This policy document should be used to answer questions from roles Level 1 (L1), Level 2 (L2), and Level 3 (L3) agents. When responding, give a brief summary of your response before the full answer, based on the most direct information you have related to the question. If the user identifies themselves as a L1, L2, or L3, and the policy includes instructions based on the role, answer based on the role, but ensure they have enough information to create context.

AAR Complaint Processing - ClubHub

Damage | Warranty (non-live) | Pricing Concerns

1. Take Ownership of Case in CMS & Contact Member Contact member to advise of escalation to the AAR Facility for callback. Provide your contact information and best contact time and instruct the member to call you back if the facility fails to follow-up within 48 business hours.

2. Email AAR Advising facility to follow-up within 48 business hours: CC: AAR Specialist (see AAR Email here) .

3. Update CMS Feed Mark case In-Progress Document Actions taken in New Case Comment under Feed Close by entering the product request with "Referred to 3rd Party".

Notes If the member calls back advising no contact, request facility follow-up via email, CC the AAR Specialist, and update CMS New Case Comment. Callback two (2) - if facility does not make contact, obtain member receipts/invoice and route case to the AAR Specialist.

Repair & Service Issues

This protocol is intended to address the following concerns: Unauthorized repairs Inaccurate diagnostics Live warranty issues Escalated issues unresolved Fraud Inappropriate behavior

1. Take ownership of Case & Contact Member Contact member to obtain any receipts/invoices, vehicle information, and any missing details. Inform member case will be escalated to the AAR Specialist. Obtain best time to be reached and phone number.
2. Update Case Mark the case In-Progress Document actions taken in New Case Comment under Feed
3. Elevate AAR Specialist Route case to AAR Specialist Click "Send Notification email" when routing the case in CMS.

AAR Specialist Responsible for member follow-up and mediation. Update CMS with actions taken and close as appropriate.

AAR Facility Will work with the AAR Specialist to address member concerns.

High Quote | Customer Service Concerns

1. Take ownership of Case & Contact Member Contact member to resolve. Resolutions may include the following: Tow to an alternate repair facility Apology & Call Allow Commitment to address concerns with facility
2. Update Case Mark the case 'In-Progress' and document actions taken in New Case Comment under Feed Approve Garage- AAR facility name Product Request - Update, as appropriate under AAR Email AAR Specialist any behavioral concerns

AAR Specialist AAR Facility Responsible for member follow-up and mediation. Update CMS with actions taken and close as appropriate. Will work with the AAR Specialist to address member concerns.

Please Note: If the complaint is on a none-ACE AAR facility, please route the case to the AAR Specialist using the member's home city on file. AAR facility and AAR Specialist contact information can be found using the Automotive Provider Portal (APP) .

Email Protocol (AAR)

1. Complete the AAR Claim Form (form located at the bottom).
2. Locate the AAR facility and AAR Specialist contact information via the Automotive Provider Portal (APP) .
3. Compose Email Subject Line: AAA Member Complaint, Member Name, Year Make/Model of Vehicle Body : "Our member submitted a complaint and is requesting follow-up. See attached." Attach the AAR Claim Form to the email.
4. Email the AAR Facility and copy the AAR Specialist.

Non-Member Complaint

Non-member customers of AAR facilities should be directed to contact the facility directly for resolution. they may also contact the Bureau of Automotive Repair (BAR) at (800) 952-5210.

Affiliate Club Members

Affiliate Club members should be directed to their home Club to file a formal complaint about an ACE AAR facility for local AAR Specialist handling.

AAR In Affiliate Territory for ACE Members

In the APP application, search for the AAR based on the member's home club and residential city, and subsequently route the case to the AAR specialist for active AAR by residential city.

Appeals Process

Members should not be advised of appeals option unless all Service Recovery protocols have been exhausted, and member is requesting further escalation.

- Service Recovery: Scenarios in which the member is upset with service quality but did not incur an out-of-pocket expenses. If the member is requesting compensation for the inconvenience, steps 1-6 apply. MRR is not authorized to provide reimbursement of membership dues.
- Damages, Out-of-Pocket Expenses: These cases require investigation, which typically involves verification of receipts/invoices and/or assessment/inspection to determine whether damages are related to roadside service. Steps 3-6 apply.

1. First Contact Resolution - MRR must make an earnest attempt of first contact resolution using pre-approved resolution options outlined in the Service Recovery policy. If member declines,
2. Inform the member that their case will be reviewed to see if additional compensation can be provided and submit an Approval Request Form via Case Manager, which should include the following:
    a. Membership Information
    b. Complaint History
    c. Any Misconduct on file
    d. ERS Usage History from last 3 years
    e. Brief Summary - description of service concerns and resolution options offered.
    f. Damages and out-of-pocket scenarios require verification validation of receipts/invoices.
    g. Recommendation for resolution
3. Approved - Upon receipt of approval, contact the member with resolution option. If member does not accept, DO NOT offer further escalation or an appeal. If member insists upon further escalation, continue to Step 4 (non-damage).
    a. Damage Only - If the scenario includes damage, MRR is to explain options for member to pursuit small claims or submit a claim via their insurance carrier.
4. Appeals - Advise member that further compensation is not available at this time and counsel them regarding the written appeal process below.

Appeal Submission

- Must be submitted in writing.
- Cannot be escalated via telephone.

By Mail:

ERS Member Relations, Appeals Committee

PO BOX 25001

Santa Ana, CA 92799-5001

Email: ERSCorp@ace.aaa.com (by request only)

Subject Line: Appeals Committee - Case # 12345

Body: Must include a brief description of the issue, along with pertinent information to appeal their case.

Appeals Committee Contact: Advise member their request will be reviewed by the Appeals Committee.

Important: Appeal requests are processed in the order received and may take 5-7 business days for review upon receipt.

Appeals - Service Recovery Offer Declined (L1) :

Decline Documented - Scenario: Case handler's documentation indicates the requested resolution was declined. Member is not agreeable and is requesting to discuss further or provide additional information.

1. Follow CMS Call Back processing to update the Feed
2. Submit the call back form for further handling

Appeal Process Documented - Scenario: Case handler's documentation indicates the member was informed of the decline and appeal process. Member is requesting their case be reassigned and/or call escalated for further review.

1. Counsel the member to follow the Appeals process outlined below. Further escalation via phone is not an option.

Appeals - Service Recovery Offer Declined (L2 and L3)

Based on findings and/or severity of a roadside service concern, a Member Relations Representative (MRR) will present the member with a decline or an offer to resolve the concern. Scenario: Member is dissatisfied with the offer and is asking for elevation, and/or to appeal the offer/declination.

1. Counsel Member - Inform the member that their case has been thoroughly reviewed and the offer/decision aligns with our findings. Member not amenable to INITIAL offer/decision - Determine what the member is seeking and advise the member that you will elevate for a second review and will follow up with them once the review is complete. Send request via case manager for further review and compensation consideration is applicable.
2. Member not amenable to SECOND offer/decision - If the member is not satisfied with the second review resolution and requests to escalate further, MRR is to provide Appeal instructions outlined below. Further escalation via phone is not an option.

Important: DO NOT proactively offer an Appeal in lieu of following the protocol outlined above.

ARS - ERS (Accounts Receivables)

RECI Balance (CA, HI, NM, TX only)

Balance Due

Combined RECI and ARS balances on ERS Receivables screen in MRM.

If the member has a RECI balance, and a payment is applied in MRM, you will NOT see the payment in ERS Activities or the Balance Due update in real-time.

When a payment is applied in RADAR, MRM, EIC or remittance, the funds will go to ESP, prior to ARS .

Payments are processed in ESP in a batch process at approximately 0300. ESP payments are not applied in real-time and will not be reflected in MRM until after the batch is run.

No Balance Due

If the member does not have a RECI balance, the payments will be reflected real-time.

ESP Bills - Adjusting Calls

Existing Bill - Special Payments (i.e., fuel, locksmith, tow miles)

Scenario: If there is a bill in ESP (RECI), adjust the special payments

1. Cancel the bill in ESP, per existing protocol.
2. Make the adjustment in MRM (RTS).

A new ARS bill will result.

Note: Regardless of the billing step reflected in RECI, billing in ARS will reflect Bill 1

Transferring Memberships, Roles & Allowing Calls

- Transfer or Allow the call in RTS - Record Transaction Summary
- No ESP Bill - Make the adjustment in MRM

Auto Central - Instructions

Facility Search

1. From the left navigation pane, select Facility Search
2. Enter the Facility Number in the search box
3. Click on the desired facility to populate information.

Battery Guide

1. From the left navigation pane, select Battery Guide
2. Select vehicle year
3. Select vehicle make/model and engine size, if applicable

Battery Test Search

When a BSP technician tests a battery in concert with a roadside service request, the test results are uploaded to the Auto Central interface and will appear within 48 hours. Access the test results as follows:

1. Select Battery Test Search from the left navigation pane
2. Enter the Service Order Number and date.
3. Select Search

SIU - Special Investigation

ERS Special Investigations Unit (SIU). SIU investigates reports relating to misconduct or abuse of ERS services such as, non-payment of services, physical or verbal abuse, and more. Only ACE members should be reported to SIU.

1. From the left navigation pane, select Special Investigation.
2. Enter the service order number and date or membership number and name .
3. Select the Reason for the report; hover over the " i" for definitions.
4. Document the incident details in Comments .
5. Select Submit.

ACE & Affiliate Club Contacts

Damage/Missing Items

- Damage and/or missing items complaints are handled by the servicing Club. All other complaint types should be referred to the home club.
- ACE Territory (Damage/Missing Items) - If damage occurred in ACE Territory, capture the service provider number on the case for proper routing.
- Non-ACE Territory (Damage/Missing Items) - For Damage/Missing Items issues that occurred OUTSIDE of ACE territory, member will be referred to the servicing club.

Affiliate Club Requests - Call detail requests should be directed to submit their request via email to ERSRDMRRGROUP@ace.aaa.com

Email Formatting

1. Use CMS Email Template - Affiliate Club Email
2. Subject: Full member name and complete 16-digit membership number added to the Subject Line after "ERS Issue"
3. Service Order Attachment - Use Call Search in the Tool Box
4. Enter the 6 digit Call Id & Date
5. Select Call Comments
6. Right Click & Print or CTRL + P
7. Print to PDF to Save and attach (see CMS - Sending Emails for instructions on attaching documents)

Allow Call- Submit a Request

Requesting Allows

1. Select the Allow Form button on the MRR Case Management page.
2. Complete form, selecting "Service Recovery (MRR)" for question 6 and Submit

Reviewing Allows

1. Select Allow List button on the MRR Case Management page.

2. Filter - select the arrow next to the column title and click Filter by.

Note - To find your submissions, choose Requestor column and select your email address. To clear filter, select All Items from the list of views.

APS - ACE Payment Services

Looking Up Payments

1. Sign on to MRM Portal.
2. Click the Launch drop down and select ACE Payment Services.
    - The APS screen will default to the Transactions screen.
3. Enter the Membership Number in the Membership/Policy Number field and click on Search.
    - Note: If there are leading zeroes in the membership number, omit them when keying in the number.
    - The results will show the transaction(s) processed.
    - Date and time of transaction
    - Club Code Club code of product searching for
    - Product Prefix For insurance only; the policy prefix
    - Product # Membership number
    - Txn Type Onetime or Recurring

- Account Type Debit or Credit CRD or ACH
- Last Four The last four numbers of card account or bank account
- Amount The amount of payment processed
- Vendor Adyen (new processor) or prior Freedom Pay
- Emp The employee who processed the transaction or 999999=WEB, 199998=IVR
- If the employee/agent needs more data, click on the result displayed to show more information.
- APS Reference # GUID generated unique identifier on the APS side for the transaction
- Endorsement # Endorsement from the systems (e.g. HUON, Membership, GuideWire)
- Source System processing transaction
- Digital Channel Shows if it is a Google Pay or Apple Pay when using digital Wallet
- Masked account First and last four of the bank account number for ACH
- Transaction Date Date and Time of Transaction
- Payment in Transit True
- Card Token Number Token number assigned by Adyen
- Card Network Card Type: MC=MasterCard, VS=Visa, DS=Discover, AX=American Express
- Merchant Account Description of the APS merchant account for this product
- Transaction Type Onetime or Recurring
- Gateway Request ID The Adyen PSP reference ID for the transaction coming over
- Amount The amount of payment processed
- Virtual Last Four The last four of the digital wallet card account number
- Name Cardholder name
- Void Shows False if not voided and True if Voided
- Bank Name NA
- Prepaid If a prepaid card, shows True. If not prepaid, shows False.
- Export Status NA is the default; this is the status of transaction coming from processing to APS
- Adyen Store The description name of the store account in Adyen

Voiding Payments

1. Sign on to MRM Portal.
2. Click the Launch drop down and select ACE Payment Services.
3. The APS screen will default to the Transactions screen.
4. Enter the Membership Number in the Membership/Policy Number field and click on Search.

Note: If there are leading zeroes in the membership number, omit them when keying in the number.

The results will show the transaction(s) processed.

1. Click on the transaction to be voided.
2. To Void the payment, click the Void button.
    - The Create Void pop-up displays.
3. Select the appropriate reason for voiding the payment under the Reason field.
    - Note: If Other is selected, add notes for the reasoning.
4. Once the Reason is selected, the Void and Cancel buttons display.
5. Click on the Void button.
    - Confirm that the payment is to be voided.
6. Click on the Confirm button.
    - Confirmation screen displays when void has been successfully completed.
7. Click on Close button.

The Results will show the Void as Pending for approximately one minute.

8. Refresh the screen after one minute and the completed voided payment should be visible.
9. Click on the transaction line for the void: The Void field will now show “True.”

Can't Find Payment in APS

Because the conversion is happening in phases, not every transaction will immediately appear in APS. If you can't find the transaction in APS, look in EFTI.

If you still can't find it, please contact Corporate Cashiering at PaymentControl@ace.aaa.com .

Attendance Guidelines

Non-Exempt Employee Occurrence Guide*

*Chargeable occurrences are measured during a 12-month period, beginning on the service date, and do not include time protected by law or Company Policy.

Unprotected Occurrences (Absences)

Non-Exempt Employee Occurrence Guide*

Unprotected Occurrences	Performance	Recommended Corrective Action	Absence Period	Occurrence
6 - 7	Cautionary	Documented Coaching	Full day paid	= Zero Occurrence
8 - 11	Needs Improvement	Verbal Warning	60+ minutes unpaid	= 1 Occurrence
12 - 14	Less than acceptable	First Written Warning	6 - 59 minutes unpaid	= 1/2 Occurrence
15	Unacceptable	Final Written Warning	*This includes being late on your scheduled lunch break.	
16+		Possible Termination		

*After Sick Time and Vacation are exhausted or the absence does not meet the requirements of an illness Day under Club Policy.

Absence Reporting

All Member Relations staff are REQUIRED to report unscheduled absences or early departures by contacting the MRR Callout Line at (562) 377-5385 PRIOR to beginning of shift or departure. If there is no answer, or contact is made outside of business hours, a detailed message is required. Email and text messages are only permitted with PRIOR management approval.

Scheduled Absences - Scheduled absences may be arranged 24 hours or more in advance, by utilizing workforce management tools.

Unscheduled Absences - Absence reporting within the period of less than 24 hours prior to a scheduled shift require direct phone contact with a member of management team, PRIOR to beginning of a scheduled shift. Failure to follow this policy may result in corrective action, up to and including termination.

Non-Report or Job Abandonment

Absences not reported within an hour of the start of your scheduled shift will be recorded “no call no show". Three consecutive “no call, no show” absences will result in 'assumed resignation' processing.

Note: The new ACE ERS and MSC/PMG Call Center Availability Guidelines applies to the following ACE markets: Texas, California, East Central, NNE, Tidewater and ACMO.

AAA Battery

AAA Battery Warranty

Effective January 1, 2023, the ACE BSP Program transitioned to a standalone 3-year free replacement AAA battery warranty, eliminating the 3-year pro-rated period.

AAA batteries purchased prior to January 1, 2023, will have a 3-year (36 month) free replacement period, along with an additional 3-year (36 month) pro-rated or discount period.

Please note: AAA batteries are available to members and non-members. The warranty follows the original purchaser and begins from the original purchase date. If a AAA battery is purchased during the pro-rated or discount period, a new warranty period will apply.

Accessing the Club Assist Site

1. Site address my.clubassist.com
2. Log in using your work email address and your password you created when signing up.
    - If you receive an error message, delete the bookmark and go there via typing my.clubassist.com in the url bar.

Battery Look-up

1. Hover over Toolbox then select Application Guide from the dropdown.
2. Enter the Year, Make, Model and Engine size of the vehicle

Test Result Look-up

1. Hover over Battery Services then select Reporting
2. Hover over Reporting then select Tester Data
3. Hover over Tester then select and click MBC -1000 Live Test
4. On this screen, complete the following steps
    - Enter the Station ID (ICS number)
    - Enter the 6-digit call id number
    - Select Search
    - Once the list populates the test send to your email to see the results of the battery

- This is how the results will appear in your email, once received

Test Results Definition

Interstate Result	Club Assist Result	Action
Good	**Good - Pass**	Jumpstart provided.
Good- Recharge	**Good- Recharge**	
Good - Recheck soon	**Caution**	Jumpstart provided - the member informed battery health is declining. Battery may fail under extreme weather conditions.
Charge and Retest or Analysis Unavailable	**Recharge and Retest**	AAA battery under warranty will be replaced. • **ACMO and Tidewater excluded**
Replace Battery	**Bad and Replace** **Bad cell replace**	AAA battery under warranty will be replaced

Resending Battery Invoice (Club Assist)

- L 1 MRR: Hover over Toolbox then select Call Center Resend Invoice from the dropdown.
- L 2 MRR: Hover over Battery Service then select Resend Invoice from the dropdown.

On the next screen, complete the following steps

1. Select the Club
2. Enter ICS information (list is in alphabetical order according to the ICS name)
3. Enter the 6-digit call id number
4. Select Enter.
5. The screen will then bring up the call, click on the call to highlight it. A box will appear to enter the email address to where you want the invoice to be emailed.
6. Enter the email address then select Send invoice to address. There is no confirmation message that the email was sent. Do not send more than once.

Agent unable to locate invoice using call ID and provider information; no results appear. The solution is to enter the Club and provider zero in the following fields: Call ID, VIN

Club Assist Warranty

Is it transferrable?

There was a discrepancy when we began transferring to Club Assist. Initially the invoice stated it was transferable to another AAA member. The discrepancy was corrected, some members may have received the transferrable information by mistake.

BSP Purchase Date (Prior Membership)

MRM Search - Locating the Prior Membership

1 . MRM - Locate current membership: Select Launch –> Membership -> MACS – Customer System

2. When the screen on the right appears, enter PR and press Enter.

3. The MACS screen will reflect the current and prior memberships.

4. Use the Membership Research tool to review prior call history

http://mert.ace.aaaclubnet.com:55026/default.html

Use MS Edge browser only

Best Practice

If OPD is found under prior membership add a note to the current membership with the purchase date and call id for any future inquiries.

FSL Search

If the prior membership will not populate in the Membership Research tool attempt to locate the prior membership's account in FSL

Attempt the search using the options to the right and match the membership number to the prior membership found in MACS

- Phone Number
- Prior Membership Number (16 digits)
- May need to adjust the role
- Member's first and last name
    1. Select their name to open the Person Account for the prior membership
    2. Select Related to view the Work Orders used on the account

3. Click on the Work Order with the corresponding vehicle information or other context clues provided by the member

Review the Resolution Code. If needed select Related to review the feed documentation.

Best Practice

If OPD is found under prior membership add a note to the current membership with the purchase date and call id for any future inquiries.

BSP Purchase Date (PSAR)

This article outlines the following instructions:

1. PSAR Battery Archive Search
2. Log into PSAR
3. Enter REPORT ID: ES154A* (CA - HI - NM - TX)
4. Press Enter
5. 5. Search by month/year of expiration. Example: If a membership expires 9/2020 your search will begin using 10/2019. Enter " S " under Selection on the row of the month you will begin your search and press enter.
6. Command line: FIND 12345678 (enter the 8-digit member number) and press Enter . *If there is no archive found, you will get the message pictured on the top right corner.
7. Press F3 to continue searching until an allowed battery call is found. If a year has not been loaded and it shows PTAP, enter an " L " on that row, continue to press F3 again. Wait a few minutes for year to load and attempt your search on that row again once it reads PTMP .
8. Upon locating date, has been found change the Report ID to CD070B* .
9. Enter the date found and a 2 in the To/No. of Days field. Press Enter (see example on right).
10. To search the date, select a period of two days AFTER service. Enter an " S " and hit Enter . Report IDs, *ALB=New Mexico, ALL=California, ALLT=Texas, DAL=Texas, HAW=Hawaii
11. Enter 0 in the command line and hit Enter .
12. On the Command line, enter one of the following search strings:
    - FIND SVO#:12345 (search by SVO)
    - FIND LAST:SMITH (search by last name)
    - FIND FIRST:JOHN (search by first name)
    - FIND:12345678 (search by member number – enter the 8-digits only)

Battery Trouble Codes

- 3A Battery Jump
- 3F No Purchase Battery Passed Test
- 3B Battery Install Requested by Member
- 3G No Purchase No Test Performed
- 3C Battery Warranty Service Requested by Member
- 3H Battery Replaced Under Full Warranty
- 3D Battery Purchase
- 3I Battery Replaced Under Pro-Rata Warranty
- 3E No Purchase Battery Failed Test
- 3J No Purchase Unable to Locate Member or Vehicle/NSR

Battery Paperwork Processing - Non Members

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

1. Payment Approval Form (PAF) - Complete sections A through C and Exceptions (MRR DB)
2. Access letter templates
    - Letters - MRR Hub
    - Other Letters - All Documents (aaaclubnet.com)
3. Upload Documents (CMS case)
    - Receipts and battery test results, if appropriate
    - Completed PAF Form - form available in MRR Database - Forms
4. Approval and Paperwork Processing
    - Payment Approval forms must be submitted via Case Manager for approval, along for paperwork being processed. Please refer to Case Manager - Tracking, Approval, and Paperwork Processing for instructions.
5. Apply Resolution Code (CMS) (Incident 1)
    - RB- Reimbursement: Battery
    - Enter the amount being reimbursed in the Resolution Amount.

AAA Battery Service Battery Warranty Transition Guide

What to Expect

- New battery replacement invoices are to be used starting 1/1/2023.
- The new invoice can be identified by the ne header color along with the RED stripe just below the header.
- All old invoices are to be discarded.
- All mentions of the old prorate warrant are removed from the new invoice.
- Any battery purchased on or after 1/1/2023 will have a 3-year free replacement warranty.
- Any battery purchased prior to 12/31/2022 will still carry the 6-year warranty.
- Should you provide a prorated discount to batteries sold prior to 12/1/2022 use the body of the invoice to write in the reason for the discount and the amount.

Best Practices-

• It is important to always fill out the invoice clearly and in its entirety.

• Make sure that any additional charges such as labor are clearly notated on the invoice.

• Technicians should clearly explain the invoice prior to giving it to the member.

BSP Warranty Processing (E5)

Battery Acid Leak Complaints:

- Routing Level: Battery acid leak complaints are considered manufacturer defects and must be routed to Level 3. This applies only after confirmation from the member that the damage is due to an acid leak.

- Member Confirmation Required: Do not route the case until you have spoken directly with the member and confirmed the cause of damage.
- Attachments & Level 2 Process: The Level 2 notice process and attachment requirements do not apply to acid-leak cases.

Common Warranty Scenarios

Most AAA battery warranty situations are handled on the roadside. However, there are situations in which warranty service is unavailable. The following are common scenarios and the actions that should be taken upon receipt of a reimbursement request.

Scenarios: AAA battery fails under the free replacement warranty period

- Battery failed BSP test
- Battery was out of stock or no longer carried by BSP
- Member purchased a more expensive 3rd-party battery

Action

- Reimburse the full amount paid to purchase the 3rd-party battery, using Battery Warranty Reimbursement app.

Scenarios: AAA battery fails under the pro-rated warranty period

- Battery failed BSP test
- Battery was out of stock or no longer carried by BSP
- Member purchased a more expensive 3rd-party battery

Action

- Reimburse the difference between the 3rd party battery and the AAA battery pro-rated/discount price, using the battery warranty reimbursement application.

Scenario: Member had a AAA battery that failed

- Member did not contact AAA for assistance
- Member purchased a more expensive 3rd-party battery

Action

- Reimburse the full amount paid to purchase the 3rd-party battery, using Battery Warranty Reimbursement app.

Scenario : Member had a AAA battery that failed

- Member unable to reach AAA (known AAA phone/system outage)
- Member purchased a more expensive 3rd-party battery

Action

- Reimburse the full amount paid to purchase the 3rd-party battery, using Battery Warranty Reimbursement app.

Scenario: AAA battery fails BSP test during free replacement warranty period

- Battery not replaced under warranty, due to incorrect size install by the prior service provider or 'No Fitment'
- Member purchased a new AAA battery at full cost
- Member requesting reimbursement

Action

- Reimburse the full amount paid to purchase the 3rd-party battery, using Battery Warranty Reimbursement app.
- Deduct the new station, as the battery should have been replaced at no cost.

Scenario: Member had a AAA battery that failed BSP test

- Member misplaced warranty paperwork
- BSP declined warranty install, due to missing paperwork
- Member purchased a new AAA battery at full price

Action

- Reimburse the full amount paid based on original purchase date using Battery Warranty Reimbursement app

Scenario: Member had a AAA battery that failed

- Member did not contact AAA for assistance
- Member purchased a 3rd-party battery priced lower than the AAA battery

Action

- Reimburse the full amount of the AAA battery

Please Note: Requests for reimbursement of additional cost are subject to the current service recovery approval process, as outlined in the Case Manager - Work Flow guidelines.

Reimbursement Requirements

The following documents must be obtained and/or obtained and reviewed prior to processing a battery reimbursement.

- Completed battery reimbursement application.
- Copy of the original AAA battery purchase receipt*

*If a copy cannot be obtained from the member or ICS, copies of the service order reflecting the purchase and the AAA battery price from the Battery Guide must be attached.

- Copy of the new battery receipt*
- Copy of the diagnostic/test results showing the AAA battery failed*

*Confirm that all documents are in the member's name and correct vehicle.

- Determine warranty status
- Free replacement period
- Pro-rated/discount period
- Verify all 3rd-party receipts
- Contact the business on the invoice/receipt.

Important: Before processing any case, please ensure to look for duplicates to ensure a reimbursement has not already been processed.

Calculating Reimbursement

All reimbursements are subject to the warranty period during which the AAA battery fails, based on the original purchase date. The original purchase date is the precise date that the member purchased a new AAA battery.

Warranty Period

Reimbursement: Free Replacement Period (0-36 months from AAA purchase date)

- The member is entitled to a full reimbursement of the original AAA battery cost.

Pro-Rated Reimbursement Calculator (service failure)

- See Battery Warranty Calculator

Pro-Rated or Discount Period (37-72 months from original AAA purchase date)

- See AAA Battery Service Retail Price List

Please Note: Include tax when calculating final reimbursement amount.

CMS Case Management – BSP Warranty

To ensure proper supporting documentation tracking and auditing, the following is required in CMS:

- All documents and receipts must be uploaded to CMS.
- Clear documentation in CMS on why the reimbursement was processed, along with the method for determining the amount.
- Enter reimbursement amount under the "Product Code", when applicable.
- Whenever the battery guide denotes a battery as non-standard, it pertains to the duration specified for installation according to the manufacturer's guidelines. Any installation exceeding 30 minutes is categorized as non-standard, allowing the station to levy an installation fee.

Resolution Code - When To Use

The following resolution codes are to be used when processing a battery warranty reimbursement case:

- RB-Reimbursement: Battery - When reimbursing the member under warranty.
- RD-Request Declined - When reimbursement was declined under warranty.

Important: Reimbursement for Non-Member Battery Warranties requires management approval through the case manager.

Paperwork Processing

Please refer to Battery Reimbursement Processing for instructions here on how to submit application to Case Manager, and instructions on how to email or send the member a letter notifying them of the reimbursement being processed.

Branch Complaints

AAA Branch Office/Employee Complaints

Scenario: Member has a complaint regarding the service at a AAA branch office or a complaint on a particular branch employee.

Protocol: The complaint should be forwarded via email to the Branch Supervisor and CC the Branch Manager and your supervisor.

Identifying Branch Supervisors

1. In the Teams search field enter the city and branch.
2. Filter the search results to People
3. Locate the Branch Supervisor and Branch Manager.

The Branch Manager can also be found by searching the Branch Supervisor in the Helpline Tracker. The manager will be listed as their supervisor.

Call Center Standards

Auto Club Enterprises (the, "Club") is first and foremost a service operation. Providing legendary member service is the call center's top priority. To achieve the Club's goal of exceeding members' expectations, call center management looks for opportunities for improvement within our operations and has formulated these department standards. All employees are required to review, understand and comply with these standards.

Start Time

Non-exempt employees are expected to be at their workstations ready to clock in to Kronos at the start of their shift. Employees must clock in to Kronos before beginning any work, including but not limited to launching any programs, logging into the softphone, taking a call, reviewing email, conducting follow-up work or engaging in any business-related communication with coworkers or management.

Off-The-Clock-Work

Non-exempt employees may only work while on the clock. There is never a reason for a non-exempt employee to work off the clock, even voluntarily. This includes time before/after a shift or while on a meal period or rest break.

Workstations

Non-exempt employees are permitted at their workstations only when on the clock and working. All employees must take care of Club equipment and immediately report any issues with the equipment. Work-from-home employees are required to keep their equipment in a safe area and are responsible for ensuring that no one other than the employee is using the equipment. Damage to Club equipment as a result of negligence or willful destruction may be result in corrective action up to and including termination of employment.

Personal Cell Phones/Tablets and Other Electronic Devices

Non-exempt employees should not allow their personal devices to become a distraction to their work or to the member/customer experience while on duty.

Call Monitoring

To ensure that the Club is readily accessible to its members and responsive to their ERS needs, call center telephone activity is continually monitored by management. Calls are monitored in several ways: Live monitoring on CCPulse for call flow and volume distribution; management review by real-time telephone operations; recording of all telephone lines; statistical reporting by Genesys Workforce Management Verint Speech Analytics. Additionally, all recorded calls are subject to review and public playback for training and coaching purposes. Such monitoring and review enables management to ensure that call center agents use the telephone equipment properly and effectively to deliver service that meets the Club's high-quality standards.

To be effective and productive, it is imperative that an agent understand each component of the Club's telephone equipment and its proper use. Telephone devices consist of the headset, Avaya One-X and the enterprise softphone.

All telephone agents are required to review, understand, and comply with these standards, which dictate the proper use of the Club's telephone systems.

Headset

The headset is the auditory device of the telephone instrument and allows for "hands-free" operation. The headset enables the agent to simultaneously communicate with the caller and process service requests.

- It is imperative that the headset remain in good working order. Any malfunction must be reported to management immediately.
- Headsets are Club property and must be stored in a safe place at the workstation.

- Headsets should be worn while in call-receive mode and not placed on the desk while waiting for a call to be auto-connected.

- Unplugging the headset or misuse of the headset button is unacceptable.
  Intentional or negligent damage caused to a headset may result in corrective action up to and including termination of employment.

Avaya One-X/Softphone

Most of the incoming telephone calls come to the Club's call centers through a toll-free number from its members or contractors. Generally, the softphone automatically connects the incoming calls to an agent. The softphone and Avaya One-X if used properly, aid the ability to effectively provide quality member service. Employees should not adjust settings in Avaya One-X or softphone for the purpose of work avoidance.

Misuse of the softphone or Avaya One-X for the purpose of manipulating call delivery is unacceptable at any time and may lead to disciplinary action, up to and including termination.

The following rules further describe how agents may or may not use phone features:

Outbound/Speed Dial

On occasion, an agent must place an outgoing call to a member, contractor, or outside vendor. Agents may only use the outbound/speed dial for call processing and business-related calls for membership inquiries. These features may not be used to manipulate performance statistics. This includes outbound calls made to other businesses for the purpose of work avoidance. Personal phone calls on a Club line or on any cell phone may not be received or initiated from a workstation without prior supervisor approval.

Mute

The Club does not permit the use of the mute button, even though it is an active feature on the headset and Avaya One-X. It is designed to prevent the incoming caller from hearing an agent's conversation. Because the Club never wants a member's or any other customer's call to be connected to a silent line, use of the mute feature is not permissible including in place of the HOLD button.

Hold

The hold button allows an active incoming or outgoing call to be held in queue without conversation while processing a member or any other customer service request. Occasions will arise when an agent must access people or resources to complete service to a Club member. When it is necessary to place a member or any other customer on hold, the agent must first advise the member or customer what is taking place and request their permission to be placed on a brief hold. When placing a caller on hold, it is expected that the agent will periodically check back with the caller to reassure the member or customer they have not been forgotten or abandoned. Hold durations should not exceed more than 60 consecutive seconds without an agent checking back in on the caller. This feature may not be used to manipulate performance statistics.

After Call Work (ACW)

The ACW button prevents any incoming calls from being auto-connected. This feature allows legitimately approved time between member service requests to facilitate documentation and follow-up. It is also typically used at the end of a conversation. Reasonable limits are established as part of productivity evaluations. Excessive ACW is unacceptable because it increases members' wait time and decreases productivity. Employees must notify management when system issues arise to verify that the agent is not showing stuck in ACW.

Not Ready (NR)

The not-ready button prevents any incoming calls from being delivered. The not ready feature should only be used when logging off softphone. Not ready is considered an out of adherence state and should not be used unless the agent is logging in or out of the soft phone.

Transfer

The transfer feature allows the transfer of a phone call from one agent to another. Generally, this feature permits an agent to transfer a member or customer, at their request, to an individual or department in order to receive the necessary assistance. An agent will periodically need to transfer a caller to a Public Agency, an Affiliate Club, an Independent Service Provider, Supervision, Help Desk or to another department that will be able to assist with the caller's request.

There are two general types of transfers that can be made. Both types should always start with the intent to continue providing our members and other customers with a more seamless experience. A "Warm transfer" is when the recipient is greeted and made aware of the situation prior to transfer; whereas during a "Cold transfer", the caller is transferred to the recipient without prior notice. In all cases, before the transfer begins, the intent to transfer the member or customer must be clearly stated along with an attempt to provide the phone number to the member or customer.

To help streamline internal transfers within the ERS department and to ensure that sensitive and pertinent information is properly relayed, it is imperative that these calls are Warm transferred to the designated party; this includes, but is not limited to, transferring a member or customer to Supervision.

System Issue Reporting

At Times There Are Instances Where A Required System Is Impacted In A Way That Disrupts Your Ability To Provide Service To Our Members. When This Happens, It Must Be Communicated Immediately And According To Your Local Office's Issue-Reporting Guidelines.

Release

This feature disconnects a call from active service. Its only legitimate use is at the end of a conversation and before logging off the phone. Circumstances when an active call is released must be avoided; “hanging up” on a customer (member, service provider, employee or vendor) is never acceptable under any circumstances. Doing so may result in disciplinary action, up to and including termination. Technologies like speech analytics detect and report when an agent utilizes the release button. In addition, frequent short-duration calls by one agent alerts management to possible misuse. Reports of using the release button and frequent short calls will be investigated and may result in disciplinary action, up to and including termination.

If a problem occurs with a telephone connection when a call is delivered or while speaking with a member or other customer, the agent is required to document the reason for the disconnect and must attempt to call the member or customer back. In addition, if an agent experiences any technical issues with their phone while speaking with a member or customer, the agent must notify a supervisor immediately and document the issues on the IRAS service order.

