. They should contact their local hot call teams chat for supervisor assistance.

What is the main objective when handling Hot Calls? The main objective is to ensure the safety and well-being of the member while addressing their concerns promptly.

How should agents document all actions taken during a Hot Call? Agents should meticulously document all gathered information, member responses, and any actions taken on the service request.

What is the protocol for a member expressing a medical emergency? The member's safety should be prioritized, and appropriate emergency services should be contacted if needed.

Can the service provider pick up the member at a safe location before going to the vehicle? Yes, the service provider can pick up the member before going to their vehicle in Hot Call or freeway scenarios only if the member has left the vehicle for a safe location (waiting at a safer location nearby only-not to their workplace, residence or other destinations).

Does AAA offer a safety tow for commercial vehicles? ERS agents should contact a local home site management team for guidance. Service options will likely include a COD referral and contacting a police agency, as these vehicles are not covered for service.

What is a "PA Call"? A PA Call is a request for roadside assistance initiated by a public law enforcement agency on behalf of a member.

Are PA Calls considered Hot Calls? Not necessarily; unless a safety concern is expressed or present, PA (police agency) Calls are not Hot Calls.

What information can I provide to a public agency calling to confirm service? You may only counsel them about the ETA and name of the tow company. Do not provide additional membership details.

Who should handle ETA updates for out-of-territory (Call Move) Hot Calls? The servicing Club should handle these updates, not ACE dispatch or ACE supervisors.

What should be done if a member calls back on an out-of-territory Hot Call request? The member should be transferred or given the contact number for the servicing Club.

Does an RV qualify for a Hot Call? Yes, RVs qualify for Hot Call screening and roadside requests, subject to existing ERS policy.

What if the membership number is not available for a Hot Call? Use the "No Membership" button to process the Hot Call.

What is the protocol for "Call Move Hot Calls"? Call Move and out-of-territory Hot Calls should be processed through completion and saved. The member should be provided with the Case number and phone number of the servicing Club. Additionally, the supervisor/designee who is monitoring the Hot Call is responsible for contacting the servicing Club to ensure that the call is spotted.

How do you handle a member who is locked out of a running vehicle with no one inside? This is not a Hot Call; agents should provide these details to the service provider in Driver's Notes. Hot Call protocol does not apply if there is no person or pet inside of the locked running vehicle.

Who should handle benefits questions for out-of-territory (Call Move) Hot Calls? The servicing Club is responsible for handling these questions.

What should agents do if they need assistance with a Hot Call? They should contact their Local Site Hot Call Teams Chat for assistance.

What is the significance of the member's tone of voice during a call? Agents should listen for cues, such as an uneasy tone, to assess for implied safety concerns that may not be stated outright.

Can a third party receive membership details for a Hot Call?
No. Only the member or a third party who is actively standing in for the member and receiving approved third-party service on the member's vehicle may be given the estimated time of arrival (ETA) and the name of the service provider. No other membership details should be disclosed.

What defines a situation as having "implied" safety concerns? Implied safety concerns are those not stated outright by the member but are suggested by their tone of voice, time of day, ambient background sounds, or location.

Is a Hot Call always a tow request?
No. A Hot Call may also involve a medical emergency or a lockout situation when a person or animal is inside the vehicle, or lockout or other service situation when the member/caller expresses they feel unsafe.

- Medical emergencies: Service representatives should immediately contact their Hot Call chat or local supervisor line for PA assistance. If the vehicle is not blocking traffic and the member is experiencing a medical emergency, towing will not be provided; however, representatives may facilitate PA assistance on the member's behalf.

I have a HOT call where the member wanted me to stay on the line but my shift is ending.
If you are on a HOT call where the member wants you to remain on the line until the provider arrives but your shift is ending, contact your Local Supervisor Line or Local Hot Teams chat for guidance.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Flat Tire: This knowledgebase policy tool is not intended to provide information about specific vehicle makes and models (i.e. Tesla truck, etc.).

Excluded vehicles, such as flatbeds, stakebeds, and other vehicles listed as excluded in the knowledgebase are not eligible for tire services.

Flat tire service includes installation of a spare tire and/or air for Classic, Plus, and Premier members. If the member does not have a usable spare, towing will be provided. When towing is necessary, a referral to Discount/America's Tire Center or an AAR facility should be offered. AAR facilities may have limited tire availability; if the member accepts the referral, counsel them to contact the AAR facility to confirm availability prior to the AAA technician's arrival.

Motorcycles: Tire changes for Motorcycles are not covered under membership; however, air only service for motorcycle is available Without RV/Motorcycle coverage. If the tire cannot be safely inflated, towing will be provided if the member has valid RV/Motorcycle coverage.

Hawaii Market: Dual-wheel campers/motor homes will be provided all services except towing, extrication/winching, and tire change service. Dual-wheel unloaded pickup trucks are provided all services except tire change service.

Recreational Vehicles (RVs): Tire changes for RVs are covered under RV/Motorcycle membership, subject to the provisions of service. however, without RV/Motorcycle coverage, RVs are eligible for air only service. If the tire cannot be safely inflated, towing will be provided if the member has valid RV/Motorcycle coverage (excluding Hawaii market). Members without this coverage are not eligible for tire change or towing services on RVs or motorcycles. Eligible recreational and motorcycles vehicles are covered up to $500 per service request, with a maximum of $1,000 total per household, per membership year. Tire rotation, snow tire installation/removal, and tire chain installation/removal are not covered under membership for any vehicle.

Transit Pros (ACMO territory): If an ACMO member requests tire replacement or repair on an RV at roadside, offer referral to Transit Pros, in partnership with AAA; the member pays for all parts and labor directly to the service provider. The service call is covered and counts toward the annual call allotment. If the member accepts, the service request should be manually assigned to the correct queue and the member warm-transferred to Transit Pros using Softphone.

Dually/Dooly (vehicles with two rear tires on each side): Tire changes for the inside rear tires are not covered for non-RV vehicles, except in California.

Multiple flat tires on vehicle:

- If a member requests air for more than one flat, document this in driver comments.
- If two or more tires are flat and the member requests a tow instead of air only or a tire change, the vehicle may be towed.
- If all four tires are flat and cannot be safely inflated, towing will be provided if the vehicle can be safely rolled onto the tow truck with limited rim damage.

- If all four tires are flat and the member is requesting installation of four inflated tires they have on scene, service will only be provided under membership if the flats are a result of a roadside disablement; otherwise, offer a COD referral using the reroute tool.

Missing Tires

Please review the following carefully: a vehicle with multiple missing tires due to restoration projects or if the vehicle was purchased with missing tires, service is not covered under membership. If the vehicle has multiple missing tires due to theft, it may qualify for towing under membership based on the following:

- If two tires are missing in the front or rear, and the vehicle can be safely towed from the opposite end, towing is covered.
- **If two tires are missing on the same side (driver or passenger) due to theft of the wheels, and no usable spare tires are available, towing will be provided, subject to the service provider's ability to safely load the vehicle.** If the provider determines the vehicle cannot be safely loaded, offer a COD referral. Upon review, reimbursement requests will be considered in this scenario but are not guaranteed.
- Service should not be refused solely because the tires are missing; additional probing by the agent is necessary. When service cannot be rendered under membership, counsel the member as follows: “I’m sorry, [Mr/Ms. Member], we are unable to provide service under membership, but I will be happy to provide you will a referral to a local provider, for service at your expense.”

Can we service a vehicle that is resting on cement blocks?
It depends on why the vehicle is on cement blocks. If the vehicle is on cement blocks because one or more tires are missing, follow the **Missing Tires** policy above. The presence of cement blocks alone does not determine eligibility for service.

- **If two tires are missing on the same side, or three or more tires are missing, towing is subject to the service provider's ability to safely load the vehicle.** If the provider determines the vehicle cannot be safely loaded, offer a COD referral.

Other restrictions:

- Bicycles, ebikes, and escooters not registered and insured for street/freeway use are not eligible for service.
- Off-road vehicles (ATVs, UTVs, etc.) must be loaded onto a covered trailer under RV/Motorcycle coverage to be towed.
- Tesla and similar passenger vehicles are eligible for all services under membership.
- For safety concerns at dangerous locations (freeway, highway, unsafe roadside), towing will be provided to a safe location.

America’s Tire and Discount Tire have partnered with ACE to provide members with exclusive tire repair and replacement benefits in the following markets: ACMO/Kansas City Metro (065), Alabama (001), Arkansas (065), Indiana (065), Kentucky (215), Louisiana (065), New Mexico (601), Ohio (215), Pennsylvania/West Virginia (215), Southern California (004), Texas (252), and Tidewater (258).

Member benefits at America's Tire and Discount Tire include exclusive savings, an additional $10 discount on "Better" and "Best" tire categories, an additional $10 discount on special promotions, and free tire repair (a $20 value), subject to inspection of the tire defect and compliance with safety guidelines.

When a member requests flat tire service and does not have a spare, offer towing to a local America's Tire or Discount Tire Center. If the member declines the referral, or if the request is made after business hours, advise them of the member-exclusive discounts available during normal hours. All flat tire-related service requests, including towing requests due to no spare, should include this referral. Suggested referral wording: "Keep in mind that as part of your membership, Discount Tire Center offers our members an additional $10 discount on tire replacements and free, limited tire repairs. Would you like me to locate a tire center in your area?" The discount benefits apply whether the member is towed or walks in; members only need to show their AAA membership card.

Discount Tire also offers mobile tire installation at select locations in ACMO/Kansas City Metro (065), Alabama (001), Arkansas (065), Indiana (065), Kentucky (215), Louisiana (065), New Mexico (601), Ohio (215), Pennsylvania/West Virginia (215), Texas (252), and Tidewater (258). Mobile installation is not roadside service. Members schedule home or workplace installation by contacting a participating America's Tire Center, arranging an appointment, and paying the mobile installation fee. The $50 mobile installation fee is in addition to standard installation and Life of Tire Maintenance fees and does not include the cost of replacement tires. Mobile installation locations are identified in the AAR tool.

If a member requests more information or an appointment for mobile installation, ERS representatives should warm transfer the member to the Discount Tire call center using the listing in Softphone. This listing should only be used for members requesting an appointment or details about mobile installation. Mobile tire repair is not available. Before transferring, provide the member with the Discount Tire call center phone number from Softphone in case the transfer disconnects. When the transfer is completed, introduce the member by first and last name to the Discount Tire representative.

Can AAA technicians repair or plug a tire defect, leak or hole at roadside in lieu of a tire change or tow?
No, AAA technicians cannot offer repair or plug of a tire defect, leak or hole at roadside.

What does flat tire service include for Classic, Plus, and Premier members?
Flat tire service includes the installation of a spare tire and/or air for valid Classic, Plus, and Premier memberships. RV coverage is required for flat tire changes on RV.

What should an agent do if a member does not have a good spare tire?
If a member indicates they do not have a good spare tire, towing will be provided, and a referral to Discount/America's Tire Center or an AAR facility will be offered.

Are tire changes for motorcycles covered under membership?
No, tire changes for motorcycles are not covered under membership; they are only eligible for air service.

What is the coverage limit for tire or towing services for recreational vehicles?
Eligible vehicles are covered for up to $500 of tire or towing services per service request, for a maximum of $1,000 total per household per membership year.

Is tire rotation covered under membership?
No, tire rotation is not covered under membership.

Are snow tire installation or removal services covered under membership?
No, the installation or removal of snow tires or tire chains is not covered under membership.

What should an agent do if a valid ACMO RV member has a flat tire on an RV but no spare available?
The member should be offered a referral to Transit Pros for roadside tire repair or replacement. The member will be responsible for all parts and labor costs.

How should the service request be handled if a member accepts the referral to Transit Pros?
The service request should be completed and manually assigned to the appropriate queue, and the member should be warm-transferred to a Transit Pros representative using the listings in Softphone.

What is the policy for changing tires on a dual-rear-wheel (dually or doolies) vehicle?
Tire changes on the *inside rear tires* of non-RV dual-rear-wheel vehicles are **not covered** under membership, **except in California**. Dual-wheel tire changes **are covered** for recreational vehicles when the member has an **RV/Motorcycle membership**, in all states-subject to the $500 RV/Motorcycle benefit.

What should an agent document if a member requests air for more than one flat tire?
The agent should document the request in the driver comments.

What is required for tire change services when a vehicle has multiple flats?
As long as the tires on the vehicle are defective and an equal number of good spares that are mounted on rims are available and inflated, flat tire service will be covered.

What happens if one of the spares are not mounted on a rim?
If one or more of the spares is not mounted on a rim, the vehicle must be towed; tire mounting on the rim and tire rotation is not included under membership.

What should be done if all four tires are flat and cannot be safely inflated?
If all four tires are flat and cannot be safely inflated, the vehicle will be towed, provided it can be safely rolled onto the tow truck with limited damage to the rims.

What if a vehicle has two missing tires on either side and no spares available?
If the vehicle has two missing tires on the driver side or passenger side and no spares are available, the vehicle cannot be towed under membership, and a COD referral should be offered.

What benefits do members receive from the partnership with America's Tire and Discount Tire?
Key member benefits include exclusive savings, an additional $10 savings on "Better" and "Best" tire categories, free tire repair (subject to inspection), and savings on special promotions.

What should an agent offer if a member requests flat tire assistance and has no spare available?
The agent should offer towing to a local America's Tire or Discount Tire Center.

What is the procedure if a member shows up at a Discount Tire location with their membership card?
Members who walk in and show their membership card will still be entitled to all the benefits outlined in the partnership.

Member lost key to tire lock (locking lug nut – wheel lock)
If the wheel lock key is lost, the service provider cannot perform a tire change. The member should be offered a tow to an appropriate service facility since the tire change cannot be safely completed without the wheel lock key.

Tidewater Care Care Centers offer free tire repair services to Club members; restrictions apply.

Will AAA cover removing a spare tire from one vehicle to put on another vehicle?
No, this qualifies as servicing two vehicles.

Will AAA cover removing a tire and leaving the vehicle on a jack?
No, flat tire service is intended to place the vehicle back into service or tow the vehicle to an approved destination. Tire removal in this scenario for the member's convenience is not covered under membership.

Do AAA technicians carry a power tool to remove lug nuts?
Yes, AAA technicians are equipped with tools to remove lugnuts when performing tire changes.

If a member has two (2) spare tires, can we put those on the vehicle?
As long as the tires on the vehicle are defective and an equal number of good spares that are mounted on rims are available, both tires can be changed under membership; service representatives must establish whether both spares are mounted on rims and are/can be inflated and document the additional flat and spare in comments to manage provider expectations. If the member indicates that one or more of the spares is not mounted on a rim, the vehicle must be towed.

Can we remove a tire for the member if they don't want to replace it with a spare and they do not want a tow?
No, AAA cannot remove a tire without having a spare tire if the member doesn't want a tow. Flat tire services covered under membership include Air Only, Flat Tire with spare replacements, and towing. Roadside service is intended to get the vehicle to a place of repair or their chosen destination or back on the go with air only or a spare replacement.

Can we send a technician/tow driver to remove the tires/wheels off a vehicle to put them on another vehicle?
No, AAA cannot remove tires and place on another vehicle; this service is equivalent to tire rotation, which is not covered under membership.

The information that follows only applies to AAA-insureds that are making a claim using a First Notice of Loss (FNOL) skilled agent, also called the Claims Assist program

The trained ERS agents take new claim reports (FNOL) from AAA insureds on nights, weekends, and holidays, and on occasion may take overflow claims calls, during periods of high volume. These calls may involve emergency road service, like when the insured has been in an accident and requires a tow, or the insured may be reporting damage to their property.

The link to access the FNOL or Claims Assist form is:
https://cmpvswccjaap100.ace.aaaclubnet.com:50094/fnollitev2/

In Claims Reporting Center (CRC) and FNOL, obtaining the correct policy number is necessary to ensure the insured's claim is filed when it is taken. If the insured is unable to provide the policy number, Service representatives will generally be able to use MRM Portal to verify policy information. There are, however, instances where ERS Service Representatives will be unable to enter a policy number. When this occurs, a claim should still be entered, even though it will reject and an adjustor must re-enter the claim. Only qualified insurance or claims agents can give information about the insured's policy. **ERS Service Representatives taking these Claims calls cannot answer questions about policy coverage.**

General Homeowner Claims Information

After hours report takers are not allowed to make any commitments to coverage or discuss policy coverage with the insured. If an insured needs to make temporary repairs to their home, please advise the insured to complete whatever emergency repairs are necessary to protect against further damage or harm. Receipts must be kept and submitted for reimbursement consideration.
The insured can be referred to s for emergency cleaning, temporary repairs, or board up assistance.
Types of claims which meet these criteria are:

- Windows or doors which need to be boarded up to secure the dwelling
- Standing water in the house that needs to be removed
- Contents or structural items are wet and need to be dried
- Sewage has backed up into the insured home
- Glass or debris need to be cleaned up inside the residence
- Smoke or soot damage to dwelling and its contents
- A tree has fallen on the insured home and caused a hole in roof or wall
- Remember that ERS agents cannot authorize any repairs or cleaning and cannot make any commitment to coverage on a loss. The insured must keep the receipts for any emergency repairs and submit them to AAA for possible reimbursement. If a home is not livable, the on call adjuster should be contacted by a supervisor. Homeowner claims must be reported by the policy holder. Agents should not capture claims reported by third party vendors. If the insured is with the party calling, he/she can authorize the agent to get claim specifics from the person assisting.

Two Types of Physical Damage Claims

- Collision Loss - Occurs when one vehicle makes direct contact with another vehicle or other man-made object like a building, telephone pole, fence, etc.
- Comprehensive Loss - Other types of physical damage to a vehicle caused by things like hail, wind, theft, and contact with an animal

Parties Defined in Insurance Claims

- Insured - The party that AAA insures or other party with insurance
- Claimant - Any party AAA does not insure, but is seeking coverage for damages under the insured policy.

Rental Cars

ERS agents may facilitate rental cars for Premier members with AAA insurance ONLY, as long as they meet the following criteria:

- Insured must have the rental endorsement on their policy
- The vehicle is not drivable
- It is a new claim that has been reported after hours to the ERS Department
- If the above criteria are met, set up the reservation.

Glass Damage

Windshield or glass breakage: The insured can do temporary repairs to secure the· vehicle. The insured must keep receipts for any temporary repairs or glass replacement. If the only damage is glass breakage, the information will be forwarded by the Claim Department to a glass company. The insured should expect a call from Trans America or Lynx Services to schedule an appointment.

Glass chips or small cracks: The comprehensive deductible does apply. The costs of most repairs do not exceed the deductible. If the repair is less than the deductible, the insured is responsible for the repair and it is not necessary to file a claim. Suggest they take the vehicle to a local glass shop to see if it can be repaired. If the repair is greater than the deductible, the glass shop will usually coordinate filing the glass claim with the insured and AAA.

Member Preferred Repair (MPR)

AAA Insurance has a vehicle repair program set up in many states. AAA will guarantee the repairs completed at MPR shops from a covered accident. Use the tools in IRAS to locate an MPR. Please do not refer glass breakage only claims to these shops.

Important Notes

- Coverage: After-hours claims representatives cannot answer questions about policy coverage.
- Liability: Any discussions about who may be responsible for damages should be avoided.
- Additional Questions: Insured's may contact their agent (PMG in Softphone) to inquire about their insurance coverage
- Rental Assistance: Requests should be documented in the claims Notes section
- Vehicle Collisions: An MPR referral should be routinely offered
- Glass Breakage: MPR referrals do not apply for glass repair/replacement for motor vehicles.

Launch FNOL Lite and Fill out the form as follows (In the event the insured/caller is still on scene and a safety concern is unaddressed, discontinue claims process; Hot Call protocol applies):

1. Qualify the FNOL Auto claim as follows:
    a. Select "Auto from the Loss being reported field.

   b. Verify the policy number. If the member does not have their policy available, it may be found in MRM Portal - Insurance Tab.
   c. Verify the number of vehicles involved.
   d. Verify the number of people injured.
2. Select Next
3. Enter the policy number with the three-letter designator. Select Retrieve Policy."
4. Upon retrieval, policy information will appear.
5. Review information and select "Next."
6. On the Claim Reporter Information page, select the person reporting the claim and verify contact information. If the person reporting the claim is not in the dropdown, select "Create Reporter" and enter the required information.
7. In the "Explain What Happened" field, enter the reporter's description of the events that transpired.
8. In the "Type of Claim" field, select the appropriate type:
   a. Collision: Any claim where the vehicle made contact with another vehicle or object while driving (i.e., Hit Light pole or hit another car in parking lot).
   b. Stolen vehicle: Any claim where the vehicle was stolen.
   c. Glass: Any claim where the damage is Glass Only. If there is other damage, report as Collision.
   d. All Other: Any instance that does not fit into the above listed categories.
   e. Based on the claim type, additional information may be required.
9. The Loss Location: field contains the insured's address on file. If the event did not occur at this address, select "Create New Location" and enter the required information.
10. Select "Next."
11. Enter any additional information in Notes.
12. If the Insured would like an email confirmation, enter the required information.
13. Enter the Receiving Agent full name.
14. Select "Finish" to submit the claim.
15. The assigned Claims Adjustor s name and contact information will appear. Provide this to the member.

Fill out the FNOL Auto form as follows:

1. Select "Home " in the Loss Being Reported Field
2. Answer the question about policy number availability!
   a. If the insured's policy is available, select "Yes."
   b. If the insured' indicates the number is unavailable, find the policy in MRM Portal, and select "Yes." Verify the policy with their address on file.
   c. If the policy cannot be found or verified, select "No," and continue.
3. Answer the questions regarding the loss. Additional questions may arise based on the answers.
4. Select "Next."
5. Enter the policy number (3 letters + 9 digits) and date.
6. Select "Retrieve Policy."
7. In the "Reported by" field, select the insured reporting the claim.

   a. If the caller is someone other than the insured, select "Create New Reporter" and enter the name and phone number manually.
8. Under "Basic Claim Information," selector Enter:
   a. The State
   b. The Loss Date
   c. Ask the claimant what happened and enter in the text field.
9. Based on the response, select the type of complaint from the dropdown.
10. Select the Loss Location. If the location is not the address showing the dropdown, select "New Loss Location."
11. Enter Nores as applicable. This is not required. It may include additional information such as police report number or contact time.
12. If the member would like to receive an email confirmation, select "Yes" and the appropriate name int eh dropdown. An editable field will appear with an email address (if available). You may enter an email address if blank or edit as applicable.
13. Enter the user's full name
14. A new window with the Claim number and Adjustor's name and contact information will appear. Give this to the claimant.

After-Hours FNOL Claim Vendor - If an insured needs to make temporary repairs to their home, please advise the insured to complete whatever emergency repairs are necessary to protect against further damage or harm. Receipts must be kept and submitted for reimbursement consideration. The insured can be referred to our After-Hours Vendor for emergency cleaning, temporary repairs, or board up assistance.

Servicemaster: 1-800-737-8673
ServPro: 1-800-737-8776

Types of (FNOL) claims which meet these criteria are:

- Windows or doors which need to be boarded up to secure the dwelling
- Standing water in the house that needs to be removed
- Contents or structural items are wet and need to be dried
- Sewage has backed up into the insured home
- *Glass or debris need to be cleaned up inside the residence*
- *Smoke or soot damage to dwelling and its contents*
- *A tree has fallen on the insured home and caused a hole in roof or wall*

FNOL Claims Adjustor and On-Call Adjustor Contact: Claimants should be advised to expect contact within ONE (1) Business Day. Agents will notify a supervisor in the event of an emergency. The Supervisor will contact the Adjustor. Inform the Claimant that the Adjustor is being notified and continue taking the claim.

In case of emergency (FNOL)**:**

- Notify a Supervisor
- The Supervisor will contact the Adjustor
- Inform the Claimant that the Adjustor is being notified and continue taking the claim

FNOL Emergencies include, but are not limited to:
Emergencies include, but are not limited to:
AUTO CLAIMS (FNOL)

- A death occurs

- A serious injury occurs

HOME CLAIMS (FNOL)

- A death occurs
- A serious injury occurs
- The Fire Department is on scene

ERS Supervisors Only may contact an On-Call Adjustor as follows. During Business Hours: Contact Claims via Softphone. Enter the applicable state.
Outside of business hours, ERS Supervisors may contact (314) 795-0010 for the following states: Arkansas - Illinois - Indiana - Kansas - Kentucky - Louisiana - Maine - Mississippi - Missouri - New Hampshire - Ohio - Pennsylvania - Rhode Island - Vermont - Virginia - West Virginia, Alabama
Outside business hours, ERS Supervisors may contact (805) 280-2080 for the following states: California - Hawaii - New Mexico - Texas
Outside business hours, ERS Supervisors may transfer to (800) 207-7947 for the following: New York
These numbers are not to be given to the Insured; they are solely for use by call center personnel.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

ERS Help Desk

When transferring a member/caller, warm transfers are required at all times. When contacting the Help Desk, be prepared with your Emp ID, and the Case number, when applicable. If no response within 60 seconds, contact local site Supervisor line for immediate assistance. The Help Desk should not be contacted for Hot Calls, Critical Incidents, ADA Requests, System Issues. For policy and procedure questions, or if the member has a question that the agent is unable to answer, the agent should contact SRT by selecting the Question Line and request the information on behalf of the member. Members should not be conferenced in or transferred to the Question line When a member requests escalation to a supervisor, or escalation is required by Club policy, contact the Escalation Line. Proactive offers to transfer are not permitted.

For DSU (Direct Sales Unit) hours, you need to check the listing in Softphone. This information is not directly provided in the knowledge base.

Overrides - To obtain an override, use the Override Teams chat. When requesting an override, include the SVO#, Member Last Name, Reason (e.g., Affiliate Club Approval). Only Overrides will be provided via the Override Teams chat.

Local Site Hot Call Teams Chat – Contact your Local Site Hot Call Teams Chat in the following scenarios: Hot Call assistance, Critical Incidents, ADA alternate transportation requests

For ERS system issues, contact your Local Supervisor Line.

What is required when transferring a member or caller to the ERS Help Desk?
Warm transfers are required at all times when transferring a member or caller.

What information should you be prepared with when contacting the Help Desk?
You should have your Emp ID and the Case number, when applicable.

What should you do if you do not receive a response from the Local Team Override or Support Chat within 60 seconds?
You should contact the local site Supervisor line for immediate assistance.

In what situations should the Help Desk not be contacted?
The Help Desk should not be contacted for Hot Calls, Critical Incidents, ADA Requests, or System Issues.

Which line should agents use for policy and procedure questions?
Agents should select the Question Line for policy and procedure questions.

What should agents do if a member requests escalation to a supervisor?
Contact the Escalation Line if escalation is required by Club policy or if a member requests it.

Are proactive offers to transfer permitted?
No, proactive offers to transfer are not permitted.

What details must be included when requesting an override?
When requesting an override, include the SVO#, Member Last Name, and Reason (e.g., Affiliate Club Approval).

Where should you contact for Hot Call assistance?
You should contact your Local Site Hot Call Teams Chat for Hot Call assistance.

What should be done in the case of Critical Incidents?
Contact your Local Site Hot Call Teams Chat for assistance with Critical Incidents.

Where should ADA alternate transportation requests be directed?
ADA alternate transportation requests should be directed to the Local Site Hot Call Teams Chat.

What line should be contacted for ERS system issues?
Contact your Local Supervisor Line for ERS system issues.

What is the purpose of the Help Desk (SRT)?
The Help Desk (SRT) provides support and assistance for ERS-related inquiries and issues.

When are warm transfers required?
Warm transfers are required at all times when transferring a member or caller to the Help Desk.

What type of requests should be handled through the Override Teams chat?
Only Overrides will be provided via the Override Teams chat.

Fuel (Gas) Benefit – All valid AAA members are covered for the delivery of an emergency supply of fuel, which is enough to enable them to reach the nearest fuel station. Classic members are required to pay the provider for the cost of fuel; if the member is unable to pay for the cost of the fuel, agents should check the membership history in MRM Portal for a prior granting a fuel exception (spam fuel). If no prior exception has been made, the agent should counsel the member that a one-time fuel exception will be provided and document the exception on the service request. If a previous exception has been approved within current membership year, member will be required to pay the provider. Document the denial on the service request and counsel the member that further exceptions cannot be made. Service representatives should avoid statements about the price or cost of fuel, and statements about the amount of fuel that will be provided (e.g., "one gallon", "a couple of gallons", etc.).

Plus and Premier member will receive the fuel at no cost. The price of fuel is based on the cost of fuel in the local market. Service representatives should avoid statements that specify cost or imply a specific volume of fuel will be provided (e.g., "one gallon", "a couple of gallons", etc.). When a member requests a specific type of fuel (i.e., Premium, 91 octane, etc.), advise the member that you will document their request but there is no guarantee the provider can accommodate it. Delivery of diesel fuel is based on availability. Additional priming fees may apply. If diesel fuel is unavailable, towing will be provided. When diesel fuel is requested, counsel the member, "Not all drivers carry diesel fuel. If diesel fuel is not readily available, or additional servicing such as priming is required, your membership covers you for [insert benefit] miles of towing."

Fuel (Gas) Type
Fuel types are limited to Unleaded and diesel (where available). Alternative fuels such as, CNG, natural and other fuel types are not available at roadside.

CNG Vehicles – While CNG cannot be provided for the vehicle, CNG vehicle may be towed and/or received all other services available under member.

Fuel Cell Vehicle
A fuel cell vehicle (FCV) or fuel cell electric vehicle (FCEV) is an electric vehicle that uses a fuel cell, sometimes in combination with a small battery or supercapacitor, to power its onboard electric motor. FCV/FCEV vehicles are covered for the same services as electric vehicle.

Unable to Pay – If the member indicates they are unable to pay for the fuel, agents should check the membership history in MRM Portal for a prior granting a fuel exception. If no prior exception has been made, the agent should counsel the member that a one-time fuel exception will be provided and document the exception on the service request. If a previous exception has been approved within current membership year, member will be required to pay the provider. Document the denial on the service request and counsel the member that further exceptions cannot be made.

Fuel/Gas Leak – Service should not be refused to our members on the basis that a vehicle gas tank is leaking fuel. The provider will assess whether vehicle can be safely serviced under membership.

AAA does not provide alternative fuel at roadside. To locate the closest EV station, you may use the AAA Mobile app or visit AAA.com/evstations. If Alternative Fuel is needed, use your mapping tool, web browser, and/or counsel the member to search for a nearby location. If the member needs towing to an alternative fuel station, process the towing request under membership.

What should be done if alternative fuel is needed for a vehicle?
AAA does not provide alternative fuel at roadside. Use a mapping tool, web browser, and/or counsel the member to search for a nearby location if alternative fuel is needed. If the member needs towing to an alternative fuel station, process the towing request under membership.

Do you need to have RV/Motorcycle coverage for fuel delivery on a motorhome?
No, if there are no available RV/Motorcycle benefits available, light service—including fuel delivery can be requested under Classic, Plus, or premier benefits.

Can a member receive fuel more than once per day?
Currently, the Club does not prohibit our members from requesting fuel or other service more than once per day, unless otherwise excluded by existing ERS policy and/or the provisions of service.

What does the fuel benefit cover for AAA members?
The fuel benefit covers the delivery of an emergency supply of fuel, which is enough to enable members to reach the nearest fuel station.

Can provide fuel to a member who is requesting gas while they are at a gas/fuel station, or on the highway/freeway/interstate?
Yes, even though they are at a fuel station, AAA technician will provide fuel under membership; by providing fuel we avoid the costs of towing the vehicle and resolve the member's concerns. Additionally, fuel delivery applies to highway/freeway/interstates to get the member back on the go.

Can we tow the member to a gas/fuel station to put gas in their vehicle?
Yes, while roadside assistance includes Fuel service, if the member declines an offer to bring fuel and opts for a tow instead, towing will be covered under membership, subject to provisions of service. Reasons a member may want to be towed in lieu of receiving fuel service include but are not limited to the need for specialty fuels, inability to pay for fuel delivery, if applicable, etc. the member's location, such as a residence or the fact that they are at or near a fuel station does not preclude their eligibility for fuel under membership.

Do Classic members have to pay for the fuel delivery?
Yes, Classic members are required to pay the provider for the cost of the fuel; service representatives should avoid statements that specify cost or imply a specific volume of fuel will be provided (e.g., "one gallon", "a couple of gallons", etc.). If the member is unable to pay for the fuel, agents should check the membership history in MRM Portal for a prior granting a fuel exception. If no prior exception has been made, the agent should counsel the member that a one-time fuel exception will be provided and document the exception on the service request. If a previous exception has been approved within current membership year, member will be required to pay the provider. Document the denial on the service request and counsel the member that further exceptions cannot be made. Service representatives should avoid statements about the price or cost of fuel, and statements about the amount of fuel that will be provided (e.g., "one gallon", "a couple of gallons", etc.).

Do Plus and Premier members pay for the fuel delivery?
No, Plus and Premier members receive the fuel at no cost.

What should service representatives avoid saying when discussing fuel delivery?
Representatives should avoid statements that specify cost or imply a specific volume of fuel will be provided, such as "one gallon" or "a couple of gallons."

What should be communicated to members who request a specific type of fuel?
Members should be advised that their request will be documented, but there is no guarantee that the provider can accommodate it.

Is diesel fuel always available for delivery?
Delivery of diesel fuel is based on availability; if it is unavailable, towing will be provided.

What should agents tell members when diesel fuel is requested?
Agents should counsel members that "Not all drivers carry diesel fuel. If diesel fuel is not readily available, or additional servicing such as priming is required, your membership covers you for [insert benefit] miles of towing."

What fuel types are available for delivery?
Fuel types are limited to Unleaded and diesel (where available). CNG, natural gas, and other fuel types are not available.

What should agents do if a member indicates they are unable to pay for the fuel?
Agents should check the membership history in the MRM Portal for any prior granting of a fuel exception. If no prior exception has been made, the agent should inform the member that a one-time fuel exception will be provided and document the exception on the service request.

What happens if a member has already received a fuel exception within the current membership year?
If a previous exception has been approved within the current membership year, the member will be required to pay the provider. The denial should be documented on the service request.

Can service be refused if a vehicle tank is leaking fuel?
No, service should not be refused on the basis that a vehicle gas tank is leaking fuel. The provider will assess whether the vehicle can be safely serviced under membership.

What should representatives document regarding fuel exceptions?
Representatives should document any granted fuel exceptions or denials in the service request.

Can service representatives specify the exact amount of fuel to be delivered?
No, service representatives should not specify the exact amount of fuel, as this may mismanage their service expectations.

What is the cost of the fuel that must be paid to the provider?
The price of fuel is based on the cost of fuel in the local market. Service representatives should avoid statements that specify cost or imply a specific volume of fuel will be provided (e.g., "one gallon", "a couple of gallons", etc.).

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

As a part of the ongoing ACE effort improve member satisfaction when service is delayed to our members, we have partnered with the Lyft to provide to Lyft Concierge service to our members in select service recovery scenarios. Facilitation of this service is exclusive to select Lyft Concierge-skilled dispatchers as a part of their service recovery efforts.

As of 12/31/2023, the Premier Lyft credit benefit was discontinued; this credit is no longer available in lieu of the Premier one-day free car rental.