Logoff

Logging off the phone disconnects the link between the softphone and the agent. This should only be used for scheduled breaks, meals, at the end of a scheduled shift, and for authorized offline activities. It is important that an agent log off appropriately to avoid incoming calls being delivered to the phone with no agent available.

Webcam (Work-from-Home Employees)

The Club’s expectation is that during any and all coaching sessions or meetings that the employee uses the Club issued Webcam. The use of the Webcam is an essential form of engagement for work-from-home employees.

Verifone inspection

The Club and Work-from-Home employees are required to perform inspections of their Club issued Verifone equipment. An inspection is required once per quarter and must be completed no later than the last day of the quarter.

After each inspection, the Work-from-Home employees must send an email to their supervisor with the following:

- 6 pictures of the Verifone (front side, back side, right side, left side, both ends).
- Screen Shot of the results that show the equipment ‘passed’ the inspection.
- Serial Number and Tamper Tape ID found on the back of the Verifone device.

Check-In & Check-Out

Check In/Out

The MRR Check-In process is required at the beginning of shift, after each break and lunch, and at the end of the day. The practice of updating the Teams chat with case count will be discontinued.
All cases must be logged in the MRR Case Manager - MRR Check In - All Items (sharepoint.com)
MRR Check-In form (office.com)

Level: Enter your Level.

- Check-in Interval
- First of Day
- After first break
- After Lunch
- After Second Break
- End of Day

Cases Closed: Enter total ‘NEW’ cases closed (not cumulative). Total closed cases should only be entered once at each interval and ONLY include cases closed for the 1st time. Re-activated cases should not be included in totals.

Cases Stolen or Assigned: Enter the total ‘NEW’ cases stolen and/or assigned (not cumulative). Cases stolen and/or assigned should only be entered once at each interval.

Cases Pending: Enter the total amount of cases pending closure. The amount entered should match cases pending in CMS and Case Manager.

Contacts: Enter the number of emails, voicemails and/or letters that require member contact.

Overrides: Enter the total Overrides processed

Help Desk Calls: Enter the number of Help Desk Calls taken

Submit: Submit Check-in form.

Status Check

Assigned Cases Search

1. Search CMS for open cases assigned using the following criteria:

- Case Status: Receive, In Progress, Resolve, & Suspend
  Case Owner: Your Name

2. Case Status - Verify current status is updated on each case.
3. Daily Voicemail Checks are REQUIRED within 30 minutes of shift start. Calls must be returned in order RECEIVED (oldest-to-newest):
   - Received BEFORE noon - Same-day contact required
   - Received AFTER noon - Contact is required by the following AM. Upon completion of steps 1-3, log all cases into the Case Organizer on the MRR SharePoint site.
4. Case Status Update - Verify current status is updated on each case.

MRR Management Only

Closures Per Interval
Level 1 : Minimum of four (4) closures per interval
Level 2 : Minimum of three (3) closures per interval
Level 3 : Minimum of 1.5 closures per interval

Instructions
Review reporting to determine whether each agent is meeting their interval goal. If interval goal is not met, engage with each individual to determine the impact.

CM - Contact Protocol

CMS Case Entry Errors

This protocol applies to CMS cases initiated by ERS agents in error that do not require member contact.

- ETA Requests – Member was requesting ETA or call status update on a Live call.
- Closed Complaints – ERS representative initiated a CMS case in error after resolving the service issue, with no further contact or action requested.

Resolution Undetermined

If successful resolution cannot be determined in doubt that the complaint was properly addressed by the telephone representative, send out an apology letter. Additionally, if the action requested by the member is known, the Member Relations representative should take the necessary action and send the member a letter.

Minor Service Complaints

- Service delays under 2 hours (beyond ETA)
- Agent behavior issues
  Service related issues which are unclear
- Battery warranty application: no further documentation required.
- CMS case marked “Call Member Back”, but further review is necessary to determine if telephone contact is necessary.

If the case meets criteria, send letter/email of apology via the Member Communication Site .

Mid-Level Service-Related Complaints

- Service delays with a wait time 2 hours or more.
- Member was overcharged or incurred an unnecessary out of pocket expenses.
- Battery warranty application processing; further documentation is required.
- Unless specified otherwise, telephone contact is required .

Live Call Greeting

"Hello, my name is [name]. I am a supervisor calling on behalf of the Member Relations Department at AAA. I am following up regarding your recent roadside service experience. [complaint brief recap].”

Voicemail

“Hello, my name is [name]. I am a [title] calling on behalf of the Member Relations Department at AAA. I attempted to reach you to discuss your recent roadside service experience. If you would like to speak further regarding this matter, my direct line is [phone number]."

If the MRR does not receive follow up from the member within 48 business hours, send a contact email/letter via the Member Communication Site.

Escalated Service-Related Complaints

- VIP,
- Executive,
- Corporate Social Media Escalations
- Damage Cases

Live Calls

"Hello, my name is [name]. I am a supervisor calling on behalf of the Member Relations Department at AAA. I am following up regarding your recent roadside service experience [complaint brief recap]."

Voicemail

"Hello , my name is [name]. I am a [title] calling on behalf of the Member Relations Department at AAA. I attempted to reach you to discuss your recent roadside service experience. If you would like to speak further regarding this matter, my direct line is [phone number]."

Unless otherwise noted, phone contact is required. If no follow-up from the member within 24 business hours, a second telephone contact must be attempted.
If no contact from member by the end of the 2nd business day, send member contact email/letter via the Member Communication Site.

Member Follow-up

Important Case Management;: If you receive a callback via voice mail and/or by e-mail, the expectation is to ensure the member is contacted same day.
Help Desk - If you receive a callback from the member and the follow-up time is beyond 24 hours, please elevate to MRR management.

CM - Duplicates and Routed Cases

Status Reporting : The goal of this reporting is to ensure accuracy when working duplicates or routing cases in CMS. Before closing out duplicate or routed cases, the 'Status' entry must be updated in the Case Manager as follows:

- Action - Status in Case Manager
- Cancelling a duplicate case in CMS
- Duplicate
- Routing/forwarding a case to an affiliate club or AAA National.
- Routed

Please note: A review for duplicate cases should be performed immediately upon Stealing a case in CMS. This ensures time ly cancellation of duplicates. Additionally, the Status submitted via the MRR Case Manager should reflect actions taken in CMS.

CM - Issue Tags (Damage)

This protocol is intended to outline the procedure for using Case Issue Tags reporting for Damage cases in the MRR Case Manager . The goal is to establish a clear timeline of actions leading to the damage escalation and identify issues faced by MRR during the process. Accurate reporting helps ensure prompt communication of issues observed to CSR Management.

Case Tag Definitions - When to Use

- 1st Notice Sent - Used when the 1st Notice of damage has been sent to the ICS.
- 2nd Notice Sent - Used when the 2nd Notice of damage has been sent to the ICS.
- ICS Failed to Contact Mbr - Used when the ICS failed to contact the member on damage notice.
- ICS Declined - Used when the member does not agree with ICS declination.
- ICS Partial Decline - Used when the member does not agree with ICS partial declination or compensation.
- Mbr Refused to work with ICS - Used when the member refuses to work directly with the ICS on damage.
- Mbr Refused ICS Repair Shop - Used when the member refused to have their vehicle repaired at the ICS chose of repair facility.
- AAA Mediation - Used in all scenarios in which the MRR has mediate a resolution.
- ICS Failed to Respond to MRR - Used when ICS fails to respond to MRR investigation notice.
- CSR Failed to Respond - Used when CSR fails to respond to MRR on assessment/inspection.
- A AR Failed to Respond - Used when AAR fails to respond to MRR on assessment.
- Tow Instructor Failed to Respond - Used when tow instruction fails to respond to MRR on assessment.
- ICS Behavioral Issue - Used when MRR encounters behavioral issues directly with the ICS when working to resolve a damage case.
- CSR Behavioral Issue - Used when MRR encounters behavioral issu es directly with CSR when working to resolve a damage case.

- ICS Incomplete Info Provided - Used when the ICS provides incomplete information to MRR to justify a decision.
- ICS Resolved after Mediation - Used when the ICS was still able to resolve with the member after AAA mediation.
- CSR Intervention Notice Sent - Future use

Please Note: Issue Tags must be used in the order that they appear in the timeline of the CMS damage case.

Case Flow Reference Guide

Below is a quick reference guide which follows the flow of the case and will require the appropriate tagging to ensure the MRR Case Manager reflects the timeline of actions that led to the damage being escalated, along with issues encountered during the course of the damage investigation.

Below are examples of scenarios and how the tags should appear in the MRR Case Manager.

New case picked up from CMS damage queue with the member contacted and the station notified to follow-up with the member: 1st Notice Sent

Member calls back after the 1st Notice stating that the ICS failed to follow-up: 1st Notice Sent; 2nd Notice Sent

Member calls back after the 2nd Notice stating that the ICS failed to follow-up and is requesting AAA to resolve.

1st Notice Sent; 2nd Notice Sent; ICS Failed to Contact Mbr; AAA Mediation

Member calls back after 1st Notice stating that the ICS fully declined responsibility and is requesting AAA to resolve, along with CSR failing to respond to MRR on assessment/inspection request: 1st Notice Sent; ICS Declined; AAA Mediation; CSR Failed to Respond

Member calls back after 2nd Notice stating that the ICS only offered partial compensation and is requesting AAA to resolve, along with the ICS failing to respond to MRR on Investigation Notice: 1st Notice Sent; 2nd Notice Sent; ICS Partial Decline; AAA Mediation; ICS Failed to Respond to MRR

New case picked up from CMS damage queue and the member refused to work directly with the ICS to resolve, along with the ICS having behavior issues with MRR when investigating the damage case: Member Refused to work with ICS; AAA Mediation; ICS Behavioral Issue

New case picked up from CMS but it was either a duplicate or was routed to a different market or affiliate for handling: AAA Mediation

Please Note: Issue Tags must be used in the MRR Case Manager in order that they appear in the timeline of the CMS damage case.

CM - W9 Requests

W-9 Form Requests

The W-9 form is used for reimbursement to ACE from Affiliate Clubs and Interstate Battery Claims .

Affiliate Club Requests

ACE files a damage complaint for our member located in an Affiliate Club.

MRR team resolves the damage reimbursement.

The Affiliate Club requests our W9 to process reimbursement for damages incurred in their territory.

Interstate Battery Claims Requests

ACE files an Interstate Claim for a damaged battery.

Interstate requests our W9 to reimburse us for the faulty battery.

CM- Check Dispute Protocol

Scenario: A member indicates that they did not receive or cash a check, despite our records indicating that the check has been cashed.

- Contact Corporate Disbursements via email to request a copy of the cashed check.
- Provide the member with a copy of that check for their records.

Scenario: Member reports that the signatures do not match

- Email Corporate Banking to request a member affidavit confirming that the check was not cashed: Corporate Banking Contact: Kim Chi Nguyen.
- The member must sign and return the documents to Corporate Banking for this case to proceed.
- A bank case will be initiated to dispute the check.
- If the dispute is successful, a new check will be issued.
- Counsel member to allow 30 days for the bank review process.

CMS - Sending Emails

General Email Instructions

1. Go to the Feed of the CMS case
2. Select the Email tab next to Post.

   Note: Do not select Email next to All Updates. This will filter the posts in the feed to just the emails that have been sent on the case.
3. Ensure the From Field is correct and the BCC field is empty
4. At the bottom of the Email select the Paper icon to insert a Template
5. Select Insert a template...

   Note: Recently Used Templates will appear after first use
6. Ensure Templates is set to All Lightning Templates and change Template folders to CMS Member Relations
7. Click on the blue link for the desired template
8. The Subject line and body of the email will update with the template selected

   Note: Body of the email will need to be updated with the member's name and may require additional updates depending on the template.
9. Enter the member's email address
10. Select the eyeball icon to preview the message before sending
11. Once all field are updated and correct send the email

    Note Once sent the email will post to the feed of the case

Adding Attachments

1. Select the paperclip icon to attach the file
2. Select Upload Files, select the necessary file and then select next
3. The attachment will show below the Body of the email
    - Apology/Apology Allow Emails
    - Add the member's first and last name to the greeting after "Dear"
    - Proper capitalization is required
    - Do not copy and paste name in all CAPS

Proof of Payment Emails

1 Add the member's first and last name to the greeting after "Dear"

Proper capitalization is required

Do not copy and paste name in all CAPS

2 Update the amount of the payment

Example: $125.00

3 Type out the date the payment was made

Example: January 01, 2025

Collections

Identifying Collections Accounts

Collections status is reviewed in MRM under ERS Receivables

1. Right-click under Total Events for All Members
2. Select View ERS Receivables
3. Current Account Status: Contact Collections
    - Member must be referred to Collections (Softphone).
    - Member Relations is unable to allow the call, adjust the miles, or change the membership role.

Note : If not paid or resolved within 1 month (approx), the account will be charged off and referred to a 3rd party collection agency.

Future Collection Events

Future collection notice events are excluded from this protocol (see image below).

Next Account Status will reflect as Contact Collection

Next Event Date will be a future date

ERS Bills Under $35

Outstanding bills under $35 are automatically charged off without being referred to Collections.

Member Relations is permitted to allow the call or adjust miles if billed in error.*

*If allowing the call on a cancelled membership, ERS Admin must be notified in order to process a manual reinstatement.

Questions and Escalations

Payment Eligible Accounts

Payments for accounts in "Contact Collections" status may be processed, as the accounts have not yet been sent to an external collection's agency.

- If the renewal date has NOT passed and the membership is otherwise in good standing, it will reinstate within 2 business days.
- Member Needs Service - If service is needed, a service request may be completed after the payment is successfully processed. If the annual call allotment has been exhausted, a service charge applies.

Payment Ineligible Accounts

When the account has been charged off, it is ineligible for payment and reinstatement by Member Relations.

Refer the member to Collections (Softphone) for further assistance:

Collections (888) 897-4902

Billing Disputes (Collections Accounts)

Member Relations is unable to Allow or adjust Collections-controlled accounts. Member should be referred to Collections.

CMS Queues

Step 1: Add a note in MRM indicatin g referral to the Collections department.

ERS bill currently in Collections, please refer to Collections Dept (888) 897-4902

Step 2: Document referral in CMS case.

ERS bill currently in Collections, if member calls back, please refer to Collections Dept (888) 897-4902

Step 3: Close the case.

Resolution Code: Referred to 3rd party

Level 2 MRR Only - Initiate contact with members to verify the accuracy of the bill.

Compensation Approval Requests

All approval requests require the following information (save time by using a screen shot as shown below).

Membership Information

- Name
- Longevity
- Type
- ERS Usage History
- Membership Products
- Prop Renewal
- Checklist Items Verification
- Complaint History
- Complaint History from last 3 years, along with resolution(s)
- Complaint history from CTS, CMS and MRM Portal notes
- Misconduct History
- Include misconduct on file, if applicable (MRM Alerts)
- ERS Usage History
- Regular Bill Plan Memberships: ERS Usage Count from last 3 years
- Monthly Bill Plan Memberships: ERS USAGE Count from last 12 months
- Brief Summary and Recommendation
- Brief Summary
- Brief description of the member's service concerns which outlines the type of service requested, along with the service issues found.
- Include the estimated time quoted, and total wait time for service.
- Outline options already offered to member to resolve complaint (ex: apology, allow, upgrade, etc.)

- Include the Checklist Items Verified (see Checklist Items Verification above)
- Recommendation
- Include what the member is requesting for compensation, along with your recommended resolution.

Critical Incidents

Identifying Critical Incidents

Critical incidents may be reported by a driver/member/third party on the same or on a later date.

The following and similar events qualify for escalation as a Critical Incident:

- Member or service provider injury or fatality
- Threat made by member or third party to service provider
- Threats made by provider to member or third-party
- Serious property damage occurs
- Threat to Club staff or properties (i.e., bomb threat, etc.)
- Service Provider displays erratic behavior
- Member displays threatening or erratic behavior towards the provider
- Service Provider drives erratically
- Suspected drug or alcohol use by the service provider, member, or third-party with the member on scene
- Member, service provider, or third party alleges or suspects criminal activity (e.g., sexual assault, physical altercation, harassment, stolen property, etc.)

If a safety concern is present, Hot Call protocol applies PRIOR to completion of Critical Incident reporting.

Member Relations Protocol

Queue Processing

After identifying the Critical Incident, enter ' Critical Incident ' in the CMS subject field and set status to ' In Progress '.

In addition, you must also complete the MRR CI Transfer form (CHNT & ACMO ONLY) to send notification of Critical Incident to MRR management for review and notification to the appropriate parties.

** Do not close CI cases - Leave the Case In Progress**

*If an ERS Critical Incident form has not been completed, the MRR is required to complete the form here .

Case Information

1. CI Category - Select which type of Critical Incident the case falls under, see above for definitions .

2. Service Order Number - The service order number the CI occurred on, if not available use the service order number the case was created from.
3. Service Order Date - The date the CI occurred, if not available use the date the case was created.
4. CMS ID Number - CMS case Id number
5. Comments - Enter the Narrative of what occurred.

Facility Information

Facility - The station number of the service provider involved. Start typing the station number and select from the list.

Agent Information

1. Agent Info - Employee number of the agent who created the case rather than elevating according to CI protocol.
2. Title - Defaults to CI Transfer, do not change.
3. Comments
4. Copy and paste feed from CMS or SVO into the comments section.
5. Save
6. Select Save to send the notification to CSR management, MRR management and Call Center management.

Missing ICS

Seek assessment or guidance from the Associate Supervisor or Supervisor before submitting the CI form.

Calls:

Live Critical Incidents or the members first time reporting should be redirected to the agents local home site Supervisor/Team Manager.

Claims Tow Conversions - CHANT

Claims Tow Conversions (Accident Assist)

- AAA Claims representative or AAA insured requests a tow charged to membership be converted to a Claims tow

Instructions:

CHANT

Email request (include details below): TxPayments@ace.aaa. com

ACMO

- Seaton.Joan@ace.aaa.com
- Copy CSR on the email.
- Email Details
- Membership Number
- Full Name
- Service order number and date
- Service provider name and station number
- If available any claims information provided (i.e., claim number, adjustors name)

ERS Payment Adjustment team will obtain the COD rate and include the cost of the tow with the claim. Do not Allow the call.

CM - Damage Matrix & Checklist

Damage Processing Matrix

	Station Notification	Station/CSR Communication	Member Communication	Case Documentation	MRR Case Uploads	Consi de rations
Investigation Notification	Service Provider	CSR Supervisor CSR Manager MRR Management	Notify Member AAA will mediate on their behalf	Doc. Investigation Notice sent	Notice (email) Pictures Invoice/Receipt Inspection (if applicable)	Station must provide information w/in 72 hrs.
Resolution Notification	Service Provider	CSR Supervisor CSR Manager MRR Management	Notify member of resolution outcome	Doc. resolution outcome	Notice (email) Inspection results PAF/Letter Deduct (if applicable)	Deducts are entered in Auto Central for CSR approval

MRR Case Closure Reminders

- Consult MRR Manager prior to contacting CSR
- Ensure all member callbacks and CSR inspection requests are coded in CMS
- Ensure case notes are clear and concise
- Ensure all relevant documents are uploaded to CMS
- Ensure that final resolution is communicated via telephone with the member
- All deducts must be uploaded along with justifying documentation

MRR Closure Checklist

Investigation Notice

- Ensure member callback is tracked in CTS.

- Notify the member that MRR is taking over investigation.
- Email the station the Investigation Notice, copy CSR Supervisor and Manager, plus MRR Management.
- Obtain pictures/request invoice or 2 estimates/receipts from member and upload to case.
- When appropriate, consult with MRR Manager before sending CSR Inspection request.
- Track Inspection request in CMS if necessary.
- Document actions in "Remarks" and time member indicates they will send required documentation.
- Use this date to serve as a follow-up day to the member.
- Close the case and re-open once the member provides the necessary information

Investigation Complete

1. Send to MRR approval queue with your recommendation on resolution.
2. If station agrees to be deducted,
    a. Document in CMS and notify the member.
3. If settlement is $3,000.00 or greater,
    a. Member must complete settlement release, which should be uploaded to the case.
4. Ensure deduct is entered in Auto Central and uploaded to case.
    - Payment Approval Form (PAF) must have correct CSR charge section, type of damage, member number, CMS ID number, and that station was deducted.
    - Member Letter must include the type of damage, the resolution amount, and that this was discussed/ negotiated with Member Relations

Auto Central Deduct Codes

Codes	Disposition	Detail
(FI)	Failed ICS	MRR full review after ICS failed to follow through with resolution, delay in handling.
(TI)	Tow Instructor	Tow Instructor assessment determined damages were consistent with provider
(AS)	AAR Specialist	AAR assessment determined damages were consistent with provider
(SP)	Service Provider	ICS accepted responsibility
(IF)	ICS Failed	$1,000 or less, ICS failed to respond multiple times, MRR cursory review
(CS)	CSR	CSR-approved deduct

Deduct Approved Amounts

Deduct Amount	Number of Deducts (Per Pay Period)
<= $2,000	1
$2,001 - $4,000	2
$4,001 - $6,000	3
$6,001 - $8,000	4
$8,001 - $10,000	5

CM - Fraud Dispute Process

Effective July 15, 2025, MRR began investigating potentially fraudulent activity related to member-submitted complaints. This process was identified as the most effective approach due to MRR's ability to leverage multiple investigative tools and applications to detect suspicious patterns.

Fraudulent activity may include, but is not limited to:

- Member states they did not request service
- Member does not recall the service
- Member claims they did not authorize the request

Designated support teams will review cases set up within the ERS MRR Membership Review Form based on selections made at the end of your investigation

- Membership Team – Membership Processing will only assist if the member is requesting a new membership.

SIU (Special Investigations Unit) –A review request will be sent to this team if any of the following apply:

- Phone used for other members
- Additional Membership Fraud Activity
- Fraud Case - CMS Processing

1. Pull case from the queue and change the owner to yourself and mark In Progress
2. CMS CHANT Membership - Fraud | Cases | Salesforce
3. Review Description and Investigate fraud dispute by utilizing necessary resources (Verint, Chatbot, etc.)
4. Contact member if details submitted via the CMS case require additional information (billable calls, voice matching, vehicle confirmation, etc)

Things to look out for:

- Vehicle descriptions, Phone Numbers, Locations

- Verify call logs and/or recordings to match disputes as applicable
- Non-member – quick search to verify the impact using this particular phone number.
- Verify telephone number(s) associated to membership household to identify potential matches via MRR/SIU Phone Number Fraud Search | Salesforce
- Verify the phone number in VERINT to validate any possible Call Move instances for calls placed outside ACE territory with the following parameters:
- Date included for search should match timeline reported
- Check 'Search Outside Visibility' to identify non-ERS agents taking call
- Request call records from serving club to help validate dispute/fraud
- Match recordings to verify if it's the same caller reporting the fraud vs. caller requesting service
- Verify Chatbot transcripts as applicable
- Request from Assoc Sups until access is provided.

Chatbot logs

- View for any errors where you can see the person in the transcripts, errors where it's not returning any data when being asked.
- Through website not logging into account
- Through the app (logged in)
- Through VERINT express then member opts in to complete call in-

Chatbot- Login | Tableau Cloud

- If all search features have been completed and dispute appears to be still in question for a particular call MRR will verify Check ID report - TBD

AutoCentral

https://autocentral.ace.aaaclubnet.com/Toolbox/Reporting/ShowReport/188

- If report shows the member swiped the ID at time of service that is in question, send member a dispute contact letter (applies to non-stolen identity issue)

If investigation leads to approval of dispute, send member a valid dispute letter

Validated Fraud/Call Dispute (Including 3rd Party & Internal ERS collections)

Dispute may be found valid for a reason other than fraud

- Battery issues
- Agent/System error
- Incorrect Resolution Code

1. Document findings in CMS New Case Comment and allow the necessary calls
2. Allow necessary calls if fraudulent activity is found
3. If an ERS Bill is under ERS collections
   - Email Arlo Morales and Kathya Avila to remove charges and reinstate the membership and CC MRR management
4. Add a note in MRM portal outlining the details of the results with our 800 # for any further questions
   - Approved email is sent out if fraudulent activity is found

   Example: Fraud Case # [Insert Case Number] has been either approved or declined. A letter containing the relevant details has been emailed. For any inquiries, please contact us at 866-841-0149.

Validated Fraud Dispute - New Membership Request

1. Contact the member to advise calls were removed based on our investigation
   - Measures will be implemented to prevent similar occurrences in the future.
2. Acknowledge their request for a new membership and advise our investigation does not currently indicate that a new membership is necessary.
   - If member is satisfied with reassurance new membership request is not required
   - If member persists in their request for a new membership submit request via ERS MRR Membership Review site (see below)
3. Email Confirmation Required - send follow up email advising new membership cards are being sent and to allow 15-20 business to receive in the mail.

Suggested Phrasing: " Thank you for taking the time to report these calls. Based on our investigation we have removed the calls in question from your call allotment. I know you requested a new membership to prevent similar instances occurring. We are using our findings to implement measures to prevent a similar occurrence and do not believe a new membership will be necessary at this time."

"I am elevating your request for a new membership to our membership department. Please allow 15-20 business days to receive your new cards in the mail."

Invalid Fraud Dispute

1. Document findings in CMS New Case Comment
2. Add a note in MRM portal outlining the details of the results with our 800 # for any further questions
3. Contact the member to advise insufficient evidence to support adjusting call count and review call history with member if needed
    - If member provides additional information that warrants further investigation, resume investigation with new information to validate dispute
    - If member does not provide additional information and is not in agreement with findings refer member to Service Recovery Appeal process
        a. Document member was referred to appeal process

    Suggested Phrasing: " Thank you for taking the time to elevate your concerns. Based on our review we were not able to find sufficient information to support adjusting the call status."

4. Close the CMS case

Product Request

- Allow - If fraudulent activity was found and calls were allowed
- Policy Explanation - If fraudulent activity was not found and calls are valid.

A case manager entry is not necessary for Fraud cases

Fraud Case Tracking

All cases pulled from the CHANT - Membership Fraud queue are entered into ERS MRR Membership Review site. A Case Manager entry is not required for these cases.

1. Enter case details into ERS MRR Membership Review site.
    - Membership Name
    - Membership Number
    - Case Number
    - Work Order
    - Date of Service
    - Phone Number used to request service
    - Was this phone number used to place calls for other members
    - Was there more than 1 membership found with Fraudulent activity (based on phone #)

If required based on findings and outcome escalate to Membership Processing and/or SIU. Membership Processing will only assist when the member is adamantly requesting a new membership,

2. Select 'Yes' under 'Requires New Mbrshp' to deliver to the team for processing.
    - The form serves as the trigger to have cases assigned to their team for handling and processing a new membership.
3. 'Requires New Membership' = Yes.

SIU (Special Investigations Unit)

A review request will be sent to this team if any of the following options are selected:

- Phone used for other members
- Additional Membership Fraud Activity
- SIU will handle a deeper investigation and follow necessary steps such as:
- SIU – Block the phone number (s)
- SIU – Send a cease-and-desist letter
- Classifications of Call Dispute
- Fraud – Chatbot call placed by non-member
- Fraud – Chatbot call placed by another member
- Fraud - Stolen identity
- Error - Incorrect resolution code
- Error - Allowed due to call center error
- Error - Call was erroneously placed by another member
- Allowed due to service recovery
- No BSP/Battery unavailable
- Station failed to replace battery under warranty
- Moved call to correct role
- Call not allowed, valid service member present
- Call allowed, member entered incorrect information
- Call sharing – someone on membership household accessed their calls

Checklist:

- Determine Yes/No
- MRM Note
- Member Letter
- Close CMS

- MRR Entry Form

Helpful Tips:

- Call sharing: Call sharing is not categorized as fraud.
- Chatbot Transcripts: Do not upload chatbot transcripts or Verint links into the CMS.
- Letters: A letter will not be issued for non-fraud cases, such as call adjustments.
- Callbacks: You will receive follow-up calls concerning fraud cases or related assignments.
- Declines: Ensure that you make contact with members for all declines, new membership requests, and when additional information is required to proceed.
- Previously Resolved Fraud Cases: The original case handler will manage any additional reviews required for the same household. You may create a new case to obtain closure credit, as you are likely to review new information.
- Blocking Numbers: If fraudulent activity occurs outside the territory of the club, please request the blocking of the phone number by emailing the MARS team. The MARS team will create a case and process the request through their system.
- Entry Form: Include all membership numbers and phone numbers in the entry form. You may edit your entry to add additional information as needed.
- Collection accounts: Adhere to the same process for both internal collections and third-party collections.
- Canceled Memberships: Determine if call sharing was valid or fraudulent for billable calls.
- Leaving Voicemails: For declines, make only one call. Send a letter and close the case.
- Example message: " This is Maria from AAA. I am reaching out to discuss your membership usage. Please contact me at your earliest convenience at 562-xxx-xxxx. Thank y ou."
- Leaving Cases Open: Ensure that cases are closed on the same day they are initiated.
- Sending Fraud Letters: Only send letters for confirmed fraud cases, not for call sharing.
- Allowing Billable Calls: Allow calls if fraud is confirmed and contact the member.
- Fraud Generic Work Order Call Number: Use 555555
- Affiliate Clubs: Please contact the affiliate club to obtain call details. If you do not receive a response, escalate the matter to MRR Management. Member Relations contacts are available in MARS for all clubs.
- Affiliate Club Verification Delay: Allow 48 hours, proceed with allowing 1-2 calls if validation is not possible due to lack of follow-up from the affiliate club.
- Number Calls Allowed: The documentation of the number of calls permitted in the MRM is unnecessary.
- New Membership: Email confirmation is required, and communication with the member has been established to ensure they are aware.
- MRM Note Language:
    - Fraud case # has been declined. A letter detailing the decision has been mailed to member. For any further inquiries, please contact 1-866-841-0149.
    - Fraud Case # has been approved. Allowed calls regarding the matter. A letter containing further details has been mailed to member. For any additional inquiries, please contact 1-866-841-0149.

CM - Tracking, Approval, and Paperwork Processing

*****Effective Immediately All Reimbursements and Compensation Approval requests must be submitted and approved through Case Manager.**

Case Tracking

All items processed from IRAS, mailbox, Qualtrics, MARS, and CMS queues must be entered into the Case Manager for tracking.

The case manager must accurately reflect the current status of an item worked along with pertinent information to ensure accurate reporting.

Case Owner Field Selections

Required on All Entries

Check In/ Out

Check In/Out is not required when you first enter the case into Case Manager. When closing a case, you must first Check Out and then proceed to closing case otherwise you will remain checked in on your closed cases.

Check In - Select Check In when you first begin to investigate the complaint. Check-In is required for all actions taken for the complaint (i.e., voicemail, e-mail, callback, paperwork processing, review, status change, update from CSR/ICS/Tow Instructor and/or AAR Specialist, etc.).

Save new comments before making changes to the case to retain changes.

Check Out - Select Check Out once you have completed your actions on that particular case.

Check Out is REQUIRED before you move to another case.

Schedule Type

- Normal - To be used when processing item during regular schedule.
- MRR OT - To be used when processing item during scheduled MRR overtime.
- HD Overflow - To be used when an MRR Level 2 or 3 are assisting in Help Desk overflow function.
- MRR Name : The name of the MRR processing the item.
- MRR Level : Select role: Level 1, 2, 3, PPG, Support, Lead.
- Case Information
- Case Handling

Please Note: The Case Manager entry must be created real time when processing an item from a queue, along with ensuring the case status is updated real time to reflect status in the CMS case.

Approval Protocol

- All 3rd party receipts must be verified by contacting the business on the receipt/invoice, and must match the member's name and vehicle.
- The Case Manager tool will be used to track and facilitate requests for MRR Management approval for Damage and Service Recovery at all times.
- All cases must be fully investigated and documented before moving forward with a resolution recommendation.

The practice of requesting approval via email has been discontinued.

All Approvals are subject to the following protocol:

- Please Note: Once approved, MRR Management will add their approval to the Case Manager entry and will tag the MRR with the Case Manager entry comments section to alert the of the approval, or if additional information is required before the approval is provided.

Paperwork Processing - PAF and Comp Forms

Effectively immediately, processing of all Payment Approval Forms (PAF) and Comp Forms (complimentary membership)' will be via Case Manager.

- Third-party receipts must be verified by contacting the business on the receipt/invoice, and must match the member's name and vehicle.
- Battery - DO NOT use the protocol below for Battery Reimbursements for current members are processed using the Battery Reimbursement and Paperwork Processing protocol.

Upon approval from MRR Management and resolution with the member, the following protocol applies:

Note: Non-Member Reimbursements (Battery) - Battery reimbursements for non-members will requirement PAF approval and must follow process listed above.

CM - Work Flow

Work Priorities

- Workflow
- Approval Requests
- Paperwork Processing

All Service Recovery reimbursements and Comp membership requests will be submitted, reviewed and processed within the Case Manager.

The process for standard and battery reimbursements , Apology/Contact letters and Emails via the Member Communication Site remains unchanged.

- MRR Mgmt Approved (Tagged)
- Member Follow- up
- Approver will add name to the Approver field in the Processing section of the entry.
- Case owner will receive approval via Outlook
- Contact the member with approved resolution, as applicable.
- Once resolved, update Entry status to Closed with Member - Prepping Paperwork in real time

Service Recovery Paperwork

Step	Title	Content
1.	**Prepare PAF/Comp and Letter**	a. Complete appropriate PAF/Comp forms and Letter b. Name files as [Form or Letter Type- Case ID-Member Name]
	- **Example:** PAF-123456-Jones, John	

Step	Title	Content
2.	**Attach Form & Letter To CM Entry**	a. Select the Case Manager Entry b. Select **Edit All** c. Scroll to the Attachments section (bottom) and select **Add Attachment** to upload the form
3.	**Cost to Resolve**	a. Update Cost to Resolve in Case Manager entry b. Check and comp amounts should be added. If no check or comp, enter 0 in Cost to Resolve field
4.	**Update Case Manager**	a. Requires Letter: Yes or No b. Requires Payment: Yes or No c. Requires Comp: Yes or No d. Paperwork Uploaded: Select 'Yes' upon paperwork completion
5.	**Basic Apology Letter Only**	a. These don't require management approval process and can be emailed or mailed out via the Member Communication Site.
6.	**Save Entry**	a. Save Entry b. Move to Next Case

Note: Battery reimbursements for non-members will require PAF approval and must follow process listed above.

Service Recovery, Battery reimbursement, Comp membership

Real-time Updates

1. Cost to resolve, as applicable - Total dollar amount for service recovery reimbursement, battery reimbursement, and/or comp membership

Prepare Paperwork

1. Complete the appropriate form and letter to the member
2. Name the files: " Payment Approval Form (PAF) - Case Id - Member Name" and "Letter - Case Id - Member Name"

Service Recovery & Comp Memberships

Form Attachment

1. Select the entry in the Case Manager
2. Select Edit All
3. Scroll to the Attachments section at the bottom of the entry
4. Select Add Attachments to upload the paperwork

Real-time Updates

1. Requires Letter - (Yes) required for reimbursement and comp membership
2. Requires Payment - yes or no
3. Requires Comp - yes or no
4. Paperwork Uploaded - yes, this selection causes the entry to populate for MRR Admin processing

Closing Entries

- Service recovery
- Battery reimbursement
- Comp membership
- Update the Status field to Closed with member
- Enter Closed the date as the current date
- Save and move on to the next case

Support

- Any issues regarding the functionality of the Case Manager are reported on the MRR Hub Issue Tracker and elevated via Teams
- Comment below with any questions or concerns regarding the protocol for priorities, workflow, approval or paperwork.

CMS - Creating a Case

Creating from Person Account (Recommended)

Creating from the Person Account in CMS will auto-populate the membership and avoid the character limit in RADAR.

Using the CMS Console view the Person Account

1. Search the 16-digit membership number or click the member's name from the Work Order.
2. Select Cases
3. Select New
4. Select CMS as the new case type
5. Select Next
6. Complete the form

HD Escalations - Routing or Closing

Routing

- If further review and follow is required, update the Subject line to RC.*

  *Excluded Event Categories: Damage, AAR, Battery

Closing

If resolved with the member, change to the status to Closed the bottom of the form.

- Product Requests & Tasks are not needed for escalations

Creating From RADAR

From the Dispatch or RADAR consoles:

- Click Create a CMS Case button at the top of the RADAR screen.
- A CMS form will open so the user can finish creating the case.

RADAR will ask if resolved with the member at the end of the entry form. *Description Field character limit is 255

CMS Quick Reference Guide

1. Case Owner: You will be the case owner until the case is submitted
2. Case Origin: Phone for all escalations
3. Keep Ownership: [Unchecked}
4. Type: Select the type of the case (Complaint, Compliment, Membership Issue etc.)
5. Event Category: Describes related area (AAR, Call Center, etc)
6. Account Name: Member or person calling
7. Event Subcategory: Action or issue that caused elevation
8. Key Type: Select the option that best specifies the issue, not always required
9. Subject: Leave blank, unless elevating to Level 2 CHANT MRR
    a. Document RC in Subject if elevation required
10. Description: Document member/caller statements
11. Contact Preference: Select their contact preference
12. Email: Verify or enter the email
13. Phone: Verify or enter the phone
14. Work Order: Enter the work order associated with the complaint or issue when available
15. Service Appointment Territory: Enter Facility number if applicable
16. Employee Name: Enter Club-employee name if applicable
17. Approved Garage: Enter AAR number if applicable
18. Status: Leave as New if routing the case, change to Closed if resolved with member over the phone
19. Internal Comments: [Blank]
20. Priority: [Medium]

Searching for Archived CMS Cases

If the archived case number is available,

- Open Odaseva Search from the app launcher to search for the archived case. If the archived case number is not available, follow the steps below.
- Search the membership number to pull up the member's Person Account in either the Dispatch or RADAR consoles.
- On the Related page scroll down to view the Work Orders and select the work order the complaint was regarding
- On the archived work order select the Related page and scroll down to view the cases associated with the work order
- Select the relevant case based on the Subject line

Coaching Opportunities - Escalating ERS R&D Agent Errors

When submitting an ERS escalation form for agent coaching, include all relevant details and ensure the concern is factual, negatively impacted the member's experience, and validated by the MRR. Avoid personal bias, and clearly state the impact. Concerns that are not supported by review findings, such as unfounded claims of rudeness, do not qualify for escalation.

ERS RD Agent Escalation Guide

ERS escalations are reviewed by site leadership and can influence coaching and accountability decisions. Consistent, clear documentation ensures feedback is taken seriously, interpreted accurately, and leads to meaningful outcomes.

Documentation

Professional, Grammatically Sound, and Clear Language

- Write complete sentences
- Use proper grammar and punctuation
- Spell out terms. Avoid abbreviations or shorthand like “mbr,” “svc,” “drv,” etc.

Instead of	**Use**
"agent didn’t ver mbr loc."	**"The agent did not verify the member’s location.”**

- **Why it matters: Incomplete or inconsistent writing can lead to miscommunication, undermine** credibility, and delay issue resolution.

Escalation Word Choices

Be Objective, Not Accusatory - describe observed behavior - Avoid blame and intent Assumptions

- Describe what was observed or heard, not your interpretation of intent
- Use neutral phrasing
- Avoid emotionally charged or blaming language

Be Objective, Not Accusatory - Describe Observed Behavior - Avoid Blame and Intent Assumption

Instead of	Write
“Agent hung up on member.”	“Agent was observed clicking the disconnect button while the member was speaking.”
“Agent didn’t care about member’s concern.”	“Agent did not acknowledge or respond to the member’s stated concern.”

- *Why this matters: Accusatory or emotionally charged language can create defensiveness and erode trust. When we remain objective and factual, we allow leaders to focus on the issue and evidence being provided rather than how it was delivered. This encourages outcomes that are more productive and collaborative.*

Provide Context and Clarity

Every escalation should build a clear picture of what happened. The person reading it should have an understanding of the context and severity of the issue by reading the escalation comments we provide.

- Give a brief sequence of events to explain what happened
- Specify where in the call the issue occurred (e.g., intro, closing)
- Explain why the behavior or action is a concern

Example: “During the call closing, the agent ended the interaction after saying, 'There's nothing more I can do,' without offering any alternatives or confirming the member’s understanding.”

Why this matters: Many escalations are sent back for clarity because they’re vague or too short to follow. Giving context helps the reviewer understand the situation and the severity of the case. These details help recipients prioritize the escalation for disciplinary follow up or coaching session reviews.

Suggested Escalation Format

- Briefly state the reason
- Describe what was observed
- Where it occurred in the call

Example: “This call is being elevated for review due to behavioral concerns. The agent was observed clicking the disconnect button while **the member was explaining details about their location. This occurred around the 5:30 mark.”**

Field	Example
Reason/Category	Behavioral concern
What Was Observed	Agent was observed clicking the disconnect button while the member was explaining their location.
Where in Call	This occurred around the 5:30 mark.

Final Thought: Clarity Builds Credibility

When our escalations follow a clear structure, use objective language, and reflect professionalism, they are far more likely to be well-received and acted upon. This consistency helps reduce misinterpretations, builds credibility across all three departments, and strengthens trust with site leadership. By applying these standards, we not only demonstrate our commitment to fairness and clarity, but we also make it easier to drive meaningful changes that support agents, improve coaching, and enhance the member experience.

Professional Escalation Notes

Writing Objective and Professional Escalation Notes

✅ **Use T**his Language - These phrases are factual, non-accusatory, and neutral. They describe what was heard or observed without implying intent or judgment**.**

✅ Preferred Language	✓ Why It Works
Agent was observed…	Describes fact without judgment
Upon reviewing the call, I observed…	Signals objectivity and analysis
The call recording shows that…	Keeps tone neutral and evidence-based
There was a missed opportunity for the agent to acknowledge…	Focuses on absence of expected behavior
The agent responded by stating…	Allows the quote to speak for itself
No options were offered…	Observes a gap in service
Member's concern was not addressed…	Focuses on what was missed, not intent
The call ended while the member was speaking…	Describes behavior without blame
There was no verification of…	Points to what was missing or omitted
The agent interrupted the member multiple times…	Specific and observable behavior
The issue occurred during the introduction/mid-call/closing…	Helps reviewers locate the concern
Language used may be perceived as dismissive	Shows potential impact without being accusatory
Tone appeared short or curt in response to member	Observational, not emotional
The agent's response lacked empathy or reassurance	Evaluative but professional
It appears the agent misunderstood the question	Suggests possibility without assumption
Information provided was inaccurate regarding…	Focuses on what was said, not intent
There was no confirmation that the member understood the next steps	Highlights missed standard

Language to Avoid 🚫

Avoid This Language: These phrases sound accusatory, judgmental, or emotional and may reduce cooperation or create defensiveness.

❌ **Avoid Using**	🔴 **Why It's Problematic**
Agent failed to…	Implies blame or intent
Agent neglected to…	Judgmental and harsh
Agent didn't care…	Assumes emotional state
Agent hung up on the member	Emotionally charged phrasing
Agent was rude/disrespectful	Subjective, not measurable
Agent refused to help	Assumes motive or intent
Agent didn't want to help	Speculative and accusatory
Member was clearly angry	"Clearly" and other adverbs can add presumptuous interpretations or negative tones
Agent ignored the member	Assumes intent; better to say "did not respond" or "did not acknowledge"
Agent was unprofessional	Vague and lacks specificity
The agent didn't do their job	Oversimplified and too general and charged with negativity

Quick Transform Examples

❌ **Instead of…**	✅ **Say…**
Agent failed to offer options	No options were offered during the call
Agent hung up on the member	Agent was observed selecting the disconnect button
Agent neglected to verify membership	Membership was not verified during the interaction
Agent didn't care	Agent did not acknowledge the member's concern or offer statements of reassurance
Agent was rude	The agent's tone appeared curt in response to the member's frustration
Agent refused to assist	Agent did not provide further assistance or explain next steps

Daily Productivity - Level 1

Activity Organizer

Level 1 Member Relations Representatives are required to use the Activity Organizer daily to track all items processed, and offline and exception times.

Activity Log

The following are REQUIRED fields in the Activity Log tab:

Field	**Required Entry / Options**

Level	MRR Level 1
MRR Name	Your Name
Name of Queue	IRAS Complaint Queue IRAS Compliment Queue IRAS MRR Processing Queue IRAS Other Queue CTS E1 Queue/Closed CTS E7 Queue/Closed CTS E3 Queue/Closed CTS M4 Queue/Closed Mailbox Qualtrics/Qualtrics Closed
Tracking Number (CTS or MR TS)	MRTS Ex ample T-315111

Adherence Tracker

The following are the REQUIRED fields to be completed in the Adherence Tracker tab:

Field	**Required Entry**
Level	MRR L evel 1
Reason	Reason for offline time/exception
MRR Name	Your name
Notes	Additional information
Date	Current date
Notified	Name of management team contact
Start Time	Scheduled start time
Total Mins	(Auto-calculated)
End Time	Actual end time

Activity Flow Checkpoint

Level 1 representatives are required to use the Activity Flow Teams chatroom to notify management of the following:

Completion time of start of shift Allow processing

Total of all cases closed at the following intervals (PST):

10:45

13:45

EOS (End of Shift)

Daily Productivity - Priority Guidelines

This article outlines work priorities for the following:
Level 1/Specialty
Level 2
Level 3/Specialty
MRR Admin
Note: Unless otherwise redirected by MRR Leads, Supervisors, or Managers, case work should be processed based on priorities for their role, as outlined below.

Priorities

Priority	**Level 1**	**Level 1 Specialty**	**Level 2**	**Level 3**	**Level 3 Specialty**	**MRR Admin**
Priority 1	Help Desk Calls	Help Desk Calls	CMS Queues CHANT AAR CHANT AAR Compliment CHANT All Open Level 2	CHANT Battery	RD MRR Mailbox CMS Queues CHANT Damage Level 3 High-Priority Escalated Cases	MRR Voicemail
Priority 2	Teams Override Requests	Teams Override Requests	CMS CHANT Damage	CMS Queues CHANT Damage	CHANT Battery Escalations VIP BBB Social Media Executive/Corporate	Paperwork Processing

Declination Letter Sample

February 25, 2020

Connie Gutierrez-Jenkins

201 E Arrow Highway, SPC 31

Glendora, CA 91740-5681

Dear Ms. Gutierrez-Jenkins:

We have received your report regarding the alleged damage to your vehicle and have discussed your concerns with Angelo's Towing & Recovery, the Independent Contract Station that responded to your Emergency Road Service request on January 24, 2019.

Angelo's Towing & Recovery has denied responsibility for the purported damage to your vehicle. Based on the results of the investigation, we could not conclusively state damage occurred while your vehicle was being serviced by Angelo's Towing & Recovery.

We must be sure you are aware Angelo's Towing & Recovery is an independent business under contract with the Auto Club to provide emergency road service. As an independent contractor, Angelo's Towing & Recovery is responsible for its own actions and those of its employees. We have attempted to provide a service to you by arbitrating the difference of opinion between you and Angelo's Towing & Recovery.

Ms. Gutierrez-Jenkins, if you wish to pursue this matter further, you may do so through your insurance or small claims court. Should you have any further questions or concerns please feel free to contact me at 562-377-3700.

Sincerely,

Maria Cornejo

Member Relations Group

Emergency Roadside Service

Case Number: 72474

Dispatch Contact Protocol

This article outlines the protocol for Dispatch support or Reroute assistance:

CHNT - Burbank/Coppell Dispatch Escalated Assistance

East Central (EC) - East Central Dispatch Escalated Assistance

Tidewater/Alabama/NNE - Dispatch Escalated Assistance

ACMO - Dispatch Escalated Assistance

Step 1 - Call the assigned ICS first, when applicable, before contacting Dispatch.

DO NOT clone the case if the work order has been declined. Dispatch will work the reroute on the original FSL Work Order.

CHNT - Burbank/Coppell Dispatch Escalated Assistance

1. Send a Teams Chat to the CA/TX Disp & MRR Management group requesting assistance in the format below. If you do not receive acknowledgement after 60 seconds, please proceed to Step 2.

"*Hello Dispatch, the member below has been elevated to Member Relations and is currently holding for a resolution. Please review and provide a response as quickly as possible to help prevent the possibility of a Social Media or Executive Escalation.*"

Live Member Escalation:

- SVO:
- Work Order:
- Date:
- Scenario:

2. Contact SQM or Dispatch support and/or re-route assistance. If you are on hold for 60 seconds with no answer, please proceed to Step 2. 877-824-5939
3. Contact Burbank Sup Line @, if no there is no answer on the SQM line. 818-562-8535

East Central (EC) - East Central Dispatch Escalated Assistance

1. Contact EC Dispatch @. If you are on hold for 60 seconds with no answer, please proceed to Step 2. 833-748-4695
2. Contact EC Escalated Line @. If you are on hold for 60 seconds with no answer, please proceed to Step 3. 216-606-6615
3. Send a Teams message to EC Dispatch Manager and MRR management requesting assistance with the SVO# and details of the member complaint.
   - Include the following in the Teams Chat:
   - David Whitehurst
   - Maria Sanchez
   - Hayley Kessworth
   - Elaine Matthews
   - Angelica Ramirez
   - Bobby Gonzalez

Message: *"Hello, the member below has been elevated to Member Relations and is currently holding for a resolution. Please review and provide a response as quickly as possible to help prevent the possibility of a Social Media or Executive Escalation."*

- Scenario:
- Contact Burbank Sup Line @, if no there is no acknowledgement of the urgent message. 818-562-8535

*The following issues should be elevated to the MRR Approval queue:

- Calls in Decline Status with no action by Dispatch greater than 60 minutes
- Dispatch refusing to assist MRR.
- Additional protocols for the additional markets may be updated based on issues elevated to the MRR Approval Queue.

Daily Productivity - Level 2 & 3 (CM)

Daily Production Scorecard

The following apply when completing the MRR Daily Production Scorecard; complete accuracy is REQUIRED:

- DO NOT enter Duplicate, Canceled, OR Previously Resolved cases
- Closed cases should be limited to ONE entry
- Must be completed/uploaded to SharePoint at end of each workday

Field	Instructions / Required Entry
Date	The date must match completion date and be formatted as [MM/DD/YYYY]. The scorecard will automatically convert the date for you.
Name	Enter your full first and last name when submitting your scorecard.
Work Time	Enter your exact hours worked (hours and minutes). Total hours worked includes overtime for the MRR Department. DO NOT include overtime for other business units (i.e., ERS). Document defaults to 8 hours. Example MRR worked 8 hrs, and 30 mins overtime
Non-Productive Time	Enter the total (15-minute) breaks for the workday in question (defaults is 2). Overtime - Complete if MRR overtime is worked and more than 2 breaks were taken, or if a short day is worked and less than 2 breaks taken.
Non-Work Time	Enter total Hours and Minutes of management-approved exception time(s). Employee Comments - Enter exception time and length of time in Comments. Non-System Exceptions: Offline meetings, training, conference calls, etc. System Exceptions: System issues requiring restarts/reboots
Case Processing	Enter the number of Case Management and IRAS Supervisor Queue items processed for the day using the following options: Voice Mail: Total voicemails processed IRAS SUP - Other: Items processed from the IRAS Supervisor queue HD - Designation Entries: Cases closed as a result of a Help Desk escalation M7: Escalated damage cases handled by MRR Level 3 CTS - Designation Entries: Cases closed when working directly from CMS MARS: Cases assigned by management that originated from AAA National Social Media: Cases assigned by management that originated as social media VIP/BBB/Corporate: Escalated cases assigned by management, which require an Executive response
Processed/Close d Example	Voicemails - 5 E3 Service Provider via Help Desk escalations - 5 E7 Membership via Help Desk escalations - 5 E4 Damage in CMS - 5 E5 Battery in CMS - 5
CTS Case #	Enter the CMS case numbers associated with your entries from the Case Processing Section.
Overflow Processing	Enter the number of Help Desk calls received.* *Help Desk call details must will also be entered in the “Employee Comments” section (see below).
Employee Comments	Type and length of management-approved exception(s) for the day Help Desk call type and service order number Feedback/comments for management team
Daily Production Scorecard Upload	Completed Scorecard must be uploaded to the designated SharePoint at the end of each shift.
Case Flow – Teams	Teams notification of the Scorecard upload is required

Case Organizer

Conduct Daily Ca se Status/ Voicemail Checks - Within the first 30 minutes of each shift, PRIOR to working new cases, the following applies:

- Each MRR will perform a status check of open/pending cases assigned at the beginning of each shift.
- Log new voicemails into Case Organizer

1. Search for open cases assigned using the following criteria:
   Case Status: Receive, In Progress, Resolve, & Suspend
   Case Owner: Your Name
2. Verify current status is updated on each case
3. Check voicemail; return calls (oldest-to-newest) as follows:
   Received BEFORE noon = Same-day contact required
   Received AFTER noon = Contact is required by the following AM.
4. Upon completion of steps 1-3, log all cases into the Case Organizer on the MRR SharePoint site.

Case Organizer Tab

The following are required fields in the Case Organizer, under the Case Organizer tab:

Field	Required Entry / Options
CTS ID Number	CTS ID Number
Date CMS case created	Date CMS case created
Date CMS case assigned/stolen by MRR	Date CMS case assigned/stolen by MRR
Current Case Status (dropdown)	Pending contact with the member Pending documentation from the member Pending inspection/assessment results Pending estimate from MPR/AAR Pending MRR management approval Resolved with the member
Follow-up Date	Date of next action to be taken by MRR Example: If current status is pending member contact, what date contact will be made. Example: If current status is pending member documentation, what is the date documentation is expected.
How was the case resolved?	Full reimbursement – Service recovery or battery refunds. Pro-Rated reimbursement – To b e used for pro-rate battery refunds Negotiated amount with the member – Service recovery scenarios Negotiated amount with the ICS – Service recovery scenarios Decline – All scenarios
Date Closed	Date case was finalized by the MRR

Voicemail Check Tab

Daily Voicemail Checks are REQUIRED within the first 30 minutes of each shift. The activity on the right should be entered in the Case Organizer, under the Voicemail Check Tab:

Field	Required Entry / Options
Date received	Date received
Total voicemails received	Total voicemails received
Completed (dropdown)	Yes – Is when you have completed listening to all voicemails and have noted the order of callback priority No – Voicemail check not completed

Case Flow Checkpoint Activity Reporting (Teams)

Level 2 & 3 are REQUIRED to send a cumulative total of closed cases* via the " Case Flow " chat at the following workday checkpoints:

Checkpoint Times (PST)
1045
1345
EOS (End of Shift)

*Closed cases - Closure totals should ONLY include cases closed for the 1 st time. Re-activated cases should not be included in totals.

If the checkpoint times falls around y our break and/or lunch, please send before you leave for your break.

Damage - Case Processing

The goal of this article is to define protocols for the following Damage protocols:

- Case Handling Reminder
- Initial Damage Report
- Callback 1 - No Station Contact
- Callback 2 - No Station Contact (Damage >$1,000)
- Mediation Requested/ 2nd Call Back (Damage <$1,000)
- Damage Notices and Email
- Deduct Processing
- Deduct Disputes
- Battery Acid Leak

Battery Acid Leak Complaints:

Item	Protocol
Routing Level	Battery acid leak complaints are considered manufacturer defects and must be routed to Level 3. This applies only after confirmation from the member that the damage is due to an acid leak.
Member Confirmation Required	Do not route the case until you have spoken directly with the member and confirmed the cause of damage.
Attachments & Level 2 Process	The Level 2 notice process and attachment requirements do not apply to acid-leak cases.

RAP Damages

Please direct all communications regarding Rap Damages to the MARS team via email for national reporting and case assignment.

The MARS contacts are Tammie Reece, Salay Pinkney, Kimberly Robinson, and Tilly Tillman.

Case Handling Reminder

Responsible Area	Complaint Types / Incidents
Contract Station Relations (ICS)	Significant or Critical Incidents Member or ICS Injury/Fatality Threats by ICS ICS Displays Erratic Driving/Behavior Alcohol/Drug Use by ICS Criminal Activity by ICS (e.g., missing/theft of personal member items) Significant Property Damage not immediately resolved, which may result in further damage or physical harm.
Member Relations Representative (MRR)	All Complaint Types (except Significant/Critical Incidents) Service Delays Overcharges Battery Damage/Missing keys/Car

Initial Damage Report

Responsible Area	Actions
Member Relations	Change Ownership in CMS to self and save Contact Member Confirm the damage that occurred and when it occurred (reason for roadside assistance) Advise member that damage is being escalated to the ICS for callback. Provide your contact information (phone/email and hours of availability) Instruct the member to call back if the ICS fails to follow-up within 48 business hours. Obtain best contact time and method from member (phone, email, text). Change status to In-Progress - Mark status as complete. Document actions taken in CMS case 'Call Log/Case Comments'. ICS 1 st Notice - Email the ICS instructing them to follow-up within 48 business hours and CC CSR supervisor. CMS - Upload 1st Notice under attachments (Use correct title when uploading) CMS - Update service order, call date, and ICS facility number as needed. CMS - Update comments under feed with any additional details provided by the member or provider when applicable including call backs and emailed notifications. Enter a product request - change status to closed/no approval required. Resolution Code - 'Referred to 3rd Party' and enter description '1st notice sent'. Complete Milestones Close the case as 'Referred to 3rd Party'.

ICS	The ICS is to make an earnest attempt to contact the member as soon as possible within the designated allotted time and resolve with the member.
CSR Management	The CSR Supervisor is to monitor the case handling with the ICS and ensure that the member is contacted.
AAR/Tow Instruction	CSR may require assistance from AAR/Tow Instructors upon their request.

Callback 1 - No Station Contact

Responsible Area	Actions
Member Relations	Create a child case and apologize to the member for the delay. Inform the member that you will be alerting the ICS to follow-up with the member within 24 hours and instruct the member to call you back if that does not occur. Email the ICS a '2nd Notice/Deduct Pending Notice' alerting them to follow-up with the member within 24 hours. Copy the CSR Supervisor and Manager. Update CMS with actions taken (upload the second notice form and email to the attachments, add a product request) Complete Milestones Close out case as 'Referred to 3rd Party'.
ICS	The ICS is to contact the member as soon as possible, within 24 hours, to ensure no further escalation occurs. The ICS is responsible for resolving the damage with the member.
CSR Management	The CSR is to contact the ICS to ensure arrangements are made for the member to be contacted as soon as possible.
AAR/Tow Instruction	CSR may require assistance from AAR/Tow Instructors upon their request

Callback 2 - No Station Contact (Damage more than $1,000)

Responsible Area	Actions
Member Relations	Reopen the case and apologize to the member for the delay. Inform the member that their case is being escalated to CSR management for immediate intervention for ICS to callback within 24 hours. Instruct the member to callback if no follow-up is received. Email CSR Supervisor/Manager/Group Manager the 'Intervention Notice', requesting immediate member follow-up and MRR notification that contact has occurred. Update CMS feed and new case comments with actions taken. MRR will leave case open until CSR provides verification that the member was contacted but will follow up with CSR after 24 hours have passed to inquire if contact was made. If contact has been verified, MRR will close out case as '3P-Referred to 3rd Party' and update CMS feed and new case comments with actions taken. MRR Level 2 will escalate case to Damage No Contact -
ICS	The ICS will work closely with CSR to ensure member is contacted and will notify CSR of all actions taken.
CSR Management	CSR will ensure station contacts the member and will verify with the member if contact was made. CSR supervisor will notify CSR Management and MRR of actions. CSR will call the member if ICS is unavailable.
AAR/Tow Instruction	CSR may require assistance from AAR/Tow Instructors upon their request.

Callback 2 - No Station Contact/Mediation Request (Damage less than $1,000)

Responsible Area	Actions
Member Relations	Steal/Reopen the case and apologize to the member for the inconvenience. Inform the member that you will be assisting as the Damage Case Manager and will assist with mediation. Update CMS to 'In Progress' if necessary. Update CMS to 'Damage' and ensure the appropriate 'Key Type' is used for the specific damage involved. Obtain the following from the member: Statement Pictures/Video of Damage Receipts/Invoices of damage Inform member you will arrangement damage assessment, or an inspection, if necessary. Advise member you will follow-up with resolution, and counsel them to contact you with further concerns. Update CMS feed and new case comments with all actions taken, upload documents once received, leave the case open until resolution.

	Send the ICS an 'Investigation Notice' requesting that they provide you with details on the damage. Send CSR an 'Assessment/Inspection Request' with all available information provided by the member, and to report back to you within 48 hours. Update Remarks. Once all information from the ICS and CSR has been received, proceed with Declination or submit for an Approval Request from MRR Managment if the station is found to be at fault for the damage. Please ensure to also include KBB value of vehicle (private party value, not trade in value) when submitting for approval. Update Remarks. Once a decision has been reached, notify the member of the outcome. Have the member fill out a 'Settlement Release Form' if the damage reimbursement is over $3,000.00 or when appropriate due to negotiating a settlement amount. Process ICS deduct if they are found at fault and send the ICS a 'Resolution Notice'. Update CMS feed and new case comments with actions taken. Update Resolution Tab with appropriate reimbursement or decline resolution codes, along with amount in ' resolution amount' field. Ensure to enter deduct amount in the Requested Amount field. If this was a '2nd Callback' scenario and the damage was under $1,000.00, MRR will do a cursory review of the damage. Damage must be consistent with service rendered. Must have valid receipts/invoice. Receipts/invoices must apply to damage items only. Although these will be a cursory review, MRR will decline the case if findings show that the station is not at fault. Resolution/Closing steps will apply previously noted above. Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.
ICS	The ICS is responsible to report back to the MRR once an 'Investigation Notice' has been received. If no response if received from the ICS, MRR will make a decision with information at hand. Any deduct dispute must be discussed with CSR and not with MRR.
CSR Management	CSR is responsible to make arrangements for assessment or inspection and provide MRR with findings. If no response is received in a timely manner, MRR will resolve with information at hand.
AAR/Tow Instruction	CSR may require assistance from AAR/Tow In structors upon their request for assessment. MRR may reach out to AAR/Tow Instructors when no response is received from CSR.

Damage Notices and Email

ICS/CSR Contact Information can be fou nd here .

Communication	To / CC	Subject Line	Body / Attachment Instructions
1 st Notice Email	To: [ICS]; CC: [CSR Supervisor]	1st Notice - Case # 12345	See attached damage notice and follow-up w/member. Complete and attach Form to email.
2 nd Notice Email - Deduct Pending Notice	To: [ICS]; CC: [CSR Supervisor & CSR Manager]	Deduct Pending Notice - Case # 12345	See attached damage notice and follow-up w/member. Complete and attach Form to email.
Investigation Notice	To: [ICS] and CC: [CSR Supervisor]	Investigation Notice - Case # 12345	See attached investigation notice. Complete and attach Form to email.
Assessment/Inspection Request	To: [CSR Supervisor]	Damage Assessment/Inspection Request - Case # 12345	See attached Assessment/Inspection request and available documents. Complete/attach form and documents (i.e., pictures/receipts/invoices) to email.
Resolution Notice	To: [ICS] and CC: [CSR Supervisor]	Damage Resolution Notice - Case # 12345	See attached resolution notice Complete and attach Form to email.
Damage Email Communication to Member	To: Member	AAA Damage Case # 12345	See example in next column. Complete and email to member alerting the member of the damage process.
Settlement Release Form	To: Member		As discussed, please sign the attached settlement release form and email it back to me. Complete and attach Form to email.

Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Station Deduct Processing

I n order to streamline Deduct Processing, MRR will no longer offer stations multiple deducts on cases in which the station was found to be liable for damage. However, upon request from CSR Management or the station, MRR can accommodate multiple deducts using the following deduct scale:

Deduct Amount	Number of Deducts (Per Period - 1st/15th of each mo)
≤ $2,000.00	1
$2,000.01 - $4,000.00	2
$6,000.01 - $8,000.00	4
$8,000.01 - $10,000.00	5

Station Disputes Deduct

The MRR damage complaint process has been built to ensure communication with the station is done throughout the handling of the case. Once a case has reached a deduct level, the station had already been given the opportunity to provide feedback; as such, the deduct is considered final once it has reached this point.

If a station wishes to dispute a deduct, they must contact their CSR Supervisor for assistance. It is within the CSR Supervisor and Team Manager's purview to make any station deduct exceptions as required.

Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Elevated Cases - Member Contact

Case Managers

When an escalated case is assigned by MRR management, the assignee is required to attempt same day contact with the member.

Day	Status / Contact Type	Required Action
DAY 1	Phone Contact	Initiate phone contact with the member. If the member is unavailable via phone, leave a detailed message that includes the following: - Your name - Contact number - Best contact time
DAY 1	Email Contact	If live contact is unsuccessful, an email attempt is required.
DAY 2	No Response	If member has not responded, a 2nd attempt by phone is required. If the member is unavailable via phone, leave a detailed message that includes the following: - Your name - Contact number - Best contact time
DAY 2	Email Contact	If live contact is unsuccessful, an email attempt is required.
DAY 3	No Response	If member has not responded, send an Apology letter and close the case.

Important Requirements

Requirement	Details
Required Documentation	Real-time documentation of all actions taken and related case information acquired is required in all scenarios, at all times.
Management Status Updates	Daily status updates must be provided to the MRR management team daily.
President/CEO Escalations	A VIP letter and summary are required, unless otherwise directed by MRR management.

MRR Management - Acknowledgement

Management will send a follow-up email to the case originator in acknowledgement of the escalated case, which includes the following:

- Acknowledge receipt of complaint
- Provide status of and completion of escalation, along with next steps
- Management receiving escalation will ensure case is being entered and tracked
- Paperwork will be prioritized for handling – Admin will be notified

ERS Admin Processing Times

The following are processing times that should be communicated to the member, and are subject to change based on ERS Admin volume

Processing Time	When It Applies / Member Communication
3-5 business days	Reimbursement processed by Member Relations Team, inform the member the wait time is 3-5 business days from the time it was sent by our team. Please notify the member that it will take 14 business days to receive the check in the mail.
4 weeks (30 days)	If the member sends the reimbursement form via mail and/or e-mail, inform the member the wait time is 4 weeks and/or 30 days to receive the refund.
15 business days	Once ERS Admin processes the refund, inform the member the wait time is 15 business days from the time it shows in MRM Portal notes. This delivery time is set up to 15 days to account for the Clubs outside California.

- Callbacks (2+ weeks) - Elevate to ERS Admin so that they can follow-up and prioritize their refund if needed.
- In MRM Portal notes, the ERS Admin approver handling the reimbursement will be added in this field.
- If the approver name exists, please email the approver and copy the ERS Admin mailbox to verify the status of the reimbursement. If no approver, please send it directly to the mailbox for follow-up from ERS Admin.

Escalation - Case Call Backs

Level 1 Closure

Scenario: Member calls back on a case closed by a Level 1 MRR

- Allow/Apology letter or email
- Closed during escalation

Step	Action	Instructions / Scripting
Step 1	Apologize	"I'm sorry you haven't received the refund for the service charge after you cancelled the service request." "I'm sorry you waited for service longer than we had anticipated, and especially without updates"
Step 2	Review Description, Feed and/or Product Request to establish issue and case status	"I have your information pulled up, allow me just a moment to take a look and get caught up to speed on your case"
Step 3	Attempt resolution	Advise of any actions taken on their behalf Follow the Service Recovery Matrix as applicable "I see the payment was submitted for refund yesterday, please allow 5-10 business days for that refund to process." "We did send out an email to apologize for the experience and let you know we are addressing these issues. I really appreciate you taking the time to follow up with us, I have also credited the call back to your membership so we can have another opportunity to service you better."
Step 4	Successfully Resolved	Thank the member for their time and close the conversation "Thank you for calling so I could make sure this was taken care of for you. Is there anything else I could help with… I hope you have a great day."
Step 4	Further review and Follow-up Needed	Set the expectation for follow up and gather the contact details Create a Child Case Update the subject field to RC or assign to the appropriate queue Update the Child Case Description with any additional details, actions taken to attempt to resolve, requested resolution, and contact details (phone, time to call and email). "I do understand this experience was not what you were expecting from us. I will elevate your request for (member's requested resolution if shared) to a case manager, they will review and follow up with you to discuss a resolution. To make sure they can reach you within the next 2-3 days, could I verify your phone number, best time to call you and email address."

Examples

Example Type	Documentation

Successfully Resolved	SRTL: MCB for update on service charge refund. Apologized and advised refund processed on {date} and to allow 5-10 business days to process. Member understood and thanked for update.
Further review and Follow-up Needed	SRTL: MCB for update on service delay complaint. Delay was greater than 2hrs svc was first requested on {date}, mbr waited 2 days for svc and had to stay in hotel. Apologized, mbr declined allow call and comp upgrade. Mbr req full comp membership and reimbursement of hotel expense due to multi-day svc failure. Mif will elevate for follow up. Phone (555)555-555 Best time to reach - before noon, johnexample@example.com

Case Manager/ CSR/ AAR Specialist Case Assigned or Closed (All ACE)

Scenario: Member calls back regarding a case assigned to or closed by a MRR Level 2 or 3, CSR, AAR Specialist or other ACE MRR.

Step	Action	Instructions / Scripting
Step 1	Apologize	"I'm sorry you had to pay out of pocket to purchase a replacement battery for your AAA battery"
Step 2	Review Description, Feed and/or Product Request to establish issue and case status.	"I have your information pulled up, allow me just a moment to take a look and get caught up to speed on your case"
Step 3	Advise the member of any update	Advise the member of any update (e.g. reimbursement issued or request for docs emailed), and if needed that case owner will follow up with member " I see your case manager, (case owner's name), attempted to reach you on (date of last call) to request a copy of the receipt for the new battery you purchased, would you be able to email that to them"
Step 4	Further review and Follow-up Needed	Set the expectation for follow up and gather the contact details Update the Feed - New Case Comment to reflect callback and any additional requests or information from the member. Establish/confirm member contact details, including the best time to reach them. Verify member has case owner's contact information Case owner's email address can be provided upon request "Thank you for the updated information, I will notify (case owner) that you sent the receipt as requested and I have them follow up with you with their next steps to move forward . To make sure they can reach you within the next 2-3 days, could I verify your phone number, best time to call you and email address...And do you have your case number and (case owner's) direct number? "
Step 5	Update the Feed & Notify the Case Owner via CMS Email	Verify whether the case owner is a Lvl 1 CHANT MRR before submitting. Go to Feed then to Email tab Insert CMS Case Call Back Template Document the Reason for the Call back and Best Contact Time The fields in {} brackets will auto update as long as the information is in the case details Update any missing information in the case details: Member's name Case Number Member's Phone number Member's Email Case Event Category Case Event Subcategory
Step 6	Documentation	Documentation in the email sent from CMS counts as CMS documentation, double documentation in New Case Comment is not required Documentation for every member interaction is required " SRTL: Mbr requests update on battery reimbursement, mbr advised emailed 3rd party receipt as requested but no call back and no additional docs from (case owner). Mbr Requesting call back at (562) 123-4567, anytime. Submitted cb form to (case owner)"

Reassignment Requests

Reassignment should not be proactively offered

Scenario: Member requests for their case to reassigned due to no contact, interaction with the case owner, etc.