Knowledge Base Scope and Limitations

Vehicle coverage

The Knowledge Base provides general vehicle-eligibility policies but cannot determine coverage for a specific vehicle make, model, configuration, or situation. Verify eligibility through the approved service-request process or appropriate support channel.

Affiliate Club (non-ACE) Membership benefits

The knowledgebase cannot provide benefit information for non-ACE clubs. Use CDX to determine coverage and/or contact the non-ACE member's home club for additional information.

Location assistance

The Knowledge Base must not be used to provide directions, navigation advice, location recommendations, or location-specific safety guidance. Use approved mapping, dispatch, and location-verification tools.

Membership account details

The Knowledge Base contains general membership and benefit information but cannot access, verify, or interpret a specific member's account, eligibility, remaining service calls, fees, or coverage. Review the member's account in the authorized membership system.

Knoweldgebase Recommended response when a request is outside scope: "I can provide general policy information, but I cannot determine this specific vehicle's coverage, provide location guidance, or access an individual membership account. Please use the appropriate account, dispatch, or location tool to verify the details."

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

As a courtesy to international Club members (outside of the USA), AAA will provide Classic level benefits to valid international club members with photo ID and international membership card. ACE call centers do not process service requests for breakdowns outside of the USA, within international market territories, including Canada and Mexico. However, valid ACE members are eligible for roadside service in Canada and should be transferred to the appropriate CAA club using Softphone.

The exception to this policy is AAA Canada members with verified RV/Motorcycle memberships are eligible for up to $500 per disablement, and up to $1000 maximum per household, per membership year (must be verified with the home Club through CDX; if unable to verify, elevate the call to SRT. DO NOT bypass membership level). AAA Canada Club members must contact their home club for reimbursement of fees that exceed $500. ACE reimbursement forms should never be provided to affiliate and international Club members.

Valid international club members experiencing a vehicle breakdown in ACE territory are eligible for Classic benefits only; there are no exceptions. A valid photo ID and valid International Club membership card must be presented to the driver. To request service for an international member in ACE territory, ask for the membership number from their membership card, which is required of international members to receive service in ACE territory. International club codes range from 300 to 499. When a Club Code in the range of 300 to 499 is entered, the membership validation will be bypassed, and the benefit level will be set to Classic. If the International Club member is unaware of their Club Code, 499 should be used.

To enter a international membership for RADAR service request processing, Select the NO MEMBERSHIP button, Select OTHER, and document the Club name and membership # in the comments field (Classic benefits only).

International Club Codes include but may not be limited to the following:

Club Code 312 RAA Australia

Club Code 397 RAC WA Australia

Club Code 310 RACQ Australia

Club Code 448 RACV Australia

Club Code 447 RACT Australia

Club Code 390 NZAA New Zealand

Club Code 396 ÖAMTC Austria

Club Code 393 Touring Club Belgium (TCB) Belgium

Club Code 488 Cyprus Automobile Association Cyprus

Club Code 491 FDM Denmark

Club Code 383 ADAC Germany

Club Code 428 AA Great Britain Great Britain

What benefits are available to valid international club members experiencing a vehicle breakdown in ACE territory?
Valid international club members experiencing a vehicle breakdown in ACE territory are eligible for Classic benefits only; there are no exceptions.

What range of club codes corresponds to international memberships?
International club codes range from 300 to 499.

What identification must be presented to the driver by international club members?
A valid photo ID and a valid International Club membership card must be presented to receive service.

What happens when a Club Code in the range of 300 to 499 is entered?
The membership validation will be bypassed, and the benefit level will be set to Classic.

What should be done if an international club member is unaware of their Club Code?
If the member is unaware of their Club Code, and it is not listed, use code 499. However, a valid international club card with photo ID must be presented for service.

What if an international Club Code is not listed?
If the member is unaware of their Club Code, and/or it is not listed, Club Code 499 should be used.

What benefit level is available to international club members in ACE territory?
International club members are eligible for Classic benefits only, with no exceptions.

What must an international club member provide to receive service in ACE territory?
They must present a valid photo ID and a valid International Club membership card to the driver.

What membership information is required to request service for an international club member?
The membership number from their valid membership card and a photo ID in the same name is required to receive service.

What is the range of International Club codes?
International Club codes range from 300 to 499.

What happens when an International Club code in the range of 300 to 499 is entered?
The membership validation will be bypassed, and the benefit level will be set to Classic.

What should be done if an international club member is unaware of their Club Code?
Club Code 499 should be used in such cases; however, the valid international membership card with photo ID in the member's name must be presented to the service technician.

Do ACE call centers handle service requests for breakdowns in Canada or Mexico?
No, ACE call centers do not process service requests for breakdowns within international market territories, including Canada and Mexico.

Can an international member receive benefits above the Classic level in ACE territory?
No, international members are eligible for Classic benefits only.

Who is responsible for verifying the membership card and ID for international members?
The driver is responsible for verifying the valid photo ID and International Club membership card.

What should an ERS agent do if an international member provides a valid membership card but no Club Code?
Use Club Code 499 to process the request.

AAA Canada or other international roadside membership cards are good for Classic service in ACE territory only with photo ID and valid international club cards.

Hawaii is an ACE state and roadside service is available under membership. AAA roadside service is cannot be facilitated in the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands. Washington DC is not a state, but can be serviced under Call Move, subject to provisions of services.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

AAA Temporary Membership Cards: Holders of temporary AAA membership cards may only receive service if payment must be received by AAA and confirmed in MRM. If payment is confirmed, the physical membership card is not required to receive service (photo ID must be provided). Holders of temporary membership cards should be counseled that the card is "temporary", and that payment is required to obtain services using the temporary card. A 'permanent' replacement card will be issued when full payment of the membership has been processed. If the caller indicates they have made the payment, ERS agents should attempt to locate the payment in MRM. If no payment has been received, offer to transfer the caller to DSU or refer member to AAA website to purchase a membership.

Hot Call protocol applies when a safety concern is present and in this scenario, service should not be denied because payment has not been receive. When a AAA National representative transfers a new member, a temporary membership number and the benefit level paid for will be provided by the representative. The new member will only be eligible for Classic benefits until the 7-day waiting period has expired, regardless of the type of membership purchased. AAA temporary membership cards are part of a AAA Marketing direct-mail tool. Potential members receive a marketing packet with an offer to join AAA, which includes a temporary card that becomes valid after payment for the new membership is received by AAA.

When a newly joined member is transferred by AAA National representative who provides a temporary membership number that cannot be located in MRM, ERS agents should select No Membership > Membership Unavailable as the Reason, capture the first and last name of the member, and add the temporary membership number in Comments. New memberships are subject to the 7-day waiting period for enhanced benefits. Upon accepting the warm-transfer, counsel the member regarding their benefit coverage.

Can holders of temporary AAA membership cards receive service?
Yes, but only if payment has been received and confirmed in MRM. A physical membership card is not required, but a photo ID must be provided.

What should holders of temporary membership cards be informed about?
They should be counseled that the card is temporary, and payment is required to obtain services using the temporary card.

When will a permanent membership card be issued?
A permanent card will be issued once full payment of the membership has been processed.

What should ERS agents do if a caller indicates they have made payment but it cannot be located?
ERS agents should attempt to locate the payment in MRM. If no payment is found, offer to transfer the caller to DSU or refer them to the AAA website to purchase a membership.

What benefits are available to holders of temporary cards transferred by a AAA National representative?
They will only be eligible for Classic benefits until the 7-day waiting period for enhanced benefits has expired, regardless of the membership type purchased.

What happens if payment is received for a temporary card?
Once payment is received, the card becomes valid, and the member can receive services without needing the physical card, provided they show a photo ID.

How are temporary membership cards distributed?
They are part of a AAA Marketing direct-mail tool, sent to potential members as part of a marketing packet offering AAA membership.

What should happen when a new member is transferred by a AAA National representative?
The representative will provide a temporary membership number and the benefit level paid for. Agents should counsel the member regarding their Classic benefits during the 7-day waiting period.

How can payment for a temporary membership card be confirmed?
Payment confirmation must be checked in MRM before providing service to temporary membership card holders.

What is the protocol if no payment has been received for a temporary membership card?
Offer to transfer the caller to DSU or guide them to the AAA website to complete their membership purchase.

How should agents handle a warm-transfer from a AAA National representative for a new member with a temporary card?
Agents should confirm the temporary membership number and counsel the member regarding their benefit coverage during the waiting period.

What is the primary use of AAA temporary membership cards?
They serve as a marketing tool to encourage potential members to join AAA, becoming valid once payment is received.

What should members with temporary cards expect regarding enhanced benefits?
They must wait for the 7-day waiting period to expire before receiving benefits beyond Classic—enhanced benefits, even if they purchased a higher-level membership.

What is the benefit level for members with temporary cards?
Members with temporary cards who have paid the membership dues are only eligible for Classic benefits until the waiting period is completed.

Can a member use their temporary card if they haven't paid for the membership yet?
No, they cannot use the temporary card for services until the payment is received and confirmed.

What should ERS agents capture if a call is transferred by AAA National and the temporary membership number is unavailable in MRM?
They should record the member's first and last name and add the temporary membership number in the Comments section of the service request.

What is Hot Call protocol in relation to temporary membership cards?
Hot Call protocol applies if there is a safety concern and the member is unable to make the payment immediately.

What should happen if a member with a temporary card wants enhanced benefits within the first 7 days?
They will need to wait for the 7-day waiting period to expire before receiving any benefits beyond Classic, regardless of their membership level.

What is the importance of confirming payment in MRM for temporary cards?
Confirming payment is crucial, as members cannot receive services with a temporary card until the payment is verified.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

This third-party rule does not apply to non-ACE clubs, such as Club 005. Do not provide policy exceptions and third-party/member-not-present information to the member in non-ACE territories for non-ACE Clubs (in Call Move scenarios). If the member has questions or wants additional information, transfer to the servicing non-ACE Club.

Third-Party Service Policy: also referred to as acting agents, proxy, stand-ins

- If a third party requests service on behalf of a member, the member must be present with the vehicle at the time of service (e.g., member doesn't have their phone and someone calls in on their behalf). If the member will not be present, the member must personally initiate the service request when a third party will be with the member's vehicle.
- A third party may be present with the member's personal vehicle if they can provide valid registration or insurance in the member's name along with a photo ID; this does not apply to AAA battery warranty service; the purchasing member must be present for warranty service; no exceptions.
- When the member is not present, a third party (non-member) cannot receive service for a vehicle that is not registered to the member (see exceptions for accident assist and hot calls)
- The only exception to these policies is for **Accident Assist** and Hot Calls. In hot call scenarios, non-members/third-parties operating any otherwise covered vehicle may receive services designed to address the safety concern with no proof of membership or vehicle ownership.

Who is a third-party (stand-in)?
Third parties include passerby (assisting member without a phone), friends, family, coworkers, neighbors, anyone that is not the member, etc.

If third-party is driving members car and needs service in a unsafe location, but the member is not present, can I still send service if they show the registration or insurance?
If Hot Call protocol applies (what about the location is unsafe?), service can be provided to members and non-members with no proof of vehicle ownership requirement, subject to all other provisions of service.

Can we tow vehicles that aren't registered to the member?
That depends. If the member is present with photo ID, service may be rendered on a non-member vehicle. If the member is not present with the third-party vehicle (vehicle not registered to the member), we cannot provide service to a third-party under membership. However, if the vehicle is registered to the member and the member initiated the service request, we can service the vehicle even if the member cannot be present — as long as the third party who is present provides valid photo ID and proof that the vehicle belongs to the member (such as a vehicle registration or insurance card in the member's name).

Can a member use their membership to have a key made for someone else's car?
Yes, Locksmith service can be provided when the member is a driver or passenger in the vehicle requiring service, and the member is present for service with a valid photo ID.

A member indicates they have rented their vehicle to a third-party; the vehicle is now disabled. The member is not with the disabled vehicle but is requesting that roadside service be sent to the third-party. Is this a covered service?

In this scenario, the third-party must provide a valid registration and/or insurance card in the member's name to ensure that the AAA technician can confirm that the member is the registered owner of the vehicle (no AAA warranty service for third parties). The third-party rules apply in this scenario; the person with the member's vehicle must present a valid photo ID and pay all relevant fees at the time of service.

What documentation must the third party or stand-in present to the technician?
The third party must present verifiable vehicle registration or insurance in the member's name (valid temporary registration is acceptable) and a photo ID. This must be documented in the Driver's Notes.

Who can act as a third party or stand-in for a member during roadside service?
A third party or stand-in may be a mechanic, friend, family member, or another individual authorized by the member; this information must be documented in the Driver's Notes.

What conditions must be met for a third party to represent a member during service?
The third party must:

- Have proof of registration or insurance in the member's name.
- Present a valid photo ID.
- Be authorized by the member.
- Have exception information documented in the Driver's Notes.

The member is with the vehicle, but they do not have a photo ID. Is service covered?
No, the member must present a valid photo ID unless an exception is approved by ERS management. The member should be advised to call back when a photo ID is available.

Who is responsible for paying service-related fees or charges at vehicle drop-off/tow destination?
All service-related fees, such as fuel or mileage charges, must be paid to the provider by the member or their authorized representative.

Can a third-party request service for a member's vehicle if the member will not be present for service?
No, the member must initiate contact with ERS for service on their vehicle; however, a third party may be present with the vehicle for service on the member's behalf if they can present valid registration or insurance in the member's name and pay any service-related fees.

What should happen if a third party calling on the member's behalf indicates the member will not be at the service location?
The request for service should be declined, and the caller should be redirected to the member.

Are memberships transferable to other household members?
No. AAA memberships are non-transferable, including to other household members.

Can ERS agents initiate a service request if a third party calls on behalf of a member?
Yes, ERS agents can initiate a service request without speaking to the member if the third party is calling on their behalf as long as the member will be present with a valid photo ID when the technician arrives.

What should happen if a third party offers to help and calls to request service for a member's vehicle?
ERS agents may process the request if the member will be at the breakdown location and can present a valid photo ID to the service technician; Accident Assist scenarios are excepted.

What fees or charges must be paid at the time of service when a third party is present?
All service-related fees, including fuel or mileage charges, must be paid to the provider at the time of service.

In what scenario can service be provided to a third party driving a vehicle registered to a member without the member on scene?
They must present valid proof of registration or insurance in the member's name or service will be declined; **Accident Assist** and Hot Call scenarios are an exception to this policy.

Can a third party or stand-in present a temporary vehicle registration in the member's name for service on the member's vehicle?
Yes. However, the member must initiate the service request, and the third party must present a valid temporary registration or insurance in the member's name and pay all service-related fees at the time of service.

How do I process, submit, 'put in' a third-party' stand-in exception?
Exception information should be documented in the Driver's Notes of the service request. The third party (stand-in) must present verifiable vehicle registration or insurance in the member's name and an approved photo ID.

When a member is deceased, can a person who lived with the member or a family member use the membership to get assist for the deceased member's vehicle?
No, memberships are not transferable; the new vehicle owner/operator must obtain their own membership for service.

Can a member use their membership to have a third party's vehicle towed to a repair shop?
That depends. The member must be present with photo ID at the time of the service provider's arrival or service will be declined.

Phone numbers or contact numbers for non-ACE Clubs can be found in SoftPhone; if an ERS agent needs to transfer a non-ACE member to their home Club or needs to transfer a member to the Call Move club territory, look for the number in Softphone, if necessary. Do not provide benefit information, exception information or policies for members experiencing breakdowns in non-ACE Clubs (Call Move); transfer the member to the servicing non-ACE club if there are questions about coverage, exceptions, and services in those markets..

Can a member authorize someone else to be present for roadside service if they cannot meet the provider?
That depends on who the vehicle is registered to. If the vehicle is registered to the member, a third-party can be present for service if the member initiates the service request, authorizes the third party or stand-in, and the third party can present the registration or insurance card for the vehicle in the member's name along with photo ID. the exception information should be documented in the Driver's Notes.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Through a new partnership between AAA and T-Mobile, T-Mobile is offering their customers a free first year of AAA membership at the Classic level of benefits for a new primary member, or a free year of renewal for an existing AAA primary member. Sometimes ERS agents or members refer to this as T-Mobile roadside assistance.

Can I get the Year of AAA on Us by T-Mobile at a branch or by speaking to an agent? This online-exclusive offer must be redeemed with a coupon code from your T-Mobile account.

Mbr has membership through tmobile and needs service today and got card today does she still have to pay CAPRE or Same Day (Early ERS Use) fee?
Yes, all new members are subject to AAA roadside policies, provisions of service and fees, regardless of the partnership offer used to join, unless otherwise specifically outlined by AAA or ERS policy.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Vermont - There are no toll roads in Vermont
Maine- For breakdown locations in Maine, the member is responsible for toll charges, which must be made directly to the provider at the time of service.
New Hampshire - For breakdown locations in New Hampshire, toll charges are covered by the Club for AAA members.
Alabama and Tidewater (Virginia)- For breakdown locations in Alabama, toll charges are covered by the Club for AAA members.
California - For breakdown locations in California, toll charges are covered by the Club for AAA members.
Hawaii- There are no toll roads in Hawaii
New Mexico- There are no toll roads in New Mexico
Texas - For breakdown locations in Texas, toll charges are covered by the Club for AAA members.
New York - For breakdown locations in New York, Members are responsible for toll charges.
Ohio - For breakdown locations in Ohio, Members are responsible for toll charges..
Pennsylvania - For breakdown locations in Pennsylvania, Members are responsible for toll charges.
West Virginia - For breakdown locations in West Virginia, Members are responsible for toll charges.
There are no toll roads in Arkansas
Illinois
Indiana
Kansas
Louisiana
Missouri
Mississippi
Indiana Toll Road (I-80/I-90): This 157-mile turnpike spans northern Indiana from the Ohio state line to the Illinois state line, connecting to the Chicago Skyway. Members are responsible for toll charges.