Step	Action	Instructions / Scripting
Step 1	Apologize and advise member request will be elevated for review.	"I understand you are looking for someone else to handle your case. I will elevate your request, and your case will be reviewed for possible reassignment. I will make sure you are contacted within the next 1-2 days"
Step 2	Document additional information	Document any additional information provided the reason for the reassignment request in the Feed - New Case Comment Example: Member upset with no call back from case owner and requested reassignment due to lack of follow up.
Step 3	Elevate request to MRR Leads and Management	Leads/Management will make the determination if the case requires no, full or temporary reassignment

If Documentation indicates the member was informed of the decline and member requests reassignment and/or escalated for further review

Service Recovery Appeal (CHANT)

Must be submitted in writing.

Cannot be escalated via telephone

By Mail: ERS Member Relations, Appeals Committee
PO BOX 25001
Santa Ana, CA 92799-5001

Email: ERSCorp@ace.aaa.com (by request only)

Subject Line: Appeals Committee - Case # 12345

Body: Must include a brief description of the issue, along with pertinent information to appeal their case.

Hello

Member has called back (number of call backs) and the case is pending assignment. Could we please ensure assign for member contact?

Escalations - Critical Incidents /ADA Transportation/ Live Hot Calls

CI/ADA/Hot Call Definitions

Critical Incident Definitions

Critical Incident Type	Definition
Erratic Behavior (Member/Passengers)	Member/passenger displays threatening or erratic behavior towards the provider or party on scene.
Erratic Behavior (Service Provider)	Service Provider displays erratic behavior or drives erratically.
Injury/Fatality	Member, passenger(s), service provider, or third-party on scene injury or fatality.
Legal Action	Member indicates an intention to take legal action (i.e., sue, lawsuit) against the Club or service provider.
Physical Altercations	Physical altercation between member, provider, or third-party on scene.
Property Damage	Serious property damage, including but not limited to, vehicles, member/caller/public property, Club property, provider property (e.g., garage doors and other structures, poles, etc.).
Suspected Impairment	Drug/alcohol use by the service provider, member, or third-party w/member on scene.

Suspected/Alleged Criminal Activity	Member, service provider, or third party alleges or suspects criminal activity (e.g., sexual assault, physical altercation, harassment, stolen property, etc.).
Verbal Threats (Member/Third-party)	Verbal threats made by member or third party to/against the service provider, Club staff or Club property.
Verbal threats (Service Provider)	Verbal threat made by provider reported by member/passengers or other parties.

If a safety concern is present, Hot Call protocol applies PRIOR to completion of Critical Incident reporting.

Hot Call Definitions

- Personal Safety - Member indicates a safety concern
- Doctor indicates medical emergency
- Unsafe Location
- Medical Emergency
- Vehicle blocking traffic on freeway
- Police Call – Accident/Traffic
- Baby/Person or animal locked in the vehicle
- Other situations deemed Hot by Supervision

ADA Transportation Definition

- Member is requesting alternate transportation due to an inability to get into the tow truck unassisted.

Redirecting Agents

Situation	Required Action / Scripting
Initial Redirect	Redirect agent to Local Hot Call Teams Chat "Thank you for elevating the issues, these instances are reported to local management. Please reach out to your local Hot Call Teams chat for further assistance."
No Chat Response	If an agent reports no response is received, they should be referred to their home site Local Supervisor Line "My apologies, please contact your Local Supervisor Line @ (xxx) xxx-xxxx for immediate assistance"
No Supervisor-Line Response	If agent advises they already attempted their local sup line with no response Elevate non-responsive SUP LINE reports to MRR Management
Critical Incidents	Accept the transfer and elevate to MRR Leads
Hot Calls Only	Accept transfer; reach out to PA or 3rd party contact, as needed
ADA Transportation	Provide agent an alternate phone number to contact

Email Template (internal elevations)

Field	Content
To	[Leads]
CC	[Bobby Gonzalez, Maria Sanchez Celeste Owens and Hayley Kessworth]
Subject	CI/ADA/Hot Call No Response
Body	Hello, Agent (enumber), advised there was no response when contacting their local sup line for assistance with (CI/ADA/Hot Call).

Escalations - AAR

Acknowledge/ Apologize

“I apologize for your experience. I know you anticipated getting your vehicle back in working condition."

Repair Quote & Customer Service Issues

Member is dissatisfied with service or repair quality or pricing from the AAR and requests towing home or another facility.

the member should be counseled that charges at current facility must be paid prior to service.

Call may also be Allowed, if applicable.

* Note: DO NOT transfer to the AAR Complaint line

Suggested Phrasing

"I'm sorry the quote was more than you were expecting. I will be happy to arrange for towing if you hav e a place in mind.

Damage/Warranty/Pricing Concerns

- Complaints subject to this protocol include, but are not limited to the following:
- Vehicle damage
- Warranty or quality issues
- Unauthorized repairs/charges

Facility Contact Status	Required Guidance	Suggested Phrasing
Facility Contacted	For fast resolution, encourage the member to contact the AAR facility directly and advise them that you will file a complaint on their behalf.	" I recommend contacting (AAR) directly to address your concerns. I will also elevate you concerns for follow-up with the facility."*
Facility NOT Contacted	If the member was unsuccessful or declines an attempt to resolve with the facility, they should be counseled that their concerns will be elevated and that they will be contacted with the next steps.	"Thank you for taking the time to share your experience with me. I am elevating them to ensure they are addressed with the facility. The case manager assigned will follow up with next steps"

Supervisor Review Processing

Field	Required Entry / Action
Case Status	Leave the case open
Category	Select AAR
Routing	Routes to ACE AAR

Documentation Requirements

Accurate documentation is essential to determining the nature and progress of complaint handling and quick resolution.

The following are documentation requirements:

Required Documentation
Facility Name
Service Issue
Action(s) Taken

Sample Documentation

"Member indicates vehicle taken to City Garage #10 on 6/5/21 for fuel pump repair and is now experiencing the same issue. Manager of shop is refusing warranty service. Unable to r esolve."

Escalations - Best Practices

This article outlines BEST PRACTICES for the following:

- Service Delays- Live Calls
- Service Delays - Completed
- Battery Availability
- Warranty Provisions
- Service Limitations
- Call Count/Billing Disputes
- Damage Complaints (Initial Call)
- Reimbursement Callbacks
- Complaint Callbacks

Escalation Protocol

Action	Guidance

Apologize	Attempt to find a point of agreement
Acknowledge	Acknowledge their perceptions
Advise	Inform member of the actions taken

Suggested Phrasing

"My name is <Your Name>, Mr/Ms. Member, thank you for your patience. I understand you requested a supervisor regarding your service update. I apologize for the wait time. I know that not receiving updates is frustrating. May I place you on hold to contact the service provider for a service update?"

Service Delays

Scenario	Best Practice
Live Calls - ETA Update	Check SVO and/or FSL for ETA updates, contact ICS and/or dispatch for update
Live Calls - Reroute Pending (CHNT calls)	Attempt Reroute Protocol. If unsuccessful and for other ACE clubs, counsel member to expect update. Contact Dispatch for an update and/or request to update member.
Completed Calls	Apologize Allow Call If member paid COD instead offer reimbursement consideration For CHANT follow E scalation Protocol - Service Recovery

Click the link for instructions on how to apply payments if approving a credit for tow miles or locksmith credit.

AAA Battery Availability

Scenario	Best Practice
No BSP/Battery/Fitment	Offer jumpstart/tow
Battery Out of Stock - AAA Battery (warranty)	Request reroute, counsel about possible delay
Battery Out of Stock - New purchase requests	Offer jumpstart or tow

Warranty Provisions

Scenario	Provision
Tested 'Good'	Check history for recurring battery issues and a prior test result. Battery may be replaced under warranty if issue recurs or has previously failed the test. If BSP is unavailable, offer BSP/AAR referral.
Warranty Replacement - Full warranty	Warranty coverage from original battery transfers to replacement battery when replaced under full warranty (e.g., AAA battery purchased 8/2016 and replaced under full warranty in 9/2018, will be under prorated warranty in 8/2021)
Warranty Replacement - Prorated	Prorated replacement will have new warranty coverage (e.g., b attery purchased 8/2016, replaced under prorated warranty 9/2020, will be under full warranty in 8/2021)
Vehicle Purchased w/AAA Battery	Warranty is non-transferrable. Warranty offered to the original purchaser only Member/non-member MUST purchase a new battery at full cost.

Service Limitations

Category	Scenario	Coverage / Guidance
Commercial Vehicles	Commercial vehicle is also member's primary vehicle.	Send assessment
Commercial Vehicles	Private passenger vehicles used for commercial purposes (business logo or magnetic placards)	good for covered services.
Commercial Vehicles	Not Covered	Box trucks, Semi trucks, Taxis, Limousines (for hire), Stakebeds and Flatbeds
Street to Driveway		Not covered, unless vehicle became inoperable at its current location. If towed to location, driver may be unable to position it in driveway.
Expired Registration/Plates - CHANT		No Club restrictions
Expired Registration/Plates - ACMO		Valid plates re quired. The following are NOT COVERED: Expired/no plates; Impounded/held under legal restrictions

Expired Registration/Plates - East Central		Valid registration AND safety inspection sticker on the windshield REQUIRED.* * Grace Period - service will be provided to vehicles that would otherwise qualify for service but have expired stickers for up to 6-month. Vehicles with expirations of 6 or more months should be offered COD service
Unusual Vehicles	Golf Carts	Not Covered (see NEV/LSV). Although some cities allow travel on city streets, golf carts are not required to carry private passenger car registration and auto insurance.
Unusual Vehicles	NEV / LSV	While NEV/LSV are sometimes referred to as golf carts, the are covered under membership, as they are required to have vehicle registration and auto insurance to operate on public roadways.
Unusual Vehicles	Dune Buggy	Valid Plates - covered under membership No Plates - RV coverage required for to wing service
Unusual Vehicles	3-Wheeled Motorcycles	Covered for towing under RV/Motorcycle towing, subject to provisions of service

Call Count/ERS Billing Disputes

Issue	Best Practice
Call Count/ERS Billing Disputes	Review call history and allow call, if justified. Check ERS Receivables, if billable
Collections	if the call is in Collections, redirect member.
CAPRE Refund	If no service was received, payment should auto-void. In the event this does not occur, elevate to Leads.
Early ERS Use Fee (SDF) Refund	If no service was received, allow 5-7 business days for refund. Case should be monitored for ten (10) days. If not refunded in this period, elevate to MRR Leads.

Damage

Damage Complaint (Initial Report)

1. Offer ICS name, phone number and SVO number to the member for an attempt at first contact resolution with ICS.
2. Create CMS case for damage complaint
3. Document what/how the damage occurred
4. Include member's response to offer of first contact resolution

Complaint Callbacks

Callback Type	Best Practice
Non-Damage	Check CMS for any update Attempt to resolve with apology and allow, if applicable
Damage	CTS - Check case updates and counsel the member, if available. Update the Narrative, verify best contact number, time, and email.
Unassigned/Pending Assignment	Multiple call backs and/or case is not assigned: Send email to Leads requesting assignment. Include the number of callbacks.
ACE Damage	Case handler
RDMRR Level 3	Case manager

Battery Reimbursements (CHANT)

Status	Guidance
Battery	Check CMS for update
Pending assignment	advise member can take up to 4 weeks for processing
Documents	advise member of required documentation and provide case owner's contact info and CMS number.
Approved	advise member can take up to 14 business days for receipt

Standard Reimbursements

- Review notes in MRM for reimbursement status to ensure reimbursement has not been forwarded from Admin.
- Review the manual service order call details to see the date processed.

- ERS Admin will document in MRM Notes if the application is being forwarded to MRM.
- If there are no updates in MRM advise can take up to 4 weeks for processing.
- Offer phone number for Refunds dept.
- Member declines/has already left voicemails - Email ERS Admin on member's behalf to request an update.

Escalations - Internal Only

The MRR Lead Line should be reserved for escalations only, for support questions reach out to your team chat or if no response is received reach out to your direct supervisor.

Member Requests Escalation (MRR Manager/Supervisor)

Member Requests MRR Manager/Supervisor

When a member is requesting escalation to a member of the MRR management team, an immediate attempt to recover and achieve Service Recovery should be made, including de-escalation of the call.

When applicable, reach out via chat for Lead assistance or 2nd opinion (i.e., possible exception, etc.).

Create or update the CMS case before transferring the call. (Leave the case open)

Member Declines

Member is not satisfied with the second attempt to resolve

Step / Channel	Required Action
MRRLead line	Attempt warm transfer to a Lead by calling the MRRLead line via softphone. Do not use chat to check availability prior to transfer attempt. Dialing a lead's direct extension is no longer permitted. If lead is unavailable after 2 minutes, proceed to Step 2.
Offer Callback	Offer to have a manager follow up with member, when available. If declined, proceed to Step 4. Do not provide the leads direct extension.
Teams	Reach out via Teams and tag Hayley Kessworth, Maria Sanchez, Celeste Owens and Bobby Gonzalez, advise the lead line was not available and the member has declined to be called back.
Softphone - MRR Lead Line	*Do not call the MRR lead line for questions, utilize your team's chat or Ask Ace for all questions

Suggested Phrasing

“Please hold for a moment, and I will check if a manager is available.”

“My apologies, a manager is not currently available. I will have a manager follow up with you once available. Is this the best phone number to reach you?”

Member Accepts Callback Offer

Email Field	Content
To	[Leads]
CC	[Bobby Gonzalez, Maria Sanchez Celeste Owens and Hayley Kessworth]
Subject	[Lead Escalation, Member Name, SVO and CMS#]
Body	[Brief description and any actions taken]

Escalations - Research Requests

Note: Review relevant service orders before requesting recording and check for prior memberships before requesting archive searches.

Call Recordings

Role	Step / Requirement	Instructions
MRR Agent	1. Counsel the member	Counsel the member to expect follow-up upon a review of the recording or archive records.
MRR Agent	Suggested Scripting	Mr./Mrs. Member, in order to make an informed decision on your service request, I will need to review the (recoding/archives). Upon review, I will contact you immediately with my findings.”
MRR Agent	2. Request assistance	Request assistance via Teams Message
MRR Agent	3. Follow-up	Upon receipt of the information, follow-up with the member to review recording/archive call findings.
Leads	Support Requirement	Immediate, real-time support is required for Level 1 & 2 agents assisting with Help Desk calls.

Leads	1. Review	Upon receipt of the request from the MRR Level 1 or 2 agent, review the recording/archive call.
Leads	2. Review findings	Review your findings with MRR agent

Escalations - Service Recovery (CMS Processing)

Requests for compensation due to service delays in service charge must be approved by an ERS supervisor, manager or Member Relations.

Compensation Request Form

Complete the Compensation Request form to submit the request to MRR Admin to complete the paperwork for processing. The form is available on the MRR Hub under Tools.

Step	Required Entry / Action
1	Enter the Case ID number.
2	Enter the member's first and last name.
3	Enter the 16-digit membership number.
4	Select the length of the delay.
5	Select the Resolution Offer the member accepted, and for which membership term it should be applied to (current term or next term).

CMS Processing

Step	Required Action
1	Document in the Description or Feed (for callbacks) the length of the delay, offers attempted and accepted. "5hr svc delay, apologized , mbr declined Allow. Accepted comp Plus upgrade for next term."
2	Close the CMS case
3	Complete the Compensation Request form to submit the request to MRR Admin to complete the paperwork for processing.

Escalations Corporate (ACE)

Scenario: Member requests follow-up from Corporate or Executive representative (President, CEO, etc.).

Callback Offer Accepted

Timing / Option	Required Action
Weekdays - Email Option	Counsel the member they will receive a call back within 24 hours. Email the Corporate or Executive contact (see Club Contacts) with the following: Case number Membership number Phone number
Weekdays - Mail-in or Website Contact Option	Written complaints may be submitted via AAA.com or to the following: AAA Attn: Complaints PO Box 25001 Santa Ana CA 92799
Weekends	Counsel the member they will receive a call back within 48 hours

Callback Offer Declined

Step	Required Action
1	Offer phone contact or attempt a warm transfer (see chart below)
2	Email the Club contact immediately to advise of member contact.

CHNT/ACMO Club Contacts (Do not offer phone numbers)

Contact Type	Instructions / Contact
Corporate Contact (excludes AL)	Email Leads for assignment Subject: Corporate Contact CTS# Member Name CC MRR Mgmt: Bobby Gonzalez, Owens.Celeste, Maria Sanchez, Hayley Kessworth

Mapping to a shared mailbox in Outlook

Instructions for mapping to a shared mailbox in Outlook

Add a shared mailbox to Outlook
After your admin has added you as a member of a shared mailbox, close and then restart Outlook. The shared mailbox should automatically appear in your Folder pane in Outlook.
Shared mailbox displays in Folder List in Outlook

What if it didn't work?

- If your admin only recently added you to a shared mailbox, it may take a few minutes before the shared mailbox appears. Wait a bit and then close and restart Outlook again.
- If that didn't work, then manually add the shared mailbox to Outlook:
  - Open Outlook.
  - Select the File tab on the ribbon, then select Account Settings > Account Settings.
  - Select the Email tab.
  - Make sure the correct account is highlighted, then choose Change.
  - Choose More Settings > Advanced > Add.
  - Type the shared email address, such as info@contoso.com.
  - Choose OK > OK.
  - Choose Next > Finish > Close.

Send mail from the shared mailbox

- Open Outlook.
- Choose New Email.
- If you don't see the From field at the top of your message, choose Options > From.
- Click From in the message, and change to the shared email address. If you don't see your shared email address, choose Other email address and then type in the shared email address.
- Choose OK.

- Finish typing your message and then choose Send.

From now on when you want to send a message from your shared mailbox, the address will be available in your From drop down list. Whenever you send a message from your shared mailbox, your recipients will only see the shared email address in the message.

Reply to mail sent to the shared mailbox

- Open Outlook.
- Open the email message you want to reply to.
- In the From field at the top of your message, you should see the name of your shared mailbox. If you don't, choose the From dropdown box and choose your shared mailbox.
- Finish typing your message and then choose Send.

When you want to send a message from your shared mailbox, the address will be available in your From drop down list. Whenever you send a message from your shared mailbox, your recipients will only see the shared email address in the message.

Search on the shared mailbox

- Once a Shared Mailbox is added to Outlook, searching within it is similar to searching on a Primary Mailbox.
- Open Outlook.
- Select a folder within the Shared Mailbox on the Folder Panel on the left.
- Type the query in the Search Box on top of the Ribbon (Tool Bar).
- Begin the Search by pressing Enter or clicking on the Magnifier Button on the right of the Search Box.
- The Message List will return results based on the Search from the selected folder on the Shared Mailbox.

Suggested phrasing

Scenario	Suggested Scripting
Allow Call	*"Mr./ Mrs. Member, I ask that you give us another opportunity to service you again, as we appreciate your membership. To encourage you to provide us another chance and as a way of acknowledging your disappointment, I will be crediting this call back to your membership."*
Benefit of Allow	*"Mr./Mrs. Member, crediting this call back to your ERS membership will ensure that you will have another service call available when you need it. On average, members without an available service call pay a $100.00 service charge."*
Comp Upgrade Offer	*I really want your next experience with us to be better, so I can upgrade your next renewal to our (Plus/Premier) level to enhance your membership benefits. For example, (provide a Plus/Premier benefit)*
Comp Requested Requires Approval	*I understand this was a disappointing experience, I am elevating your request to/for (member's requested resolution) for further review and follow up with you.* Verify the member's phone number, *what would be the best time to reach you?*
Battery Complaint	*"I'm very sorry that our product has been so disappointing thus far, Mr./Mrs. Member. Please bear with me just a moment and I'll do everything I can to resolve this issue for you."*
(7) Day Waiting Period	*"Mr./Mrs. Member, the 7-day waiting period is mandatory wait period that cannot be waived. Our systems will not allow us to proceed by bypassing the guidelines and our providers are aware as well."*
Service Not Covered	*"I would like to ask a few questions to better understand the situation before making a decision about whether this service/vehicle would be covered."* *"I do apologize (service you are requesting) is not covered under the membership, and I know it is frustrating to learn the service limitations right when you need the service. I can provide the name and phone of the independent contractor who could provide the service at their commercial rates"*
Membership Appreciation	*"Mr./Mrs. Member, I would like to take a moment to say thank you for your [#] years of [benefit level] membership. We appreciate your continued loyalty to our club and hope to regain your trust."*
Service Delay	*I'm so sorry you are waiting longer than we had anticipated and especially without updates to at least let you know what is happening. I know as (#) year member this was not the service you expected when you called for help, and it is not up to our standards.* *"Please give me a moment to research your situation to see what we can do to resolve your concern."*

Service Failure ICS	*"I'm so sorry for the service you experienced today Mr./ Mrs. Member. That's very disappointing! I'm documenting the details of the situation so that I can elevate it to my management team for corrective action with the station."* *or* *I'm so sorry you did not receive the service from us, I know as (#) year member this was not what you expected when you called for help and not how we wanted this experience to go. Did you have to pay out of pocket for service instead?* *I'm glad you got the help you needed, I'm so sorry though that we were not the ones to assist.*
Service Failure Agent	*"I apologize for the service you experienced today Mr./ Mrs. Member. I'm documenting the details of the situation so that I can elevate it to my management team for corrective action with the agent."*
Complaint Follow-Up (non-damage)	*"Mr./Mrs. Member, I apologize that no one has contacted you regarding your complaint. Please bear with me a moment to research this matter to see how I can assist."*
Damage (Follow Up)	*"Mr./Ms. Member, I have escalated your case to a case manager. They will be in contact with you back as soon as possible."*
Damage (Initial Report)	*The independent contractor is responsible for any damage they caused. I can provide you the name and phone number of the contract station so they can assist you with next steps from here. I am also entering a formal complaint to elevate this issue and ensure it is resolved.*
Service Charge	*"Mr./Mrs. Member, I understand your frustration. The ERS membership covers (4) service requests per member per membership year. Any additional service request would incur a $90.00 service charge. Let us discuss what other options we have at this time."*
Offensive Language	*"Mr./Ms. Member, I understand you are very upset. Please allow me the opportunity to do everything I can to help the situation."*
Closing the Call	*"Thank you for taking the time to bring these issues to my attention. I really appreciate the opportunity to improve and will ensure these issues are addressed. Thank you for your membership and I hope you have a great day."*

Escalations - Battery

This article outlines the following Battery Escalation protocols:

Labor Fees

Non-Standard Installation: Refers to the estimated installation time per the battery manufacturer's guidelines. Any installation over 30 minutes is considered non-standard and service provider may charge for labor.

Triage: Did the BSP Provider inform the member of the labor fee before the battery was installed?

Scenario	Process
Yes - BSP Provider informed the member of the additional labor fee prior to install and the member is disputing the costs.	Verify via the Battery guide if the member's vehicle is listed as Standard or Non - Standard Install If the vehicle is listed as Standard, verify with the BSP provider the reason for the additional fees and document their response. Offer: Jumpstart or Tow service to the member if they are still not agreeable to pay for the labor fee
No - Member was not informed of additional labor fee until after the battery was installed. Member is refusing to pay.	Contact the BSP Provider to advise of the member concern of not being provided labor costs prior to conducting work, and if they can remove the labor fee for service recovery. If resolution could not be met with above option, pay the station for the additional labor fee to resolve live matter. Notify MRR Management for follow up with the station CSR Management.
No - Member was not informed of additional labor fee until after the battery was installed. Member paid and is requesting refund.	Contact the BSP Provider to advise of the member concern of not being provided labor costs prior to conducting work, and if they would be willing to refund the member. If resolution could not be met with above option, create a CMS case for follow up and provide the member the MRR email address to submit a copy of their receipt.

Purchase Date Disputes

Scenario	Process
Battery test failed - Facility refusing to replace the AAA battery for free due to no warranty paperwork/receipt.	Obtain “Original Purchase Date" via Membership Research Tool, MRM Portal, or FSL Seek assistance from Lead if info not readily available. Inform station/AAA dispatch to replace battery for free if purchase date is within 3 years. Inform station/AAA dispatch to replace under pro-rated if purchase date is outside 3 years.

Incorrect Quote

Receiver Quoted Erroneous Battery Price.

Triage: Did the BSP provider inform the member of the correct battery costs upon arrival and before install?

Scenario	Process
Yes: Member quoted wrong battery price; however, BSP provider informed member of correct battery costs upon arrival and before install.	Reimbursement or additional payments will not be allocated to cover the extra expenses as the BSP Provider corrected the error upon arrival. If member refuses to pay full costs, offer jump start only or tow service instead. If there was a delay associated with the call, please allow for service recovery. If applicable, send agent and/or Facility error via email
No: Member quoted wrong battery price and BSP provider did not confirm costs before install	Send request to Leads to confirm call center agent error. If error confirmed, please apply station payment in FSL to cover the additional costs. Error may have occurred due to using wrong AAA Battery Price Link Error may have occurred due to wrong vehicle info provided by agent

Member Passed Away

Scenario	Process
Member passed away and family member (non-member) is calling for battery warranty service.	Family member would need to pay COD for a BSP driver to go to them, or they would need to go to a BSP shop for warranty service. Exception can be made for warranty to be honored for family member due to original purchaser passing away.
Member passed away, a family member is calling for warranty service and is also a member.	Service can be sent out under membership. Exception would need to be documented on the call for warranty service to be honored for the family member of the member that passed away.
Member (or original purchaser of AAA battery) sold or gifted vehicle to someone else	Warranty is not transferable, no exception.

Member Not Present

Scenario	Process
Member not present but vehicle is registered to member and is the original purchaser.	Standard exception guidelines apply for BSP mobile service under membership when 3rd party will be present to receive service on member's behalf If battery fails and is under warranty, Battery can be replaced for under warranty with 3rd party present.
If 3rd party was charged in error for new battery that should have been replaced under warranty:	Inform 3rd party to keep receipt. Create a CMS case for reimbursement review.

Incorrect Installation & Damage

Triage: Is the AAA Battery under Full or Prorated Warranty?

Scenario	Process
Full Warranty - Incorrect Install by previous BSP Provider; Warranty is in the Free Replacement period; Passing test but has signs of damage; Facility is refusing to replace	Instruct the station to replace the battery for free Inform them that a station battery payment adjustment will be entered for them. Process adjustment via the HD App Forward error to MRR Management for review with CSR.
Pro Rated Warranty - Incorrect Install by previous BSP Provider; Warranty is in the Prorated Replacement period; Passing test but	Instruct the station to replace the battery for free Inform them that a station battery payment adjustment will be entered for them.

has signs of damage; Facility is refusing to replace	Process adjustment via HD App Forward error to MRR Management for review with CSR.

AAA Battery Not Available

Triage: Is the request to replace a AAA battery under warranty or for a new purchase of a AAA battery?

Scenario	Process Type	Process
AAA Battery Out of Stock; AAA Battery No Longer Carried; No BSP in the Area	Warranty Replacement	Out of Stock/ No BSP: attempt a reroute. Reroute Failed/ No Longer Carried: Offer to jump start the member's vehicle or offer a tow instead. If a tow is needed and requires tow mileage beyond member's Classic benefit, exception can be made to authorize for Plus service and allow call. Notify member to purchase a 3rd party battery & keep receive for reimbursement review. Issue a CMS case for MRR Level 2 to follow up reimbursement.
AAA Battery Out of Stock; AAA Battery No Longer Carried; No BSP in the Area	New Purchase	Offer to jump start the member's vehicle or offer a tow. Do not inform the member that they can submit for battery reimbursement as this is not covered under membership. If member is requesting reimbursement of a 3rd party battery due to a AAA agent leading them to believe that a refund would be processed - issue a CMS case for review and follow up
Not in Battery Program (RV, motorcycles etc.)	Warranty Replacement	Inform member it cannot be replaced under warranty - not in the program Offer to jump start or tow under membership. Inform member to purchase a 3rd party replacement battery. Issue a CMS case for review and follow-up. Member not agreeable: Notify MRR Management of situation to obtain OK to replace battery. If approval received from MRR Management, Inform the station to replace the battery and enter a battery payment adjustment in MRR Database
Not in Battery Program (RV, motorcycles etc.)	New Purchase	Advised the member RV/Motorcycles are not in the program and offer jumpstart or tow. Service Provider already installed AAA battery and then advised there is no warranty: enter note in MRM Portal with future approval to replace under warranty if needed.

Defective – Passed Test

Scenario	Process
Battery is passing battery test but service provider has verified battery has a manufacturer defect (leaking acid, battery post broken, or a hole/warping of battery case) and station is refusing to replace under warranty.	Notify the station of OK to replace battery under warranty due to manufacturer defect Process a battery payment adjustment to the station via the HD App

3rd Party Test - Failed

Scenario	Process
Battery is testing "Failed" at the member's repair shop but BSP Provider is refusing to replace under warranty due to BSP Technician's test showing "Good."	Have BSP Technician verify failed test result with the repair shop. If 3rd party test shows failed, inform the BSP Provider to replace battery under warranty and that a AAA battery payment adjustment will be entered for them Process station battery payment adjustment via HD App

Test Results

Interstate Result	Club Assist Result	Action
Good	Good- Recharge	Jumpstart provided.
Good - Recheck soon		Jumpstart provided - the member informed battery health is declining. Battery may fail under extreme weather conditions.
Charge and Retest or Analysis Unavailable		AAA battery under warranty will be replaced. ACMO and Tidewater excluded
Replace Battery		AAA battery under warranty will be replaced

ICS Refuses Adjustment

Scenario	Process
ICS refuses to replace battery under warranty after making approved exception due to non-payment issues for adjustment.	A. Offer to apply the payment for the battery to the work order instead of the adjustment form B. If ICS still refuses to replace under warranty attempt to reroute.

Escalations - Non-ERS Employees

Identifying Non ERS Employees

Obtain the agent's employee ID and enter in the Helpline Tracker.

If the Center Name does not indicate 'ERS', they are the employee is non-ERS.

Non-ERS Employee	ERS Employee
MSC	ERS Dispatch
ISS	ERS Receiving
DSU	

Triaging the Call

Question	Answer	Required Action
1. Is the member waiting for service?	Yes	Accept the transfer and handle according to established protocols.
1. Is the member waiting for service?	No	Proceed to question 2.
2. Is the issue regarding damage to a vehicle or property?	Yes	Accept the transfer and handle according to established protocols.
2. Is the issue regarding damage to a vehicle or property?	No	Redirect the caller to submit the complaint via email and provide the information needed to submit the complaint.

Note

Member specifically requests a supervisor or has called back multiple times (ERS-related issues only)

If the agent indicates the member requested a supervisor or has called back multiple times, accept the transfer.

This action ONLY applies when the member declines a callback on an ERS-related, non-live, non-damage issue.

If supervisor is requested for a non-ERS related issue, redirect the agent to their management team .

Redirecting Complaints

Escalating ERS Issues for Non-ERS Employees

Provide the agent the following link via Teams:

Non-ERS Employee Elevation Instructions

Suggested Scripting

" I am sending you the link to the instructions on escalating ERS Issues. Please follow these instructions to forward the complaint to our department. We will review to ensure the complaint is directed to the appropriate party and the member receives the necessary follow up."

Accepting Complaints Escalations from Non-ERS Employees

Advise the Non-ERS agent to transfer the member, and provide the non-ERS agent the link with instructions, for future use:

https://clubhub.aceclubnet.com/products_services/ers/escalating_ers_issues_for_noners_employees/ers_escalation_non_ers_employee/ers_complaints

Suggested Scripting

" Thank you for the information. I am sending you the link to the instructions on escalating non-live E RS Issues if you ever need it for the future. Please connect the member and I will help them from here."

Escalations - Service Recovery (CHANT) Matrix

Call Status

When a call is escalated due to a service delay, the Member Relations representative will assume ownership for the following protocol through completion:

Call Status	Required Action
Spotted (FSL)*	Follow FSL Reroute Protocol Contact the ACE Dispatc h and request an update. Document the update, apologize, and counsel the member.
Not in Decline or Spot	Contact the station assigned for a service update.* Document the update, apologize, and counsel the member. *If the station indicates the call was previously declined, document the dispatcher's comments and continue with the protocol.
Apology Accepted	If no further action is requested/required by Club policy, document the interaction on the service request (e.g., "mbr accepted service update and apology").
Apology Refused	If the member is not amenable to an apology and service update, the Service Recovery protocol below applies.

Service Recovery Protocol*

* Offers must be made in the order they appear below

Offer	Service Recovery Attempt	Service Recovery Offer / Processing	Suggested Phrasing
Offer 1	Apologize to the member. If member is not agreeable	Offer to Allow the call. If accepted, immediately process the Allow, per existing protocol. If the member declines the Allow, proceed to Offer 2.	"I'm so sorry the service is taking longer than expected, I will ensure this is reviewed internally as we want to make sure we are setting and meeting your expectations" "I have credited the call to make sure this is not counted as one of your services for the year so we can have opportunity for a better service if you need us."
Offer 2	Member has declined the Allow (excludes memberships in Unpaid or Service Charge status)	Offer Reimbursement* and document the offer on the service order. If the member accepts: Counsel the member to retain the invoice/receipt Request/confirm the member's email address and send a reimbursement form. Cancel the service request. *If the member declines reimbursement offer, proceed to Offer 3 *This protocol is intended for members seeking COD service and does not apply to AAA Battery Warranty scenarios	"I am so sorry for the delay. Our drivers are doing their best to get to our members as soon as they can. The options we can offer at this time are to wait for our driver to get to your call and provide an ETA, or you can seek your own service and I can email a reimbursement consideration form to you at this time."
Offer 3*	Document the Allow and Reimbursement declines	Service Delays 2+ hours only - continue with Membership Upgrade offer protocol. Offer upgrade to the next membership level for the remaining membership term (instructions below). * For existing Premier members, offer discount on Premier Primary portion of the membership renewal dues. If accepted, the MRR handling the call should process the upgrade as follows: Create/update CMS case Include in Description– "Service Recovery - Accepted Upgrade To [Plus/Premier]" MRR will submit the Comp Request form for MRR Admin to process the upgrade. CMS Case - close the CMS case. Document all actions taken to resolve and include which offer the member accepted. *Offer applies to delays of 2 or more hours beyond ETA	

Determining Discount

In MRM from the Membership menu, select View Membership History

Select the latest payment processed from the Transaction History.

The History Detail will detail the “Premier Primary” amount, which represents the discount amount (example below).

Unpaid Memberships

A complimentary upgrade is only available if membership is renewed. Counsel the member to renew to avoid lapse in membership. Account w ill be credited upon processing of the complimentary membershi p.