RiverLink Bridges (Kentucky - Indiana): While Kentucky has no toll roads, it shares three electronically tolled bridges connecting Louisville and Southern Indiana: the Abraham Lincoln Bridge (I-65 North), John F. Kennedy Memorial Bridge (I-65 South), and the Lewis and Clark Bridge (SR 265/KY 841). Members are responsible for toll charges.

Kentucky does not have any traditional turnpikes, but both states share tolled interstate bridges in the Louisville area.

To improve the member experience and streamline roadside assistance delivery on the Pennsylvania Turnpike, AAA is updating its service delivery protocol. **Effective immediately,** AAA members experiencing a vehicle disablement on the **Pennsylvania Turnpike** will no longer be directed to contact the *Pennsylvania Turnpike Authority* by dialing *11 independently. All service requests for Pennsylvania turnpike locations will now be handled directly by AAA Emergency Roadside Service (ERS) agents within RADAR, subject to provisions of service.

Receive & Dispatch Service Representatives

When a AAA member experiences a vehicle disablement on the Pennsylvania Turnpike, ERS service representatives will process the service request within RADAR. Established AAA roadside provisions of service apply, including but not limited to Photo ID, mileage, and benefit limitations. **This protocol change is exclusive to the Pennsylvania Turnpike.**

Roadside assistance requests for locations on Ohio turnpikes and toll roads should be directed to call #677 on their cellphones.

Roadside service on the turnpikes and toll roads in OH is provided by the Turnpike Commission. ERS representatives cannot facilitate requests for assistance on the turnpikes and toll roads in OH. Fees for services on the turnpikes and toll roads in OH that are not covered under the AAA membership will apply and must be paid to the service provider. Members with questions regarding fees and services on the turnpikes and toll roads in OH should be directed to the Turnpike representatives

Service by the Turnpike Commission on the turnpikes and toll roads in OH is available 24 hours a day, 7 days a week. The typical response time on the turnpikes and toll roads in OH is within 45 minutes.

Interstate 76 (I-76) is an east–west Interstate Highway in the Eastern United States. Starting in Ohio, the highway runs west of Akron to west of Youngstown, where it joins the Ohio Turnpike as a toll road. At the Pennsylvania state line, the Ohio Turnpike (not serviced by AAA) ends and becomes the Pennsylvania Turnpike (serviced by AAA).

The Pennsylvania Turnpike, sometimes shortened to Penna Turnpike or PA Turnpike. A component of the Interstate Highway System, it is part of I-76 between the Ohio state line and Valley Forge (running concurrently with I-70 between New Stanton and Breezewood), I-276 between Valley Forge and Bristol Township, and I-95 from Bristol Township to the New Jersey state line. The turnpike runs west to east across Pennsylvania, from the Ohio state line in Lawrence County to the New Jersey state line in Bucks County. It passes through the Pittsburgh, Harrisburg, and Philadelphia areas, farmland and woodland. The highway crosses the Appalachian Mountains in central Pennsylvania, passing through four tunnels.

What number should members call for breakdowns on Ohio turnpikes?
Members should call #677 on their cellphones for breakdowns on Ohio turnpikes.

Who provides roadside assistance on turnpikes and toll roads in Ohio?
Roadside service on the turnpikes and toll roads in OH is provided by the Turnpike Commission.

Who provides roadside assistance on turnpikes and toll roads in Pennsylvania?
Roadside service on the turnpikes and toll roads in PA is provided by AAA East Central.

Can ERS representatives facilitate service requests on turnpikes and toll roads in Ohio?
No, ERS representatives cannot facilitate requests for assistance on the turnpikes and toll roads in OH.

Are there any fees for services on turnpikes and toll roads in Ohio?
Yes, fees for services that are not covered under AAA membership must be paid directly to the service provider.

Where should members be directed for questions about fees and services on turnpikes and toll roads in Ohio?
Members should be directed to Turnpike representatives for questions about fees and services.

Is service available 24/7 on turnpikes and toll roads in Ohio?
Yes, service by the Turnpike Commission is available 24 hours a day, 7 days a week.

What is the typical response time for service on turnpikes and toll roads in Ohio?
The typical response time is within 45 minutes.

Can ERS handle roadside assistance directly for breakdowns on Ohio turnpike?
No, ERS cannot handle assistance requests directly on these turnpikes; the Turnpike Commission is responsible.

Kansas Turnpike Authority (KTA)
Kansas Turnpike personnel to provide free initial roadside assistance to motorists on busy sections of the Kansas Turnpike. The member should call KTA at (*582 from cellphone) to receive roadside assistance on the Turnpike or 800-827-7453 from any telephone. KTA Safety Assist vehicles are equipped with various tools and equipment to help assist in tire changes and other minor mechanical issues. Technicians also assist during roadway incidents by directing traffic and helping clear the roadway of debris. All services offered are free to travelers.

GEICO is the Safety Assist program sponsor. The program runs year-round in two sections of the Kansas Turnpike: Topeka to Kansas City and Wichita to the Oklahoma border. Hours vary depending upon schedule, location and traffic needs. The KTA Safety Assist program is not intended to replace or interfere with services provided by private businesses. Technicians will provide only immediate services needed to assist motorists in need in getting off the side of the road and to help maintain the flow of traffic.

What if a member receives a toll bill while being towed under membership by AAA?
If a member contacts AAA stating that they received a toll bill while being towed under membership by AAA in one of the ACE states that covers toll charges under membership,

locate the service order for the tow and create a CMS using Event Category: Facility and Sub-category Fees and Charges. Counsel the member to expect follow-up within 7-10 days.

Indiana Toll Road (I-80/I-90): This 157-mile turnpike spans northern Indiana from the Ohio state line to the Illinois state line, connecting to the Chicago Skyway. Members are responsible for toll charges.

RiverLink Bridges (Kentucky - Indiana): While Kentucky has no toll roads, it shares three electronically tolled bridges connecting Louisville and Southern Indiana: the Abraham Lincoln Bridge (I-65 North), John F. Kennedy Memorial Bridge (I-65 South), and the Lewis and Clark Bridge (SR 265/KY 841). Members are responsible for toll charges. Kentucky does not have any traditional turnpikes, but both states share tolled interstate bridges in the Louisville area.

Definitions – Self-Storage Units – Facilities where private parties or members can lease individual storage spaces to store personal belongings.

Vehicle Impound Facilities/Tow Yards – Locations where vehicles are taken and held as a result of collisions (inoperable vehicles), law enforcement, or code enforcement actions.

Can towing be provided for a vehicle that has been sitting unused for a year or an extended period?
Service should never be refused solely on the basis that a vehicle that has been sitting unused for a year or an extended period. However, the tow destination must be a place of repair in this scenario; transport for any relocation purpose is not covered under membership.

If vehicle is running (operable) but not registered, can we tow it from a shop to home?
No, if the vehicle is operable/safe to operate, towing will not be provided simply because it is not registered.

AAA Service Provider Storage Yards (ICS or Contractors) – Facilities operated by AAA service providers where vehicles may be stored after being towed from accident scenes, or when the member is unable to pay required fees or meet the provider at the intended destination. In these cases, storage fees apply when retrieving the inoperable vehicle.

Buses, limousines (except personal limousines, some limitations apply), Farm equipment, lawnmowers, tractors, dump trucks, dump trailers, and similar equipment are excluded from coverage in all ACE states.

Towing Policy Overview & Coverage Clarification-This tool is not intended to confirm coverage for specific vehicle makes or models. For vehicle eligibility, including exclusions, please consult the ERS Knowledgebase and the RADAR vehicle database. For unresolved questions, contact the SRT Question Line or initiate a chat with a local supervisor.

Vehicle Type Exclusions & Clarifications
"Non-Op" or Planned Non-Operation (PNO) certificated vehicles generally refers to a status where a vehicle is not being operated or maintained on public roads for a period of time; this includes vehicles that are in working and in non-working condition. It essentially allows vehicle owners to avoid registration fees and penalties when their vehicle is not in use. Owners can file for PNO, which means the vehicle will not be driven, towed, stored, or parked on public roads for the entire registration year.

Do we tow Non-Op or PNO vehicles?
AAA does not required that technicians verify the status of vehicle registration to provide service under membership; service will be provided, subject to ERS policy and Provisions of service, including states with sticker and plate expiration restrictions.

Golf Carts - Golf carts are not eligible for any service under AAA membership in any state.
If a member reports that their golf cart has a license plate and is street legal, clarify the following: The term "golf cart" is often used to describe Neighborhood Electric Vehicles (NEVs) or Low-Speed Vehicles (LSVs). NEVs and LSVs may qualify for service **if** they are DMV-registered, insured, and meet the following criteria: Four wheels, 17-digit VIN, Gross vehicle weight under 1,300 lbs, Final eligibility is determined by the AAA technician at the time of service.

Weather-Related and Convenience Towing

- Towing is not covered if the member is simply unwilling to drive due to severe weather (e.g., snow, ice, or flooding).
- Towing is not provided to relocate a vehicle to avoid ticketing or move it into a garage, across a property or driveway.
- Towing from one residence to another is **not covered**, **unless** the destination residence is where the vehicle will be immediately repaired (e.g., at the home of a mechanic), or, or the member's vehicle broken down at a residence and is being towed to the member's own residence.
- Towing a vehicle from one mechanic to another without the member or an authorized third-party present at both the pick-up and drop-off locations is not permitted; additionally, towing between repair shops is only covered if the current shop (Shop 1) is unable to complete the necessary repairs. It is not covered if the member simply disagrees with or dislikes the cost of repairs at Shop 1.

Towing Scenarios & Service Eligibility

Towing to a Relative's House: Not covered if the vehicle is already at a residence and the requested tow is to another residence, **unless** repairs will be done at the destination residence, or the member's vehicle broken down at the residence and is being towed to their own residence.

Towing Between Repair Shops (not for restoration, paint, or body work): **Covered if:** The vehicle was originally towed to the first repair facility (Shop 1) under membership, and Shop 1 is unable to complete the repairs, or, The vehicle was driven to Shop 1, but is now inoperable and requires towing to another facility (Shop 2), or, The tow to Shop 1 was not under membership, and the member now requests a covered tow of the disabled vehicle to Shop 2. **Not covered if:** The member disputes or declines the repair costs at Shop 1, or, The request for towing to Shop 2 is for reasons unrelated to a mechanical disablement (e.g., car projects, restorations, etc.).

Towing from Repair Shop to Residence: Covered if: The vehicle was originally towed to the repair shop under membership, and The shop cannot complete the necessary repairs. **Covered** if the vehicle was not towed to the shop under membership but the tow is requested to the member's residence and meets other service criteria. **Not covered** if: vehicle repairs are completed and the member just wants it towed home or the member disagrees with or cannot afford repairs.

Commercial & Specialty Vehicle Towing-**Food Trucks:** Not covered under membership; considered commercial vehicles.

Salvage Yards & Auto Dismantlers: Towing **to or from** a salvage yard for scrapping or sale is not allowed. If the vehicle is disabled at a salvage yard and is **personally owned** (proof required), service may be provided. Acceptable proof: registration or insurance. Not accepted: bill of sale or purchase receipt.

Storage Facilities (Not Including Impound Lots or Tow Yards)

- Towing from a storage facility is covered only when the vehicle is being towed directly to a repair shop for immediate repair.
- Towing to a storage facility is not covered, unless the vehicle is being towed there for immediate repair at that location.
    - These requests must be escalated to a supervisor to confirm the facility performs or allows repairs.
- Non-covered towing scenarios include:
    - Towing between storage facilities
    - Towing from a storage facility to a residence

- Exception:
    - Coverage may apply if the vehicle becomes disabled while in the parking area of the storage facility and was not being stored there.
- Light service (in storage units):
    - Services such as jumpstarts, air only, flat tire changes, and lockouts may be provided
    - Only if the intent is to get the member safely back on the road

Event & Relocation Towing - **Not covered**, regardless of vehicle condition: Towing of show or display cars to or from: racetracks, Car shows or exhibitions, Buyer/seller locations, Auctions, Charitable donation sites, Another storage facility, Any event for display purposes

Impounded Vehicles - Towing is not covered for vehicles impounded due to: Expired registration/plates, Parking or traffic violations. Exception: If a stolen vehicle is recovered in an **inoperable** state, towing may be provided under membership, except as otherwise excluded under Club policy. Member responsibilities: Pay all impound/parking fees **prior to service,** Be present with valid ID, Ensure the vehicle is released and accessible in a public area

Towing from an impound lot, tow yard, or similar facility is covered only under the following circumstances:

- The vehicle qualifies under Accident Assist coverage.
- The vehicle was towed to the service provider's lot after hours for safekeeping and is to be towed to the covered destination the following business day.
- The vehicle was recovered after theft, is now inoperable, or the key was lost as a result of the theft.
- The vehicle was rendered inoperable after a collision and was impounded.

Towing from an impound or tow yard due to parking violations or traffic infractions is not covered under membership.

Towing **should not** be denied solely on the basis that there is a missing battery; If the battery was stole from the vehicle, towing will be covered.

Recently Purchased or Gifted Vehicles
Vehicles that were purchased or received as a gift are not automatically covered under membership.

Not Eligible for Service
The following vehicles are not eligible for service under membership:

- Vehicles purchased in an inoperable condition are not eligible.
- Vehicles that are unregistered or uninsured and cannot legally be driven on public roadways, but are otherwise operable.
- Vehicles with pre-existing conditions that existed before the member took ownership and that make them inoperable, including but not limited to:
    - Missing parts
    - Missing keys
    - Mechanical failures
    - Deployed airbags
    - Any other condition that renders the vehicle inoperable

A vehicle purchased in an operable condition may be eligible for service only if it later becomes disabled due to a new issue that did not exist prior to the purchase.

Towing Eligibility for Recovered Stolen Vehicles
Not covered if: Vehicle is recovered and operable (even with minor damage)
Covered if: The key was lost or stolen and not recovered, The vehicle is inoperable or unsafe to drive due to damage

Flatbeds are not covered for any services under membership.

Do we tow altered, lowered, lifted, or modified vehicles?
Vehicles that are altered, lowered, lifted, or modified are subject to provisions of services and ERS policy. Vehicles modified in a way that changes their external configuration, such as truck converted to flatbed, stake beds, attaching permanent racks and ladders, etc., are not covered under membership; this does not apply to passenger and other vans that are ordinarily covered under membership, which are internally modified to include sleeping arrangements (no changes to the outside), etc.

If car is stuck on a ferry boat is that covered?
No, service providers will be unable to leave regularly- traveled roads to service vehicles, including vehicles that are on ferries, or other water vessels. The members should be referred for COD service; this service is not eligible for reimbursement.

Business Destinations (including member's place of work or job site) – When a member is requesting towing to a business destination, service may be provided under specific conditions: the destination is a place of repair or other covered destination, per existing ERS policy, such as, 1. Repair shops/facilities for immediate repairs 2. AAA service provider's facility (ICS) for repairs (unlimited mileage if repairs will be done there) 3. EV charging stations (for electric vehicles that need charging) 4. Storage facilities:

Agent Steps for Storage Facility Towing when member indicates repairs will be performed there:
When member requests towing to storage facility for repairs, document the request and repair details.

1. Escalate to SRT for approval
2. Provide SRT with facility name, address, and member's explanation of repair services
3. SRT will confirm that facility performs/allows repairs
4. If confirmed, SRT will complete the request
    - If it cannot be confirmed, SRT will explain coverage limitation and offer COD.
5. SRT will document all actions taken in the service request

Business destinations that are NOT covered include: - Salvage yards - Car shows or exhibitions - Auctions - Buyer/seller locations - Charitable donation sites - Storage facilities (unless approved for repairs) - Any event locations for display purposes; transport for relocation purposes is not covered under membership.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Unless otherwise noted, AAA does not currently have any restrictions that exclude unregistered vehicles. However, state and/or local ordinance restrictions may apply. When a member requests towing for a vehicle with non-op, or expired plates/registration, service should not be denied by the call center on that basis alone. Please review the breakdown location state/club references for provisions of service.

Vehicles that are impounded by a law enforcement agency or towed by an authorized property owner due to expired plates or registration, driving violation, parking violation, etc., are not covered for towing under membership in any ACE state, unless the vehicle was stolen and recovered in an inoperable condition by the law enforcement agency.

If vehicle is running (operable) but not registered, can we tow it from a shop to home?
No, if the vehicle is operable/safe to operate, towing will not be provided simply because it is not registered.

Towing will not be offered for unattended vehicles. If the member or their authorized representative cannot be present at the pick-up and drop-off locations, towing of the unattended vehicle is not covered under membership, even if the member is in the hospital.

If the member is present but indicates that they are sick or ill and cannot drive their vehicle, towing under membership cannot be provided unless the vehicle is disabled; this scenario is a convenience tow and is not covered under membership. Accident Assist covered collision requests are exempted from this policy.

Qualified Accident Assist scenarios are the exception where unattended towing is allowed under AAA insurance; the service provider will retrieve the unattended vehicle and tow it to an open MPR or to the provider's towyard overnight until the MPR opens. The member or an authorized third-party with proof of member vehicle ownership must be present at the pick-up and drop-off locations, unless otherwise allowed by ERS policy or pre-approved by a member of ERS management.

Can an unattended tow be approved if the member had the vehicle towed to a shop that cannot service the vehicle and they need to have it towed to another shop, but they are not able to be present with photo ID?
No, an unattended tow cannot be approved in this scenario. Per AAA policy, if the member or their authorized representative cannot be present at both the pickup and drop-off locations, towing of the unattended vehicle is not covered under membership. The only exceptions to this policy are: 1. Accident Assist-qualified vehicles involved in collisions 2. Scenarios specifically pre-approved by ERS Management team with documentation For towing between repair shops, while it is covered when the first shop cannot complete repairs, the member or an authorized representative must still be present at both locations. The policy requiring presence applies even if the initial tow was under membership.

Can towing be provided for a vehicle that has been sitting unused for a year or an extended period?
Service should never be refused for a vehicle that has been sitting unused for a year or an extended period on that basis alone. However, tow destination must be a place of repair; transport to a destination to simply relocate the vehicle is not covered under membership.

Are impounded vehicles eligible for towing under AAA membership?
Vehicles that are impounded by a law enforcement agency or towed by an authorized property owner due to expired plates or registration, driving violation, parking violation, etc., are not covered for towing under membership in any ACE state, unless the vehicle was stolen and recovered in an inoperable condition by the law enforcement agency.

Does AAA provide towing for vehicles impounded due to expired plates or registration?
No, towing for vehicles impounded due to expired plates or registration is not covered for towing under membership.

Can AAA tow a vehicle that was impounded for a parking or driving violation?
No, vehicles impounded for parking or driving violations are not eligible for towing under AAA membership.

Is towing covered for vehicles impounded by law enforcement agencies?
No, vehicles impounded by law enforcement agencies are not covered for towing under AAA membership, unless the vehicle was stolen and recovered in an inoperable condition by the agency.

Are vehicles towed by authorized property owners eligible for towing service through AAA?
No, vehicles towed by authorized property owners due to parking or other property rule violations are not covered for towing under AAA membership for towing.

In Alabama, California, Hawaii, Maine, New Hampshire, New Mexico, Texas, and Vermont, state and/or local ordinances May Prohibit Towing for vehicles with expired plates. Towing will be provided at the technician's discretion, unless prior approval is obtained by ERS management. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

In Kansas, Louisiana, Mississippi, Missouri, and Virginia, valid plates are required to receive towing assistance under membership. Vehicles that do not bear valid state license plates or have been impounded by police order due to infractions or other violations are not covered for towing. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

In Kentucky, New York, Ohio, Pennsylvania, and West Virginia, valid stickers are required to receive towing assistance under membership. However, members will be allowed a 6-month grace period from the sticker expiration, during which towing assistance may be requested. If the inspection/registration is expired for 6 months or more, the member should be offered a COD referral using the Reroute Map tool in the RADAR In-App Support under Resource Links. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

In Arkansas, Illinois, and Indiana, valid plates are required for service. The service provider may deny service if the plates are expired more than 90 days. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

Can towing be denied for vehicles with non-op or expired plates?
Service should not be denied by the call center agents solely based on non-op or expired plates/registration. Check the specific state requirements.

Which states may prohibit towing for vehicles with expired plates due to state/local ordinances?
Alabama, California, Hawaii, Maine, New Hampshire, New Mexico, Texas, and Vermont may prohibit towing for vehicles with expired plates, subject to technician discretion, unless prior ERS management approval is obtained.

What are the license plate towing requirements in Kansas, Louisiana, Mississippi, Missouri, and Virginia?
Valid plates are required to receive towing assistance under membership in these states. Vehicles that do not bear valid state license plates, have been towed under police order due to infractions, or are held under legal restraint (impounded) are not covered. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

Are impounded or legally restrained vehicles eligible for towing under membership?
No, vehicles held under legal restraint, such as being impounded, are not eligible for towing under membership in any ACE state unless the vehicle was stolen and recovered in an inoperable condition by the law enforcement agency.

What are the towing guidelines for vehicles with expired inspection/registration in Kentucky, New York, Ohio, Pennsylvania, and West Virginia?
Towing is allowed during a 6-month grace period from the sticker expiration in Kentucky, New York, Ohio, Pennsylvania, and West Virginia. After 6 months, a COD referral should be offered using Reroute Map tool in the RADAR In-App Support under Resource Links. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

What happens if a member in Kentucky has an inspection sticker expired for more than 6 months?
The member should be offered a COD referral using the Reroute tool available under RADAR in-App Guidance. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

Are valid plates required for towing assistance in Arkansas, Illinois, and Indiana?
Yes, valid plates are required for service, and service may be denied if plates are expired for more than 90 days. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

What are the towing restrictions for vehicles with expired plates in Arkansas, Illinois, and Indiana?
Service providers may deny service if plates are expired for more than 90 days. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

Does AAA cover towing for vehicles with non-operational plates?
AAA does not have specific restrictions against towing vehicles with non-operational plates unless state or local ordinances apply. Check the specific state for restrictions.

What should a call center agent do when a vehicle's plates are expired in states without strict towing requirements?
Review the breakdown location state/club references for service provisions and proceed accordingly.

In which states do local ordinances allow towing at the technician's discretion for vehicles with expired registration/plates?
Alabama, California, Hawaii, Maine, New Hampshire, New Mexico, Texas, and Vermont allow towing at the technician's discretion, based on local ordinances for vehicles with expired registration/plates.

Can a member in Virginia with an impounded vehicle request towing?
No, towing is not covered for vehicles held under legal restraint, such as impoundment, in Virginia. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

What should members in Pennsylvania do if their inspection sticker expired 7 months ago?
They should be offered a COD referral using the Reroute Map tool in the RADAR In-App Support under Resource Links, as the grace period has passed.

What happens if a vehicle has expired plates in Missouri?
Towing is not provided for vehicles without valid plates in Missouri under membership guidelines. An exception will be made for vehicles that were stolen, recovered, and impounded by a law enforcement in an inoperable condition.

Are vehicles with expired registration automatically denied towing service?
No, towing requests should be reviewed based on the state and local ordinances, as restrictions vary. Check the specific state restrictions.

What are the guidelines for towing expired-plate vehicles in Vermont?
Towing may be prohibited by local ordinances but can be provided at the technician's discretion or with ERS management approval.

Can a member in Arkansas receive towing for a vehicle with plates expired for 4 months?
Service providers in Arkansas may deny service for plates expired more than 90 days.

What is the grace period for inspection stickers in West Virginia?
Members in West Virginia have a 6-month grace period after sticker expiration to request towing.

How do local ordinances in California affect towing service?
California ordinances may restrict towing for expired plates; towing is subject to technician discretion unless ERS management approval has been obtained.

What is the procedure for expired plate towing in Hawaii?
Towing for expired plates in Hawaii is provided at the technician's discretion unless local ordinances prohibit it.

Can towing be denied in Illinois for a vehicle with expired plates?
Yes, towing may be denied in Illinois if the plates are expired for more than 90 days.

What role does the Reroute tool play in handling towing requests?
The Reroute Map tool in the RADAR In-App Support under Resource Links is used to provide COD referrals for vehicles ineligible for towing under membership guidelines.

What is the process for handling towing requests for vehicles with expired registration in Alabama?
In Alabama, towing may be prohibited due to local ordinances; towing is subject to technician discretion unless ERS management approval has been obtained.

Can a member in Kentucky request towing for a vehicle with an expired inspection sticker?
Yes, but only if the expiration is within the 6-month grace period. After that, a COD referral should be provided.

Are vehicles with expired plates eligible for towing in Louisiana?
No, Louisiana requires valid plates for towing services under membership. Vehicles that do not bear valid state license plates, have been towed under police order due to infractions, or are held under legal restraint (impounded) are not covered.

What should an ERS agent do if towing is denied for expired plates in Kansas?
Inform the member that valid plates are required for towing services in Kansas and offer a COD referral.

Does AAA deny towing services for expired registration in New York?
No, New York provides a 6-month grace period after registration expiration during which towing is still allowed.

Are vehicles with expired plates covered for towing in Maine?
Towing may be restricted based on local ordinances; towing is subject to technician discretion unless ERS management approval has been obtained.

What happens if a member in Arkansas requests towing for a vehicle with plates expired for 60 days?
Towing may be permitted within the 90-day grace period for expired plates has not been exceeded.

Are expired inspection stickers treated the same as expired plates for towing eligibility?
Not always; states like Kentucky allow a 6-month grace period for expired inspection stickers, while other states enforce stricter rules for expired plates.

What role does ERS management play in towing approvals for restricted cases?
ERS management may provide prior approval for towing in states with restrictions or local ordinances that prohibit service.

Are there any restrictions for unregistered vehicles when requesting service?
Unless otherwise noted, AAA does not have restrictions that exclude unregistered vehicles.

What are the requirements for vehicles in the ACMO Market?
Vehicles must bear valid state license plates to be covered. Vehicles without valid plates, towed under police order, or held under legal restraint are not covered.

What documentation is required in the East Central Market for towing?
Valid registration and a valid safety inspection sticker on the windshield are required for service in the East Central Market. However, towing may be provided within 6 months of the expiration date as a courtesy to the member.

Is there a grace period for expired safety inspection stickers in the East Central Market?
Yes, there is a 6-month grace period during which roadside service will be provided for vehicles that qualify.

What happens if the inspection/registration is expired for more than 6 months in the East Central Market?

If the inspection or registration has been expired for more than 6 months, a COD referral should be provided.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Do not provide Membership coverage information for breakdowns within non-ACE Clubs territory. When a vehicle is disabled in non-ACE club territory (Call Move) and they have questions regarding third-party present, exceptions and other information, transfer the member to the servicing Club for further assistance (Call Move scenarios). For membership coverage in non-ACE states, use CDX or contact the servicing Club if the information does not appear in RADAR.

Where can i find the location for overage charges?
If you are referring to the per-mile fee for towing beyond the member's coverage, which ACE state?

Member is requesting towing because they have been stopped/pulled over (traffic stop) by police. Can we tow the vehicle?
Towing is not permitted for operable vehicles when the request is due to a traffic stop, detention, arrest, or to avoid impound associated with a traffic or criminal matter.

Is there a requirement for the position or placement of the vehicle at the destination?
There is no specific requirement. The vehicle will be placed based on the member's request and the accessibility of the destination, and the technician will accommodate the request when possible.

Can a tow truck driver pick up the member at a location separate from the vehicle?
Yes, but only under certain circumstances. If the member left the vehicle location for safety reasons and is waiting nearby in a safe place, the service provider may pick up the member before proceeding to the vehicle. The member's location must be clearly documented in the Driver's Notes, and this exception applies only in safety-related situations.

What is the furthest distance a service provide can tow a vehicle?
The maximum towing distance depends first on the member's benefit level and second on their willingness and ability to pay for additional mileage. If a tow exceeds the covered benefit, the member may arrange directly with the service provider to pay the per-mile rate or negotiate a flat fee for the longer distance.

If a Premier member exceeds 100 miles of towing and the Premier tow is still available, will the Premier tow automatically be used to cover mileage that exceeds 100 miles?
Yes, if the Premier tow is still available, it will automatically be used to cover mileage that exceeds 100 miles; the system will automatically use the Premier tow. Members will not be allowed to pay the overmilage (driver rates/overage charges) in lieu of using the available Premier tow in this scenario.

Member is requesting towing up to their Classic, Plus, Premier or RV/Motorcycle benefit limit, and indicates that they will drive the remaining distance to their mechanic. Is this covered under membership?
If the vehicle is malfunctioning or disabled, towing may be provided up to the member's benefit limit; the member is responsible to pay the provider for additional mileage and charges that are incurred. Towing cannot be denied on the basis that member indicates they will drive their disabled vehicle from the tow destination.

What is Classic tow coverage (miles covered) in Tidewater?
In the Tidewater (258) market (Virginia), Classic members receive 5 miles of towing per disablement.

Do we provide towing when a vehicle's airbags have deployed, the vehicle is totaled, or the vehicle is burned? It depends on the situation and the member's coverage: Airbags Deployed: Towing should not be refused because the airbags have deployed. Vehicle is Totaled: If the member says the vehicle is "totaled," the driver will assess whether it can be safely towed using standard equipment. If the member has Accident Assist coverage, towing will be approved, regardless of the vehicle's condition. Vehicle is Burned: If the burned vehicle is at the roadside, towing is covered to a residence or a repair facility; without Accident Assist, the driver must determine if the vehicle can be safely loaded with standard equipment (excludes burned vehicles that are being purchased, sold, or transferred). Burned vehicles must be picked up from and3 towed to approved locations to qualify for service under membership, and meet all other provisions of service.

Do ACE service providers offer towing into Canada or Mexico, or across state lines?
Service under membership is only guaranteed with US territory. Service that begins in one state and ends in another is subject to provisions of service; interstate service is generally covered under membership. Service that begins in the US with a desired destination across the border into Canadian or Mexico territories is not covered under membership. The member may be provided with a COD referral to discuss this request with the AAA service provider.

Can we change the tow destination after a vehicle has already been loaded on the tow truck?
Yes, the tow destination can be changed by the member to a different covered destination, but it is subject to mileage restrictions, provisions of service, and ERS policy.

Military Bases – Roadside assistance is available to our members located on military bases where access is permitted by the facility.

In this release, the ability to search for AAR facilities will be added to the Tow – Extrication Only tab, enabling users to offer referrals in extrication scenarios, as applicable; this information is not available on the Extrication tab.

Member is disputing the overmileage (tow distance).
When a member is disputing the mileage (tow distance), whether RADR vs. member's mapping or member's mapping vs. the service provider's odometer, the mileage charges will be based on the actual service provider odometer reading. Complaints should be documented by opening CMS, when applicable.

Can we tow loaded cars under membership?
That depends on the weight and what is loaded in the vehicle. Contents of the vehicle are subject to AAA provisions of service and weight limitations apply. The details provided by the member should be documented in the call notes/feed and the member advised that the provider will determine whether the vehicle can be safely towed under membership.

Does it matter which way a vehicle is facing if it needs to be towed?
Occasionally, a vehicle may be in a position that makes it difficult for the provider to access the vehicle. The provider will determine the best way to proceed when arriving on scene.

Golf carts are not covered under membership for any service in any state. However, "golf cart" is a term that is sometimes used generically to reference NEV or LSV vehicles, which requires DMV registration and valid insurance to operate on public roadways. If the "golf cart" is a Neighborhood Electric Vehicle (NEV) or Low-Speed Vehicle (LSV) with valid registration and insurance, it may qualify for service, subject to technician verification. To determine this, the AAA technician would need to verify that it has four

wheels, a 17-digit VIN, and a gross vehicle weight under 1,300 lbs. The final determination will be made by the service technician at the time of service.

CNG Vehicles - While CNG cannot be provided for the vehicle, a CNG vehicle may be towed and/or receive all other services available under membership.

A tow truck can accommodate up to two passenger to the vehicle tow destination, including a child's car seat or booster seat, if needed. Per existing Club policy, up to two passengers are allowed to ride in the tow truck, unless a crew cab is available to accommodate more passengers. If the tow provider refuses to allow a member (non-disabled or disabled who wishes) to ride in the tow truck (not a disabled member), the member should be escalated to an ERS supervisor for further assistance.

Towing Benefits
For non-ACE states, ERS agents should check CDX for coverage. ACE territory includes the following Clubs:

- **CHANT:** New Mexico (NM), Hawaii (HI), California (CA), Texas (TX 252). Alabama (AL 001) dispatching is now handled by Tidewater (258).
- **ACMO:** Arkansas (AR), Illinois (IL), Indiana (IN), Kansas (KS), Louisiana (LA), Missouri (MO), Mississippi (MS)
- **Tidewater (TW 258):** Virginia (VA) and Alabama (AL). Alabama (AL 001) dispatching is now handled by Tidewater (258).
- **Northern New England (NNE):** Maine (ME), New Hampshire (NH), Vermont (VT)
- **East Central (EC):** New York (NY), Ohio (OH), Pennsylvania (PA), Kentucky (KY), West Virginia (WV)

States not listed here are non-ACE states, which are states outside of ACE territory; towing coverage and other roadside benefits for non-ACE states should be established by accessing CDX or contacting the member's home Club. If any member is requesting service in a non-ACE state, process the request per existing Call Move policy; if membership cannot be validated, transfer the member to their home club.

Towing Under AAA Insurance (Accident Assist)
Mileage for vehicles towed under AAA insurance is unlimited when a member is being towed under Accident Assist due to a collision. AAA-insured vehicles that are towed under Accident Assist are not subject to membership towing benefit limits; however, if the member does not have Accident Assist coverage, their vehicle can be towed under membership from the collision scene, public area of a tow yard (destination towed after the collision or theft recovery-inoperable only), residence or other Club-approved pick-up location to a destination of their choice, subject to the provisions of service.

Mileage Limits and Coverage for towing under membership

- **Classic ACE Members**
    - AL, AR, IL, IN, KS, KY, LA, MO, MS, NM, NY, OH, PA, WV: 3 miles per disablement
    - HI, ME, NH, VA, VT: 5 miles per disablement
    - California, Texas Classic mileage benefit: 7 miles per disablement
- **Plus ACE Members**

- All ACE Plus members in all markets: 100 miles per disablement

- **Premier ACE Members**
  - Premier members are entitled to one (1) 200-mile tow ("long tow") per household, per membership year, for non-RV/Motorcycle vehicles. All remaining tows are covered up to 100 miles per disablement. When a single tow exceeds 100 miles, the 200-mile tow benefit will apply, if available. If the 200-mile tow has already been used and the annual call allotment has not been exhausted, the member will receive up to 100 miles of towing and must pay the provider for any mileage beyond that limit.
  - The Premier 200-mile benefit ("Premier tow" or "long tow") cannot be used for RV/Motorcycle towing, including trailers and is limited to one (1) 200-mile tow per household per membership year.
  - **Mileage Charges (cost per mile/overmileage) Beyond the ACE Member's Benefit -** The per-mile charge varies by state:
    - CA, HI, ACMO (Arkansas, Illinois, Indiana, Kansas, Louisiana, Missouri, Mississippi, NM, TX – varies; check the facilities detail or advised the member to d discuss with the provider.
    - East Central (215): $7/mile (New York (NY) (partial state) - Ohio (OH) – Kentuck (KY), Pennsylvania (PA) - West Virginia (WV)
    - Alabama - check the facilities detail or advised the member to d discuss with the provider.
    - Tidewater (258): $7/mile
    - NNE (036): $5/mile (Maine (ME) - New Hampshire (NH) - Vermont (VT). Massachusetts (Club 240-NOrtheast) is not an ACE club

How can we determine if the member used the long tow (Premier tow) over 100 miles in MRM?
Check MRM to see if a '1' appears in the Premier tow column for the household.