Upgrade / Discount Scenario	Offer Language / Key Points	Accepted Processing
Premier Comp Premier Primary dues upon RENEWAL - (Next Term)	" I know this experience was not what you expected from us and not up to the standards we set for ourselves, as a gesture of our commitment to do better I can comp the Premier Primary dues on the account which would give you a discount towards your next renewal " Key Points to Communicate: Premier Primary Portion Next Renewal Discount	
Plus/Clas sic Upgrade for CURRENT membership year - 4 or more months from next renewal date (renewed recently)	7-day wait applies once upgrade is processed " I know this experience was not what you expected from us and not up to the standards we set for ourselves, and we do want another opportunity to service you better. I can upgrade your membership from (Classic/Plus) to (Plus/Premier) which would (provide a relevant benefit for the upgraded level) for the remainder of this membership year"	Member Accepts: " I will notify our membership team; there is a 7-day waiting period once they process the upgrade. You should expect the benefits to be effective in about 3 weeks."
Plus/Classic Upgrade upon RENEWAL - (Next Term) - 0-3 months from next renewal date (will be in renewal shortly)	7-day wait applies from the renewal date " I know this experience was not what you expected from us and not up to the standards we set for ourselves, and we do want another opportunity to service you better. I can upgrade your membership from (Classic/Plus) to (Plus/Premier) which would (provide a relevant benefit for the upgraded level) for your next membership year"	Member Accepts: " I will notify our membership team; there is a 7-day waiting peri od so the benefits will go into effect 7 days after your renewal date ."

Email Unavailable

1. Documentation Required
2. Confirm the mailing address
3. Submit form request via MRR database
    a. Documentation is required in all scenarios
    b. Comments MUST include the offer, member’s response, and whether reimbursement form was sent.
    c. If an email address is unavailable, follow the protocol for mail-in requests.

Reimbursement Option Declined

If the member elects not to seek private service, document the offer and the declination.

1. Confirm service is still needed.

*Service requests may only be cancelled by member request.

Hot Call Status Updates

When a member calls back due to a service delay on a Hot Call, the following protocol is required of all Member Relations representatives:

Call Status	Required Action
CHECK CALL STATUS - Decline or Spot	SQM - Contact the designated SQM line in Softphone (fig. 2) 877-824-5939). If unavailable, continue to Step 3. Dispatch Management Team - (818-562-8535)
Not in Decline or Spot	ICS Contact - Contac t the station assigned for a service update. Counsel Member - Document the update, apologize, and counsel the member.

Important Notes

- The 7-Day mandatory waiting period applies to Plus/Premier offers.
- Reimbursements are subject to the Provisions of Service outlined in the Member Guide.

- Uncovered services are ineligible for reimbursement consideration.
- Service Charge/Unpaid memberships are not eligible for reimbursement.
- Upgrades from Classic to Plus or from Plus to Premier must be submitted for the entire household, rather than just the affected member. Failure to do so will result in the household being billed for the upgrade.
- Appointment Calls should be avoided in severe delay scenarios.
- Requests for Expedited ETAs (Hot Calls excluded) – Do not contact Dispatch for faster ETAs in lieu of following the updated protocol. An apology should be offered, and the member advised that, due to the high demand for road service in the area, the best available ETA has been offered.

Escalations - Service Recovery Matrix

This article is intended to outline the following service recovery protocols:

Live Requests (Service Needed)

Step / Situation	Required Action
Step 1 - Check Service Status	The first priority is to get service to he member. Check FSL for ETA updates. If necessary, contact the provider and/or dispatch to obtain an ETA.
Dissatisfied with Current ETA	Do not contact Dispatch for faster ETAs in lieu of following the protocol (Hot Calls excluded). Advise member that, due to the high demand for road service in the area, the best available ETA has been offered. Use Additional Service Recovery Options below as applicable.
Call Declined	For CA, HI, NM, TX calls, attempt Reroute Protocol. If unsuccessful, or for another ACE club, counsel member to expect update and contact dispatch to check for update.
Step 2 - Determine Service Recovery Severity	Based on findings and the member's response, determine the level of Service Recovery Severity below and follow the protocol.

Service Recovery Severity

Time Parameters

- The length of the delay is define as the difference between the Original PTA and the Updated ETA or on location time.

Severity	Time Parameter
Minor	2 Hours or Less
Moderate	2 - 4 H ours
Significant	4 - 6 Hours
Severe	6+ Hours and Service Failure

Minor - Service Delays up to 2 hours

Offer	Details	Suggested Phrasing
Offer 1	Apology and Reassurance	"I'm sorry you are waiting longer than we anticipated, I will ensure this is reviewed and addressed with the parties involved to make sure our service is arriving in a timely manner."
Offer 2	Apology, Reassurance, and Allow Call	"I'm sorry you are waiting longer than we anticipated, I will ensure this is reviewed and addressed with the parties involved to make sure our service is arriving in a timely manner. I have credited this service call so it will not be counted as one of your service calls for the membership year."

Exclusions

The scenarios below are limited to Offer 1 and Offer 2. They are excluded from Service Recovery offers below.

- Monthly Memberships
- Misconduct on File (Check MRM Notes/Alerts for prior comps)
- Excessive ERS Usage (More than 75% in last 2 years)

Moderate - Service Delays of 2 to 4 hours

When a scenario qualifies as Moderate (2-4 hours), Offer 1 followed by Offer 2 will apply, as outlined above. If the member declines, AND the membership is not described in the exclusions above, the protocol below applies.

Recovery Option	Details
Free Upgrade / Comp	Offer upgrade to next level of membership at Renewal (current term, by request only). Mandatory 7-day waiting period applies. Classic upgrade to Plus

	Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp
Out-of-Pocket Expense Credit	If the me mber incurred out-of-pocket expenses, offer a credit, based on service type: Tow, Locksmith, and Battery Purchases 2+ ho urs = $20 3 hours = $25 4 hours = $30 F uel = $10

Significant - Service Delays of 4 to 6 hours

When a scenario qualifies as Sig nificant (4-6 hours), Offer 1 followed by Offer 2 will apply, as outlined above. If the member declines, AND the membership is not described in the exclusions above, the protocol below applies.

Recovery Option	Details
Free Upgrade / Comp	Offer upgrade to next level of membership at Renewal (current term, by request only). Mandatory 7-day waiting period applies. Classic upgrade to Plus Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp Comp Classic dues for impacted member for next membership term
Out-of-Pocket Expense Credit	Tow, Locksmith, and Battery Purchases 4+ hours = up to $35 5 hours = up to $40 6 hours = $45 Fuel = $10

Severe - Service Delays of 6+ hours

When a scenario qualifies as Severe (6+ hours), Offer 1 followed by Offer 2 will apply, as outlined above. If the member declines, AND the membership is not described in the exclusions above, the protocol below applies.

Recovery Option	Details
Free Upgrade / Comp	Offer upgrade to next level of membership at Renew al (current term, by request only). Mandatory 7-day waiting period applies. Classic upgrade to Plus Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp Comp Classic dues for impacted member (next membership term) Comp Classic dues for impacted member and comp upgrade for next membership term
Out-of-Pocket Expense Credit	Tow, Locksmith, and Battery Purchases 6+ hours = $50 maximum Fuel = $10

Completed Service (No Service Needed)

If the member is no longer in need of service, first determine if they received service under their membership, paid out of pocket for service or used other means.

Minor - Service Delays up to 2 hours

Offer	Details	Suggested Phrasing
Offer 1	Apology and Reassurance	"I'm sorry you are waiting longer than we anticipated, I will ensure this is reviewed and addressed with the parties involved to make sure our service is arriving in a timely manner."
Offer 2	Apology, Reassurance, and Allow Call	"I'm sorry you are waiting longer than we anticipated, I will ensure this is reviewed and addressed with the parties involved to make sure our service is arriving in a timely manner. I have credited this service call so it will not be counted as one of your service calls for the membership year."

Exclusions

- Monthly Memberships
- Misconduct on File (Check MRM Notes/Alerts for prior comps)
- Excessive ERS Usage (More than 75% in last 2 years)

Severity	Free Upgrade / Comp Classic	Out-of-Pocket Expense Credit
Moderate - Service Delays of 2 to 4 hours	Offer upgrade to next level of membership at Renewal (current term, by request only). Mandatory 7-	NOT APPLICABLE

	day waiting period ap plies. Classic upgrade to Plus Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp	
Significant - Service Delays of 4 to 6 hours	Offer upgrade to next level of membership at Renewal (current term, by request only). Mandatory 7-day waiting period appli es. Classic upgrade to Plus Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp Comp Classic dues for impacted member for next membership term	NOT APPLICABLE
Severe - Service Delays of 6+ hours	Offer upgrade to next level of membership at Renewal (current term, by request only). Mandatory 7-day waiting period applies. Classic upgrade to Plus Plus upgrade to Premier Premier - If current level is Premier, offer Primary dues comp Comp Classic dues for impacted member (next membership term) Comp Classic dues for impacted member and comp upgrade for next membership term	NOT APPLICABLE

Suggested Scripting

Offer	Scripting
Plus Offer Upgrade Renewal	"We would like to have another opportunity to service you in the future. For your next renewal I can upgrade your membership to the Plus level, which includes enhanced benefits, such as 100 miles of towing"
Premier Offer Upgrade Renewal	"We would like to have another opportunity to service you in the future. For your next renewal I can upgrade your membership to the Premier level, which includes additional benefits, such as a complimentary rental with a tow"
Primary Premier Dues Offer - Renewal	"We would like to have another opportunity to service you in the future. For your next renewal, I can discount the Primary Premier dues"
Offers Declined	"I can understand your frustration, and I appreciate you taking the time to share your experience with me. I will elevate your complaint for further consideration and have a case handler contact you to discuss a resolution. May I have the best phone number and time to reach you?"

Documentation must include the length of delay, checklist items verified, all offers attempted, benefit level of upgrade, and whether current or next term.

Service Recovery Offer Processing

Outcome	Documentation / Routing
Offer Accepted	Mbr upset with 3hr svc delay, not satisfied with apology and allow and accepts the following, as applicable: Classic to Plus accepted Plus to Premier accepted Premier Primary Dues C omp accepted Case Routing: Route case to RD MRR Processing
Offer Declined	Mbr upset with 3hr svc delay, not satisfied with apology and allow. Member requests free year Member declines Upgrade Member declines Primary Premier Comp Case Routing: Route case to RD MRR

Fleet Vehicle - Personal Membership

AAA employees who need roadside assistance for a company-owned (AAA-owned) vehicle can receive courtesy service, even if they don't have a personal membership or don't wish to use their personal membership.

- Eligible vehicles include: - AAA mail trucks - Vans - Tow trucks - Passenger cars - Vehicles may or may not have an AAA logo
- The vehicle registration must be in the name of: - Auto Club - ACE - Specific AAA Club (Not in the individual employee's name)
- Service benefits: - Vehicle can be towed to: - Authorized repair location - Employee's residence - AAA business office or branch location - No charges for services provided by Contracted Service Providers - Not limited to Classic benefits - Covers services like towing miles, fuel, and locksmith service at no cost
- The service is provided as a courtesy at no cost to the AAA employee. In RADAR, select **No Membership > Fleet Vehicle**

Counted Calls - Personal Membership

- Allow Fleet Calls and document "**Fleet**" as the reason for this allowance, accompanied by a description of the fleet vehicle, such as **"Fleet vehicle: Ford Fusion."** This provision also applies to billable calls.

FSL Reroute Protocol (CHNT)

This article outlines the Reroute protocol for Help Desk escalations in CHNT (AL excluded):

Identifying Declined Calls

- When a work order is declined a Case will be created and a note added to the Feed.
- The station should also document the reason for the decline in the Feed (e.g., flatbed required, not available).
- If the reason for the decline is not noted in the Feed:
- Contact the provider and document the reason for the decline.

Declining a Call

- If a station declines a call when attempting to obtain an ETA:
- Decline the call on the Work Order and begin working the reroute.

Working the Reroute

Step	Required Action / Documentation
1	Take ownership of the call by documenting in the FSL Feed. “MRR working call.”
2	Review or obtain the reason for the decline.
3	Contact the station for the decline reason if not documented in the feed. "Flat bed required, not available ICS 123456 adv FB not available, broke down"
4	Use the Reroute Protocol by entering the service needed and breakdown location. Tip: Select the service before entering the breakdown location.
5	Co ntact the stations* to determine if and/or when they would be available to run the call. *MRR reroute attempts will be limited to two (2) stations
5 - Suggested Scripting	“Hello this [Your Name] with AAA Member Relations. I would really appreciate your help with a reroute to service a member who has been waiting. Do you have a flatbed available?”
5 - Probe	“ What is the soonest you would have the equipment available?”
6	Document the following in the Feed for each station contacted: ICS number Contract Station Employee (CSE) name Outcome - If ICS accepted or not and any additional information they provided.

Reroute Accepted

- Obtain an ETA and document on the Work order feed the “CSE/ETA and KMI our MBR”.
- Below are directions on how to use the Reroute Button for Technology and Non-Technology stations to reroute the call if a station accepts.

Reroute Failed

- If contact with the two (2) stations results in an unsuccessful reroute:

Suggested Phrasing

- "Thank you for your patience Mr. Member, I contacted two alternate providers in the immediate area they are unable to assist at this time. I am elevating your service request to our dispatch team and will have them continue to search for an alternate provider. In the meantime, if you are able to secure service on your own, you may submit your invoice for reimbursement consideration, I can email you the application just in case you decide that option."
- Offer COD with reimbursement consideration.

Follow the Dispatch Contact Protocol to elevate failed reroute to dispatch.

Station Type	Definition / Capability

Technology Station	Stations can see all the information on the work orders and have the capability to reassign drivers, add charges, clear, and decline calls if they cannot run them. Use this for processing reroutes for all markets except for Landline stations.
Landline Station (Non-Technology)	These stations cannot see any information on the service order. We must dispatch all information to them over landline. They do not have the capability to decline, add charges or see any comments or information on the calls.
TowBook Station	TowBooks is a dispatching software that many stations use. FSL sends the call to the station and they transfer it to their TowBooks system. The station name will have TB in the title if they use TowBooks.

Technology Station

Step	Instructions
1	Go to the Service Appointments Breakdown and at the top right corner select the " Reroute" button.
2	Next the Reroute will expand to a box. Type in the 6-digit station's number under "Enter a Facility ID" area. Then click on "Next." This will now show the call to the station who accepted the call.
3	While still in the Service Appointment (Break Down) screen, select the "Launch Filter Gannt" button from the top right corner.
4	The Gantt will open, and your call will be on the left hand of screen. Drag and drop it at the end of the driver the station advised to assign the call to.
Note	If the station takes copy of it and informs you that they will move it a driver and to leave in spot, inform them that you will need to schedule it to driver for now to ensure they receive the call. They are still be able to reassign to an alternate driver if needed.
Schedule Button Alternative	If use of the "Schedule "button does not work, then next option is to use "candidates" button. Next select the highest number that is in green. So, it says 100/100, then select that one. Once selected, click on the "Schedule " button.

Landline Station (Non-Technology)

Step	Instructions
1	Go to the Service Appointments Breakdown and at the top right corner select the " Reroute" button.
2	Next the Reroute will expand to a box. Type in the 6-digit station's number under "Enter a Facility ID" area. Then click on "Next." This will now show the call to the station who accepted the call.
3	While still in the Service appointment Break down screen, go back to the top right corner of the screen and select the "Launch Filter Gannt" button
4	The Gantt will open, and the call will be on the left hand of screen. Drag and drop it to the Landline service resource to the right of the red line (current time). The Work Order status will now update on its own to "In progress." Next to go the Service Appointment breakdown and select "Dispatched" on the status bar, then "Mark stage as complete."

TowBook Station

Step	Instructions
1	Go to the Service Appointments Breakdown and at the top right corner select the " Reroute" button.
2	Next the Reroute will expand to a box. Type in the 6-digit station's number under "Enter a Facility ID" area. Then click on "Next." This will now show the call to the station who accepted the call.
3	The call does not need to be assigned to a specific driver just confirm the station has the call and leave in Spot.
4	Confirm the station sees the call.
5	If not then Re Spot the call to the Commercial queue (TX 636200 and CA 166200), then back to the tow book station confirm they can see the call.
6	If they still cannot see the call, then issue an A call, assign back to that station and CNC the original call.

Documentation Type	Required Documentation
FSL Documentation	"MRR no longer working call, message sent to Dispatch Teams chat for further assistance."
Message to Dispatch	"Live Member Escalation: [Work Order], [Date]"
Scenario	Please review and provide a response as quickly as possible to help prevent the possibility of a Social Media or Executive Escalation. Mbr waiting since (Call Received Time), per MRR protocol contacted two stations to attempt reroute unsuccessfully.

Troubleshooting

Issue	Resolution Steps
Launch Filtered Gantt Error	1. Select the Field Service tab 2. Change the date on the right-hand side to the current date
No Service Appointments in Gantt	1. Change the date to the current date
Reroute Tool Error	1. Ensure the most up to date link is being used 2. Change the service type before entering the address

Facility/Damage Contact List

Please email the MRR Admin staff if you come across a facility's missing or incorrect contact information: @ **MemRelComm@ace.aaa.com**

FSL 02 - Work Order Layout

This article outlines the definition of the Work Order functionality:

Details Tab

Field / Area	Definition
Call ID	Service order number
Status Bar	Current status of the service
Details Tab	Order details
Contact	Me mber information
Service Territory	Service Provider
PTA	Original arrival estimate at time of request
Service Appointment	Progress of the service request

Feed Tab

The Feed tab contains a utomated comments, and allows AAA dispatch and the service provider to add updates or additional information to the Work Order .

Adding to the Feed

Step	Instructions
1	To add your documentation, click into Share an Update at the top of the page
2	Add documentation in the space provided.
3	Beneath the text box change the To field from ACE-FSL Only to All With Access to ensure the service provider can view the updated information.
4	Select the Share button to post your upd ate.

Vehicle Pictures

If service is declined due to size, condition, or vehicle, photos may be uploaded to Feed to support their decision.

Service Appointments (Service Orders)

Roadside assi stance requests in FSL are called Service Appointments.

The Service Appointment link is located on the right-hand side of the page.

Towing requests will have TWO service appointments:

Appointment	Description
First Appointment	breakdown location
Second Appointment	breakdown location to tow destination.

Tip: Press CTRL and select link to open the Service Appointment in a new tab.

The service appointment Status Bar will reflect the current stage of the service request.

ETA Updates

Status	Guidance
Spotted	The I CS may have declined the call, check the Feed for update s
Enroute	If available a map will show the current location of the driver.
Scheduled or Dispatched	The Scheduled Start time will provide the current estimate. Before providing the time be sure to adjust to the member's local time.

Declined Calls

In the event the assigned service provider is unable to run the call they will decline the work order, and dispatch will work a reroute.

When a work order is declined a Case will be created and a note added to the Feed.

DO NOT issue an A-call if the work order has been declined. Dispatch will work the reroute on the FSL Work Order.

Refreshing FSL

Follow the steps below to refresh the Work Order to check for updated statuses and/or additional updates to the Feed.

Step	Instructions
1	Select the arrow on the tab for the Work Order you want to refresh.
2	From the drop down select Refresh Tab to refresh the Work Order.

Applying Payments

When approving an exception to credit fees (tow miles, fuel or locksmith charges) per the MRR Resolution Matrix, payment must be made to the service provider.

Follow the steps below to applying payments for service orders dispatched in FSL.

The service provider must be notified by phone of the exception and amount approved before entering payment in FSL.

Step	Instructions
1	On the Work Order, go to the Service Items and select New.

2	In the Product field, enter the following: Miscellaneous (MA– Miscellaneous Amount)
3	Enter Cost/Quantity amount.
4	Click Save.

Updating a Benefit Level

Step	Instructions
1	Select the Service Appointment
2	Scroll down to Membership Level
3	Select the Pencil icon
4	Select the correct membership level from the dropdown.
5	Select Save

FSL/RADAR - Searching Calls

Membership Number

System / Search Type	Instructions
FSL Work Orders	Search for work order using the 16-digit membership number. From the Search results select the work order you want to view.
Claim Calls	Change the first three digits of the membership number to 429
Tip	Add the date to narrow the results. Enter the date (MM/DD/YYYY) followed by the 16 digit membership number
Radar Cases	Enter the 16-digit membership number in the search field. Select the member's name under Contacts Select Cases or view all for more cases

Phone Number

Search for the work order or case using the 7-digit telephone number.

Phone number can be formatted with or without dashes but must include the area code.

PA Calls

If unable to find the work order by the membership number or phone number.

Check MRR - PA Calls Look Up list for the work order.

See: Work Order Screen

Greetings by Call Type

The Help Desk receives four (4) incoming call types, which determine how the call is answered. Case Managers and on occasion Help Desk agents will need to make outbound calls to members, contractors and other 3 rd parties. This article covers how to answer the various Help Desk call types as well as outbound calls.

HD Call Types

Member Relations receives four (4) incoming call types, which determine how the call is answered.

GCX Queue Name	Purpose / Caller Type
ERS_MRR_ASK_ME	Questions and overrides
ERS_MRR_ESCALATION	Call center agent transfers member for assistance
ERS_MRR_BRANCH	Branch employee and direct member calls
ERS_MRR_BATTERY	Direct member calls

Determining the Queue

The queue can be identified in the left-hand call panel under queue name

Greeting: Ask Me

Situation	Greeting / Guidance
Standard Greeting	“Member Relations this (your name), may I have your employee number and case number? Thank you, are you calling with a question?”
Escalation Caller on Ask Me Line	“ I can help with your escalation, g oing forward please remember to contact the escalation line when needing to transfer to ensure you are routed to correct MRR.”
Override Caller	“I can help with the override, p lease remember to request your override via the SRT Overrides Team Channel for a prompt response”
Required Actions	Identify yourself and the department reached Obtain the caller’s information and point of reference, case number, work order, membership number. Determine if the caller reached the correct line

	If the correct line was reach proceed with the Ask Ace protocol If the incorrect line was reached counsel the caller to contact the correct line in the future and proceed with following the procedure for the correct call type.

Greeting: Escalation

Note – Escalations have a two-part greeting, first to the transferring agent and then to the member after the transfer is complete.

Agent Greeting

Situation	Greeting / Guidance
Initial Greeting	"Member Relations this (your name), may I have your employee number and case number? Thank you, are you calling with an escalation?"
Concern Question	"What is the member's concern?"
Question Caller on Escalation Line	"I can with your question, g oing forward please remember to contact the question line when needing guidance to ensure you are routed to correct MRR."
Required Actions	Identify yourself and the department reached Obtain the caller's information and point of reference, case number, work order, membership number. Determine if the caller reached the correct line If the incorrect line was reached counsel the caller to contact the correct line in the future and proceed with following the procedure for the correct call type.

Member Greeting

Greeting	Required Actions
"Thank you for holding my name is [your name]. I am a supervisor in Member Relations for Roadside Service. I understand you requested to speak with me regarding [brief recap] is that correct."	Identify yourself and the department reached Acknowledge the hold and thank the member for their patience Recap the issue the agent described then pause and allow the member to confirm/add/express in their own words the issue they are calling about

Greeting Branch and Battery

The Branch queue could be a Branch employee calling on the member's behalf or a member calling in directly to follow up on a CMS case.

The Battery queue could be a member calling in directly in response to a Battery Reimbursement or an Apology email.

Greeting	Required Actions
"AAA Member Relations for Roadside Service, this your name how can I help you?"	Identify yourself and the department reached Be prepared to speak with an employee or a member

Outbound Calls

Call Type	Greeting / Script	Required Actions
HD Outbound	"Hello, this is [name], a supervisor calling on behalf of the Member Relations Department at AAA. Please hold for a recorded message. I am following up with you regarding your recent roadside service experience [brief recap]."	Identify yourself and where you are calling from Prepare the recipient for the outbound recording. If you are making an outbound call and do not receive the outbound recording elevate to management immediately Recap the reason for the call then pause and allow the member to confirm
Case Management Outbound	"Hello, my name is [name], a case manager calling on behalf of the Member Relations Department at AAA. Please hold for a recorded message. I am following up with you regarding your recent roadside service experience [complaint brief recap]."	Identify yourself and where you are calling from Prepare the recipient for the outbound recording. If you are making an outbound call and do not receive the outbound recording elevate to management immediately Recap the reason for the call then pause and allow the member to confirm
Member Voicemails	"Hello, my name is [name]. I am a [title] calling on behalf of the Member Relations Department at AAA. I attempted to reach you to discuss your recent roadside service experience. If you would like to speak further regarding this matter, you may reach me at my direct line at [phone number]. I will be out of	Identify yourself and where you are calling from Provide your contact information and time you can be reached Provide the Department phone number as an alternative for immediate contact

	the office [date(s)]. If this matter requires immediate attention, please contact the Member Relations Department at 1 (866) 841-0149. Thank you."	

Handling Difficult Conversations

1. Empathize and Reassure

"I apologize for the frustrating experience you are having. I would love to help you. Let me [review your membership, ask questions, check the call notes, etc.] to see what I can do assist you."

2. Did the process work?

Response	Next Step
Yes	Document in IRAS
No	Determine the result: Is the member frustrated or abusive?

3. Result: Is the member . . .

Result	Definition / Examples
Frustrated?	Expressions of anger or discontent about the situation. • Venting/criticizing policies • Dissatisfied about resolution offered • Irritation with treatment by drivers or Club employees.
Abusive?	Inappropriate Language Directed at Representative • Threats of harm or violence • Excessive profanity • Cultural or race-related insults • Derogatory statements directed at service representative

FRUSTRATED PATH

4. Clarify & Reassure

"I understand your frustration, I would be happy to help you with this situation. I will ensure this is reviewed with management to prevent this from happening in the future."

5. Did the process work?

Response	Next Step
Yes	Document in IRAS
No	Escalate to Help Desk

ABUSIVE PATH

4. Is the member's language directed at you?

Response	Next Step
No	Clarify & Reassure, then follow the frustrated path.
Yes	Attempt to Redirect Conversation

5. Attempt to Redirect Conversation

"I do understand your frustration and would love the opportunity to see what I can do to help you."

6. Did the process work?

Response	Next Step
Yes	Document in IRAS
No	Escalate to Help Desk

ESCALATION

Escalate to Help Desk

"I am sorry that I am unable to assist you further. May I place you on a brief hold while I locate a supervisor to assist you?"

Insurance Tows & Impound Charges

Fees need to be paid

It is imperative to get the vehicle out of storage asap, the longer the vehicle stays the higher the fees

1. Apologize to the member
2. Contact the service provider obtain the reason the vehicle towed to their yard and a break-down of the charges
   a. If the charges include towing attempt to negotiate with the station if they will accept a svo to remove the towing charges for the member
   b. If the station is not agreeable contact CSR to assist

3. Create a case and route to RDMRR
4. Counsel the member to retain their receipt and submit for review
    a. Provide RD MRR email if member is ready to send the receipt
5. Thank the member for reporting the incident

Member already paid for fees

Member has already paid the service provider for the tow and storage costs

1. Apologize to the member
2. Create a case and route to RDMRR
3. Counsel the member to retain their receipt and submit for review
    a. Provide RD MRR email if member is ready to send the receipt
4. Thank the member for reporting the incident

Tracking in the Case Manager

1. MRR Name = your name
2. Member Name = Tracking
3. Member Number = 102
4. Case ID = SVO under which svc was supposed to be rendered
5. Received Date = date of above svo
6. Main Issues = CNC - Storage Charges (needs to be added)
7. ICS = service provider charging storage fees
8. Status = Routed to CSR

Common Scenarios

<table>
<tr><th colspan="5"></th></tr>
<tr><th colspan="5">Common Scenarios</th></tr>
<tr><td colspan="2">▪ Vehicle towed “under insurance” instead of membership*</td><td colspan="2">▪ Unpaid overmileage due to ICS*</td><td>▪ Unable to drop vehicle at destination; ICS unable to reach member*</td></tr>
<tr><td colspan="5">*To prevent additional fees, it is imperative to get the vehicle out of storage asap</td></tr>
<tr><th>Status</th><th colspan="4">Protocol</th></tr>
<tr><td>Fees Due
Member has not paid towing and storage fees</td><td colspan="4">1. Apologize
2. Contact ICS to determine why the vehicle was towed to their yard. If charges include towing,
1. Offer to create a SVO to eliminate charges for the member. If declined,
2. Contact CSR to assist
3. Create a case and route to RDMRR
4. Counsel the member to retain their receipt and submit for review
5. Provide RD MRR email and thank member for reporting the incident</td></tr>
<tr><td>Fees Paid
Member paid towing and storage fees; reimbursement requested</td><td colspan="4">1. Apologize to the member
2. Create a case and route to RDMRR
3. Counsel the member to retain their receipt and submit for review
a. Provide RD MRR email if member is ready to send the receipt
4. Thank the member for reporting the incident</td></tr>

Jumpstart Damage Mitigation (Toyota/Lexus Hybrid)

Subject: Toyota|Lexus Hybrid Jump Start Damage Claims

Effective: Immediately

Impact: Auto Club of Southern California, AAA Hawaii, AAA Alabama, AAA New Mexico, AAA Texas, AAA Northern New England, AAA East Central, Auto Club of Missouri, AAA Tidewater Virginia

Overview

As a result of an increase in jump start damage claims involving Toyota and Lexus hybrid vehicles, AAA is taking steps to bring awareness to these concerns and reduce potential claims. Upon investigating, reports include damage to the:

• **Fuse Block** o The positive jump start terminal for Toyota and Lexus hybrids is located in the fuse block.

• **Engine Control Unit (ECU)** o Technicians are incorrectly connecting negative jump start lead to ECU mounting hardware rather than attaching to appropriate vehicle ground.

• **Vehicle/Engine Electrical** o Distance between battery positive jump start terminal and negative ground location may reach up to 40 inches, making it difficult to connect with smaller battery jump start booster packs with shorter leads.

• **Fusible Link for 12v Battery** o Technicians are incorrectly connecting negative jump start lead to 12v positive terminal in the fuse block causing the fusible link to blow.

AAA, Inc. has produced a 6-minute video detailing the finding of the investigation explaining what is happening during these jump starts. The video provides service recommendations to mitigate the risk of damaging these vehicles during a jump. Providers are encouraged to have all service technicians watch the video and adopt these recommendations into their procedures for all Toyota and Lexus hybrid jump starts. By following the steps outlined in the video, the risk of damage can be mitigated.

Where to View

• Toyota|Lexus Hybrid Jump Start Recommendations

• Roadside Service Information (RSI)

• Technician Tablets via the Service Advisories icon

Best Practice Reminders

• Ask the member prior to service if anything was done to the vehicle prior to arrival

• Perform a full visual check and note any existing damage

• Alert the Club to any suspected damage that exists prior to the technician's arrival

If you have any questions regarding these procedures, please contact the Contract Station Instruction team at CSI-LMSHelpdesk@ace.aaa.com.

Locating (Police Agency) PA calls (RADAR)

In the search box, enter "PUBLIC_AGENCY". Narrow the search by specifying the date ("public_agency 02/08/2024")noname_1707753096947

noname_1707754384380

When the date is unknown, select "Work Orders" or "Cases" from the Search results menu on the left to view the list of Public_Agency calls.

Letters

New item | New Entry and Allow

Letter / Form Type	Instructions
Apology Only Letter	1. Select New Entry above. 2. Fill out the first 5 fields on the new entry form. 3. Select Letter in "ComType." 4. Enter the requested address information. 5. Select Apology in Letter Type. 6. Select Save. 7. Update CMS as applicable.
Apology Allow Letter	1. Select New Entry above. 2. Fill out the first 5 fields on the new entry form. 3. Select Letter in "ComType." 4. Enter the requested address information. 5. Select Apology Allow in Letter Type. 6. Select Save. 7. Update CMS as applicable.
Contact Letter	1. Select New Entry above. 2. Fill out the first 5 fields on the new entry form. 3. Select Letter in "ComType." 4. Enter the requested address information. 5. Select Contact in Letter Type. 6. Select Save. 7. Update CMS as applicable.
Case Management Reimbursement Letter	(L2-L3 - Battery/Pro-Rate/COD) 1. Select New Entry above. 2. Fill out the first 5 fields on the new entry form. 3. Select Letter in "ComType." 4. Enter the requested address information. 5. Select Payment in Letter Type.

	6. Select Save. 7. Update CMS as applicable.

Mail Battery Reimbursement Form	1. Select New Entry above. 2. Fill out the first 5 fields on the new entry form. 3. Select Letter in "ComType." 4. Enter the requested address information. 5. Select Battery Reimbursement Form in Letter Type. 6. Select Save. 7. Update CMS as applicable.

Mailbox Set Up - Dispatch & ERS RD MRR Group

Adding a Mailbox

Step	Instructions
1	Click on File (top left corner) in Outlook
2	Open Account Settings
3	Double-click on your email address
4	Click on More Settings
5	Select Advanced tab. Add the appropriate mailboxes: BurbankRD TexasRD ERS RD MRR Group
6	Select Ok and apply the change.

Removing an email from ERS RD MRR group

Upon completion of the email, select Follow Up flag and Mark Complete option to indicate protocol was followed.

Misapplied Payments

Membership Payments Misapplied to ERS Payment

Field / Action	Details
Email	ERSAdministration@ace.aaa.com
Subject	Misapplied Payment – [Member Name and Membership]
Include	screen shot, if available, and payment details
Escalation	Forward agent error to MRR management team
Example	Membership Dues payment showing in ERS Receivables.

ERS Payments Misapplied to Membership Dues

Field / Action	Details
Email	MBSPERSCancellations@ace.aaa.com
Subject	Misapplied Payment – [Member Name and Membership]
Include	screen shot, if available, and payment details
Escalation	Forward agent error to MRR management team
Example	ERS service charge misapplied towards Membership Dues in error.
MRM Note	Make a note in the MRM system indicating that the member has requested to transfer funds, etc.

Early ERS Usage Fee Payment Misapplied to ERS

Field / Action	Details
Email	ERSAdministration@aaa-calif.com

Subject	Misapplied Payment – [Member Name and Membership]
Include	screen shot, if available, and payment details
Escalation	Forward agent error to MRR management team
Example	Early ERS Usage Fee charge misapplied towards Membership Dues in error.

3. Copy To Desktop, Open link - Right click Copy and paste to desktop do not drag to desktop
4. Open MRR Database - Click on desktop icon to open:

Forms

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Reimbursement Forms

1. Click on 'Reimbursement Forms'
2. Click on: 'Complimentary Membership Request' for comps and PAF
    - 'General and Battery Reimbursements' for standard and battery refunds
3. Complimentary Membership Request Form: Fill out sections: A, B, C, D, and E.
    - For section C: Include the reason for comp, date/service order #, and ICS if applicable, and if a deduct was done.
    - Example: Service Recovery, 5/3/24 SVO 12345, ICS 123, no deduct
    - For section E: Check each product and member to be credited.
4. Save Form: Click on View Form, Click Print and Save as PDF
5. Save as "Comp Form - Case ID - Member Name"
6. Payment Approval Form (PAF):
7. Fill out sections: A, B, C, and Exceptions.
8. For section C: Include the reason for payment, date/service order #, and ICS if applicable.
9. Example: Damage, 5/3/24 SVO 12345, ICS 123, ICS Deduct
10. For Exception area: Fill out completely and select appropriate cost center from drop down list.
11. Save Form
12. Click on View Form
13. Click Print and Save as PDF
14. Save as "PAF - Case ID - Member Name"
15. Battery Reimbursement Form
16. For Members: Ensure to fill out all fields in the application.
17. Comments: Include if this reimbursement is under 'free replacement period' or 'pro-rated period'. If pro-rated, include calculation.
18. Office Use Only Section: Fill out all fields and ensue to click on which market the payment will be applied to.
19. For Non-Members: Fill out a PAF instead of a Battery Reimbursement Form.
20. Save Form
21. Click on View Form
22. Click Print and Save as PDF
23. Save as "PAF - Case ID - Member Name"

Standard Reimbursement Form

To be used for processing reimbursement of services covered under membership.

1. Application Section: Fill out section in its entirety. In comments, include reason for reimbursement.
   For Office Use: Ensure to not if the call is to be allowed, reimbursement type, and account information.
   Ensure to document # of prior calls, if in service charge, receipt, covered, and reimbursement amounts.
2. Save Form
3. Click on View Form
4. Click Print and Save as PDF
5. Save as "PAF - Case ID - Member Name"
6. Exit
7. Click on 'Save and Close Form'

Proceed to next case.

Member Communication Site

Member Communication Site - ClubHub

MRM - Change Event Functions

Allowing Calls - Allow Eligibility

Check current and prior membership terms, if two calls have already been allowed for the impacted member for service recovery* further service recovery allows are not permitted. *Excludes battery and validated call disputes

Premier calls require management approval (No Exceptions)

Review Receivables prior to any Call Allow action, as they may require additional processing.

1. Right click in the Total Events for All Members section and select view ERS Receivables or if available click on the Billable/Unpaid link.
   - If the account is in Collections, member should be referred to Collections and no further action taken.

Allowing in MRM

1. Review call in ERS View Event Detail by clicking the SVO# link, or right-click and select View Event Detail.
2. Select Change Event
3. Select Change Call Status in the drop-down menu
4. Change Event Status to NOT COUNTED
5. Change Reason to ALLOWED
6. Select the appropriate reason for the allow in Allowed Reason drop down menu
7. Enter supporting documentation in Change Reason
8. Select Save.

Examples: "1+ hours service delay" or "Continuation of service"

Verifying Allow

- Refresh - After allowing the call, MRM should be routinely refreshed by selecting any one of the arrow circles that appears in the header, to verify the allow was successful.
- Billable Calls - If allowing a billable call, the billable link should disappear after MRM is refreshed.

Updating Special Payments

1. Select Update Special payments
2. In the Call Information section, change the Miles Towed to the Classic level coverage (e.g., 7 miles for a CA Classic member).
3. Enter supporting documentation in Change Reason (e.g., "Allow error correction")
4. Select Save. Refresh MRM to verify the erroneous bill was removed.

Reassessing Unpaid Call Bill - Membership Renewed

The following protocol applies when the Member is being billed for a service rendered in the grace period after the membership has been removed.

1. Select "Change Event"
2. Select "Change Call Status" as though you were going to allow the call.
3. Leave the Event Status as Counted. It is not necessary to allow the call.
4. Document Reassess for the Change Reason

5. Refresh MRM to verify if reassessing the call successfully removed the bill. The ERS PMT Due flag will not immediately disappear. ERS Receivables should reflect a $0 Balance.

Reinstating Cancelled Membership

The billable call must be allowed to reinstate a membership cancelled due to an erroneous ERS bill.

- If the bill was due to a mileage error the billable call must be allowed first, then recounted and miles adjusted after the membership has reinstated.

MRM Overrides

What is an Override in MRM?

An override is added to a call when it is assumed that the member DID not pay directly for service over their benefit. An override is also used to determine if a call needs a CAPRE or EUF invoice. Updating an override will create or cancel an invoice (bill) as applicable.

Override Field Options

- Blank (no override)
- SO - Supervisor Override
- SF - Early Usage Fee (Non-CA)
- SE - CAPRE (CA Only)

Blank

1. **Removing an override and leaving the override field blank will remove cancel and invoice and/or remove spam (Tow/Fuel/Locksmith etc) as applicable**

Service Charge: If membership is in service charge removing the override will remove the invoice for spam but the service charge invoice will remain

Unpaid Card: If membership is unpaid removing the override will the remove the invoice for spam for Classic members only

EUF/CAPRE: Removing the override will remove the invoice.

Creating an Invoice (Billable Call)

Scenario: member needs another service after a service charge call already being rendered and receivables shows -$100 and won't allow another payment to be taken.

1. Confirm that the call is not a continuation of service, service was rendered, another call is needed, and the member should be charged.
2. Open the service charge call and select **Change Event**
3. Select Change Call Details at the bottom of the page
4. Under the Call Information section click on the drop down for Override Type and select SO-Supervisor Override
5. Document the Change Reason then Save
6. Return to the ERS Tab and then refresh and the call will show "billable"

MRR Callout Guidelines

Overview

The MRR Callout Guidelines are applicable to all Member Relations Representatives and are intended to outline reporting requirements for the following attendance scenarios:

- Absences
- Tardies
- FMLA
- Early departures
- ACE Attendance Line

Member Relations Representatives are required to contact the ACE Attendance Line (800-731-6538 - 24/7) in the following scenarios:

- Absence: You will be absent from a scheduled shift
- Late/Tardy : You will be late for your scheduled shift
- Early Departure: You must leave prior to the end of your scheduled shift

When contacting the ACE Attendance Line, the following information must be provided:

- Employee Number
- First and Last Name
- Reason: ADA, FMLA, Bereavement, Jury Duty, Personal, Sick, etc.
- Do you have paid time available (Float/Flex, Sick, Vacation, etc.): Yes or No

https://clubhub.aceclubnet.com/rooms/ers_process_improvement/mrr_knowledgebase/new_wiki/quality_assurance_guide

Queue Processing - CHANT Call Center & AAA Compliment

Route or Close Matrix

Complaint Type	Action	Documentation	Resolution Code
Agent error caused 2-hour or more delay; requesting compensation	Route	Length of the delay in the Comments field of the Task	NA
Agent error caused 2-hour or greater delay only requesting call allowed.	Apology Allow	Length of the delay and action taken in the Description field of the Product Request	Email/Letter - Apology Allow
Agent error caused less than 2-hour delay with minor service-related concerns	Apology Allow	Length of the delay and action taken in the Description field of the Product Request	Email/Letter - Apology Allow
ADA/Hot Calls - agent did not follow ADA or Hot Call Protocol	Route	Findings in the Comments field of the Task	NA
Injury/Critical Incidents	Route and complete CI Transfer form	CI form submitted in the Comments field of the Task. Reference Critical Incidents for further handling	NA
Agent misinformed cost miles, fuel, locksmith, RV and member requests reimbursement.	Route	Findings from the work order in the Comments field of the Task	NA
Minor issues with customer service. Includes requests to speak to upper management.	Apology	Finding and action taken in the Description field of the Product Request	Email/Letter - Apology
Agent disconnected/hung up on member	Route	Findings in the Comments field of the Task	NA
Compliment for AAA employee	Compliment Form	Compliment Form submitted	Email - No Response

Length of the delay = On Location Time - PTA

CMS Processing

Step	Action	Instructions

1	Change the Status Bar to In Progress	This is the step that removes the case from the queue to prevent another MRR from picking up your case
2	Search for Duplicate Cases	Check Related Cases in CMS Check CMS for a duplicate as well
3	Review / Correct Case Details	Review the Details, Work Order and MRM as needed to determine the agent error/behavior, impact and action required Add or update the Work Order under Service Call Details if missing or incorrect. If incorrect selection was made update the Category, Subcategory, Key Type
4	Take the necessary action and route or close the case	Use any forms needed on the Case Management page to close the case.
5	Exit the CMS Case	Close any associated tabs

Routing

Action	Instructions
Log the Task	From the Feed select New CMS Task Subject - Internal Dept Follow Up Comment - Document any findings and the reason for routing the case.
Update the Subject	From Details update the Subject Field Document "RC" in the Subject Field for a Level 2 MRR to pick up the case
Status Bar - New	Move the Status Bar back to New

Closing

Action	Instructions
Take the necessary action to close the case	Use any forms needed on the Case Management page to close the case.
Case Owner Details - Case Owner	Change the case owner to your name
Product Request	Select Product Request then New, either from Related or the Quick Links Sidebar Status: Closed - No Approval Required Resolution Code: Select the most appropriate resolution for the action taken and contact type. Description: Document the actions taken to resolve Save Note: The Product Request will open in a new tab, close the tab once completed
Milestones	Mark all Milestones completed First Response to CMS Case Close CMS Case Note: Milestones must be completed before changing the status of the case
Status Bar	Change the Status Bar to Closed Note: All action must be completed before closing case. Closed cases cannot be reopened.

Elevating Agent Errors

Agent errors/behavior issues are reported via email to your Supervisor for review and include the following:
Agent's name and employee number
Supervisor
Service order number and date
Brief description of the error/behavior

Queue Processing - CHANT Membership

Call Disputes

Before allowing or updating a call in MRM check for any outstanding ERS bill.

Complaint Type	Action	Documentation	Resolution Code
Member disputes call due to a valid service or AAA battery issue Multiple service calls used for AAA battery under warranty Continuation of service from battery to tow Duplicate service calls Move call placed through Verint Express/Chatbot to correct role	Allow the call & send Apology Allow Email Letter Submit EFT Request form, if applicable.	Product Request: Findings that validate reason for allowing the call	Email/Letter: Apology Allow
Member's dispute is not found to be valid Service calls for different vehicles Different breakdown	Send the Apology Email/Letter	Product Request: Findings that validate reason for not allowing the call	Email/Letter: Apology

locations at different times of days AAA battery not available for first purchase Call placed through agent & unable to verify placed under incorrect role			
Member disputes call as fraudulent ERS activity member did not request service, member does not recall, member did not authorize service	Enter FRAUD in the Subject of the case. This will route the case for Lvl 2 MRR review and follow up	Task: Any additional findings to assist with fraud dispute	NA
Membership to Claims Tow Member stating tow should have been under claims not membership.	Send email for call to be adjusted. Do not allow the call, additional actions are needed.	Product Request: Email sent to review Claims Tow	Referred to 3rd Party.
Wawanesa customer is disputing a service call.	Enter RC in the Subject to route to Level 2 MRR	Task: Wawanesa call dispute	NA

Route or Close Matrix: Billable Call Disputes

Complaint Type	Action	Documentation	Resolution Code
Member disputes an ERS bill (not in Collections) due to a validated system error, ICS/agent error or service issue.	Make the necessary correction & send the Apology Email/Letter.	Findings that validate reason for adjusting the call	Email/Letter: Apology Allow
Member disputes an ERS bill (not in Collections) due to system error, ICS/agent error that cannot be validated or bill is found to be valid.	Route the case for further review and member contact	Findings that validate reason for further review	NA
Member disputes an ERS bill or billable call in Collections See above if member is disputing bill due to fraudulent service call (not requested, not authorized, etc.)	Add MRM note to refer member to Collections (888) 897-4902.	Collections status and instructions to refer member to Collections.	Referred to 3rd Party

Route or Close Matrix: Payments

Complaint Type	Action	Documentation	Resolution Code
Member requests refund for payment that auto voided.	Send Apology Allow	Service Charge payment voided on date of service	Email/Letter - Apology Allow
Member is due refund for payment that did not auto void. Cancelled/NSR Call Duplicate Payments Warranty Replacements	Submit an EFT Request and send Apology Allow	EFT request submitted	Email/Letter - Apology Allow
Member requests refund for valid payment.	Send Apology	Findings that support why payment is valid.	Email/Letter - Apology
Member requested receipt for payment after payment processing was completed.	Proof of Payment Letters	Proof of Payment request submitted	Email/Letter - Payment Confirmation

Non-ERS Issues

Complaint Type	Action	CMS Documentation	Resolution Code
Changes to existing Membership or Insurance Policy (upgrades, add-ons, improper cancellation etc. insurance payment or change of address)	Forward complaint to Edgar Galvez via email.	Membership complaint forwarded to MSC for review and follow-up.	OM-Other Membership
Sale of New Membership DSU Member Contact Requests ONLY	Forward complaint to the appropriate contact below. CA/TX - Jonrique Siguenza	Membership sales complaint forwarded to DSU for review and follow-up.	OM-Other Membership

Sale of New Insurance (CA)	Forward complaint to Jonrique Siguenza via email.	Insurance sales complaint forwarded to FSU for review and follow-up.	OM-Other Membership
Car Buying Service	Forward complaint to cbscomplaintfollowup@aaa-calif.com	Car buying complaint forwarded to CBS for review and follow-up.	OM-Other Membership

CMS Processing

Step	Action	Instructions
1	Change the Status Bar to In Progress	This is the step that removes the case from the queue to prevent another MRR from picking up your case
2	Search for Duplicate Cases	Check Related Cases in CMS Check CMS for a duplicate as well
3	Review Details / Correct Case Information	Review the Details, Work Order and MRM as needed to determine the reason for the dispute or the status of the payment and action required Add or update the Work Order under Service Call Details if missing or incorrect. If incorrect selection was made update the Category, Subcategory, Key Type
4	Take the necessary action and route or close the case	Use any forms needed on the Case Management page to close the case.
5	Exit the CMS Case	Close any associated tabs

Routing

Action	Instructions
Log the Task	From the Feed select New CMS Task Subject - Internal Dept Follow Up Comment - Document any findings and the reason for routing the case.
Update the Subject	From Details update the Subject Field Document "RC" or "Fraud" as applicable in the Subject Field for a Level 2 MRR to pick up the case
Status Bar - New	Move the Status Bar back to New

Closing

Action	Instructions
Take the necessary action to close the case	Use any forms needed on the Case Management page to close the case. Use the Route or Close matrix below to help determine the action needed.
Case Owner Details - Case Owner	Change the case owner to your name
Product Request	Select Product Request then New, either from Related or the Quick Links Sidebar Status: Closed - No Approval Required Resolution Code: Select the most appropriate resolution for the action taken and contact type. Description: Document the actions taken to resolve Save Note: The Product Request will open in a new tab, close the tab once completed
Milestones	Mark all Milestones completed First Response to CMS Case Close CMS Case Note: Milestones must be completed before changing the status of the case
Status Bar	Change the Status Bar to Closed Note: All action must be completed before closing case. Closed cases cannot be reopened.

Queue Processing - CHANT SIU

Affiliate club and non-members should not be reported to SIU

Member Physical or Verbal Abuse

Instructions for reporting member physical or verbal abuse towards service provider are as follows:

Field / Action	Details
Send Email	ciemailbox@ace.aaa.com, with CC to Chuck Bowen and Julio Vasquez
Subject Line	Type of misconduct being referred (e.g., "Verbal Misconduct – Service order # and Date")
Email Body	Should include the member's name, membership #, service order #, date, and details regarding the Verbal or Physical Misconduct. Please include any available attachments from the Service Order/CMS Case.
Important	*MRR agents are not to Manually enter member Verbal/Physical Misconduct cases found in CMS directly into Toolbox (SIU Form).

Issue Type	Action	Documentation	Resolution Code

Member disputing service calls as fraud.	Change subject to Fraud and complete Task with findings	Any findings and action taken	NA
Member used vulgar, harassing, racist, threatening or offensive language towards agent or service provider	Submit SIU form - Verbal Misconduct	Any additional finding and SIU request submitted	Referred to 3rd party
Verified report of more than one membership. Only one membership is allowed per person.	Submit SIU form - Duplicate Memberships	Any additional finding and SIU request submitted	Referred to 3rd party
Unable to verify or find duplicate membership.	Do not submit to SIU; close case	Unable to verify duplicate membership	Policy Explanation
Requests for non-covered service (e.g. piggyback tows, street-sweeping, etc)	Submit SIU form - Non-Emergency Vehicle Transport	Any additional finding and SIU request submitted	Referred to 3rd party
Requests in conjunction with a business operation (e.g. employee or customer vehicles)	Submit SIU form - Business/For-Profit Use	Any additional finding and SIU request submitted	Referred to 3rd party
Multiple fuel calls to residence, and multiple vehicles or long-distance tows	Submit SIU form - Excessive Use of ERS Membership	Any additional finding and SIU request submitted	Referred to 3rd party
Failure to pay for fuel, mileage charges or ERS service charges.	Submit SIU form - Non-Payment of ERS Membership or Services	Any additional finding and SIU request submitted	Referred to 3rd party
Member requests for SIU Letter to be resent	Email Membership Processing to request resending of letter	Document action taken	Referred to 3rd party

CMS Processing

Step	Action	Instructions
1	Change the Status Bar to In Progress	This is the step that removes the case from the queue to prevent another MRR from picking up your case
2	Search for Duplicate Cases	Check Related Cases in CMS Check CMS for a duplicate as well
3	Review / Correct Case Information	Review the Details, Work Order and MRM as needed to determine if report needs to be elevated to SIU Add or update the Work Order under Service Call Details if missing or incorrect. If incorrect selection was made update the Category, Subcategory, Key Type
4	Take the necessary action and route or close the case	Use any forms needed on the Case Management page to close the case or see below for how to submit to SIU.
5	Exit the CMS Case	Close any associated tabs

Routing

Action	Instructions
Log the Task	From the Feed select New CMS Task Subject - Internal Dept Follow Up Comment - Document any findings and the reason for routing the case.
Update the Subject	From Details update the Subject Field Document "RC" in the Subject Field for a Level 2 MRR to pick up the case
Status Bar - New	Move the Status Bar back to New

Closing

Action	Instructions
Take the necessary action to close the case	Use any forms needed on the Case Management page to close the case.
Case Owner Details - Case Owner	Change the case owner to your name

Product Request	Select Product Request then New, either from Related or the Quick Links Sidebar Status: Closed - No Approval Required Resolution Code: Select the most appropriate resolution for the action taken and contact type. Description: Document the actions taken to resolve Save Note: The Product Request will open in a new tab, close the tab once completed

Qualtrics Survey - Processing

Accessing Qualtrics

Step	Instructions
1	Log in to Qualtrics: Username : [Email address] Password : [Your password]
2	From the menu in the upper left corner select Tickets
3	Filter the Tickets to ACSC ERS Ticket Team
4	Filter the Priority: High (only)
5	Sort the list by oldest Created date.

Processing Tickets

Step	Instructions
1	Change the Status to In Progress
2	Assign the Survey to yourself by entering your name in the Owner or Team field.
3	Check for an existing CMS case if applicable, and review documentation. If the member was contacted and the case is closed, the Survey Ticket may be closed. Based on the case status and case notes, the following protocol applies:
4	Review the survey. Determine the overall Satisfaction rating and Comments to determine the action needed.
5	Document the actions taken Documentation in both Qualtrics and CMS (when a case is created) is required
6	Close the survey Update the Main Reason and Issue Category. Change status to Closed.

Qualtrics - Opting Out of Surveys (MRM)

Qualtrics Survey Opt-Outs

Step	Instructions
Step 1	1. Launch > Maintain Customer /Member 2. Name and Contact Information will appear.
Step 2	Scroll to and select Communication Preference
Step 3	Click the (+) sign next to Member Service Feedback
Step 4	Select the type of survey the member declined. Check the legend on the right to confirm selections.

Qualtrics - Compensation Approval

Requesting Approval

If the member is seeking compensation beyond the authority permitted by the MRR Service Recovery Matrix, the following protocol applies:

Member Counseling

Advise the member you will have their request reviewed and will call back with more information.
Document the offers declined in CMS and Qualtrics along with any additional information the member provided about their service experience and their requested resolution.

Sample Script

"We would like to have another opportunity to serve you better. I will have your request reviewed and follow up with you when I have more information. We appreciate the time you've taken to share you feedback and allowing us to the opportunity to improve."

Sample Documentation

"Member contacted, states they were not kept informed during delay, and agent seemed indifferent during callback. Apologized and offered to allow last two calls. Member declined and requested dues refunded. Sending email to management for service recovery consult."

3. Send an email to the Approval mailbox using the following guidelines (see sample email below):

Field	Required Content
Mailbox	MRRCaseApproval @aaa-calif.com
Subject Line	Approval – Member's First and Last Name – CTS#
Email Body	Brief description of service issue(s) Resolution offers declined and requested compensation Years of membership - other products - benefit level Complaint history, if applicable (past 3 years) Your recommendation Membership History Detail* – showing membership breakdown (see image below)

*To obtain the Membership History Detail, please follow the steps below.

Step	Instructions
Step 1	Select > Launch > Membership > View Membership History
Step 2	Select the most recent Payment Received at the top of Membership History
Step 3	A snippet of the History Detail should be included in all compensation requests submitted to management for review.

Sample Email

Subject: Approval - CMS #- Member's Name

Member: John Smith

Mbrshp Type: Classic with Auto policy

Years of Mbrshp: 15

Complaint History: None

Findings: Member upset with service failure, waited 5 hours for service

Member's son came from an hour away to change tire after finishing work

Apology was decline, no svc calls to allow and declined comp upgrade offer

Member request full comp membership

Recommendation: Could we offer full comp mbrshp for next renewal?

Sample Response

Processing Approvals

Response time for compensation requests is 24-48 hours. While awaiting a response, the survey ticket should remain In Progress and the CMS case open.

When a response is received, the following protocol applies:

Step	Required Action / Documentation
Step 1	Document the approval in CMS and Qualtrics. Upload the approval email to the Docs section of the CMS case as a PDF. Sample D ocumentation: "Received approval to comp Classic dues for next renewal."
St ep 2	Call the member back and offer the approved resolution. Sample Script: "Thank you, Mr. Member for your patience while we reviewed your request. Due to the experience on (date of service) we will be covering the Classic level dues for your upcoming renewal, which will be $53 off the renewal."
Step 3 - Member agrees	Document the member agreed to resolution in CMS and Qualtrics. Close the Qualt rics ticket with the appropriate Issue Category and Root Cause. Sample Documentation: "Called member, agreeable to approved resolution."
Step 3 - Member not agreeable	If the member is not agreeable to the approved resolution, instruct them to submit their appeal in writing to the address below. Document the actions taken in CMS and Qualtrics and close both the case and survey. Appeal Instructions Sample Documentation: "Called member back, member declined approved resolution. Provided member the address to submit appeal and closing case."
Step 4	In CMS case, add an Incident. On the General tab change the Category to MRR Level 2 Processing Change the Key Type to B6- Compensation/Refund.
Step 5	1. RD MRR Processing 2 will automatically populate in the routing list. Click Route All to route the case (see figure 1) Verify the route was successful, on the General tab the employee number should show M3 (see figure

	2). 2. Save the case Fig. 1 Fig. 2
Step 6	Return to Incident 1 and apply the appropriate resolution code. Enter the resolution amount, based on the approval: CM-Complimentary Membership (Full) CP- Complimentary Membership (Partial)

Route or Close Matrix

Overall Satisfaction Rating	Customer Comments	Action
Totally Satisfied/Satisfied	No Service Issue indicated Comments	Close the survey, no CMS case is required.
Totally Satisfied/Satisfied	Minor service-related concerns	Create a CMS and close by sending Apology Letter/Email. Allow the call if needed.
Neither Satisfied /Dissatisfied	Less than 2-hour delay with minor service-related concerns	Create a CMS and close by sending Apology Letter/Email. Allow the call if needed.
Dissatisfied /Totally Dissatisfied	Less than 2-hour delay with minor service-related concerns	Create a CMS and close by sending Apology Letter/Email. Allow the call if needed.
Dissatisfied /Totally Dissatisfied	2-hour or more delay requiring compensation	Create a CMS and route to RDMRR
Dissatisfied /Totally Dissatisfied	Damage to the vehicle	Create a CMS and route to ACE Damage
Dissatisfied /Totally Dissatisfied	AAA Battery warranty concerns	Create a CMS and route to ACE Battery
Dissatisfied /Totally Dissatisfied	AAR complaint or concerns	Create a CMS and route to ACE AAR

Closing the Survey

Step	Instructions
1	Update the Main Reason and Issue Category.
2	Change Ticket Status from In Progress to Closed.

CMS Cases for Surveys

Field / Action	Instructions
Case Origin	Change Case Origin to Survey Response
Case Classification	Complete the Type, Event Category, Subcategory and Key Type as applicable
Description	Update Description: "Origin Qualtrics Survey: copy and paste members comments from Qualtrics ticket."
Survey Response Details	Under Survey Response Details enter the Issue Category and Root Cause on the CMS case.
Documentation	Product Request if closing or Task if routing the case

Damage

Create/update CMS case with details from the survey, if existing complaint is unassigned email Leads to request case assignment for handling.
Close the Qualtrics Survey Ticket.
Sample Subject Line: Qualtrics Damage Assignment

Critical Incidents

Create/update CMS case(s) as needed with details from the survey.
Complete the CI Transfer form
Close the Qualtrics Survey Ticket.

Affiliate/Non-CHANT Club Members

Non-Damage Complaints - Follow the Affiliate Club Contact procedure.
Close the Qualtrics survey

Non-ERS Issues

If the comments indicate the member would like assistance for a non-ERS issue or changes to their survey preferences:
Forward to the appropriate department
Close the Qualtrics survey

Queue Processing - CHANT Facility & Facility Compliment

Route or Close Matrix

Complaint Type	Action	Documentation	Resolution Code
Length of Delay = On Location Time - PTA 2 hour or more delay or requesting compensation towards membership or for out-of-pocket expense	Route	Length of the delay in the Comments field of the Task	NA

1	Change the Status Bar to In Progress	This is the step that removes the case from the queue to prevent another MRR from picking up your case
2	Search for Duplicate Cases	Check Related Cases in CMS Check CMS for a duplicate as well
3	Review / Correct Case Information	Review the Details, Work Order and MRM as needed to determine if the member was able to receive service. Add or update the Work Order under Service Call Details if missing or incorrect. If incorrect selection was made update the Category, Subcategory, Key Type
4	Take the necessary action and route or close the case	Use any forms needed on the Case Management page to close the case.
5	Exit the CMS Case	Close any associated tabs

Routing

Action	Instructions
Log the Task	From the Feed select New CMS Task Subject - Internal Dept Follow Up Comment - Document any findings and the reason for routing the case.

Update the Subject	From Details update the Subject Field Document "RC" in the Subject Field for a Level 2 MRR to pick up the case
Status Bar - New	Move the Status Bar back to New

Closing

Action	Instructions
Take the necessary action to close the case	Use any forms needed on the Case Management page to close the case.
Case Owner Details - Case Owner	Change the case owner to your name
Product Request	Select Product Request then New, either from Related or the Quick Links Sidebar Status: Closed - No Approval Required Resolution Code: Select the most appropriate resolution for the action taken and contact type. Description: Document the actions taken to resolve Save Note: The Product Request will open in a new tab, close the tab once completed
Milestones	Mark all Milestones completed First Response to CMS Case Close CMS Case Note: Milestones must be completed before changing the status of the case
Status Bar	Change the Status Bar to Closed Note: All action must be completed before closing case. Closed cases cannot be reopened.

Refunds

Refund Status - CAPRE Fee

CAPRE Refund Verification

California Pre-membership Fee (CAPRE) payments post to ERS receivables.

The status of a refund should be routinely checked prior to member counseling.

In MRM Portal Receivables, confirm that the CAPRE refund is pending.

Note: When the member pays the CAPRE fee the service call is not counted against their entitlements.

Review the service order to determine whether the member received service.

Elevating Refund Request

If a CAPRE payment failed to auto void or call was allowed either submit the EFT Request or email the MRR leads depending on how the member paid.

Payment Method / Situation	Required Action
Paid by Credit Card	Submit EFT Request
Paid by Check or CC no longer valid	Email Leads

Policy Reminder

Check MRM Receivables for the auto-void prior to counseling member.

Refund Status - Service Charge

This article outlines the following Service Charge-related protocols:

ERS Payment Refund Verification

Refund status may also be reviewed in the EFTI system for other ERS payments.

Follow the steps outlined in the MRM Refund Verification protocol above, with the following changes:

Step 2: In the ERS field, enter ' Y'

Refund Status - Early ERS Usage Fee

Overview

Early ERS Usage Fee (EUF) applies to the first three (3) days of membership. Payments do not post to ERS receivables.

When an EUF payment is made and the service is canceled, refunds will be credited to by the member's financial institution within 10 days. The status of a refund should be routinely checked prior to member counseling.

EUF does not apply to California (004) members, CAPRE fee applies.

If the EUF payment is visible in ERS Receivables, it was misapplied, and the refund request should be elevated right away.

Refund requests should be elevated right away for allowed calls.

EUF Refund Verification

Step	Instructions
1	MRM: select Launch > Membership > EFTI
2	Select Function: S (INQUIRY) Club Code & Membership Number: (8-digit membership number only) ERS: Y Press Enter
3	Select F9 to view payment and refund history.
4	Review Activity on the right pane: Onetime indicates the payment was processed.
5	Review Activity on left pane: CREDITBAK indicates amount has been refunded.

Elevating EUF Refund Request (>10 days)

If a EUF payment has not refunded 10 days AFTER the payment

Payment Method / Situation	Required Action
Paid by Credit Card	Submit EFT Request
Paid by Check or CC no longer valid	Email Leads

ERS Payment Types

Payment Type	Definition / Guidance
Service Charge	Additional call fee Reminder TX associate members now entitled to two (2) service calls
CAPRE - California PreMembership Fee	New California (004) membership when breakdown occurs prior to membership purchase If CAPRE fee is paid the service call is not counted against their entitlements. Review the service order to determine whether the member received service
EUF - Early Usage Fee	Early ERS Usage Fee (EUF) applies to the first three (3) days of membership. Applies to all ACE clubs except for California (004) Applies to each service used within the first three (3) days of membership The service calls will count against the membership

ERS Receivables Review

Step	Instructions
1	In MRM Portal Receivables, confirm that the service charge refund is pending
2	Review MRM-Notes to determine if the EFT form was already submitted for processing. *Allow 7-10 business days from the date submitted; after the 7-10 business days email the Leads for handling.
3	In the MRR Hub, select the EFT Request Form Member paid by check or with credit card that is no longer valid (refund not processed). Email the Leads to request refund via check Credit card is no longer valid (refund already processed) - advise member to contact that financial institution as the funds have already been released from AAA

EFT Adjustment Form Instructions

Field	Required Entry / Guidance
Service Fee Type	CAPRE = California Pre-membership Fee SVC Charge= Additional call fee EUF = Early Usage Fee
State (by Club Code)	The club code for the membership number.
Account Number (Membership)	8 - digit membership number
Reason for adjustment	Why the member is due a refund.
Member's last and first name	Last name then first name.
Transaction date	Date the payment was made
Last four digits of credit card	See below for instructions for locating last four digits of credit card in EFTI.
Amount of adjustment	The dollar amount that needs to be refunded.

EFTI Search

To locate the last four-digits of the credit card for EFT processing, follow the steps below:

Step	Instructions
1	Enter S next to Inquiry,
2	Enter the membership number (8 digits after club code)
3	ERS: Enter Y
4	Select Enter tab.
Example	The last 4 digits are 8257
More Information	Needing to view more information? Select F9 to review the payment history.
Refund Indicator	CREDITBAK indicates the payment has been refunded

Reimbursement Processing

Standard Reimbursement Processing

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

1. Create Letter: Via MRR Hub (Top of the Page)

- Letters - MRR Hub Letters

2. Email Body:

- Member's name
- 16-digit membership number
- CMS ID number
- Reimbursement type and amount
- The following documents will need to be attached to the email:
- Receipts
- Completed reimbursement application - form available in MRR Database - Forms
- Document the following in CMS Remarks (bottom):
- Reimbursement letter sent via MRR Hub

3. Upload Documents (CMS case)

- Receipts
- Completed reimbursement application

4. Apply Resolution Code (CMS)

- Reimbursement: COD
- Enter the amount being reimbursed in the Resolution Amount

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Reimbursement Approvals (Battery and Standard)

Effective Immediately

All Reimbursements and Compensation Approval requests must be submitted and approved through Case Manager.

- Battery Paperwork Processing - Current Members
- Note: All 3rd-party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Reimbursement Form: Complete the bottom portion of the Reimbursement form (see below).

- Itemized Receipt Required.
- Service Order Most recent service order.
- Allow Refund Should call be allowed? Yes or No. (YES will be used most often)
- Receipt Amount paid on new invoice*
- *Detail of charges and proof of payment required (e.g., credit card receipt, cancelled check-both sides, etc.).
- Authorized Signature of the agent processing the refund
- Covered Amount Pro rata warranty entitlement amount
- Date Today's date
- Amount Reimbursed Amount the member is being reimbursed
- Charge Section Select charge section for member's home club (see Charge Sections list)

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

1. Complete Approval Request Form
2. Attach Form Case Manager
3. Tag MRR Management
    - Member's name
    - 16-digit membership number

- CMS ID number
- Reimbursement type and amount

The following documents will need to be attached to the email:

- Receipts and if appropriate battery test results
- Completed reimbursement application - form available in MRR Database - Forms

4. Document the following in CMS Remarks (bottom):
   - Reimbursement letter sent via MRR Hub
5. Upload Documents (CMS case)
   - Receipts and battery test results, if appropriate
   - Completed reimbursement application
6. Apply Resolution Code (CMS)
   - RB - Reimbursement: Battery
   - Enter the amount being reimbursed in the Resolution Amount

*****Effective Immediately*****

All Reimbursements and Compensation Approval requests must be submitted and approved through Case Manager.

Battery Paperwork Processing - Current Members

Note: All 3rd-party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Reimbursement Form: Complete the bottom portion of the Reimbursement form (see below).

Field	Required Entry / Guidance
Itemized Receipt	Required.
Ser v ice Order	Most recent service order.
Allow Refund	Should call be allowed? Yes or No. (YES will be used most often)
Receipt Amount	Amount paid on new invoice* *Detail of charges and proof of payment required (e.g., credit card receipt, cancelled check-both sides, etc.).
Authorized Signature	Signature of the agent processing the refund
Covered Amount	Pro rata warranty entitlement amount
Date	Today's date
Amount Reimbursed	Amount the member is being reimbursed
Charge Section	Select charge section for member's home club (see Charge Sections list)

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member 's name and vehicle.

Step	Action	Required Details / Attachments
1	Complete Approval Request Form	
2	Attach Form Case Manager	Tag MRR Management Member's name 16-digit membership number CMS ID number Reimbursement type and amount The following documents will need to be attached to the email: Receipts and if appropriate battery test results Completed reimbursement application - form available in MRR Database - Forms Document the following in CMS Remarks (bottom): Reimbursement letter sent via MRR Hub
3	Upload Documents (CMS case)	Receipts and battery test results, if appropriate Completed reimbursement application
4	Apply Resolution Code (CMS)	RB - Reimbursement: Battery Enter the amount being reimbursed in the Resolution Amount

Battery Paperwork Processing – Non-Members

Please Note: All 3rd party receipts must be verified by contacting the business on the receipt/invoice and must match the member's name and vehicle.

Step	Action	Required Details / Attachments
1	Payment Approval Form (PAF)	Complete sections A through C and Exceptions (MRR DB)
2	Access letter templates	Letters - MRR Hub Other Letters - All Documents (aaaclubnet.com)
3	Upload Documents (CMS case)	Receipts and battery test results, if appropriate Completed PAF Form - form available in MRR Database - Forms

4	Approval and Paperwork Processing	Payment Approval forms must be submitted via Case Manager for approval, along for paperwork being processed. Please refer to Case Manager - Tracking, Approval, and Paperwork Processing for instructions.
5	Apply Resolution Code (CMS) (Incident 1)	RB- Reimbursement: Battery Enter the amount being reimbursed in the Resolution Amount.

Service Verification Forms - (USPS Mail)

CHNT

Members are required to submit a Service Verification form to confirm service dates.

Email is the quickest, preferred method.

If member requests a mailed form, submit request via the MRR Hub Member Letter Communications

Other ACE Clubs & Affiliate Clubs

Member / Club Type	Instructions
Other ACE Clubs (001, 065, 036, 215, 258)	Route the case to the appropriate to the appropriate club for handling.
Affiliate Members	Refer affiliate club members to their home club.
Affiliate Clubs	Affiliate club representative requests for call details should be referred to the following: ERSRDMRRGROUP@ACE.AAA.COM

SIU

To provide knowledge and awareness on the various common misconduct situations observed in the roadside service call center, ERS SIU has prepared the following knowledge article to help identify membership misconduct and the actions required to elevate to ERS SIU for review.