RV/Motorcycle Towing
Members with RV/Motorcycle coverage are eligible for up to $500 per call of towing and tire services, up to $1,000 total per household per membership year. Members without RV/Motorcycle coverage are limited to light service for their qualified RV/Motorcycle vehicles under their valid Classic, Plus, or Premier membership (towing, tire change, extrication excluded). Light service under valid Classic, Plus, or Premier memberships for otherwise eligible RV/Motorcycles is covered.

Special Equipment for Towing
If a system alert indicates "Flatbed Required" or "Flatbed May Be Required," no further action/documentation is required. If a member requests specific towing equipment such as a wheel-lift, flatbed, or dollies, document the reason for the request on the call in RADAR and advise the member that you have made a note for the provider. Special equipment is available at no charge, providing the equipment is standard towing equipment, and not alternate equipment needed due to vehicle modifications.

Vehicle Running vs. Safe to Operate
While a vehicle may be operable, the condition of the vehicle may render it unsafe to operate on public roads. In these scenarios, Club policy supports requests for roadside assistance. However, if the vehicle is safe to operate, but the member is requesting towing because it is unregistered, service under membership is excluded. Examples of vehicles that run but are not safe to operate include the inability to use all gears, smoking engine or tailpipe, cracked windshield, broken windows, door, hood, trunk will not close, indicator lights such as oil, tire pressure, ESP, check engine light on.

What does DWD mean?
DWD means 'Discuss with Driver' and is used when a member is uncertain of the tow destination or is unable to provide information. In this scenario, "Driver" refers to the AAA service technician.

Can towing be provided for a vehicle that has been sitting unused for a year or an extended period?
Service should never be refused solely on the basis that a vehicle that has been sitting unused for a year or an extended period. However, the tow destination must be a place of repair in this scenario; transport for any relocation purpose is not covered under membership.

What is the tow mileage limit for vehicles towed under AAA insurance (Accident Assist)?
Tow Mileage is unlimited for vehicles towed under AAA Accident Assist due to a collision.

Member says they got charged for over-mileage (overage charges) **but the system shows they have a Plus membership and should not have been charged. What do I do?**
Verify the member's actual membership level in the system, check the total miles towed, and if the charge was applied in error, open a CMS case for supervisor follow-up; the member should expect a callback within 7-10 business days.

Does AAA cover towing for a vehicle that has been deemed "totaled" by an insurance provider?
Yes, towing for damaged or totaled vehicles to a place of repair or a residence is covered under membership unless excluded by Club policy.

Can a member request towing for a totaled vehicle to a salvage destination under AAA membership?
No, towing to salvage destinations or for selling/donating the vehicle is not covered.

Is towing for a totaled vehicle to a repair shop covered under AAA membership?
Yes, unless excluded by Club policy.

Can a totaled vehicle be towed to the member's residence under AAA membership?
Yes, unless otherwise excluded by Club policy.

Are there any exclusions for towing totaled vehicles under AAA membership?
Yes, towing to salvage destinations or for the purpose of selling/donating the vehicle is excluded.

Can we tow or service a rental passenger car?
Yes, if the member is present with photo ID, we can tow or otherwise provide service for a passenger vehicle rented by the member; no third-party exceptions will be allowed.

2WD (Two-Wheel Drive): Power is sent to either the front (FWD) or rear (RWD) wheels.

4WD (Four-Wheel Drive): Provides power to all four wheels, offering superior traction in challenging conditions like off-roading, snow, or mud. 4WD can often be manually engaged and disengaged into/from 4WD mode.

AWD (All-Wheel Drive): Automatically distributes power to all four wheels, continuously adjusting power delivery to the wheels with the best grip.

Is towing an electric vehicle because it is out of charge a covered service?
Yes, towing an electric vehicle to a charging station is a covered destination under membership, subject to the provisions of service?

If the driver takes a tow route the member does not like, does the member still need to pay over mileage?
Yes, the member is responsible for paying any overmileage charges (driver mileage rates/overage charges) that are incurred, regardless of the route taken. The member cannot refuse to pay overmileage charges simply because they disagree with the route taken by the service provider. When a member requests towing up to their benefit limit, they are responsible for any additional mileage charges that occur.

When towing is provided after a breakdown—either to a place of repair or a residence, can the vehicle be taken to any covered destination, including a different homeowner's home?
Yes, as long as the pickup and destination locations are not otherwise excluded under membership the vehicle may be towed under membership.

What do I do if the member reports that their vehicle was damaged by a AAA service provider outside of their home club territory? Who should they report the damage to?
ERS agents should offer the service provider's contact information, if available; if the member declines or the information is not available, create a CMS case for Member Relations follow-up.

Are AAA Tow drivers' allowed to put vehicles in the member's driveway or a specific place at private property?
Upon arrival at the tow destination (residence or other location), the provider will determine whether it is safe and feasible to drop the vehicle at the member's preferred location on the property. However, technicians cannot be dispatched solely to reposition a vehicle at a residence or other property (for example, moving it from the driveway to the street, from the street to the driveway, or between other locations on the same property); these scenarios qualify as convenience tows and are not covered under membership.

This knowledgebase tool should not be used to verify coverage of specific vehicle types. Vehicle examples used in the knowledgebase are for descriptive purposes.

All ACE Clubs can accommodate towing for covered vehicles p to 8,600 pounds.

Member is requesting a tow to their school where they have mechanic. Is that covered?
That depends, if the school/college has an auto repair program that is open to the public, towing will be covered, subject to existing ERS protocol. Agents should obtain the name of the school and verify repairs are performed on location.

Can AAA tow a vehicle without the keys present?

That depends. Although it is preferable to have the keys, vehicles otherwise covered for service may be towed without them. However, simply moving a vehicle from a garage to driveway or repositioning it on property because keys aren't available Is not covered under membership. Towing from street to property to avoid ticketing/towing is also not covered under membership.

Is towing to a hotel covered under membership for a disabled vehicle?
Yes, if the member lives permanently or is temporarily staying at a hotel and is requesting a tow, towing may be provided under membership. However, if the member is requesting a tow to a business with which they have no connection, the destination must be approved by a member of the ERS management team.

Can the member get air in the tire or a jumpstart, etc., when the driver arrives if they requested a tow?
Yes, when the technician arrives and the member is requesting an additional covered service, service will be provided, subject to existing ERS protocols.

Towing Permits
Towing eligibility for unregistered/non-plated vehicles is subject to existing ERS policy. The primary purpose of a towing permit is to legally authorize the movement of disabled, wrecked, oversized, or heavy-duty vehicles on public roads while ensuring safety and regulatory compliance. However, while towing permits may be required state and local agencies, ACE/AAA does not require towing permits for members to receive service.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Internal ERS Transfer Protocol

When transferring a member within ERS, a warm transfer is required at all times.

Call Move (out of territory calls) - Transfer Protocol

ERS agents are required to attempt to process out-of-territory calls (Call Move) in RADAR. This may require locating and/or validating the membership in CDX. If it is necessary to transfer a member to a non-ACE Club because you are unable to locate the membership, and/or they are requesting additional information that cannot be provided, a warm transfer is not required.

Spanish Line (internal) - Transfer Protocol

Cold transfers to the internal Spanish queue are not permitted. If an internal Spanish-speaking representative is unavailable within 60 seconds, service representatives will contact “Interpretive & Translation Service” in SoftPhone and provide the Client #, which is an external service.

What type of transfer is required when transferring a member within ERS?

A warm transfer is required at all times when transferring a member within ERS.

Is a warm transfer required when transferring a member to a non-ACE club (Call Move)?

No, a warm transfer is not required for transfers to non-ACE clubs.

Are cold transfers to the internal Spanish queue permitted?

No, cold transfers to the internal Spanish queue are not permitted.

What should service representatives do if a Spanish-speaking representative is unavailable within 60 seconds?

They should contact the "Interpretive & Translation Service" in SoftPhone and provide the Client #.

Are warm transfers required when transferring a member to a non-ERS AAA department?

No, warm transfers are not required when transferring to a non-ERS AAA department.

What external service is used if an internal Spanish-speaking representative is not available?

The "Interpretive & Translation Service" is used if an internal Spanish-speaking representative is unavailable.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
Translation Services

Spanish Queue (Internal)
The internal Spanish Queue located in Softphone is answered by ACE Spanish-skilled agents and is the first point of contact for members requesting a Spanish-speaking agent. Cold transfers to the internal Spanish queue are not permitted. The internal Spanish queue is based on Spanish-skilled agent availability. If an internal Spanish-speaking representative is unavailable within 60 seconds, service representatives will contact “Interpretive & Translation Service” in SoftPhone and provide the Client #, which is an external service. Proactive offers to contact a translator when language assistance is not requested by the member are not permitted.

Translation Services (External)
The external Interpretive & Translation Service listed in Softphone is available 24/7 and is contracted by AAA to provided services for AAA members. If a member is requesting a specific language (non-Spanish), or they are requesting a Spanish speaking agent and an internal Spanish queue representative is unavailable, agents should contact “Interpretive & Translation Service” in SoftPhone and provide the Client #, to connect with a language services representative that can assist with processing the member’s request. When contacting Translation services, you must remain on the line to facilitate service for the member.

Suggested Phrasing – Translation Services
When a member is requesting a translator for any language, or an internal Spanish queue representative is unavailable for a Spanish request, use the following suggested phrasing: “I will be happy to contact a [insert language] translator for assistance. Would you mind holding a moment while I contact them?” When a translator responds, identify your Club and request language assistance. When connected with the translation service, ERS agents should announce as follows: “This is [your name] from triple-A. I have a member requesting roadside assistance who needs [insert language].”

If a non-native English-speaking member prefers to continue in English, an effort to adapt to their communication style should be made by modifying speech pace, rephrasing questions, and the routine confirmation of information provided.

Do I remain on the line when I contact the Language Line, also known as Translation Services?
When contacting Translation services, you must remain on the line to facilitate service for the member.

Who answers the internal Spanish Queue in Softphone?
ACE Spanish-skilled agents answer the internal Spanish Queue.

Are cold transfers to the internal Spanish queue allowed?
No, cold transfers to the internal Spanish queue are not permitted.

What should service representatives do if a Spanish-speaking representative is unavailable within 60 seconds?
They should contact the "Interpretive & Translation Service" in SoftPhone and provide the Client #.

Can service representatives offer translation assistance if the member has not requested it?
No, proactive offers for language assistance are not permitted unless requested by the member.

When is the external Interpretive & Translation Service available?
The external service is available 24/7.

What should agents do if a member requests a non-Spanish language translator?
They should contact the "Interpretive & Translation Service" in SoftPhone and provide the Client #.

What is the suggested phrasing when offering a translator to a member?
"I will be happy to contact a [insert language] translator for assistance. Would you mind holding a moment while I contact them?"

How should agents introduce themselves when connecting with the translation service?
Agents should say, "This is [your name] from triple-A. I have a member requesting roadside assistance who needs [insert language]."

What should agents do if a non-native English-speaking member prefers to continue in English?
Agents should adapt their communication style by modifying speech pace, rephrasing questions, and confirming information.

What information do service representatives need to provide when contacting the external translation service?
They need to provide the Client # listed in SoftPhone.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

International Club Information

Welcome to the International Clubs section of the AAA Exchange; while the location territories listed here are not serviced by ACE, members in these territories can be service by the local international club in their area.. This information provides contact details for foreign motoring clubs and outlines the services that may be available to AAA members traveling abroad. If no services are listed for a country, the foreign club has not confirmed reciprocal services for AAA members. Because AAA and foreign motor clubs operate differently, service levels may vary depending on the country. For members traveling in Canada (CAA), AAA members will be provided the same service by CAA that they receive through their membership in the USA. Please use SoftPhone and transfer the member to the appropriate club.

When assisting members with international travel questions, provide only the information contained in this knowledgebase. Share the foreign club's name, address, phone number, and website if one is available. Do not confirm or imply eligibility, service coverage, or specific benefits for any international club. Only the foreign club can confirm what services they will provide.

If the member has not yet started their international trip, advise them to contact the foreign club directly for accurate information. During Member Service Center business hours, transfer the member to the Member Service Center if additional help is needed.

If the member is currently traveling internationally, provide the foreign club's contact information and advise them to reach out to that club for assistance while abroad. Do not confirm any services or coverage on AAA's behalf.

If member gets service out the country, can they be reimbursed?

Outside of ACE club territories, Auto Club members are entitled to Roadside Assistance from the local AAA or Canadian Automobile Association (CAA) club servicing the area. Members will be required to pay the independent service provider for any service that the local AAA/Automobile Club or CAA club does not normally provide its members (including RV and motorcycle towing and RV tire change service for those members with the optional RV and Motorcycle Roadside Assistance). An application for reimbursement of service charges may be submitted to the Auto Club for consideration. Reimbursements for services, including services received outside of ACE territory, will only be considered for those membership services which the Auto Club provides without charge. (Exception: Vehicle locksmith service will be reimbursed up to Sixty Dollars ($60.00) for Classic members, One Hundred Dollars ($100.00) for AAA Plus members and up to One Hundred Fifty Dollars ($150.00) for AAA Premier members.) Certain terms, conditions and exclusions apply and are subject to change without notice. A service charge will be deducted from a reimbursement when applicable. Reimbursement is not provided for taxi fares, telephone calls, rental cars, etc. Members will be reimbursed for membership services at the prevailing commercial rates when AAA service was requested from a AAA or CAA club, but the membership could not be verified. Reimbursement will be issued upon subsequent verification that the Member's valid membership was in effect at the time of service.

Premier members may have access to additional benefits. Refer to Premier Concierge for details about Premier international services.

New Zealand

The New Zealand Automobile Association (NZAA)*
Address: Level 17
99 Albert Street
P.O. Box 5
Auckland
Web: www.aa.co.nz
**Club participates in the global discounts program. Members of this club are eligible to receive discounts when traveling to other countries.*
Service provided to AAA members:

- The breakdown service is available to all visiting members presenting their current overseas club membership card. In all main urban areas the service is provided by AA service officers daily between the hours of 0700 hours and 2300 hours; at other times, and in rural locations, service is given by contract garages.
- For all emergency breakdown service calls, members traveling locally that experience a breakdown should call the following emergency telephone number: 0800 500 222 with landline phone (toll free) or *222 with mobile phone which operates 24 hours a day in both the North and South Islands.
- Assistance by AA service officers or contract garages called out by the AA is free but spare parts and repairs carried out by the garage will have to be paid for.
- Towing to the nearest place of safety or repair is free unless the tow is more than 10km (6 mi.) within an urban location, in which case a top up fee may apply. The AA also offers technical advice and vehicle inspection.

Travel discounts
Visiting overseas members can receive discounts via the Show Your Card and Save program, including rental car, camper van and ferry discounts. Visit showyourcardandsave.co.nz.
Touring information
Numerous road and leisure maps and regional and accommodation guides are available from AA Centers. Follow this link to an online mapping system which offers maps, directions and live traffic information.

Netherlands

Koninklijke Nederlandse Toeristenbond Anwb (ANWB)*
Address: Wassenaarseweg 220
2596 EC Den Haag

Postbus 93200
2509 BA DEN HAAG

Roadside assistance: www.anwb.nl/wegenwacht
**Club participates in the global discounts program. Members of this club are eligible to receive discounts when traveling to other countries.*
Services provided to AAA members:

- Roadside assistance:
    - AAA members are entitled to the same advantages as ANWB members, on the condition they do not live in the Netherlands permanently but are on vacation for no longer than three months.
    - Free roadside assistance, including on-the-spot repair in case of a mechanical breakdown.
    - Free lockout assistance.
    - On-the-spot complete cleaning of a fuel system when incorrect fuel has been tanked (diesel instead of gas or vice versa) – small fee is charged. This service is only possible if the engine has not been damaged.
    - Free towing to a nearby garage when on-the-spot repair is not feasible. The towing company will charge the motorist for the actual towing costs at ANWB's preferred rates (when available).
    - Towing after an accident is the responsibility of the vehicle insurance company if the vehicle is registered in the Netherlands (Dutch license plates). Instruction can be found on the insurance green card that every driver should keep with other necessary vehicle documents.
    - ANWB will provide for towing in the Netherlands (same conditions as above) to a garage in the event of a mechanical breakdown or after an accident if the vehicle is registered in another country (foreign license plates).
- Other services:
    - Free ANWB route maps for major roads in Europe.
    - Members receive exclusive discounts on products in ANWB shops.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Unattended Vehicles

Unattended vehicles are scenarios in which no one is present at the time of provider arrival at the pick-up and vehicle drop-off locations. To receive service under membership, the member or a pre-approved representative must be present at the pick-up and drop-off locations to receive the vehicle (limited Management-approved exceptions and Accident Assist scenarios). If the member is requesting a AAA battery purchase or warranty service, they must be present when BSP provider arrives; no exceptions.

Standard Policy - Unattended vehicle pick-ups and drop-offs are not allowed unless: Specifically permitted under existing Club policy, **or Pre-approved** by a member of the **ERS Management team**

Temporary Exceptions - In cases of **inclement weather**, ERS Management may issue a **temporary directive** authorizing the processing of unattended vehicle service requests. Any such exception must be based on **official communication** from ERS Management.

Important Notes - Unauthorized unattended services are **not permitted** and should not be processed. Always check for **current ERS Management advisories** during weather events before proceeding.

Exceptions to the unattended vehicle policy include Accident Assist-qualified vehicles involved in a collision, and other scenarios pre-approved with documentation by member of the ERS management team.

The member is in the hospital his vehicle is in the hospital parking lot. member wants his vehicle towed home. can we tow it?

No, if the member or their authorized representative cannot be present at the time of service, towing of the unattended vehicle is not covered under membership, even if the member is in the hospital. Qualified Accident Assist scenarios are the exception where unattended towing is allowed.

If the member is present but indicates that they are sick or ill and cannot drive their vehicle, towing under membership cannot be provided unless the vehicle is disabled; this scenario is a convenience tow and is not covered under membership.

Repair Facility Pick-up/Drop-off – Member/Representative Not Present

Not all AAR facilities offer night drop boxes. Remember to check the AAR facility details for Night Drop-Box availability.

If the vehicle pick-up location is a repair shop that is unable to perform the needed repairs, the member may authorize the mechanic or designated staff member to release the vehicle to the AAA technician if the repair facility contact is willing to accommodate, during the facility's business hours; however, the member or an authorized representative must be present at the destination in this scenario. This arrangement must be made and documented on the service request prior to the AAA technician's arrival. The name and contact information of the repair shop staff with contact number must be documented on the service request by the ERS agent. All repair fees must be paid prior to the AAA technician's arrival. Per established ERS policy, in unattended vehicle scenarios (member/representative not present), the vehicle MUST be registered to the member with proof available (registration and/or

insurance card). Unattended drop-offs at closed repair facilities are not allowed. If the repair shop has a drop box, the member or a representative must be at the vehicle drop-off destination.

Can we change a tire or provide other services at a closed repair shop or other business?
It depends. Service may be provided if the vehicle is located in a public area of the closed facility, there is no posted signage prohibiting public entry, and the member is present with valid photo ID (or a third party is present with proof of the member's vehicle ownership). Service must also comply with all applicable laws and Club policies.

Accident Assist – Unattended Vehicles
Unattended AAA-insured vehicles that qualify as a part of the Accident Assist program may be picked up and dropped off at an open Member Preferred Repair facility (MPR) of the member's choice. If the MPR is closed, the vehicle will be stored at the service provider's facility free of charge until the designated MPR facility opens.

Do all AAR facilities offer night drop boxes?
No, not all AAR facilities offer night drop boxes. Remember to check the AAR facility details for Night Drop-Box availability.

What is an unattended vehicle in the context of AAA services?
An unattended vehicle refers to scenarios where no one is present at the time of the provider's arrival or vehicle drop-off.

Is a member required to be present when their vehicle is picked up or dropped off?
Yes, the member or a pre-approved representative must be present unless there is a management-approved exception.

Who can approve exceptions for unattended vehicle pick-ups or drop-offs?
A member of the ERS Management team can approve exceptions.

What are the exceptions to the unattended vehicle policy?
Exceptions include Accident Assist-qualified vehicles involved in collisions and pre-approved scenarios documented by the ERS Management team.

Can a repair shop release a vehicle to a AAA technician without the member present?
Yes. Only the member can authorize the mechanic or staff member to release the vehicle to the AAA technician during business hours, with documentation on the service request. However, the member or an authorized representative must be present at the destination (excludes AAA battery warranty scenario where the original purchaser must be present).

What information must be documented when a repair shop releases a vehicle?
The ERS agent must document the name and contact information of the repair shop staff that will release the vehicle and the member must ensure repair fees are paid before the AAA technician's arrival. The member or an authorized representative must be present at the vehicle destination.

Are unattended drop-offs allowed at closed repair facilities?
No, unattended drop-offs at closed repair facilities are not allowed. The member or a pre-approved representative must be present when the vehicle is dropped off.

What must happen if a repair shop has a drop box for vehicles?
The member or a representative must be present at the vehicle drop-off location.

Can a vehicle be dropped off at a repair shop after hours if the member is not present?
No, the drop-off must occur during business hours, and unattended drop-offs are not allowed without prior ERS management approval.

Where can AAA-insured vehicles under the Accident Assist program be picked up and dropped off?
They can be picked up and dropped off at an open Member Preferred Repair (MPR) facility of the member's choice.

What happens if an MPR is closed when an Accident Assist covered vehicle is picked up?
The vehicle will be stored at the service provider's facility free of charge until the MPR opens.

Can a AAA technician pick up a vehicle from a repair shop without the member's authorization?
No, the member must authorize the release, and it must be documented in the service request. The member or a representative must be present at the vehicle drop-off location.

What must be paid before a AAA technician can pick up a vehicle from a repair facility?
All repair fees must be paid before the technician's arrival. The member or a representative must be present at the vehicle drop-off location.

What documentation is needed if a repair shop releases a vehicle to AAA?
The name and contact information of the repair shop staff and contact number must be documented in the service request. The member or a representative must be present at the vehicle drop-off location.

Are members required to arrange vehicle pick-up with repair shop staff themselves?
Yes, members must arrange the vehicle release with the repair shop and document it in the service request. The member or a representative must be present at the vehicle drop-off location.

Is storage free for Accident Assist vehicles at the service provider's facility if the MPR is closed?
Yes, storage is free until the MPR facility opens.

Can an AAA technician pick up an unattended vehicle at any repair shop?
Only if the vehicle's release is authorized, documented, and occurs during the shop's business hours. The member or a representative must be present at the vehicle drop-off location.

What should be done if a repair shop does not agree to release a vehicle without the member present?
The vehicle cannot be released to the AAA technician if the shop does not agree to accommodate the request.

What happens to an unattended vehicle if the member is unavailable and no pre-approval exists?
The vehicle will not be picked up or dropped off unless an exception is pre-approved by ERS Management.

Who is responsible for paying service-related fees or charges at vehicle drop-off?
All service-related fees or charges, such as fuel or mileage, must be paid to the provider by the member or their authorized representative.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
Vehicle Release Protocol (TX Only): The Vehicle Storage Facility form (VSF) is a Vehicle Release form that may be required for AAA technicians to retrieve an ACE-insured vehicles involved in collisions from storage facilities in the Texas market. The VSF form is initiated by AAA Claims and forwarded to ACE Dispatch.

What is the Vehicle Storage Facility (VSF) form used for?
The VSF form is used to retrieve ACE-insured vehicles involved in collisions from storage facilities in Texas.

Who initiates the VSF form?
The VSF form is initiated by AAA Claims.

Where is the VSF form forwarded after being initiated?
It is forwarded to ACE Dispatch.

In which market is the VSF form required for vehicle release?
The VSF form is required in the Texas market.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

Safe to Operate and Hot Call Protocols (does not apply to vehicle recently purchased but are inoperable or have other mechanical issues when purchased)
While a vehicle may be operable, its condition can render it unsafe for public roads. In such cases, Club policy supports roadside assistance, including towing. Examples of safety-related conditions that qualify for assistance include brake issues, inability to use necessary gears (e.g., Reverse), engine or tailpipe smoking, cracked windshields or broken windows, doors, hoods, or trunks that won't close, and illuminated indicator lights (e.g., oil, tire pressure, ESP, check engine-see missing/stolen tires policy).

Multiple flat tires on vehicle:

- If a member requests air for more than one flat, document this in driver comments.
- If two or more tires are flat and the member requests a tow instead of air only or a tire change, the vehicle may be towed.
- If all four tires are flat and cannot be safely inflated, towing will be provided if the vehicle can be safely rolled onto the tow truck with limited rim damage.
- If all four tires are flat and the member is requesting installation of four inflated tires they have on scene, service will only be provided under membership if the flats are a result of a roadside disablement; otherwise, offer a COD referral using the reroute tool.

Missing Tires

- If two tires are missing in the front or rear, and the vehicle can be safely towed from the opposite end, towing is covered.
- **If two tires are missing on the same side (driver or passenger) and no usable spare tires are available, towing is subject to the service provider's ability to safely load the vehicle.** If the provider determines the vehicle cannot be safely loaded, offer a COD referral. **This restriction does not apply to ACE-insured vehicles when the tire loss resulted from a covered collision or theft and service is being provided under Accident Assist.**
- **For non-ACE-insured vehicles missing three or more tires due to theft or any other reason, towing is also subject to the service provider's ability to safely load the vehicle.** Service should not be refused solely because the tires are missing. If the provider determines the vehicle cannot be safely loaded, offer a COD referral. If the member reports the tires were stolen and the vehicle is insured through ACE, the loss may qualify for service under Accident Assist, subject to the applicable insurance coverage.

Scenarios that do not qualify for coverage include convenience tows; situations where a member is emotionally upset but declines third-party assistance and requests a tow for an operable vehicle; instances where a member doesn't feel well but refuses PA or third-party help; vehicle transport or moving a repaired vehicle to a different location; and tows requested due to weather or road conditions affecting an otherwise operable vehicle.

The concepts of "safe to operate" and "member safety" guide our response. The Safe to Operate and Hot Call protocols are used to evaluate both the physical condition of the vehicle and its risk on the roadway, as well as the physical condition of the member or passengers, including whether

PA or third-party assistance is needed. Importantly, these protocols do not override or replace the Club's established Provisions of Service.

In member-not-feeling-well scenarios, if the vehicle is safe to operate and not in a hazardous position, and the member declines both PA and third-party help, the request does not qualify for Hot Call towing. If the member is an adult, not in need of immediate assistance, and capable of legally parking and returning later, our responsibility under the Provisions of Service is considered fulfilled. In such cases, a COD referral should be offered. If the member insists on escalation, a warm transfer to a supervisor should be made.

We prioritize member well-being and should explore all available support options, including the Hot Call questionnaire. However, if safety is not at risk and third-party help is declined, towing an operable vehicle is not covered under membership.

ERS agents must always document actions taken when any safety-related concern is expressed.

While a vehicle may be operable, its condition may render it unsafe to drive on public roads. In these scenarios, Club policy supports requests for roadside assistance, including towing. Examples of qualifying conditions include brake problems, inability to use gears (such as Reverse), smoking from the engine or tailpipe, a cracked windshield or broken windows, doors, hood, or trunk that will not close, and illuminated indicator lights (e.g., oil, tire pressure, ESP, check engine).

The following situations are not covered: convenience tows; the member is too upset to drive but refuses third-party assistance and requests a tow for an operable vehicle; the member does not feel well but declines Public Authority (PA) and third-party assistance; vehicle transport; a repaired vehicle being towed to the member or another location; and towing due to weather or road conditions affecting an otherwise operable vehicle.

The concepts of "safe to operate" and "member safety" have been introduced for consideration. The Safe to Operate and Hot Call protocols are intended to assess the safety of the vehicle's physical condition and location (e.g., whether it presents a roadway hazard), and the physical well-being of the member or passenger, including whether they require assistance from Public Authorities (PA) or a third party. However, neither of the related protocols indicates that they may be interpreted to the exclusion of the Club's Provisions of Service.

In member-not-feeling-well scenarios, if the vehicle is safe to operate and not in a hazardous position, and they have declined both PA support and third-party intervention, this scenario does not qualify for Hot Call towing. If an adult driver declines assistance or is not in immediate need of intervention—and is capable of legally parking the vehicle and returning later—we have fulfilled our responsibility under the established provisions of service. In such cases, a COD referral should be offered, as they do not meet Safe to Operate or Hot Call policy criteria. If the member is not amenable to this solution and insists on escalation, warm transfer to a supervisor. The well-being of our members is an important consideration. We should make every effort to assist them by offering available solutions through the Hot Call questionnaire, and when declined, a COD referral. However, when a member declines third-party intervention and the physical safety of the member and operable vehicle are not in question, towing the operable vehicle will not be covered

under membership. However, ERS agents should always confirm actions taken when member/vehicle safety related concerns are expressed.

What does "safe to operate" mean in this context?
"Safe to operate" means the vehicle's condition does not pose a safety risk on public roads.

Can a vehicle be towed if it still runs?
Yes, but only if the vehicle's condition makes it unsafe to drive, it may qualify for towing under Club policy.

What are some examples of safe-to-operate-related conditions that qualify for assistance?
Brake issues, inability to use gears like Reverse, engine or tailpipe smoking, cracked windshields, broken windows, and doors, hoods, or trunks that won't close.

Do illuminated indicator lights qualify a vehicle for towing?
Yes, if the indicator lights (e.g., oil, tire pressure, ESP, check engine) suggest a safety concern, they may qualify the vehicle for assistance.

Are convenience tows covered under Club policy?
No, convenience tows are not covered.

What if a member is emotionally upset but refuses third-party help?
If the vehicle is operable and safe, towing is not covered when a member refuses assistance and simply wants a tow.

Does feeling unwell, sick, ill qualify a member for towing assistance?
If the vehicle is safely park, and the member refuses PA and third-party help, towing is not covered; offer COD and suggest they contact a third party for a pick-up and return to the vehicle when they feel better.

Is transporting a repaired vehicle covered?
No, moving a repaired vehicle to another location is not considered roadside assistance.

Can poor weather or road conditions justify a tow?
No, if the vehicle is operable, poor weather or road conditions do not qualify for coverage.

What should agents evaluate when using Safe to Operate and Hot Call protocols?
They should assess both the vehicle's physical condition and the member's physical state or need for outside assistance.

What if the member can safely park and return later?
If the member is an adult, third-party assistance is declined and the vehicle is safe, the Club has fulfilled its responsibility and towing is not covered.

What should happen if a member insists on escalation?
The call should be warm-transferred to a supervisor.

Is engine or tailpipe smoking a qualifying condition?
Yes, smoking from the engine or tailpipe qualifies as a safety concern.

Should actions be documented when safety concerns arise?
Yes, ERS agents must document all actions taken when safety-related concerns are expressed.

Does a broken window qualify a vehicle for assistance?
Yes, if the broken window creates a safety hazard, it qualifies.

What if a member is too upset to drive but the vehicle is safe and help is declined?
The tow request is not covered; offer COD, suggest they contact a third party for a pick-up and return to the vehicle when they feel better..

Does a cracked windshield qualify for towing assistance?
Yes, if it obstructs vision or creates a safety issue.

If help is declined, does feeling unsafe alone justify a tow?
No, if the vehicle is safe and help is declined, the situation does not qualify.

What are convenience tows?
Tows for operable, safe vehicles requested for convenience rather than safety concerns.

Is a hood that won't close considered unsafe?
Yes, a hood that won't latch poses a safety risk and qualifies.

Does a door that won't close qualify for a tow?
Yes, as it presents a safety risk while driving.

What is a "Hot Call"?
A "Hot Call" involves urgent safety evaluations and response.

If a member refuses all help but says they feel unsafe, what should be done?
If the vehicle is safe and operable, and help is refused, the tow is not covered; offer COD, suggest they contact a third party for a pick-up and return to the vehicle when they feel better.

While a vehicle may be operable, its condition can render it unsafe for public roads. In such cases, Club policy supports roadside assistance, including towing. Examples of safety-related conditions that qualify for assistance include brake issues, inability to use necessary gears (e.g., Reverse), engine or tailpipe smoking, cracked windshields or broken windows, doors, hoods, or trunks that won't close, and illuminated indicator lights (e.g., oil, tire pressure, ESP, check engine).

Scenarios that do not qualify for coverage include convenience tows; situations where a member is emotionally upset but declines third-party assistance and requests a tow for an operable vehicle; instances where a member doesn't feel well but refuses PA or third-party help; vehicle transport or moving a repaired vehicle to a different location; and tows requested due to weather or road conditions affecting an otherwise operable vehicle.

The concepts of "safe to operate" and "member safety" guide our response. The Safe to Operate and Hot Call protocols are used to evaluate both the physical condition of the vehicle and its risk on the roadway, as well as the physical condition of the member or passengers, including whether

PA or third-party assistance is needed. Importantly, these protocols do not override or replace the Club's established Provisions of Service.

In member-not-feeling-well scenarios, if the vehicle is safe to operate and not in a hazardous position, and the member declines both PA and third-party help, the request does not qualify for Hot Call towing. If the member is an adult, not in need of immediate assistance, and capable of legally parking and returning later, our responsibility under the Provisions of Service is considered fulfilled. In such cases, a COD referral should be offered. If the member insists on escalation, a warm transfer to a supervisor should be made.

We prioritize member well-being and should explore all available support options, including the Hot Call questionnaire. However, if safety is not at risk and third-party help is declined, towing an operable vehicle is not covered under membership.

ERS agents must always document actions taken when any safety-related concern is expressed.

Q&A Section

What does "safe to operate" mean in this context?
"Safe to operate" means the vehicle's condition does not pose a safety risk on public roads.

Can a vehicle be towed if it still runs?
Yes, if the vehicle's condition makes it unsafe to drive, it may qualify for towing under Club policy.

What are some examples of safe-to-operate-related conditions that qualify for assistance?
Brake issues, inability to use gears like Reverse, engine or tailpipe smoking, cracked windshields, broken windows, and doors, hoods, or trunks that won't close.

Do illuminated indicator lights qualify a vehicle for towing?
Yes, if the indicator lights (e.g., oil, tire pressure, ESP, check engine) suggest a safety concern, they may qualify the vehicle for assistance.

What if a member is emotionally upset but refuses third-party help?
If the vehicle is operable and safe, towing is not covered when a member refuses third-party assistance and simply wants a tow home. Offer COD and suggest the member contact a third party for a pick-up and return when they feel better

Does feeling unwell qualify a member for towing assistance?
If the vehicle is safely parked, and the member refuses PA and third-party help, towing is not covered. Offer COD and suggest the member contact a third party for a pick-up and return when they feel better.

Can poor weather or road conditions justify a tow?
No, if the vehicle is operable, poor weather or road conditions do not qualify for coverage.