Common Misconduct Types:

Misconduct Type	Definition / Examples	Required Action
Excessive Service Demands	When a member(s) has a repeating pattern of using all their allotted roadside service calls consecutively for three years.	When such behavior is observed, please be sure to elevate it to ERS SIU via CMS for further review.
Verbal Misconduct	Occurs when, after being requested to modify their behavior, an individual continues to use language that is deemed improper, abusive, offensive, harassing, rude, inappropriate, obscene, intimidating, threatening, or otherwise discourteous toward a AAA employee, contractor, or another member.	You are expected to maintain professionalism and make efforts to de-escalate the situation. If your attempts are unsuccessful, document the incident and escalate it to a local supervisor or manager for further action. Please do not escalate these cases to ERS SIU via CTS; call center management should review the situation before submitting the member to SIU for cancellation consideration.
Physical Misconduct	Any contact or non-contact behavior that causes or reasonably threatens to cause physical harm or property damage to an AAA employee, contractor, or another member.	If a situation involving physical misconduct is brought to your attention while taking a call, please document what occurred and elevate the situation (transfer) to a local

		supervisor/manager for further handling. Do not elevate these to ERS SIU via CTS; call center management has special instructions on how and if these will need to be escalated to ERS SIU for review.
Call Sharing	This occurs when a member is found to be accessing other roles on the membership to obtain additional services improperly. It is important always to ask who you are speaking with to avoid unauthorized usage between members in the same household. Each member is allotted their own roadside services usages and is not authorized to access other roles on the same membership to receive additional service or to avoid paying service charges.	When situations such as these arise, please ensure to follow Service Charge protocol. Do not proactively coach the member on how to avoid paying service charge fees if no other valid member with photo identification is present. Document what occurred and elevate to ERS SIU via CMS for further review.
Non-Emergency Vehicle Transport	The use of, or attempts to use, towing services for purposes unrelated to vehicle breakdowns, accidents, or other disablements. This includes tows for relocation, purchase, sale, auction, car show exhibitions, charitable donations, storage-to-storage transfers, or transportation to and from salvage yards.	When non-emergency vehicle transport requests are received, it is essential to clearly inform members about service limitations and alternative options (e.g., commercial services). Be sure to document the details of the interaction. If you observe behavior that qualifies as non-emergency vehicle transport, please escalate the case to ERS SIU via CMS for further review.
Excessive Fuel Delivery	The use or attempts to use two (2) or more roadside service fuel delivery calls to obtain additional fuel for the same breakdown or fuel delivery request(s) for non-emergency situations or personal convenience. A common scenario involves members repeatedly requesting fuel deliveries to their home, which may constitute misconduct if it becomes a recurring pattern since convenience fuel deliveries are not covered under membership.	It is important to properly inform members of service limitations when situations arise and document the details during the call. Please also ensure that such cases are escalated to ERS SIU via CMS for further review.
Business Use	Roadside service usage was found to have been used by a member(s) for personal business use to render service to its customers, employees, or vehicles.	It is important to properly advise members on service limitations and alternate service options (i.e., commercial service) when such situations are observed, along with documenting on the call. Please also escalate this to ERS SIU via CMS for further review.
Piggy-Back Tows	The use or attempted use of two (2) or more roadside service calls to extend the membership level benefit for the same breakdown. Piggy-back tows commonly involve long towing distances in which a single tow would not cover the entirety of the tow, resulting in the member(s) having to pay additional towing miles. In these situations, the member(s) may attempt to call back a second time to receive an additional tow and avoid paying over mileage fees to the service provider dispatched to assist.	When such situations are observed, it is important to properly council members on service limitations, provide alternate service options (i.e., commercial service), and properly document on the call. Please also escalate this to ERS SIU via CMS for further membership review.
Insufficient Funds/Monies Owed	Non-payment for roadside services provided by a service provider due to payment with an invalid check/credit card or check returned due to insufficient funds when submitting a payment to a contractor. These are not to be confused with regular unpaid service charge bills. A common situation involves members leaving the scene without paying a service provider after a service has been rendered, such as a battery purchase or additional towing miles not covered under the membership.	When a situation such as this is observed, it is important to document it on the call to alert dispatch and notify the CSR. Additionally, please escalate to ERS SIU via CMS for further membership review.

Multiple Memberships	Member(s) found to have more than one (1) active membership. The most common scenario in this situation involves a member(s) unknowingly having more than one active (1) membership. The least common scenario in this situation involves a member(s) knowingly using more than one (1) active membership to receive additional services.	When this occurs, it is important to properly counsel the member about the service limitations (1 membership per person) and ensure that the duplicate membership may not be used. If this is the case, it is OK to still proceed with assisting the member with the service call using the main membership number, along with elevating to ERS SIU via CMS regarding the duplicate membership that the member unknowingly had. If the member is in service charge, the member is not allowed to use any other active duplicate membership to bypass the service charge; if the member does not accept the service charge, please offer alternate service options such as commercial service. Additionally, please document on the call and elevate to ERS SIU via CMS for membership(s) review.
Standard Misconduct	Conduct that violates AAA policies or procedures, or conduct found harmful to the best interests of AAA, its employees, contractors, and/or other members. The most common scenario in this situation involves a member(s) with multiple misconduct types observed. The least common scenario involves miscellaneous misconduct situations not specifically outlined with its own Misconduct category. One such example is Hot Call Protocol abuse when a member(s) is found to be untruthful with the current service request to receive a faster response time.	Please document and elevate to ERS SIU via CMS for membership review if this is the case.

Membership Abuse - SIU (All)

Account “In Collections” refers to membership accounts that have been referred for Collections department due to a past due balance. Attempt to transfer the member to the Collections department and provide the number, 888-897-4902, a warm transfer is not required in this case. After hours, provide the member with the number for Collections.

Cancelled Membership - ERS Charges Due: To determine if an account was cancelled for non-payment of ERS charges, review ERS Receivables under the ERS tab in MRM Portal as follows: right-click in Total Events for All Members, select View ERS Receivables and check Current Account Status. If account is not in Collections and membership is paid, the account may be reinstated by processing payment of outstanding ERS charges.

If the account is cancelled for non-payment/non-renewal, but it is not in Collections and was not canceled for ERS abuse, Check MRM to determine if payment can be collected by ERS. If the ERS agent is able to process the payment, payment may be collected for reinstatement of membership; otherwise, refer the member to DSU in this scenario, or to the member website when DSU is closed.

If member does not receive SIU cancel reason letter, how do we resend?
If the member indicates they did not receive the letter, create a CMS case and counsel the member to expect follow-up within 10 business days. Alternatively, you can provide the member with the Appeals Board mailing address if they wish to correspond directly.

Can an ERS agent take payment for reactivating a canceled/expired membership?
Yes, but only if MRM allows.

What should members do if DSU is closed and they wish to reactivate their membership?
Check MRM to determine if payment can be collected by ERS. Otherwise, members can visit the member website to complete the reactivation. If the system indicates that an account is in Collections, it cannot be reinstated by ERS.

What should I tell a member whose service request (not membership) was canceled due to abusive behavior toward a service technician or Club employee?
Advise the member that, due to concerns regarding their interaction with the service provider or Club employee, we are unable to continue rendering service for this request (Mr./Ms. [Last Name], due to concerns regarding the interaction with our service provider/Club employee, we are unable to continue service on this request). You may offer a COD (Cash on Delivery) referral as an alternative option. However, in situations involving member or membership abuse, reimbursement may be declined by the Club. (“What I can do is provide you with a COD

referral for a local provider that you can contact and request service at your own expense."). Hot Call scenarios must be escalated immediately to the local ERS management team.

Cancellation Appeals – Membership Abuse or Misconduct: When a system alert indicating that the Special Investigations Unit (SIU) has cancelled the membership, do not share this information with the member. Memberships cancelled by SIU for behavioral or membership abuse cannot be restored by ERS. If a member contacts ERS and states they have received a letter indicating their membership has been canceled for abuse or misconduct, inform the member he/she will need to follow the instructions on the letter. Further inquiries must be directed to the Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001. Do not transfer or counsel the former member to contact another ACE department. All contact to be summitted in writing to the Appeals Board.

Special Investigation Unit (SIU): The Special Investigations Unit (SIU) audits contractors and members for abusive or fraudulent use of the membership. If you suspect membership abuse by a member or contractor, including towing to or from auto auction sites or salvage yards, towing for the purpose of selling or buying a vehicle, repair facility employees using personal memberships to have customers vehicles towed, two (2) or more membership numbers for the same member, and similar scenarios, you are required to elevate potential fraudulent or abusive member behavior to an ERS supervisor for possible SIU referral.

Members who receive a letter from SIU cannot be transferred to the SIU department. Contact with SIU is limited to the information contained on the letter received from SIU.

Effective May 18, 2023, ERS Service Representatives will discontinue use of the Supervisor Review – Special Investigation Unit option for Verbal Abuse/Threats and Physical Misconduct/Threats. Upon completion of incident documentation on the service request, ERS agents should contact a member of their local home site management team for further processing. Verbal abuse by member may include profanity, cursing, yelling or insults. If the situation cannot be deescalated, agents should attempt a warm-transfer to their local supervisor line.

What should I tell a member whose service request (not membership) was canceled due to abusive behavior toward a service technician or Club employee?
Advise the member that, due to concerns regarding their interaction with the service provider or Club employee, we are unable to continue rendering service for this request (Mr./Ms. [Last Name], due to concerns regarding the interaction with our service provider/Club employee, we are unable to continue service on this request). You may offer a COD (Cash on Delivery) referral as an alternative option. However, in situations involving member or membership abuse, reimbursement may be declined by the Club.

("What I can do is provide you with a COD referral for a local provider that you can contact and request service at your own expense."). Hot Call scenarios must be escalated immediately to the local ERS management team.

Service cannot be rendered if the member is not present and an approved third party (with valid ID and proof of the member's ownership of the vehicle) is not present. Household members may not share memberships. If a household member is not present, approved third-party-present protocols apply. When servicing a third-party vehicle under a member's account, the member must be present.

How do I submit/elevate an issue to SIU for investigation?
To elevate suspected member/membership abuse, agents should create a CMS case for supervisor review and follow-up.

Membership Alerts: Membership Alert functionality enables call center management staff to communicate important information about a membership to the call processing agent. Common uses for membership alerts will include attempts to use membership for ineligible services, and Piggyback tows attempted by the member, membership abuse, specific provider refused due to a pending complaint or litigation, when applicable.

When a member wants to puta password on the membership to prevent fraudulent usage, they should be transferred MSC for assistance. The member/caller must provide password to set up service; if they are unable to provide password and there is not safety concern (Hot Call), they should be transferred MSC to resolve their password issue).

Member claims/suspects the driver/service technician used their credit/debit card to make purchases after their vehicle was towed under membership.
If a member claims identity theft by a service provider or call center representative after using their credit card for service, you should elevate the case as a Complaint in CMS for investigation.

How can you determine if an account was canceled for non-payment of ERS charges?
Review ERS Receivables under the ERS tab in MRM Portal by right-clicking in Total Events for All Members and selecting View ERS Receivables.

What should you check after reviewing the ERS Receivables for a canceled account?
Check the Current Account Status.

Can an account be reinstated if it is not in Collections and the membership is paid?
Yes, the account can be reinstated by processing the payment of outstanding ERS charges.

What should you do if the account is in Collections?
Ofer to transfer the member to the Collections department at 888-897-4902 and/or provide the number (cold transfer OK).

What is the after-hours number for the Collections department?
The after-hours number is 888-897-4902.

Can charge-off accounts be restored with payment?
Yes, as long as the account has not been sent to Collections.

What should you do when the system alerts that the Special Investigations Unit (SIU) has canceled a membership?
Refer the member to the Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001.

Can memberships canceled by SIU for behavioral or membership abuse be reinstated by ERS?
No, these memberships cannot be restored by ERS.

What should you tell a member who received a letter indicating their membership was canceled for abuse or misconduct?
Inform them to follow the instructions in the letter and direct further inquiries to the Appeals Board.

What is the address for the Appeals Board?
Appeals Board-A114, c/o Automobile Club of Southern California, PO Box 25001, Santa Ana, CA 92799-5001.

Should you transfer or counsel a former member to contact another ACE department regarding membership cancellations by SIU?
No, all contact must be submitted in writing to the Appeals Board.

What is the role of the Special Investigations Unit (SIU)?
The SIU audits contractors and members for abusive or fraudulent use of memberships.

What should you do if you suspect membership abuse by a member or contractor?
Elevate potential fraudulent or abusive behavior to an ERS supervisor for further review and possible SIU referral.

What are some examples of membership abuse?
Towing to or from auto auction sites, towing for buying or selling vehicles, or repair facility employees using personal memberships for customer vehicles.

What should ERS Service Representatives do for incidents of verbal or physical misconduct after May 18, 2023?
Document the incident on the service request and contact a member of your local home site management team for further processing.

Can a household member share their membership with others in the household?
No, household members cannot share memberships.

What is required for a third-party to receive service if the member is not present?
The third-party must present valid ID and proof of the member's ownership of the vehicle, such as a valid registration and/or valid insurance card in the exact name on the membership.

What is the purpose of the Membership Alert functionality?
It enables call center management to communicate important information about a membership to the call processing agent.

What are some common uses for Membership Alerts?
Alerts for ineligible services, membership abuse, specific provider refusals, or piggyback tows.

What is considered ineligible service under membership?
Services like towing for buying or selling vehicles, towing to auto auction sites, or using membership for non-covered vehicles.

What should be done if a member attempts a piggyback tow?
Member should be counselled that Club policy allows one tow per disablement and the request documentation should be updated to include the information discussed. Repeated requests for piggyback towing should be elevated to a supervisor for a Membership Alert to prevent fraudulent usage.

What is the process if a member is suspected of having two or more membership numbers?
Elevate the case to an ERS supervisor for investigation and possible SIU referral.

What is required to provide service if a third-party claims to be acting on behalf of a member?
They must counselled that the member must be present at the service location with a valid photo ID or the member must call to initiate the service request and the authorized third-party must be present with valid photo ID and proof of the member's ownership of the vehicle at the time of service.

If a member needs to speak with SIU, how do I connect them?
The member should be counselled to contact the Appeals Board in writing only at the following address: Appeals Board -A114, c/o Automobile Club of Southern California
PO Box 25001, Santa Ana, CA, 92799-5001

What should I do if CDX indicates "Yes" in the ERS Abuse field?
If CDX indicates "Yes" in the ERS Abuse field for an affiliate member, contact the home Club to determine whether service can be rendered under membership. Approval of the member's home Club is required when CDX indicates "yes" under ERS Abuse.

Additional Letter Types Sent by SIU
Verification Letters - Requests for household member verification mailed to the primary member requesting that they reply with specific information by the deadline. These memberships may reflect an “Impaired” status in MRM. If the information is not received by the deadline, the membership may be cancelled. However, the membership is still valid during this period.

Early Warning (Alert Letter) - To ensure fair and consistent service for all members, the Auto Club has introduced an initiative to help members better understand their Emergency Roadside Service (ERS) usage and behavior. Periodically, members may receive notifications if their service requests or interactions with Club employees or contractors deviate from the expectations outlined in the Member Guide. If a member calls in expressing a concern, use the suggested following phrasing: "I understand your concerns, and I appreciate you taking the time to reach out. This letter is simply a notice reminder to keep you informed about your ERS usage and ensure uninterrupted service for you."

There are two types of impaired memberships:
- Fees dues-based impairments - A membership status that requires payment prior to receiving any roadside services.
- SIU-impaired membership – in this scenario, a verification letter has been sent to Request household member verification and instructions to reply by the deadline. These memberships may reflect an “Impaired” status in MRM. However, the membership is still valid during this period. If the information is not received by the deadline, the membership may be cancelled.

SIU Notification Warning Letters

Protocol for Handling Member Inquiries About ERS Notification (Warning) Letters

To ensure fair and consistent service for all members, the Auto Club has introduced an initiative to help members better understand their Emergency Roadside Service (ERS) usage and behavior.

Periodically, members may receive notifications if their service requests or interactions with Club employees or contractors deviate from the expectations outlined in the Member Guide.

This initiative is designed to proactively inform members about their usage patterns to help prevent any potential future service disruptions.

The goal is to ensure that members have full awareness of their ERS benefits and can continue to use them as intended.

If a member reaches out with concerns about the letter, follow these key steps for a positive and professional interaction:

Step	Guidance	Example Response
1. Acknowledge & Clarify	Express understanding and appreciation for the member reaching out. If the member found the letter concerning, reassure them that it is simply an informational notice, not a penalty or an indication of immediate action on their membership.	"I understand your concerns, and I appreciate you taking the time to reach out. This letter is simply a notice reminder to keep you informed about your ERS usage and ensure uninterrupted service for you."
2. Provide a General Overview	Explain that ERS is intended for unexpected roadside breakdowns and that the letter is meant to bring attention to usage that may not align with the membership guidelines. Let the member know that similar letters are sent to all members whose service request appear to fall outside the standard guidelines. Avoid using accusatory language—this is about awareness, not fault.	"ERS is designed to assist with unexpected roadside breakdowns. Our system routinely reviews service usage to ensure it aligns with the Member Guide. The letter is simply a way to keep members informed so they can continue enjoying their benefits without any issues."
3. Handling Disputes	If the member disputes the number of service calls or claims they did not receive service, review the call history, adjust if appropriate and/or elevate per protocol. If the member suspects fraudulent activity, create a CMS case and follow the protocol for flagging the subject line.	"I understand your concern. If you believe there may be an error or unauthorized use of your membership, we can certainly review this further. I’ll document your request and have our team follow up with you."
4. Reassure & Guide the Member	Confirm that the letter is only a notice reminder and that their membership remains in good standing. Encourage the member to review their benefits and terms in the Member Guide at [AAA.com/MemberGuide].	"Please know that your membership remains active, and this letter is simply for awareness. If you’d like more details on ERS benefits, the Member Guide at AAA.com/Member Guide is a great

		resource. Let me know if there's anything else I can do for you."

Final Notes

Keep interactions polite, professional, and non-accusatory.

Focus on education and reassurance rather than enforcement.

If needed, escalate unresolved concerns through the appropriate channels (i.e. insurance concerns, damage complaints, etc..)

By following this approach, we ensure that members feel valued and informed while maintaining the integrity of our ERS program.

Example Responses

Our members may receive this notification if their service requests appear to fall outside the intended purpose of ERS benefits, as outlined in the Member Guide.

"I can direct you where to find more information on the benefits and service limitations covered in the Member Guide."

Additional ERS SIU Guidance

To conclude, it is important to note that ERS SIU does not conduct investigations upon member requests. The purpose of ERS SIU is to conduct internal investigations when red flags are identified with the member(s) requesting roadside services.

If a situation arises in which the member is disputing service calls and is claiming fraudulent activity on their membership, ERS SIU does not handle these situations but rather should be escalated to ERS Administration via CMS to conduct a review of the calls being disputed due to the member claiming fraudulent activity on the membership.

If ERS Administration confirms fraudulent activity, the service calls are typically removed, and the member(s) are provided with a new membership number and password to prevent further fraudulent activity.

On behalf of ERS SIU, I hope that you find this information useful. Please know that our front-line employees play a huge part in identifying and mitigating misconduct as it occurs. We aim to collaborate with the call centers in our mission to mitigate misconduct.

Softphone - Updating Business Role:

Softphone - Updating Business Role - ClubHub

Stop Payment Requests

1. Check Cancellation & Reissue. A screenshot of the status is required to complete this process. Please reach out to MRR Admin to check status.
2. Download Form: To download the form , click the kebab to reveal menu options (see bottom of page).
3. Complete Form: Open the form and complete the section labeled Originator Completes Below using the check status screenshot provided by MRR Admin or Management
4. Submit Form: Save the completed form to your desktop and email it as an attachment to Corporate Disbursement Stop Payments (CDSP@ace.aaa.com). To confirm submission, check Sent folder.

Spanish Support

This article outline requests for Spanish support for the following scenarios:
Live Escalations
Case Management Follow-up

*Calls are subject to monitoring to ensure compliance with Spanish Support Group protocol. Failure to comply with this protocol will result in disciplinary action.

Spanish-Speaking MRR Requested

A genuine attempt to assist the Spanish-speaking member must be made. If unsuccessful, and/or the member specifically requests a Spanish-speaking representative, the protocol below applies.

Translation Line

Step / Field	Instructions
1	Contact the translation line for assistance. If unavailable reach out via chat for assistance
Phone	(866) 874-3972
Client #	701692

Chat - Live Escalation

Submit a request for assistance via the Spanish Support Group which includes the following:

Request Field / Status	Required Action
Request Type	Live Escalation/[Member Name]
Reference	SVO & Date
Available	Spanish-speaking MRR will provide extension for transfer Document and warm-transfer the member to the Spanish-skilled agent. Spanish-skilled MRR accepts transfer
Unavailable	If no response is received within 60 seconds, call the Translation Line in Softphone for assistance.

Case Management Follow-up

When case documentation indicates member is requesting a Spanish-speaking representative follow-up, the member must be contacted, and a genuine effort made to address their concerns.

This effort should include modifying speech pace, rephrasing questions, and routine confirmation of information provided, to ensure that we are properly managing their service expectations.

If a non-Spanish skilled representative is unsuccessful in their attempt to overcome the language barrier, or the member again requests a Spanish-skilled agent, the following protocol applies:

Chat - Case Management

Submit a request for assistance via the Spanish Support Group in Teams and include the following information.

Request Field / Status	Required Action
Request Type	Case Management/ [Member Name]
Reference	CTS#
Available	Available Spanish-speaking MRR will provide extension for transfer The transferring MRR will document transfer and w arm-transfer with S VO/Date and name of member, if available.
Unavailable	If no response is received within 60 seconds, t he member should be advised that a Spanish-skilled agent will contact them shortly. Submit a call back request via the Spanish Support Group in MS Teams with the following: Case Management/ [Member Name] CTS#

Case Management – Spanish Requests (Level 3)

Chat

Submit a request for assistance via the Spanish Support Group which includes the following:

Request Field / Status	Required Action
Request Type	Case Management L3/ [Member Name]
Reference	CTS#
Damage Complaint	for escalated damage complaints, the Spanish-speaking MRR will assist with translation only
Available	Spanish-speaking MRR will provide extension for transfer Document and warm-transfer the member to the Spanish-skilled agent. Spanish-skilled MRR accepts transfer

Additional Resources

Reference page in the ERS Knowledgebase has been created to provide Spanish-skilled agents with suggested phrasing and additional reference materials.

Google Translate may also be used.

Supervisor Override

This article outlines protocol for the following:

Supervisor Override Policy

When RADAR validates a membership that is in Service Charge or Unpaid status (31 days or more), and the member is unable to pay, override exceptions are limited to the following scenarios:

Hot Calls

Minor Dependent/Minor Associate - without cash, check, or credit card

Members requesting service on memberships in Unpaid and/Service Charge status that do not meet the exception criteria outlined above will be required to make a payment or obtain commercial service (COD).

Overrides will no longer be approved for the following scenarios:

Call disputes leading to 5th call

Credit card locked in the car

Billing for convenience – member indicates they are unable to pay at the time of service.

Mailed payments

Battery warranty or purchase

Allowed Calls

When a continuation of service is needed, the original call should be Allowed prior to cloning the call.

Sample scenarios include the following:

Can't Locate

No Service Rendered (NSR)

Light-Duty-Turned-Tow

Lockout-Turned-Locksmith

Unattended Vehicle

Overrides Exclusions

Scenario	Required Handling
Call Disputes (5th call)	If it is verified that a previous call was counted in error, the approving supervisor should Allow that call, in conjunction with the override. If a usage error cannot be readily determined, the member will be required to pay the Service Charge. If it is later determined that the usage is invalid, a refund will be issued.
Credit Card Locked Car	Minor without credit cards may be approved. Otherwise, mark the call COD and advise the member they will be required to pay the provider.
Battery Warranty or Purchase	Member will be required to make a payment prior to service order completion. If a AAA battery is replaced under warranty the usage does not count, a refund will be issue
Billing for Convenience (unable to pay)	Billing for convenience is no longer allowed. Member is required to pay with cred it card at the time of service, or pay the driver COD with cash/check.
Mailed payments (expired memberships)	Member will be required to make a payment prior to service. Over payments will be refunded to the member upon receipt of mailed payment.
Prior Payment and Additional Service Charge Due (5th to 6th Call)	If a member needs another service after a service charge payment has been collected and service rendered, receivables shows -$100 and won't allow another payment to be taken. Create the invoice (service charge event) for the prior call to allow the agent to collect payment.

RADAR Override Processing

Teams Override Channel

Step	Action
1	Acknowledge the Override by replying "working" to the override request
2	Validate the reason for the override and reply refresh once the override has been completed
3	Documenting the RADAR case with the validated reason for the override and allowing the call when needed can take place after notifying the agent to refresh

Helpline Entry

Request Method	Call Type / Category
Override requested via Team	Call Type: Override Category: Chat-OVRDE Only
Override requested via Phone (SRTB, SRTX, SupLine, etc)	Call Type: Override Category: Phone-OVRDE Only

Teams Callback Protocol (Case Management)

This article is intended to outline Callback processing in the Callback Teams channel.

Callback Teams Channel Protocol

When a callback is received on a previously filed complaint an immediate attempt to reach the member is required by the Case Owner.

If the Case Owner is out of the office, the case should be assigned for another team member to follow-up with the member in their absence.

The assignee must document member contact and any actions taken.

MRR Teams Channel Status

Acknowledge receipt of the callback by replying to the post when you are processing.

Provide an update in the Teams Channel with the outcome of the call to the member.

Update CMS & Case Manager accordingly

*****Important Notes*****

All callbacks require same day follow-up, unless the member specifies date/time desired.

Phone contact is required, unless the member requests emails communications

If live contact is unsuccessful, an email attempt is required with your contact information.

Cases with multiple callbacks should be elevated to MRR management

Role / Level	Callback Processing Requirements
All Users (excludes Level 1)	Submit CMS call back
Levels 1 & 2	Case Callbacks should be processed using the forms on the new Case Manager page. There is a form for Damage issues and another form for non-damage related issues. Check CMS for related case(s) and owner(s). Review the CMS feed for notes/instructions from the case owner to relay to the member. If the member/case still needs case owner follow up check the appropriate box on the form.
Levels 2 & 3	Attend to all callbacks on cases assigned to you.
Level 3 Damage	Attend to all callbacks on cases assigned to you
Supervisors & Lead s	Monitor to ensure someone is processing a callback. If not, tag or message the owner or another MRR so the callback is processed. Share the message in Outlook, if necessary. Daily engagement will be required with individuals receiving multiple callbacks Full audit of the case is required to ensure agent took required steps to follow-up with the member and identify areas of opportunity.

Case Reassignment

Cases should be re-assigned in the following circumstances: member requests re-assignment due to dissatisfaction with current case owner, extended time out of office, and/or the case owner is scheduled off and member is requesting to speak with someone urgently about the status of their case.

Note:
Complex damage cases which require original case owner to resolve, will only be re-assigned for member contact.

Temporary case owner will initiate the call to the member and provide an update to the original case owner.

Temporary case owner will enter the case as a new Damage complaint in their case manager for tracking purposes.

Telephone Standards - Disconnection Protocol

Incoming Call - No Caller Response

When there is no immediate caller response after the initial introduction, MRR Representatives must make an additional attempt to establish a connection with the caller prior to call termination. This attempt must include a reiterative statement that identifies the number the caller has reached, and the name of the representative. There are no exceptions to this policy.

Suggested Phrasing
"Hello caller, this is [insert name] supervisor from triple-A. Are you in need of assistance?"

A good faith effort to establish contact with the caller must be attempted. If there is no response, an additional attempt to establish contact is required. If these efforts are unsuccessful, the service representative MUST remain on the line while completing the call cancel documentation as follows (Hold and After-Call Work not allowed if the line is still open:

1. Cancel Service Order (if applicable) - select **MEMBER WILL CALL BACK WHEN READY FOR SERVICE**
2. Document "**NO RESPONSE ON THE LINE**"

3. Make a final attempt to establish contact, and announce intent to disconnect and call member back.

Suggested Phrasing
"Member, if you can hear me, I am unable to hear you. I am disconnecting due to no response and will call you right back."

4. No response? Complete documentation while the line is open and cancel the service request (if applicable). Call the member back at the phone number on the service order or listed in MRM Portal. If the member does not answer leave a brief message to call back if assistance is still needed.

Disconnections - Call In Progress

When a call is disconnected and there is no indication that the member intended to end the call or the transferring agent advises the member disconnected while on hold, the following protocol applies:

1. Attempt Contact - An attempt MUST be made to reestablish contact. If the call forwards to voicemail, the following protocol applies:

Suggested Phrasing
"My apologies, [member name], this is [insert name] calling back from triple-A. I believe we were disconnected. If you are still in need of assistance, please call us back as soon as possible and we will be happy to assist you further."

2. Documentation - The information provided via voicemail must be documented (i.e. left voicemail, advised member to call back).
3. Cancel Call (if applicable)

Vacation Request Submission Protocol

All requests for partial-day or full-day vacation must be submitted via email to your associate supervisors (leads), with Cruz and your supervisor copied on the email. When submitting your request, please remember to include a screenshot of your current vacation or float-flex balance

When submitting your request, please remember to **include a screenshot of your current PTO balance**.

Vacation requests **should not** be submitted through Workday.

Once you receive confirmation of approval, please log into Workday and **submit your vacation hours on your timecard** for final approval.

Please also note that we have **two vacation slots per group, per day**—one for the early shift and one for the late shift. Any additional requests outside of these designated slots will require **management approval**.

Thank you for your cooperation and understanding.

Snippet for PTO Accrual Screenshot Reminder: When emailing your vacation request, please attach a **snapshot of your accrual balances** (Vacation, Float Flex, Sick). Email your request to your leads and **cc Cruz and Maria**.

Reminder: Holidays submitted via the Quarterly Vacation Process

Verint Troubleshooting

This document is intended to help users troubleshoot common problems with the Verint interface and outlines steps for

escalating complex issues to PPG and CCT for further investigation and resolution.

The first list below provides suggestions for troubleshooting.

1. If you are in your Verint Workspace and receive error messages inhibiting your work, try logging completely out of Verint. Do not close your internet browser, log off by clicking the arrow icon located near your employee number in the upper right corner of your workspace and selecting 'Sign Out'.
2. Clear your internet browser's Cache, Cookies, and History.
3. Close all tabs and windows that are currently open in your internet browser before attempting to relaunch Verint.
4. Relaunch Verint in a new internet browser using the main Verint: https://verintpars.ace.aaaclubnet.com/wfo/control/signin
5. If the main URL doesn't automatically take you to your Verint workspace, try logging in manually. Uncheck the 'Trusted Sign In' box on the login screen. Then, enter your employee number (including the 'E') in the Username field and click 'Continue'. After that, enter your Windows password in the Password field and click 'Go'. Finally, wait for the system to direct you to your Verint workspace. It may be necessary to refresh and repeat this step, as needed.
6. If issues persist, consider using a different web browser like Edge or Chrome, or restart your computer to reassess.

If the steps mentioned above did not resolve the issue, please proceed with the following steps to escalate to CCT for further investigation and resolution.

1. Draft an email addressed to CCT at zz-aceis-callcentertechnology@aaa-calif.com

a. Copy the following parties in the CC field of the email: bowen.chuck@ace.aaa.com; gathings.krystal@ace.aaa.com; coffin.ryan@ace.aaa.com; ersverinteam@ace.aaa.com; csateam@ace.aaa.com

2. In the subject line, provide a brief description of the issue with the current date, e.g., "Verint Error 7/18: SearchResults".
3. In the body, briefly state a detailed description of the issue with any relevant information. You should also include steps you've performed to correct the issue.
4. Include screenshots or attachments as needed to assist CCT in their investigation.
5. Send the email and await a response from CCT or PPG.

Note: The recommendations provided do not guarantee resolution of all Verint issues. They are intended to potentially address common issues such as system bugs, glitches, or performance problems. For issues that cannot be resolved independently, it is imperative to escalate them to CCT for further assistance

Voiding ERS Payments

This document is intended to outline the following ERS Payment elements:

ERS Payment Void Scenarios

Payments may be manually voided on the date of service in the following scenario*:

Payment failed to auto-void (e.g. member paid the Early ERS Usage fee but no longer needs service or member paid service charge but subsequently changed membership to role with available calls).

* Exception: Weekend payments taken between 4:00 AM on Saturday through 11:59 PM on Monday close on the following Tuesday at 12:00 AM.

Voiding Agent Payments

Step	Instructions
1	In MRM, select Launch > Membership > EFUM
2	Select An Option: Enter a 2 (Void Payment Entry)
3	Employee ID field: Enter the E# of the employee who processed the payment and press Enter
4	Payments processed by the agent will populate. Check the product ID (membership number) to ensure the correct payment is voided.
5	Type a V on the first column, OTR under Void RSN then press F5 to void the payment. A V will appear under the Void Status column once the payment has been voided.

Voiding Chatbot Payments

Step	Instructions
1	In MRM, select Launch > Membership > EFUM
2	Select An Option: Enter a 2 (Void Payment Entry)
3	Employee ID field: Enter the 999999 for the employee number
4	Club & Member #: Enter the member's club code and 8 digit membership number
5	Product Code: Enter F.
6	Press Enter
7	Type a V on the first column, OTR under Void RSN then press F5 to void the payment. A V will appear under the Void Status column once the payment has been voided.

Void Validation

Validation Method	Steps / Validation
ERS Receivables	1. MRM Portal – In Total Events for All Members, right-click and select View ERS Receivables 2. Click arrow to expand. The amount will reflect $0 and Void is notated.
EFUM	Via EFUM, follow the Void Processing instructions above. If a V appears under Void Status, the payment has been voided
EFTI	Via EFTI, enter EFTI into Transaction Code and press Enter 2. Enter S in Inquiry, enter the member number (only the 8 digits). 3. To view a membership payment (EUF), ERS: N, for all other ERS payments enter ERS: Y. Press Enter. The E# of the agent who voided the payment will appear. For auto-voids, an E# will not appear.

Verifying your Email address in Salesforce:

1. In profile, select settings. Next select Advanced user details.
2. In profile, select settings.
3. Next select Advanced user details.
4. You will see Verify next to your email address. Click Verify.

5. You will receive an email to verify your address in Outlook.
6. Click the link and follow the prompts to log back in to Salesforce.

You will now be able to send emails from CMS.

Voicemail Protocol and Standardized Messaging Scripting

This article outlines criteria and scripting for the following voicemail-related protocols:

Voicemail Follow-up & Contact Priority

Voicemail Criteria

In-Office Scripting

Out-of-Office Scripting

Effective immediately, the following are voicemail requirements for Level II & Level III Member Relations Representatives (Following up on a voicemail from a member is required w/in 1 hour of your shift start during business hours 8AM-5PM PST):

Voicemail password set to [147258]

Update voicemail daily

Use “In-Office” script during normal business days

Use “Out-of-Office” script when the absent (planned vacation, days off, etc.)

Check your voicemail at the start of your shift.

Immediate follow-up is required for members that left a voicemail w/in 1 hour of your shift start time (business hours 8AM-5PM PST).

Check voicemail after scheduled lunch

Member calls received BEFORE 1400PST MUST be returned the same day

Member calls received AFTER 1400PST MUST be returned the next business day worked (the exception is Elevated complaints or MRR Management assignments).