What should agents evaluate when using Safe to Operate and Hot Call protocols?
They should assess both the vehicle's physical condition, location, and the member's physical state or need for outside assistance.

What if the member can safely park and return later?
If the member is an adult, third-party assistance is declined, and the vehicle is safe, the Club has fulfilled its responsibility, and towing is not covered. Offer COD and suggest the member contact a third party for a pick-up and return when they feel better

What should happen if a member insists on escalation?
The call should be warm-transferred to a supervisor.

Is engine or tailpipe smoking a qualifying condition?
Yes, smoking from the engine or tailpipe qualifies as a safety concern.

Should actions be documented when safety concerns arise?
Yes, ERS agents must document all actions taken when safety-related concerns are expressed.

Does a broken window qualify a vehicle for assistance?
Yes, if the broken window creates a safety hazard, it qualifies.

What if a member is too upset to drive but the vehicle is safe and help is declined?
The tow request is not covered; offer COD, and suggest the member contact a third party for a pick-up and return to the vehicle when they feel better.

Does a cracked windshield qualify for towing assistance?
Yes, if it obstructs vision or creates a safety issue.

Is a hood that won't close considered unsafe?
Yes, a hood that won't latch poses a safety risk and qualifies.

Does a door that won't close qualify for a tow?
Yes, as it presents a safety risk while driving.

If a member refuses all help but says they feel unsafe, what should be done?
If the vehicle is safe and operable, and third-party help is refused, the tow is not covered. Offer COD, and suggest the member contact a third party for a pick-up and return to the vehicle when they feel better.

AAA VIP Membership Protocol

AAA VIP memberships are Club-issued memberships assigned to executive personnel and may include household Adult Associates and Dependents. When a VIP membership is validated in RADAR, special handling is required upon completion and submission of the VIP member's service request. Upon submission of the VIP member's request, ERS agents are required to immediately notify a supervisor of the VIP request via the Local Supervisor Line.

Supervisor Responsibility – VIP Member Protocol

When notified by an ERS agent that a VIP member service request has been submitted in RADAR, it is the responsibility of the ERS supervisor/manager to contact the dispatching office to ensure timely dispatch and proper follow-up on the call. The supervisor/manager who has been alerted to the VIP request must also acknowledge steps taken with documentation on the request in RADAR, which includes, but is not limited to the dispatching office, and the name of the Dispatch Supervisor/Manager who was notified.

The Dispatch Supervisor/Manager of the servicing market will assume ownership of the VIP request thru completion, including contacting the station to advise them of the VIP Call, requesting and documenting ETA, contacting the VIP Member with ETA, preparing an email summarizing the service request and final status which includes all service order details and times. This level of detail is required to provide a clear snapshot of the VIP member's service experience.

What is a AAA VIP membership?

AAA VIP memberships are Club-issued memberships assigned to executive personnel and may include household Adult Associates and Dependents.

What special handling is required when a VIP membership is validated in RADAR?

ERS agents must notify a supervisor via the Local Supervisor Line upon submitting a VIP member's service request.

Who should ERS agents notify after submitting a VIP member's service request?

The ERS agents are required to notify a supervisor or manager via the Local Supervisor Line.

What is the supervisor's responsibility when notified of a VIP request?

The supervisor must contact the dispatching office to ensure timely dispatch and proper follow-up, and document all steps taken.

What must be documented by the supervisor in RADAR for a VIP request?

The supervisor must document the dispatching office contacted, the name of the Dispatch Supervisor/Manager, and other relevant steps.

Who assumes ownership of the VIP request after it is submitted?

The Dispatch Supervisor/Manager of the servicing market assumes ownership of the VIP request until completion.

What is required of the Dispatch Supervisor/Manager handling a VIP request?
They must contact the station, document ETA, inform the VIP member of the ETA, and document all service details.

What is the purpose of documenting the service request in detail for a VIP member?
To provide a clear snapshot of the VIP member's service experience, including all service order details and times.

What information must the supervisor provide to the VIP member?
The supervisor must inform the VIP member of the estimated time of arrival (ETA) and ensure proper follow-up.

What should be included in the email summarizing the service request for a VIP member?
The email should include all service request details, times, and final status.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding. See knowledgebase for suggested phrasing.

ERS SIU Notification (Warning) Letter

Protocol for Handling Member Inquiries About ERS Notification (Warning) Letters

To ensure fair and consistent service for all members, the Auto Club has introduced an initiative to help members better understand their Emergency Roadside Service (ERS) usage and behavior. Periodically, members may receive notifications if their service requests or interactions with Club employees or contractors deviate from the expectations outlined in the Member Guide.

This initiative is designed to proactively inform members about their usage patterns to help prevent any potential future service disruptions. The goal is to ensure that members have full awareness of their ERS benefits and can continue to use them as intended.

Handling Member Concerns About the Notification (Warning) Letter

If a member reaches out with concerns about the letter:

- Apologize and Express understanding and appreciation for the member reaching out.
- Assure the member that their membership is currently in good standing and the notification will not affect their ability to receive roadside service.

The notification letter is intended to keep members informed of activity on their membership to ensure it aligns with the Member Guide, and to ensure our members continue to enjoy their benefits without any issues.

What if the member is disputing calls or claims fraud?

Additional Follow-Up may be required if the member expresses concern with a dispute of their roadside service call counts or fraudulent activity on their membership. When such requests are received, please assure the member that you have documented their request and will have a someone follow-up on their concern(s). Please follow the steps on how to request member follow-up when a member is disputing a call(s) or claiming fraudulent activity on their membership:

Instructions

1. Open the form using the link to the right.
2. Fill out the member information (Name, Membership Number, Contact Number, and Email Address).
3. Select the contact Time and Time Zone.
4. Under What does this communication concern? select Membership.
5. Under Reason, select Call Count Dispute.

6. Enter anything the member wishes to convey in Comments.
7. Submit the form when complete.
8. Manage Expectations - advise member of steps taken on their behalf and inform them they will receive follow-up contact within 5-7 business days.

Important:

Some members may contact us regarding a letter stating that their membership has been canceled. This is different from the Notification/Warning letters. If a member inquires about a cancellation letter they received, please direct them to the letter, which includes instructions on how to appeal their cancellation.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.

W Insurance (formerly Wawanesa Insurance)– W Insurance roadside coverage rules are different from AAA membership.

Effective June 2026, Wawanesa Insurance will officially rebrand as **W Insurance.** At this time, updates to this protocol are limited to the scripting changes outlined below. All other aspects of roadside service call handling remain unchanged.

Suggested Scripting

""I will transfer you to a W Insurance-trained agent who will be happy to service your roadside request."

How many roadside assistance entitlements are W Insurance policyholders allowed?
W Insurance customers are entitled to a maximum of two (2) roadside assistance service requests per policy term, per vehicle covered. When the two (2) calls have been used, offer a referral for COD. Be sure to review the RA Count before processing the call to determine current eligibility.

I am unable to locate the W Insurance customer using the search tool. What should I do?
Call the internal help line at 833-218-9504. Select 2 for Help with Policy and 4 for Auto. Agents are available M-F 0730–1930 and Sat 0800–1630 (PST).

Should I offer AAR/Discount/America's Tire Referrals to W Insurance customers?
Yes, but note that AAA member discounts do not apply, unless the W Insurance customer is also a AAA member.

Who can AAA agents call for issues with W Insurance customer **call usage, payments, or policy questions?**
They can call the W Insurance Call Center on the dedicated help line at 833-218-9504; this number should not be provided to W Insurance customers.

Do W Insurance calls need to be prioritized higher than AAA calls?
No, these calls should be treated like any other AAA call; Hot Call protocol applies.

How should I handle a W Insurance customer complaint about roadside service?
Process W Insurance complaints about roadside service in the same manner as AAA member complaints by opening a CMS case (excludes Critical Incidents).

If the disabled vehicle is not listed on the customer's W Insurance policy, can roadside service be covered under their policy?
No, a COD referral should be provided if the vehicle is not on the policy; if does not appear on the policy with available roadside service (RA), it is not covered for service. Do not request an override to bypass this requirement. If the customer is a AAA member, service may be provided under a valid membership, subject to provisions of service.

What services are covered for W Insurance policyholders?
Covered services include flat tire changes, fuel delivery (paid to the provider), jumpstarts,

lockout assistance (with specific high-security provisions), and towing/extrication within specified mileage limits.

What are the mileage limits for towing services for W Insurance policyholders?
California customers (723) receive up to 10 miles of towing without charge. Oregon customers receive up to 25 miles of towing without charge. Additional miles must be paid by the customer at the commercial rate.

What is the high-security lockout coverage for W Insurance customers?
California customers are entitled to $100 toward the cost, and Oregon customers are entitled to $200. Customers are responsible for costs exceeding these benefits.

Are locksmith services covered outside the high-security provision?
No, standard locksmith services are not covered.

Are AAA batteries available for purchase by W Insurance policyholders?
No, AAA battery purchases are not available.

Can W Insurance policyholders receive roadside assistance for RVs or motorcycles?
No, these vehicles are not eligible.

How should calls outside of ACE territory be handled?
Close the call as usual, then contact the servicing club using the SoftPhone speed dial or provided contact numbers.

What details should be documented for calls moved to servicing clubs?
Document the provider's name, ETA, service request number, and the name of the agent in the ERS Case Feed.

Can W Insurance customers receive SMS updates for their service?
Yes, service updates can be sent via SMS or direct ACE Dispatch contact.

How do I transfer W Insurance policyholders to the dedicated team?
Use the SoftPhone speed dial, enter "Wawa" or "W Insurance ," and transfer them to the listed **W Insurance**-trained agents.

How do I handle W Insurance call disputes?
If a W Insurance customer disputes their roadside call usage, they should be referred to a W Insurance -skilled agent for further assistance. The W Insurance -skilled agent will contact the W Insurance customer contact center, which provides assistance with W Insurance customer **call usage, payments, and policy questions.**

What should I say when transferring a W Insurance customer?
"I will transfer you to a W Insurance -trained agent who will be happy to service your roadside request."

What should I do if I cannot locate the servicing club's contact number?
Use the SoftPhone speed dial to find the correct servicing club.

Are W Insurance customers eligible for AAA reimbursement forms?
No, do not send reimbursement forms to W Insurance customers.

Can a customer request roadside assistance if their vehicle is not currently disabled?
No, assistance is provided only for vehicle disablements.

How should W Insurance customers be informed about additional costs for services?
Inform them at the time service is rendered about any costs exceeding the benefits.

What should I do if the RA count shows no entitlements left for a customer?
Inform the customer that they have no remaining entitlements and provide COD service options.

Do I need to follow a warm transfer process for W Insurance calls?
No, a warm transfer is not required.

What should I do if a W Insurance customer requests a service not covered under the protocol?
Politely inform them of the exclusion and offer alternative solutions if possible.

What is the protocol for updating customers about delayed service?
Provide updates via SMS or through direct ACE Dispatch contact.

Are there additional steps for processing calls for Oregon customers?
Ensure mileage charges are communicated and confirm the $200 high-security lockout benefit if applicable.

How should I handle requests for referrals to non-covered services?
Offer referrals to AAR, Discount, or America's Tire, but clarify that discounts do not apply.

What is the process for identifying high-security vehicles?
Check FS/RADAR to confirm if the vehicle is classified as high-security.

Who is responsible for informing customers about their roadside benefits?
ACE-trained agents handling W Insurance calls are responsible for explaining roadside benefits.

In early 2024, Auto Club Enterprises (ACE) acquired W Insurance and began providing roadside service support for customers with the optional roadside benefit. **Effective March 31, 2025 @7PM (PST)**, W Insurance -skilled agents will begin processing claims tows for W Insurance -insureds.

W Insurance -skilled ACE agents will provide support for collision-related towing requests during the following hours* (PST): Mon thru Thurs (1900-0700)

- Fri thru Sat (1900-0800)
- Sat (1630) thru Mon (0700)

When a W Insurance -insured is involved in a collision, they will contact W Insurance or its after-hours service center (Crawford) to initiate a claim. To request towing, the W Insurance /Crawford representative will connect with an W Insurance -skilled ACE agent to facilitate the claims tow and warm-transfer the customer for completion of a towing request. **Hot Call protocol applies.**

**Requests outside of ACE territory – On limited occasions, a W Insurance representative may contact ACE on behalf of an insured with a breakdown location outside of ACE territory DURING W Insurance business hours, due to Claim Center limitations. These requests should be facilitated on behalf of the W Insurance insured, as outlined below.*

W Insurance Claims Tow Processing

1. Initiate a new tow request in RADAR and document the **W Insurance policy #**, **Claim #** and the **W Insurance /Crawford agent name/ID** in the Case Feed prior to accepting the transfer.
1. Locate the W Insurance insured's account using **Member Search**, per existing protocol.
2. Verify **Collision/Comprehensive** under Coverage for the vehicle involved in the collision.
    - If the vehicle does not have Comprehensive/Collision coverage, offer COD referral using the Reroute Map tool in the RADAR In-App Support under Resource Links, per ERS existing protocol.
3. Tow Reason: **Collision – Under W Insurance Insurance**
4. Select **Clone** > **Enter Claim***.
5. Enter the **Claim Number** provided by the W Insurance /Crawford representative; This important action ensures that a duplicate claim will not be created when the Case is submitted.
6. **Tow Destination** – Enter the destination provided by the insured; mileage is unlimited.
7. **Call Closing** – Close the call using existing ERS protocol.

Wiper Blade Replacement Program

The roadside **premium windshield wiper blade replacement** program has been expanded to include additional ACE markets!

How It Works

At the conclusion of the requested roadside service, technicians in the program areas will notify members of the available wiper replacement option and offer to inspect and replace the blades, if needed.

Rear window blade replacement is not included in this offer.

Program Availability:	Replacement blades will be offered by select stations in the following markets: **California, ACMO, NNE**
Service Providers:	<u>California</u> • 160848 Golden Bear • 160899 I10 Towing • 160685 Angelo's • 160669 Angelo's • 160773 Dunivin's • 160296 Continental
	<u>ACMO</u> • 267701 Almighty <u>NNE</u> • NNE Fleet Stations
Wiper Blades:	Premium NAPA preformed blades
Coverage:	Technicians will carry **13 blade sizes** vehicles
Cost:	Competitively priced at **$21.99 each,** plus tax, or $43.98 per set
Installation:	**Free** with purchase

Wiper Blade Replacement Offer

To ensure a positive member experience, ERS service representatives will notify members of the offer in the applicable markets, when prompted in RADAR:

<u>Suggested Scripting</u>

"When the service provider arrives, ask about our premium wiper blade replacement options—and free installation with purchase."

Warranty Protocol

NAPA wiper blades purchased and installed by a AAA technician at roadside under membership as a part of this program come with a 1-year warranty. When a member indicates that the blades fail during this period, ERS representatives should offer to email a standard reimbursement.

Proof of purchase will be required for reimbursement consideration.

Important Details

- This service is **only available in conjunction with a covered roadside service;** do not create a service request solely for windshield wiper replacement.
- Scripting should not be used on Hot Calls, freeway/highway and Accident Assist calls.
- **No setup or additional action is required** from ERS service representatives.
- Members should **only be informed** about this offer if their service location falls within the program area.

To Answer questions accurately about club policy, procedures, benefits and services, please carefully read the knowledgebase for relevant details before responding.
How can I (an ERS agent) find out call details on an old call (archived) in RADAR that I can no longer pull up by service order number?

1. In RADAR search the member's name or telephone number on file to open their Person Account Page
2. Select **Related**
3. Look under Cases or Work Orders for the relevant archived call
4. Select the link for the call you want to view

If ANI-match does not populate a list of recent ERS Cases, you can search for the member's most recent ERS Case using the Global Search bar at the top of RADAR:

You can search using numerous criteria. However, the narrower your search, the more likely you will find your desired result. Suggested search criteria are:

• Member Contact Number (phone number saved to the original ERS Case)

• Membership Number

• Date of service and Call ID (if available)

Enter your search criteria into the Global Search bar and press Enter. The search results will populate in a new Search results tab. Scroll down to the list of Cases to find a member's previously-Submitted request: The Status column provides more information on the status of the ERS Case: Remember, after an ERS Case is Submitted, it becomes a Work Order in Field Service. "Work Order in Progress" means the request is still in process and active. "Work Order Completed" means the request is inactive.

How do I look up old service orders or cases?
ERS agents can look up old service orders in RADAR using the Global Search bar at the top. Here's how: You can search using: 1. Member Contact Number (phone number from original ERS Case) 2. Membership Number 3. Date of service and Call ID (if available) Steps: 1. Enter the search criteria into the Global Search bar and press Enter 2. Results will appear in a new Search results tab 3. Scroll down to the list of Cases to find the previously submitted request The Status column will show: - "Work Order in Progress" for active requests - "Work Order Completed" for inactive requests Note: If ANI-match doesn't automatically show recent ERS Cases, you'll need to use the Global Search method described above.

Other things to consider when you can’t locate a call in the system.
Which city and state the member is receiving service? Then begin steps First check : Who was the person that called the service in. Second Check: What numbers could have been used? Please Note: Always confirm that the address , phone number , and name are correct.

In RADAR, how can I determine whether a member received service?
The options include checking the Resolution code on the Details tab, To find out if a member received service on a service order, checking the **Status column** in RADAR:

- **"Work Order in Progress"** – The request is still active and in process.
- **"Work Order Completed"** – The request is inactive, meaning service was completed.

To locate the service order in RADAR, you can search using the **Global Search bar** at the top with the following criteria:

1. **Member Contact Number** (phone number from the original ERS Case)
2. **Membership Number**
3. **Date of service and Call ID** (if available)

Once results populate, scroll down to the list of Cases to find the previously submitted request and review the Status column.

To locate the service request, you can also search by the membership number, name or phone number and click the account name, then review Related to search cases or service orders