In-Office Scripting

Script Element	Wording
Greeting	“Thank you for choosing the Auto Club of Southern California”
Personalization	“You have reached the voicemail of [your name]".
Bypass Option Offer	“To bypass this message at any time please press the pound key”
Instructions	“Please leave your name, telephone number, membership number and a brief message”
Manage Expectations	“I will return you call as soon as possible”
Escalation Offer	“Please note that if this is an emergency or your call is urgent, please reach out to the Member Relations Team at 866 - 841-0149."

Scripting Example

"Thank you for choosing the Auto Club of Southern California, you have reached the voicemail of [Your Name]. To bypass this message at any time please press the pound key. Please leave your name, telephone number, membership number and a brief message and I will return your call as soon as possible. Please note that if this is an emergency or your call is urgent you may reach, Member Relations Team at 866 - 841-0149."

Out-of-Office Scripting - This includes the scheduled days off.

Script Element	Wording
Greeting	“Thank you for choosing the Auto Club of Southern California”
Personalization	“You have reached the voicemail of [your name]".
Out-of-Offer Expected Return Date	“I am currently out of the office and unavailable. I will return on (state date)”
Instructions	“Please leave your name, telephone number, membership number and a brief message and I will contact you upon my return.”
Manage Expectations	“I will return you call as soon as possible”
Escalation Offer	“Please note that if this is an emergency or your call is urgent, please reach out to the Member Relations Team at 866-841-0149.”

Scripting Example

"Thank you for choosing the Auto Club of Southern California, you have reached the voicemail of [Your Name]. To bypass this message at any time please press the pound key. “I am currently out of the office and unavailable. I will return on (state date). Please leave your name, telephone number, membership number and a brief message and I will contact you upon my return. Please note that if this is an emergency or your call is urgent you may reach, Member Relations Team at 866-841-0149."

Wawanesa FAQ

Effective April 1, 2024, Auto Club acquired the U.S. subsidiary, Wawanesa General Insurance. Wawanesa General will still operate as an independent entity, and the products and services they offer will be separate from the Auto Club.

IMPORTANT: For any questions pertaining to Wawanesa General insurance, policy coverage, roadside service, insurance cards, etc., refer them to the contact information below:

Wawanesa Contact Information

Payments & Questions: 833-304-3051

Roadside Service: 855-WAWA-TOW (855-929-2869)

Website: Wawanesa.com

Claims: 888-WAWA-CLAIM (888-929-2252)

Mailing Address: Wawanesa General Insurance PO Box 85048 San Diego, CA 92186-5048

Auto Club Policy

The Auto Club has been a leader in our communities for over 100 years. We need to carefully manage each interaction to maintain our brand etiquette and our members' trust. While it is natural in a competitive environment to compare products and services to those of Wawanesa General, we must be careful not to make any statements that are inaccurate or disparaging. An inaccurate statement about Wawanesa General directly violates Auto Club policy and is never an acceptable practice.

When engaging in a sales or service conversation with a Wawanesa General insured member, it is important that we:

- Discuss the benefits of Auto Club Insurance without putting down Wawanesa General.
- Emphasize what we know to be factual about Auto Club benefits and services.

Common Questions

Will I have to become an Auto Club member to keep my Wawanesa General insurance?

Answer: No, an Auto Club membership is not required. Contact Wawanesa General for any additional questions regarding your policy.

What happens when it's time for my Wawanesa General policy to renew?

Answer: Contact Wawanesa General with additional questions or to make changes to your policy.

Will my current Wawanesa General roadside assistance benefits change?

Answer: Contact Wawanesa General at 855-WAWA-TOW (855-929-2869) or online at wawanesa.com for roadside assistance questions.

Will rates increase due to Auto Club acquiring Wawanesa General?

Answer: Wawanesa General operates separately from the Auto Club. Please contact Wawanesa General directly for any questions or to discuss your Wawanesa General policy.

WFI Reporting - User Activity

The WFI report provides the Member Relations management with a view of individual workstation activity to assess agent performance and productivity. The following is an example of WFI reporting:

Idle: The amount of time the agent was not actively engaged in applications and is expected to be less than 1 hour.

Locked: The amount of time the computer is locked when the agent is away from the desk, ex: lunch and breaks. Locked time is expected to be around 1 hour and 15 minutes.

Westways Magazine Suppression – Protocol

This article outlines the process to suppress the Westways and other Club magazines:

- **California (004)**
- **All other markets**

California (004)

When a 004 member requests an opt-out of the member magazine subscription, the following protocol applies*:

- Send an email with member information to **MbspMagazineSuppression@ace.aaa.com**

***CA members only. For other markets, see below.**

All Other Markets

When a member requests an opt-out of the member magazine subscription, the following protocol applies (excludes 004 members)*:

- Process changes in MRM (under the Communication Preference).

The Preference is called Magazine and Legal Notices and is available in the Paperless Communication section. Simply click the 'toggle' button" to set the Paperless ACE Magazine and Legal Notices preferences to "Yes" and advise the member of the information in the pop-up message.

When a member's Magazine and Legal Notices preference is changed, the preference will be synced by the system for ALL members on the next day.

HD - Quality Assurance Guide Update

Guidance was added to Problem Identification / Discovery and Coach & Redirect behaviors to guide agents to the SRT Overrides Team Channel to keep the phone line available for escalations.

Problem Identification / Discovery

Gather the information needed to fully understand the concern before attempting to provide guidance or a resolution. Actively listen, ask relevant follow-up questions, and review available details to identify the underlying issue, understand the circumstances, and determine what troubleshooting or actions have already been completed.

For callers seeking assistance with a question rather than an escalation, confirm whether they have already used Ask ACE. If the agent advised they used Ask ACE, ask how they posed the question to Ask ACE.

Scenario	Suggested Script
General	“Did you try using Ask ACE?”
Ask Ace Not Attempted	"What question can I help you with?"
Ask Ace Attempted	“Thank you for using the Ask Ace Tool. It is a great resource for policy and procedure questions. Please read me the question you submitted to the Ask Ace Tool."
For callers requesting an Override	If an override was requested in the SRT chat, apologize and assist with the override. "Did we miss your request in the SRT Override chat?"

Coach & Redirect

Applies only to employee discussions.

When appropriate, provide coaching or redirection that helps the caller understand the correct resource, process, or next step for similar situations in the future.

For Help Desk calls, this may include coaching agents on the appropriate use of self-service resources such as Ask ACE or the Knowledgebase, directing them to the appropriate support channel or department, or helping them understand how similar questions can be resolved independently in the future.

When an agent contacts the Help Desk for a request that requires an override, allow, or escalation assistance, coach the caller on the correct queue to use for future contacts.

For Ask ACE coaching, this may include demonstrating an effective prompt or sharing the information located in Ask ACE to help the agent understand how to use the resource successfully.

Scenario	Suggested Script
General Escalation Coaching	“Going forward, please contact the Escalations line when a transfer is needed to ensure you are routed to the appropriate MRR.”
Ask Ace Not Attempted	“To obtain the information needed, please enter the following in Ask Ace…”
Ask Ace Attempted But Missing Key Details	“Let’s rephrase your question by including where the member is needing service, please enter this in your Ask Ace."
Override Script	“Don't forget all override requests should go to the SRT Override Chat."

***MRM Update* Call Status**

MRM was updated on 10/8 and will now show service calls In Progress in FSL as counted unless and until the call is cleared with a No Count status.

This was to help prevent calls from getting "stuck" in Pending status and to clarify the status for non-ERS users. If the call is cleared with a no-count status, NSR/Cancelled/Allowed etc it should update accordingly in MRM. If you see an instance where that does not happen after 10/8, please let MRR Mgmt know the call id and date in question so we can elevate.

MRM - Change Event Functions

Update Allowing Calls is now MRM - Change Event Functions
The Allowing Calls article has been retitled to MRM - Change Event Functions to better describe all of the instructions included in the article which includes

- **Allowing Calls**
- **Verifying Allow**

Processing CMS Cases

Process an AAR Compliment:

1. **Open a Case**
    1. From Home, click Cases
    2. Click on the down arrow next to Recently Viewed and select (correct club) CMS AAR/CCC cases.
    3. If necessary, filter on Date Opened and click on the oldest case.
2. **Take Ownership**
    1. Change **Case Owner** to yourself.
    2. Change the **Status** to In Progress via Additional Information field.
3. **Review the Case**
    1. Determine the AAR facility and AAR Technician
4. **Create a Child Case**
    1. At the top ribbon, select Create Child Case
    2. Under the Create Child Case window, ensure the following are updated:
        1. Account - Member is populated
        2. Status - New
        3. Type - Compliment
        4. Event Category - Approved Auto Repair Shop
        5. Event Subcategory and Key Type are not active.
        6. Save
        7. Open from the green box.
        8. Update the case owner
        9. Click send notification email. Click change owner.
    3. Exit the child case.
5. **Close the case**
    1. **Go back to the parent case**
    2. **Complete the milestones.**

1. **Member Contact - Complete**
2. **Case Closed - Complete**

3. **Set to Closed status.**

Process an AAR Complaint

1. **Open a Case**
    1. Click Cases
    2. Click on the down arrow next to Recently Viewed and select AAR CMS Open cases.
    3. Click on the oldest case that appears in the view.
2. **Take Ownership**
    1. Change Case owner to yourself.
    2. Change the Status to In Progress via status bar.
3. **Review the Case**
    1. View case details for necessary action
    2. If the case is related to another case (service) review if applicable.
    3. Search for related cases.
    4. If another case is found:
        1. Copy/paste description in the newer case into case notes of the older case
        2. post in the older case member called back (dup case)
        3. Close the newer case.
4. **Take Actions**
    1. ***If the case can just be closed with an apology:***
        1. **Email**
            1. Select the appropriate email template to send to the member.
            2. The 3rd image at the bottom of the email template, select the insert letter template.
            3. Click on Send at the bottom of the email template to send the email
        2. **Product**
            1. Click on Product Request
            2. Under Product request, update the status to Closed/No Approval Required
            3. Under Product Request, update the resolution Code to 'Email-No Action Required' and select save.
        3. **Milestones:**
            1. On the milestones to the right, select 'Mark Complete' on the First Response to CMS Case as an action item.
            2. If Case Expiry appears via the Milestones, select 'Mark Completed'
        4. **Document**
            1. Document actions taken in the Internal Comments area > Additional Information tab.
            2. Ensure the appropriate AAR is listed in documentation.
        5. **Close the Case**
            1. In the Additional Information section, update the case status to Closed.
            2. Close all tabs associated with the complaint you just closed.
    2. ***If the case needs to be assigned to an AAR Representative***
        1. Create a Child Case
            1. At the top ribbon, select Create Child Case
            2. Under the Create Child Case window, ensure the following are updated:
                1. Status
                2. Type
                3. Event Category
                4. Event Subcategory
            3. In the owner field, select the appropriate AAR representative.
            4. Click send notification.

3. ***If contact is required by phone prior to action:***
    1. Select Log Call and enter the requested information
    2. Select the milestone contact member and mark complete
        1. If the member is unavailable, and you asked for them to return your call, place the status in Pending member contact.
        2. Send contact email
        3. If the member does not return the call in 2 business days, close the case.
            1. Document
            2. Complete the Closed Case Milestone
            3. Close the case

Process a Battery Reimbursement:

Battery Reimbursement Requests will be processed via the mailbox until the next CMS development phase.

1. **Search for existing cases**
    - In the member's account, look in CMS Cases
    - If a case is found:
        - Review the description to insure all information is included and correct.
        - Open and process
        - If no case is found, create a new one.
2. **Create a Case in CMS**
    - Go to the member's account
    - Select Workorders
    - Select the work order related to the battery reimbursement
    - On Cases, select New
    - Select CMS and Next
    - Select the Account
    - Origin is Email
    - Type is reimbursement
    - Event Category is Reimbursement
    - Event Subcategory is Battery Warranty
    - Enter the Phone and Email Address
    - Select Save
    - The case will open
3. **Take Ownership**
    - Change **Case Owner** to yourself.
    - Change the **Status** to In Progress via Additional Information field.
4. **Contact member**
    - **ONLY if required to obtain additional information or receipts.**
    - **On the milestones to the right, select 'Mark Complete' on the First Response to CMS Case as an action item**
    - **Log the call.**
        - **If no contact, (leave contact information) put in Awaiting Member Response status.**
            - **After 48 hours, close**
            - **Post (in Feed Tab) instructions as to what information is needed from the member (i.e. docs, contact, how much refund)**
    - **Send email "Request Information - Battery Reimbursement". The member will upload documents to the reply.**
5. **Product**
    - Click on Product Request
    - Resolution Code - Battery Reimbursement.
    - Enter the amount
    - Cost Code - Battery Warranty
    - Approved By - None
    - Description - MRR Admin

- Status - Approved

6. **Email the Member**
   - Select the Battery Resolution email template
   - Enter the member email in TO
   - Preview to ensure it is correct.
   - Send
7. **Milestones:**
   - Mark Close Case as completed
   - If Case Expiry appears via the Milestones, select 'Mark Completed'
8. **Document**
   - Document actions taken in the internal comments field via the Additional Information section.
9. **Close the Case**
   - In the Status Bar, set the case status to Closed.
   - Close all tabs associated with the complaint you just closed.

Processing a Battery Complaint

1. **Open a Case**
   a. From Home, click Cases
   b. Click on the down arrow next to Recently Viewed and select ACSC Battery Queue.
   c. If necessary, filter on Date Opened and click on the oldest case.
2. **Take Ownership**
   a. Change **Case Owner** to yourself.
   b. Change the **Status** to In Progress via Additional Information field.
3. **Review the Case**
   a. View case description for necessary action
   b. Search for Duplicates
      - In the Related cases, look for a case that is the same issue, or
      - In the member's account, look in CMS Cases
      - If a duplicate is found, close the newest case.
        - Review the description in the case you are closing to insure all information is included.
        - Type Duplicate in the Subject.
4. **Take Actions: If the case can just be closed with an apology or apology/allow:**

   Email:
   a. In Feed, Select Email.
      - Ensure the **TO** filed has the member (Add if applicable).
      - Type the correct information in Subject.
      - Select the appropriate email template to send to the member.
      - Click on preview to ensure the correct template was selected. Update the email if applicable.
      - Click on Send at the bottom of the email template to send the email.
      - Allow the call in MRM if applicable.

   b. **Product:** Click on Product Request
      - Status - Closed/No Approval Required
      - Resolution - Allow call if applicable or 'Email-No Action Required' and select
      - Document reason call allowed in description and save.

   c. **Milestones:** Select 'Mark Complete' on the First Response to CMS Case as an action item.
      - Select 'Mark Complete' on the Case Expiry
      - Select 'Mark Complete' on the Close CMS Case.

   d. **Close the Case:** In the Status Bar, update the case status to Closed.
      - Close all tabs associated with the complaint you just closed.

Phone contact required:
   a. On the milestones to the right, select 'Mark Complete' on the First Response to CMS Case
   b. Log the call.
      - If no answer, (leave contact information)
        - Send Contact Request Email
        - Set Status bar to Awaiting Member Response.
        - Post (in Feed Tab) instructions as to what information is needed from the member (i.e. docs, contact, how much refund)

Compensation requested: (excludes Warranty)
1. Place status in Response Received
2. Send the Battery Reimbursement email to the member.
3. Document the outcome in CMS Case Notes.
4. Product Request:
5. Select the appropriate Compensation in the Resolution Code
   - Enter in the Amount field
   - Select the cost code for AAA
   - Select MRR Management for the approver
   - Set Product Status to Submitted
   - Select Save
6. **Document**
   - Document in Case Notes. Notate approval if applicable.
7. **Milestones:**
   - Select 'Mark Complete' on Case Expiry.

- Select ‘Mark Complete’ on Close CMS Case.

8. **Close the Case**
    - In the Status Bar, select Closed and Mark current status.
    - Close all tabs associated with the complaint you just closed.

Process a Call Center Complaint

1. **Open a Case**
    1. From Home, click Cases
    2. Click on the down arrow next to Recently Viewed and select All CMS Open cases.
    3. Type or Click on the down arrow and click on the CMS Battery queue.
    4. If necessary, filter on Date Opened and click on the oldest case.
    5. Look for RC in Subject
    6. **Take Ownership**
        1. Change **Case Owner** to yourself.
        2. Change the **Status** to In Progress via Additional Information field.
    7. **Review the Case**
        1. View case description for necessary action
        2. Search for Duplicates
            - In the Related cases, look for a case that is the same issue, or
            - In the member's account, look in CMS Cases
            - If a duplicate is found, close the newest case.
                - Review the description in the case you are closing to insure all information is included.
                - Type Duplicate in the Case Notes.
2. **Take Actions**
    1. **If the case can just be closed with an apology or apology/allow:**
        1. **Email**
            - In Feed, Select Email.
            - Ensure the **TO** filed has the member (Add if applicable).
            - Type the correct information in Subject.
            - Select the appropriate email template to send to the member.
            - Click on preview to ensure the correct template was selected. Update the email if applicable.

        3. If the member prefers email, email using the member damage contact template.
    2. **Email**
        1. Select the Investigation email template to send to the service provider.
        2. Obtain the service provider email from the MRR Hub > Facility List
        3. Send an email via the Feed section.
        4. The 3rd image at the bottom of the email template, select the insert letter template.
        5. Search for the type of letter in the Insert Email Template window
        6. Click on preview to ensure the correct template was selected
        7. Click on Send at the bottom of the email template to send the email
    3. **Assign Tasks**
        1. Assign the appropriate Task to the CSR Supervisor if applicable
        2. Create Task under Feed tab
        3. Send the appropriate email. Ensure the thread is visible in preview.
    4. **Product**
        1. Click on Product Request
        2. If payment is to be made, select Damage Deduction, Contractor Repair/Refund Damage or Goodwill.
            1. If both, select 2 products.
                1. Damage Deduction - MRR investigation found ICS liable
                2. Contractor Repair/Refund Damage - Contractor agreed to refund the member for the damages
                3. Goodwill - MRR offering goodwill compensation, unable to hold the ICS liable for the damages
        3. Under Product Request, update the Resolution code to one of the above; Damage Deduct, Contractor Repair/Refund Damage or Goodwill
        4. Under Status, update the status to one of the following; Submitted and/or Approved
        5. If the ICS is not found liable for the damages, select Damage Denied under Product request.
        6. Under Status, update the status to Rejected and select save.
    5. **Milestones:**
        1. On the milestones to the right, select 'Mark Complete' on the First Response to CMS Case as an action item.
        2. If Case Expiry appears via the Milestones, select 'Mark Completed'
        3. Select 'Mark Complete' on the First Response to CMS Case as an action item.
    6. **Document**
        1. Document actions taken in the internal comments field via the Additional Information section.
        2. Ensure the appropriate ICS is listed in documentation.
    7. **Contact member with resolution**
        1. Log Call
        2. Document results
    8. **Close the Case**
        1. In the Additional Information section, update the case status to Closed.
        2. Close all tabs associated with the complaint you just closed.
        3. **Letter**
            1. Send a contact letter if no email is on file.

Damage Case - East Central

1. **Open a Case**

1. Click Cases
2. Click on the down arrow next to Recently Viewed and select "CMS Damage cases - New."
3. Click on the oldest case that appears in the view.

2. **Review the Case**
    1. View the CMS case details.
    2. Review the service case.
3. **Search for existing Cases**
    1. Look for cases in the Related Cases list under the Related tab.
    2. If no cases are found and you believe a case is not listed, search in the global search field. Enter the member's name followed by "case"
    3. Agents should post on existing cases if a member calls back. If, however, they are unable to find an existing case and create a new one, the newest case should be closed.
        1. Post on the oldest case that the member called back. This should alert the owner of the oldest case.
        2. Close the newest case
4. **If the case is to be reassigned to CSR**
    1. Determine the CSR supervisor of the facility
    2. Create a Child case
    3. Assign it to the applicable CSR Supervisor
    4. Close the case.
5. **If you are to process the case**
    1. **Take Ownership**
        1. Change Case owner to yourself. Change the Status to In Progress in the Additional Information section.
    2. **Contact the Member**
        1. If the member prefers phone contact, Select Log Call and enter the requested information
        2. Select the milestone contact member and mark complete
            1. If the member is unavailable, and you asked for them to return your call, place the status in Awaiting Member Response.
            2. If the member does not return the call in 2 business days, close the case.
                1. Document
                2. Complete the Closed Case Milestone
        3. If the member prefers email, email using the Member Damage Notification template.
        4. Select 'Mark Complete' on the First Response to CMS Case as an action item.
    3. **Contact the Facility**
        1. **Determine Resolution**
            1. **If CSR needs to be involved in this phase, create a child case.**
                1. **Determine the CSR supervisor of the facility**
                2. **Create a Child case**
                3. **Assign it to the applicable CSR Supervisor**
                4. **Close the existing case.**

h. Click on Send at the bottom of the email template to send the email

f. **Close the Case**

a. In the Additional Information section, update the case status to Closed.

b. Close all tabs associated with the complaint you just closed.

Processing Level 1 Review

1. **Open a Case**
   A. From Home, click Cases
   B. Click on the down arrow next to Recently Viewed and select:
      - CMS CHANT Facility
      - CMS CHANT Call Center Agent
      - CMS CHANT System Issue
      - CMS CHANT Membership
      - CMS CHANT SIU
      - CMS CHANT Reimbursement
      - CMS CHANT Service Verification
      - CMS CHANT AAA Compliment
      - CMS CHANT Facility Compliment
   C. If necessary, filter on Date Opened and click on the oldest case.
2. **Take Ownership**
   A. Change the **Status Bar** to In Progress and Mark as Current Status.
3. **Review the Case**
   A. View case description for necessary action
   B. Search for Duplicates
      i. In the Related cases, look for a case that is the same issue, or
      ii. In the member's account, look in CMS Cases
      iii. If a duplicate is found, close the newest case.
         - Review the description in the case you are closing to ensure all information is included.
         - Type Duplicate in the Subject.
4. **Take Actions: If the case can just be closed with an apology or apology/allow:**
   A. **Take ownership -** Change the Case Owner to your name
   B. **Email**
      - In Feed, Select Email.
      - Ensure the **TO** filed has the member (Add if applicable).
      - Type the correct information in Subject.
      - Select the appropriate email template to send to the member.
      - Click on preview to ensure the correct template was selected. Update the email if applicable.
      - Click on Send at the bottom of the email template to send the email.
      - Allow the call in MRM if applicable.
   C. **Product**

- Click on Product Request
- Status - Closed/No Approval Required
- Resolution - Allow call if applicable or 'Email-No Action Required' and select
- Document reason call allowed in description and save. Document any additional findings as applicable.

D. **Milestones:**
- Select 'Mark Complete' on the First Response to CMS Case as an action item.
- Select 'Mark Complete' on the Case Expiry
- Select 'Mark Complete' on the Close CMS Case.

E. **Close the Case**
- In the Status Bar, update the case status to Closed.
- Close all tabs associated with the complaint you just closed.

If it cannot be closed by you:

1. **Document**
   - Document in Case Notes why
2. **Task**
   - Subject Internal dept follow-up
   - Save
3. **Details - Change Subject line to RC**
4. Set the Status Bar back to New
5. Exit the Case
   - Ensure the queue is the owner
   - In the Status Bar, select new mark current status.
   - Close all tabs associated with the complaint

Process a Membership Issue:

1. **Open a Case**
   - Click Cases
   - Click on the down arrow next to Recently Viewed and select All CMS Open cases
   - Click on the down arrow and click on the CMS Membership queue. New view will only have cases with the Status as New and Case Owner is set to CMS Facility
   - Click on the oldest case that appears in the view.

        3. Select 'Mark Complete' on the First Response to CMS Case as an action item.
    6. **Document**
        1. Document actions taken in the internal comments field via the Additional Information section.

2. Ensure the appropriate AAR is listed in documentation.

7. **Email**
    1. Select the appropriate email template to send to the member.
    2. Send an email via the Feed section.
    3. The email for the member will automatically populate
    4. The 3rd image at the bottom of the email template, select the insert letter template.
    5. Search for the type of letter in the Insert Email Template window
    6. Select the CMS contact letter template
    7. Click on preview to ensure the correct template was selected
    8. Click on Send at the bottom of the email template to send the email
    9.
8. **Close the Case**
    1. In the Additional Information section, update the case status to Closed.
    2. Close all tabs associated with the complaint you just closed.

CMS Case Features

Finding a Case (looking for Duplicates or Related Cases and Work orders)

A Salesforce case can be found a number of different ways. There is a search bar at the top of the screen where you can look up the member's name, case number, membership number, phone number or email. You can also search a Service Provider name to locate their information.

You can also find cases on a member's account. Search in the global search box for the account. All of the cases are listed under the cases tab.

Related CMS cases, based on Membership number or work order, can be found under Related > Related Cases.

What is a Child Case?

A Child Case is a case created off of an existing "parent" case. A Child case is created:

- When you perform an action on the case, but the case needs to be completed by another department or person. This way, reporting shows you did your part, but the remainder needs to be completed by someone else.
- When the member has more than one issue. When you create a child case in this circumstance, you can work and close both, or send the Child case to someone else (i.e. The case is about the facility, but you find out there is damage that needs to be handled at a higher level).

You can see all of the Child Cases attached to a case by clicking the View Case Hierarchy button.

An existing case can also be made a Child Case by changing the parent case.

When to create a Child Case:

1. Multiple issues
2. An AAR Complaint or Compliment
3. A Critical Incident

How to create a Child Case:

1. Multiple Issues:
    1. Open a Case
    2. Process the Case
        1. Review, Document, and add a Product
    3. Create a child Case
        1. Fill out the required information
        2. Create
        3. Owner: Queue
            1. The Category and Subcategory will select the Owner
            2. Allow the notification email
        4. Owner: Keep Ownership

            1. Open the Child Case
            2. Take Ownership
        4. Process as applicable.
2. AAR
    1. Open an AAR Case
    2. Process the Case
        1. Review, Document, and add a Product
    3. Create a child Case
        1. Fill out the required information
        2. Create
        3. Change owner to the appropriate AAR Technician
            1. Allow the notification Email
        4. In subject, type AAR
    4. From the Child Case, open the Parent Case.
    5. Allow the notification Email
    6. Close the parent case
3. Critical Incident
    1. Open a Case
    2. Process the Case
        1. Review, Document, and add a Product
    3. Create a child Case
        1. Fill out the required information
        2. Create
        3. Change owner to the appropriate CSR Supervisor
            1. Allow the notification Email
        4. In subject, type Critical Incident
    4. From the Child Case, open the Parent Case.
    5. Allow the notification Email
    6. Close the parent case

Changing the Parent Case

If a member calls back on a case that has been closed, you can make the new case into a child case.

1. Go to Details
2. Edit the Parent case
3. Delete the existing case. On new cases, it will probably be the service order.
4. Enter the parent case number
5. Select Save.

Where to Document

Details > Description

- The comment information entered by the ERS agent, or the member will populate in the Description field.
- Do not edit the Description at this time. Use the comment features below to enter your notes.

Feed > Case Comments - or - Quick Links > Case Comments

- Open Case comments and click new
- Fill in the text
- Check if you want to make the comment public.
- DO NOT use notify the customer. This will be used in the future.

Feed > Post

- Enter any instructions for an agent receiving a callback form the member. For example, if the case is not closed and you have attempted to reach the member, enter the information you need. The agent will post a response from the member. This should notify you and appear on your dashboard.

Posts will send a notification to anyone following the case.

Product Requests > Description

Enter additional detail here. The Description for the product will be used for approval.

Feed > New Task > Comments

- This will be where you detail information when creating a Task for CSR/Damage/Investigation Notice. Enter any information you wish the CSR Supervisor to know pertaining to the case.

Emails

The use of emails will change as the application is enhanced. When in doubt, use the back up (i.e. current, non-CMS emails - then upload to the case)

Email is a large component of Member Communication in CMS. Note:

- There will eventually be a template for each email you are required to send.
- Each email. as applicable, will contain "thread" that allows the member to update the case by responding to the email.
- Emails contain merged fields that pull information from the case. In most cases, you will not need to alter the email. Altering the email does not change the template.
- Emails will, when applicable, be used to close the case.
- You will need to indicate you sent an email in Product Requests.

To send an email

1. Click on the Feed tab

2. click on the Email tab
3. Select the recipient. The email should populate the name of the avcount holder for whom the CMS case was created. If ou need to change the recipient, you can enter the on the
4. The default subject will be Your Roadside Service. You can leave it or change it if the circumstances warrant.

5. Go to the bottom of the email and select Insert Template
6. A box will appear with you most recent templates. If the one you want is not in the list, click insert a template. You can select a template form the list. Under Template folders, ensure you have the correct market (CHANT, NNE, or EC)
7. Preview the email to ensure everything is correct. You can change anything in the email without affecting the template.
8. Send. Be sure to mark the appropriate Milestone and create the appropriate Product Request is applicable.

Log a Call when contacting the Member

- Log a call under Feed > Log a CMS Call., or the Log a Call button in the action buttons at the top of the page.
- Fill out the fields.
- Mark Complete the First Response to CMS Case Milestone if applicable.

Milestones

Milestones act as timers for a case. There are three (3) Milestones:

- **First Response to CMS Case:** This is the time from Case Assignment to Contacting the member, either by phone or email. Mark this complete when you attempt to contact the member.

  If you attempt to contact the member by phone and leave a message, mark this milestone complete and put the case in Awaiting Member Response status in the status bar. If applicable, send the Contact Request email
- **Close CMS Case:** This is a timer for Case Assignment to Close. Mark this milestone complete
- **Touchpoint for CMS Case:** This appears if you log a call.

Take Ownership:

Ownership denotes the person responsible for processing the case. If you need to transfer responsibility, you will need to create a child case. The first owner of a case will be the Queue, based on the categorization.

To take ownership of the case:

• Open a case	• Under Details, select Edit next to Owner	• Enter your name	• Select Change Owner

You will not be able to directly reassign a case. If you determine the case involves an issue you do not work (the category is incorrect):

1. Edit the Case Type, Category Subcategory and Key Type as applicable
2. Save (Do not click Keep Ownership).
3. The case will be routed

• Edit the Case Type, Category Subcategory and Key Type as applicable	• Save (Do not click Keep Ownership).	• The case will be routed

Posts

Posts are used to update a case. This will primarily be in the following situations:

- You need to convey instructions to any agent who may take a member's callback on the case. For example, you may need the agent to obtain a piece of information you need to complete processing, or you may need to agent to find out what time is best to call. The agent will see the post when they open the case and interact with the member appropriately.
- The agent taking a member's callback needs to provide you information. They can open the case and make a post to let you know the member called back.
- Any time you want the people following the case to be notified of an update.

Product Requests

Using Product Request enables us to offer multiple resolutions or products to a member to address an issue. Whether it's providing an email or a reimbursement, any solution given to the member to resolve a case is recorded as a Product request.

The initial step is to open a new product request. Select the New button on the Product request list view accessible by hovering over Product request in Quick links. You can also select the new button on the Product request section under the Related tab.

Next, select the item or restitution for the member as applicable. MRR protocol requires the creation of a product request when sending an email or requesting a paper letter be mailed to a member.

Case Status definitions

Case Status definitions are as follows:

New: Status created when c case is created and waiting in the queue.

In Progress: When processing a CMS case but have not attempted contact.

Awaiting Facility Response: Only for use on Damage Cases where the MRR is waiting of information or response from a Facility

Awaiting Member Response: To be used when you have attempted contact and are awaiting the members response

Response Received: Primarily for Damage when you have received a member response but are processing.

Tasks

The current uses for tasks are as follows:

1. You can use Task to assign something to a CSR Supervisor or Tow instructor. This will primarily be in relation to an Investigation Notice.
    - Under Relate Tab > Open Activities, select New Task
    - Assign the task
    - Ensure the Related To case is correct
    - Select a Subject
    - Do not use Name for now
    - Enter a Due Date
    - Enter Comments.
    - Save

2. A supervisor may assign you a task. These Should show up on your dashboard.

Functionality: Queues

Salesforce cases are sorted by category/subcategory and assigned to queues. The queue is filtered by Club. The queues for Emergency Road Service that you will be working primarily are:

CMS AAR/CCC	CMS Call Center Agent	CMS Facility	CMS Reimbursement*	CMS System Issue
CMS AAR/CCC Compliment	CMS Call Center Compliment	CMS Facility Compliment	CMS Service Verification	My Cases
CMS Battery	CMS Damage	CMS Membership	CMS SIU	My Open Cases

To select a queue:

Open CMS from the App Launcher	Select Cases	Select the desired queue from the dropdown. You can type a name in the Search Lists field or scroll.

When working cases, you will need to select the oldest that is not being worked. A case will not appear in the queue unless the status is New. To get the oldest, click on Date/Time opened. When the arrow points down, the oldest is at the top.

You can also check to see if the case is being worked by looking in the Owner and Subject columns, depending on the case type.

CMS Additional Information - Complaint:

The Member wants to submit a complaint regarding:

- **AAR/CCC:** Any complaint regarding an AAR or Car Care Center (CCC).
- **Battery**: Any issue pertaining to battery warranty. Also includes damage caused by a battery installation or Jumpstart. If the member's issue is in relation to a failed jumpstart or a facility was unable to provide a jumpstart, enter the issue under facility.
- **Call Center Agent:** Any issue pertaining to the member's interaction with a AAA employee.
- **Damage:** Any Damage issue regarding property or vehicle damage as a result of service. Do not place damage under Facility. Battery damage can be entered under damage or Battery Event Categories.
- **Facility:** Any issue pertaining to the member's interaction with the facility during service.
- **System Issue:** Any issue the member may have had with AAA technology while requesting or waiting for service.

AAR/CCC

Event Category	Event Subcategory	Key Type	Description
AAR/CCC	Agent provided a Shop that can't repair my Vehicle	**- NA -**	Agent recommended wrong type of shop.
	Agent Quoted member a different price	**- NA -**	Agent quoted incorrect price.
	Appearance of the shop, cleanliness	**- NA -**	Cleanliness of the Shop or vehicle upon return
	Communication with the shop	**- NA -**	Shop did not communicate with member about price, time, etc.
	Cost was too high or it cost more than quoted	**- NA -**	Member believes the cost of the repair was too high or the final cost was more than quoted.
	Damage to my vehicle	**- NA -**	The shop damaged the vehicle
	Poor customer service or Inappropriate Behavior	**- NA -**	Behavior of the shop employees.

	Poor workmanship	**- NA -**	The repair provided by the shop was subpar.
	Shop made repairs I did not authorize	**- NA -**	The shop performed services that were not authorized in advance and they are charging for those services.
	Shop made repairs that were unnecessary	**- NA -**	The shop performed repairs that were no needed and they are charging for those services.
	Shop unable to repair my vehicle	**- NA -**	The shop is not able to perform the repairs necessary to repair the vehicle.

Battery

Battery	Battery was not available	Battery not available (Facility)	The facility did not have the required battery.
		Battery not available (BSP)	BSP service was not available in that area.
	Battery Cost or unexpected fees	Cost of battery (initial purchase)	The cost of the initial purchase was too high.
		Fee for installation or labor	The facility charged additional fees for installing the battery.
		Fee for replacement parts/labor	The facility charges additional fees for a warranty installation where the battery was covered.
		Other fee	Any additional installation or labor fees not listed above.
	Battery Jumpstart didn't work or incorrect results	Jumpstart	
		Misdiagnosis (Battery or Alternator)	
		Reset (Radio or Clock)	
	Installation caused damage to my vehicle	Damage caused by battery (Acid)	
		Damage caused by battery (Cross Polarity)	
	Issue with the AAA Warranty	**- NA -**	Member has an issue with
